2018 Summer Internship Program

Course Information

The Links of North Dakota is a championship 18 hole part 72 semi-private facility. The course has regularly been on the top 100 modern golf course list. We are also considered North Dakota's number #1 golf course by Golf Week and Golf Digest. Nationally recognized The Links of North Dakota presents golfers with an authentic links style golfing experience on the bluffs overlooking Lake Sakakawea.

Job Description

We at the Links are searching for highly motivated individuals with a passion for turfgrass management. These individuals will help with day to day operations and managing the crew. Interns should have a drive to learn how and why things are done on course. Interns will be trained in all golf course maintenance procedure. This includes water management, equipment operation, course set up, calibration and application of fertilizers and pesticides, irrigation troubleshooting and repair, cultural practices, creating projects and managing them, also tournament preparation. The course's location is along the shores of Lake Sakakawea which provides great vista views of the lake and surrounding area as well as interaction with the regions wildlife. This location provides applicants with excellent fishing and boating opportunities as well.

Job Qualification

Applicants enrolled in a 2 year or 4 year Turf Management course or Horticulture based program will get the most benefit from this internship.
