- GEOL 305 - Sustainable Earth Resources **Credits:** 3
- GEOL 502 - Mineralogy **Credits:** 3
- GEOL 503 - Petrology **Credits:** 3
- GEOL 520 - Geomorphology **Credits:** 3
- GEOL 530 - Structural Geology **Credits:** 3
- GEOL 540 - Geologic Record of Climate Change **Credits:** 3
- GEOL 605 - Introduction to Aqueous Geochemistry **Credits:** 3
- GEOL 630 - Sedimentology and Stratigraphy **Credits:** 3
- GEOL 631 - Petroleum Geology **Credits:** 3
- GEOL 640 - Introduction to Geophysics **Credits:** 3
- GEOL 642 - Field Geophysics **Credits:** 3
- GEOL 701 - Economic Geology **Credits:** 3

Water Resources Specialization

- AGRON 635 - Soil and Water Conservation **Credits:** 3
- ATM 558 - Hydrology and Soil Erosion Management **Credits:** 3
- ATM 661 - Watershed Assessment and Management **Credits:** 3
- BAE 669 - Watershed Modeling **Credits:** 3
- BIOL 612 - Freshwater Ecology **Credits:** 4
- GEOG 440 - Spatial Analysis of Surface Water Hydrology **Credits:** 3
- GEOG 535 - Global Climatology and Climate Change **Credits:** 4
- GEOG 707 - Remote Sensing of Water **Credits:** 3
- GEOG 725 - Geography of Water Resources **Credits:** 3
- GEOG 740 - Fluvial Geomorphology **Credits:** 3
- GEOG 742 - Digital Geomorphology **Credits:** 3
- GEOL 520 - Geomorphology **Credits:** 3
- GEOL 605 - Introduction to Aqueous Geochemistry **Credits:** 3
- GEOL 611 - Hydrogeology **Credits:** 3
- GEOL 640 - Introduction to Geophysics **Credits:** 3
- GEOL 650 - Geomicrobiology **Credits:** 3
- GEOL 711 - Water Resources Geochemistry **Credits:** 3
- GEOL 760 - Geochemical and Biogeochemical Modeling **Credits:** 3

Total Hours Required for Graduation: 120

Arts & Sciences common degree requirements for the BS are satisfied by the following:

Orientation: DAS 101 (listed in Program Requirements: Orientation)

Natural and Quantitative

- Natural Science: BIOL 198 (listed in Environmental Foundations)
- Quantitative: STAT 225 (listed in Fundamental Science and Math)
- Additional at 300+: GEOG 508 (listed in Environmental Foundations)
- Additional w/pre-req or 300+: Will be met with a course from the Specialization

Arts, Humanities, and Social Sciences

- Fine Arts or Humanities: PHILO 295 or 595 (listed in Humans and the Environment: Ethics)
- Social Science at 300+: SOCIO 536 (listed in Humans and the Environment: Social Systems)

Overlays (suggested courses to meet each)

- Ethical Reasoning Overlay: PHILO 295 or 595 (listed in Humans and the Environment: Ethics)
- Global Perspectives Overlay: ANTH 310 (listed in Humans and the Environment: Human-Environment Interactions)
- US Multicultural Overlay: GEOG 370 (listed in Humans and the Environment: Social Systems)

Integrated Computer Science (BS)

Integrated Computer Science integrates computer science with domain knowledge in some external area of concentration. The degree combines a student-selected concentration from any field of study outside of computer science with computational courses focused on real-world programming skills, electives expanding those skills and providing additional cultural and ethical knowledge, and a capstone project applying those skills to the concentration area. Integrated Computer Science equips students to apply computational thinking and methods in a wide variety of possible careers and to become academic, cultural, and industrial leaders who integrate the breadth and depth of an arts and sciences education with technical expertise in computer science.

Students majoring in Integrated Computer Science must earn grades of C or better in all courses required for the program in the Computational Courses, Computational Course Electives, Integration Electives, and Integrated Computer Science Capstone.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 Credit Hour

DAS 101 or other approved A&S orientation

Overlays: [9] Credit Hours

May be filled in K-State Core, Outside Concentration, electives, or the Program itself.

- Ethical Reasoning Overlay, 1 course **Credits**: [3]
- Global Perspectives Overlay, 1 course **Credits**: [3]
- US Multicultural Overlay, 1 course **Credits**: [3]

Programs

Math Requirement

If not met through K-State Core requirements, MATH 100 is required.

KSC-030

- MATH 100 - College Algebra **Credits:** 3

Computational Courses: 17 Credit Hours

- CC 110 - Introduction to Computing **Credits:** 2
- CC 111 - Elements of Computer Programming **Credits:** 1
- CC 120 - Web Page Development **Credits:** 3
- CC 210 - Fundamental Computer Programming Concepts **Credits:** 4
- CC 310 - Data Structures and Algorithms I **Credits:** 3
- CC 410 - Advanced Programming **Credits:** 4

  CIS 115 (2cr) and CIS 116 (1cr) can be used in place of CC 110 (2cr) and CC 111 (1cr) respectively. CIS 200 (4cr) can be used in place of CC 210 (4cr)

Computational Electives: 12 Credit Hours

Pick 4 courses, at least 12 credit hours

- CC 510 - Computer Systems Administration **Credits:** 3
- CC 515 - Full Stack Web Development **Credits:** 3
- CC 520 - Database Essentials **Credits:** 3
- CC 535 - Applied Data Science **Credits:** 3
- CC 590 - Special Topics in Applied Computer Science **Credits:** 1-4

Integration Electives: 12 Credit Hours

Students must complete four courses from the list of integration areas below, with at least one in each integration area, and at least one Moral Reasoning course being either PHILO 386 or PHILO 492

Digital Arts & Humanities

- ART 330 - Digital Techniques in Visual Art **Credits:** 3
- ENGL 326 - Introduction to Digital Humanities **Credits:** 3

Cultural Impacts of Technology

- ANTH 204 - A General Education Introduction to Cultural Anthropology **Credits:** 3
- CRIM 550 - Cybercrime, Security, and Society **Credits:** 3
- GWSS 435 - Race/Sex/Science **Credits:** 3
- HIST 320 - History of Technology **Credits:** 3
- HIST 519 - Science and Technology in the United States **Credits:** 3
- PSYCH 625 - Human Factors Psychology **Credits:** 3
  Moral Reasoning and Professional Ethics
- PHILO 185 - Engineering Ethics **Credits:** 3
- PHILO 330 - Moral Philosophy **Credits:** 3
- PHILO 386 - Philosophy of Computer Science and Software Engineering **Credits:** 3
- PHILO 492 - Computers and Society **Credits:** 1-2

Concentration: 18 Credit Hours

Students must choose a concentration area (not in a computing discpline) with a minimum of 18 credit hours, to be completed in 1 of 3 ways.

Note: If existing credentials (e.g., minor, certificate) for one of the options does not require 18 or more credits hours, a student may satisfy this requirement by completing the credential and enough additional credits to complete at least 18 credits total in the field. If no minor is offered at all in a given field, a student may take 18 credits in that field to satisfy the requirement. Courses counted toward the ICS core cannot count toward the concentration.

Option 1: Minor, Undergraduate Certificate, or Secondary Minor

Option 2: Double Major

Option 3: Interdisciplinary Concentration

Take 18 additional credits from the three integration areas or from the list below to complete an interdisciplinary concentration. These credits must include six classes from three different fields, two at the 500 level or above. Courses used for the Integration Electives cannot also count in the Interdisciplinary Concentration.

- ANTH 204 - A General Education Introduction to Cultural Anthropology **Credits:** 3
- ANTH 715 - Research Methods in Digital Ethnography **Credits:** 3
- ART 330 - Digital Techniques in Visual Art **Credits:** 3
- ART 331 - Introduction to Digital and Expanded Media **Credits:** 3
- ART 390 - Design for Digital Media I **Credits:** 3
- ART 523 - Digital and Expanded Media Special Topics **Credits:** 3
- ART 575 - Web Art **Credits:** 3
- ART 590 - Design for Digital Media II **Credits:** 3
- ART 623 - Advanced Concepts in Digital and Expanded Media **Credits:** 3
- BIOL 734 - Introduction to Genomics and Bioinformatics **Credits:** 4
- COMM 332 - Communication and Technology **Credits:** 3
- CRIM 550 - Cybercrime, Security, and Society **Credits:** 3
- ECON 605 - Economic Applications of Game Theory and Strategic Behavior **Credits:** 3
- ECON 630 - Introduction to Econometrics **Credits:** 3
- ECON 686 - Economics Forecasting **Credits:** 3

- ENGL 325 - Literature and Technology **Credits:** 3
- ENGL 326 - Introduction to Digital Humanities **Credits:** 3
- ENGL 415 - Written Communication for Engineers **Credits:** 3
- ENGL 430 - The Structure of English **Credits:** 3
- ENGL 455 - Exploring Creativity **Credits:** 3
- ENGL 510 - Introduction to Professional Writing **Credits:** 3
- ENGL 516 - Written Communication for the Sciences **Credits:** 3
- ENGL 695 - Topics in Literature **Credits:** 3
- GEOG 508 - Geographic Information Systems I **Credits:** 4
- GEOL 360 - Quantitative Methods in Geoscience **Credits:** 3
- GWSS 435 - Race/Sex/Science **Credits:** 3
- HIST 320 - History of Technology **Credits:** 3
- HIST 519 - Science and Technology in the United States **Credits:** 3
- MATH 312 - Finite Applications of Mathematics **Credits:** 3
- MC 316 - Interactive Journalism Design **Credits:** 3
- MC 370 - Social Media Strategy & Management **Credits:** 3
- MC 589 - Issues in Mass Communication **Credits:** 1-3
- MUSIC 734 - Technology of the Electronic Music Studio **Credits:** 2
- MUSIC 735 - Digital Sound Synthesis **Credits:** 2
- PHILO 330 - Moral Philosophy **Credits:** 3
- PHILO 185 - Engineering Ethics **Credits:** 3
- PHILO 386 - Philosophy of Computer Science and Software Engineering **Credits:** 3
- PHILO 492 - Computers and Society **Credits:** 1-2
- PHILO 510 - Symbolic Logic II **Credits:** 3
- PHILO 610 - Special Topics in Logic **Credits:** 3
- PHILO 625 - The Philosophy of Language **Credits:** 3
- PHYS 636 - Physical Measurements Instrumentation **Credits:** 4
- PSYCH 625 - Human Factors Psychology **Credits:** 3
- STAT 510 - Introductory Probability and Statistics I **Credits:** 3
- STAT 703 - Introduction to Statistical Methods for the Sciences **Credits:** 3

Capstone Project: 1 Credit Hour

- DAS 496 - Integrated Computer Science Capstone **Credits:** 1

BS Natural and Quantitative Requirements: 3-5 Credit Hours

One course in each of the following, with at least two courses at the 300 level or above OR at any level with a prerequisite in the same discipline.

Three courses are met by Computational Core

Natural Science course Credits: 3-5

BS Arts, Humanities, and Social Sciences Requirements: 3 Credit Hours

3 credit hours in each of the following, with at least 3 credit hours total at 300 level or above OR at any level with a prerequisite in the same discipline.

Fine Arts or Humanities is met by the Moral Reasoning and Professional Ethics requirement (either PHILO 386 or PHILO 492)

Non-Quantitative Social Science: Any social science course that does NOT have a MATH or STAT prereq Credits: 3

Free Electives: 17-19

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

B.S. Quantitative courses met by CC 210, CC 310, and CC 410

B.S. Arts & Humanities met by the Moral Reasoning and Professional Ethics requirement

Medical Laboratory Science (BS)

The Medical Laboratory Science (MLS) curriculum requires 90 credit hours (basic requirements and major requirements) at K-State and the completion of 30 hours (one year) of clinical training at one of two affiliated hospitals in Kansas City: North Kansas City Hospital or Saint Luke's Hospital of Kansas City. Both sites are NAACLS accredited. Admission into the clinical portion of the training is competitive and acceptance is not guaranteed. After completion of all the requirements for the bachelor's degree in MLS, students are eligible to sit for the American Society for Clinical Pathology (ASCP) Board of Certification (BOC), which is the gold standard in certification for MLS professionals.

Students are expected to have a minimum grade point average of 2.5 in both overall coursework and the required science courses. Students majoring in Medical Lab Science must earn grades of C or better in all courses required for the major in the areas of Program Concentration Requirements, including transfer work applied to these areas.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: (1 credit hour)

Outside Concentration: (9 credit hours)

A&S Outside Concentration is fulfilled by 30 credits of medical clinical training listed below

Overlays: ([9] credit hours)

May be filled in K-State Core, Outside Concentration, electives, or the Program itself.

- Ethical Reasoning Overlay, 1 course **Credits**: [3]
- Global Perspectives Overlay, 1 course **Credits**: [3]
- US Multicultural Overlay, 1 course **Credits**: [3]

Major Requirements

Foundational Requirements

Complete the following requirements associated with the primary disciplines for Medical Lab Science:

Math: (3 credit hours)

If not met through K-State Core requirements, MATH 100 is required.

Select one of the following:

- MATH 100 - College Algebra **Credits:** 3
- MATH 150 - Plane Trigonometry **Credits:** 3
- MATH 205 - General Calculus **Credits:** 3
- MATH 220 - Analytic Geometry and Calculus I **Credits:** 4

Statistics: (3 credit hours)

Select one of the following:

- STAT 225 - Introduction to Statistics **Credits:** 3
- STAT 240 - Biometrics I **Credits:** 3
- STAT 250 - Business and Economic Statistics I **Credits:** 3

Biology: (24 credit hours)

- BIOL 198 - Principles of Biology **Credits:** 4
- BIOL 255 - General Microbiology **Credits:** 4
- BIOL 398 - Principles of Genetics **Credits:** 4
- BIOL 670 - Immunology **Credits:** 3

- BIOL 441 - Human Body I **Credits:** 4
  AND
- BIOL 442 - Human Body II **Credits:** 4
  OR
- KIN 360 - Anatomy and Physiology **Credits:** 8

Chemistry

- BIOCH 521 - General Biochemistry **Credits:** 3
- CHM 210 - Chemistry I **Credits:** 4
- CHM 230 - Chemistry II **Credits:** 4
- CHM 350 - General Organic Chemistry **Credits:** 3
  AND
- CHM 351 - General Organic Chemistry Laboratory **Credits:** 2
  OR
- CHM 531 - Organic Chemistry I **Credits:** 3
  AND
- CHM 532 - Organic Chemistry Laboratory **Credits:** 2

MLS Elective: (3 credit hours)

BIOL 541 preferred

- BIOL 530 - Pathogenic Microbiology **Credits:** 3
- BIOL 541 - Cell Biology **Credits:** 3
- BIOL 545 - Human Parasitology **Credits:** 3
- BIOL 609 - Cellular and Molecular Biology of Human Diseases **Credits:** 3
- BIOL 730 - General Virology **Credits:** 3
- PHYS 113 - General Physics I **Credits:** 4

Clinical Requirements

30 hours from an affiliated MLS hospital training program. Hours are taken as 12 credits during fall/spring and 6 over a summer.

- DAS 501 - Health Science Clinical Training **Credits:** 3-12

BS Arts, Humanities, and Social Sciences Requirements: (6 credit hours)

3 credit hours in each of the following, with at least 3 credit hours total at 300 level or above OR at any level with a prerequisite in the same discipline.

Fine Arts or Humanities: Any course or combination of courses: (3 credit hours)

Non-Quantitative Social Science: Any social science course that does NOT have a MATH or STAT prereq: 3 credit hours)

Free Electives: (0-44 credit hours)

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

Social Science (BS)

The Social Science interdisciplinary major focuses primarily on the critical examination of society's institutions—their structures, theoretical foundations, evolution, and interrelationships—and how they affect and are affected by human behavior.

Cutting across a variety of social science disciplines, including American ethnic studies, anthropology, economics, geography, gender, women, and sexuality studies, mass communications, political science, psychology, social transformation studies, and sociology, the major intentionally trades depth of learning for broader scope of inquiry. By offering more latitude in its curriculum design, the program allows students to prepare for a range of pathways, including admission to certain professional programs.

Students are expected to select a thematic emphasis that is bridged by the two concentration areas selected in consultation with their advisor. To best meet individual needs and interests, career goals and the program requirements, close collaboration with the advisor is expected.

Students majoring in Social Science must earn grades of C or better in all courses required for the program in Social Science Foundational Courses, Social Science Concentration Area 1, Social Science Concentration Area 2, Thematic Elective and Social Science Capstone.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 Credit Hour

Outside Concentration: 9 Credit Hours

Outside credential of at least 9 credit hours (May be from any unit, **except ****, etc**, OR from approved interdisciplinary credentials within the unit).

OR

Any 9 credit hours in a single prefix (**except for ****) (all must be 300 level or above OR at any level with a prereq in the same prefix; up to 5 credit hours may overlap with program).

OR

Any 9 credit hour microcredential (up to 5 credit hours may overlap with program).

Overlays: [9] Credit Hours

May be filled in K-State Core, Outside Concentration, electives, or the Program itself.

- Ethical Reasoning Overlay, 1 course **Credits**: [3]
- Global Perspectives Overlay, 1 course **Credits**: [3]
- US Multicultural Overlay, 1 course **Credits**: [3]

Programs

Statistics Requirement

If not met through K-State Core requirements, STAT 225 is required.

KSC-030

- STAT 225 - Introduction to Statistics **Credits:** 3

Social Science Foundational Courses: 9 Credit Hours

Students choose 3 courses (9 credits) from the following list in three different disciplines:

- AMETH 160 - Introduction to American Ethnic Studies **Credits:** 3
- ANTH 200 - Introduction to Cultural Anthropology **Credits:** 3
- ANTH 204 - A General Education Introduction to Cultural Anthropology **Credits:** 3
- ANTH 210 - Introduction to Cultural Anthropology, Honors **Credits:** 3
- ANTH 220 - Introduction to Linguistic Anthropology **Credits:** 3
- ANTH 260 - Introduction to Archeology **Credits:** 3
- CRIM 261 - Introduction to Criminology and Criminal Justice **Credits:** 3
- ECON 110 - Principles of Macroeconomics **Credits:** 3
- ECON 111 - Principles of Macroeconomics - Honors **Credits:** 3
- ECON 120 - Principles of Microeconomics **Credits:** 3
- GEOG 100 - World Geography & Globalization **Credits:** 3
- GEOG 200 - Human Geography **Credits:** 3
- GWSS 105 - Introduction to Gender, Women, and Sexuality Studies **Credits:** 3
- MC 110 - Mass Communication in Society **Credits:** 3
- MC 120 - Principles of Advertising **Credits:** 3
- MC 160 - Principles of Journalism **Credits:** 3
- MC 180 - Principles of Public Relations **Credits:** 3
- POLSC 110 - Introduction to Political Science **Credits:** 3
- POLSC 111 - Introduction to Political Science, Honors **Credits:** 4
- POLSC 115 - U.S. Politics **Credits:** 3
- POLSC 135 - Introduction to Comparative Politics **Credits:** 3
- POLSC 145 - World Politics **Credits:** 3

- POLSC 155 - Introduction to Political Thought **Credits:** 3
- PSYCH 110 - General Psychology **Credits:** 3
- PSYCH 115 - General Psychology (Honors) **Credits:** 4
- SOCIO 211 - Introduction to Sociology **Credits:** 3
- SOCIO 214 - Introduction to Sociology, Honors **Credits:** 4
- SOCWK 100 - Social Work: The Helping Profession **Credits:** 3
- SOCWK 200 - Basic Skills for Working with People **Credits:** 3

Social Science Concentration Area One: 12 Credit Hours

12 credit hours from one Social Science discipline: ADC, AMETH, ANTH, CRIM, ECON, GEOG, GWSS, MC, POLSC, PSYCH, STRAN, SOCWK, SOCIO. 9 credits of the 12 must be at the 300 level or higher. Coursework may not overlap with Concentration Area Two or with Foundational Courses.

STRAN, AMETH, and/or GWSS may be combined in a single concentration. However, both concentrations may not be from STRAN, AMETH, and/or GWSS.

ADC may be combined with SOCWK. However, both concentrations may not be from ADC and SOCWK.

Social Science Concentration Area Two: 12 Credit Hours

12 credit hours from one Social Science discipline: ADC, AMETH, ANTH, CRIM, ECON, GEOG, GWSS, MC, POLSC, PSYCH, STRAN, SOCWK, SOCIO. 9 credits of the 12 must be at the 300 level or higher. Coursework may not overlap with Concentration Area One or with Foundational Courses.

STRAN may be combined with AMETH and/or GWSS in a single concentration. However, students may not choose AMETH and GWSS as their two concentrations.

ADC may be combined with SOCWK.

Thematic Elective: 3 Credit Hours

In consultation with advisor, select a minimum 3 credit hours, at or above the 300 level, enhancing one or both concentration areas through research, applied learning, or other experiential learning opportunities. Other courses may be substituted so long as approval is obtained and elective demonstrably aligns with thematic focus. Must be 300-799.

ADC 300-799

AMETH 300-799

ANTH 300-799

CRIM 300-799

DAS 400

ECON 300-799

GEOG 300-799

GWSS 300-799

MC 300-799

POLSC 300-799

PSYCH 300-799

STRAN 300-799

SOCWK 300-799

SOCIO 300-799

Social Science Capstone: 1 Credit Hour

- DAS 498 - Social Sciences Capstone **Credits:** 1

BS Natural and Quantitative Restricted Electives: 12-15 Credit Hours

One course in each of the following, with at least two courses at the 300 level or above OR at any level with a prerequisite in the same discipline.

Natural Science course Credits: 3-5

Quantitative course Credits: 3-4

Natural Science, or Quantitative, or Social Science w/MATH or STAT prereq Credits: 3

Natural Science, or Quantitative, or Social Science w/MATH or STAT prereq Credits: 3

BS Arts or Humanities Restricted Electives: 3 Credit Hours

3 credit hours in each of the following, with at least 3 credit hours total at 300 level or above OR at any level with a prerequisite in the same discipline.

Fine Arts or Humanities: Any course or combination of courses Credits: 3

Free Electives: 20-24 Credit Hours

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

Arts & Sciences common degree requirements for the BS are satisfied by the following:

- BS Natural and Quantitative Restricted Electives
- BS Fine Arts or Humanities Restricted Elective (1 course at any level)
- Social Science Concentration Area 1 (at least one course will be at 300 level or above)

Secondary Major

Integrated Health Studies Secondary Major

This secondary major provides interdisciplinary, liberal arts training in critical foundational skills and conceptual understanding useful for a career in health. IHS prepares undergraduate students with the coursework, advising, and experiential learning they need for a variety of preprofessional programs or career paths in health-adjacent realms.

The program aims to provide:

Interpersonal skills grounded in humanistic and social scientific understanding of health.

Ethical and scientific reasoning skills necessary for solving complex individual and societal health problems.

Multicultural competence critical for dealing with diverse patient populations in the U.S. and global communitues.

This secondary major provides foundational training in four core areas of reasoning and interpersonal relationships. It requires that students integrate that learning in courses that provide interdisciplinary perspectives on a health topic and a specific health science. The secondary major culminates in a capstone course in which students apply their learning.

With careful selection of courses, this secondary major should be able to be completed in addition to a primary major within 120 hrs, as many of the courses in the secondary major will also satisfy general education requirements.

Orientation Course: 1 credit hour

This component introduces learners to the themes of Integrated Health Studies, provides a foundation on those themes and connections to digitial literacy, establishes the role of reflection in this secondary major, and promotes readiness for the coursework and capstone associated with this program.

- DAS 197 - Introduction to Integrated Health Studies **Credits:** 1

Area Requirements: (12 credit hours)

Note: 3 credits from each of the following, 12 total, at least 6 of which must be at the 300 level or above.

Ethics: (3 credit hours)

- PHILO 130 - Introduction to Moral Philosophy **Credits:** 3
- PHILO 365 - Medical Ethics **Credits:** 3

Scientific and Statistical Reasoning: (3 credit hours)

- PHILO 112 - Causal and Statistical Reasoning **Credits:** 3
- PHILO 125 - Introduction to Philosophy of Science **Credits:** 3
- STAT 225 - Introduction to Statistics **Credits:** 3
- STAT 240 - Biometrics I **Credits:** 3

Communication and Psychological/Social Understanding: (3 credit hours)

- COMM 130 - Interpersonal Communication **Credits:** 3
- COMM 320 - Theories of Human Communication **Credits:** 3

- COMM 465 - Communication and Conflict **Credits:** 3
- COMM 480 - Intercultural Communication **Credits:** 3
- COMM 535 - Communication and Leadership **Credits:** 3
- COMM 537 - Negotiation and Communication **Credits:** 3
- CNRES 300 - Introduction to Conflict Resolution **Credits:** 3
- EDSP 415 - American Sign Language - Beginning **Credits:** 3
- FNDH 311 - Health Promotion and Behavior **Credits:** 3
- KIN 230 - Introduction to Public Health **Credits:** 3
- MC 451 - Health Communication **Credits:** 3
- PSYCH 505 - Introduction to Psychopathology **Credits:** 3
- PSYCH 520 - Life Span Personality Development **Credits:** 3
- SOCWK 200 - Basic Skills for Working with People **Credits:** 3
- SOCWK 315 - Human Behavior in the Social Environment I **Credits:** 3
- SOCIO 541 - Wealth, Power, and Privilege **Credits:** 3
- THTRE 665 - Drama Therapy with Special Populations **Credits:** 3
- THTRE 675 - Drama Therapy with Older Adults **Credits:** 1-3

US Multicultural Awareness: (3 credit hours)

Any course from the A&S US Multicultural Overlay.

Integrative Health Electives: (6 credit hours)

Choose 6 credits from the following. Course taken for fulfilling other requirements for the secondary major cannot be double-counted here.

- AMETH 351 - African American Perspectives **Credits:** 3
- ANTH 315 - Introduction to Medical Anthropology & Global Health **Credits:** 3
- ANTH 710 - Writing Cultures: Ethnographic Methods **Credits:** 3
- ECON 688 - Health Economics **Credits:** 3
- ENGL 392 - Literature and the Body **Credits:** 3
- FNDH 600 - Public Health Nutrition **Credits:** 3
- FNDH 311 - Health Promotion and Behavior **Credits:** 3
- GWSS 435 - Race/Sex/Science **Credits:** 3
- HIST 520 - Death and Dying in History **Credits:** 3
- HIST 534 - Social History of Medicine **Credits:** 3
- KIN 418 - Social Determinants and Diversity in Public Health **Credits:** 3
- KIN 318 - Rural Community Health **Credits:** 3
- MC 451 - Health Communication **Credits:** 3
- MC 750 - Strategic Health Communication **Credits:** 3
- PSYCH 518 - Introduction to Health Psychology **Credits:** 3
- SOCIO 544 - Social Gerontology: An Introduction to the Sociology of Aging **Credits:** 3
- SPAN 531 - Professional Spanish: Health and Human Services **Credits:** 3
- ADC 325 - Professional, Ethical, and Legal Issues in Counseling **Credits:** 3
- ADC 395 - Holistic Recovery and Addiction Services Coordination **Credits:** 3
- ADC 561 - Methods of Individual Counseling **Credits:** 3

- ADC 575 - Addiction and Family **Credits:** 3
- ANTH 383 - Plagues: The Co-Evolutionary History of Humans and Pathogens **Credits:** 3
- ANTH 388 - Topics in Physical Anthropology **Credits:** 3
- ANTH 680 - Forensic Anthropology **Credits:** 4
- ANTH 682 - Human Growth and Development **Credits:** 3
- ANTH 683 - Osteology **Credits:** 4
- BIOL 330 - Public Health Biology **Credits:** 3
- GERON 425 - Introduction to Physical Health & Well-Being of Older Adults **Credits:** 3
- GERON 575 - Introduction to Diversity in the Aging Experience **Credits:** 3
- GERON 630 - Advanced Mental Health and Aging **Credits:** 3
- GERON 730 - Advanced Sexuality and Aging **Credits:** 3
- GWSS 365 - Reproductive Rights and Wrongs **Credits:** 3
- GWSS 375 - Disability Justice and Gender **Credits:** 3
- KIN 387 - Introduction to Integrative Human Pathophysiology **Credits:** 3
- KIN 419 - Health Policy and Administration **Credits:** 3
- PHILO 326 - Philosophy of Science: Evidence, Evolution and Intelligent Design **Credits:** 3
- PHILO 380 - Philosophy and Race **Credits:** 3
- PHILO 565 - Advanced Topics in Medical Ethics **Credits:** 3
- PSYCH 535 - Social Psychology **Credits:** 3
- PSYCH 470 - Principles of Neuroscience **Credits:** 3
- PSYCH 520 - Life Span Personality Development **Credits:** 3
- PSYCH 565 - Occupational Health Psychology **Credits:** 3
- PSYCH 630 - Human Neuropsychology **Credits:** 3
- SOCIO 635 - Sociology of Human Trafficking **Credits:** 3

Health Science: (3 credit hours)

- ASI 218 - Fundamentals of Nutrition **Credits:** 3
- ASI 500 - Genetics **Credits:** 3
- ASI 533 - Physiology of Domestic Animals **Credits:** 3
- BIOCH 521 - General Biochemistry **Credits:** 3
- BIOL 255 - General Microbiology **Credits:** 4
- BIOL 398 - Principles of Genetics **Credits:** 4
- BIOL 410 - Biology of the Cancer Cell **Credits:** 3
- BIOL 441 - Human Body I **Credits:** 4
- BIOL 442 - Human Body II **Credits:** 4
- BIOL 520 - Evolution **Credits:** 3
- BIOL 545 - Human Parasitology **Credits:** 3
- BIOL 670 - Immunology **Credits:** 3
- FNDH 400 - Human Nutrition **Credits:** 3
- GERON 425 - Introduction to Physical Health & Well-Being of Older Adults **Credits:** 3
- KIN 335 - Physiology of Exercise **Credits:** 4
- KIN 336 - Physiology of Exercise Lab **Credits:** 1
- KIN 360 - Anatomy and Physiology **Credits:** 8
- KIN 657 - Integrative Human Pathophysiology **Credits:** 3

Capstone: (2 credit hours)

Learners complete this secondary major with an integrated learning and reflective capstone to engage with the IHS themes.

- DAS 497 - Integrated Health Studies Capstone **Credits:** 0-2

Total Hours Required: 24

Undergraduate Certificate

African Studies Undergraduate Certificate

The African Studies Certificate is designed to provide students with a knowledge of and appreciation for African history, society and natural environment.

The African Studies Certificate will provide students the opportunity to understand and experience this diverse region through courses that offer knowledge, necessary language skills and first-hand experience in various parts of Africa. The Certificate program will focus on African agriculture, health, environment and cultures.

Students must have a minimum GPA of 2.0 to qualify for the certificate in African Studies. A minimum 18 credit hours of African Studies course work with a grade of C or above for all courses is needed to complete the certificate program.

Required courses

- AFRI 400 - African Study Abroad **Credits:** 1-4
- AFRI 501 - Seminar I **Credits:** 3
- ANTH 509 - Cultures of Africa **Credits:** 3
- SWAH 101 - Swahili I **Credits:** 4
- SWAH 102 - Swahili II **Credits:** 4
  or
- Two semesters of any indigenous African language, French or Portuguese

Recommended course:

Recommended Electives for GE-College of Agriculture

The following lists provides electives accepted for general education and for the African Studies certificate:

- AGEC 120 - Agricultural Economics and Agribusiness **Credits:** 3
- AGEC 710 - Comparative Food and Agriculture Systems **Credits:** 3
- AGRON 335 - Environmental Quality **Credits:** 3
- HORT 256 - Human Dimensions of Horticulture **Credits:** 3

Recommended Electives for GE-College of Arts and Sciences

- ANTH 210 - Introduction to Cultural Anthropology, Honors **Credits:** 3

- ANTH 720 - Field Methods in Linguistics **Credits:** 3
- BIOL 263 - Ecology of Environmental Problems **Credits:** 3
- BIOL 330 - Public Health Biology **Credits:** 3
- BIOL 697 - Topics in Biology **Credits:** 1-6
  (African Ecology and Conservation)
- ECON 527 - Environmental Economics **Credits:** 3
- ECON 681 - International Trade **Credits:** 3
- ECON 682 - Development Economics **Credits:** 3
- ECON 688 - Health Economics **Credits:** 3
- FREN 721 - Francophone Literature and Culture **Credits:** 3
- GEOG 100 - World Geography & Globalization **Credits:** 3
- GEOG 201 - Human Geography (Honors) **Credits:** 3
- GEOG 121 - Introductory Physical Geography: Earth Systems Science **Credits:** 3
- GEOG 340 - Natural Resources **Credits:** 3
- GEOG 780 - Cultural Geography **Credits:** 3
- GEOL 506 - Environmental Studies **Credits:** 3
- HIST 539 - African-American History **Credits:** 3
- POLSC 145 - World Politics **Credits:** 3
- POLSC 135 - Introduction to Comparative Politics **Credits:** 3
- POLSC 626 - African Politics **Credits:** 3
- POLSC 654 - International Politics of Africa **Credits:** 3
- SOCIO 507 - International Development and Social Change **Credits:** 3
- SOCIO 633 - Gender, Power, and Development **Credits:** 3

Recommended Electives for GE-College of Health and Human Sciences

- IHS 310 - Foundations of Integrative Human Sciences **Credits:** 3
- FNDH 400 - Human Nutrition **Credits:** 3
- FNDH 599 - Topics in Human Nutrition **Credits:** 1-3
- FNDH 600 - Public Health Nutrition **Credits:** 3
- FNDH 702 - Nutrition in Developing Countries **Credits:** 3
- HDFS 110 - Introduction to Human Development **Credits:** 3

Total credit hours: (18)

Economics

Dr. Peri da Silva, Department Head

327 B Waters Hall
785-532-7357
Fax: 785-532-6919
E-mail: econ@k-state.edu
www.k-state.edu/economics

Economics studies the decision mechanism applied by individuals, firms, and governments. It relies on the idea that any decision involves costs and benefits, making it suitable for understanding real-life events. Its rigorous method of analysis sprawls through many areas of studies essential to the betterment of the world, including the effects of monetary and fiscal policy, labor and firm regulations, restrictions, or promotion of trade among nations, to name a few.

The flexible and rigorous economic tools and methods have empowered Economics majors to receive job offers from prestigious Federal institutions such as the Federal Deposit Insurance Corporation (FDIC) and the Federal Reserve Bank of Kansas City and prestigious firms such as Ernst and Young. Our graduate students have recently decided to pursue their careers in private consulting by joining PricewaterhouseCoopers and academia with North Carolina State University.

The Department of Economics offers dozens of undergraduate scholarships to promote students' careers and compete for their talents. Our complete graduate program provides competitive funding to attract bright and high-achieving domestic and international graduate students. I invite you to join our successful team and visit us and learn about the opportunities that Economics can generate in your career.

Accelerated undergraduate and graduate programs

Students who begin graduate work after completing the BA or BS degree generally require more than one year to complete work for a master's degree. However, a five-year program leading to a BA or BS in economics at the end of four years and a Master of Arts in economics at the end of five years is available for promising undergraduate students. Participants will enroll in graduate level courses in the senior year. Students who have completed their junior year and have outstanding scholastic records are invited to explore the program.

Each student, in consultation with a faculty advisor, will plan an individualized program of study that meets requirements for the BA or BS and the MA degrees. Features of the program include participation in research as an undergraduate and enrollment in

graduate level courses in the senior year. Students participating in the program will be considered for financial assistance in the form of scholarships, fellowships, research assistantships, and part-time work.

Bachelor of Arts

Economics (BA)

Economics studies the principles guiding the best use of resources. Important topics in economics include production; consumer choice; the distribution of income; and the causes of economic growth, recessions, and inflation.

Many economists analyze data to determine underlying relationships and trends, to predict the consequences of government policy, or to develop forecasts of future activity. Such work involves mathematics or statistics and often deals with current issues.

Students may pursue specialized study in economic theory, money and banking, public finance, labor economics, international trade, economic development, transportation, econometrics, regional economics, industrial organization, and economic systems.

A student majoring in economics may earn either the bachelor of arts or the bachelor of science degree. In earning a B.A. or B.S. degree, students choose between the general option and four different specialized tracks. The general degree is designed for flexibility. It works well for those who want to choose their own area of emphasis or perhaps earn a second major in another field. Many students prefer to specialize in a more narrow area of economics and choose one of the tracks within the major. The tracks are designed to give students the opportunity to develop those skills most relevant to a specific area within economics.

Accelerated undergraduate and graduate programs

Students who begin graduate work after completing the BA or BS degree generally require more than one year to complete work for a master's degree. However, a five-year program leading to a BA or BS in economics at the end of four years and a master of arts in economics at the end of five years is available for promising undergraduate students. Students who have completed their junior year and have outstanding scholastic records (GPA 3.2 or higher) are invited to join the program.

Each student, in consultation with a faculty advisor, will plan an individualized program of study that meets requirements for the BA or BS and the MA degrees. Features of the program include participation in research as an undergraduate and enrollment in graduate level courses in the senior year. Students participating in the program will be considered for financial assistance in the form of scholarships, fellowships, research assistantships, and part-time work.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 Credit Hour

DAS 101 or other approved A&S orientation

Outside Concentration: 9 Credit Hours

Outside credential of at least 9 credit hours (May be from any unit, **except Economics,** OR from approved interdisciplinary credentials within the unit).

OR

Any 9 credit hours in a single prefix (except for **ECON**) (all must be 300 level or above OR at any level with a prereq in the same prefix; up to 5 credit hours may overlap with program).

OR

Any 9 credit hours in a microcredential (up to 5 credit hours may overlap with program).

Overlays: [9] Credit Hours

May be fulfilled in K-State Core, Outside Concentration, electives, or the Program itself.

- Ethical Reasoning Overlay **Credits:** [3]
- Global Perspectives Overlay **Credits:** [3]
- US Multicultural Overlay **Credits:** [3]

Program

The curriculum for this major assumes students enter college prepared to take Calculus.

Foundation: 15 Credit Hours

- ECON 110 - Principles of Macroeconomics **Credits:** 3
- ECON 120 - Principles of Microeconomics **Credits:** 3
- ECON 510 - Intermediate Macroeconomics **Credits:** 3
- ECON 520 - Intermediate Microeconomics **Credits:** 3
  OR
- ECON 521 - Intermediate Microeconomic Theory **Credits:** 3
- ECON 580 - Senior Seminar in Economics **Credits:** 3

Economics Electives: 15 Credit Hours

ECON 500 - 799, not from ECON 505, ECON 507, ECON 520, ECON 521, or ECON 523

Math and Statistics: 9 credit hours

Chose one introductory course from:

- STAT 225 - Introduction to Statistics **Credits:** 3

- STAT 240 - Biometrics I **Credits:** 3
- STAT 250 - Business and Economic Statistics I **Credits:** 3
- STAT 510 - Introductory Probability and Statistics I **Credits:** 3
- STAT 610 - Introduction to Mathematical Statistics I **Credits:** 3
- STAT 703 - Introduction to Statistical Methods for the Sciences **Credits:** 3

Choose one advanced course from:

- STAT 351 - Business and Economic Statistics II **Credits:** 3
- STAT 611 - Introduction to Mathematical Statistics II **Credits:** 3
- STAT 705 - Regression and Analysis of Variance **Credits:** 3

Choose one from:

- MATH 205 - General Calculus **Credits:** 3
- MATH 220 - Analytic Geometry and Calculus I **Credits:** 4

BA Arts, Humanities, and Social Sciences Restricted Electives: 6 Credit Hours

3 credit hours in each of the following, with at least 3 credit hours at 300 level or above OR at any level with a prerequisite in the same discipline.

One course in Humanities Credits: 3

Any course or combination of courses in Fine Arts Credits: 3

BA Second Language Requirement: 3-16 Credit Hours

Choose one of the following:

Option 1: 3-14 Credit Hours

At least 3 credit hours of coursework culminating with level 4 or above (i.e., Frech 4, German 4, Spanish 4, etc.) or the equivalent of level 4 in a second language sequence.

Option 2: 16 Credit Hours

At least 16 credit hours of coursework in which student takes the first and second levels of two different languages, selected from any language offered within the department of Modern Languages, ASL, or from any other second language transferred in at an equivalent level.

Option 3: 3 Credit Hours

Students whose first language is not English may satisfy this requirement by meeting the English Proficiency Admission Standards for K-State or by completing the appropriate level of exit courses with the English Language Program.

Free Electives: 16-28 Credit Hours

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

Economics - Business Economics (BA)

Economics studies the principles guiding the best use of resources. Important topics in economics include production; consumer choice; the distribution of income; and the causes of economic growth, recessions, and inflation.

Many economists analyze data to determine underlying relationships and trends, to predict the consequences of government policy, or to develop forecasts of future activity. Such work involves mathematics or statistics and often deals with current issues.

Students may pursue specialized study in economic theory, money and banking, public finance, labor economics, international trade, economic development, transportation, econometrics, regional economics, industrial organization, and economic systems.

A student majoring in economics may earn either the bachelor of arts or the bachelor of science degree. In earning a B.A. or B.S. degree, students choose between the general option and four different specialized tracks. The general degree is designed for flexibility. It works well for those who want to choose their own area of emphasis or perhaps earn a second major in another field. Many students prefer to specialize in a more narrow area of economics and choose one of the tracks within the major. The tracks are designed to give students the opportunity to develop those skills most relevant to a specific area within economics.

Accelerated undergraduate and graduate programs

Students who begin graduate work after completing the BA or BS degree generally require more than one year to complete work for a master's degree. However, a five-year program leading to a BA or BS in economics at the end of four years and a master of arts in economics at the end of five years is available for promising undergraduate students. Students who have completed their junior year and have outstanding scholastic records (GPA 3.2 or higher) are invited to join the program.

