## Study Abroad (Semester)

### Perth, Australia

[Exchange Program: University of Western Australia](#)

**About:** The University of Western Australia in Perth is located on the Swan River, and offers a variety of courses for Geology students to choose from. Students can also study at the Albany campus, which is in the middle of a global biodiversity hotspot and home to the UWA Center of Excellence in Natural Resource Management.

### Port Elizabeth, South Africa

[ISA Program: Nelson Mandela University](#)

**About:** Nelson Mandela University (NMU) is one of the most culturally and linguistically diverse universities in Southern Africa. NMU lies four miles from the city center and in a nature reserve, surrounded by the sea and coastal dunes. NMU offers a diverse course list in subjects such as sports science, marine biology, zoology, environmental studies, and sustainable development studies.

### Auckland, New Zealand

[USAC Program: Massey University](#)

**About:** Massey University is a leader in the fields of applied biological sciences, mathematics, visual arts, engineering and technology, physics, social sciences, and more. Past courses have included geochemistry, earth science fieldwork, advanced remote sensing, and quaternary geology.

### Dublin, Ireland

[API Program: University College Dublin](#)

**About:** University College Dublin (UCD) offers a number of unique and in-demand classes for students at all levels, including business, international studies, engineering, and natural sciences. The school of Earth Sciences includes classes like Discovering Ireland's Geology, Medical Geology, Dynamic Earth, Applied Paleontology, and Geochemistry.

## Recommended Program (Summer)

### Besançon, France

[Exchange Program: University of Franche-Comté Field Camp](#)

**About:** Complete your Geology Field Camp requirement through the University of Franche-Comté in France! Past students have participated in mapping projects, a petrological study, and a geo-traverse in the Alps-Jura. This is a great opportunity to take your studies abroad and interested students can contact the Geology department for more specific coursework details.

## Intern and Research Abroad

### Chile, New Zealand, Spain, Australia

[ISA Program: Internship Placements](#)

- **Santiago, Chile:** Placements in the fields of Environmental Architecture, Civil Engineering, and Renewable Energy
- **Various Cities, New Zealand:** Placements in the fields of Environmental Studies, Chemistry research, and City Planning
- **Madrid, Spain:** Placements in the fields of Energy Services and Engineering
- **Various Cities, Australia:** Placements in the fields of Environmental and Urban Planning
