

1 out of 4 of college women will have suffered a rape or attempted rape between age 13 and graduation from college. Women must take into account what the risk factors are in every activity they plan. Women are often scolded & admonished to take precautions (lose freedoms) in their day-to-day lives. Don't walk alone. Don't hike alone.

"Shut and lock your windows on a breezy Saturday night..."

**This is not FAIR. This is not RIGHT. But it is TRUE.**

**There are many ways you can get involved. But FIRST, know how to lower your risk of assault.**

Don't learn to be afraid—  
Learn to be observant,  
trust your senses and intuition.  
Remember, it is OK in some situations  
to be RUDE!  
If you suspect you are in a dangerous situation,  
FLEE. MAKE NOISE.