Each student, in consultation with a faculty advisor, will plan an individualized program of study that meets requirements for the BA or BS and the MA degrees. Features of the program include participation in research as an undergraduate and enrollment in graduate level courses in the senior year. Students participating in the program will be considered for financial assistance in the form of scholarships, fellowships, research assistantships, and part-time work.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 Credit Hour

DAS 101 or other approved A&S orientation

Outside Concentration: 9 Credit Hours

Outside credential of at least 9 credit hours (May be from any unit, **except Economics,** OR from approved interdisciplinary credentials within the unit).

OR

Any 9 credit hours in a single prefix (except for Econ) (all must be 300 level or above OR at any level with a prereq in the same prefix; up to 5 credit hours may overlap with program).

OR

Any 9 credit hours in a microcredential (up to 5 credit hours may overlap with program).

Overlays: [9] Credit Hours

May be fulfilled in K-State Core, Outside Concentration, electives, or the Program itself.

- Ethical Reasoning Overlay **Credits:** [3]
- Global Perspectives Overlay **Credits:** [3]
- US Multicultural Overlay **Credits:** [3]

Programs

The curriculum for this major assumes students enter college prepared to take Calculus.

Foundation Course: 15 Credit Hours

- ECON 111 - Principles of Macroeconomics - Honors **Credits:** 3
- ECON 120 - Principles of Microeconomics **Credits:** 3
- ECON 510 - Intermediate Macroeconomics **Credits:** 3
- ECON 520 - Intermediate Microeconomics **Credits:** 3
  Or
- ECON 521 - Intermediate Microeconomic Theory **Credits:** 3
- ECON 580 - Senior Seminar in Economics **Credits:** 3

Economics Electives: 3 Credit Hours

ECON 500 - 799, not from ECON 505, ECON 520, ECON 521, or ECON 523

Economics Electives: 12 Credit Hours

Choose 4 courses:

- ECON 530 - Money and Banking **Credits:** 3
- ECON 540 - Managerial Economics **Credits:** 3
- ECON 605 - Economic Applications of Game Theory and Strategic Behavior **Credits:** 3
- ECON 620 - Labor Economics **Credits:** 3

- ECON 631 - Principles of Transportation **Credits:** 3
- ECON 633 - Public Finance **Credits:** 3
- ECON 640 - Industrial Organization and Public Policy **Credits:** 3
- ECON 681 - International Trade **Credits:** 3
- ECON 684 - International Finance and Open Economy Macroeconomics **Credits:** 3

Additional Requirements: 9 Credit Hours

- ACCTG 231 - Introduction to Managerial Accounting **Credits:** 3
- FINAN 450 - Principles of Finance **Credits:** 3

Choose 1 course from:

- ACCTG 241 - Introduction to Financial Accounting **Credits:** 3
- MANGT 220 - Principles of Management **Credits:** 3
- MKTG 250 - Introduction to Marketing **Credits:** 3

Math and Statistics: 9-10 Credit Hours

- MATH 205 - General Calculus **Credits:** 3

OR

- MATH 220 - Analytic Geometry and Calculus I **Credits:** 4

Choose 1 intro course from:

- STAT 225 - Introduction to Statistics **Credits:** 3
- STAT 240 - Biometrics I **Credits:** 3
- STAT 250 - Business and Economic Statistics I **Credits:** 3
- STAT 510 - Introductory Probability and Statistics I **Credits:** 3
- STAT 610 - Introduction to Mathematical Statistics I **Credits:** 3
- STAT 703 - Introduction to Statistical Methods for the Sciences **Credits:** 3

Choose 1 advanced course from:

- STAT 351 - Business and Economic Statistics II **Credits:** 3
- STAT 611 - Introduction to Mathematical Statistics II **Credits:** 3
- STAT 705 - Regression and Analysis of Variance **Credits:** 3

BA Arts, Humanities, and Social Sciences Requirement: 12 Credit Hours

3 credit hours in each of the following, with at least 3 credit hours at 300 level or above OR at any level with a prerequisite in the same discipline.

One course in Humanities Credits: 3

Any course or combination of courses in Fine Arts Credits: 3

BA Second Language Requirement: 3-16 Credit Hours

Choose one of the following:

Option 1: 3-14 Credit Hours

At least 3 credit hours of coursework culminating with level 4 or above (i.e., French 4, German 4, Spanish 4, etc.) or the equivalent of level 4 in a second language sequence.

Option 2: 16 Credit Hours

At least 16 credit hours of coursework in which student takes the first and second levels of two different languages, selected from any language offered within the department of Modern Languages, ASL, or from any other second language transferred in at an equivalent level.

Option 3: 3 Credit Hours

Students whose first language is not English may satisfy this requirement by meeting the English Proficiency Admission Standards for K-State or by completing the appropriate level of exit courses with the English Language Program.

Free Electives: 5 Credit Hours

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

Economics - Economic Analyst (BA)

Economics studies the principles guiding the best use of resources. Important topics in economics include production; consumer choice; the distribution of income; and the causes of economic growth, recessions, and inflation.

Many economists analyze data to determine underlying relationships and trends, to predict the consequences of government policy, or to develop forecasts of future activity. Such work involves mathematics or statistics and often deals with current issues.

Students may pursue specialized study in economic theory, money and banking, public finance, labor economics, international trade, economic development, transportation, econometrics, regional economics, industrial organization, and economic systems.

A student majoring in economics may earn either the bachelor of arts or the bachelor of science degree. In earning a B.A. or B.S. degree, students choose between the general option and four different specialized tracks. The general degree is designed for flexibility. It works well for those who want to choose their own area of emphasis or perhaps earn a second major in another field. Many students prefer to specialize in a more narrow area of economics and choose one of the tracks within the major. The tracks are designed to give students the opportunity to develop those skills most relevant to a specific area within economics.

Accelerated undergraduate and graduate programs

Students who begin graduate work after completing the BA or BS degree generally require more than one year to complete work for a master's degree. However, a five-year program leading to a BA or BS in economics at the end of four years and a master of arts in economics at the end of five years is available for promising undergraduate students. Students who have completed their junior year and have outstanding scholastic records (GPA 3.2 or higher) are invited to join the program.

Each student, in consultation with a faculty advisor, will plan an individualized program of study that meets requirements for the BA or BS and the MA degrees. Features of the program include participation in research as an undergraduate and enrollment in graduate level courses in the senior year. Students participating in the program will be considered for financial assistance in the form of scholarships, fellowships, research assistantships, and part-time work.

- MATH 220 - Analytic Geometry and Calculus I **Credits:** 4

BS Natural and Quantitative Restricted Electives: 3-5 Credit Hours

One course in Natural Science at any level

Natural Science course Credits: 3-5

BS Arts, Humanities, and Social Sciences Restricted Electives: 3 Credit Hours

3 credit hours in each of the following, with at least 3 credit hours total at 300 level or above OR at any level with a prerequisite in the same discipline.

Fine Arts or Humanities: Any course or combination of courses Credits: 3

Free Electives: 31

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

Economics - Business Economics (BS)

Economics studies the principles guiding the best use of resources. Important topics in economics include production; consumer choice; the distribution of income; and the causes of economic growth, recessions, and inflation.

Many economists analyze data to determine underlying relationships and trends, to predict the consequences of government policy, or to develop forecasts of future activity. Such work involves mathematics or statistics and often deals with current issues.

Students may pursue specialized study in economic theory, money and banking, public finance, labor economics, international trade, economic development, transportation, econometrics, regional economics, industrial organization, and economic systems.

A student majoring in economics may earn either the bachelor of arts or the bachelor of science degree. In earning a B.A. or B.S. degree, students choose between the general option and four different specialized tracks. The general degree is designed for flexibility. It works well for those who want to choose their own area of emphasis or perhaps earn a second major in another field. Many students prefer to specialize in a more narrow area of economics and choose one of the tracks within the major. The tracks are designed to give students the opportunity to develop those skills most relevant to a specific area within economics.

Accelerated undergraduate and graduate programs

Students who begin graduate work after completing the BA or BS degree generally require more than one year to complete work for a master's degree. However, a five-year program leading to a BA or BS in economics at the end of four years and a master of arts in economics at the end of five years is available for promising undergraduate students. Students who have completed their junior year and have outstanding scholastic records (GPA 3.2 or higher) are invited to join the program.

Each student, in consultation with a faculty advisor, will plan an individualized program of study that meets requirements for the BA or BS and the MA degrees. Features of the program include participation in research as an undergraduate and enrollment in graduate level courses in the senior year. Students participating in the program will be considered for financial assistance in the form of scholarships, fellowships, research assistantships, and part-time work.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 Credit Hour

DAS 101 or other approved A&S orientation

- DAS 101 - Discover, Create, and Thrive: Arts and Sciences Orientation **Credits:** 1

Outside Concentration: 9 Credit Hours

Outside credential of at least 9 credit hours (May be from any unit, **except Economics**, OR from approved interdisciplinary credentials within the unit).

OR

Any 9 credit hours in a single prefix (**except for Econ**) (all must be 300 level or above OR at any level with a prereq in the same prefix; up to 5 credit hours may overlap with program).

OR

Any 9 credit hour microcredential (up to 5 credit hours may overlap with program).

Overlays: [9] Credit Hours

May be filled in K-State Core, Outside Concentration, electives, or the Program itself.

- Ethical Reasoning Overlay, 1 course **Credits**: [3]
- Global Perspectives Overlay, 1 course **Credits**: [3]
- US Multicultural Overlay, 1 course **Credits**: [3]

Programs

Bachelor of Arts

English - Literature (BA)

Students select courses from six areas: Foundations (6 credit hours), The Craft of Writing (3 credit hours), Historical and Cultural Contexts (9 credit hours), Multicultural and Global Literatures (6 credit hours), and Experiential Learning and Professional Development (1-3 credit hours). For a final area, Concentration and Additional Electives, students select 9 credit hours for a concentration in a particular area of interest, such as courses in creative writing or courses required for Teaching Licensure.

While completing the requirements, students must take at least 3 credit hours of pre-1800 literature and 3 credit hours of post-1800 literature, and they must select three 3-credit hour courses at 600-700 level. One 3-credit hour course at the 200-level may be selected for the area titled Concentration and Additional Electives. Students must achieve a C or better in all courses taken for major or minor credit.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 Credit Hour

- DAS 101 - Discover, Create, and Thrive: Arts and Sciences Orientation **Credits:** 1

Outside Concentration: 9 Credit Hours

Outside credential of at least 9 credit hours (May be from any unit, **except English** OR from approved interdisciplinary credentials within the unit).

OR

Any 9 credit hours in a single prefix (except for **ENGL**) (all must be 300 level or above OR at any level with a prereq in the same prefix; up to 5 credit hours may overlap with program).

OR

Any 9 credit hours in a microcredential (up to 5 credit hours may overlap with program).

Overlays: [9] Credit Hours

May be fulfilled in K-State Core, Outside Concentration, electives, or the Program itself.

- Ethical Reasoning Overlay **Credits:** [3]
- Global Perspectives Overlay **Credits:** [3]
- US Multicultural Overlay **Credits:** [3]

Program

Math Requirement

If not met through K-State Core requirements, MATH 160 is required.

KSC-030

- MATH 160 - Introduction to Contemporary Mathematics **Credits:** 3

Foundations: 6 credit hours

Students are required to take ENGL 310 and one additional 3 Credit Hour course from the list below.

Courses that count for the Foundations Category introduce students to the practices and methodologies of the study of English literature, language, and culture. Required within this category: ENGL 310.

- ENGL 310 - Introduction to Literary Studies **Credits:** 3
- ENGL 315 - Introduction to Popular Culture **Credits:** 3
- ENGL 430 - The Structure of English **Credits:** 3
- ENGL 435 - Linguistics for Teachers of English **Credits:** 3
- ENGL 476 - American English **Credits:** 3
- ENGL 490 - Development of the English Language **Credits:** 3

The Craft of Writing: 3 Credit Hours

Courses that count for the Craft of Writing Category will be at the 300-level or above and demonstrate a focus on the praxis of writing as a process for specific audiences and purposes, with multiple drafts and opportunities for revision. Choose one course from the following

- ENGL 300 - Expository Writing III **Credits:** 3
- ENGL 302 - Technical Writing **Credits:** 3
- ENGL 400 - Advanced Expository Writing for Prospective Teachers **Credits:** 3
- ENGL 415 - Written Communication for Engineers **Credits:** 3
- ENGL 417 - Written Communication for the Workplace **Credits:** 3
- ENGL 461 - Introduction to Fiction Writing **Credits:** 3
- ENGL 463 - Introduction to Poetry Writing **Credits:** 3
- ENGL 465 - Introduction to Creative Nonfiction **Credits:** 3
- ENGL 469 - Special Topics in Creative Writing **Credits:** 3
- ENGL 485 - Topics in Rhetoric and Literacy **Credits:** 3
- ENGL 510 - Introduction to Professional Writing **Credits:** 3
- ENGL 516 - Written Communication for the Sciences **Credits:** 3
- ENGL 661 - Advanced Creative Writing: Prose Fiction **Credits:** 3
- ENGL 662 - Playwriting **Credits:** 3
- ENGL 663 - Advanced Creative Writing: Poetry **Credits:** 3
- ENGL 665 - Advanced Creative Writing: Nonfiction **Credits:** 3
- ENGL 669 - Advanced Creative Writing: Special Topics **Credits:** 3
- ENGL 756 - Business Communication **Credits:** 3
- ENGL 759 - Studies in Technical Communication **Credits:** 3
- ENGL 758 - Scientific Communication **Credits:** 3
- ENGL 761 - Creative Writing Workshop: Short Fiction **Credits:** 3
- ENGL 762 - Advanced Playwriting **Credits:** 3
- ENGL 763 - Creative Writing Workshop: Poetry **Credits:** 3
- ENGL 765 - Creative Writing Workshop: Creative Nonfiction **Credits:** 3
- ENGL 769 - Creative Writing Workshop/Special Topic **Credits:** 3
- ENGL 771 - Creative Writing Workshop: Novel/Novella **Credits:** 3
- ENGL 772 - Creative Writing Workshop: The YA Novel **Credits:** 3

Historical & Cultural Contexts: 9 Credit Hours

Must take one Pre-1800 course, one Post-1800 course, and one course of the student's choosing from the following:

- ENGL 309 - Introduction to Classical Literature in Translation **Credits:** 3
- ENGL 325 - Literature and Technology **Credits:** 3
- ENGL 330 - Fiction **Credits:** 3
- ENGL 335 - Film **Credits:** 3
- ENGL 340 - Poetry **Credits:** 3
- ENGL 345 - Drama **Credits:** 3
- ENGL 350 - Introduction to Shakespeare **Credits:** 3
- ENGL 355 - Literature for Children **Credits:** 3
- ENGL 361 - British Survey I **Credits:** 3
- ENGL 362 - British Survey II **Credits:** 3
- ENGL 381 - American Survey I **Credits:** 3
- ENGL 382 - American Survey II **Credits:** 3
- ENGL 384 - Multicultural Children's Literature **Credits:** 3
- ENGL 385 - Selected American Ethnic Literatures **Credits:** 3

- ENGL 386 - African American Literatures **Credits:** 3
- ENGL 387 - American Indian Literatures **Credits:** 3
- ENGL 388 - Asian American Literatures **Credits:** 3
- ENGL 389 - Latina/o Literatures **Credits:** 3
- ENGL 390 - Fable and Fantasy **Credits:** 3
- ENGL 392 - Literature and the Body **Credits:** 3
- ENGL 420 - Topics in Film **Credits:** 3
- ENGL 424 - Topics in Television **Credits:** 3
- ENGL 440 - Themes in Literature **Credits:** 3
- ENGL 445 - Literary Kinds **Credits:** 3
- ENGL 450 - Literature and Society **Credits:** 3
- ENGL 470 - The Bible **Credits:** 3
- ENGL 490 - Development of the English Language **Credits:** 3
- ENGL 501 - Topics in Classical Literature in Translation **Credits:** 3
- ENGL 525 - Women in Literature **Credits:** 3
- ENGL 545 - Literature for Adolescents **Credits:** 3
- ENGL 570 - Law, Politics, and Literature **Credits:** 3
- ENGL 575 - Holocaust Literature **Credits:** 3
- ENGL 580 - Selected World Literature **Credits:** 3
- ENGL 602 - Historical Linguistics **Credits:** 3
- ENGL 605 - Readings in Medieval Literature **Credits:** 3
- ENGL 610 - Readings in Renaissance Literature **Credits:** 3
- ENGL 620 - Readings in Seventeenth-Century British Literature **Credits:** 3
- ENGL 625 - Readings in Eighteenth-Century British Literature **Credits:** 3
- ENGL 630 - Readings in Nineteenth-Century British Literature **Credits:** 3
- ENGL 635 - Readings in Twentieth- and Twenty-First-Century British Literature **Credits:** 3
- ENGL 640 - Readings in Early American Literature **Credits:** 3
- ENGL 645 - Readings in Nineteenth-Century American Literature **Credits:** 3
- ENGL 650 - Readings in Twentieth- and Twenty-First-Century American Literature **Credits:** 3
- ENGL 655 - Readings in American Ethnic Literature **Credits:** 3
- ENGL 660 - Readings in Major Authors **Credits:** 3
- ENGL 670 - Topics in British Literature **Credits:** 3
- ENGL 680 - Topics in American Literature **Credits:** 3
- ENGL 685 - Readings in World Literature **Credits:** 3
- ENGL 690 - Topics in Literature for the Young **Credits:** 3
- ENGL 695 - Topics in Literature **Credits:** 3
- ENGL 700 - Old English **Credits:** 3
- ENGL 703 - Critical Approaches to Children's Literature **Credits:** 3
- ENGL 710 - Studies in a Literary Genre **Credits:** 3
- ENGL 715 - Topics in Film / Screen Studies **Credits:** 3
- ENGL 720 - Studies in a Major Author **Credits:** 3
- ENGL 725 - Studies in Children's/Young Adult Literature **Credits:** 3
- ENGL 730 - Studies in a Literary Period **Credits:** 3
- ENGL 705 - Theories of Cultural Studies **Credits:** 3

- ENGL 745 - Cultural Studies **Credits:** 3

- ENGL 753 - Theories of Composition and Rhetoric **Credits:** 3
- ENGL 755 - Studies in Composition and Rhetoric **Credits:** 3
- ENGL 790 - History of the English Language **Credits:** 3
- ENGL 795 - Literary Theory **Credits:** 3

Pre-1800 - 3 Credit Hours

- ENGL 309 - Introduction to Classical Literature in Translation **Credits:** 3
- ENGL 350 - Introduction to Shakespeare **Credits:** 3
- ENGL 361 - British Survey I **Credits:** 3
- ENGL 470 - The Bible **Credits:** 3
- ENGL 501 - Topics in Classical Literature in Translation **Credits:** 3
- ENGL 602 - Historical Linguistics **Credits:** 3
- ENGL 605 - Readings in Medieval Literature **Credits:** 3
- ENGL 610 - Readings in Renaissance Literature **Credits:** 3
- ENGL 620 - Readings in Seventeenth-Century British Literature **Credits:** 3
- ENGL 625 - Readings in Eighteenth-Century British Literature **Credits:** 3
- ENGL 640 - Readings in Early American Literature **Credits:** 3
- ENGL 700 - Old English **Credits:** 3
- ENGL 790 - History of the English Language **Credits:** 3

Post-1800 - 3 Credit Hours

- ENGL 315 - Introduction to Popular Culture **Credits:** 3
- ENGL 324 - Television **Credits:** 3
- ENGL 325 - Literature and Technology **Credits:** 3
- ENGL 326 - Introduction to Digital Humanities **Credits:** 3
- ENGL 362 - British Survey II **Credits:** 3
- ENGL 382 - American Survey II **Credits:** 3
- ENGL 384 - Multicultural Children's Literature **Credits:** 3
- ENGL 392 - Literature and the Body **Credits:** 3
- ENGL 420 - Topics in Film **Credits:** 3
- ENGL 424 - Topics in Television **Credits:** 3
- ENGL 545 - Literature for Adolescents **Credits:** 3
- ENGL 570 - Law, Politics, and Literature **Credits:** 3
- ENGL 630 - Readings in Nineteenth-Century British Literature **Credits:** 3
- ENGL 635 - Readings in Twentieth- and Twenty-First-Century British Literature **Credits:** 3
- ENGL 645 - Readings in Nineteenth-Century American Literature **Credits:** 3
- ENGL 650 - Readings in Twentieth- and Twenty-First-Century American Literature **Credits:** 3
- ENGL 715 - Topics in Film / Screen Studies **Credits:** 3

Additional Historical & Cultural Context - 3 Credit Hours

Multicultural & Global Literatures: 6 Credit Hours

Courses that count for the Multicultural & Global Literatures Category will be at the 300-level and above and demonstrate a central focus on U.S. ethnic minority and/or non-Western authors, experiences, and perspectives. Choose two courses from the below.

Note: To confirm if courses in this category will also fulfill an overlay requirement for the College of Arts and Sciences, visit https://artsci.k-state.edu/academics/degree_requirements/overlays.html

- ENGL 384 - Multicultural Children's Literature **Credits:** 3
- ENGL 385 - Selected American Ethnic Literatures **Credits:** 3
- ENGL 386 - African American Literatures **Credits:** 3
- ENGL 387 - American Indian Literatures **Credits:** 3
- ENGL 388 - Asian American Literatures **Credits:** 3
- ENGL 389 - Latina/o Literatures **Credits:** 3
- ENGL 575 - Holocaust Literature **Credits:** 3
- ENGL 580 - Selected World Literature **Credits:** 3
- ENGL 655 - Readings in American Ethnic Literature **Credits:** 3
- ENGL 685 - Readings in World Literature **Credits:** 3

Experiential Learning & Professional Development: 1-3 Credit Hours

Courses that count for the Experiential Learning & Professional Development Category will demonstrate an experiential learning component in the field of English and related disciplines. **Choose one from the below**

- ENGL 495 - English Internship **Credits:** 1-3
- ENGL 497 - Special Investigations in English **Credits:** 1-18
- ENGL 498 - Honors Tutorial in English **Credits:** 1-3
- ENGL 499 - Honors Project **Credits:** 3
- ENGL 500 - Writing Center Theory and Practice **Credits:** 3
- ENGL 595 - Literary Studies Abroad **Credits:** 3
- ENGL 597 - Career Paths in English and the Humanities **Credits:** 1
- ENGL 599 - Special Research in English **Credits:** 1-18
- ENGL 797 - Professional Writing Internship **Credits:** 0-18
- ENGL 799 - Problems in English **Credits:** 1-18

Electives: 9 Credit Hours

ENGL courses at the 220-799 levels not already selected from the list above.

Advanced English Course: [9] Credit Hours

Not additional courses; an advanced level check of completion of 600 level and above.

May be fulfilled through ENGL courses in K-State Core, free electives, or program requirements.

- Three 3-credit hours courses at 600-799: [9]

BA Arts, Humanities, and Social Sciences Requirement: 6 Credit Hours

3 credit hours in each of the following, with at least 3 credit hours at 300 level or above OR at any level with a prerequisite in the same discipline.

Any course or combination of courses in Fine Arts Credits: 3

One Non-Quantitative Social Science; Any Social course that does NOT have a MATH or STAT prereq Credits: 3

BA Natural and Quantitative Requirement: 6 Credit Hours

One course in each of the following, with at least 3 credit hours total at 300 level or above OR at any level with a prerequisite in the same discipline.

Natural Science or Quantitative course Credits: 3

Natural Science, or Quantitative, or Social Science with MATH or STAT Credits: 3

BA Second Language Requirement: 3-16 Credit Hours

Choose one of the following:

Option 1: 3-14 Credit Hours

At least 3 credit hours of coursework culminating with level 4 or above (i.e., Frech 4, German 4, Spanish 4, etc.) or the equivalent of level 4 in a second language sequence.

Option 2: 16 Credit Hours

At least 16 credit hours of coursework in which student takes the first and second levels of two different languages, selected from any language offered within the department of Modern Languages, ASL, or from any other second language transferred in at an equivalent level.

Option 3: 3 Credit Hours

Students whose first language is not English may satisfy this requirement by meeting the English Proficiency Admission Standards for K-State or by completing the appropriate level of exit courses with the English Language Program.

Free Electives: 20-37 Credit Hours

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

English - Literature and Creative Writing (BA)

Students may elect to earn a BA in the department through a course of study based on one of the following three tracks: literature, literature and creative writing, or literature with teaching licensure. For all three tracks, students must take at least 6 credit hours of pre-1800 literature other than Shakespeare, 6 credit hours of post-1800 literature, 3 credit hours of a literature related to diversity in the U.S. or the world, and a capstone seminar. Students also must achieve a C or better in all courses taken for major or minor credit.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 Credit Hour

- DAS 101 - Discover, Create, and Thrive: Arts and Sciences Orientation **Credits:** 1

Outside Concentration: 9 Credit Hours

Outside credential of at least 9 credit hours (May be from any unit **except English** OR from approved interdisciplinary credentials within the unit).

OR

Any 9 credit hours in a single prefix (except for **ENGL**) (all must be 300 level or above OR at any level with a prereq in the same prefix; up to 5 credit hours may overlap with program).

OR

Any 9 credit hours in a microcredential (up to 5 credit hours may overlap with program).

Overlays: [9] Credit Hours

May be fulfilled in K-State Core, Outside Concentration, electives, or the Program itself.

- Ethical Reasoning Overlay **Credits:** [3]
- Global Perspectives Overlay **Credits:** [3]
- US Multicultural Overlay **Credits:** [3]

Program

Math Requirement

If not met through K-State Core requirements, MATH 160 is required.

KSC-030

- MATH 160 - Introduction to Contemporary Mathematics **Credits:** 3

Required Courses: 9 Credit Hours

- ENGL 310 - Introduction to Literary Studies **Credits:** 3
- ENGL 350 - Introduction to Shakespeare **Credits:** 3
- ENGL 698 - Capstone Seminar **Credits:** 3

Language: 3 Credit Hours

Choose one course from the following

- ENGL 430 - The Structure of English **Credits:** 3
- ENGL 435 - Linguistics for Teachers of English **Credits:** 3
- ENGL 476 - American English **Credits:** 3
- ENGL 490 - Development of the English Language **Credits:** 3
- ENGL 757 - Studies in Language and Linguistics **Credits:** 3

300-Level Survey Courses: 6 Credit Hours

Choose two courses from the following

- ENGL 361 - British Survey I **Credits:** 3
- ENGL 362 - British Survey II **Credits:** 3
- ENGL 381 - American Survey I **Credits:** 3
- ENGL 382 - American Survey II **Credits:** 3

Introductory Creative Writing Courses: 6 Credit Hours

Choose two courses from the following

- ENGL 461 - Introduction to Fiction Writing **Credits:** 3
- ENGL 463 - Introduction to Poetry Writing **Credits:** 3
- ENGL 465 - Introduction to Creative Nonfiction **Credits:** 3
- ENGL 469 - Special Topics in Creative Writing **Credits:** 3

Advanced Creative Writing Courses: 6 Credit Hours

Choose two courses from the following for total of 6 credits

- ENGL 661 - Advanced Creative Writing: Prose Fiction **Credits:** 3
- ENGL 662 - Playwriting **Credits:** 3
- ENGL 663 - Advanced Creative Writing: Poetry **Credits:** 3
- ENGL 665 - Advanced Creative Writing: Nonfiction **Credits:** 3
- ENGL 669 - Advanced Creative Writing: Special Topics **Credits:** 3
- ENGL 761 - Creative Writing Workshop: Short Fiction **Credits:** 3
- ENGL 762 - Advanced Playwriting **Credits:** 3
- ENGL 763 - Creative Writing Workshop: Poetry **Credits:** 3
- ENGL 765 - Creative Writing Workshop: Creative Nonfiction **Credits:** 3
- ENGL 769 - Creative Writing Workshop/Special Topic **Credits:** 3
- ENGL 771 - Creative Writing Workshop: Novel/Novella **Credits:** 3
- ENGL 772 - Creative Writing Workshop: The YA Novel **Credits:** 3

200-599 Literature: 3 Credit Hours

Choose one course for 3 credit hours from any ENGL course 200-599 EXCLUDING ENGL 200, 210, 300, 302, 310, 350, 415, and 516 and any ENGL course taken to fulfill requirements listed above. No more than one course (3 credits) may come from ENGL 200-299.

600-799 Literature: 6 Credit Hours

Choose two courses for 6 credit hours from any ENGL course 600-799 EXCLUDING ENGL 604, ENGL 698, ENGL 757, ENGL 758, and ENGL 759

English Overlays: [15] Credit Hours

May be fulfilled through ENGL courses in K-State Core, free electives, or program requirements.

- Diversity Literature Overlay **Credits:** [3]
- Pre-1800 Literature Overlay **Credits:** [6, except for ENGL 350]
- Post-1800 Literature Overlay **Credits:** [6]

BA Arts, Humanities, and Social Sciences Requirement: 6 Credit Hours

3 credit hours in each of the following, with at least 3 credit hours at 300 level or above OR at any level with a prerequisite in the same discipline.

Any course or combination of courses in Fine Arts Credits: 3

One Non-Quantitative Social Science; Any Social course that does NOT have a MATH or STAT prereq Credits: 3

BA Natural and Quantitative Requirement: 6 Credit Hours

One course in each of the following, with at least 3 credit hours total at 300 level or above OR at any level with a prerequisite in the same discipline.

Natural Science or Quantitative course Credits: 3

Natural Science, or Quantitative, or Social Science with MATH or STAT Credits: 3

BA Second Language Requirement: 3-16 Credit Hours

Choose one of the following:

Option 1: 3-14 Credit Hours

At least 3 credit hours of coursework culminating with level 4 or above (i.e., Frech 4, German 4, Spanish 4, etc.) or the equivalent of level 4 in a second language sequence.

Option 2: 16 Credit Hours

At least 16 credit hours of coursework in which student takes the first and second levels of two different languages, selected from any language offered within the department of Modern Languages, ASL, or from any other second language transferred in at an equivalent level.

Option 3: 3 Credit Hours

Students whose first language is not English may satisfy this requirement by meeting the English Proficiency Admission Standards for K-State or by completing the appropriate level of exit courses with the English Language Program.

Free Electives: 15-28 Credit Hours

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

English - Literature with Teaching Licensure (BA)

Students may elect to earn a BA in the department through a course of study based on one of the following three tracks: literature, literature and creative writing, or literature with teaching licensure. For all three tracks, students must take at least 6 credit hours of pre-1800 literature other than Shakespeare, 6 credit hours of post-1800 literature, 3 credit hours of a literature related to diversity in the U.S. or the world, and a capstone seminar. Students also must achieve a C or better in all courses taken for major or minor credit.

Bachelor's degree requirements

Literature with Teacher Licensure Track (42 credit hours)

Students desiring to teach English in high school or overseas should be aware that the BA in English alone will not qualify them to receive licensure. However, the BA in English (Teacher Licensure Track) in conjunction with the BS in Secondary Education will qualify them to earn licensure. Alternately, student may obtain only the BS in Secondary Education (specializing in English-EDENG) to earn licensure. English majors desiring licensure should consult with their advisors about the best method of completing their degree. For specific certification requirements in Secondary Education, see the College of Education.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. - ENGL 756 - Business Communication **Credits:** 3
- ENGL 758 - Scientific Communication **Credits:** 3
- ENGL 759 - Studies in Technical Communication **Credits:** 3
- ENGL 761 - Creative Writing Workshop: Short Fiction **Credits:** 3
- ENGL 762 - Advanced Playwriting **Credits:** 3
- ENGL 763 - Creative Writing Workshop: Poetry **Credits:** 3
- ENGL 765 - Creative Writing Workshop: Creative Nonfiction **Credits:** 3
- ENGL 769 - Creative Writing Workshop/Special Topic **Credits:** 3
- ENGL 771 - Creative Writing Workshop: Novel/Novella **Credits:** 3

Note:

Course is open only to engineering majors.

- ENGL 415 - Written Communication for Engineers **Credits:** 3

English minor with an emphasis in Children's and Young Adult Literature and Culture

Required courses (12 credit hours)

- ENGL 310 - Introduction to Literary Studies **Credits:** 3
- ENGL 355 - Literature for Children **Credits:** 3
- ENGL 384 - Multicultural Children's Literature **Credits:** 3
- ENGL 545 - Literature for Adolescents **Credits:** 3

Electives (6 credit hours)

Electives may be chosen from any English course with a focus on children's or young adult literature and culture in consultation with an English department advisor.

- One elective from an ENGL course numbered 315-599 **Credits:** 3

Depending on topic, possibilities may include, but are not limited to

- ENGL 390 - Fable and Fantasy **Credits:** 3
- ENGL 420 - Topics in Film **Credits:** 3
- ENGL 440 - Themes in Literature **Credits:** 3
- ENGL 445 - Literary Kinds **Credits:** 3
- ENGL 450 - Literature and Society **Credits:** 3
- One elective from an ENGL course numbered 600-799 **Credits:** 3

Depending on topic, possibilities may include, but are not limited to

- ENGL 630 - Readings in Nineteenth-Century British Literature **Credits:** 3
- ENGL 670 - Topics in British Literature **Credits:** 3
- ENGL 680 - Topics in American Literature **Credits:** 3
- ENGL 695 - Topics in Literature **Credits:** 3
- ENGL 703 - Critical Approaches to Children's Literature **Credits:** 3
- ENGL 710 - Studies in a Literary Genre **Credits:** 3
- ENGL 720 - Studies in a Major Author **Credits:** 3
- ENGL 725 - Studies in Children's/Young Adult Literature **Credits:** 3
- ENGL 730 - Studies in a Literary Period **Credits:** 3

Total credit hours: (18)

Undergraduate Certificate

Film Studies Undergraduate Certificate

The certificate requires a minimum of 12 hours at or above the 100 level that are passed with a C or better for 2.5 GPA or higher. Courses cannot be taken pass/fail.

Students must complete a minimum of 4 different courses from three categories:

- 3 hours from Core 1 (Production)
- 3 hours from Core 2 (Analysis)
- 6 additional hours from Electives.

Students cannot earn duplicate credit for courses for Core 1 and Core 2 in electives. For example, if a student takes MC 385 to fulfill credit for Core 1, MC 385 CANNOT count also as an elective course.

Core 1: Production

Student must take 3 credit hours from the following:

- ANTH 715 - Research Methods in Digital Ethnography **Credits:** 3
- ART 621 - Advanced Concepts in Digital Video **Credits:** 3
- MC 190-193 Topics in Journalism and Mass Communications **Credits:** 1-3
- MC 301 - Photo & Video Storytelling **Credits:** 3

Core 2: Interpretation

Student must take one course at 3 credit hours from one of the following:

- ENGL 220 - Fiction into Film **Credits:** 3
- ENGL 335 - Film **Credits:** 3
- THTRE 235 - Introduction to the Art of Film **Credits:** 3
- THTRE 630 - Topics in Theatre **Credits:** 1-4

Electives

Students must take a minimum of 2 3-credit hour courses of the following:

- AMETH 560 Top/Amer Ethnic Study: Misrepresented in Media **Credits:** 3
- AMETH 560 Topics: Film **Credits:** 3
- ANTH 715 - Research Methods in Digital Ethnography **Credits:** 3
- ART 395 - Introduction to Digital Photography **Credits:** 3
- ART 563 - Topics in Digital Photography **Credits:** 3
- ART 568 - Topics in Analog Photography **Credits:** 3
- ART 621 - Advanced Concepts in Digital Video **Credits:** 3
- ART 623 - Advanced Concepts in Digital and Expanded Media **Credits:** 3
- ENGL 220 - Fiction into Film **Credits:** 3
- ENGL 335 - Film **Credits:** 3
- ENGL 420 - Topics in Film **Credits:** 3
- ENGL 740 - Studies in Literary Theory **Credits:** 3 (when offered as "Film Theory")
- ENGL 745 - Cultural Studies **Credits:** 3 (when offered as "Film")
- FREN 512 - French/Francophone Cinema **Credits:** 3
- FREN 519 - Special Studies in French **Credits:** 1-18

- GRMN 515 - Topics in German Cultural Studies **Credits:** 3
- GWSS 350 - Gender in American Film **Credits:** 3
- MC 110 - Mass Communication in Society **Credits:** 3
- MC 190-193 Foundations in Audio or Video Production **Credits:** 1 (each)
- MC 301 - Photo & Video Storytelling **Credits:** 3
- MC 331 - Photography Commercial Imaging **Credits:** 3
- MC 485 - Media Practicum **Credits:** 1 (Topics/Video)
- MC 466 - Media Law and Ethics **Credits:** 3
- MC 469 - Drone Photography and Video **Credits:** 3
- MC 471 - Advanced Production **Credits:** 3 (Audio and Video)
- MC 612 - Diversity in Media **Credits:** 3
- SOCIO 500 - Sociological Perspectives on Contemporary Issues **Credits:** 1-3
- SPAN 768 - Hispanic Cinema **Credits:** 3 (Topics/Spanish American Cinema)
- THTRE 235 - Introduction to the Art of Film **Credits:** 3
- THTRE 280 - Script Analysis **Credits:** 3
- THTRE 565 - Principles of Directing **Credits:** 3
- THTRE 630 Topics: Film **Credits:** 3
- THTRE 630 Topics: Acting for the Camera **Credits:** 3

Total hours required: 12

Linguistics Undergraduate Certificate

Proposed Certificate Requirements

The certificate requires 15 hours at or above the 200 level that are passed with a C or better with an overall average of 2.5 GPA or higher. Courses cannot be taken pass/fail. As part of the certificate, students must take one class in each of the following four categories: Foundations of Linguistics, Historical Linguistics, Language and Society, and Language Structure and Use. Students may then choose to fulfill their remaining credit requirements through general electives listed below or any additional courses from the core categories. Classes that fulfill these requirements are listed below.

Division of Course Names

15 total hours. 1 course required from each of the four core components: Foundations of Linguistics, Historical Linguistics, Language and Society, and Language Structure and Use.

Foundations in Linguistics

- ENGL 430 - The Structure of English **Credits:** 3
- MLANG 600 - Principles of Linguistics: Language Structure and Language Use **Credits:** 3
- SPAN 580 - Introduction to Spanish Linguistics **Credits:** 3

Additional options

- ANTH 220 Introduction to Linguistic Anthropology **Credits:** 3
- GRMN 528 Introductory Topics in German Language and Linguistics **Credits:** 3

Historical Linguistics

- ENGL 490 - Development of the English Language **Credits:** 3
- GRMN 728 - History of the German Language **Credits:** 3
- SPAN 776 - History of the Spanish Language **Credits:** 3

Language and Society

- ENGL 476 - American English **Credits:** 3
- ENGL 757 - Studies in Language and Linguistics **Credits:** 3

Additional options

- ANTH 328 - Topics in Linguistic Anthropology **Credits:** 3
- ANTH 525 - Language and Culture **Credits:** 3
- EDCI 731 - ESL/Dual Language Linguistics **Credits:** 3
- ENGL 603 - Topics in Linguistics **Credits:** 1-3

Language Structure and Use

- GRMN 528 - Introductory Topics in German Language and Linguistics **Credits:** 3
- SPAN 670 - Advanced Spanish Grammar **Credits:** 3

Additional Options

- CSD 347 - Introduction to Phonetics **Credits:** 3
- CSD 515 - Laboratory in Acoustic Phonetics **Credits:** 1
- PHILO 320 - Symbolic Logic I **Credits:** 3
- PHILO 625 - The Philosophy of Language **Credits:** 3

Electives/Ancillary Courses with Linguistics Content

- ANTH 528 - Topics in Linguistic Anthropology **Credits:** 1-4
- ANTH 720 - Field Methods in Linguistics **Credits:** 3
- CSD 442 - Developmental Psycholinguistics **Credits:** 3
- CSD 446 - Speech Sound Disorders **Credits:** 4
- ENGL 435 - Linguistics for Teachers of English **Credits:** 3
- MLANG 770 - Theories of 2nd Language Acquisition **Credits:** 3
- MLANG 779 - Seminar in Modern Languages **Credits:** 3

Total hours required: 15

Geography and Geospatial Sciences

Marcellus M. Caldas, Interim Head

1011 Seaton Hall
785-532-6727
E-mail: geog@k-state.edu
www.k-state.edu/geography

Geography is an integrative discipline that examines the Earth's landforms, inhabitants, and cultures. Geographers seek to understand how spatial connections and patterns unfold across the globe and to apply that knowledge to address pressing social and environmental challenges. In studying spatial phenomena, geographers use various methods and techniques including, but not limited to, mathematical and cartographic analysis, computer mapping, geographic information systems (GIS), remote sensing, and ethnography.

Geography is the original environmental science at the forefront of studies in sustainability and human-environment interaction. Geographers' traditional concern about human impact on the environment leads them to study air pollution, contamination of waterways, urban decay, rural depopulation, and landscape alteration, among other topics. Many of these issues are best understood by considering such interrelated factors as technology, population characteristics, legal structure, cultural traditions, and the environment.

A geography degree gives students the tools to comprehend a complex and dynamic world by helping them understand people, places, landscapes, and environments.

Bachelor of Arts

Geography (BA)

Students of geography develop skills that prepare them for a variety of careers related to spatial analysis, environmental sustainability, natural resource management, urban and regional planning, international development, and more. They may pursue a traditional major in geography, a geography minor, or choose the geography-pre-planning option. The bachelor of science or the bachelor of arts degree may be earned. Students may choose an emphasis in areas such as governance and globalization, planning, or Geographic Information Science (GIS). Graduates pursue careers in conservation, energy, government, environmental protection, law, public policy, transportation, culture, and international affairs; and provide geographic expertise to a wide variety of public and private companies. Other concentrations may be developed to reflect the particular interests of a student, including but not limited to GIS.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 Credit Hour

- DAS 101 - Discover, Create, and Thrive: Arts and Sciences Orientation **Credits:** 1

Outside Concentration: 9 Credit Hours

Outside credential of at least 9 credit hours (May be from any unit, **except GEOG,** OR from approved interdisciplinary credentials within the unit).

