Welcome to EDCI 943, Spring 2012.

Tues/Thurs 9:30-10:45, 212 Fairchild Hall

Instructor: Dr. Victoria Clegg
215 Fairchild Hall (second floor, purple door)
Tel: (785) 532.7828
E-mail: vclegg@ksu.edu

The course website is http://www.k-state.edu/catl/edci943

Principles of College Teaching is a graduate-level course offered both fall and spring semesters through the College of Education to graduate students and faculty. The course is designed to help you think about teaching and learning at the college and university level. You will have the opportunity to develop or enhance teaching skills as a result of your work in the class, although the development of particular teaching skills is not the exclusive aim of the course. What you gain from the course will depend upon you -- your focus and your effort.

Dr. Victoria Clegg (vclegg@ksu.edu) is the instructor of this course. She is also the Director of the Center for the Advancement of Teaching and Learning at Kansas State University, and consults and collaborates with faculty groups and individuals to enhance instruction at K-State.

Mr. Ben Ward is an instructional designer in the Information Technology Assistance Center. He joins the instructional team for the course because all those who teach in the present and the future will need to learn a thing or two about ways to facilitate student learning by using technology efficiently and effectively in both the face-to-face classroom and the online environment.

Ms. Manpreet Rai is the graduate teaching assistant for the class during the Spring 2012 semester. She is a doctoral student in Psychology, with a focus on the cognitive sciences. Manpreet also works in the Center for the Advancement of Teaching and Learning.
Are these learning spaces?
It’s all a matter of perspective.
Where is your learning space?
