Mapping the Road to Finals

PRIORITIZE

- Figure out your best & worst case GPA using the GPA Calculator.
- Use Canvas "what if" grades to see how your final exams may impact your grades.
- Identify courses that need to be prioritized: Which class needs the most attention? Which needs the least?

RESOURCE EVALUATION

- Make a list of all study materials.
- Identify class work you didn't do well on & brush up on the content.
- Where did the content come from on previous exams? Was it from lectures, readings, or notes?
- What areas or topics will your final exam focus on? Is it a comprehensive final or a unit test?
- Study effectively using the Bloom's Taxonomy handout.

CREATE YOUR PLAN

- List your exam dates on the calendar along with any other projects & deadlines.
- List any social events, work, or obligations that may impact study time.
- Where did the content come from on previous exams? Was it from lectures, readings, or notes?
- What areas or topics will your final exam focus on? Is it a comprehensive final or a unit test?
- Study effectively using the Bloom's Taxonomy handout.

- Start with your highest priority class & devote the most study time to this class.
- Schedule remaining study time around your highest priority class.

MAINTAINING INTEGRITY

- Review proper and improper collaboration. Check the syllabus for information.
- Reach out to your professor during office hours or email to ask questions.
- Make a preparation strategy for high stakes exams and assignments.
- Stay away from online "help" sites such as Chegg or Course Hero.

DID YOU KNOW?

Students with more than 2 finals in one 24-hour period can request an alternative test date.