OR

Any 9 credit hours in a single prefix (except for GEOG) (all must be 300 level or above OR at any level with a prereq in the same prefix; up to 5 credit hours may overlap with program).

OR

Any 9 credit hours in a microcredential (up to 5 credit hours may overlap with program).

Overlays: [9] Credit Hours

May be filled in K-State Core, Outside Concentration, electives, or the Program itself.

- Ethical Reasoning Overlay, 1 course **Credits**: [3]
- Global Perspectives Overlay, 1 course **Credits**: [3] fulfilled by GEOG 100
- US Multicultural Overlay, 1 course **Credits**: [3] may be fulfilled by taking GEOG 370 as an elective

Requirements for the Geography Major

Required Courses: 20 Credit Hours

All of these courses are required.

- GEOG 100 - World Geography & Globalization **Credits:** 3
- GEOG 121 - Introductory Physical Geography: Earth Systems Science **Credits:** 3
- GEOG 122 - Introduction to Physical Geography: Earth Systems Science Laboratory **Credits:** 1
- GEOG 200 - Human Geography **Credits:** 3
- GEOG 302 - Cartography and Thematic Mapping **Credits:** 3
- GEOG 508 - Geographic Information Systems I **Credits:** 4
- STAT 225 - Introduction to Statistics **Credits:** 3

Category Electives: 11-13 Credit Hours

Students must select: 2 courses from the Human Geography category; 1 course from either the Envrironmental Geography OR Human-Environment Interaction categories; AND 1 course from the Careers in Geography category.

Human Geography: 6 Credit Hours

Select 2 courses for 6 credit hours from the followiing courses

- GEOG 300 - Geography of Tourism **Credits:** 3
- GEOG 310 - Geography of Kansas **Credits:** 3
- GEOG 332 - Introduction to China **Credits:** 3
- GEOG 335 - European Landscapes **Credits:** 3
- GEOG 380 - World Population Issues **Credits:** 3
- GEOG 450 - Geography of Economic Behavior **Credits:** 3
- GEOG 500 - Geography of the United States **Credits:** 3
- GEOG 505 - South Asian Civilizations **Credits:** 3
- GEOG 510 - Geography of the American West **Credits:** 3
- GEOG 550 - Political Geography and Geopolitics **Credits:** 3
- GEOG 620 - Mexico, Central America, and Caribbean **Credits:** 3
- GEOG 622 - Geography of South America **Credits:** 3
- GEOG 660 - Geography of East Asia/China **Credits:** 3
- GEOG 690 - Historical Geography of the United States **Credits:** 3
- GEOG 750 - Urban Geography **Credits:** 3
- GEOG 780 - Cultural Geography **Credits:** 3

Human-Environment Interaction 3 Credit Hours

- GEOG 335 - European Landscapes **Credits:** 3
- GEOG 340 - Natural Resources **Credits:** 3
- GEOG 370 - Environmental Justice **Credits:** 3
- GEOG 460 - Human Dimensions of Global Change **Credits:** 3
- GEOG 600 - Mountain Geography **Credits:** 3
- GEOG 718 - Geography of Public Lands **Credits:** 3
- GEOG 720 - Geography of Land Use **Credits:** 3
- GEOG 722 - Geographies of International Conservation **Credits:** 3
- GEOG 725 - Geography of Water Resources **Credits:** 3
- GEOG 761 - Human Impact on the Environment **Credits:** 3

Environmental Geography 3-4 Credit Hours

- GEOG 235 - Atmospheric Science **Credits:** 4
- GEOG 440 - Spatial Analysis of Surface Water Hydrology **Credits:** 3
- GEOG 445 - Biogeography **Credits:** 3
- GEOG 535 - Global Climatology and Climate Change **Credits:** 4
- GEOG 725 - Geography of Water Resources **Credits:** 3
- GEOG 735 - Topics in Climatology **Credits:** 3
- GEOG 740 - Fluvial Geomorphology **Credits:** 3
- GEOG 745 - Topics in Biogeography **Credits:** 3
- GEOG 761 - Human Impact on the Environment **Credits:** 3
- GEOL 520 - Geomorphology **Credits:** 3

Careers in Geography: 2-3 Credit Hours

- GEOG 495 - Capstone Seminar in Geography **Credits:** 2
- GEOG 497 - Undergraduate Research in Geography **Credits:** 1-3
- GEOG 610 - Geography Internship **Credits:** 1-6
  Or *with Geography advisor approval*, another directly related field experience, study abroad, or other Experiential Learning component. **Credits / Units:** 3

Geography Electives: 9 Credit Hours

Courses may not double count for any of the above requirements.

BA Arts, Humanities, and Social Sciences Restricted Electives: 6 Credit Hours

3 credit hours in each of the following, with at least 3 credit hours at 300 level or above OR at any level with a prerequisite in the same discipline.

One course in Humanities Credits: 3 Credit Hours

Any course or combination of courses in Fine Arts Credits: 3 Credit Hours

BA Natural and Quantitative Restricted Electives: 3 Credit Hours

One course in the following, at any level

Natural Science, or Quantitative: 3 Credit Hours

Courses taken in the Environmental Geography section may also be counted toward this requirement

BA Second Language Requirement: 3-16 Credit Hours

Choose one of the following:

Option 1: 3-14 Credit Hours

At least 3 credit hours of coursework culminating with level 4 or above (i.e., French 4, German 4, Spanish 4, etc.) or the equivalent of level 4 in a second language sequence.

Option 2: 16 Credit Hours

At least 16 credit hours of coursework in which student takes the first and second levels of two different languages, selected from any language offered within the department of Modern Languages, ASL, or from any other second language transferred in at an equivalent level.

Option 3: 3 Credit Hours

Students whose first language is not English may satisfy this requirement by meeting the English Proficiency Admission Standards for K-State or by completing the appropriate level of exit courses with the English Language Program.

Free Electives: 8-24 Credit Hours

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours for Graduation: 120

Bachelor of Science

Geographic Information Science and Technology (BS)

Undergraduate students may pursue an interdiscplinary B.S. in Geographic Information Science & Technology (GIS&T). Students completing this degree automatically earn three additional credentials, including the Geography Minor, Computer Science Certificate, and GIS Certificate. Students can also select from several specialization areas to customize their degree to based on interests and career objectives.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 Credit Hour

- DAS 101 - Discover, Create, and Thrive: Arts and Sciences Orientation **Credits:** 1

Outside Concentration

The A&S requirement for an outside concentration is satisfied by the Computer Science Certificate.

Overlays: [9] Credit Hours

May be filled in K-State Core, Outside Concentration, electives, or the Program itself.

- Ethical Reasoning Overlay, 1 course **Credits**: [3]
- Global Perspectives Overlay, 1 course **Credits**: [3]
- US Multicultural Overlay, 1 course **Credits**: [3]

Program

The curriculum for this major assumes students enter college prepared to take Calculus.

Quantitative Requirements: 9-11 Credit Hours

Select from the following courses to complete at least 9 hours.

- MATH 205 - General Calculus **Credits:** 3
  OR
- MATH 220 - Analytic Geometry and Calculus I **Credits:** 4
- STAT 225 - Introduction to Statistics **Credits:** 3
  OR
- STAT 240 - Biometrics I **Credits:** 3
- STAT 341 - Biometrics II **Credits:** 3
  OR
- MATH 221 - Analytic Geometry and Calculus II **Credits:** 4

Geospatial Requirements: 25 Credit Hours

Select from the following courses to complete 25 credit hours.

- GEOG 302 - Cartography and Thematic Mapping **Credits:** 3
- GEOG 508 - Geographic Information Systems I **Credits:** 4
- GEOG 602 - Computer Mapping and Geographic Visualization **Credits:** 3
- GEOG 605 - Remote Sensing of the Environment **Credits:** 3
- GEOG 608 - Geographic Information Systems II **Credits:** 3
- GEOG 705 - Thematic Remote Sensing **Credits:** 3
  OR
- GEOG 706 - Biophysical Remote Sensing **Credits:** 3
  OR
- GEOG 707 - Remote Sensing of Water **Credits:** 3
- GEOG 712 - Internet GIS and Distributed Geographic Information Services **Credits:** 3
- GEOG 728 - Programming for Geographic Analysis **Credits:** 3

Computer Science Certificate: 17 Credit Hours

- CC 110 - Introduction to Computing **Credits:** 2
- CC 111 - Elements of Computer Programming **Credits:** 1
- CC 120 - Web Page Development **Credits:** 3
  OR
- CMST 135 - Web Fundamentals **Credits:** 3
- CC 210 - Fundamental Computer Programming Concepts **Credits:** 4
- CC 310 - Data Structures and Algorithms I **Credits:** 3
- CC 410 - Advanced Programming **Credits:** 4

Experiential Learning: 3 Credit Hours

Select 3 credit hours from one of the following courses.

- GEOG 497 - Undergraduate Research in Geography **Credits:** 1-3
- GEOG 610 - Geography Internship **Credits:** 1-6

BS Natural and Quantitative Restricted Elective: 3 - 5 Credit Hours

Select one course in the following, at any level

Natural Science course Credits: 3-5

Select one natural science course at least three hours.

BS Arts, Humanities, and Social Sciences Restricted Electives: 6 Credit Hours

3 credit hours in each of the following, with at least 3 credit hours total at 300 level or above OR at any level with a prerequisite in the same discipline.

Fine Arts or Humanities: Any course or combination of courses Credits: 3

Non-Quantitative Social Science: Any social science course that does NOT have a MATH or STAT prereq Credits: 3

Free Electives: 18-22 Credit Hours

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

Geography (BS)

Students of geography develop skills that prepare them for a variety of careers related to spatial analysis, environmental sustainability, natural resource management, urban and regional planning, international development, and more. They may pursue a traditional major in geography, a geography minor, or choose the geography-pre-planning option. The bachelor of science or the bachelor of arts degree may be earned. Students may choose an emphasis in areas such as governance and globalization, planning, or Geographic Information Science (GIS). Graduates pursue careers in conservation, energy, government, environmental protection, law, public policy, transportation, culture, and international affairs; and provide geographic expertise to a wide variety of public and private companies. Other concentrations may be developed to reflect the particular interests of a student, including but not limited to GIS.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 Credit Hour

DAS 101 or other approved A&S orientation

- DAS 101 - Discover, Create, and Thrive: Arts and Sciences Orientation **Credits:** 1

Outside Concentration: 9 Credit Hours

Outside credential of at least 9 credit hours (May be from any unit, **except Geography and Geospatial Science**, OR from approved interdisciplinary credentials within the unit).

OR

Any 9 credit hours in a single prefix (**except for GEOG**) (all must be 300 level or above OR at any level with a prereq in the same prefix; up to 5 credit hours may overlap with program).

OR

Any 9 credit hour microcredential (up to 5 credit hours may overlap with program).

Overlays: [9] Credit Hours

May be filled in K-State Core, Outside Concentration, electives, or the Program itself.

- Ethical Reasoning Overlay, 1 course **Credits**: [3]
- Global Perspectives Overlay, 1 course **Credits**: [3] fulfilled by GEOG 100
- US Multicultural Overlay, 1 course **Credits**: [3]

Program

Foundation Courses 22 Credit Hours

Student must complete the following courses

- GEOG 100 - World Geography & Globalization **Credits:** 3
- GEOG 121 - Introductory Physical Geography: Earth Systems Science **Credits:** 3
- GEOG 122 - Introduction to Physical Geography: Earth Systems Science Laboratory **Credits:** 1
- GEOG 200 - Human Geography **Credits:** 3
- GEOG 302 - Cartography and Thematic Mapping **Credits:** 3
- GEOG 495 - Capstone Seminar in Geography **Credits:** 2
- GEOG 508 - Geographic Information Systems I **Credits:** 4
- STAT 225 - Introduction to Statistics **Credits:** 3

Category Elective: 6-7 Credit Hours

Students choose one course from two of the following three categories:

Earth System Science

- GEOG 235 - Atmospheric Science **Credits:** 4
- GEOG 440 - Spatial Analysis of Surface Water Hydrology **Credits:** 3
- GEOG 445 - Biogeography **Credits:** 3
- GEOG 725 - Geography of Water Resources **Credits:** 3
- GEOG 735 - Topics in Climatology **Credits:** 3
- GEOG 745 - Topics in Biogeography **Credits:** 3
- GEOG 747 - Soil Mapping **Credits:** 3

- GEOG 761 - Human Impact on the Environment **Credits:** 3
- GEOL 520 - Geomorphology **Credits:** 3

Human Environmental Interaction

- GEOG 335 - European Landscapes **Credits:** 3
- GEOG 340 - Natural Resources **Credits:** 3
- GEOG 370 - Environmental Justice **Credits:** 3
- GEOG 460 - Human Dimensions of Global Change **Credits:** 3
- GEOG 600 - Mountain Geography **Credits:** 3
- GEOG 718 - Geography of Public Lands **Credits:** 3
- GEOG 720 - Geography of Land Use **Credits:** 3
- GEOG 722 - Geographies of International Conservation **Credits:** 3
- GEOG 725 - Geography of Water Resources **Credits:** 3
- GEOG 761 - Human Impact on the Environment **Credits:** 3

Human/Regional Geography

- GEOG 300 - Geography of Tourism **Credits:** 3
- GEOG 310 - Geography of Kansas **Credits:** 3
- GEOG 332 - Introduction to China **Credits:** 3
- GEOG 335 - European Landscapes **Credits:** 3
- GEOG 450 - Geography of Economic Behavior **Credits:** 3
- GEOG 500 - Geography of the United States **Credits:** 3
- GEOG 505 - South Asian Civilizations **Credits:** 3
- GEOG 510 - Geography of the American West **Credits:** 3
- GEOG 620 - Mexico, Central America, and Caribbean **Credits:** 3
- GEOG 622 - Geography of South America **Credits:** 3
- GEOG 660 - Geography of East Asia/China **Credits:** 3
- GEOG 690 - Historical Geography of the United States **Credits:** 3
- GEOG 750 - Urban Geography **Credits:** 3
- GEOG 780 - Cultural Geography **Credits:** 3

Geography Electives: 12 Credit Hours

12 Credit Hours of any GEOG course, or GEOL 520. Courses may not double count for any of the above requirements.

BS Natural and Quantitative Restricted Electives: 6-9 Credit Hours

One course in each of the following at any level

Natural Science course Credits: 3-5 Credit Hours

GEOG 121 may count if it is not used to fulfill K-State Core

Quantitative course Credits: 3-4

STAT 225 may count if it is not used to fulfill K-State Core

BS Arts, Humanities, and Social Sciences Restricted Electives: 3 Credit Hours

Fine Arts or Humanities: Any course or combination of courses: 3 Credit Hours

Free Electives: 23-27 Credit Hours

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

Minor

Geography Minor

Program requirements

- At least two additional geography courses at the 400 level and above **Credits:** 6
- GEOG 100 - World Geography & Globalization **Credits:** 3
  or
- GEOG 200 - Human Geography **Credits:** 3
- GEOG 121 - Introductory Physical Geography: Earth Systems Science **Credits:** 3
- GEOG 122 - Introduction to Physical Geography: Earth Systems Science Laboratory **Credits:** 1
- GEOG 302 - Cartography and Thematic Mapping **Credits:** 3

Total credit hours: (16)

Undergraduate Certificate

Geographic Information Systems Undergraduate Certificate

The undergraduate certification in geographic information systems, as distinct from the minor in geography, is focused on meeting the needs of students who want to acquire grounding in geospatial analytical tools (cartography, remote sensing, and GIS). The certificate helps students prepare for entry-level positions in the private sector or government.

Students must earn a minimum GPA of 3.0 for courses within the certificate program to qualify for the certificate.

Certification requirements (18 credit hours)

- One additional class with 50 percent or more GIS content **Credits:** 3
- GEOG 302 - Cartography and Thematic Mapping **Credits:** 3
- GEOG 508 - Geographic Information Systems I **Credits:** 4
- GEOG 602 - Computer Mapping and Geographic Visualization **Credits:** 3
- GEOG 605 - Remote Sensing of the Environment **Credits:** 3

- GEOG 608 - Geographic Information Systems II **Credits:** 3

Geology

Matthew Brueseke, Interim Head

108 Thompson Hall
785-532-6724
www.k-state.edu/geology

Geology is often defined as the study of the physical aspects of the Earth--it's composition, structure and the processes that have shaped it--past, present and future. But it's much more than that. The study of the earth involves chemistry, physics, mathematics and biology, along with history, logic and art. Professional geologists also utilize creativity, ingenuity and 3-D visualization, as well as speaking and writing skills. In short, a geology career can utilize all your talents.

It's also a good time to be a geology major! According to the Bureau of Labor Statistics, the number of geoscience jobs is expected to increase by 16% over the next decade, significantly faster than average. In other words, there are expected to be more jobs than people. Mean annual salaries for geoscience occupations also pay well above the national average for life, physical, and social sciences. Job opportunities, salaries, and opportunities for advancement are significantly enhanced with a Master of Science degree, and we strongly encourage students to consider this route.

The geology faculty possess a wide range of expertise in both traditional and cross-disciplinary areas of geosciences and are committed to excellence in their teaching. The department offers programs leading to the BS and BA degrees in geology, with tracks in Geology, Petroleum Geosciences and Environmental Geosciences. In addition to the undergraduate program, the department offers a MS degree: our graduate program currently has approximately 30 students.

The Department of Geology is also partnered with the Division of Biology and the Departments of Agronomy and Geography to offer a BS degree in Environmental Science. The degree includes a wide range of Geology courses and allows students to specialize in Water Resources, Earth Systems, Conservation and Sustainability, Analytical and Geospatial Methods, and Agroecosystems. For detailed plans of study, consult the Environmental Science Program Administrator, Chloe Wallace (chloewallace@ksu.edu) or the Geology Department head.

We also cooperate with the College of Education to offer an **Earth Science (EDESC [Inactive]) option for high school teachers**. In addition to the general requirements for the BA or BS degree, the teacher licensure requirements must be completed. See the College of Education for more information about teacher licensure requirements and details about earth and space science as a Second Teaching Field in Secondary Education.

Minors in both geology (18-20 credit hours) and geophysics (16 credit hours) are also possible.

Students in geology must have an overall average grade of C (not a C grade in each course) in their geology, other natural science, mathematics, and computer science courses.

Bachelor of Arts

Geology (BA)

A wide range of geoscience subdisciplines exist that provide exciting and viable career options, e.g. hydrology, energy and minerals resources, engineering geology, exploration seismic and near-surface geophysics, environmental geology and geochemistry, igneous and metamorphic petrology, structural geology, geochronology, sedimentary geology, biomineralization and biogeochemistry – just to name a few. Geology majors should consult their advisors about elective courses to meet their career and educational needs.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional

general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 Credit Hour

- DAS 101 - Discover, Create, and Thrive: Arts and Sciences Orientation **Credits:** 1

Outside Concentration: 9 Credit Hours

Outside credential of at least 9 credit hours (May be from any unit, **except Geology,** OR from approved interdisciplinary credentials within the unit).

OR

Any 9 credit hours in a single prefix (**except for GEOL**) (all must be 300 level or above OR at any level with a prereq in the same prefix; up to 5 credit hours may overlap with program).

OR

Any 9 credit hours in a microcredential (up to 5 credit hours may overlap with program).

Overlays: [9] Credit Hours

May be fulfilled in K-State Core, Outside Concentration, electives, or the Program itself.

- Ethical Reasoning Overlay **Credits:** [3]
- Global Perspectives Overlay **Credits:** [3]
- US Multicultural Overlay **Credits:** [3]

Program

The curriculum for this major assumes students enter college prepared to take Calculus.

Support Coursework: 11 - 12 Credit Hours

- CHM 110 - General Chemistry **Credits:** 3
- CHM 111 - General Chemistry Laboratory **Credits:** 1
- PHYS 113 - General Physics I **Credits:** 4
- STAT 225 - Introduction to Statistics **Credits:** 3
  OR
- MATH 220 - Analytic Geometry and Calculus I **Credits:** 4

Geology Foundation: 25 Credit Hours

- GEOL 100 - Earth in Action **Credits:** 3
- GEOL 200 - Earth Through Time **Credits:** 3
- GEOL 103 - Geology Laboratory **Credits:** 1
- GEOL 360 - Quantitative Methods in Geoscience **Credits:** 3
- GEOL 502 - Mineralogy **Credits:** 3
- GEOL 503 - Petrology **Credits:** 3
- GEOL 530 - Structural Geology **Credits:** 3
- GEOL 560 - Field Methods **Credits:** 3
- GEOL 630 - Sedimentology and Stratigraphy **Credits:** 3

Geology Electives: 15 Credit Hours

Choose five courses (for a total of 15 CH) from those listed below

Any GEOL level 500 to 799

- GEOL 305 - Sustainable Earth Resources **Credits:** 3

OR

BA Arts, Humanities, and Social Sciences Restricted Electives: 9 Credit Hours

3 credit hours in each of the following, with at least 6 credit hours at 300 level or above OR at any level with a prerequisite in the same discipline.

One course in Humanities Credits: 3

Any course or combination of courses in Fine Arts Credits: 3

One Non-Quantitative Social Science; Any Social course that does NOT have a MATH or STAT prereq Credits: 3

BA Second Language Requirement: 3-16 Credit Hours

Choose one of the following:

Option 1: 3-14 Credit Hours

At least 3 credit hours of coursework culminating with level 4 or above (i.e., Frech 4, German 4, Spanish 4, etc.) or the equivalent of level 4 in a second language sequence.

Option 2: 16 Credit Hours

At least 16 credit hours of coursework in which student takes the first and second levels of two different languages, selected from any language offered within the department of Modern Languages, ASL, or from any other second language transferred in at an equivalent level.

Option 3: 3 Credit Hours

Students whose first language is not English may satisfy this requirement by meeting the English Proficiency Admission Standards for K-State or by completing the appropriate level of exit courses with the English Language Program.

Free Electives: 0-13 Credit Hours

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

Bachelor of Science

Geology (BS)

A wide range of geoscience subdisciplines exist that provide exciting and viable career options, e.g. hydrology, energy and minerals resources, engineering geology, exploration seismic and near-surface geophysics, environmental geology and geochemistry, igneous and metamorphic petrology, structural geology, geochronology, sedimentary geology, biomineralization and biogeochemistry – just to name a few. Geology majors should consult their advisors about elective courses to meet their career and educational needs. Quantitative skills and computer literacy are essential for all geologists and are strongly encouraged. Students intending to earn advanced degrees should visit with the departmental graduate advisor concerning entrance requirements of graduate programs.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 Credit Hour

- DAS 101 - Discover, Create, and Thrive: Arts and Sciences Orientation **Credits:** 1

Outside Concentration: 9 Credit Hours

Outside credential of at least 9 credit hours (May be from any unit, **except Geology**, OR from approved interdisciplinary credentials within the unit).

OR

Any 9 credit hours in a single prefix (**except for GEOL**) (all must be 300 level or above OR at any level with a prereq in the same prefix; up to 5 credit hours may overlap with program).

OR

Any 9 credit hour microcredential (up to 5 credit hours may overlap with program).

Overlays: [9] Credit Hours

May be filled in K-State Core, Outside Concentration, electives, or the Program itself.

- Ethical Reasoning Overlay, 1 course **Credits**: [3]
- Global Perspectives Overlay, 1 course **Credits**: [3]
- US Multicultural Overlay, 1 course **Credits**: [3]

Program

The curriculum for this major assumes students enter college prepared to take Calculus.

Required Coursework: 19-24 credit hours

MATH 220 may be fulfilled as part of the K-State Core

- CHM 210 - Chemistry I **Credits:** 4
  OR
- CHM 220 - Honors Chemistry I **Credits:** 5
- CHM 230 - Chemistry II **Credits:** 4
  OR
- CHM 250 - Honors Chemistry II **Credits:** 5
- MATH 220 - Analytic Geometry and Calculus I **Credits:** 4
- MATH 221 - Analytic Geometry and Calculus II **Credits:** 4
  OR
- GEOL 360 - Quantitative Methods in Geoscience **Credits:** 3
- PHYS 113 - General Physics I **Credits:** 4
  OR
- PHYS 213 - Engineering Physics I **Credits:** 5
- PHYS 114 - General Physics II **Credits:** 4
  OR
- PHYS 214 - Engineering Physics II **Credits:** 5

Geology Foundation: 25 credit hours

- GEOL 100 - Earth in Action **Credits:** 3
- GEOL 103 - Geology Laboratory **Credits:** 1
- GEOL 200 - Earth Through Time **Credits:** 3
- GEOL 502 - Mineralogy **Credits:** 3
- GEOL 503 - Petrology **Credits:** 3
- GEOL 530 - Structural Geology **Credits:** 3

- GEOL 560 - Field Methods **Credits:** 3
- GEOL 630 - Sedimentology and Stratigraphy **Credits:** 3
- GEOL 680 - Field Geology **Credits:** 3

General Earth Science: 15 credit hours

Group I: 3 credit hours

Choose one course (3 credits) from the following:

- GEOL 605 - Introduction to Aqueous Geochemistry **Credits:** 3
- GEOL 640 - Introduction to Geophysics **Credits:** 3

Group II: 3 credit hours

Choose one course (3 credits) from the following:

- GEOL 601 - Economic Geology **Credits:** 3
- GEOL 631 - Petroleum Geology **Credits:** 3
- GEOL 642 - Field Geophysics **Credits:** 3

Group III: 3 credit hours

Chose one course (3 credits) from the following:

- GEOL 520 - Geomorphology **Credits:** 3
- GEOL 611 - Hydrogeology **Credits:** 3
- GEOL 650 - Geomicrobiology **Credits:** 3

Group IV: 6 credit hours

Choose two courses (6 credits) from GEOL at 500-799 level

BS Arts, Humanities, and Social Sciences Restricted Electives: 6 Credit Hours

3 credit hours in each of the following, with at least 3 credit hours total at 300 level or above OR at any level with a prerequisite in the same discipline.

Fine Arts or Humanities: Any course or combination of courses Credits: 3

Non-Quantitative Social Science: Any social science course that does NOT have a MATH or STAT prereq Credits: 3

Free Electives: 4 - 11 credit hours

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

A&S common degree requirements satisfied by Required Coursework, and BS Arts, Humanities, and Social Sciences Restricted Electives

Geology - Energy and Mineral Resources (BS)

Focused on exploration and extraction of energy and mineral resources. Great choice for students interested in working in the oil and gas industry or mining industry.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

History

Andrew Orr, Chair

117D Calvin Hall
785-532-6730
E-mail: hoffice@k-state.edu
www.k-state.edu/history

The history program appeals not only to majors but to all students seeking a rewarding educational experience. The curriculum includes courses in traditional and nontraditional fields of interest taught by a nationally respected faculty willing to try new and

innovative teaching techniques. A program of speakers, seminars, colloquia, and films supplements the curriculum to stimulate student interest in the discipline of history and how it is expressed.

Undergraduate advisors in the history department maintain up-to-date information regarding requirements of graduate and professional schools and relevant course offerings in history and other departments.

Transfer students

Normally the history department will accept transfer credit for history courses taught at accredited institutions of higher education. In the case of students transferring from community colleges, only courses equivalent to those taught at the freshman-sophomore level at K-State (courses numbered HIST 100 through HIST 299) may receive credit for the history major.

Bachelor of Arts

History (BA)

The history program appeals not only to majors but to all students seeking a rewarding educational experience. The curriculum includes courses in traditional and nontraditional fields of interest taught by a nationally respected faculty willing to try new and innovative teaching techniques. A program of speakers, seminars, colloquia, and films supplements the curriculum to stimulate student interest in the discipline of history and how it is expressed.

Double majors.

Students majoring in two or more programs may count up to two courses from their other major towards their History program. See curriculum for details.

Double majors and teacher licensure.

Students majoring in history may also prepare for teacher licensure in Secondary Education-Social Sciences (EDSST) Teacher Licensure program. In addition to the adjustment allowed for all double majors, students in this program may be able to count some of their Education requirements towards restricted electives. They should select their courses in consultation with advisors in both the history department and the College of Education to ensure that they meet the requirements of both programs. See the Department of Curriculum and Instruction for social science licensure requirements.

Advanced program in History.

Certain highly qualified students may elect to define their own programs for the major in consultation with a committee of three faculty members chosen by the student and approved by the department chair. This program of study should be broadly conceived, not narrowly circumscribed. This option is available to students seeking a BA or BS degree in history. To enter this program a student must have a GPA of 3.5 at the end of the freshman year or later, submit two letters of recommendation and a statement of purpose, and receive approval from the undergraduate studies committee.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for

institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 Credit Hour

- DAS 101 - Discover, Create, and Thrive: Arts and Sciences Orientation **Credits:** 1

Outside Concentration: 9 Credit Hours

Outside credential of at least 9 credit hours (May be from any unit, except for History**,** OR from approved interdisciplinary credentials within the unit).

OR

Any 9 credit hours in a single prefix (except for HIST) (all must be 300 level or above OR at any level with a prereq in the same prefix; up to 5 credit hours may overlap with program).

OR

Any 9 credit hours in a microcredential (up to 5 credit hours may overlap with program).

Overlays: [9] Credit Hours

May be fulfilled in K-State Core, Outside Concentration, electives, or the Program itself.

- Ethical Reasoning Overlay **Credits:** [3]
- Global Perspectives Overlay **Credits:** [3]
- US Multicultural Overlay **Credits:** [3]

Minimum Total Credits for Program Requirements: 10

Program

Math Requirement

If not met through K-State Core requirements, MATH 160 is required.

KSC-030

- MATH 160 - Introduction to Contemporary Mathematics **Credits:** 3

Professional courses for History Major: 6 Credit Hours

- HIST 300 - Introduction to Historical Thinking **Credits:** 3

- HIST 586 - Advanced Seminar in History **Credits:** 3

Upper-division courses: 21 Credit Hours

NOTE:

At least two of the 300 level or above courses must have primary chronological emphasis prior to 1800

Courses from 300 level or above must also include at least one course from each of the following three areas: U.S., European, and neither US nor European history.

Chronological Emphasis and Areas Lists can be cound here: https://www.k-state.edu/history/academics/undergrad/Course_Distributions.html

Upper-division courses (301-799) 9 Credit Hours

Upper-division courses (400-799) 12 credits

Chose 4 courses

History Electives: 9 Credit Hours

Choose 3 courses (9 Credit Hours) of HIST courses at any level.

No more than 3 of the 9 Credit Hours may be from HIST 200-Topics in History for Freshman and Sophomores.

BA Arts, Humanities, and Social Sciences Requirement: 6 Credit Hours

3 credit hours in each of the following, with at least 3 credit hours at 300 level or above OR at any level with a prerequisite in the same discipline.

Fine Arts: Credits: 3

Non-Quantitative Social Science: Credits: 3

BA Natural and Quantitative Requirement: 6 Credit Hours

One course in each of the following, with at least 3 credit hours total at 300 level or above OR at any level with a prerequisite in the same discipline.

Natural Science or Quantitative course Credits: 3

Natural Science, or Quantitative, or Social Science with MATH or STAT Credits: 3

BA Second Language Requirement: 3-16 Credit Hours

Choose one of the following:

Option 1: 3-14 Credit Hours

At least 3 credit hours of coursework culminating with level 4 or above (i.e., French 4, German 4, Spanish 4, etc.) or the equivalent of level 4 in a second language sequence.

Option 2: 16 Credit Hours

At least 16 credit hours of coursework in which student takes the first and second levels of two different languages, selected from any language offered within the department of Modern Languages, ASL, or from any other second language transferred in at an equivalent level.

Option 3: 3 Credit Hours

Students whose first language is not English may satisfy this requirement by meeting the English Proficiency Admission Standards for K-State or by completing the appropriate level of exit courses with the English Language Program.

Free Electives: 12-25 Credit Hours

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

Bachelor of Science

History (BS)

The history program appeals not only to majors but to all students seeking a rewarding educational experience. The curriculum includes courses in traditional and nontraditional fields of interest taught by a nationally respected faculty willing to try new and innovative teaching techniques. A program of speakers, seminars, colloquia, and films supplements the curriculum to stimulate student interest in the discipline of history and how it is expressed.

Double majors.

Students majoring in two or more programs may count up to two courses from their other major towards their History program. See curriculum for details.

Double majors and teacher licensure.

Students majoring in history may also prepare for teacher licensure in Secondary Education-Social Sciences (EDSST) Teacher Licensure program. In addition to the adjustment allowed for all double majors, students in this program may be able to count some of their Education requirements towards restricted electives. They should select their courses in consultation with advisors in both the history department and the College of Education to ensure that they meet the requirements of both programs. See the Department of Curriculum and Instruction for social science licensure requirements.

Advanced program in History.

Certain highly qualified students may elect to define their own programs for the major in consultation with a committee of three faculty members chosen by the student and approved by the department chair. This program of study should be broadly

conceived, not narrowly circumscribed. This option is available to students seeking a BA or BS degree in history. To enter this program a student must have a GPA of 3.5 at the end of the freshman year or later, submit two letters of recommendation and a statement of purpose, and receive approval from the undergraduate studies committee.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 Credit Hour

- DAS 101 - Discover, Create, and Thrive: Arts and Sciences Orientation **Credits:** 1

Outside Concentration: 9 Credit Hours

Outside credential of at least 9 credit hours (May be from any unit, except History OR from approved interdisciplinary credentials within the unit).

OR

Any 9 credit hours in a single prefix (except for HIST) (all must be 300 level or above OR at any level with a prereq in the same prefix; up to 5 credit hours may overlap with program).

OR

Any 9 credit hour microcredential (up to 5 credit hours may overlap with program).

Overlays: [9] Credit Hours

May be filled in K-State Core, Outside Concentration, electives, or the Program itself.

- Ethical Reasoning Overlay, 1 course **Credits**: [3]
- Global Perspectives Overlay, 1 course **Credits**: [3]
- US Multicultural Overlay, 1 course **Credits**: [3]

Program

Math Requirement

If not met through K-State Core requirements, MATH 160 is required.

KSC-030

- MATH 160 - Introduction to Contemporary Mathematics **Credits:** 3

Professional courses for History Major: 6 Credit Hours

- HIST 300 - Introduction to Historical Thinking **Credits:** 3
- HIST 586 - Advanced Seminar in History **Credits:** 3

Upper-division courses: 21 Credit Hours

Upper-division courses (HIST 301-799) 9 credits

Upper-division courses (HIST 400-799) 12 credits

NOTE:

At least two of the above courses must have primary chronological emphasis prior to 1800

The above courses must include at least one course from each of the following three areas: U.S., European, and neither US nor European history.

Chronological Emphasis and Areas Lists can be cound here: https://www.k-state.edu/history/academics/undergrad/Course_Distributions.html

Additional courses at any level: 9 Credit Hours

No more than 3 of these 9 credits may be from HIST 200 - Topics in History for Freshmen and Sophomores.

BS Natural and Quantitative Requirements: 12-15 Credit Hours

One course in each of the following, with at least two courses at the 300 level or above OR at any level with a prerequisite in the same discipline.

Natural Science course Credits: 3-5

Quantitative course Credits: 3-4

Natural Science, or Quantitative, or Social Science w/MATH or STAT prereq Credits: 3

Natural Science, or Quantitative, or Social Science w/MATH or STAT prereq Credits: 3

BS Arts, Humanities, and Social Sciences Requirements: 3 Credit Hours

3 credit hours of Social Sciences (non-quantitative) at any level.

Non-Quantitative Social Science: Any social science course that does NOT have a MATH or STAT prereq Credits: 3

Free Electives: 25 Credit Hours

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

Minor

East Asian Studies Minor

David Graff, East Asian Studies Coordinator
Department of History
314 Eisenhower Hall
785-532-0366
Fax: 785-532-7004
E-mail: dgraff@ksu.edu
www.k-state.edu/history

The East Asian Studies minor program is designed to provide students at K-State with a knowledge of and appreciation for East Asia's history, culture, economy, and natural environment. The East Asian Studies minor is offered in the College of Arts & Sciences, though faculty from other colleges may participate and offer related courses that contribute to the mission of the program.

Students must have a GPA of 2.0 or better to qualify for the East Asian Studies minor. To complete the minor, they will need twenty credit hours of designated course work, of which at least eight credit hours must be for the required language courses and the remaining credit hours for electives in various subject areas.

Students Should earn a grade of C or above for the courses to be considered toward the minor. Transfer credits for similar courses from other institutions may be accepted as part of the student's program of study, subject to the program director's approval. Courses taken for the minor may be used to satisfy the general requirements of a major curriculum, including free electives.

Required Language Courses (8 credit hours)

The minor requires that each student achieve mastery of Chinese or Japanese at the intermediate level, which is defined for the purpose of this minor as the level of Japanese III and IV or Chinese III and IV. Students are expected to have taken Japanese I and II (JAPAN 191 and JAPAN 192, or their equivalents) or Chinese I and II (CHINE 101 and CHINE 200, or their equivalents) before they take the third and fourth levels of language classes. Native speakers of Japanese or Chinese, and students who can demonstrate language proficiency at the fourth semester level may be exempt from taking the language courses. In such cases, students, after consulting the program director, may take additional elective courses to fulfill the total credit hour requirements of the minor.

- CHINE 201 - Chinese III **Credits:** 4
  and
- CHINE 301 - Chinese IV **Credits:** 4
  or

- JAPAN 201 - Japanese III **Credits:** 4
  and
- JAPAN 301 - Japanese IV **Credits:** 4

Elective Courses (12 credit hours)

- ECON 507 - The Japanese Economy **Credits:** 3
- GEOG 331 - Introduction to Japan **Credits:** 3
- GEOG 332 - Introduction to China **Credits:** 3
- GEOG 660 - Geography of East Asia/China **Credits:** 3
- HIST 330 - History of East Asian Civilizations **Credits:** 3
- HIST 331 - Introduction to Japan **Credits:** 3
- HIST 332 - Introduction to China **Credits:** 3
- JAPAN 391 - Culture of Japanese Communication **Credits:** 3
- POLSC 511 - Contemporary Chinese Politics **Credits:** 3

Topic Courses

The following topics courses may also be used as electives, depending on the specific topic and subject to the approval of the academic director of the East Asian Studies minor.

- ARCH 715 - Topics in Architecture Seminar **Credits:** 3
- ART 695 - Topics in Art History **Credits:** 3
- EDCEP 786 - Topics in Counseling and Educational Psychology **Credits:** 1-3
- ENGL 580 - Selected World Literature **Credits:** 3
- HIST 598 - Topics in Non-Western History **Credits:** 1-3
- POLSC 791 - Topics in Political Science **Credits:** 3
  Other courses may be used as electives, as authorized at the discretion of the director.

Transfer policy

Courses taken at other institutions in the U.S. or abroad may be used to satisfy the language requirement and up to one-half of the elective requirement, subject to the approval of the EAS coordinator (and the Department of Modern Languages, in the case of language courses). Two elective courses totaling at least 6 credit hours must be taken at K-State.

History Minor

Requirements for a history minor consist of a minimum of 21 credit hours in history of which at least 15 must be at the 300 level or higher and a final cumulative GPA of 2.0 or better.

Program requirements

Requirements for a history minor consist of a minimum of 21 credit hours in history of which at least 15 must be at the 300 level or higher.

Total credit hours: (21)

Undergraduate Certificate

Grand Strategy Undergraduate Certificate

Interdisciplinary program encouraging students to think about grand strategy and develop real world skills rooted in historical knowledge and understanding. Its primary focus is on statecraft geared towards developing long-term foreign policies, but it also goes beyond this traditional definition and asks students to consider the grand strategies adopted by activists or humanitarian groups in order to challenge the established world order.

Required Courses: (4 Credit Hours)

Students will choose one of the following introductory courses: HIST 155 U.S. Military History Since 1775 or POLSC 145 World Politics.

All students enrolled in the certificate will enroll in HIST 400 Grand Strategy Simulation

- HIST 155 - Introduction to US Military History **Credits:** 3
  OR
- POLSC 145 - World Politics **Credits:** 3
- HIST 400 - Grand Strategy Simulation **Credits:** 1

Electives: (9 Credit Hours)

Students will choose 9 credit hours among the following selection of courses (including 3 credits in HIST and 3 credits in POLSC)

- GWSS 380 - Global Struggles for Feminist, Queer, and Trans Justice **Credits:** 3
- GWSS 405 - Resistance and Movements for Social Change **Credits:** 3
- HIST 311 - Race & US Foreign Relations **Credits:** 3
- HIST 333 - War and Conquest in Hispanic America **Credits:** 3
- HIST 363 - A World in Flames: Global World War II **Credits:** 3
- HIST 388 - Nazi Germany and the Holocaust **Credits:** 3
- HIST 510 - World War I **Credits:** 3
- HIST 526 - The American Revolution **Credits:** 3
- HIST 544 - From World Power to Superpower: US Foreign Relations since 1920 **Credits:** 3
- HIST 545 - War in the Twentieth Century **Credits:** 3
- HIST 593 - The Vietnam War **Credits:** 3
- HIST 595 - French Revolution, 1789-1815 **Credits:** 3
- PHYS 102 - Current Topics in the Physical World **Credits:** 3
- POLSC 343 - American Foreign Policy **Credits:** 3
- POLSC 540 - Global Security Threats **Credits:** 3
- POLSC 549 - International Defense Strategies **Credits:** 3

Mathematics

Pietro Poggi-Corradini, Head
Gabe Kerr, Undergraduate Studies Director

138 Cardwell Hall
785-532-6750
E-mail: math@math.k-state.edu
www.math.k-state.edu

Our modern technological world has many fields that require mathematical expertise. The Department of Mathematics at K-State offers courses for students pursuing a career in mathematics as well as students needing quantitative and problem-solving skills for use in other fields.

