

# **Chemistry & Biochemistry Abroad**

## **Timeline for Your Adventure**

- o Attend an Abroad 101 session: 304 Fairchild Hall. Find dates and times at k-state.edu/abroad/dates.html
- Contact an Education Abroad Advisor to discuss your program options: Call 785-532-5990 to schedule an appointment
- o Contact your Academic Advisor to discuss how education abroad fits in with your degree plans
- Apply at <u>www.k-state.edu/abroad/apply</u>
- Research scholarships and financial aid

The following is a sample of programs. Search the complete program list at <u>www.ksu.edu/abroad</u>

## Study Abroad (Semester)

#### Melbourne, Australia

#### Exchange program: Deakin University

Great for: Chemistry, Biochemistry, Mathematics, Biology

**About:** Set in Melbourne, Australia's second largest city and rated one of the most livable cities in the world, Deakin allows easy access to beaches and many of the country's cultural institutions. Deakin offers many courses in the STEM fields, including organic chemistry, biochemistry, and genetics.

#### San José, Costa Rica

#### API Program: Universidad Veritas

Great for: Health & Life Sciences, Environmental Sciences, Biology, Spanish

**About:** The environmental studies and Spanish language program allows students to combine interests in a variety of fields. Students also participate in visits to the Arenal Volcano, an international excursion to Panama, and more.

#### Nakhonpathom, Thailand

#### TEAN Program: Mahidol University International College

Great for: Chemistry, Biochemistry, Calculus, and Environmental Chemistry

**About:** Nakhonpathom is referred to as the oldest city in Thailand and is just a short distance from the capital of Bangkok. MUIC is the international component of Thailand's oldest university. Here you will get to take courses with both Thai and international students.

#### Cork, Ireland

#### USAC Program: University College Cork

Great for: Chemistry, Biochemistry, and Food Science.

**About:** University College Cork is an exceptional university for study and research. Located in Cork, the second largest city in Ireland, students are afforded a campus experience in a picturesque region. In Cork, students have access to the sea, mountains, and the well-known lakes of Killarney only one hour away.

**Education Abroad** 

## **Study Abroad (Summer)**

#### **Orvieto**, Italy

#### Kansas State University in Italy

#### Great for: K-State 8, Humanities, Social Sciences

**About:** Located in the Italian hill town of Orvieto, and centrally located between Rome and Florence, with both cities just a short train ride away. This is KSU's premiere summer study abroad program in Italy and is open to all students and majors. Students will study with KSU faculty members at the Centro Studi Citta di Orvieto and earn KSU credit.

#### London, England

#### API Program: University College London

#### Great for: Biology electives, K-State 8, Humanities

**About:** University College London is a prestigious university, named the top research university in the U.K. It is home to more than 29,000 students and offers classes across a range of studies. Biochemistry and chemistry students can complement their studies with classes in medical sciences, environmental science, and psychology.

## **Research Abroad**

#### Liverpool, United Kingdom

#### Direct Enroll: University of Liverpool

#### Great for: Research or elective credits

**About:** Spend your summer at the University of Liverpool alongside university researchers and faculty. Past summer research projects have included fields like environmental science, psychology, life science, and computer science. While completing the research project, you will have access to libraries, the fitness center, accommodation, and other university services.

### **Intern Abroad**

#### Argentina, Chile, Ireland, England, and more

#### Academic Programs International Internships

**About:** STEM majors can find it more challenging to study abroad. However, a STEM internship can provide a great alternative allowing you to gain valuable practical hands on experience and cultural immersion at the same time. STEM grads can benefit by having international experience in this global economy. Added bonus—STEM students also have access to a number of scholarship opportunities not available to other majors as well!
