

**WHEN YOU'RE WASHING YOUR CAR IN
THE DRIVEWAY, REMEMBER YOU'RE
NOT JUST WASHING YOUR
CAR IN THE DRIVEWAY.**

**All of the soap, scum, and oily grit runs along the curb.
Then it flows into the storm drain and directly into our lakes and streams.
That causes pollution, which is unhealthy for fish...and people.**

So how do you avoid this mess?

**Easy. Wash your car on grass or gravel instead of the pavement.
Better yet, take it to a car wash where the water gets treated and recycled.**

**To learn more about the City of Manhattan's Stormwater Management program,
call the Stormwater Hotline at (785) 587-2441 or visit our website at