Mathematics graduates are sought both for their specialized knowledge and for their ability to reason and think analytically and solve problems. Currently, there is a strong demand for mathematically trained people in technologically related positions dealing with applications and in education at all levels.

Dual majors and dual degrees

Students may major in mathematics and another discipline within the College of Arts and Sciences. The degree requirements of both departments must be met. Students may obtain a degree in mathematics and a second degree in a field in another college such as business administration, education, or engineering. The degree requirements of both colleges and majors must be met.

Information for nonmajors

Most colleges and departments require at least one mathematics course. Students should check with their advisors to determine which mathematics courses to take. Incoming students are provided a Placement Exam by K-State that will aid them in selecting the appropriate entry-level mathematics course. Expanded mathematics course descriptions are online.

Mathematics Teacher Preparation
Mathematical Scholars

Bachelor of Arts

Mathematics - Actuarial Mathematics (BA)

The Actuarial Mathematics Track of the Mathematics BA degree prepares students with the necessary background to succeed in an actuarial science career. The curriculum emphasizes topics such as of probability, statistics, and mathematical finance. In addition to the requirements of the College of Arts and Sciences, actuarial mathematics majors must take the foundational and intermediate courses, specific courses focused on actuarial content, and then choose more advanced courses among the mathematics offerings. Each mathematics major will need to take free electives beyond their specified mathematics coursework in order to meet graduation requirements.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 Credit Hour

- DAS 101 - Discover, Create, and Thrive: Arts and Sciences Orientation **Credits:** 1

Outside Concentration: 9 Credit Hours

Outside credential of at least 9 credit hours (May be from any unit, **except Mathematics,** OR from approved interdisciplinary credentials within the unit).

OR

Any 9 credit hours in a single prefix (except for MATH) (all must be 300 level or above OR at any level with a prereq in the same prefix; up to 5 credit hours may overlap with program).

OR

Any 9 credit hours in a microcredential (up to 5 credit hours may overlap with program).

Overlays: [9] Credit Hours

May be fulfilled in K-State Core, Outside Concentration, electives, or the Program itself.

- Ethical Reasoning Overlay **Credits:** [3]

- Global Perspectives Overlay **Credits:** [3]
- US Multicultural Overlay **Credits:** [3]

Program

The curriculum for this major assumes students enter college prepared to take Calculus.

Math and Quantitative Foundation Courses: 42-44 Credit Hours

Foundational Courses: 11-12 Credit Hours

Choose foundational courses from the options. Note that Calc I will satisfy K-State Core requirement #3.

Programming Course

Choose one from the following

- CIS 200 - Programming Fundamentals **Credits:** 4
- CIS 209 - Computer Programming for Engineers **Credits:** 3
- CIS 570 - Introduction to Formal Language Theory **Credits:** 3

Calculus I Course

Choose one from the following

- MATH 220 - Analytic Geometry and Calculus I **Credits:** 4
- MATH 250 - Mathematical Scholars Calculus 1 **Credits:** 4

Calculus II Course

Choose one from the following

- MATH 221 - Analytic Geometry and Calculus II **Credits:** 4
- MATH 251 - Mathematical Scholars Calculus 2 **Credits:** 4

Intermediate Courses: 10-11 Credit Hours

Choose either the Traditional or Scholar Option.

Traditional Option

- MATH 222 - Analytic Geometry and Calculus III **Credits:** 4
- MATH 340 - Elementary Differential Equations **Credits:** 4

Linear Algebra Course

Choose one from the following

- MATH 515 - Introduction to Linear Algebra **Credits:** 3
- MATH 551 - Applied Matrix Theory **Credits:** 3

Scholar Option

The Scholar Option combines the three courses from the Traditional Option into a two course sequence. Completion of 350 from the Scholar Option without 351 will satisfy the Linear Algebra Course requirement of the Traditional Option.

- MATH 350 - Mathematical Scholars Calculus 3 **Credits:** 5
- MATH 351 - Mathematical Scholars Calculus 4 **Credits:** 5

Actuarial Course Requirements: 12 Credit Hours

- MATH 500 - Mathematical Theory of Interest **Credits:** 3
- MATH 501 - Mathematical Foundations of Actuarial Science **Credits:** 3
- STAT 610 - Introduction to Mathematical Statistics I **Credits:** 3
- STAT 611 - Introduction to Mathematical Statistics II **Credits:** 3

Math Electives: 9 Credit Hours

Choose 9 additional credits from mathematics courses numbered 400 and above of which 3 may be statistics courses numbered above 600.

- MATH 498 - Honors Project **Credits:** 3
- MATH 499 - Undergraduate Topics in Mathematics **Credits:** 1-18
- MATH 510 - Discrete Mathematics **Credits:** 3
- MATH 511 - Introduction to Algebraic Systems **Credits:** 3
- MATH 512 - Introduction to Modern Algebra **Credits:** 3
- MATH 515 - Introduction to Linear Algebra **Credits:** 3
- MATH 520 - Foundations of Analysis **Credits:** 3
- MATH 521 - The Real Number System **Credits:** 3
- MATH 540 - Advanced Ordinary Differential Equations **Credits:** 3
- MATH 560 - Introduction to Topology **Credits:** 3
- MATH 570 - History of Mathematics **Credits:** 3
- MATH 572 - Foundations of Geometry **Credits:** 3
- MATH 591 - Topics in Mathematics for Teachers **Credits:** 1-3
- MATH 599 - Topics in Mathematics **Credits:** 1-3
- MATH 615 - Introduction to Digital Image Processing **Credits:** 3
- MATH 620 - Convex Optimization for Data Science **Credits:** 3
- MATH 630 - Introduction to Complex Analysis **Credits:** 3
- MATH 632 - Elementary Partial Differential Equations **Credits:** 3
- MATH 633 - Advanced Calculus I **Credits:** 3
- MATH 634 - Advanced Calculus II **Credits:** 3

- MATH 635 - Dynamics, Chaos, and Fractals **Credits:** 3
- MATH 655 - Elementary Numerical Analysis I **Credits:** 3
- MATH 656 - Elementary Numerical Analysis II **Credits:** 3
- MATH 670 - Mathematical Modeling **Credits:** 3
- MATH 700 - Set Theory and Logic **Credits:** 3
- MATH 704 - Introduction to the Theory of Groups **Credits:** 3
- MATH 705 - Computational Math **Credits:** 3
- MATH 706 - Theory of Numbers **Credits:** 3
- MATH 707 - Theory of Numbers II **Credits:** 3
- MATH 710 - Introduction to Category Theory **Credits:** 3
- MATH 711 - Category Theory **Credits:** 3
- MATH 713 - Advanced Applied Matrix Theory **Credits:** 3
- MATH 715 - Applied Mathematics I **Credits:** 3
- MATH 716 - Applied Mathematics II **Credits:** 3
- MATH 721 - Introduction to Real Analysis **Credits:** 3
- MATH 722 - Introduction to Functions of Several Variables **Credits:** 3
- MATH 723 - Complex Functions **Credits:** 3
- MATH 725 - The Mathematics of Data and Networks I **Credits:** 3
- MATH 726 - The Mathematics of Data and Networks II **Credits:** 3
- MATH 730 - Abstract Algebra I **Credits:** 3
- MATH 731 - Abstract Algebra II **Credits:** 3
- MATH 740 - Calculus of Variation **Credits:** 3
- MATH 745 - Ordinary Differential Equations **Credits:** 3

BA Arts, Humanities, and Social Sciences Requirement: 12 Credit Hours

3 credit hours in each of the following, with at least 6 credit hours at 300 level or above OR at any level with a prerequisite in the same discipline.

One course in Humanities Credits: 3

Any course or combination of courses in Fine Arts Credits: 3

One Non-Quantitative Social Science; Any Social course that does NOT have a MATH or STAT prereq Credits: 3

BA Second Language Requirement: 3-16 Credit Hours

Choose one of the following:

Option 1: 3-14 Credit Hours

At least 3 credit hours of coursework culminating with level 4 or above (i.e., Frech 4, German 4, Spanish 4, etc.) or the equivalent of level 4 in a second language sequence.

Option 2: 16 Credit Hours

At least 16 credit hours of coursework in which student takes the first and second levels of two different languages, selected from any language offered within the department of Modern Languages, ASL, or from any other second language transferred in at an equivalent level.

Option 3: 3 Credit Hours

Students whose first language is not English may satisfy this requirement by meeting the English Proficiency Admission Standards for K-State or by completing the appropriate level of exit courses with the English Language Program.

Free Electives

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

Arts & Sciences common degree requirements for the BA are satisfied by the following:

- Math courses (2) fulfill Quantitative requirements
- BA Arts, Humanities, and Social Sciences Restricted Electives
- BA Second Language Restricted Electives

Mathematics - Applied Mathematics (BA)

The Applied Mathematics Track of the Mathematics BA degree focuses on the modern use of advanced mathematics in business, computer and data science, engineering, finance, and the physical sciences. In addition to the requirements of the College of Arts and Sciences, applied mathematics majors must take the foundational and intermediate courses, and then choose more advanced courses among the applied mathematics offerings. Each mathematics major will need to take free electives beyond their specified mathematics coursework in order to meet graduation requirements.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: (1 credit hour)

- DAS 101 - Discover, Create, and Thrive: Arts and Sciences Orientation **Credits:** 1

Outside Concentration: (9 credit hours)

Outside credential of at least 9 credit hours (May be from any unit, **except Mathematics,** OR from approved interdisciplinary credentials within the unit).

OR

Any 9 credit hours in a single prefix (except for MATH) (all must be 300 level or above OR at any level with a prereq in the same prefix; up to 5 credit hours may overlap with program).

OR

Any 9 credit hours in a microcredential (up to 5 credit hours may overlap with program).

Overlays: ([9] credit hours)

May be fulfilled in K-State Core, Outside Concentration, electives, or the Program itself.

- Ethical Reasoning Overlay **Credits:** [3]
- Global Perspectives Overlay **Credits:** [3]
- US Multicultural Overlay **Credits:** [3]

Program

The curriculum for this major assumes students enter college prepared to take Calculus.

Math and Quantitative Foundation Courses: (42-44 credit hours)

Foundational Courses: (14-15 credit hours)

Choose foundational courses from the options. Note that Calc I will satisfy K-State Core requirement #3

Programming Course

Choose one from the following

- CIS 200 - Programming Fundamentals **Credits:** 4
- CIS 209 - Computer Programming for Engineers **Credits:** 3
- CIS 531 - Introduction to Programming Techniques for Data Science and Analytics **Credits:** 3

Statistics Course

Choose one from the following

- STAT 510 - Introductory Probability and Statistics I **Credits:** 3
- STAT 610 - Introduction to Mathematical Statistics I **Credits:** 3

Calculus I Course

Choose one from the following

- MATH 220 - Analytic Geometry and Calculus I **Credits:** 4
- MATH 250 - Mathematical Scholars Calculus 1 **Credits:** 4

Calculus II Course

Choose one from the following

- MATH 221 - Analytic Geometry and Calculus II **Credits:** 4
- MATH 251 - Mathematical Scholars Calculus 2 **Credits:** 4

Intermediate Courses: (10-11 credit hours)

Choose either the Traditional or Scholar Option.

Traditional Option

- MATH 222 - Analytic Geometry and Calculus III **Credits:** 4
- MATH 340 - Elementary Differential Equations **Credits:** 4

Linear Algebra Course

Choose one from the following

- MATH 515 - Introduction to Linear Algebra **Credits:** 3
- MATH 551 - Applied Matrix Theory **Credits:** 3
  MATH 350 may be used to satisfy the linear algebra requirement, for students who started on the scholars option but switched to the traditional option

Scholar Option

The Scholar Option combines the three courses from the Traditional Option into a two course sequence. Completion of MATH 350 from the Scholar Option without MATH 351 will satisfy the Linear Algebra Course requirement of the Traditional Option.

- MATH 350 - Mathematical Scholars Calculus 3 **Credits:** 5
- MATH 351 - Mathematical Scholars Calculus 4 **Credits:** 5

Applied Mathematics Courses: (9 credit hours)

Choose three courses, two from Group 1 and a third from either Group 1 or Group 2

Applied Mathematics Courses: Group 1

Choose two courses from the following options

- MATH 498 - Honors Project **Credits:** 3
- MATH 499 - Undergraduate Topics in Mathematics **Credits:** 1-18
- MATH 500 - Mathematical Theory of Interest **Credits:** 3
- MATH 510 - Discrete Mathematics **Credits:** 3
- MATH 540 - Advanced Ordinary Differential Equations **Credits:** 3
- MATH 615 - Introduction to Digital Image Processing **Credits:** 3
- MATH 620 - Convex Optimization for Data Science **Credits:** 3
- MATH 632 - Elementary Partial Differential Equations **Credits:** 3
- MATH 715 - Applied Mathematics I **Credits:** 3
- MATH 789 - Combinatorial Analysis **Credits:** 3
- MATH 655 - Elementary Numerical Analysis I **Credits:** 3

Analysis Course Option

Either MATH 520 or MATH 633 may be chosen, but not both

- MATH 520 - Foundations of Analysis **Credits:** 3
- MATH 633 - Advanced Calculus I **Credits:** 3

Applied Mathematics Courses: Group 2

Choose one additional course from either Group 1 or Group 2

- MATH 501 - Mathematical Foundations of Actuarial Science **Credits:** 3
- MATH 630 - Introduction to Complex Analysis **Credits:** 3
- MATH 634 - Advanced Calculus II **Credits:** 3
- MATH 635 - Dynamics, Chaos, and Fractals **Credits:** 3
- MATH 656 - Elementary Numerical Analysis II **Credits:** 3
- MATH 705 - Computational Math **Credits:** 3
- MATH 716 - Applied Mathematics II **Credits:** 3
- MATH 725 - The Mathematics of Data and Networks I **Credits:** 3
- MATH 726 - The Mathematics of Data and Networks II **Credits:** 3
- MATH 760 - Introduction to Probability Theory **Credits:** 3

Math Electives: (9 credit hours)

Choose three courses from the list, one of which must have the MATH prefix.

- CC 535 - Applied Data Science **Credits:** 3
- CIS 531 - Introduction to Programming Techniques for Data Science and Analytics **Credits:** 3
- CIS 575 - Introduction to Algorithm Analysis **Credits:** 3
- IMSE 785 - Big Data Analytics **Credits:** 3
- MATH 498 - Honors Project **Credits:** 3
- MATH 499 - Undergraduate Topics in Mathematics **Credits:** 1-18
- MATH 500 - Mathematical Theory of Interest **Credits:** 3
- MATH 501 - Mathematical Foundations of Actuarial Science **Credits:** 3
- MATH 510 - Discrete Mathematics **Credits:** 3
- MATH 511 - Introduction to Algebraic Systems **Credits:** 3
- MATH 512 - Introduction to Modern Algebra **Credits:** 3
- MATH 515 - Introduction to Linear Algebra **Credits:** 3
- MATH 520 - Foundations of Analysis **Credits:** 3
- MATH 521 - The Real Number System **Credits:** 3
- MATH 540 - Advanced Ordinary Differential Equations **Credits:** 3
- MATH 551 - Applied Matrix Theory **Credits:** 3
- MATH 560 - Introduction to Topology **Credits:** 3
- MATH 570 - History of Mathematics **Credits:** 3
- MATH 572 - Foundations of Geometry **Credits:** 3
- MATH 591 - Topics in Mathematics for Teachers **Credits:** 1-3
- MATH 599 - Topics in Mathematics **Credits:** 1-3
- MATH 615 - Introduction to Digital Image Processing **Credits:** 3
- MATH 620 - Convex Optimization for Data Science **Credits:** 3

- MATH 630 - Introduction to Complex Analysis **Credits:** 3
- MATH 632 - Elementary Partial Differential Equations **Credits:** 3
- MATH 633 - Advanced Calculus I **Credits:** 3
- MATH 634 - Advanced Calculus II **Credits:** 3
- MATH 635 - Dynamics, Chaos, and Fractals **Credits:** 3
- MATH 656 - Elementary Numerical Analysis II **Credits:** 3
- MATH 670 - Mathematical Modeling **Credits:** 3
- MATH 700 - Set Theory and Logic **Credits:** 3
- MATH 704 - Introduction to the Theory of Groups **Credits:** 3
- MATH 705 - Computational Math **Credits:** 3
- MATH 706 - Theory of Numbers **Credits:** 3
- MATH 707 - Theory of Numbers II **Credits:** 3
- MATH 710 - Introduction to Category Theory **Credits:** 3
- MATH 711 - Category Theory **Credits:** 3
- MATH 713 - Advanced Applied Matrix Theory **Credits:** 3
- MATH 715 - Applied Mathematics I **Credits:** 3
- MATH 716 - Applied Mathematics II **Credits:** 3
- MATH 721 - Introduction to Real Analysis **Credits:** 3
- MATH 722 - Introduction to Functions of Several Variables **Credits:** 3
- MATH 723 - Complex Functions **Credits:** 3
- MATH 725 - The Mathematics of Data and Networks I **Credits:** 3
- MATH 726 - The Mathematics of Data and Networks II **Credits:** 3
- MATH 730 - Abstract Algebra I **Credits:** 3
- MATH 731 - Abstract Algebra II **Credits:** 3
- MATH 740 - Calculus of Variation **Credits:** 3
- MATH 745 - Ordinary Differential Equations **Credits:** 3
- MATH 755 - Dynamic Modeling Processes **Credits:** 3
- MATH 760 - Introduction to Probability Theory **Credits:** 3
- MATH 770 - Introduction to Topology/Geometry I **Credits:** 3
- MATH 771 - Introduction to Topology/Geometry II **Credits:** 3
- MATH 772 - Elementary Differential Geometry **Credits:** 3
- MATH 789 - Combinatorial Analysis **Credits:** 3
- MATH 791 - Topics in Mathematics for Secondary School Teachers **Credits:** 3
- MATH 799 - Topics in Mathematics **Credits:** .5-3
- STAT 705 - Regression and Analysis of Variance **Credits:** 3
- STAT 713 - Applied Linear Statistical Models **Credits:** 3
- STAT 745 - Statistical Graphics **Credits:** 3
- STAT 760 - Optimization for Data Science **Credits:** 3
- STAT 761 - Discrete Optimization and Scalability for Data Science **Credits:** 3
- STAT 764 - Applied Spatio-Temporal Statistics **Credits:** 3
- STAT 766 - Applied Data Mining/Machine Learning and Predictive Analytics **Credits:** 3
- STAT 768 - Applied Bayesian Modeling and Prediction **Credits:** 3
- MATH 655 - Elementary Numerical Analysis I **Credits:** 3

BA Arts, Humanities, and Social Sciences Requirement: (12 credit hours)

3 credit hours in each of the following, with at least 6 credit hours at 300 level or above OR at any level with a prerequisite in the same discipline.

One course in Humanities: (3 credit hours)

Any course or combination of courses in Fine Arts: (3 credit hours)

One Non-Quantitative Social Science; Any Social course that does NOT have a MATH or STAT prereq: (3 credit hours)

BA Second Language Requirement: (3-16 credit hours)

Choose one of the following:

Option 1: (3-14 credit hours)

At least 3 credit hours of coursework culminating with level 4 or above (i.e., Frech 4, German 4, Spanish 4, etc.) or the equivalent of level 4 in a second language sequence.

Option 2: (16 credit hours)

At least 16 credit hours of coursework in which student takes the first and second levels of two different languages, selected from any language offered within the department of Modern Languages, ASL, or from any other second language transferred in at an equivalent level.

Option 3: (3 credit hours)

Students whose first language is not English may satisfy this requirement by meeting the English Proficiency Admission Standards for K-State or by completing the appropriate level of exit courses with the English Language Program.

Free Electives

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

Mathematics - Pure Mathematics (BA)

The Pure Mathematics Track of the Mathematics BA degree focuses on the central subjects of the discipline and prepares students for a career in the mathematical sciences. The curriculum is designed to provide insights into advanced mathematics as it is studied and applied in the modern world. In addition to the requirements of the College of Arts and Sciences, pure mathematics majors must take the foundational, intermediate, and advanced courses, and then choose math electives among the mathematics course offerings. Each mathematics major will need to take free electives beyond their specified mathematics coursework in order to meet graduation requirements.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 Credit Hour

- DAS 101 - Discover, Create, and Thrive: Arts and Sciences Orientation **Credits:** 1

Outside Concentration: 9 Credit Hours

Outside credential of at least 9 credit hours (May be from any unit, **except ****, etc,** OR from approved interdisciplinary credentials within the unit).

OR

Any 9 credit hours in a single prefix (except for ****) (all must be 300 level or above OR at any level with a prereq in the same prefix; up to 5 credit hours may overlap with program).

OR

Any 9 credit hours in a microcredential (up to 5 credit hours may overlap with program).

Overlays: [9] Credit Hours

May be fulfilled in K-State Core, Outside Concentration, electives, or the Program itself.

- Ethical Reasoning Overlay **Credits:** [3]
- Global Perspectives Overlay **Credits:** [3]
- US Multicultural Overlay **Credits:** [3]

Program

Completion of a course towards the major requires a grade of C or above in all MATH courses.
The curriculum for this major assumes students enter college prepared to take Calculus.

Math and Quantitative Foundation Courses: 42-44 Credit Hours

Foundational Courses: 14-15 Credit Hours

Choose foundational courses from the options. Note that Calc I will satisfy K-State Core requirement #3.

Programming Course

Choose one from the following

- CIS 200 - Programming Fundamentals **Credits:** 4
- CIS 209 - Computer Programming for Engineers **Credits:** 3
- CIS 570 - Introduction to Formal Language Theory **Credits:** 3

Statistics Course

Choose one from the following

- STAT 510 - Introductory Probability and Statistics I **Credits:** 3
- STAT 610 - Introduction to Mathematical Statistics I **Credits:** 3

Calculus I Course

Choose one from the following

- MATH 220 - Analytic Geometry and Calculus I **Credits:** 4
- MATH 250 - Mathematical Scholars Calculus 1 **Credits:** 4

Calculus II Course

Choose one from the following

- MATH 221 - Analytic Geometry and Calculus II **Credits:** 4
- MATH 251 - Mathematical Scholars Calculus 2 **Credits:** 4

Intermediate Courses: 10-11 Credit Hours

Choose either the Traditional or Scholar Option.

Traditional Option

- MATH 222 - Analytic Geometry and Calculus III **Credits:** 4
- MATH 340 - Elementary Differential Equations **Credits:** 4

Linear Algebra Course

Choose one from the following

- MATH 515 - Introduction to Linear Algebra **Credits:** 3
- MATH 551 - Applied Matrix Theory **Credits:** 3

Scholar Option

The Scholar Option combines the three courses from the Traditional Option into a two course sequence. Completion of MATH 350 from the Scholar Option without MATH 351 will satisfy the Linear Algebra Course requirement of the Traditional Option.

- MATH 350 - Mathematical Scholars Calculus 3 **Credits:** 5
- MATH 351 - Mathematical Scholars Calculus 4 **Credits:** 5

Advanced Courses: 6 Credit Hours

Choose an algebra and analysis course from the options.

Algebra Course

Choose one from the following

- MATH 511 - Introduction to Algebraic Systems **Credits:** 3
- MATH 512 - Introduction to Modern Algebra **Credits:** 3

Analysis Course

Choose one from the following

- MATH 520 - Foundations of Analysis **Credits:** 3
- MATH 633 - Advanced Calculus I **Credits:** 3

Math Electives: 12 Credit Hours

Choose 12 additional credits from mathematics courses numbered 400 and above.

- MATH 498 - Honors Project **Credits:** 3
- MATH 499 - Undergraduate Topics in Mathematics **Credits:** 1-18
- MATH 500 - Mathematical Theory of Interest **Credits:** 3
- MATH 501 - Mathematical Foundations of Actuarial Science **Credits:** 3
- MATH 510 - Discrete Mathematics **Credits:** 3
- MATH 512 - Introduction to Modern Algebra **Credits:** 3
- MATH 515 - Introduction to Linear Algebra **Credits:** 3
- MATH 521 - The Real Number System **Credits:** 3
- MATH 540 - Advanced Ordinary Differential Equations **Credits:** 3
- MATH 560 - Introduction to Topology **Credits:** 3
- MATH 570 - History of Mathematics **Credits:** 3
- MATH 572 - Foundations of Geometry **Credits:** 3
- MATH 591 - Topics in Mathematics for Teachers **Credits:** 1-3
- MATH 599 - Topics in Mathematics **Credits:** 1-3
- MATH 615 - Introduction to Digital Image Processing **Credits:** 3
- MATH 620 - Convex Optimization for Data Science **Credits:** 3
- MATH 630 - Introduction to Complex Analysis **Credits:** 3
- MATH 632 - Elementary Partial Differential Equations **Credits:** 3
- MATH 633 - Advanced Calculus I **Credits:** 3
- MATH 634 - Advanced Calculus II **Credits:** 3

- MATH 635 - Dynamics, Chaos, and Fractals **Credits:** 3
- MATH 655 - Elementary Numerical Analysis I **Credits:** 3
- MATH 656 - Elementary Numerical Analysis II **Credits:** 3
- MATH 670 - Mathematical Modeling **Credits:** 3
- MATH 700 - Set Theory and Logic **Credits:** 3
- MATH 704 - Introduction to the Theory of Groups **Credits:** 3
- MATH 705 - Computational Math **Credits:** 3
- MATH 706 - Theory of Numbers **Credits:** 3
- MATH 707 - Theory of Numbers II **Credits:** 3
- MATH 710 - Introduction to Category Theory **Credits:** 3
- MATH 711 - Category Theory **Credits:** 3
- MATH 713 - Advanced Applied Matrix Theory **Credits:** 3
- MATH 715 - Applied Mathematics I **Credits:** 3
- MATH 716 - Applied Mathematics II **Credits:** 3
- MATH 721 - Introduction to Real Analysis **Credits:** 3
- MATH 722 - Introduction to Functions of Several Variables **Credits:** 3
- MATH 723 - Complex Functions **Credits:** 3
- MATH 725 - The Mathematics of Data and Networks I **Credits:** 3
- MATH 726 - The Mathematics of Data and Networks II **Credits:** 3
- MATH 730 - Abstract Algebra I **Credits:** 3
- MATH 731 - Abstract Algebra II **Credits:** 3
- MATH 740 - Calculus of Variation **Credits:** 3
- MATH 745 - Ordinary Differential Equations **Credits:** 3
- MATH 755 - Dynamic Modeling Processes **Credits:** 3
- MATH 760 - Introduction to Probability Theory **Credits:** 3
- MATH 770 - Introduction to Topology/Geometry I **Credits:** 3
- MATH 771 - Introduction to Topology/Geometry II **Credits:** 3
- MATH 772 - Elementary Differential Geometry **Credits:** 3
- MATH 789 - Combinatorial Analysis **Credits:** 3
- MATH 791 - Topics in Mathematics for Secondary School Teachers **Credits:** 3
- MATH 799 - Topics in Mathematics **Credits:** .5-3

BA Arts, Humanities, and Social Sciences Restricted Electives: 12 Credit Hours

3 credit hours in each of the following, with at least 3 credit hours total at 300 level or above OR at any level with a prerequisite in the same discipline.

One course in Humanities Credits: 3

Any course or combination of courses in Fine Arts Credits: 3

One Non-Quantitative Social Science; Any Social course that does NOT have a MATH or STAT prereq Credits: 3

BA Second Language Restricted Electives: 3-16 Credit Hours

Choose one of the following:

Option 1: 3-14 Credit Hours

At least 3 credit hours of coursework culminating with level 4 or above (i.e., Frech 4, German 4, Spanish 4, etc.) or the equivalent of level 4 in a second language sequence.

Option 2: 16 Credit Hours

At least 16 credit hours of coursework in which student takes the first and second levels of two different languages, selected from any language offered within the department of Modern Languages, ASL, or from any other second language transferred in at an equivalent level.

Option 3: 3 Credit Hours

Students whose first language is not English may satisfy this requirement by meeting the English Proficiency Admission Standards for K-State or by completing the appropriate level of exit courses with the English Language Program.

Free Electives

In addition to K-State Core Free Electives requirement, take any courses so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

Bachelor of Science

Mathematics - Applied Mathematics (BS)

The Applied Mathematics Track of the Mathematics BS degree focuses on the modern use of advanced mathematics in business, computer and data science, engineering, finance, and the physical sciences. In addition to the requirements of the College of Arts and Sciences, applied mathematics majors must take the foundational and intermediate courses, and then choose more advanced courses among the applied mathematics offerings. Each mathematics major will need to take free electives beyond their specified mathematics coursework in order to meet graduation requirements.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 Credit Hour

- DAS 101 - Discover, Create, and Thrive: Arts and Sciences Orientation **Credits:** 1

Outside Concentration: 9 Credit Hours

Outside credential of at least 9 credit hours (May be from any unit, **except Mathematics**, OR from approved interdisciplinary credentials within the unit).

OR

Any 9 credit hours in a single prefix (**except for MATH**) (all must be 300 level or above OR at any level with a prereq in the same prefix; up to 5 credit hours may overlap with program).

OR

Any 9 credit hour microcredential (up to 5 credit hours may overlap with program).

Overlays: [9] Credit Hours

May be filled in K-State Core, Outside Concentration, electives, or the Program itself.

- Ethical Reasoning Overlay, 1 course **Credits**: [3]
- Global Perspectives Overlay, 1 course **Credits**: [3]
- US Multicultural Overlay, 1 course **Credits**: [3]

Program

The curriculum for this major assumes students enter college prepared to take Calculus.

Math and Quantitative Foundation Courses: 42-44 Credit Hours

Foundational Courses: 14-15 Credit Hours

Choose foundational courses from the options. Note that Calc I will satisfy K-State Core requirement #3.

Programming Course

Choose one from the following

- CIS 200 - Programming Fundamentals **Credits:** 4
- CIS 209 - Computer Programming for Engineers **Credits:** 3
- CIS 531 - Introduction to Programming Techniques for Data Science and Analytics **Credits:** 3

Statistics Course

Choose one from the following

- STAT 510 - Introductory Probability and Statistics I **Credits:** 3
- STAT 610 - Introduction to Mathematical Statistics I **Credits:** 3

Calculus I Course

Choose one from the following

- MATH 220 - Analytic Geometry and Calculus I **Credits:** 4
- MATH 250 - Mathematical Scholars Calculus 1 **Credits:** 4

Calculus II Course

Choose one from the following

- MATH 221 - Analytic Geometry and Calculus II **Credits:** 4
- MATH 251 - Mathematical Scholars Calculus 2 **Credits:** 4

Intermediate Courses: 10-11 Credit Hours

Choose either the Traditional or Scholar Option.

Traditional Option

- MATH 222 - Analytic Geometry and Calculus III **Credits:** 4
- MATH 340 - Elementary Differential Equations **Credits:** 4

Linear Algebra Course

Choose one from the following

- MATH 515 - Introduction to Linear Algebra **Credits:** 3
- MATH 551 - Applied Matrix Theory **Credits:** 3

Scholar Option

The Scholar Option combines the three courses from the Traditional Option into a two course sequence. Completion of MATH 350 from the Scholar Option without MATH 351 will satisfy the Linear Algebra Course requirement of the Traditional Option.

- MATH 350 - Mathematical Scholars Calculus 3 **Credits:** 5
- MATH 351 - Mathematical Scholars Calculus 4 **Credits:** 5

Applied Mathematics Courses: 9 Credit Hours

Choose three courses, two from Group 1 and a third from either Group 1 or Group 2

Applied Mathematics Courses: Group 1

Choose two courses from the following options

- MATH 498 - Honors Project **Credits:** 3
- MATH 499 - Undergraduate Topics in Mathematics **Credits:** 1-18
- MATH 500 - Mathematical Theory of Interest **Credits:** 3
- MATH 510 - Discrete Mathematics **Credits:** 3
- MATH 540 - Advanced Ordinary Differential Equations **Credits:** 3
- MATH 615 - Introduction to Digital Image Processing **Credits:** 3
- MATH 620 - Convex Optimization for Data Science **Credits:** 3
- MATH 632 - Elementary Partial Differential Equations **Credits:** 3
- MATH 655 - Elementary Numerical Analysis I **Credits:** 3
- MATH 715 - Applied Mathematics I **Credits:** 3
- MATH 789 - Combinatorial Analysis **Credits:** 3

Analysis Course Option

Either MATH 520 or MATH 633 may be chosen, but not both

- MATH 520 - Foundations of Analysis **Credits:** 3
- MATH 633 - Advanced Calculus I **Credits:** 3

Applied Mathematics Courses: Group 2

Choose one additional course from either Group 1 or Group 2

- MATH 501 - Mathematical Foundations of Actuarial Science **Credits:** 3
- MATH 630 - Introduction to Complex Analysis **Credits:** 3
- MATH 634 - Advanced Calculus II **Credits:** 3
- MATH 635 - Dynamics, Chaos, and Fractals **Credits:** 3
- MATH 656 - Elementary Numerical Analysis II **Credits:** 3
- MATH 705 - Computational Math **Credits:** 3
- MATH 716 - Applied Mathematics II **Credits:** 3
- MATH 725 - The Mathematics of Data and Networks I **Credits:** 3
- MATH 726 - The Mathematics of Data and Networks II **Credits:** 3
- MATH 760 - Introduction to Probability Theory **Credits:** 3

Math Electives: 9 Credit Hours

Choose three courses from the list, one of which must have the MATH prefix.

- CC 535 - Applied Data Science **Credits:** 3
- CIS 531 - Introduction to Programming Techniques for Data Science and Analytics **Credits:** 3
- CIS 575 - Introduction to Algorithm Analysis **Credits:** 3
- IMSE 785 - Big Data Analytics **Credits:** 3
- MATH 498 - Honors Project **Credits:** 3
- MATH 499 - Undergraduate Topics in Mathematics **Credits:** 1-18
- MATH 500 - Mathematical Theory of Interest **Credits:** 3
- MATH 501 - Mathematical Foundations of Actuarial Science **Credits:** 3

- MATH 510 - Discrete Mathematics **Credits:** 3
- MATH 511 - Introduction to Algebraic Systems **Credits:** 3
- MATH 512 - Introduction to Modern Algebra **Credits:** 3
- MATH 515 - Introduction to Linear Algebra **Credits:** 3
- MATH 520 - Foundations of Analysis **Credits:** 3
- MATH 521 - The Real Number System **Credits:** 3
- MATH 540 - Advanced Ordinary Differential Equations **Credits:** 3
- MATH 551 - Applied Matrix Theory **Credits:** 3
- MATH 560 - Introduction to Topology **Credits:** 3
- MATH 570 - History of Mathematics **Credits:** 3
- MATH 572 - Foundations of Geometry **Credits:** 3
- MATH 591 - Topics in Mathematics for Teachers **Credits:** 1-3
- MATH 599 - Topics in Mathematics **Credits:** 1-3
- MATH 615 - Introduction to Digital Image Processing **Credits:** 3
- MATH 620 - Convex Optimization for Data Science **Credits:** 3
- MATH 630 - Introduction to Complex Analysis **Credits:** 3
- MATH 632 - Elementary Partial Differential Equations **Credits:** 3
- MATH 633 - Advanced Calculus I **Credits:** 3
- MATH 634 - Advanced Calculus II **Credits:** 3
- MATH 635 - Dynamics, Chaos, and Fractals **Credits:** 3
- MATH 655 - Elementary Numerical Analysis I **Credits:** 3
- MATH 656 - Elementary Numerical Analysis II **Credits:** 3
- MATH 670 - Mathematical Modeling **Credits:** 3
- MATH 700 - Set Theory and Logic **Credits:** 3
- MATH 704 - Introduction to the Theory of Groups **Credits:** 3
- MATH 705 - Computational Math **Credits:** 3
- MATH 706 - Theory of Numbers **Credits:** 3
- MATH 707 - Theory of Numbers II **Credits:** 3
- MATH 710 - Introduction to Category Theory **Credits:** 3
- MATH 711 - Category Theory **Credits:** 3
- MATH 713 - Advanced Applied Matrix Theory **Credits:** 3
- MATH 715 - Applied Mathematics I **Credits:** 3
- MATH 716 - Applied Mathematics II **Credits:** 3
- MATH 721 - Introduction to Real Analysis **Credits:** 3
- MATH 722 - Introduction to Functions of Several Variables **Credits:** 3
- MATH 723 - Complex Functions **Credits:** 3
- MATH 725 - The Mathematics of Data and Networks I **Credits:** 3
- MATH 726 - The Mathematics of Data and Networks II **Credits:** 3
- MATH 730 - Abstract Algebra I **Credits:** 3
- MATH 731 - Abstract Algebra II **Credits:** 3
- MATH 740 - Calculus of Variation **Credits:** 3
- MATH 745 - Ordinary Differential Equations **Credits:** 3
- MATH 755 - Dynamic Modeling Processes **Credits:** 3
- MATH 760 - Introduction to Probability Theory **Credits:** 3
- MATH 770 - Introduction to Topology/Geometry I **Credits:** 3
- MATH 771 - Introduction to Topology/Geometry II **Credits:** 3

- MATH 772 - Elementary Differential Geometry **Credits:** 3
- MATH 789 - Combinatorial Analysis **Credits:** 3
- MATH 791 - Topics in Mathematics for Secondary School Teachers **Credits:** 3
- MATH 799 - Topics in Mathematics **Credits:** .5-3
- STAT 705 - Regression and Analysis of Variance **Credits:** 3
- STAT 713 - Applied Linear Statistical Models **Credits:** 3
- STAT 745 - Statistical Graphics **Credits:** 3
- STAT 760 - Optimization for Data Science **Credits:** 3
- STAT 761 - Discrete Optimization and Scalability for Data Science **Credits:** 3
- STAT 764 - Applied Spatio-Temporal Statistics **Credits:** 3
- STAT 766 - Applied Data Mining/Machine Learning and Predictive Analytics **Credits:** 3
- STAT 768 - Applied Bayesian Modeling and Prediction **Credits:** 3

BS Natural and Quantitative Requirements: 3-5 Credit Hours

One course in the following at any level.

Natural Science course Credits: 3-5

BS Arts, Humanities, and Social Sciences Requirements: 6 Credit Hours

3 credit hours in each of the following, with at least 3 credit hours total at 300 level or above OR at any level with a prerequisite in the same discipline.

Fine Arts or Humanities: Any course or combination of courses Credits: 3

Non-Quantitative Social Science: Any social science course that does NOT have a MATH or STAT prereq Credits: 3

Free Electives: 28

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

Mathematics - Actuarial Mathematics (BS)

The Actuarial Mathematics Track of the Mathematics BS degree prepares students with the necessary background to succeed in an actuarial science career. The curriculum emphasizes topics such as of probability, statistics, and mathematical finance. In addition to the requirements of the College of Arts and Sciences, actuarial mathematics majors must take the foundational and intermediate courses, specific courses focused on actuarial content, and then choose more advanced courses among the mathematics offerings. Each mathematics major will need to take free electives beyond their specified mathematics coursework in order to meet graduation requirements.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 Credit Hour

- DAS 101 - Discover, Create, and Thrive: Arts and Sciences Orientation **Credits:** 1

Outside Concentration: 9 Credit Hours

Outside credential of at least 9 credit hours (May be from any unit, **except Mathematics**, OR from approved interdisciplinary credentials within the unit).

OR

Any 9 credit hours in a single prefix (**except for MATH**) (all must be 300 level or above OR at any level with a prereq in the same prefix; up to 5 credit hours may overlap with program).

OR

Any 9 credit hour microcredential (up to 5 credit hours may overlap with program).

Overlays: [9] Credit Hours

May be filled in K-State Core, Outside Concentration, electives, or the Program itself.

- Ethical Reasoning Overlay, 1 course **Credits**: [3]
- Global Perspectives Overlay, 1 course **Credits**: [3]
- US Multicultural Overlay, 1 course **Credits**: [3]

Program

The curriculum for this major assumes students enter college prepared to take Calculus.

Math and Quantitative Foundation Courses: 42-44 Credit Hours

Foundational Courses: 11-12 Credit Hours

Choose foundational courses from the options. Note that Calc I will satisfy K-State Core requirement #3.

Programming Course

Choose one from the following

- CIS 200 - Programming Fundamentals **Credits:** 4
- CIS 209 - Computer Programming for Engineers **Credits:** 3
- CIS 570 - Introduction to Formal Language Theory **Credits:** 3

Calculus I Course

Choose one from the following

- MATH 220 - Analytic Geometry and Calculus I **Credits:** 4
- MATH 250 - Mathematical Scholars Calculus 1 **Credits:** 4

Calculus II Course

Choose one from the following

- MATH 221 - Analytic Geometry and Calculus II **Credits:** 4
- MATH 251 - Mathematical Scholars Calculus 2 **Credits:** 4

Intermediate Courses: 10-11 Credit Hours

Choose either the Traditional or Scholar Option.

Traditional Option

- MATH 222 - Analytic Geometry and Calculus III **Credits:** 4
- MATH 340 - Elementary Differential Equations **Credits:** 4

Linear Algebra Course

Choose one from the following

- MATH 515 - Introduction to Linear Algebra **Credits:** 3
- MATH 551 - Applied Matrix Theory **Credits:** 3

Scholar Option

The Scholar Option combines the three courses from the Traditional Option into a two course sequence. Completion of 350 from the Scholar Option without 351 will satisfy the Linear Algebra Course requirement of the Traditional Option.

- MATH 350 - Mathematical Scholars Calculus 3 **Credits:** 5
- MATH 351 - Mathematical Scholars Calculus 4 **Credits:** 5

Actuarial Course Requirements: 12 Credit Hours

- MATH 500 - Mathematical Theory of Interest **Credits:** 3
- MATH 501 - Mathematical Foundations of Actuarial Science **Credits:** 3
- STAT 610 - Introduction to Mathematical Statistics I **Credits:** 3
- STAT 611 - Introduction to Mathematical Statistics II **Credits:** 3

Math Electives: 9 Credit Hours

Choose 9 additional credits from mathematics courses numbered 400 and above of which 3 may be statistics courses numbered above 600.

- MATH 498 - Honors Project **Credits:** 3
- MATH 499 - Undergraduate Topics in Mathematics **Credits:** 1-18
- MATH 510 - Discrete Mathematics **Credits:** 3
- MATH 511 - Introduction to Algebraic Systems **Credits:** 3
- MATH 512 - Introduction to Modern Algebra **Credits:** 3
- MATH 515 - Introduction to Linear Algebra **Credits:** 3
- MATH 520 - Foundations of Analysis **Credits:** 3
- MATH 521 - The Real Number System **Credits:** 3
- MATH 540 - Advanced Ordinary Differential Equations **Credits:** 3
- MATH 560 - Introduction to Topology **Credits:** 3
- MATH 570 - History of Mathematics **Credits:** 3
- MATH 572 - Foundations of Geometry **Credits:** 3
- MATH 591 - Topics in Mathematics for Teachers **Credits:** 1-3
- MATH 599 - Topics in Mathematics **Credits:** 1-3
- MATH 615 - Introduction to Digital Image Processing **Credits:** 3
- MATH 620 - Convex Optimization for Data Science **Credits:** 3
- MATH 630 - Introduction to Complex Analysis **Credits:** 3
- MATH 632 - Elementary Partial Differential Equations **Credits:** 3
- MATH 633 - Advanced Calculus I **Credits:** 3
- MATH 634 - Advanced Calculus II **Credits:** 3
- MATH 635 - Dynamics, Chaos, and Fractals **Credits:** 3
- MATH 655 - Elementary Numerical Analysis I **Credits:** 3
- MATH 656 - Elementary Numerical Analysis II **Credits:** 3
- MATH 670 - Mathematical Modeling **Credits:** 3
- MATH 700 - Set Theory and Logic **Credits:** 3
- MATH 704 - Introduction to the Theory of Groups **Credits:** 3
- MATH 705 - Computational Math **Credits:** 3
- MATH 706 - Theory of Numbers **Credits:** 3
- MATH 707 - Theory of Numbers II **Credits:** 3
- MATH 710 - Introduction to Category Theory **Credits:** 3
- MATH 711 - Category Theory **Credits:** 3
- MATH 713 - Advanced Applied Matrix Theory **Credits:** 3
- MATH 715 - Applied Mathematics I **Credits:** 3
- MATH 716 - Applied Mathematics II **Credits:** 3
- MATH 721 - Introduction to Real Analysis **Credits:** 3
- MATH 722 - Introduction to Functions of Several Variables **Credits:** 3
- MATH 723 - Complex Functions **Credits:** 3

- MATH 725 - The Mathematics of Data and Networks I **Credits:** 3
- MATH 726 - The Mathematics of Data and Networks II **Credits:** 3
- MATH 730 - Abstract Algebra I **Credits:** 3
- MATH 731 - Abstract Algebra II **Credits:** 3
- MATH 740 - Calculus of Variation **Credits:** 3
- MATH 745 - Ordinary Differential Equations **Credits:** 3
- MATH 755 - Dynamic Modeling Processes **Credits:** 3
- MATH 760 - Introduction to Probability Theory **Credits:** 3
- MATH 770 - Introduction to Topology/Geometry I **Credits:** 3
- MATH 771 - Introduction to Topology/Geometry II **Credits:** 3
- MATH 772 - Elementary Differential Geometry **Credits:** 3
- MATH 789 - Combinatorial Analysis **Credits:** 3
- MATH 791 - Topics in Mathematics for Secondary School Teachers **Credits:** 3
- MATH 799 - Topics in Mathematics **Credits:** .5-3
- STAT 701 - Fundamental Methods of Biostatistics **Credits:** 3
- STAT 703 - Introduction to Statistical Methods for the Sciences **Credits:** 3
- STAT 705 - Regression and Analysis of Variance **Credits:** 3
- STAT 706 - Basic Elements of Statistical Theory **Credits:** 3
- STAT 710 - Sample Survey Methods **Credits:** 3
- STAT 713 - Applied Linear Statistical Models **Credits:** 3
- STAT 716 - Nonparametric Statistics **Credits:** 3
- STAT 717 - Categorical Data Analysis **Credits:** 3
- STAT 720 - Design of Experiments **Credits:** 3
- STAT 722 - Experimental Designs for Product Development and Quality Improvement **Credits:** 3
- STAT 725 - Introduction to the SAS Computing **Credits:** 1
- STAT 726 - Introduction to R Computing **Credits:** 1
- STAT 727 - Statistical Computing/Numerical Methods of Statistics **Credits:** 3
- STAT 730 - Multivariate Statistical Methods **Credits:** 3
- STAT 736 - Bioassay **Credits:** 2
- STAT 745 - Statistical Graphics **Credits:** 3
- STAT 750 - Studies in Probability and Statistics **Credits:** 1-4
- STAT 760 - Optimization for Data Science **Credits:** 3
- STAT 761 - Discrete Optimization and Scalability for Data Science **Credits:** 3
- STAT 764 - Applied Spatio-Temporal Statistics **Credits:** 3
- STAT 766 - Applied Data Mining/Machine Learning and Predictive Analytics **Credits:** 3
- STAT 768 - Applied Bayesian Modeling and Prediction **Credits:** 3
- STAT 770 - Theory of Statistics I **Credits:** 3
- STAT 771 - Theory of Statistics II **Credits:** 3
- STAT 799 - Topics in Statistics **Credits:** 0-3

BS Natural and Quantitative Restricted Electives: 3-5 Credit Hours

One course in the following at any level.

Natural Science course Credits: 3-5

BS Arts, Humanities, and Social Sciences Requirements: 6 Credit Hours

3 credit hours in each of the following, with at least 3 credit hours total at 300 level or above OR at any level with a prerequisite in the same discipline.

Fine Arts or Humanities: Any course or combination of courses Credits: 3

Non-Quantitative Social Science: Any social science course that does NOT have a MATH or STAT prereq Credits: 3

Free Electives: 28 Credit Hours

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

Mathematics - Pure Mathematics (BS)

The Pure Mathematics Track of the Mathematics BS degree focuses on the central subjects of the discipline and prepares students for a career in the mathematical sciences. The curriculum is designed to provide insights into advanced mathematics as it is studied and applied in the modern world. In addition to the requirements of the College of Arts and Sciences, pure mathematics majors must take the foundational, intermediate, and advanced courses, and then choose math electives among the mathematics course offerings. Each mathematics major will need to take free electives beyond their specified mathematics coursework in order to meet graduation requirements.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 Credit Hour

- DAS 101 - Discover, Create, and Thrive: Arts and Sciences Orientation **Credits:** 1

Outside Concentration: 9 Credit Hours

Outside credential of at least 9 credit hours (May be from any unit, **except Mathematics**, OR from approved interdisciplinary credentials within the unit).

OR

Any 9 credit hours in a single prefix (**except for MATH**) (all must be 300 level or above OR at any level with a prereq in the same prefix; up to 5 credit hours may overlap with program).

OR

Any 9 credit hour microcredential (up to 5 credit hours may overlap with program).

Overlays: [9] Credit Hours

May be filled in K-State Core, Outside Concentration, electives, or the Program itself.

- Ethical Reasoning Overlay, 1 course **Credits**: [3]
- Global Perspectives Overlay, 1 course **Credits**: [3]
- US Multicultural Overlay, 1 course **Credits**: [3]

Program

Completion of a course towards the major requires a grade of C or above in all MATH courses.

The curriculum for this major assumes students enter college prepared to take Calculus.

Math and Quantitative Foundation Courses: 42-44 Credit Hours

Foundational Courses: 14-15 Credit Hours

Choose foundational courses from the options. Note that Calc I will satisfy K-State Core requirement #3.

Programming Course

choose one from the following

- CIS 200 - Programming Fundamentals **Credits:** 4
- CIS 209 - Computer Programming for Engineers **Credits:** 3
- CIS 570 - Introduction to Formal Language Theory **Credits:** 3

Statistics Course

- STAT 510 - Introductory Probability and Statistics I **Credits:** 3
- STAT 610 - Introduction to Mathematical Statistics I **Credits:** 3

Calculus I Course

Choose one from the following

- MATH 220 - Analytic Geometry and Calculus I **Credits:** 4
- MATH 250 - Mathematical Scholars Calculus 1 **Credits:** 4

Calculus II Course

Choose one from the following

- MATH 221 - Analytic Geometry and Calculus II **Credits:** 4
- MATH 251 - Mathematical Scholars Calculus 2 **Credits:** 4

Intermediate Courses: 10-11 Credit Hours

Choose either the Traditional or Scholar Option.

Traditional Option

- MATH 222 - Analytic Geometry and Calculus III **Credits:** 4
- MATH 340 - Elementary Differential Equations **Credits:** 4

Linear Algebra Course

Choose one from the following

- MATH 515 - Introduction to Linear Algebra **Credits:** 3
- MATH 551 - Applied Matrix Theory **Credits:** 3

Scholar Option

The Scholar Option combines the three courses from the Traditional Option into a two course sequence. Completion of MATH 350 from the Scholar Option without MATH 351 will satisfy the Linear Algebra Course requirement of the Traditional Option.

- MATH 350 - Mathematical Scholars Calculus 3 **Credits:** 5
- MATH 351 - Mathematical Scholars Calculus 4 **Credits:** 5

Advanced Courses: 6 Credit Hours

Choose an algebra and analysis course from the options.

Algebra Course

Choose one from the following

- MATH 511 - Introduction to Algebraic Systems **Credits:** 3
- MATH 512 - Introduction to Modern Algebra **Credits:** 3

Analysis Course

Choose one from the following

- MATH 520 - Foundations of Analysis **Credits:** 3
- MATH 633 - Advanced Calculus I **Credits:** 3

Math Electives: 12 Credit Hours

Choose 12 additional credits from mathematics courses numbered 400 and above.

- MATH 498 - Honors Project **Credits:** 3
- MATH 499 - Undergraduate Topics in Mathematics **Credits:** 1-18
- MATH 500 - Mathematical Theory of Interest **Credits:** 3
- MATH 501 - Mathematical Foundations of Actuarial Science **Credits:** 3
- MATH 510 - Discrete Mathematics **Credits:** 3
- MATH 512 - Introduction to Modern Algebra **Credits:** 3
- MATH 515 - Introduction to Linear Algebra **Credits:** 3
- MATH 521 - The Real Number System **Credits:** 3
- MATH 540 - Advanced Ordinary Differential Equations **Credits:** 3
- MATH 560 - Introduction to Topology **Credits:** 3
- MATH 570 - History of Mathematics **Credits:** 3
- MATH 572 - Foundations of Geometry **Credits:** 3
- MATH 591 - Topics in Mathematics for Teachers **Credits:** 1-3
- MATH 599 - Topics in Mathematics **Credits:** 1-3
- MATH 615 - Introduction to Digital Image Processing **Credits:** 3
- MATH 620 - Convex Optimization for Data Science **Credits:** 3
- MATH 630 - Introduction to Complex Analysis **Credits:** 3
- MATH 632 - Elementary Partial Differential Equations **Credits:** 3
- MATH 633 - Advanced Calculus I **Credits:** 3
- MATH 634 - Advanced Calculus II **Credits:** 3
- MATH 635 - Dynamics, Chaos, and Fractals **Credits:** 3
- MATH 655 - Elementary Numerical Analysis I **Credits:** 3
- MATH 656 - Elementary Numerical Analysis II **Credits:** 3
- MATH 670 - Mathematical Modeling **Credits:** 3
- MATH 700 - Set Theory and Logic **Credits:** 3
- MATH 704 - Introduction to the Theory of Groups **Credits:** 3
- MATH 705 - Computational Math **Credits:** 3
- MATH 706 - Theory of Numbers **Credits:** 3
- MATH 707 - Theory of Numbers II **Credits:** 3
- MATH 710 - Introduction to Category Theory **Credits:** 3
- MATH 711 - Category Theory **Credits:** 3
- MATH 713 - Advanced Applied Matrix Theory **Credits:** 3
- MATH 715 - Applied Mathematics I **Credits:** 3
- MATH 716 - Applied Mathematics II **Credits:** 3
- MATH 721 - Introduction to Real Analysis **Credits:** 3
- MATH 722 - Introduction to Functions of Several Variables **Credits:** 3
- MATH 723 - Complex Functions **Credits:** 3
- MATH 725 - The Mathematics of Data and Networks I **Credits:** 3
- MATH 726 - The Mathematics of Data and Networks II **Credits:** 3
- MATH 730 - Abstract Algebra I **Credits:** 3

- MATH 731 - Abstract Algebra II **Credits:** 3
- MATH 740 - Calculus of Variation **Credits:** 3
- MATH 745 - Ordinary Differential Equations **Credits:** 3
- MATH 755 - Dynamic Modeling Processes **Credits:** 3
- MATH 760 - Introduction to Probability Theory **Credits:** 3
- MATH 770 - Introduction to Topology/Geometry I **Credits:** 3
- MATH 771 - Introduction to Topology/Geometry II **Credits:** 3
- MATH 772 - Elementary Differential Geometry **Credits:** 3
- MATH 789 - Combinatorial Analysis **Credits:** 3
- MATH 791 - Topics in Mathematics for Secondary School Teachers **Credits:** 3
- MATH 799 - Topics in Mathematics **Credits:** .5-3

BS Natural and Quantitative Restricted Electives: 3-5 Credit Hours

One course in the following at any level.

Natural Science course Credits: 3-5

BS Arts, Humanities, and Social Sciences Restricted Electives: 6 Credit Hours

3 credit hours in each of the following, with at least 3 credit hours total at 300 level or above OR at any level with a prerequisite in the same discipline.

Fine Arts or Humanities: Any course or combination of courses Credits: 3

Non-Quantitative Social Science: Any social science course that does NOT have a MATH or STAT prereq Credits: 3

Free Electives

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

Minor

Mathematics Minor

Students interested in applied or pure mathematics to compliment their major area of study may persue a minor in mathematics.

Requirements

Introductory courses: 4 credit hours

- MATH 222 - Analytic Geometry and Calculus III **Credits:** 4

Choose 2 of the following 3 options: 6 credit hours

- MATH 506 - Introduction to Number Theory **Credits:** 3
  OR
- MATH 511 - Introduction to Algebraic Systems **Credits:** 3
  OR
- MATH 512 - Introduction to Modern Algebra **Credits:** 3
- MATH 515 - Introduction to Linear Algebra **Credits:** 3
  OR
- MATH 551 - Applied Matrix Theory **Credits:** 3
- MATH 520 - Foundations of Analysis **Credits:** 3
  OR
- MATH 633 - Advanced Calculus I **Credits:** 3
  OR
- MATH 630 - Introduction to Complex Analysis **Credits:** 3

Additional 6 credit hours

Select from the following:

- MATH 340 - Elementary Differential Equations **Credits:** 4
- STAT 510 - Introductory Probability and Statistics I **Credits:** 3
  OR
- STAT 610 - Introduction to Mathematical Statistics I **Credits:** 3
- Any mathematics course or courses at the 500 level or above, including the courses not chosen above but excluding credit for both MATH 511 & MATH 512, both MATH 551 & MATH 515 or both MATH 520 & MATH 633 **Credits:** 6

Note

Students must earn a grade of C or better in each MATH and STAT course used to satisfy requirements for the minor.

Total Hours Required for Minor: 16

Undergraduate Certificate

Quantitative Techniques of Data Science Undergraduate Certificate

Completion of this certificate will provide training in the theory and practice of data analytics, including both technical skills and social and ethical considerations.

Requirements (15 credits)

Mathematical Background (3 credits)

- MATH 620 - Convex Optimization for Data Science **Credits:** 3

Statistics Background (3 credits)

- STAT 705 - Regression and Analysis of Variance **Credits:** 3

Data Science in Context (3 credits)

Choose one of the following:

- GWSS 435 - Race/Sex/Science **Credits:** 3
- HIST 320 - History of Technology **Credits:** 3
- HIST 519 - Science and Technology in the United States **Credits:** 3
- PHILO 386 - Philosophy of Computer Science and Software Engineering **Credits:** 3
- CRIM 550 - Cybercrime, Security, and Society **Credits:** 3

Advanced Techniques for Data Science (6 credits)

- MATH 725 - The Mathematics of Data and Networks I **Credits:** 3
- MATH 726 - The Mathematics of Data and Networks II **Credits:** 3
- STAT 745 - Statistical Graphics **Credits:** 3
- STAT 760 - Optimization for Data Science **Credits:** 3
- STAT 761 - Discrete Optimization and Scalability for Data Science **Credits:** 3
- STAT 764 - Applied Spatio-Temporal Statistics **Credits:** 3
- STAT 766 - Applied Data Mining/Machine Learning and Predictive Analytics **Credits:** 3
- STAT 768 - Applied Bayesian Modeling and Prediction **Credits:** 3
- IMSE 785 - Big Data Analytics **Credits:** 3
- CC 535 - Applied Data Science **Credits:** 3
- CIS 531 - Introduction to Programming Techniques for Data Science and Analytics **Credits:** 3
    - Topics courses that address Data Science with the approval of the Certificate Coordinator.
    - CIS Foundations of Data Science and Data Science in Practice will be included once they have an official course number and are approved.

Total Hours Required: 15

Media and Communication

Bachelor of Arts

Advertising and Public Relations (BA)

The undergraduate degree in Advertising and Public Relations prepares students to influence and inform key audiences and publics through promotional and public image communications strategies. Students will gain industry-focused knowledge and skills in strategic writing and planning, content creation and distribution, relationship management, data-driven decision-making, diversity in media, account management, media planning, media relations, and reputation management. Additionally, hands-on training is prioritized through internship experience and credentialing from industry-recognized certifications in high career growth areas such as social media and digital media. Advertising and Public Relations students will be prepared for a range of careers in agency, nonprofit, corporate, government, community, advocacy, and start-up environments. Graduates accept positions as advertising account executives, public relations and communications specialists, brand managers, fundraising and development officers, publicists, social media managers, copywriters, and more.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 Credit Hour

- MC 100 - SMC Orientation **Credits:** 1

Outside Concentration: 9 Credit Hours

Outside credential of at least 9 credit hours (May be from any unit, **except for School of Media and Communication** OR from approved interdisciplinary credentials within the unit).

OR

Any 9 credit hours in a single prefix (except for **except for MC and COMM**) (all must be 300 level or above OR at any level with a prereq in the same prefix; up to 5 credit hours may overlap with program).

OR

Any 9 credit hours in a microcredential (up to 5 credit hours may overlap with program).

Overlays: [9] Credit Hours

May be fulfilled in K-State Core, Outside Concentration, electives, or the Program itself.

- Ethical Reasoning Overlay **Credits:** [3]
- Global Perspectives Overlay **Credits:** [3]
- US Multicultural Overlay **Credits:** [3]

Programs

Math Requirement

If not met through K-State Core requirements, MATH 160 is required.

KSC-030

- MATH 160 - Introduction to Contemporary Mathematics **Credits:** 3

Foundations: 5 Credit Hours

Writing Foundation I

- MC 130 - Writing Conventions and Mechanics **Credits:** 1

Writing Foundation II

Complete 2 credits from the following courses:

- MC 131 - Elements of Media Writing **Credits:** 1
- MC 132 - Writing Styles and Audiences **Credits:** 1
- AGCOM 110 - Introduction to Agricultural Communications **Credits:** 2

Content Creator Studio

Complete 2 credits from the following courses:

- MC 191 - Audio Essentials **Credits:** 1
- MC 192 - Photography Essentials **Credits:** 1
- MC 193 - Video Production Essentials **Credits:** 1
- MC 194 - Social Media Essentials **Credits:** 1
- MC 195 - Creative Design **Credits:** 1
- MC 196 - Content Management for Distribution **Credits:** 1
- MC 197 - Podcasting Essentials **Credits:** 1

ADPR Requirements: 27 Credit Hours

- MC 120 - Principles of Advertising **Credits:** 3
- MC 180 - Principles of Public Relations **Credits:** 3
- MC 280 - Writing for Advertising & Public Relations **Credits:** 3
- MC 396 - Research for Advertising and Public Relations **Credits:** 3
- MC 466 - Media Law and Ethics **Credits:** 3
- MC 482 - Ideation, Strategy and Planning for Advertising and Public Relations **Credits:** 3
- MC 491 - Mass Communication Internship **Credits:** 1-3
- MC 581 - Campaigns in Advertising and Public Relations **Credits:** 3
- MC 612 - Diversity in Media **Credits:** 3
  OR
- COMM 470 - Building Social and Cultural Connections **Credits:** 3

ADPR Elective: 3 Credit Hours

Choose one course from the following:

- MC 370 - Social Media Strategy & Management **Credits:** 3
- MC 374 - Social Media Content Development **Credits:** 3
- MC 375 - Social Media Influencing & Personal Branding **Credits:** 3
- MC 390 - Topics in Journalism and Mass Communications **Credits:** 1-3
- MC 409 - Advanced Strategic Communications Writing **Credits:** 3
- MC 445 - Digital Brand Strategy **Credits:** 3
- MC 446 - Media Planning **Credits:** 3
- MC 451 - Health Communication **Credits:** 3
- MC 477 - Travel and Tourism Strategic Communications **Credits:** 3
- MC 478 - Entertainment and Strategic Communications **Credits:** 3
- MC 479 - Strategic Communications and Sports **Credits:** 3
- MC 490 - Topics in Journalism and Mass Communications **Credits:** 1-3
- MC 612 - Diversity in Media **Credits:** 3
- MC 623 - Communicating in Global Markets **Credits:** 3
- MC 750 - Strategic Health Communication **Credits:** 3
- MC 760 - Issues, Risk, and Reputation **Credits:** 3
- MC 782 - Strategic Communications Management **Credits:** 3

- COMM 526 - Persuasion **Credits:** 3
- COMM 535 - Communication and Leadership **Credits:** 3

ADPR Specialization: 9 Credit Hours

Choose one specialization from the following (courses used to fulfill the ADPR Elective may not also be used to fulfill Specialization):

Digital and Social Media Specialization

- MC 370 - Social Media Strategy & Management **Credits:** 3
- MC 374 - Social Media Content Development **Credits:** 3
- MC 445 - Digital Brand Strategy **Credits:** 3

Creative Design Specialization

- MC 301 - Photo & Video Storytelling **Credits:** 3
- MC 316 - Interactive Journalism Design **Credits:** 3
- MC 374 - Social Media Content Development **Credits:** 3

Advanced ADPR Specialization

- MC 445 - Digital Brand Strategy **Credits:** 3
- MC 446 - Media Planning **Credits:** 3
- MC 623 - Communicating in Global Markets **Credits:** 3

Lifestyle, Sports & Entertainment Specialization

- MC 375 - Social Media Influencing & Personal Branding **Credits:** 3
- MC 478 - Entertainment and Strategic Communications **Credits:** 3
- MC 479 - Strategic Communications and Sports **Credits:** 3

BA Arts, Humanities, and Social Sciences Requirement: 6 Credit Hours

3 credit hours in each of the following, with at least 6 credit hours at 300 level or above OR at any level with a prerequisite in the same discipline.

One course in Humanities Credits: 3

Any course or combination of courses in Fine Arts Credits: 3

BA Natural and Quantitative Requirement: 6 Credit Hours

One course in each of the following, with at least 3 credit hours total at 300 level or above OR at any level with a prerequisite in the same discipline.

Natural Science or Quantitative course Credits: 3

Natural Science, or Quantitative, or Social Science with MATH or STAT Credits: 3

BA Second Language Requirement: 3-16 Credit Hours

Choose one of the following:

Option 1: 3-14 Credit Hours

At least 3 credit hours of coursework culminating with level 4 or above (i.e., Frech 4, German 4, Spanish 4, etc.) or the equivalent of level 4 in a second language sequence.

Option 2: 16 Credit Hours

At least 16 credit hours of coursework in which student takes the first and second levels of two different languages, selected from any language offered within the department of Modern Languages, ASL, or from any other second language transferred in at an equivalent level.

Option 3: 3 Credit Hours

Students whose first language is not English may satisfy this requirement by meeting the English Proficiency Admission Standards for K-State or by completing the appropriate level of exit courses with the English Language Program.

Free Electives: 4-16 Credit Hours

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

Communication Studies (BA)

The communication studies program develops the skills and perspectives of forward-thinking, culturally competent, and ethical leaders. By developing the human and digital skills needed in today's and tomorrow's workplaces, relationships, and communities, students emerge ready to pursue successful careers, build healthy relationships, and be involved and lead in their communities. Communication studies students build skills in practices such as group communication, organizational communication, conflict management, leadership, interpersonal communication, persuasion, and presentation. Students also increase their ability to analyze communication in different social, political, and organizational settings. The communication studies degree prepares students for a variety of careers, including those in law, government, advocacy, business, sales, emerging technology, and more.

In addition to the general university and college requirements for the BA/BS degree, undergraduate majors in communication studies take 43 credit hours of coursework in the A.Q. Miller School of Media and Communication. All majors complete 1 credit hour of orientation, 3 credit hours in innovation and creation, 12 credit hours in the foundations of communication, 3 credit hours in methods, 3 credit hours of a capstone experience, and 21-24 credit hours of two specializations.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 Credit Hour

- MC 100 - SMC Orientation **Credits:** 1

Outside Concentration: 9 Credit Hours

Outside credential of at least 9 credit hours (May be from any unit, **except COMM and MC,** OR from approved interdisciplinary credentials within the unit).

OR

Any 9 credit hours in a single prefix (except for COMM and MC) (all must be 300 level or above OR at any level with a prereq in the same prefix; up to 5 credit hours may overlap with program).

OR

Any 9 credit hours in a microcredential (up to 5 credit hours may overlap with program).

Overlays: [9] Credit Hours

May be fulfilled in K-State Core, Outside Concentration, electives, or the Program itself.

- Ethical Reasoning Overlay **Credits:** [3]
- Global Perspectives Overlay **Credits:** [3]
- US Multicultural Overlay **Credits:** [3]

Programs

Math Requirement

If not met through K-State Core requirements, MATH 160 is required.

KSC 030

- MATH 160 - Introduction to Contemporary Mathematics **Credits:** 3

Foundations of Communication: 12 Credit Hours

- COMM 320 - Theories of Human Communication **Credits:** 3
- COMM 330 - Rhetoric in Civic Life **Credits:** 3
- COMM 470 - Building Social and Cultural Connections **Credits:** 3 *Fulfills US Multicultural Overlay*
- MC 265 - Innovations in Media and Communication **Credits:** 3

Innovation and Creation: 3 Credit Hours

Writing Conventions: 1 Credit Hour

- MC 130 - Writing Conventions and Mechanics **Credits:** 1

Content Creator Studio: 2 Credit Hours

Choose two of the following:

- MC 131 - Elements of Media Writing **Credits:** 1
- MC 132 - Writing Styles and Audiences **Credits:** 1
- MC 191 - Audio Essentials **Credits:** 1
- MC 192 - Photography Essentials **Credits:** 1
- MC 193 - Video Production Essentials **Credits:** 1
- MC 194 - Social Media Essentials **Credits:** 1
- MC 195 - Creative Design **Credits:** 1
- MC 196 - Content Management for Distribution **Credits:** 1
- MC 197 - Podcasting Essentials **Credits:** 1

Methods: 3 Credit Hours

Choose one of the following:

- COMM 431 - Criticism of Public Discourse **Credits:** 3
- MC 316 - Interactive Journalism Design **Credits:** 3
- MC 396 - Research for Advertising and Public Relations **Credits:** 3

Application/Capstone: 3 Credit Hours

Choose one of the following:

- COMM 419 - Intercollegiate Forensics, Debate, or Mock Trial **Credits:** 3
- COMM 551 - Senior Honors Thesis **Credits:** 3
- COMM 575 - Internship in Communication Studies **Credits:** 1-3

Specializations: 21-24 Credit Hours

Complete two specializations totaling 21-24 credit hours; courses can count toward multiple specializations.

Communication, Identity, and Relationships: 12 Credit Hours

Take the following two courses:

- COMM 130 - Interpersonal Communication **Credits:** 3
- COMM 420 - Gender Communication **Credits:** 3

AND choose two from the following:

- COMM 210 - Forensics, Debate, or Mock Trial Participation **Credits:** 0-1
- COMM 323 - Nonverbal Communication **Credits:** 3
- COMM 326 - Group Communication **Credits:** 3
- COMM 442 - Theories of Human Communication Networks **Credits:** 3
- COMM 465 - Communication and Conflict **Credits:** 3
- COMM 480 - Intercultural Communication **Credits:** 3
- COMM 526 - Persuasion **Credits:** 3

Organizational and Career Communication: 12 Credit Hours

Take the following two courses:

- COMM 326 - Group Communication **Credits:** 3
- COMM 425 - Organizational Communication **Credits:** 3

AND two courses from the following:

- COMM 210 - Forensics, Debate, or Mock Trial Participation **Credits:** 0-1
- COMM 311 - Business and Professional Speaking **Credits:** 3
- COMM 328 - Professional Interviewing **Credits:** 3
- COMM 442 - Theories of Human Communication Networks **Credits:** 3
- COMM 480 - Intercultural Communication **Credits:** 3
- COMM 535 - Communication and Leadership **Credits:** 3
- COMM 537 - Negotiation and Communication **Credits:** 3
- COMM 552 - Coaching and Mentoring **Credits:** 3
- COMM 632 - Innovation Cultures **Credits:** 3

Political and Civic Advocacy and Communication: 12 Credit Hours

Take the following two courses:

- COMM 435 - Political Communication **Credits:** 3
- COMM 545 - Communication in Democracy **Credits:** 3

AND two courses from the following:

- COMM 210 - Forensics, Debate, or Mock Trial Participation **Credits:** 0-1
- COMM 325 - Argumentation and Debate **Credits:** 3
- COMM 434 - Rhetoric and Social Movements **Credits:** 3
- COMM 465 - Communication and Conflict **Credits:** 3
- COMM 480 - Intercultural Communication **Credits:** 3
- COMM 526 - Persuasion **Credits:** 3
- COMM 535 - Communication and Leadership **Credits:** 3
- MC 576 - Mass Communications and Political Campaigns **Credits:** 3

Legal Advocacy and Communication: 12 Credit Hours

Take the following two courses:

- COMM 260 - Introduction to Trial Advocacy **Credits:** 3

- COMM 475 - Legal Communication **Credits:** 3

AND choose two of the following courses:

- COMM 210 - Forensics, Debate, or Mock Trial Participation **Credits:** 0-1
- COMM 325 - Argumentation and Debate **Credits:** 3
- COMM 430 - Freedom of Speech **Credits:** 3
- COMM 480 - Intercultural Communication **Credits:** 3
- COMM 526 - Persuasion **Credits:** 3
- COMM 537 - Negotiation and Communication **Credits:** 3
- MC 466 - Media Law and Ethics **Credits:** 3

Coaching and Consulting: 12 Credit Hours

Take the following two courses:

- COMM 480 - Intercultural Communication **Credits:** 3
- COMM 552 - Coaching and Mentoring **Credits:** 3

AND choose two courses from the following:

- COMM 210 - Forensics, Debate, or Mock Trial Participation **Credits:** 0-1
- COMM 311 - Business and Professional Speaking **Credits:** 3
- COMM 323 - Nonverbal Communication **Credits:** 3
- COMM 326 - Group Communication **Credits:** 3
- COMM 328 - Professional Interviewing **Credits:** 3
- COMM 465 - Communication and Conflict **Credits:** 3
- COMM 526 - Persuasion **Credits:** 3
- MC 445 - Digital Brand Strategy **Credits:** 3

Emerging Technology and Networked Communication: 12 Credit Hours

Take the following two courses:

- COMM 332 - Communication and Technology **Credits:** 3
- COMM 632 - Innovation Cultures **Credits:** 3

AND choose two courses from the following:

- COMM 210 - Forensics, Debate, or Mock Trial Participation **Credits:** 0-1
- COMM 130 - Interpersonal Communication **Credits:** 3
- COMM 420 - Gender Communication **Credits:** 3
- COMM 425 - Organizational Communication **Credits:** 3
- COMM 442 - Theories of Human Communication Networks **Credits:** 3
- COMM 480 - Intercultural Communication **Credits:** 3
- MC 370 - Social Media Strategy & Management **Credits:** 3
- MC 506 - Social media News Strategies **Credits:** 3

Truth, Information, and Freedom of Speech: 12 Credit Hours

Take the following two courses:

- COMM 430 - Freedom of Speech **Credits:** 3
- MC 466 - Media Law and Ethics **Credits:** 3

AND choose two courses from the following:

- COMM 210 - Forensics, Debate, or Mock Trial Participation **Credits:** 0-1

- COMM 332 - Communication and Technology **Credits:** 3
- COMM 434 - Rhetoric and Social Movements **Credits:** 3
- COMM 442 - Theories of Human Communication Networks **Credits:** 3
- COMM 526 - Persuasion **Credits:** 3
- COMM 545 - Communication in Democracy **Credits:** 3
- MC 160 - Principles of Journalism **Credits:** 3
- MC 612 - Diversity in Media **Credits:** 3

BA Arts, Humanities, and Social Sciences Requirement: 12 Credit Hours

3 credit hours in each of the following, with at least 6 credit hours at 300 level or above OR at any level with a prerequisite in the same discipline.

One course in Humanities Credits: 3

Any course or combination of courses in Fine Arts Credits: 3

One Non-Quantitative Social Science; Any Social course that does NOT have a MATH or STAT prereq Credits: 3

BA Natural and Quantitative Requirement: 6 Credit Hours

One course in each of the following, with at least 3 credit hours total at 300 level or above OR at any level with a prerequisite in the same discipline.

Natural Science or Quantitative course Credits: 3

Natural Science, or Quantitative, or Social Science with MATH or STAT Credits: 3

BA Second Language Requirement: 6 Credit Hours

Choose one of the following:

Option 1: 3-14 Credit Hours

At least 3 credit hours of coursework culminating with level 4 or above (i.e., Frech 4, German 4, Spanish 4, etc.) or the equivalent of level 4 in a second language sequence.

Option 2: 16 Credit Hours

At least 16 credit hours of coursework in which student takes the first and second levels of two different languages, selected from any language offered within the department of Modern Languages, ASL, or from any other second language transferred in at an equivalent level.

Option 3: 3 Credit Hours

Students whose first language is not English may satisfy this requirement by meeting the English Proficiency Admission Standards for K-State or by completing the appropriate level of exit courses with the English Language Program.

Free Electives: 0-52 Credit Hours

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

News & Sports Media (BA)

The News & Sports Media degree prepares future journalists and media professionals to share nonfiction stories ethically, professionally, and creatively on any media platform. Students develop essential skills in storytelling content creation and distribution such as writing and reporting, broadcasting, social media news strategies, podcasting, sports journalism, and digital photo and video. Students are exposed to journalistic storytelling tools such as social media platforms, drones, streaming video, and other developing technologies. Students further specialize their degree by pursuing a concentration in a specific content area such as news, sports, photography, or innovative design in which they develop advanced skills. They also personalize their degree with an outside concentration. The hands-on nature of courses prepares students to pursue careers such as photojournalism, media production, sports broadcasting, news reporting, data journalism, and more.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 Credit Hour

- MC 100 - SMC Orientation **Credits:** 1

Outside Concentration: 9 Credit Hours

Outside credential of at least 9 credit hours (May be from any unit, **except for School of Media and Communication** OR from approved interdisciplinary credentials within the unit).

OR

Any 9 credit hours in a single prefix (except for COMM or MC) (all must be 300 level or above OR at any level with a prereq in the same prefix; up to 5 credit hours may overlap with program).

OR

Any 9 credit hours in a microcredential (up to 5 credit hours may overlap with program).

Overlays: [9] Credit Hours

May be fulfilled in K-State Core, Outside Concentration, electives, or the Program itself.

- Ethical Reasoning Overlay **Credits:** [3]
- Global Perspectives Overlay **Credits:** [3]
- US Multicultural Overlay **Credits:** [3]

Programs

Math Requirement

If not met through K-State Core requirements, MATH 160 is required.

KSC-030

- MATH 160 - Introduction to Contemporary Mathematics **Credits:** 3

Foundations: 8 Credit Hours

Writing Foundation I

- MC 130 - Writing Conventions and Mechanics **Credits:** 1

Writing Foundation II

Complete 2 credits from the following courses:

- AGCOM 110 - Introduction to Agricultural Communications **Credits:** 2
- MC 131 - Elements of Media Writing **Credits:** 1
- MC 132 - Writing Styles and Audiences **Credits:** 1

Content Creator Studio I

Complete the following 3 credits:

- MC 191 - Audio Essentials **Credits:** 1
- MC 192 - Photography Essentials **Credits:** 1
- MC 193 - Video Production Essentials **Credits:** 1

Content Creator Studio II

Complete 2 credits from the following courses:

- MC 194 - Social Media Essentials **Credits:** 1
- MC 195 - Creative Design **Credits:** 1
- MC 196 - Content Management for Distribution **Credits:** 1
- MC 197 - Podcasting Essentials **Credits:** 1

NSM Requirements: 21 Credit Hours

- MC 160 - Principles of Journalism **Credits:** 3
- MC 200 - News Reporting and Writing Across Platforms **Credits:** 3
- MC 301 - Photo & Video Storytelling **Credits:** 3
- MC 466 - Media Law and Ethics **Credits:** 3
- MC 580 - Storytelling Across Platforms **Credits:** 3
- COMM 470 - Building Social and Cultural Connections **Credits:** 3

Complete 3 credits from the following two courses:

- MC 485 - Media Practicum **Credits:** 1
- MC 491 - Mass Communication Internship **Credits:** 1-3

NSM Electives: 6 Credit Hours

Choose two courses from the following:

- COMM 435 - Political Communication **Credits:** 3
- MC 306 - Photographic Storytelling **Credits:** 3
- MC 310 - What's the Score? Sports Media in Society **Credits:** 3
- MC 316 - Interactive Journalism Design **Credits:** 3
- MC 331 - Photography Commercial Imaging **Credits:** 3
- MC 332 - Photography and Digital Storytelling Abroad **Credits:** 3
- MC 340 - Editing for Print and Online Media **Credits:** 3
- MC 341 - Immersive Digital Storytelling **Credits:** 3
- MC 370 - Social Media Strategy & Management **Credits:** 3
- MC 390 - Topics in Journalism and Mass Communications **Credits:** 1-3
- MC 403 - Advanced Reporting and Writing Across Platforms **Credits:** 3
- MC 405 - Perfect Podcasting **Credits:** 3
- MC 406 - Multiplatform News Reporting **Credits:** 3
- MC 410 - Sports Reporting **Credits:** 3
- MC 416 - Photojournalism **Credits:** 3
- MC 426 - Magazine Writing, Editing and Design **Credits:** 3
- MC 469 - Drone Photography and Video **Credits:** 3
- MC 471 - Advanced Production **Credits:** 3
- MC 472 - Multiplatform News Production **Credits:** 3
- MC 479 - Strategic Communications and Sports **Credits:** 3
- MC 490 - Topics in Journalism and Mass Communications **Credits:** 1-3
- MC 498 - Media Portfolio **Credits:** 3
- MC 506 - Social media News Strategies **Credits:** 3
- MC 564 - History of Mass Communication **Credits:** 3
- MC 576 - Mass Communications and Political Campaigns **Credits:** 3

- MC 589 - Issues in Mass Communication **Credits:** 1-3
- MC 612 - Diversity in Media **Credits:** 3

NSM Specialization: 9 Credit Hours

Choose one specialization from the following (courses used to fulfill NSM Electives may not also be used to fulfill Specialization):

News Specialization

- MC 406 - Multiplatform News Reporting **Credits:** 3
- MC 472 - Multiplatform News Production **Credits:** 3
- MC 506 - Social media News Strategies **Credits:** 3

Sports Specialization

- MC 310 - What's the Score? Sports Media in Society **Credits:** 3
- MC 406 - Multiplatform News Reporting **Credits:** 3
- MC 410 - Sports Reporting **Credits:** 3

Photography Specialization

- MC 331 - Photography Commercial Imaging **Credits:** 3
- MC 416 - Photojournalism **Credits:** 3
- MC 306 - Photographic Storytelling **Credits:** 3
  or
- MC 332 - Photography and Digital Storytelling Abroad **Credits:** 3

Interactive Storytelling Specialization

- MC 316 - Interactive Journalism Design **Credits:** 3
- MC 341 - Immersive Digital Storytelling **Credits:** 3
- MC 426 - Magazine Writing, Editing and Design **Credits:** 3

BA Arts, Humanities, and Social Science Requirement: 3 Credit Hours

Any course or combination of courses in Fine Arts Credits: 3

BA Natural and Quantitative Requirement: 6 Credit Hours

One course in each of the following, with at least 3 credit hours total at 300 level or above OR at any level with a prerequisite in the same discipline.

Natural Science or Quantitative course Credits: 3

Natural Science, or Quantitative, or Social Science with MATH or STAT Credits: 3

BA Second Language Requirement: 3-16 Credit Hours

Choose one of the following:

Option 1: 3-14 Credit Hours

At least 3 credit hours of coursework culminating with level 4 or above (i.e., Frech 4, German 4, Spanish 4, etc.) or the equivalent of level 4 in a second language sequence.

Option 2: 16 Credit Hours

At least 16 credit hours of coursework in which student takes the first and second levels of two different languages, selected from any language offered within the department of Modern Languages, ASL, or from any other second language transferred in at an equivalent level.

Option 3: 3 Credit Hours

Students whose first language is not English may satisfy this requirement by meeting the English Proficiency Admission Standards for K-State or by completing the appropriate level of exit courses with the English Language Program.

Free Electives: 8-21 Credit Hours

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

A&S Common BA degree requirements met by the following:

- COMM 470
- A&S BA Fine Arts & Non-quantitative Social Science Quantitative Electives
- A&S BA Natural and Quantitatitve Restricted Electives

Bachelor of Science

Advertising and Public Relations (BS)

The undergraduate degree in Advertising and Public Relations prepares students to influence and inform key audiences and publics through promotional and public image communications strategies. Students will gain industry-focused knowledge and skills in strategic writing and planning, content creation and distribution, relationship management, data-driven decision-making, diversity in media, account management, media planning, media relations, and reputation management. Additionally, hands-on training is prioritized through internship experience and credentialing from industry-recognized certifications in high career growth areas such as social media and digital media. Advertising and Public Relations students will be prepared for a range of careers in agency, nonprofit, corporate, government, community, advocacy, and start-up environments. Graduates accept positions as advertising account executives, public relations and communications specialists, brand managers, fundraising and development officers, publicists, social media managers, copywriters, and more.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 Credit Hour

- MC 100 - SMC Orientation **Credits:** 1

Outside Concentration: 9 Credit Hours

Outside credential of at least 9 credit hours (May be from any unit, **except for School of Media and Communication** OR from approved interdisciplinary credentials within the unit).

OR

Any 9 credit hours in a single prefix (except for **except for MC or COMM**) (all must be 300 level or above OR at any level with a prereq in the same prefix; up to 5 credit hours may overlap with program).

OR

Any 9 credit hours in a microcredential (up to 5 credit hours may overlap with program).

Overlays: [9] Credit Hours

May be filled in K-State Core, Outside Concentration, electives, or the Program itself.

- Ethical Reasoning Overlay, 1 course **Credits**: [3]
- Global Perspectives Overlay, 1 course **Credits**: [3]
- US Multicultural Overlay, 1 course **Credits**: [3]

Programs

Graduation requirement: Mininimum GPA of 2.5 in major.

Math Requirement

If not met through K-State Core requirements, MATH 160 is required.

KSC-030

- MATH 160 - Introduction to Contemporary Mathematics **Credits:** 3

Foundations: 5 Credit Hours

Writing Foundation I

- MC 130 - Writing Conventions and Mechanics **Credits:** 1

Writing Foundation II

Free Electives: 16 Credit Hours

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

Communication Studies (BS)

The communication studies program develops the skills and perspectives of forward-thinking, culturally competent, and ethical leaders. By developing the human and digital skills needed in today's and tomorrow's workplaces, relationships, and communities, students emerge ready to pursue successful careers, build healthy relationships, and be involved and lead in their communities. Communication studies students build skills in practices such as group communication, organizational communication, conflict management, leadership, interpersonal communication, persuasion, and presentation. Students also increase their ability to analyze communication in different social, political, and organizational settings. The communication studies degree prepares students for a variety of careers, including those in law, government, advocacy, business, sales, emerging technology, and more.

In addition to the general university and college requirements for the BA/BS degree, undergraduate majors in communication studies take 43 credit hours of coursework in the the A.Q. Miller School of Media and Communications. All majors complete 1 hour of orientation, 3 credit hours in innovation and creation, 12 credit hours in the foundations of communication, 3 credit hours in methods, 3 credit hours of a capstone experience, and 21-24 credit hours of two specializations.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. Non-Quantitative Social Science: Any social science course that does NOT have a MATH or STAT prereq Credits: 3

Free Electives: 0-44

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

Digital Innovation in Media (BS)

The interdisciplinary undergraduate degree in digital innovation in media blends training in digital media, computer science and entrepreneurship to prepare students for careers in the digital economy. Through a rigorous combination of theory, research and application, students will develop a portfolio of in-demand skills to create content, deploy digital advertising and mobile media strategies, analyze data, manage digital projects, design web sites, launch digital businesses, optimize analytics, code and program, convert online customers into buyers, secure networks and think creatively while building social and cultural

connections. At the completion of the program, students will have fulfilled the requirements of four credentials without additional courses or semesters: a bachelor's degree, a minor and two certificates.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 Credit Hour

- MC 100 - SMC Orientation **Credits:** 1

Outside Concentration

Students in the Digital Innovation in Media program fulfill the outside concentration requirement with the Computer Science Certificate, included below.

Overlays: [9] Credit Hours

May be filled in K-State Core, Outside Concentration, electives, or the Program itself.

- Ethical Reasoning Overlay, 1 course **Credits**: [3]
- Global Perspectives Overlay, 1 course **Credits**: [3]
- US Multicultural Overlay, 1 course **Credits**: [3]

Program

Math Requirement

If not met through K-State Core requirements, MATH 160 is required.

KSC 030

- MATH 160 - Introduction to Contemporary Mathematics **Credits:** 3

Foundation: 9 Credit Hours

- MC 130 - Writing Conventions and Mechanics **Credits:** 1

- MC 131 - Elements of Media Writing **Credits:** 1
- MC 132 - Writing Styles and Audiences **Credits:** 1
- MC 396 - Research for Advertising and Public Relations **Credits:** 3
- COMM 470 - Building Social and Cultural Connections **Credits:** 3 COMM 470 fulfills the US Multicultural Overlay.

Foundation Electives: 3 Credit Hours

Choose 3 credit hours from the following courses:

- MC 191 - Audio Essentials **Credits:** 1
- MC 192 - Photography Essentials **Credits:** 1
- MC 193 - Video Production Essentials **Credits:** 1
- MC 194 - Social Media Essentials **Credits:** 1
- MC 195 - Creative Design **Credits:** 1
- MC 196 - Content Management for Distribution **Credits:** 1
- MC 197 - Podcasting Essentials **Credits:** 1
- CMST 135 - Web Fundamentals **Credits:** 3
- DIGME 137 - Fundamentals of Visual Communication **Credits:** 3

Computer Science Certificate: 17 Credit Hours

- CC 110 - Introduction to Computing **Credits:** 2
- CC 111 - Elements of Computer Programming **Credits:** 1
- CC 120 - Web Page Development **Credits:** 3
- CC 210 - Fundamental Computer Programming Concepts **Credits:** 4
- CC 310 - Data Structures and Algorithms I **Credits:** 3
- CC 410 - Advanced Programming **Credits:** 4

Digital Engagement Certificate: 16 Credit Hours

- MC 265 - Innovations in Media and Communication **Credits:** 3
- MC 365 - Writing in the Digital Economy **Credits:** 3
- MC 370 - Social Media Strategy & Management **Credits:** 3
- MC 445 - Digital Brand Strategy **Credits:** 3
- MC 565 - Going Mobile! **Credits:** 3

Entrepreneurship and Innovation Minor: 15 Credit Hours

- ENTRP 340 - Business Innovation and the Entrepreneurial Mindset **Credits:** 3
- ENTRP 411 - Intrapreneurship **Credits:** 3
- ENTRP 466 - Digital Business **Credits:** 3
- ENTRP 540 - Entrepreneurial Consulting **Credits:** 3
- ENTRP 575 - Entrepreneurship and Innovation Capstone **Credits:** 3

BS Natural and Quantitative Requirements: 3-5 Credit Hours

One course in each of the following, at any level:

Natural Science course Credits: 3-5

BS Arts, Humanities, and Social Sciences Requirements: 3 Credit Hours

3 credit hours in the following at any level.

Non-Quantitative Social Science: Any social science course that does NOT have a MATH or STAT prereq Credits: 3

Free Electives: 17-19

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

A&S common BS degree requirements met by the following: Natural Science Restricted Electives

Arts, Humanities, and Social Sciences Restricted Electives

CC courses (meet A&S quantitative requirements of 3 courses, at least 6 advanced credits)

News & Sports Media (BS)

The News & Sports Media degree prepares future journalists and media professionals to share nonfiction stories ethically, professionally, and creatively on any media platform. Students develop essential skills in storytelling content creation and distribution such as writing and reporting, broadcasting, social media news strategies, podcasting, sports journalism, and digital photo and video. Students are exposed to journalistic storytelling tools such as social media platforms, drones, streaming video and other developing technologies. Students further specialize their degree by pursuing a concentration in a specific content area such as news, sports, photography, or innovative design in which they develop advanced skills. They also personalize their degree with an outside concentration. The hands-on nature of courses prepares students to pursue careers such as photojournalism, media production, sports broadcasting, news reporting, data journalism, and more.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Programs

Math Requirement

If not met through K-State Core requirements, MATH 160 is required.

KSC-030

- MATH 160 - Introduction to Contemporary Mathematics **Credits:** 3

Foundations - 8 Credit Hours

Writing Foundation I

- MC 130 - Writing Conventions and Mechanics **Credits:** 1

Writing Foundation II

Take 2 credits from the following:

- AGCOM 110 - Introduction to Agricultural Communications **Credits:** 2
- MC 131 - Elements of Media Writing **Credits:** 1
- MC 132 - Writing Styles and Audiences **Credits:** 1

Content Creator Studio I

Take the following 3 courses:

- MC 191 - Audio Essentials **Credits:** 1
- MC 192 - Photography Essentials **Credits:** 1
- MC 193 - Video Production Essentials **Credits:** 1

Content Creator Studio II

Choose 2 credits from the following:

- MC 194 - Social Media Essentials **Credits:** 1
- MC 195 - Creative Design **Credits:** 1
- MC 196 - Content Management for Distribution **Credits:** 1
- MC 197 - Podcasting Essentials **Credits:** 1

NSM Requirements: 21 Credit Hours

- COMM 470 - Building Social and Cultural Connections **Credits:** 3
- MC 160 - Principles of Journalism **Credits:** 3
- MC 200 - News Reporting and Writing Across Platforms **Credits:** 3
- MC 301 - Photo & Video Storytelling **Credits:** 3
- MC 466 - Media Law and Ethics **Credits:** 3
- MC 580 - Storytelling Across Platforms **Credits:** 3
  Take 3 credits in the following two courses
- MC 485 - Media Practicum **Credits:** 1
- MC 491 - Mass Communication Internship **Credits:** 1-3

NSM Electives - 6 Credit Hours

Choose two courses of the following:

- MC 306 - Photographic Storytelling **Credits:** 3
- MC 310 - What's the Score? Sports Media in Society **Credits:** 3
- MC 316 - Interactive Journalism Design **Credits:** 3
- MC 331 - Photography Commercial Imaging **Credits:** 3
- MC 332 - Photography and Digital Storytelling Abroad **Credits:** 3
- MC 340 - Editing for Print and Online Media **Credits:** 3
- MC 341 - Immersive Digital Storytelling **Credits:** 3
- MC 370 - Social Media Strategy & Management **Credits:** 3
- MC 390 - Topics in Journalism and Mass Communications **Credits:** 1-3
- MC 403 - Advanced Reporting and Writing Across Platforms **Credits:** 3
- MC 405 - Perfect Podcasting **Credits:** 3
- MC 406 - Multiplatform News Reporting **Credits:** 3
- MC 410 - Sports Reporting **Credits:** 3
- MC 416 - Photojournalism **Credits:** 3

- MC 426 - Magazine Writing, Editing and Design **Credits:** 3
- MC 469 - Drone Photography and Video **Credits:** 3
- MC 471 - Advanced Production **Credits:** 3
- MC 472 - Multiplatform News Production **Credits:** 3
- MC 479 - Strategic Communications and Sports **Credits:** 3
- MC 490 - Topics in Journalism and Mass Communications **Credits:** 1-3
- MC 498 - Media Portfolio **Credits:** 3
- MC 506 - Social media News Strategies **Credits:** 3
- MC 564 - History of Mass Communication **Credits:** 3
- MC 576 - Mass Communications and Political Campaigns **Credits:** 3
- MC 589 - Issues in Mass Communication **Credits:** 1-3
- MC 612 - Diversity in Media **Credits:** 3
- COMM 435 - Political Communication **Credits:** 3

NSM Specialization - 9 Credit Hours

Choose one specialization from the following (courses used to fulfill NSM Electives may not also be used to fulfill Specialization):

News Specialization

- MC 406 - Multiplatform News Reporting **Credits:** 3
- MC 472 - Multiplatform News Production **Credits:** 3
- MC 506 - Social media News Strategies **Credits:** 3

Sports Specialization

- MC 310 - What's the Score? Sports Media in Society **Credits:** 3
- MC 406 - Multiplatform News Reporting **Credits:** 3
- MC 410 - Sports Reporting **Credits:** 3

Photography Specialization

- MC 331 - Photography Commercial Imaging **Credits:** 3
- MC 416 - Photojournalism **Credits:** 3
- MC 306 - Photographic Storytelling **Credits:** 3
  or
- MC 332 - Photography and Digital Storytelling Abroad **Credits:** 3

Interactive Storytelling

- MC 316 - Interactive Journalism Design **Credits:** 3
- MC 341 - Immersive Digital Storytelling **Credits:** 3
- MC 426 - Magazine Writing, Editing and Design **Credits:** 3

BS Natural and Quantitative Requirements: 12-15 Credit Hours

One course in each of the following, with at least two courses at the 300 level or above OR at any level with a prerequisite in the same discipline.

Natural Science course Credits: 3-5

Quantitative course Credits: 3-4

Natural Science, or Quantitative, or Social Science w/MATH or STAT prereq Credits: 3

Natural Science, or Quantitative, or Social Science w/MATH or STAT prereq Credits: 3

Free Electives: 19-21

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

Minor

Advertising and Public Relations Minor

The 18-hour minor in advertising and public relations is designed to prepare all majors with highly desired workplace skillsets beneficial to a variety of career paths, including brand awareness and reputation management, strategic planning, ethically engaged communication and digital brand management. Students will be introduced to basic advertising and public relations theories and techniques, enabling them to create persuasive messages with a strong emphasis in data-driven and ethical decision-making.

Required Courses: (12 credit hours)

- MC 120 - Principles of Advertising **Credits:** 3
  Or
- MC 180 - Principles of Public Relations **Credits:** 3

- MC 370 - Social Media Strategy & Management **Credits:** 3
  Or
- MC 445 - Digital Brand Strategy **Credits:** 3

- MC 375 - Social Media Influencing & Personal Branding **Credits:** 3
- MC 612 - Diversity in Media **Credits:** 3

Electives: (6 credit hours)

- AGCOM 610 - Crisis Communication **Credits:** 3
- COMM 311 - Business and Professional Speaking **Credits:** 3
- MC 191 - Audio Essentials **Credits:** 1
- MC 192 - Photography Essentials **Credits:** 1

- MC 193 - Video Production Essentials **Credits:** 1
- MC 194 - Social Media Essentials **Credits:** 1
- MC 195 - Creative Design **Credits:** 1
- MC 196 - Content Management for Distribution **Credits:** 1
- MC 197 - Podcasting Essentials **Credits:** 1
- MC 280 - Writing for Advertising & Public Relations **Credits:** 3
- MC 331 - Photography Commercial Imaging **Credits:** 3
- MC 332 - Photography and Digital Storytelling Abroad **Credits:** 3
- MC 374 - Social Media Content Development **Credits:** 3
- MC 482 - Ideation, Strategy and Planning for Advertising and Public Relations **Credits:** 3
- MC 409 - Advanced Strategic Communications Writing **Credits:** 3
- MC 446 - Media Planning **Credits:** 3
- MC 451 - Health Communication **Credits:** 3
- MC 478 - Entertainment and Strategic Communications **Credits:** 3
- MC 479 - Strategic Communications and Sports **Credits:** 3
- MC 623 - Communicating in Global Markets **Credits:** 3

Total Minimum Hours Required for Graduation: 18

Communication Studies Minor

Program requirements

- COMM 320 - Theories of Human Communication **Credits:** 3
- COMM 330 - Rhetoric in Civic Life **Credits:** 3

Four guided electives chosen from the following list (12 credit hours):

(at least one COMM 400 or above)

- COMM 120 - Introduction to Human Communication **Credits:** 3
- COMM 260 - Introduction to Trial Advocacy **Credits:** 3
- COMM 311 - Business and Professional Speaking **Credits:** 3
- COMM 320 - Theories of Human Communication **Credits:** 3
- COMM 321 - Advanced Public Speaking **Credits:** 3
- COMM 130 - Interpersonal Communication **Credits:** 3
- COMM 323 - Nonverbal Communication **Credits:** 3
- COMM 325 - Argumentation and Debate **Credits:** 3
- COMM 326 - Group Communication **Credits:** 3
- COMM 420 - Gender Communication **Credits:** 3
- COMM 425 - Organizational Communication **Credits:** 3
- COMM 328 - Professional Interviewing **Credits:** 3
- COMM 330 - Rhetoric in Civic Life **Credits:** 3
- COMM 332 - Communication and Technology **Credits:** 3
- COMM 430 - Freedom of Speech **Credits:** 3
- COMM 431 - Criticism of Public Discourse **Credits:** 3

- COMM 432 - The Rhetoric of the American Presidency **Credits:** 3
- COMM 433 - Communication Research Methods **Credits:** 3
- COMM 434 - Rhetoric and Social Movements **Credits:** 3
- COMM 435 - Political Communication **Credits:** 3
- COMM 440 - Collaborative Communication and Event Planning **Credits:** 3
- COMM 450 - Special Studies in Human Discourse **Credits:** 3
- COMM 460 - Advanced Trial Advocacy **Credits:** 3
- COMM 465 - Communication and Conflict **Credits:** 3
- COMM 470 - Building Social and Cultural Connections **Credits:** 3
- COMM 475 - Legal Communication **Credits:** 3
- COMM 480 - Intercultural Communication **Credits:** 3
- COMM 525 - Argumentation Theory **Credits:** 3
- COMM 526 - Persuasion **Credits:** 3
- COMM 535 - Communication and Leadership **Credits:** 3
- COMM 537 - Negotiation and Communication **Credits:** 3
- COMM 542 - Relational Communication **Credits:** 3
- COMM 545 - Communication in Democracy **Credits:** 3
- COMM 575 - Internship in Communication Studies **Credits:** 1-3

Total credit hours: (18)

Mass Communications Minor

Program requirements

Students who choose to major in other departments on campus can still specialize in Mass Communications through the A. Q. Miller School of Journalism and Mass Communications.

This degree program is flexible enough to accommodate many student interests, ranging from writing/production courses to more generalized studies of the media professions and their relationship to society.

Each of the following courses must be passed with a grade of "C" or better:

- MC 110 - Mass Communication in Society **Credits:** 3
- MC 130 - Writing Conventions and Mechanics **Credits:** 1
- MC 131 - Elements of Media Writing **Credits:** 1
- MC 132 - Writing Styles and Audiences **Credits:** 1
- MC 466 - Media Law and Ethics **Credits:** 3

Choose one of the following 100-level electives:

- MC 120 - Principles of Advertising **Credits:** 3
- MC 160 - Principles of Journalism **Credits:** 3
- MC 180 - Principles of Public Relations **Credits:** 3

Electives (9 credit hours)

For specialization in the field, students taking the minor must take **three** classes totaling **nine credit hours**. One class must be at the 200-level or higher and two classes one must be 300-level or higher.

Student must achieve a cumulative 2.50 GPA (K-State and transfer grades) in the seven required courses to complete the minor. Note: A grade of a "D" does not transfer.

Total credit hours: (21)

Undergraduate Certificate

Digital Engagement Undergraduate Certificate

The Certificate in Digital Engagement, open to all majors on campus and online and working professionals, is a program designed to help students build knowledge and the necessary digital skills to use media, persuasive content creation, digital branding and content marketing strategies and artificial intelligence to connect businesses or organizations with their target audiences over the internet. The program can be completed in a hybrid or 100% online format.

Admission Requirements

All applicants are required to meet the general university admission requirements.

Graduation Requirements

Completion of each of the four required courses with at least a grade of C.

Course Requirements

- MC 265 - Innovations in Media and Communication **Credits:** 3
- MC 365 - Writing in the Digital Economy **Credits:** 3
- MC 370 - Social Media Strategy & Management **Credits:** 3
- MC 445 - Digital Brand Strategy **Credits:** 3

Total Hours Required: 12

Government and Political Communications Undergraduate Certificate

Prepares individuals to serve in local, state and federal government, political and civic organizations through communications. Instruction in working with news media, public speaking, strategic planning, reputation and crisis management, political marketing and print and broadcast media.

Certificate Required Courses:

JMC Required Courses

- MC 180 - Principles of Public Relations **Credits:** 3
- MC 280 - Writing for Advertising & Public Relations **Credits:** 3

- MC 370 - Social Media Strategy & Management **Credits:** 3

Political Science Required Courses

Please choose one of the following courses:

- POLSC 343 - American Foreign Policy **Credits:** 3
- POLSC 540 - Global Security Threats **Credits:** 3
- POLSC 549 - International Defense Strategies **Credits:** 3

Communication Studies Required Course

- COMM 106 - Public Speaking I **Credits:** 3

Total Hours Required: 18

Social Media Management Undergraduate Certificate

Prepares individuals to understand how organizations utilize social media to communicate with stakeholders. Identify and analyze key debates, trends, and ethical issues related to communication through emerging technology from multiple points of view. Recognize and apply best practices for conducting effective social media program management, measurement, and evaluation.

Required Courses: 12

- COMM 332 - Communication and Technology **Credits:** 3
- MC 194 - Social Media Essentials **Credits:** 1
- MC 370 - Social Media Strategy & Management **Credits:** 3
- MC 374 - Social Media Content Development **Credits:** 3
- MC 474 - Social Media Management Simulation Lab **Credits:** 2

Elective: 3

Select one of the following:

- COMM 526 - Persuasion **Credits:** 3
- MC 375 - Social Media Influencing & Personal Branding **Credits:** 3
- MC 506 - Social media News Strategies **Credits:** 3

Total Minimum Hours Required for Graduation: 15

Travel and Tourism Promotion Undergraduate Certificate

The certificate in Travel and Tourism Promotion combines specialized skills from the hospitality management and strategic communications curricula that directly relate to providing media and communications skills for travel and tourism professionals.

The certificate will be awarded to students who achieve a superior level of expertise in the communication relationship-building and management aspects of travel and tourism.

Promotion Certificate Structure and Requirements:

This certificate totals 18 hours, with 12 required credit hours (6 in Advertising and Public Relations and 6 in Hospitality Management) and 6 elective hours (2 classes from either program's elective hours as suggested below).

Required Classes:

Advertising and Public Relations

- MC 180 - Principles of Public Relations **Credits:** 3
- MC 477 - Travel and Tourism Strategic Communications **Credits:** 3

Hospitality Management

- HM 120 - Introduction to the Hospitality Industry **Credits:** 3
- HM 230 - Issues in Tourism **Credits:** 3

Suggested Electives:

Advertising and Public Relations

- MC 280 - Writing for Advertising & Public Relations **Credits:** 3
- MC 370 - Social Media Strategy & Management **Credits:** 3
- MC 482 - Ideation, Strategy and Planning for Advertising and Public Relations **Credits:** 3
- MC 491 - Mass Communication Internship **Credits:** 1-3
- MC 683 - Reputation Management **Credits:** 3

Hospitality Management

- HM 361 - Hotel Operations **Credits:** 3
- HM 363 - Event Management **Credits:** 3
- HM 426 - Fundraising and Nonprofit Events **Credits:** 3
- HM 475 - Internship in Hospitality Management **Credits:** 3
- HM 621 - Hospitality Law **Credits:** 3

Total hours required: 18

Military Science (Army ROTC)

Lieutenant Colonel Heather Barton , Department Head

101 Gen. Richard B. Myers Hall
785-532-6754 or 785-532-5173
Fax: 785-532-6778
E-mail: bvogt002@k-state.edu
armyrotc.k-state.edu

The Army Reserve Officers' Training Corps is a nationally acclaimed leader-development program that educates and trains aspiring young professionals to attain critical organizational and interpersonal leadership skills, knowledge, and attributes necessary to lead in military and corporate settings. This program includes a progressive, structured curriculum that provides the theoretical and practical application of military leadership in and out of the classroom.

ROTC students can earn a federal commission as a United States Army officer and be placed in a professional occupational specialty area of their choosing upon graduation. Students can choose to serve full-time or part-time as U.S. Army officers and are fully qualified for continuing education benefits.

Due to the dual requirements of academic degree programs and the military science program, the Department of Military Science provides financial support through monthly stipends to qualified students. Additionally, all students enrolled in this program are managed using a mentor system where a faculty leader takes personal interest and effort toward promoting the students' professional development.

The courses are open to all students. Students, both undergraduate and graduate, with two years remaining at K-State are eligible to pursue an officer commission through Army ROTC. Military science courses are credit-awarding courses and fulfill elective credit requirements in any degree program. Cadets may pursue any curriculum offered by the university.

The military science curriculum consists of the basic course, normally completed during the freshman and sophomore years, and the advanced course, oriented towards the junior and senior years.

Modern Languages

Jeffrey Zamostny, Head
Angélique Courbou, Director of Undergraduate Studies and Lead Advisor

207 Eisenhower Hall
785-532-6760
E-mail: modlang@k-state.edu
https://www.k-state.edu/languages

All regular courses offered by the Department of Modern Languages may be taken by non-majors on an A/Pass/F basis, subject to the provisions of the university policy.

Students majoring in languages should enroll for the bachelor of arts degree.

Programs Offered

Modern Languages offers a major in Modern Languages with concentrations in FRENCH, GERMAN, or SPANISH. Students may combine their Modern Language majors with a major in a different field or college. To accomplish this, students need to complete the requirements for a BA in Modern Languages as well as those for the other major or degree. We also encourage students to consider secondary majors in International Studies, or a minor in Chinese Studies, Classical Studies, French, German, Japanese Studies, Spanish or Spanish Translation to complement their curriculum.

Kirmser Language Center (KLC)

001 Eisenhower Hall

Making learning enjoyable! If you are a faculty member or a student enrolled in a language course, come on in! You are invited to the Kirmser Language Center. We will provide you audio, video, and computer multimedia services for both undergraduate and graduate level courses within the Department of Modern Languages. The KLC currently services between 800-1000 students each semester and offers a variety of resources.

Placement and Retroactive Credit

Entering students who have had previous language experience and who plan to continue language study are strongly encouraged to take a language placement survey before or at the beginning of the first semester of language study. If there is any doubt as to proper placement, check with Modern Languages advisors at mlangadvising@k-state.edu.

Students wishing to acquire retroactive credit for language proficiency gained before coming to K-State should consult with Modern Languages advisors at mlangadvising@k-state.edu.

Financial aid

The department offers scholarships to undergraduate majors and minors for study at K-State or in study abroad programs. For details, contact the head of the Department of Modern Languages.

Programs abroad

The department sponsors annual or biannual faculty-led summer study programs in Germany, Japan, Mexico, and Spain. All inquiries should be addressed to the head of the department.

In addition, students may explore additional faculty-led and non-faculty-led study abroad programs facilitated through the Office of Education Abroad.

Bachelor of Arts

Modern Languages - French (BA)

The French program in the Department of Modern Languages develops the skills and perspectives of culturally and linguistically competent citizens who are poised to live and work in an increasingly global and diverse society, in accordance with Kansas State University's land-grant mission. The program offers an interdisciplinary, holistic, and balanced preparation that balances language study with cultural and literary studies and helps students build advanced level proficiency in the language. Students will build skills in effective communication, interpretation, analysis, evaluation, and research in applied courses that prioritize interaction in the language. Our undergraduate majors typically pursue coursework in the language, building on a solid foundation to pursue advanced opportunities in translation studies, literary and cultural studies, film and media studies, languages for professional purposes (business and health), and applied linguistics (including bilingualism, second language acquisition and pedagogy). The program, while structured to ensure success at each level, is designed to ensure flexibility to help learners personalize and individualize their path. Graduates pursue careers in education, translation and interpretation, law, international business, and healthcare.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 Credit Hour

- DAS 101 - Discover, Create, and Thrive: Arts and Sciences Orientation **Credits:** 1

Outside Concentration: 9 Credit Hours

Outside credential of at least 9 credit hours (May be from any unit, **except Modern Languages** OR from approved interdisciplinary credentials within the unit).

OR

Any 9 credit hours in a single prefix (**except for any Modern Languages prefix including but not limited to ARAB, CHINE, CLSCS, FREN, GRMN, ITAL, JAPAN, LATIN, MLANG, RUSSN, SPAN**) (all must be 300 level or above OR at any level with a prereq in the same prefix; up to 5 credit hours may overlap with program).

OR

Any 9 credit hours in a microcredential (up to 5 credit hours may overlap with program).

Overlays: [9] Credit Hours

May be fulfilled in K-State Core, Outside Concentration, electives, or the Program itself.

- Ethical Reasoning Overlay **Credits:** [3]
- Global Perspectives Overlay **Credits:** [3]
- US Multicultural Overlay **Credits:** [3]

Math Requirement

If not met through K-State Core requirements, MATH 160 is required.

KSC-030

- MATH 160 - Introduction to Contemporary Mathematics **Credits:** 3

Modern Languages - French

A Modern Languages major in French consists of thirty-three credit hours of French courses at and above FREN 200, including one required literature and media course (3 credits) from the following list: FREN 520, FREN 521, FREN 530, and at least three 6/700-level courses (9 credits).

Retroactive credit, study abroad credit (approved by the department), and AP/IB credit may apply. With the exception of transfer credit or credit by examination approved by the department, students who major in French must either (a) receive a grade of C or higher in all courses counted toward the major or (b) have a GPA of at least 2.50 in all courses counted toward the major.

Notes:

- Literature courses in translation may not be applied toward the major.
- Two non-transfer courses are required at the 600-level or above.
- Classes for the major cannot be taken Pass/Fail.

In addition to meeting the general requirements for the Bachelor of Arts degree, a Modern Languages in French must complete the following requirements.

I - Basic Language Sequence (6 credits)

- FREN 201 - French III **Credits:** 3
- FREN 301 - French IV **Credits:** 3

II - Introduction to Literature and Media (3 credits)

- FREN 520 - Introduction to French Literature (19th Century to the Present) **Credits:** 3
  OR
- FREN 530 - Topics in French/Francophone Literature and Culture **Credits:** 3

III - Advanced Level Language Content (24 credits)

Five FREN courses 500-799 - 15 credit hours

Three additional FREN courses 600-799 - 9 credit hours

BA Arts, Humanities, and Social Sciences Requirement: 6 Credit Hours

3 credit hours in each of the following, with at least 3 credit hours at 300 level or above OR at any level with a prerequisite in the same discipline.

Any course or combination of courses in Fine Arts Credits: 3

One Non-Quantitative Social Science; Any Social course that does NOT have a MATH or STAT prereq Credits: 3

BA Natural and Quantitative Requirement: 6 Credit Hours

One course in each of the following, with at least 3 credit hours total at 300 level or above OR at any level with a prerequisite in the same discipline.

Natural Science or Quantitative course Credits: 3

Natural Science, or Quantitative, or Social Science with MATH or STAT Credits: 3

Free Electives: 31 Credit Hours

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

Modern Languages - French with Distinction (BA)

The French program with Distinction in the Department of Modern Languages develops the skills and perspectives of culturally and linguistically competent citizens who are poised to live and work in an increasingly global and diverse society, in accordance with Kansas State University's land-grant mission. The program offers an interdisciplinary, holistic, and balanced preparation that balances language study with cultural and literary studies and helps students build advanced level proficiency in the language. Students will build skills in effective communication, interpretation, analysis, evaluation, and research in applied courses that prioritize interaction in the language. Our undergraduate majors typically pursue coursework in the language, building on a solid foundation to pursue advanced opportunities in translation studies, literary and cultural studies, film and media studies, languages for professional purposes (business and health), and applied linguistics (including bilingualism, second language acquisition and pedagogy). The program, while structured to ensure success at each level, is designed to ensure flexibility to help learners personalize and individualize their path. Modern Languages - German

A Modern Languages major in German consists of thirty-three credit hours of German courses at and above GRMN 200, including one required literature and media course (3 credits) from the following list: GRMN 521, GRMN 522, GRMN 530, and at least three 6/700-level courses (9 credits).

Retroactive credit, study abroad credit (approved by the department), and AP/IB credit may apply. With the exception of transfer credit or credit by examination approved by the department, students who major in German must either (a) receive a grade of C or higher in all courses counted toward the major or (b) have a GPA of at least 2.50 in all courses counted toward the major.

Notes:

- Literature courses in translation may not be applied toward the major.
- Two non-transfer courses are required at the 600-level or above.
- Classes for the major cannot be taken Pass/Fail.

In addition to meeting the general requirements for the Bachelor of Arts degree, a Modern Languages in German must complete the following requirements:

Bachelor's degree requirements

I - Basic Language Sequence (6 credits)

- GRMN 201 - German III **Credits:** 3
- GRMN 301 - German IV **Credits:** 3

II - Introduction to Literature and Media (3 credits)

- GRMN 521 - Introductory Topics in German Literature and Culture of the 18th and 19th century **Credits:** 3
  OR
- GRMN 522 - Introductory Topics in German Literature and Culture of the 20th and 21st century **Credits:** 3
  OR
- GRMN 530 - German Cultural Studies and History **Credits:** 3

III - Advanced Level Language Content (24 credits)

Five GRMN courses 500-799 - 15 credits

Three additional GRMN courses 600-799 - 9 credits

BA Arts, Humanities, and Social Sciences Requirement: 6 Credit Hours

3 credit hours in each of the following, with at least 3 credit hours at 300 level or above OR at any level with a prerequisite in the same discipline.

Any course or combination of courses in Fine Arts Credits: 3

One Non-Quantitative Social Science; Any Social course that does NOT have a MATH or STAT prereq Credits: 3

BA Natural and Quantitative Requirement: 6 Credit Hours

One course in each of the following, with at least 3 credit hours total at 300 level or above OR at any level with a prerequisite in the same discipline.

Natural Science or Quantitative course Credits: 3

Natural Science, or Quantitative, or Social Science with MATH or STAT Credits: 3

Free Electives: 31 Credit Hours

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

Modern Languages - German with Distinction (BA)

The German program with Distinction in the Department of Modern Languages develops the skills and perspectives of culturally and linguistically competent citizens who are poised to live and work in an increasingly global and diverse society, in accordance with Kansas State University's land-grant mission. The program offers an interdisciplinary, holistic, and balanced preparation that balances language study with cultural and literary studies and helps students build advanced level proficiency in the language. Students will build skills in effective communication, interpretation, analysis, evaluation, and research in applied courses that prioritize interaction in the language. Our undergraduate majors typically pursue coursework in the language, building on a solid foundation to pursue advanced opportunities in translation studies, literary and cultural studies, film and media studies, languages for professional purposes (business and health), and applied linguistics (including bilingualism, second language acquisition and pedagogy). The program, while structured to ensure success at each level, is designed to ensure flexibility to help learners personalize and individualize their path. Graduates pursue careers in education, translation and interpretation, law, international business, and healthcare.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 Credit Hour

- DAS 101 - Discover, Create, and Thrive: Arts and Sciences Orientation **Credits:** 1

Outside Concentration: 9 Credit Hours

Outside credential of at least 9 credit hours (May be from any unit, **except Modern Languages** OR from approved interdisciplinary credentials within the unit).

OR

Any 9 credit hours in a single prefix (**except for any Modern Languages prefix including but not limited to ARAB, CHINE, CLSCS, FREN, GRMN, ITAL, JAPAN, LATIN, MLANG, RUSSN, SPAN**) (all must be 300 level or above OR at any level with a prereq in the same prefix; up to 5 credit hours may overlap with program).

OR

Any 9 credit hours in a microcredential (up to 5 credit hours may overlap with program).

Overlays: [9] Credit Hours

May be fulfilled in K-State Core, Outside Concentration, electives, or the Program itself.

- Ethical Reasoning Overlay **Credits:** [3]
- Global Perspectives Overlay **Credits:** [3]
- US Multicultural Overlay **Credits:** [3]

Math Requirement

If not met through K-State Core requirements, MATH 160 is required.

KSC-030

- MATH 160 - Introduction to Contemporary Mathematics **Credits:** 3

Modern Languages - German with Distinction

A Modern Languages major in German with Distinction consists of thirty-nine credit hours of German courses at and above GRMN 200, including one required literature and media course (3 credits) from the following list: GRMN 521, GRMN 522, GRMN 530, and at least four 6/700-level courses (9 credits).

Retroactive credit, study abroad credit (approved by the department), and AP/IB credit may apply. With the exception of transfer credit or credit by examination approved by the department, students who major in German must maintain a 3.5GPA in all courses counted toward the major.

Notes:

- Literature courses in translation may not be applied toward the major.
- Two non-transfer courses are required at the 600-level or above.
- Classes for the major cannot be taken Pass/Fail.

In addition to meeting the general requirements for the Bachelor of Arts degree, a Modern Languages in German with Distinction must complete the following requirements

I - Basic Language Sequence (6 credits)

Minor

Chinese Studies Minor

Develop intermediate level language skills in Chinese as well as an interdisciplinary foundation in the culture of the Chinese-speaking world.

Program requirements

Program requirements

The following are the Chinese Studies minor requirements:

- Requires 18 credit hours including a minimum of 15 credits of Chinese courses at the 200-level or above ("Chinese Language & Culture Courses") and 3 credits from the approved elective list ("Ancillary Courses").
- You must receive a "C" or better, or a minimum GPA of 2.5, in all courses counted toward a minor. Classes for the minor cannot be taken Pass/Fail. Retroactive Credit from KSU does apply toward the minor.
- We strongly encourage students to Study Abroad. While we will accept appropriate coursework taken toward the minor, no more than 6 credit hours of transfer courses may be applied to the minor.

Chinese Language & Culture Courses (15 credit hours)

15 credits of Chinese courses at the 200-level and above.

- CHINE 200 - Chinese II **Credits:** 4
- CHINE 201 - Chinese III **Credits:** 4
- CHINE 301 - Chinese IV **Credits:** 4
- CHINE 501 - Chinese V **Credits:** 3
- CHINE 599 - Special Studies in Chinese **Credits:** 0-18

Ancillary Courses (3 credit hours)

3 credits from the pre-approved courses listed below.

- CHINE 502 - Chinese VI **Credits:** 3
- CHINE 599 - Special Studies in Chinese **Credits:** 0-18
- ENGL 388 - Asian American Literatures **Credits:** 3
- ENGL 580 - Selected World Literature **Credits:** 3
- GEOG 660 - Geography of East Asia/China **Credits:** 3
- HIST 330 - History of East Asian Civilizations **Credits:** 3
- HIST 332 - Introduction to China **Credits:** 3
- HIST 504 - Intellectual History of Early China **Credits:** 3
- HIST 507 - China Since 1644 **Credits:** 3
- HIST 508 - Introduction to Modern East Asia **Credits:** 3
- POLSC 625 - East Asian Politics **Credits:** 3

  MLANG courses at the 300-level or above **Credits / Units:** 3

  Other courses may be substituted via written petition from the student to department and subsequent approval by (1) faculty in Chinese and (2) department head. **Credits / Units:** 3

Total credit hours: 18

Classical Studies Minor

Program requirements

The minor requires 18 credit hours at or above the 200-level that are passed with a C or better or a 2.5 GPA; they cannot be taken pass/fail. As part of the 18 credit hours students must complete to attain the minor, they must fulfill the requirements within the Humanities Core of the minor and the Language Requirements of the minor

The courses listed below are the courses offered by the Department of Modern Languages as part of the curriculum of the minor that will count toward the 18 credit hour requirement for attaining the minor.

Student may, but are not required to take a number of courses offered by other programs at K-State that include discussion of classical topics. The list of accepted ancillary courses is included below, under Ancillary Courses with Classical Content.

Language Courses (6 credit hours)

- GREEK 301 - Intermediate Greek-Prose **Credits:** 3
- GREEK 302 - Intermediate Greek-Poetry **Credits:** 3

  or
- LATIN 301 - Intermediate Latin - Prose **Credits:** 3
- LATIN 302 - Intermediate Latin - Poetry **Credits:** 3

Core Humanities Courses (6 credit hours)

- CLSCS 309 - Introduction to Classical Literature in Translation **Credits:** 3
- CLSCS 310 - Introduction to Classical Mythology in Translation **Credits:** 3
- CLSCS 501 - Topics in Classical Literature in Translation **Credits:** 3
- CLSCS 502 - Topics in Classical Studies **Credits:** 3
- CLSCS 549 - Special Studies in Classics **Credits:** 1-5

Ancillary Courses with Classical Content (6 credit hours)

- ENGL 230 - Classical Cultures **Credits:** 3
- ENVD 250 - History of the Designed Environment I **Credits:** 3
- HIST 567 - Europe in the Middle Ages **Credits:** 3
- HIST 585 - Medieval Christianity **Credits:** 3
- MUSIC 466 - Music History I: Ancient Greece to Beethoven **Credits:** 3
- POLSC 661 - Ancient and Medieval Political Thought **Credits:** 3
- THTRE 572 - History of Theatre I **Credits:** 3

Study Abroad:

Students will be encouraged, but not required, to study abroad in Greece, Turkey, or Italy or elsewhere at programs that offer courses in classical languages and cultures. Students currently have the opportunity, through the Office of International Programs, to study at universities that offer courses on classical topics including Bogaziçi University in Istanbul. In the future, a faculty-led summer study abroad trip to Italy, Greece, or Turkey will be organized. Transfer credit may fulfill requirements in the Humanities Core, the Language Requirements, and/or the Ancillary Requirements if approved by the Director of the minor in Classical Studies. At least two courses for the minor at or above the 300-level must be taken at K-State's Manhattan campus.

Total credit hours: (18)

French Minor

Develop intermediate level language skills in French as well as an interdisciplinary foundation in the culture of the French-speaking world.

Program requirements

The following are the French minor requirements:

- 18 credit hours of French courses at the 200-level or above, must include a literature course (FREN 520 or FREN 521 or FREN 530).
- You must receive a "C" or better, or a minimum GPA of 2.5, in all courses counted toward a minor.
- Classes for the minor cannot be taken Pass/Fail. Retroactive Credit from KSU does apply toward the minor.
- We strongly encourage students to Study Abroad. While we will accept appropriate coursework taken toward the minor, no more than 6 credit hours of transfer courses may be used for the minor.

French Language & Culture Courses (18 credit hours)

18 credit hours of French courses at and above the 200-level, including one literature course from the following list: FREN 520, FREN 521, or FREN 530.

- FREN 201 - French III **Credits:** 3
- FREN 301 - French IV **Credits:** 3
- FREN 501 - Readings in French **Credits:** 3
- FREN 503 - French Composition and Grammar **Credits:** 3
- FREN 512 - French/Francophone Cinema **Credits:** 3

- FREN 514 - Contemporary France **Credits:** 3
- FREN 515 - History of French Culture **Credits:** 3
- FREN 517 - French for the Professions **Credits:** 3
- FREN 518 - French Conversation **Credits:** 3
- FREN 519 - Special Studies in French **Credits:** 1-18

One of the following is required:

- FREN 520 - Introduction to French Literature (19th Century to the Present) **Credits:** 3
- FREN 530 - Topics in French/Francophone Literature and Culture **Credits:** 3

Any French course at the 700-level

Total credit hours: 18

German Minor

Develop intermediate level language skills in German as well as an interdisciplinary foundation in the culture of the German-speaking world.

Program requirements

The following are the German minor requirements:

- 18 credit hours of German courses at the 200-level or above, including one literature course from the following list: GRMN 521 or GRMN 522.
- You must receive a "C" or better, or a minimum GPA of 2.5, in all courses counted toward a minor.
- Classes for the minor cannot be taken Pass/Fail. Retroactive Credit from KSU does apply toward the minor.
- We strongly encourage students to Study Abroad. While we will accept appropriate coursework taken toward the minor, no more than 6 credit hours of transfer courses may be used for the minor.

Minor requirements

18 credit hours in German at the 200-level and above, including one literature course from the following list: GRMN 521 or GRMN 522.

- GRMN 201 - German III **Credits:** 3
- GRMN 222 - Elementary German Conversation IIIA **Credits:** 2
- GRMN 301 - German IV **Credits:** 3
- GRMN 398 - Intermediate Studies in German **Credits:** 1-18
- GRMN 510 - German Film **Credits:** 3
- GRMN 515 - Topics in German Cultural Studies **Credits:** 3
- GRMN 520 - Readings in German **Credits:** 3

One of the following courses are required:

- GRMN 521 - Introductory Topics in German Literature and Culture of the 18th and 19th century **Credits:** 3
- GRMN 522 - Introductory Topics in German Literature and Culture of the 20th and 21st century **Credits:** 3

- GRMN 526 - Business German **Credits:** 3
- GRMN 527 - Advanced German Conversation **Credits:** 3
- GRMN 529 - Special Studies in German **Credits:** 1-18
- GRMN 530 - German Cultural Studies and History **Credits:** 3
- GRMN 701 - Topics in Eighteenth Century German Literature and Culture **Credits:** 3
- GRMN 702 - Topics in Nineteenth Century German Literature and Culture **Credits:** 3
- GRMN 703 - Topics in Early Twentieth Century German Literature and Culture **Credits:** 3
- GRMN 704 - Topics in German Literature and Culture since 1945 **Credits:** 3
- GRMN 705 - Topics in Twentieth and Twenty-First Century German Literature and Culture **Credits:** 3
- GRMN 728 - History of the German Language **Credits:** 3
- GRMN 729 - Open Topics Seminar in German Literature and Culture **Credits:** 3
- GRMN 731 - Advanced German: Speaking and Writing **Credits:** 3
- GRMN 740 - German Culture and Literature in Second-Language Learning **Credits:** 3
- GRMN 799 - Problems in Modern Languages **Credits:** 1-18

Total credit hours: (18)

Japanese Studies Minor

Develop intermediate level language skills in Japanese as well as an interdisciplinary foundation in the culture of the Japanese-speaking world.

Program requirements

- To declare your minor, you need to fill out a "Add Minor" form in the Department of Modern Languages, 207 Eisenhower Hall.
- 18 credit hours of Japanese courses at the 200-level or above, and/or courses approved by the department of modern languages, listed below as "ancillary courses".
- You must receive a "C" or better, or a minimum GPA of 2.5, in all courses counted toward a minor. Classes for the minor cannot be taken Pass/Fail. Retroactive Credit from KSU does apply toward the minor.
- We strongly encourage students to Study Abroad. While we will accept appropriate coursework taken toward the minor, no more than six hours of transfer courses may be used for the minor.

Japanese Language & Culture Courses (15 credit hours)

Japanese courses in the 200 level and above.

- JAPAN 200 - Japanese II **Credits:** 4
- JAPAN 201 - Japanese III **Credits:** 4
- JAPAN 301 - Japanese IV **Credits:** 4
- JAPAN 391 - Culture of Japanese Communication **Credits:** 3
- JAPAN 501 - Japanese V **Credits:** 3
- JAPAN 599 - Special Studies in Japanese **Credits:** 0-18

Ancillary Courses (3 credit hours)

3 credit hours from the following list:

- ENGL 388 - Asian American Literatures **Credits:** 3
- HIST 330 - History of East Asian Civilizations **Credits:** 3
- HIST 331 - Introduction to Japan **Credits:** 3
- HIST 501 - Japan's Samurai Age **Credits:** 3
- HIST 508 - Introduction to Modern East Asia **Credits:** 3
- HIST 509 - Japan Since 1550 **Credits:** 3
- HIST 850 - History and Security: East Asia **Credits:** 3
- JAPAN 502 - Japanese VI **Credits:** 3
- JAPAN 599 - Special Studies in Japanese **Credits:** 0-18
  MLANG courses at the 300-level or above **Credits / Units:** 3
- POLSC 625 - East Asian Politics **Credits:** 3
  Other courses may be substituted in via written petition from student to department and subsequent approval by (1) Japanese faculty and (2) department head **Credits / Units:** 3

Total credit hours: 18

Russian Minor

The Department of Modern Languages strives to provide the best possible learning environment for its students, and for this reason we take very seriously the placement of students in courses that match their abilities. Each class in the sequence of our courses is designed so that students advance in reading, listening, writing, speaking, and cultural proficiency. In order to best serve each individual, **the Department reserves the right to remove students from the rosters of classes that do not correspond to their proficiency levels**. Students who have acquired advanced language skills abroad or at home must consult with Modern Languages staff in order to determine their appropriate entry point in our language sequence. Students who begin their coursework at advanced levels may qualify for retroactive credit in as many as four courses. Click here for more information.

Program requirements

In order to minor in a language, you need to comply with the following rules:

- First, declare your minor. You can do so when you start taking classes toward the minor, or later on.
- To declare your minor, you need to fill out a "Add Minor" form in the Department of Modern Languages, 207 Eisenhower Hall.
- You do not need to have an advisor to do your minor, simply follow the requirements relative the language you've chosen.
- You must receive a "C" or better, or a minimum GPA of 2.5, in all courses counted toward a minor.
- We strongly encourage students to Study Abroad. While university policy requires courses applied towards the minor to be taken in residence, we will accept appropriate coursework taken toward the minor; provided that at least two 400/500 level courses for the minor be taken on campus.
- Retroactive Credit from KSU does apply toward the minor.
- Classes for the minor cannot be taken Pass/Fail.

Minor requirements

18 credit hours of Russian courses in the 200 level and above.

Note: Up to 6 credit hours of RUSSN 398 (Intermediate Studies in Russian) may also be counted toward the minor. Make sure to read the general procedures to obtain a minor carefully.

- RUSSN 250 - Russian Culture and Civilization **Credits:** 3
- RUSSN 300 - Russian III **Credits:** 4
- RUSSN 301 - Russian IV **Credits:** 3
- RUSSN 398 - Intermediate Studies in Russian **Credits:** 1-18
- RUSSN 504 - Russian Literature in Translation: The Nineteenth Century **Credits:** 3
- RUSSN 508 - Russian Literature in Translation: The Soviet Period **Credits:** 3
- RUSSN 551 - Russian V **Credits:** 3
- RUSSN 553 - Russian Conversation and Composition **Credits:** 3
- RUSSN 559 - Special Studies in Russian **Credits:** 1-18

Total credit hours: (18)

South Asian Studies Minor

The minor is interdisciplinary, integrating traditional area studies in the social sciences and humanities with courses in the professional disciplines. The minor consists of four semesters of language (or its equivalent); two core courses in the traditional areas of social science and humanities; two elective courses in South Asian content from an approved list of courses across eight colleges.

Students must have a GPA of 2.0 or better to qualify for the South Asian Studies minor. To complete the minor, they need 27 credit hours of designated course work (or its equivalent for the 15 credit hours of language) of which at least 12 credit hours must be in core and elective courses.

Minor Program Requirements:

South Asian Language Requirement (15 credit hours)

The minor requires that each student acquire mastery of a South Asian language at the intermediate level which is defined as a Level IV of Hindi or its equivalent in another South Asian language.

- HINDI 101 - Hindi I **Credits:** 4
- HINDI 102 - Hindi II **Credits:** 4
- HINDI 201 - Hindi III **Credits:** 4
- HINDI 301 - Hindi IV **Credits:** 3

Social Sciences/Humanities Core (6 credit hours)

Students may select from existing courses, may take "topics" or "problems" courses that are not regularly scheduled, or they may transfer courses which are validated for K-State credit and approved by the Program Director. Regular course offerings currently include:

- ANTH 305 - Cultures of South Asia **Credits:** 3
- GEOG 506 - Geography of South Asia **Credits:** 3

- HIST 506 - Modern India and South Asia **Credits:** 3

Electives Courses with South Asian Content (6 credit hours)

At least two courses must be taken from the approved list of courses including at least 25% South Asian content.

College of Agriculture

- AGEC 615 - Global Agricultural and Economic Development **Credits:** 3
- GRSC 590 - Grain Science Problems **Credits:** 1-3
- GRSC 790 - Grain Science Problem **Credits:** 1-18 (Topic: Agriculture and Food Processing in North India)
- PMC 275 - Introduction to Natural Resource Management **Credits:** 3

College of Architecture

- IARC 406 - Problems in IARC **Credits:** 1-18 (Topic: Indian Art, Architecture and Culture)

College of Arts and Sciences

- ANTH 515 - Creativity and Culture: The Anthropology of Art **Credits:** 3
- ENGL 710 - Studies in a Literary Genre **Credits:** 3 (Topic: Childhood in India)
- GWSS 480 - Seminar in Gender, Environment and Justice **Credits:** 3
- GWSS 500 - Topics in Gender, Women, and Sexuality Studies **Credits:** 1-3 (Topic: Love and Sex in India)
- SOCIO 633 - Gender, Power, and Development **Credits:** 3

College of Business Administration

- MANGT 366 - Information Systems and Business Analytics **Credits:** 3
- MANGT 220 - Principles of Management **Credits:** 3
- MANGT 497 - Topics in Management **Credits:** 1-3 (Topic: Social Entrepreneurship)
- MANGT 531 - Human Resources Management **Credits:** 3
- MKTG 496 - Special Topics in Marketing **Credits:** 3 (Topic: Emerging Markets: Focus on India)

College of Education

- EDSP 795 - Problems in Special Education **Credits:** 1-18 (Topic: Service Learning in Developing Countries)
- LEAD 502 - Independent Study in Leadership Studies **Credits:** 0-3 (Topic: Social Entrepreneurship)

College of Engineering

- BAE 620 - Topics in Biological Systems Engineering **Credits:** 1-18

College of Health and Human Sciences

- FASH 340 - Fashion Aesthetics **Credits:** 3

College of Technology and Aviation - Polytechnic Campus

- BUS 315 - Supervisory Management **Credits:** 3
- MET 462 - Senior Design Project I **Credits:** 1
- MET 464 - Senior Design Project II **Credits:** 2

Study Abroad

Study abroad is strongly encouraged but, not required. Transfer credit may fulfill language, social sciences/humanities and/or elective requirements as approved by the Program Director in consultation with the student's academic advisor.

Supporting Activities

South Asian Studies website lays out rationale of the program.

Spanish Minor

Develop intermediate level language skills in Spanish as well as an interdisciplinary foundation in the culture of the Spanish-speaking world.

Program requirements

The following are the Spanish minor requirements:

- 18 credit hours of Spanish courses at the 200-level or above, must include a literature course.
- You must receive a "C" or better, or a minimum GPA of 2.5, in all courses counted toward a minor.
- Classes for the minor cannot be taken Pass/Fail. Retroactive Credit from KSU does apply toward the minor.
- We strongly encourage students to Study Abroad. While we will accept appropriate coursework taken toward the minor, no more than 6 credit hours of transfer courses may be used for the minor.

Spanish Language & Culture Courses (18 credit hours)

18 credit hours in Spanish at and above the 200-level, including:

SPAN 550 - Introduction to Hispanic Readings and Media

- SPAN 201 - Spanish III **Credits:** 3
- SPAN 301 - Spanish IV **Credits:** 3
  Or
- SPAN 302 - Spanish IV for Heritage Speakers **Credits:** 3
- SPAN 398 - Intermediate Studies in Spanish **Credits:** 1-18
- SPAN 410 - Spanish Communication through Pop Culture **Credits:** 3
  Or
- SPAN 411 - Spanish for heritage speakers: Composition and grammar **Credits:** 3
- SPAN 420 - Spanish Conversation **Credits:** 3

- SPAN 530 - Professional Spanish: Business **Credits:** 3
- SPAN 531 - Professional Spanish: Health and Human Services **Credits:** 3
- SPAN 550 - Introduction to Hispanic Readings and Media **Credits:** 3
- SPAN 560 - Cultures of the Spanish-speaking World: U.S. Latinx **Credits:** 3
- SPAN 565 - Cultures of the Spanish-speaking World: Spain **Credits:** 3
- SPAN 566 - Cultures of the Spanish-speaking World: Spanish America **Credits:** 3
- SPAN 567 - Cultures of the Spanish-speaking World: Transatlantic **Credits:** 3
- SPAN 568 - Literature of Spanish America **Credits:** 3
- SPAN 569 - Special Studies in Spanish **Credits:** 1-18
- SPAN 575 - Introduction to Spanish Translation **Credits:** 3
- SPAN 580 - Introduction to Spanish Linguistics **Credits:** 3
- SPAN 670 - Advanced Spanish Grammar **Credits:** 3
- SPAN 730 - Medieval Spanish Literature **Credits:** 3
- SPAN 731 - Early Modern Literature of Spain **Credits:** 3
- SPAN 732 - Cervantes **Credits:** 3
- SPAN 734 - 18th - and 19th - Century Spain **Credits:** 3
- SPAN 735 - 20th- and 21st-Century Spain **Credits:** 3
- SPAN 736 - Spanish Poetry **Credits:** 3
- SPAN 750 - Spanish American Narrative **Credits:** 3
- SPAN 751 - Spanish-American Narrative: Early Twentieth Century **Credits:** 3
- SPAN 752 - Spanish American Topics **Credits:** 3
- SPAN 755 - Spanish American Performance Studies **Credits:** 3
- SPAN 757 - Spanish-American Poetry **Credits:** 3
- SPAN 760 - U.S. Latinx Literature and Culture in Spanish **Credits:** 3
- SPAN 768 - Hispanic Cinema **Credits:** 3
- SPAN 771 - Advanced Spanish Translation **Credits:** 3
- SPAN 772 - Spain Today **Credits:** 3
- SPAN 773 - Spanish America Today **Credits:** 3
- SPAN 774 - Topics in Spanish Translation/Interpreting **Credits:** 3
- SPAN 776 - History of the Spanish Language **Credits:** 3
- SPAN 777 - Hispanic Cultures and Literatures: Teaching Strategies **Credits:** 3
- SPAN 779 - Selected Topics in Spanish **Credits:** 3

Total credit hours: 18

Spanish Translation Minor

Minor Program Requirements (18 credit hours)

Professional writing in English elective (3 credit hours)

Students complete one of the following courses:

- ENGL 302 - Technical Writing **Credits:** 3
- ENGL 400 - Advanced Expository Writing for Prospective Teachers **Credits:** 3

- ENGL 415 - Written Communication for Engineers **Credits:** 3
- ENGL 417 - Written Communication for the Workplace **Credits:** 3
- ENGL 510 - Introduction to Professional Writing **Credits:** 3
- ENGL 516 - Written Communication for the Sciences **Credits:** 3
- MC 200 - News Reporting and Writing Across Platforms **Credits:** 3
- MC 426 - Magazine Writing, Editing and Design **Credits:** 3

Approaches to language elective (3 credit hours)

Students must complete one of the following courses:

- ANTH 525 - Language and Culture **Credits:** 3
- ANTH 720 - Field Methods in Linguistics **Credits:** 3
- COMM 480 - Intercultural Communication **Credits:** 3
- ENGL 430 - The Structure of English **Credits:** 3
- ENGL 435 - Linguistics for Teachers of English **Credits:** 3
- ENGL 490 - Development of the English Language **Credits:** 3
- SPAN 580 - Introduction to Spanish Linguistics **Credits:** 3
- SPAN 670 - Advanced Spanish Grammar **Credits:** 3
- SPAN 776 - History of the Spanish Language **Credits:** 3

Professional Spanish (3 credit hours)

Students must complete one of the following courses:

- SPAN 530 - Professional Spanish: Business **Credits:** 3
- SPAN 531 - Professional Spanish: Health and Human Services **Credits:** 3

Core Courses (9 credit hours)

Students complete all of the following courses:

- SPAN 575 - Introduction to Spanish Translation **Credits:** 3
- SPAN 771 - Advanced Spanish Translation **Credits:** 3
- SPAN 774 - Topics in Spanish Translation/Interpreting **Credits:** 3

Total credit hours: (18)

The School of Music, Theatre, and Dance was given school status in June of 2012 by the Kansas Board of Regents. The school has three associate directors as follows:
Kurt Gartner, Associate Director - Music
David Mackay, Associate Director - Theatre
Kate Digby, Associate Director – Dance
Benjamin Stark, Associate Director – Production and Facilities

Music Program

The Music Program is a member, with institutional accreditation, of the National Association of Schools of Music.

Curricula in music education with emphases in choral and instrumental and music performance with emphases in music theatre, composition, voice, piano, organ, strings, woodwind, percussion, and brass instruments are offered. Courses in music are available to any student enrolled in the university, subject to prerequisites listed in the course descriptions. Courses in

performance do not require prerequisites for those not majoring in music; however, availability of instructor and fees for non-majors are factors in securing performance instruction. This elective credit cannot be used later toward a music degree unless it meets the requirements of that course as it applies to those majoring in music. No more than two credits a semester will be granted for performance as an elective.

Entrance requirements

New and transfer students

Preliminary placement examinations in piano, the performance major, and theory must be taken by all students majoring in music regardless of the curriculum selected. Students will be advised as to the most appropriate field of concentration and the proper level of study as a result of examination.

Divisional hearings will determine the number of upper-level hours that will be accepted for transfer students.

Students who, on the basis of auditions in their major performance area, have been determined by the faculty to perform at a level lower than that acceptable for MUSIC 255 will not be allowed to declare a major in music. They will be required to enroll in MUSIC 251 Pre-Applied Study until such time that their proficiency level is acceptable for MUSIC 255.

If, on the basis of audition, a music major with voice as the primary applied study is determined by the faculty to lack sufficient proficiency to be a member of a major performing ensemble that student must enroll in Voice Class. A maximum of two semesters of Voice Class may be substituted for the major ensemble requirements.

General regulations for all performance areas

As a part of performance requirements, studio and divisional seminars and general student recitals are held regularly. Each student is required to perform at least once a semester either in a studio seminar or in a student recital. All private study for credit will culminate in a jury exam each semester.

Each division faculty maintains the right to advise students to discontinue performance study in that particular curriculum if the students have not demonstrated the necessary degree of progress.

For specific divisional requirements, each student should request a copy of detailed policies.

Participation in a major ensemble for a minimum of one credit hour in the student's major performance area selected with the advice of a departmental advisor is required each semester. Piano and organ majors may elect either instrumental or choral major ensembles to satisfy requirements.

As an extension of the study of an instrument or voice, attendance at studio and divisional seminars is required each semester.

Required recital attendance

Attendance at a minimum of 9 recitals or concerts per semester for seven semesters is required for graduation. Transfer students' records will be evaluated.

Proficiencies

Music majors will enroll in MUSIC 322 Aural Skills Proficiency concurrently with MUSIC 360 and MUSIC 361. Credit for MUSIC 322 is earned by passing the aural proficiency exam. Successful completion of MUSIC 322 is a prerequisite for enrollment in MUSIC 517, 518, 525, and 532. (Exception for placement of transfer students.)

MUSIC 060 Piano Proficiency requirements must be met prior to graduation.

Fees for private music lessons

University students enrolled in the bachelor of music, bachelor music education, bachelor of arts in music degrees or who are minoring in music, are exempt from fees for private music lessons and music practice facilities.

There is an additional fee for students not majoring or minoring in one of these music curricula who take private music instruction (pending availability of staff and facilities). Contact the School of Music, Theatre, and Dance for current amounts.

Theatre Program

The Theatre Program is accredited by the National Association of Schools of Theatre (NAST). There are no admittance requirements into the threatre program beyond those for admittance into Kansas State University.

Bachelor of Arts

Music (BA)

The bachelor of arts with a major in music emphasizes the liberal arts tradition. The program provides enough flexibility in electives for students to meet other preprofessional requirements, and it thus may appeal to students whose professional goals do not terminate with music. The major program of music leading to the bachelor of arts degree may be elected with an emphasis in the areas of music literature, composition, or performance.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 Credit Hour

MUSIC 101 - A New Rhythm: Cultivating a Healthy Life in College and Beyond **Credits:** 1

Outside Concentration: 9 Credit Hours

Outside credential of at least 9 credit hours (May be from any unit, **except Music, Theatre, and Dance, etc,** OR from approved interdisciplinary credentials within the unit).

OR

Any 9 credit hours in a single prefix (except for MUSIC, THTRE, and DANCE) (all must be 300 level or above OR at any level with a prereq in the same prefix; up to 5 credit hours may overlap with program).

OR

Any 9 credit hours in a microcredential (up to 5 credit hours may overlap with program).

Overlays: [9] Credit Hours

May be fulfilled in K-State Core, Outside Concentration, electives, or the Program itself.

BA Arts, Humanities, and Social Sciences Restricted Electives: 6 Credit Hours

3 credit hours in each of the following, with at least 3 credit hours at 300 level or above OR at any level with a prerequisite in the same discipline.

One course in Humanities Credits: 3

One Non-Quantitative Social Science; Any Social course that does NOT have a MATH or STAT prereq Credits: 3

BA Natural and Quantitative Restricted Electives: 6 Credit Hours

One course in each of the following, with at least 3 credit hours total at 300 level or above OR at any level with a prerequisite in the same discipline.

Natural Science or Quantitative course Credits: 3

Natural Science, or Quantitative, or Social Science with MATH or STAT Credits: 3

BA Second Language Requirement: 3-16 Credit Hours

Choose one of the following:

Option 1: 3-14 Credit Hours

At least 3 credit hours of coursework culminating with level 4 or above (i.e., Frech 4, German 4, Spanish 4, etc.) or the equivalent of level 4 in a second language sequence.

Option 2: 16 Credit Hours

At least 16 credit hours of coursework in which student takes the first and second levels of two different languages, selected from any language offered within the department of Modern Languages, ASL, or from any other second language transferred in at an equivalent level.

Option 3: 3 Credit Hours

Students whose first language is not English may satisfy this requirement by meeting the English Proficiency Admission Standards for K-State or by completing the appropriate level of exit courses with the English Language Program.

Free Electives: 0-8 Credit Hours

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

Theatre (BA)

The mission of the theatre program is to develop human potential, expand knowledge, and enrich cultural understanding and expression through high quality undergraduate and graduate education. Through scholarship/research, service, and production, the theatre program seeks to train future artists, scholars and teachers of theatre, and to inform the non-major, the university at large, and the surrounding community of the value of theatre to individuals and society.

The program offers both broad training in the various sub-disciplines of Theatre Art (scenic, costume, lighting and sound design, acting, directing, stage management, theatre history and literature, drama therapy and dance), as well as the possibility of specialization within a single area. Students are presented with the opportunity to engage in both a greater theoretical understanding of theatre, and are also given systematic training in the various practical skills of production and performance. This structure puts into place the basis for continued advanced academic training, and/or participation in the professional theatre. KSU Theatre is the only program in Kansas accredited by the National Association of Schools of Theatre.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 credit hour

Bachelor of Science

Theatre (BS)

The mission of the theatre program is to develop human potential, expand knowledge, and enrich cultural understanding and expression through high quality undergraduate and graduate education. Through scholarship/research, service, and production, the theatre program seeks to train future artists, scholars and teachers of theatre, and to inform the non-major, the university at large, and the surrounding community of the value of theatre to individuals and society.

The program offers both broad training in the various sub-disciplines of Theatre Art (scenic, costume, lighting and sound design, acting, directing, stage management, theatre history and literature, drama therapy and dance), as well as the possibility of specialization within a single area. Students are presented with the opportunity to engage in both a greater theoretical understanding of theatre, and are also given systematic training in the various practical skills of production and performance. This structure puts into place the basis for continued advanced academic training, and/or participation in the professional theatre. KSU Theatre is the only program in Kansas accredited by the National Association of Schools of Theatre.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Theatre Electives: 6 Credit Hours

Choose any Theatre course *Excluding* THTRE 211, THTRE 566, and THTRE 710.

Secondary Major

Dance and the Human Experience Secondary Major

The Secondary Major in *Dance and the Human Experience* prioritizes embodied knowledge as an essential means of developing insight, creativity and awareness for collective problem solving rooted in mutual interdependence. A commitment to rigorous physical practice and a thorough foundation in movement analysis, theory, and pedagogy, is coupled with diverse electives in dance and fields enhanced by the study of dance. Culminating capstone courses provide students the opportunity to integrate their learning in dance and their primary major in a research, pedagogical, or choreographic project.

Admission Criteria

Any student admitted to Kansas State University who wishes to declare a Secondary Major in Dance and the Human Experience will be accepted into the program.

Interdisciplinary Intro Course: (3 credit hours)

DANCE 205 - Dance as an Art Form **Credits:** 3

Creative & Pedagogical Foundation: (6 credit hours)

DANCE 215 - Improvisational Structures **Credits:** 2-3
DANCE 225 - Rhythmic Notation for Dance **Credits:** 1
And one of the following courses
DANCE 395 - Dance Composition I **Credits:** 3
DANCE 605 - Movement: Fundamentals, Analysis, and Observation **Credits:** 3
DANCE 505 - Methods and Materials of Teaching Dance **Credits:** 2
Students who choose DANCE 505 for their Core Elective will be required to take an additional credit of DANCE coursework from among any of the DANCE courses, including but not limited to DANCE 502, DANCE 503, DANCE 504, and DANCE 599 to reach the total of 24 credits. **Credits / Units:** 1

Dance Production (1.5 credit hours)

DANCE 502 – 3 semesters. Students must perform in a formal concert for three (3) semesters by enrolling in DANCE 502 for at least .5 credits each semester.

DANCE 502 - Performance Production **Credits:** 0-1

Dance Electives: (6 credit hours)

Six (6) credits, including at least one Level III course completed with a grade of "B" or above, chosen from among the following electives:

DANCE 240 - West African Styles of Social Dance and Music **Credits:** 2

THTRE 269 - Fundamentals of Technical Production **Credits:** 3
THTRE 369 - Fundamentals of Theatrical Design **Credits:** 3
THTRE 560 - Advanced Stage Movement **Credits:** 3

Note: Courses not on the electives list may be approved as part of the student's program of study on a case-by-case basis by the student's advisor and/or the Dance Program Director.

Capstone: (3 credit hours)

DANCE 509 - CAPSTONE SEMINAR **Credits:** 1
DANCE 510 - CAPSTONE PROJECT **Credits:** 2

Total Hours Required: 25.5

Undergraduate Certificate

Dance Performance Undergraduate Certificate

The Dance Performance Certificate provides an opportunity for further specialization and depth in dance studies for students who have completed, or are on track to complete, the secondary major in Dance and the Human Experience. Students must achieve a grade of "B" or higher in their dance technique courses to obtain the certificate.

Technique Courses: (6 credit hours)

Dance Performance Certificate students must take three additional dance technique courses beyond those completed for the Secondary Major in Dance and the Human Experience, from among those listed below, and must achieve a minimum grade of "B" in each.

DANCE 110 - Breathe, Move, Be **Credits:** 3
DANCE 115 - Yoga for Restoration **Credits:** 3
DANCE 120 - Contemporary Dance I **Credits:** 2-3
DANCE 165 - Ballet I **Credits:** 2-3
DANCE 171 - Jazz Dance I **Credits:** 2-3
DANCE 181 - Tap I **Credits:** 2-3
DANCE 240 - West African Styles of Social Dance and Music **Credits:** 2
DANCE 280 - Musical Theatre Dance **Credits:** 2-3
DANCE 323 - Contemporary Dance II **Credits:** 2
DANCE 324 - Contemporary Dance III **Credits:** 2
DANCE 325 - Ballet II **Credits:** 2
DANCE 326 - Ballet III **Credits:** 2
DANCE 371 - Jazz Dance II **Credits:** 2
DANCE 372 - Jazz Dance III **Credits:** 2
DANCE 381 - Tap II **Credits:** 2
DANCE 382 - Tap III **Credits:** 2

Electives (3 credit hours)

Choose one of the following core electives:

DANCE 395 - Dance Composition I **Credits:** 3
DANCE 605 - Movement: Fundamentals, Analysis, and Observation **Credits:** 3

DANCE 505 - Methods and Materials of Teaching Dance **Credits:** 2

* Students who choose Dance 505 for their core elective will need to take any additional credit of any DANCE course to meet the 12 credit minimum (this may be achieved by taking a 3-credit course to fulfill one of the technique requirements, by taking an additional semester of Dance 502, 503, or 504, or through an Indepdendent Study / Dance 599) **Credits / Units:** 1

Performance Ensembles (3 credit hours)

Dance Performance Certificate students must take three semesters of a performance ensemble, beyond those completed for the Secondary Major in Dance and the Human Experience, from among the following courses:

DANCE 502 - Performance Production **Credits:** 0-1
DANCE 503 - K-State Tap Dance Ensemble **Credits:** 0-1
DANCE 504 - Contemporary Dance Ensemble **Credits:** 0-1

Students must enroll in a minimum of 3 credit hours from among Dance 502, Dance 503, and Dance 504 to complete this requirement.

Total credit hours: 12

Historical Performance Practice Undergraduate Certificate

A course of study for K-State students with foundational instruction in historical performance practices (Middle Ages through the 18th Century) with practical training in stylistic differences, ensemble performance, reading early notation, and research.

Required Courses: 2 credit hours

Students will complete a two (2) credit semester project through Special Studies in Music (MUSIC599), such as a recital or research project related to Historical Performance Practice.

MUSIC 599 - Special Studies in Music **Credits:** 1-3

Ensemble Performance: 5 credit hours

Students are expected to take five (5) credits from two or more early-music ensembles, selected from Collegium Musicum, Madrigal & Motet Ensemble, and/or Recorder Ensemble.

MUSIC 119 - Madrigal and Motet Ensemble **Credits:** 0-1
MUSIC 120 - Recorder Ensemble **Credits:** 0-1
MUSIC 490 - Collegium Musicum **Credits:** 0-1

Elective Elements: 5 credit hours

Students may choose any five (5) credits from the following courses

MUSIC 150 - History of Musical Instruments **Credits:** 2-3
MUSIC 220 - Topics in Music **Credits:** 1-3
MUSIC 724 - 18th Century Counterpoint **Credits:** 2
MUSIC 727 - Introduction to Historical Performance Practice **Credits:** 3

Total Hours Required: 12

Music Business Undergraduate Certificate

A supplemental offering for undergraduate students to better prepare them for the music industry, as it is one of the fastest growing in the United States. Students who seek career opportunities beyond performing and teaching careers and in music marketing and management can learn how to monetize their skills while earning a certificate. Philosophy

Bruce Glymour, Head

201 Dickens Hall
785-532-6758
Fax: 785-532-3522
E-mail: philosophy@k-state.edu
www.k-state.edu/philos

Philosophy is the study of the intellectual foundations of virtually every area of human thought and endeavor. Over the centuries philosophers have examined, for example, the nature and justification of moral values, religious and scientific explanations of the world, the rationality of social institutions, and the nature of reasoning and argument.

The program in philosophy gives students an understanding of traditional philosophical subjects such as these. It also helps students develop critical habits of thinking and skill in understanding complex issues. Consequently, philosophy is an appropriate subject around which to organize a general education for any purpose. It is especially useful for those considering careers oriented towards policy where values and science intersect (for example law, politics, public policy and ministry). Philosophy also provides an extraordinarily effective background for those who intend to pursue postgraduate professional studies, as for example in law, business and medicine.

The Department of Philosophy offers a variety of options within the major program to provide flexibility, and also offers a minor and a certificate in socially responsible information science.

There are seven degree options for the major:

- standard philosophy
- philosophy/pre-law
- philosophy/pre-business
- philosophy/pre-ministry
- philosophy/interdisciplinary
- philosophy/pre-graduate school
- philosophy/pre-med

Bachelor of Arts

Philosophy - Pre-Business (BA)

The program in philosophy gives students an understanding of traditional philosophical subjects such as the nature and justification of moral values, religious and scientific explanations of the world, the rationality of social institutions, and the nature of reasoning and argument.

Pre-Business Option: The pre-business option is for students who plan to do graduate work leading to a master's in business administration. This program has been developed in accordance with the results of surveys in professional business journals that rate this type of program as an excellent preparation for careers in business leadership.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 Credit Hour

Outside Concentration: 9 Credit Hours

Outside credential of at least 9 credit hours (May be from any unit, except Philosophy OR from approved interdisciplinary credentials within the unit).

OR

Any 9 credit hours in a single prefix (except for PHILO) (all must be 300 level or above OR at any level with a prereq in the same prefix; up to 5 credit hours may overlap with program).

OR

Any 9 credit hours in a microcredential (up to 5 credit hours may overlap with program).

Overlays: [9] Credit Hours

May be fulfilled in K-State Core, Outside Concentration, electives, or the Program itself.

Ethical Reasoning Overlay **Credits:** [3]
Global Perspectives Overlay **Credits:** [3]
US Multicultural Overlay **Credits:** [3]

Programs

Math Requirement

If not met through K-State Core requirements, MATH 160 is required.

KSC-030
MATH 160 - Introduction to Contemporary Mathematics **Credits:** 3

Philosophy Common Requirements: 15 Credit Hours

PHILO 305 - Introduction to Decision Theory **Credits:** 3
PHILO 320 - Symbolic Logic I **Credits:** 3
PHILO 330 - Moral Philosophy **Credits:** 3
PHILO 335 - Introduction to Social and Political Philosophy **Credits:** 3
PHILO 346 - Grasping Reality: The Art of Analysis **Credits:** 3

Philosophy Pre-Business Option Requirements: 3 Credit Hours

PHILO 390 - Business Ethics **Credits:** 3

Philosophy Elective Requirements: 18 Credit Hours

NOTE: If a student is double-majoring in philosophy and any other major, up to 12 credits from the other major may be substituted for philosophy electives. In addtion, one philosophy elective must be replaced with PHILO 680 , Independent Study, wherein the student focuses on topics common to the two majors.

PHILO 100+ elective - 3 credit hours

PHILO 300+ elective - 3 credit hours

PHILO 300+ elective - 3 credit hours

PHILO 500+ elective - 3 credit hours

PHILO 500+ elective - 3 credit hours

PHILO 500+ elective - 3 credit hours

BA Arts, Humanities, and Social Sciences Requirement: 9 Credit Hours

3 credit hours in each of the following, with at least 6 credit hours at 300 level or above OR at any level with a prerequisite in the same discipline.

One course in Humanities Credits: 3

Any course or combination of courses in Fine Arts Credits: 3

One Non-Quantitative Social Science; Any Social course that does NOT have a MATH or STAT prereq Credits: 3

BA Natural and Quantitative Requirement: 6 Credit Hours

One course in each of the following, with at least 3 credit hours total at 300 level or above OR at any level with a prerequisite in the same discipline.

Natural Science or Quantitative course Credits: 3

Natural Science, or Quantitative, or Social Science with MATH or STAT Credits: 3

BA Second Language Requirement: 14 Credit Hours

Choose one of the following:

Option 1: 3-14 Credit Hours

At least 3 credit hours of coursework culminating with level 4 or above (i.e., French 4, German 4, Spanish 4, etc.) or the equivalent of level 4 in a second language sequence.

Option 2: 16 Credit Hours

At least 16 credit hours of coursework in which student takes the first and second levels of two different languages, selected from any language offered within the department of Modern Languages, ASL, or from any other second language transferred in at an equivalent level.

Option 3: 3 Credit Hours

Students whose first language is not English may satisfy this requirement by meeting the English Proficiency Admission Standards for K-State or by completing the appropriate level of exit courses with the English Language Program.

Free Electives: 14 Credit Hours

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

Philosophy - Pre-Law (BA)

The program in philosophy gives students an understanding of traditional philosophical subjects such as the nature and justification of moral values, religious and scientific explanations of the world, the rationality of social institutions, and the nature of reasoning and argument.

Pre-Law Option:

While no one major is given preference by law school admission boards, law schools recognize the value of philosophy for refining skills in expression, comprehension, and critical thinking. According to the *Pre-Law Handbook,* "the free and spirited consideration of philosophical questions is almost the model for legal training."

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

Free Electives: 14 Credit Hours

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

Philosophy - Pre-Medicine (BA)

The program in philosophy gives students an understanding of traditional philosophical subjects such as the nature and justification of moral values, religious and scientific explanations of the world, the rationality of social institutions, and the nature of reasoning and argument.

Pre-Medicine Option: While no one major is given preference by medical schools and related post-graduate programs, their admission committees recognize philosophy as a valuable primary or secondary major. In fact, surveys indicate that nationally, philosophy graduates have some of the highest acceptance rates at medical schools. Students in this program will be advised to supplement their education with an important science component.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. Philosophy - Pre-Ministry (BA)

The program in philosophy gives students an understanding of traditional philosophical subjects such as the nature and justification of moral values, religious and scientific explanations of the world, the rationality of social institutions, and the nature of reasoning and argument.

Pre-Ministry Option: This is a nonsectarian program designed for students who are interested in the religious ministry as a profession. Students will be advised on other courses outside philosophy recommended by most American schools of theology.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. Philosophy - Standard (BA)

The program in philosophy gives students an understanding of traditional philosophical subjects such as the nature and justification of moral values, religious and scientific explanations of the world, the rationality of social institutions, and the nature of reasoning and argument.

Standard Option: This option is for students who are interested in a traditional liberal arts course of study.

Standard Double/Dual Major Option: This option is for students who wish to combine a major in philosophy with a major in another discipline (double or dual major). Each student completing a degree under this option must have a faculty advisor in the Department of Philosophy who supervises the student's program.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. PHILO 500+ elective - 3 credit hours

BA Arts, Humanities, and Social Sciences Restricted Electives: 6 Credit Hours

3 credit hours in each of the following, with at least 3 credit hours at 300 level or above OR at any level with a prerequisite in the same discipline.

Any course or combination of courses in Fine Arts Credits: 3

One Non-Quantitative Social Science; Any Social course that does NOT have a MATH or STAT prereq Credits: 3

BA Natural and Quantitative Restricted Electives: 6 Credit Hours

One course in each of the following, with at least 3 credit hours total at 300 level or above OR at any level with a prerequisite in the same discipline.

Natural Science or Quantitative course Credits: 3

Natural Science, or Quantitative, or Social Science with MATH or STAT Credits: 3

BA Second Language Requirement: 14 Credit Hours

Choose one of the following:

Option 1: 3-14 Credit Hours

At least 3 credit hours of coursework culminating with level 4 or above (i.e., French 4, German 4, Spanish 4, etc.) or the equivalent of level 4 in a second language sequence.

Option 2: 16 Credit Hours

At least 16 credit hours of coursework in which student takes the first and second levels of two different languages, selected from any language offered within the department of Modern Languages, ASL, or from any other second language transferred in at an equivalent level.

Option 3: 3 Credit Hours

Students whose first language is not English may satisfy this requirement by meeting the English Proficiency Admission Standards for K-State or by completing the appropriate level of exit courses with the English Language Program.

Free Electives: 14 Credit Hours

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

Bachelor of Science

Philosophy - Pre-Business (BS)

The program in philosophy gives students an understanding of traditional philosophical subjects such as the nature and justification of moral values, religious and scientific explanations of the world, the rationality of social institutions, and the nature of reasoning and argument.

Pre-Business Option: The pre-business option is for students who plan to do graduate work leading to a master's in business administration. This program has been developed in accordance with the results of surveys in professional business journals that rate this type of program as an excellent preparation for careers in business leadership.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 Credit Hour

Outside Concentration: 9 Credit Hours

Outside credential of at least 9 credit hours (May be from any unit, except Philosophy, OR from approved interdisciplinary credentials within the unit).

OR

Any 9 credit hours in a single prefix (except for PHILO) (all must be 300 level or above OR at any level with a prereq in the same prefix; up to 5 credit hours may overlap with program).

OR

Any 9 credit hour microcredential (up to 5 credit hours may overlap with program).

Overlays: [9] Credit Hours

May be filled in K-State Core, Outside Concentration, electives, or the Program itself.

Ethical Reasoning Overlay, 1 course **Credits**: [3]
Global Perspectives Overlay, 1 course **Credits**: [3]
US Multicultural Overlay, 1 course **Credits**: [3]

Programs

Math Requirement

If not met through K-State Core requirements, MATH 160 is required.

KSC-030
MATH 160 - Introduction to Contemporary Mathematics **Credits:** 3

Philosophy (Philo) Common Requirements: 15 Credit Hours

PHILO 305 - Introduction to Decision Theory **Credits:** 3
PHILO 320 - Symbolic Logic I **Credits:** 3
PHILO 330 - Moral Philosophy **Credits:** 3
PHILO 335 - Introduction to Social and Political Philosophy **Credits:** 3
PHILO 346 - Grasping Reality: The Art of Analysis **Credits:** 3

Philosophy Pre-Business Option Requirements: 3 Credit Hours

PHILO 390 - Business Ethics **Credits:** 3

Philosophy (Philo) Elective Requirements: 18 Credit Hours

Students take one course (3 credits) at the 100 level or above, three courses (9 credits) at the 300 level or above, and three courses (9 credits) at the 500 level or above.

PHILO 100+ elective - 3 credit hours

PHILO 300+ elective - 3 credit hours

PHILO 300+ elective - 3 credit hours

PHILO 500+ elective - 3 credit hours

PHILO 500+ elective - 3 credit hours

PHILO 500+ elective - 3 credit hours

NOTE: If a student is double-majoring in philosophy and any other major, up to 12 credit from the other major may be substituted for philosophy electives. In addtion, one philosophy elective must be replaced with PHILO 680 , Independent Study, wherein the student focuses on topics common to the two majors.

BS Natural and Quantitative Restricted: 12-15 Credit Hours

One course in each of the following, with at least two courses at the 300 level or above OR at any level with a prerequisite in the same discipline.

Natural Science course Credits: 3-5

Quantitative course Credits: 3-4

Natural Science, or Quantitative, or Social Science w/MATH or STAT prereq Credits: 3

Natural Science, or Quantitative, or Social Science w/MATH or STAT prereq Credits: 3

BS Arts, Humanities, and Social Sciences Restricted Electives: 3 Credit Hours

3 credit hours in each of the following, at any level:

Non-Quantitative Social Science: Any social science course that does NOT have a MATH or STAT prereq Credits: 3

Free Electives: 25

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

Philosophy - Pre-Law (BS)

The program in philosophy gives students an understanding of traditional philosophical subjects such as the nature and justification of moral values, religious and scientific explanations of the world, the rationality of social institutions, and the nature of reasoning and argument.

Pre-Law Option: While no one major is given preference by law school admission boards, law schools recognize the value of philosophy for refining skills in expression, comprehension, and critical thinking. According to the *Pre-Law Handbook,* "the free and spirited consideration of philosophical questions is almost the model for legal training."

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 Credit Hour

Outside Concentration: 9 Credit Hours

Outside credential of at least 9 credit hours (May be from any unit, except Philosophy, OR from approved interdisciplinary credentials within the unit).

OR

Any 9 credit hours in a single prefix (except for PHILO) (all must be 300 level or above OR at any level with a prereq in the same prefix; up to 5 credit hours may overlap with program).

OR

Any 9 credit hour microcredential (up to 5 credit hours may overlap with program).

Overlays: [9] Credit Hours

May be filled in K-State Core, Outside Concentration, electives, or the Program itself.

Ethical Reasoning Overlay, 1 course **Credits**: [3]

BS Natural and Quantitative Restricted: 12-15 Credit Hours

One course in each of the following, with at least two courses at the 300 level or above OR at any level with a prerequisite in the same discipline.

Natural Science course Credits: 3-5

Quantitative course Credits: 3-4

Natural Science, or Quantitative, or Social Science w/MATH or STAT prereq Credits: 3

Natural Science, or Quantitative, or Social Science w/MATH or STAT prereq Credits: 3

BS Social Sciences Restricted Electives: 3 Credit Hours

3 credit hours in each of the following, at any level:

Non-Quantitative Social Science: Any social science course that does NOT have a MATH or STAT prereq Credits: 3

Free Electives: 25

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

Philosophy - Pre-Medicine (BS)

The program in philosophy gives students an understanding of traditional philosophical subjects such as the nature and justification of moral values, religious and scientific explanations of the world, the rationality of social institutions, and the nature of reasoning and argument.

Pre-Medicine Option: While no one major is given preference by medical schools and related post-graduate programs, their admission committees recognize philosophy as a valuable primary or secondary major. In fact, surveys indicate that nationally, philosophy graduates have some of the highest acceptance rates at medical schools. Students in this program will be advised to supplement their education with an important science component.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 Credit Hour

Physics

Timothy A. Bolton, Head
James T. Laverty, Director of Physics Majors Programs
Barbara Fennell, Director of Preprofessional Programs

116 Cardwell Hall
785-532-6786
Fax: 785-532-6806
E-mail: office@phys.k-state.edu
www.phys.k-state.edu

Physics is the most fundamental of all sciences. It is the science of matter, energy and the interactions between them. Many of the problems that will need to be solved in the coming decades will occur on the interface between physics and related areas. Understanding and utilizing new energy technologies , developing new materials for the next generation of computers and improving methods of medical imaging–all of these and more will require a thorough knowledge of physics. Across the nation over the past decade, roughly 95 percent of graduates with bachelor's degrees in physics found employment or enrolled in graduate school immediately following graduation.

A career in physics is rewarding and satisfying for people who enjoy solving problems by looking at the underlying basic principles. Physicists are trained to formulate their understanding of a problem or phenomenon in precise terms and to communicate these ideas to others. These skills are becoming especially valuable today as our nation and world depend more on science and technology. After graduation, many students with a keen interest in research join graduate programs in physics. These typically provide a stipend and tuition waiver. This career path eventually leads to conducting basic research in industrial, university and national laboratories.

Students that choose not to attend physics graduate school can also be well poised to enter complementary fields. Many physics majors take additional courses in areas such as math, computer science, chemistry or engineering – perhaps even completing a minor or additional degree. They enter jobs or graduate programs in these fields after graduating. Physics majors may also obtain their secondary physics teaching license during their time at K-State.

We also encourage students with diverse interests to add on qualifications that can help transition that interest into a career. A minor or double major in entrepreneurship may be of interest to a student who plans to enter management positions or pursue their own business enterprises. Physics also partners with the prelaw program to prepare students who wish to eventually practice

intellectual property law. Students can also pursue interdisciplinary plans that encourage careers in science journalism or technical writing.

We offer three different physics bachelor's degrees. The Bachelor of Science in physics is the best preparation for advanced degrees in physics, but the Bachelor of Science in general physics and the Bachelor of Arts in physics offer a broad foundation in physics while requiring fewer physics courses, leaving room for other areas. These programs of study have been designed to provide a firm basic foundation in physics and mathematics. The program includes formal lecture courses, interactive and engaging studio courses that integrate laboratory demonstrations and problem solving, computer-based learning labs, and regular seminars on our research projects. A minor requiring 17-19 credit hours is also available.

Undergraduate research

All students with a major or minor in physics can and should participate in the research activities of the department. The involvement in research is arranged on an individual basis and may begin as early as the first semester. Students who participate in research may receive either credit or a stipend. Research areas available to undergraduates are atomic, molecular, and optical physics, condensed, soft and biological matter physics, cosmology, high energy physics, and physics education.

Bachelor of Arts

Physics (BA)

Physics is the most fundamental of all sciences. It is the science of matter, energy and the interactions between them. Many of the problems that will need to be solved in the coming decades will occur on the interface between physics and related areas. Understanding and utilizing new energy technologies , developing new materials for the next generation of computers and improving methods of medical imaging–all of these and more will require a thorough knowledge of physics. Across the nation over the past decade, roughly 95 percent of graduates with bachelor's degrees in physics found employment or enrolled in graduate school immediately following graduation.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: (1 credit hour)

Any A&S College approved graded orientation course will be accepted. See College catalog page for course lists.

PHYS 122 - Physics Today I **Credits:** 1

Outside Concentration: (9 credit hours)

Outside credential of at least 9 credit hours (May be from any unit, except Physics, OR from approved interdisciplinary credentials within the unit).

OR

Any 9 credit hours in a single prefix (except for PHYS) (all must be 300 level or above OR at any level with a prereq in the same prefix; up to 5 credit hours may overlap with program).

OR

Any 9 credit hours in a microcredential (up to 5 credit hours may overlap with program).

Overlays: ([9] credit hours)

May be fulfilled in K-State Core, Outside Concentration, electives, or the Program itself.

Ethical Reasoning Overlay **Credits:** [3]

Global Perspectives Overlay **Credits:** [3]
US Multicultural Overlay **Credits:** [3]

Program

The curriculum for this major assumes students enter college prepared to take Calculus.

Physics Requirements: (38 credit hours)

PHYS 122 - Physics Today I **Credits:** 1
PHYS 123 - Physics Today II **Credits:** 1
PHYS 213 - Engineering Physics I **Credits:** 5
PHYS 214 - Engineering Physics II **Credits:** 5
PHYS 325 - Physics III, Relativity, and Quantum Physics **Credits:** 4
PHYS 506 - Advanced Physics Laboratory **Credits:** 4
PHYS 522 - Mechanics **Credits:** 4
PHYS 532 - Electromagnetic Fields I **Credits:** 4
PHYS 662 - Introduction to Quantum Mechanics **Credits:** 4
PHYS 664 - Thermodynamics and Statistical Physics **Credits:** 3
Choose one course (3 credits) of any PHYS course 600+

Mathematics Requirements: (12 credit hours)

Credit total assumes MATH 220 counted as part of the K-State Core 3

MATH 220 - Analytic Geometry and Calculus I **Credits:** 4
OR
MATH 250 - Mathematical Scholars Calculus 1 **Credits:** 4
MATH 221 - Analytic Geometry and Calculus II **Credits:** 4
OR
MATH 251 - Mathematical Scholars Calculus 2 **Credits:** 4
MATH 222 - Analytic Geometry and Calculus III **Credits:** 4
OR
MATH 350 - Mathematical Scholars Calculus 3 **Credits:** 5
MATH 340 - Elementary Differential Equations **Credits:** 4

BA Arts, Humanities, and Social Sciences Restricted Electives: (12 credit hours)

3 credit hours in each of the following, with at least 6 credit hours at 300 level or above OR at any level with a prerequisite in the same discipline.

One course in Humanities: (3 credit hours)

Any course or combination of courses in Fine Arts: (3 credit hours)

One Non-Quantitative Social Science; Any Social course that does NOT have a MATH or STAT prereq: (3 credit hours)

BA Second Language Requirement: (3-16 credit hours)

Choose one of the following:

Option 1: (3-14 credit hours)

At least 3 credit hours of coursework culminating with level 4 or above (i.e., Frech 4, German 4, Spanish 4, etc.) or the equivalent of level 4 in a second language sequence.

Option 2: (16 credit hours)

At least 16 credit hours of coursework in which student takes the first and second levels of two different languages, selected from any language offered within the department of Modern Languages, ASL, or from any other second language transferred in at an equivalent level.

Option 3: (3 credit hours)

Students whose first language is not English may satisfy this requirement by meeting the English Proficiency Admission Standards for K-State or by completing the appropriate level of exit courses with the English Language Program.

Free Electives: 0-11 credit hours

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

Arts & Sciences common degree requirements for the BS are satisfied by the following:

Natural and Quantitative

- Natural Science: PHYS courses PHYS 122, PHYS 123, PHYS 213, PHYS 214, PHYS 325, PHYS 506, PHYS 522, PHYS 532, PHYS 662, PHYS 664, any PHYS course 600 or above (listed in Physics Requirements)
- Quantitative: MATH courses: MATH 220, MATH 221, MATH 222, MATH 250, MATH 251, MATH 340, MATH 350 (listed in Mathematics Requirements)
- Natural Science, or Quantitative, or Social Science w/MATH or STAT prereq: (3 credit hours) MATH and PHYS courses- MATH 220, MATH 221, MATH 222, MATH 250, MATH 251, MATH 340, MATH 350, PHYS 213, PHYS 214, PHYS 325, PHYS 506, PHYS 522, PHYS 532, PHYS 662, PHYS 664, any PHYS course 600 or above (listed in Physics and/or Mathematics Requirements)
- Natural Science, or Quantitative, or Social Science w/MATH or STAT prereq: (3 credit hours) MATH and PHYS courses- MATH 220, MATH 221, MATH 222, MATH 250, MATH 251, MATH 340, MATH 350, PHYS 213, PHYS 214, PHYS 325, PHYS 506, PHYS 522, PHYS 532, PHYS 662, PHYS 664, any PHYS course 600 or above (listed in Physics and/or Mathematics Requirements)

Bachelor of Science

Physics (BS)

Physics is the most fundamental of all sciences. It is the science of matter, energy and the interactions between them. Many of the problems that will need to be solved in the coming decades will occur on the interface between physics and related areas.

Understanding and utilizing new energy technologies , developing new materials for the next generation of computers and improving methods of medical imaging–all of these and more will require a thorough knowledge of physics. Across the nation over the past decade, roughly 95 percent of graduates with bachelor's degrees in physics found employment or enrolled in graduate school immediately following graduation.

A career in physics is rewarding and satisfying for people who enjoy solving problems by looking at the underlying basic principles. Physicists are trained to formulate their understanding of a problem or phenomenon in precise terms and to communicate these ideas to others. These skills are becoming especially valuable today as our nation and world depend more on science and technology. After graduation, many students with a keen interest in research join graduate programs in physics. These typically provide a stipend and tuition waiver. This career path eventually leads to conducting basic research in industrial, university and national laboratories.

Students that choose not to attend physics graduate school can also be well poised to enter complementary fields. Many physics majors take additional courses in areas such as math, computer science, chemistry or engineering – perhaps even completing a minor or additional degree. They enter jobs or graduate programs in these fields after graduating. Physics majors may also obtain their secondary physics teaching license during their time at K-State.

We also encourage students with diverse interests to add on qualifications that can help transition that interest into a career. A minor or double major in entrepreneurship may be of interest to a student who plans to enter management positions or pursue their own business enterprises. Physics also partners with the prelaw program to prepare students who wish to eventually practice intellectual property law. Students can also pursue interdisciplinary plans that encourage careers in science journalism or technical writing.

We offer three different physics bachelor's degrees. The Bachelor of Science in physics is the best preparation for advanced degrees in physics, but the Bachelor of Science in general physics and the Bachelor of Arts in physics offer a broad foundation in physics while requiring fewer physics courses, leaving room for other areas. These programs of study have been designed to provide a firm basic foundation in physics and mathematics. The program includes formal lecture courses, interactive and engaging studio courses that integrate laboratory demonstrations and problem solving, computer-based learning labs, and regular seminars on our research projects. A minor requiring 17-19 credit hours is also available.

Undergraduate research

All students with a major or minor in physics can and should participate in the research activities of the department. The involvement in research is arranged on an individual basis and may begin as early as the first semester. Students who participate in research may receive either credit or a stipend. Research areas available to undergraduates are atomic,molecular, and optical physics, condensed, soft and biological matter physics, cosmology, high energy physics, and physics education.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: (1 credit hour)

Any A&S College approved graded orientation course will be accepted. See College catalog page for course lists.

PHYS 122 - Physics Today I **Credits:** 1

Outside Concentration: (9 credit hours)

Outside credential of at least 9 credit hours (May be from any unit, except Physics, OR from approved interdisciplinary credentials within the unit).

OR

Any 9 credit hours in a single prefix (except for PHYS) (all must be 300 level or above OR at any level with a prereq in the same prefix; up to 5 credit hours may overlap with program).

OR

Any 9 credit hour microcredential (up to 5 credit hours may overlap with program).

Overlays: ([9] credit hours)

May be filled in K-State Core, Outside Concentration, electives, or the Program itself.

Political Science

Nathaniel Birkhead, Head

101D Calvin Hall
785-532-6842

E-mail: polsci@k-state.edu
www.k-state.edu/polsci

Political science is the systematic study of power, governance, and political behavior—from local communities to global institutions. Our program equips students with a deep understanding of political systems, public policy, and civic engagement, while training them to think critically, communicate persuasively, and analyze complex problems with rigor.

Students in the political science major learn to evaluate arguments and evidence, conduct independent research, and interpret data using qualitative and quantitative methods. They explore key issues such as democracy and authoritarianism, justice and inequality, conflict and cooperation, and the role of institutions in shaping social outcomes.

The major fosters skills that are highly transferable and in demand, such as analytical reasoning, clear writing, effective communication, data literacy, and ethical decision-making. Political science graduates are well prepared for careers in government, law, nonprofit and advocacy work, international affairs, business, journalism, education, and research, as well as for graduate or professional study.

Both the BA and BS options offer flexibility for students to tailor their studies to their interests, while also offering five different tracks for students to specialize in a particular area within political science. Students are also encouraged to explore related fields such as economics, history, psychology, and data science to enhance their understanding of political dynamics in a broader context.

Advising and specialized curricula

Advising by faculty members

Advising is undertaken by Kathy Lillich (117A Calvin Hall) and Dr. John Fliter (101A Calvin Hall). For advising appointments or questions please contact by phone at 532-0642.

Primary Texts Certificate

Students can earn a certificate in the study of arts and science through primary texts while fulfilling Political Science and other required credit hours. This program focuses on learning subjects through reading original works instead of textbooks, and courses tend to emphasize communications skills. Contact the director of the certificate, Professor Laurie Johnson, 115 Calvin Hall, lauriej@ksu.edu, http://www.k-state.edu/artsci/primary/

Middle East Studies Minor

The Middle East Studies minor offers students a multidisciplinary exploration of one of the world's most dynamic and strategically important regions. Combining coursework in political science, history, language, philosophy, and more, the program equips students with cultural, linguistic, and analytical tools essential for global citizenship and careers in international affairs. With flexible course options and opportunities for language study and study abroad, this minor complements a wide range of majors. Students can tailor their experience while gaining valuable insight into the politics, history, and cultures of the Middle East. Contract the director of the minor, Professor Sabri Ciftci, ciftci@ksu.edu

International and Area studies

Students interested in the multidisciplinary study of the relations among countries, or in the study of world regions, may wish to pursue a secondary major in international and area studies. For more information, contact the International and Area Studies, 104 Eisenhower Hall.

Internships and community service for credit

Students may gain practical experience and academic credit by participating in internships in city, county, state, national, or international governments and organizations or through K-State's Community Service program. Contact Department Head Nathaniel Birkhead, 101C Calvin Hall. birkhead@ksu.edu.

Study abroad for credit

Opportunities exist for summer, one semester, or a full year of study abroad in many countries. These are coordinated through the Education Abroad Office on campus. Credits earned may be transferred back to K-State in consultation with appropriate departmental faculty. Many programs are exchanges where tuition costs are the same as studying at K-State. Contact the Education Abroad Office, 304 Fairchild Hall.

Bachelor of Arts

Political Science (BA)

The major in political science acquaints students with political aspects of society and encourages them to develop a critical and imaginative perspective on public issues. The program in political science provides the foundation for a liberal education, including the intellectual skills of critical analysis, writing, and discussion. It also emphasizes the importance of continuing involvement in political activity and public affairs. These educational experiences prepare our students for a variety of careers in fields including public service, business, teaching, research, journalism, public relations, and administration.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 Credit Hour

DAS 101 - Discover, Create, and Thrive: Arts and Sciences Orientation **Credits:** 1

Outside Concentration: 9 Credit Hours

Outside credential of at least 9 credit hours (May be from any unit, except **Political Science**, OR from approved interdisciplinary credentials within the unit).

OR

Any 9 credit hours in a single prefix (except for **POLSC)** (all must be 300 level or above OR at any level with a prereq in the same prefix; up to 5 credit hours may overlap with program).

OR

Any 9 credit hours in a microcredential (up to 5 credit hours may overlap with program).

Overlays: [9] Credit Hours

May be fulfilled in K-State Core, Outside Concentration, electives, or the Program itself.

Ethical Reasoning Overlay **Credits:** [3]
Global Perspectives Overlay **Credits:** [3]
US Multicultural Overlay **Credits:** [3]

Programs

Statistics Requirement

If not met through K-State Core requirements, STAT 225 is required.

KSC-030
STAT 225 - Introduction to Statistics **Credits:** 3

Introductory Courses: 9 Credit Hours

Required Introductory Course (3 credits)

POLSC 115 - U.S. Politics **Credits:** 3

Choose two courses (6 credits)

POLSC 135 - Introduction to Comparative Politics **Credits:** 3
POLSC 145 - World Politics **Credits:** 3
POLSC 155 - Introduction to Political Thought **Credits:** 3

Methods Course: 3 Credit Hours

POLSC 400 - Political Inquiry and Analysis **Credits:** 3

Advanced Courses: 12 Credit Hours

To be taken after POLSC 400. Choose four courses (12 credits) at the 500 level or above in two of the following areas: Political Thought, American Government and Politics, International Relations, Comparative Government and Politics.

Major Elective Courses: 12 Credit Hours

Choose four courses (12 credits) of POLSC at any level, except for POLSC 350. Only 3 credit hours are allowed to be readings or problems. Only six credits are allowed to be internship.

BA Arts, Humanities, and Social Sciences Restricted Electives: 6 Credit Hours

3 credit hours in each of the following, with at least 3 credit hours at 300 level or above OR at any level with a prerequisite in the same discipline.

One course in Humanities Credits: 3

Any course or combination of courses in Fine Arts Credits: 3

BA Natural and Quantitative Restricted Electives: 6 Credit Hours

One course in each of the following, with at least 3 credit hours total at 300 level or above OR at any level with a prerequisite in the same discipline.

Natural Science or Quantitative course Credits: 3

Natural Science, or Quantitative, or Social Science with MATH or STAT Credits: 3

BA Second Language Requirement: 3-16 Credit Hours

Choose one of the following:

Option 1: 3-14 Credit Hours

At least 3 credit hours of coursework culminating with level 4 or above (i.e., French 4, German 4, Spanish 4, etc.) or the equivalent of level 4 in a second language sequence.

Option 2: 16 Credit Hours

At least 16 credit hours of coursework in which student takes the first and second levels of two different languages, selected from any language offered within the department of Modern Languages, ASL, or from any other second language transferred in at an equivalent level.

Option 3: 3 Credit Hours

Students whose first language is not English may satisfy this requirement by meeting the English Proficiency Admission Standards for K-State or by completing the appropriate level of exit courses with the English Language Program.

Free Electives: 12-25 Credit Hours

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

A&S Common Degree Requirements are satisfied by upper level Political Science courses, and the BA Restricted Electives in Natural and Quantitative Sciences, Humanties and Fine Arts, and Second Language.

Political Science - Global Politics and Security (BA)

The major in political science acquaints students with political aspects of society and encourages them to develop a critical and imaginative perspective on public issues. The program in political science provides the foundation for a liberal education, including the intellectual skills of critical analysis, writing, and discussion. It also emphasizes the importance of continuing involvement in political activity and public affairs. These educational experiences prepare our students for a variety of careers in fields including public service, business, teaching, research, journalism, public relations, and administration.

The Global Politics and Security offers a special focus in foreign policy, international relations, and global security, is an ideal opportunity for students considering careers in these fields.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

POLSC 735 - Public Organization Theory **Credits:** 3
POLSC 737 - Public Budgeting **Credits:** 3

Major Electives: 6 Credit Hours

Choose two courses (6 credits) from POLSC at any level.

BA Arts, Humanities, and Social Sciences Restricted Electives: 6 Credit Hours

3 credit hours in each of the following, with at least 3 credit hours at 300 level or above OR at any level with a prerequisite in the same discipline.

One course in Humanities Credits: 3

Any course or combination of courses in Fine Arts Credits: 3

BA Natural and Quantitative Restricted Electives: 6 Credit Hours

One course in each of the following, with at least 3 credit hours total at 300 level or above OR at any level with a prerequisite in the same discipline.

Natural Science or Quantitative course Credits: 3

Natural Science, or Quantitative, or Social Science with MATH or STAT Credits: 3

BA Second Language Restricted Electives: 3-16 Credit Hours

Choose one of the following:

Option 1: 3-14 Credit Hours

At least 3 credit hours of coursework culminating with level 4 or above (i.e., French 4, German 4, Spanish 4, etc.) or the equivalent of level 4 in a second language sequence.

Option 2: 16 Credit Hours

At least 16 credit hours of coursework in which student takes the first and second levels of two different languages, selected from any language offered within the department of Modern Languages, ASL, or from any other second language transferred in at an equivalent level.

Option 3: 3 Credit Hours

Students whose first language is not English may satisfy this requirement by meeting the English Proficiency Admission Standards for K-State or by completing the appropriate level of exit courses with the English Language Program.

Free Electives: 12-25 Credit Hours

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

A&S Common Requirements are satisfied by upper level Polotical Science courses, and the BA Restricted Electives in Natural and Quantitative Sciences, Humanties and Fine Arts, and Second Language.

Political Science - Society and Environment (BA)

The major in political science acquaints students with political aspects of society and encourages them to develop a critical and imaginative perspective on public issues. The program in political science provides the foundation for a liberal education, including the intellectual skills of critical analysis, writing, and discussion. It also emphasizes the importance of continuing involvement in political activity and public affairs. These educational experiences prepare our students for a variety of careers in fields including public service, business, teaching, research, journalism, public relations, and administration.

The Society and Environment track is designed for students interested in social and environmental problem solving, agricultural and food-related private business, and non-profit and political advocacy groups.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 Credit Hour

DAS 101 - Discover, Create, and Thrive: Arts and Sciences Orientation **Credits:** 1

Outside Concentration: 9 Credit Hours

Outside credential of at least 9 credit hours (May be from any unit, except **Political Science**, OR from approved interdisciplinary credentials within the unit).

OR

Any 9 credit hours in a single prefix (except for **POLSC**) (all must be 300 level or above OR at any level with a prereq in the same prefix; up to 5 credit hours may overlap with program).

OR

Any 9 credit hours in a microcredential (up to 5 credit hours may overlap with program).

Overlays: [9] Credit Hours

May be fulfilled in K-State Core, Outside Concentration, electives, or the Program itself.

Ethical Reasoning Overlay **Credits:** [3]
Global Perspectives Overlay **Credits:** [3]
US Multicultural Overlay **Credits:** [3]

Program

Statistics Requirement

If not met through K-State Core requirements, STAT 225 is required.

KSC-030
STAT 225 - Introduction to Statistics **Credits:** 3

Introductory Courses: 9 Credit Hours

Required Introductory Course (3 credits)

POLSC 115 - U.S. Politics **Credits:** 3

Choose two courses (6 credits) from the following:

POLSC 135 - Introduction to Comparative Politics **Credits:** 3
POLSC 145 - World Politics **Credits:** 3
POLSC 155 - Introduction to Political Thought **Credits:** 3

Methods Course: 3 Credit Hours

POLSC 400 - Political Inquiry and Analysis **Credits:** 3

Society and Environment Requirements: 6 Credit Hours

Required Society and Environment Courses (6 Credit Hours)

POLSC 377 - Introduction to Public Policy **Credits:** 3
POLSC 250 - Environmental Political Thought: The Future of Food, Air, Water, and Soil **Credits:** 3
OR
POLSC 643 - Global Human Rights **Credits:** 3

Society and Environment Electives (3 Credit Hours)

Choose one of the following:

POLSC 372 - Ideologies: Their Origins and Impact **Credits:** 3
POLSC 545 - The Politics of Developing Nations **Credits:** 3
POLSC 601 - Topics in Political Science **Credits:** 3
POLSC 606 - Gender and Politics **Credits:** 3
POLSC 618 - Urban Politics **Credits:** 3
POLSC 667 - American Political Thought **Credits:** 3

Advanced Courses: 9 Credit Hours

To be taken after POLSC 400. Choose four courses (12 credits) at the 500 level or above in two of the following areas: Political Thought, American Government and Politics, International Relations, Comparative Government and Politics.

Major Elective Courses: 9 Credit Hours

Choose three courses (9 credits) of POLSC at any level, except for POLSC 350. Only 3 credit hours are allowed to be readings or problems. Only six credits are allowed to be internship.

BA Arts, Humanities, and Social Sciences Restricted Electives: 6 Credit Hours

3 credit hours in each of the following, with at least 3 credit hours at 300 level or above OR at any level with a prerequisite in the same discipline.

One course in Humanities Credits: 3

Any course or combination of courses in Fine Arts Credits: 3

BA Natural and Quantitative Restricted Electives: 6 Credit Hours

One course in each of the following, with at least 3 credit hours total at 300 level or above OR at any level with a prerequisite in the same discipline.

Natural Science or Quantitative course Credits: 3

Natural Science, or Quantitative, or Social Science with MATH or STAT Credits: 3

BA Second Language Requirement: 3-16 Credit Hours

Choose one of the following:

Option 1: 3-14 Credit Hours

At least 3 credit hours of coursework culminating with level 4 or above (i.e., French 4, German 4, Spanish 4, etc.) or the equivalent of level 4 in a second language sequence.

Option 2: 16 Credit Hours

At least 16 credit hours of coursework in which student takes the first and second levels of two different languages, selected from any language offered within the department of Modern Languages, ASL, or from any other second language transferred in at an equivalent level.

Option 3: 3 Credit Hours

Students whose first language is not English may satisfy this requirement by meeting the English Proficiency Admission Standards for K-State or by completing the appropriate level of exit courses with the English Language Program.

Free Electives: 12-25 Credit Hours

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

A&S Common Degree Requirements are satisfied by upper level Political Science courses, and the BA Restricted Electives in Natural and Quantitative Sciences, Humanties and Fine Arts, and Second Language.

POLSC 400 - Political Inquiry and Analysis **Credits:** 3

Public Service Requirements:

Required Public Service Courses (6 credits)

Both courses are required.

POLSC 307 - Introduction to Public Administration **Credits:** 3
POLSC 377 - Introduction to Public Policy **Credits:** 3

Public Service Electives (3 credits)

Choose one course from the following.

POLSC 607 - Administrative Law **Credits:** 3
POLSC 618 - Urban Politics **Credits:** 3
POLSC 620 - State and Local Government **Credits:** 3

Advanced Courses: 9 Credit Hours

To be taken after POLSC 400. Choose three courses (9 credits) at the 500 level or above with at least one course from one of following areas: Political Thought, International Relations, Comparative Government and Politics. One course may be from American Government & Politics.

Students pursuing an accelerated degree with the MPA program should, for one of their Advanced Courses, choose one course (3 credits) from:

POLSC 700 - Research Methods in Political Science **Credits:** 3

POLSC 702 - Public Administration and Society **Credits:** 3
POLSC 708 - Public Personnel Administration **Credits:** 3
POLSC 710 - Policy Analysis and Evaluation **Credits:** 3
POLSC 735 - Public Organization Theory **Credits:** 3
POLSC 737 - Public Budgeting **Credits:** 3

Major Electives: 6 Credit Hours

Choose two courses (6 credits) from POLSC at any level.

BS Natural and Quantitative Restricted Electives: 12-15 Credit Hours

One course in each of the following, with at least two courses at the 300 level or above OR at any level with a prerequisite in the same discipline.

Natural Science course: 3-5 Credit Hours

Quantitative course: 3-4 Credit Hours

Natural Science, or Quantitative, or Social Science w/MATH or STAT prereq Credits: 6

Chose at least two (2) additional courses that are Natural Science, Quantitative, or a Social Science with MATH or STAT pre-req.

BS Arts, Humanities, and Social Sciences Requirements: 3 Credit Hours

3 credit hours of Fine Arts or Humanities at any level (any course or combination of courses). See College catalog page for course lists.

Free Electives: 22-25

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Required for Graduation: 120

A&S Common Degree Requirements are satisfied by upper level Political Science courses, and the BS Restricted Electives in Natural and Quantitative Sciences and Humanties and Fine Arts.

Political Science - Society and Environment (BS)

The major in political science acquaints students with political aspects of society and encourages them to develop a critical and imaginative perspective on public issues. The program in political science provides the foundation for a liberal education, including the intellectual skills of critical analysis, writing, and discussion. It also emphasizes the importance of continuing involvement in political activity and public affairs. These educational experiences prepare our students for a variety of careers in fields including public service, business, teaching, research, journalism, public relations, and administration.

The Society and Environment track is designed for students interested in social and environmental problem solving, agricultural and food-related private business, and non-profit and political advocacy groups.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 Credit Hour

DAS 101 - Discover, Create, and Thrive: Arts and Sciences Orientation **Credits:** 1

Outside Concentration: 9 Credit Hours

Outside credential of at least 9 credit hours (May be from any unit, except Polticial Science, OR from approved interdisciplinary credentials within the unit).

OR

Any 9 credit hours in a single prefix (except for POLSC) (all must be 300 level or above OR at any level with a prereq in the same prefix; up to 5 credit hours may overlap with program).

OR

Any 9 credit hour microcredential (up to 5 credit hours may overlap with program).

Overlays: [9] Credit Hours

May be filled in K-State Core, Outside Concentration, electives, or the Program itself.

Ethical Reasoning Overlay, 1 course Credits: [3]
Global Perspectives Overlay, 1 course Credits: [3]
US Multicultural Overlay, 1 course Credits: [3]

Program

Statistics Requirement

If not met through K-State Core requirements, STAT 225 is required.

KSC-030

STAT 225 - Introduction to Statistics **Credits:** 3

Introductory Courses: 9 Credit Hours

Required Introductory Course (3 Credits)

POLSC 115 - U.S. Politics **Credits:** 3

Choose two courses (6 credits) from the following:

POLSC 135 - Introduction to Comparative Politics **Credits:** 3
POLSC 145 - World Politics **Credits:** 3
POLSC 155 - Introduction to Political Thought **Credits:** 3

Methods Course: 3 Credit Hours

POLSC 400 - Political Inquiry and Analysis **Credits:** 3

Society and Environment Requirements: 9 Credit Hours

Required Society and Environment Courses (6 Credit Hours)

POLSC 377 - Introduction to Public Policy **Credits:** 3
POLSC 250 - Environmental Political Thought: The Future of Food, Air, Water, and Soil **Credits:** 3
OR
POLSC 643 - Global Human Rights **Credits:** 3

Society and Environment Electives (3 Credit Hours)

Choose one of the following:

POLSC 372 - Ideologies: Their Origins and Impact **Credits:** 3
POLSC 545 - The Politics of Developing Nations **Credits:** 3
POLSC 601 - Topics in Political Science **Credits:** 3
POLSC 606 - Gender and Politics **Credits:** 3
POLSC 618 - Urban Politics **Credits:** 3
POLSC 667 - American Political Thought **Credits:** 3

Advanced Courses: 9 Credit Hours

To be taken after POLSC 400. Choose four courses (12 credits) at the 500 level or above in two of the following areas: Political Thought, American Government and Politics, International Relations, Comparative Government and Politics.

Advanced courses: Credits: 12

Major Elective Courses: 6 Credit Hours

Choose three courses (9 credits) of POLSC at any level, except for POLSC 350. Only 3 credit hours are allowed to be readings or problems. Only six credits are allowed to be internship.

Major Elective Courses: **Credits:** 9

BS Natural and Quantitative Restricted Electives: 12-15 Credit Hours

One course in each of the following, with at least two courses at the 300 level or above OR at any level with a prerequisite in the same discipline.

Natural Science course: 3-5 Credit Hours

Quantitative course: 3-4 Credit Hours

Natural Science, or Quantitative, or Social Science w/MATH or STAT prereq Credits: 6

Choose at least two (2) additional courses that are Natural Science, Quantitative, or a Social Science with MATH or STAT pre-req.

BS Arts and Humanities Restricted Electives: 3 Credit Hours

3 credit hours of Fine Arts or Humanities at any level (any course or combination of courses). See College catalog page for course lists.

Free Electives: 22-25

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

A&S Common Degree Requirements are satisfied by upper level Political Science courses, and the BS Restricted Electives in Natural and Quantitative Sciences and Humanities and Fine Arts.

Minor

African Studies Minor

The African Studies minor is designed to provide students with knowledge of and appreciation for African History, society and natural environment. The African Studies minor will provide students the opportunity to understand and experience this diverse region through courses that offer knowledge, the necessary language skills and first hand experience in various parts of Africa. The minor will have a special focus on African agriculture, health, environment from various perspectives.

Students must have a minimum GPA of 2.0 to qualify for the minor. A minimum of 21 credit hours of designated course work with a grade of C or above for fall courses is needed to complete the minor.

Required courses:

AFRI 501 - Seminar I **Credits:** 3
AFRI 502 - Seminar II **Credits:** 3
ANTH 509 - Cultures of Africa **Credits:** 3
SWAH 101 - Swahili I **Credits:** 4
SWAH 102 - Swahili II **Credits:** 4
or
Two semesters of any indigenous African language or French

Study Abroad program or equivalent:

African Study Abroad (AFRI 400) will provide students the opportunity to apply their knowledge of an African language and to learn first hand various African societies, cultures, farming systems, environment, health and other issues related to their host country.

This course will be taught by various faculty affiliates in the African Studies Center and will involve African collaborators in the host countries who will offer lectures and coordinate site visits.

Other African experiences can be taken into account for credit with approval from their African Studies advisor. The course will be coordinated in collaboration with the Study Abroad program at K-State.

AFRI 400 - African Study Abroad **Credits:** 1-4

Recommended course for the Minor:

Recommended Electives for GE-College of Agriculture

AGEC 120 - Agricultural Economics and Agribusiness **Credits:** 3
AGEC 710 - Comparative Food and Agriculture Systems **Credits:** 3
AGRON 335 - Environmental Quality **Credits:** 3
HORT 256 - Human Dimensions of Horticulture **Credits:** 3

Recommended Electives for GE-College of Arts and Sciences

ANTH 210 - Introduction to Cultural Anthropology, Honors **Credits:** 3
ANTH 720 - Field Methods in Linguistics **Credits:** 3
BIOL 263 - Ecology of Environmental Problems **Credits:** 3
BIOL 330 - Public Health Biology **Credits:** 3
BIOL 697 - Topics in Biology **Credits:** 1-6 (African Ecology and Conservation)
ECON 527 - Environmental Economics **Credits:** 3
ECON 681 - International Trade **Credits:** 3
ECON 682 - Development Economics **Credits:** 3
ECON 688 - Health Economics **Credits:** 3
FREN 721 - Francophone Literature and Culture **Credits:** 3 (with emphasis on Africa)
GEOG 200 - Human Geography **Credits:** 3
GEOG 121 - Introductory Physical Geography: Earth Systems Science **Credits:** 3
GEOG 340 - Natural Resources **Credits:** 3
GEOG 780 - Cultural Geography **Credits:** 3
GEOL 506 - Environmental Studies **Credits:** 3

HIST 539 - African-American History **Credits:** 3
POLSC 145 - World Politics **Credits:** 3
POLSC 135 - Introduction to Comparative Politics **Credits:** 3
POLSC 626 - African Politics **Credits:** 3
POLSC 654 - International Politics of Africa **Credits:** 3
SOCIO 507 - International Development and Social Change **Credits:** 3
SOCIO 633 - Gender, Power, and Development **Credits:** 3

Recommended Electives for GE-College of Health and Human Sciences

IHS 310 - Foundations of Integrative Human Sciences **Credits:** 3
FNDH 400 - Human Nutrition **Credits:** 3
FNDH 599 - Topics in Human Nutrition **Credits:** 1-3
FNDH 600 - Public Health Nutrition **Credits:** 3
FNDH 702 - Nutrition in Developing Countries **Credits:** 3
HDFS 110 - Introduction to Human Development **Credits:** 3

Total credit hours: (minimum of 21)

Middle East Studies Minor

General Requirements:

The minor will require 20 credit hours from the designated courses including the language credits. It is required that students maintain a good academic standing with a **grade of C** or above in these courses.

Introductory Course Requirement:

Students must take an introductory course (3 Credits) related to the minor.

POLSC 135 - Introduction to Comparative Politics **Credits:** 3

HIST 111 - World History to 1450 **Credits:** 3
Or
HIST 112 - World History From 1450 **Credits:** 3

COMM 480 - Intercultural Communication **Credits:** 3

Language Requirement:

Students are required to take at least 8 credit hours of language listed below.

ARAB 101 - Arabic I **Credits:** 4
ARAB 102 - Arabic II **Credits:** 4
Note 1: Arab 101 and Arab 102 are 4 credit hour courses. It is strongly recommended that students also take additional courses in language (e.g. ARAB 201 and ARAB 301) for a complete cultural immersion in the Middle Eastern culture.

Note 2: A student may substitute previous college level course work in Turkish, Persian, or Hebrew upon approval. A native speaker of these languages may be exempt from the language requirements and can fulfill the remaining requirements for total credits by taking approved electives or independent studies. In addition, a student may fulfill language requirements in a study abroad program if credit hours are offered at college level and if these courses are approved by Kansas State University.

Students must select one course from each section and complete a minimum of 9 credits of core courses from the following three categories. To fulfill the minor requirements, each student has to choose one course from each section below:

Political Science Courses

POLSC 390 - Middle East Politics **Credits:** 3
POLSC 524 - Political Islam **Credits:** 3
POLSC 653 - International Politics of the Middle East **Credits:** 3

History Courses

HIST 598 - Topics in Non-Western History **Credits:** 1-3
HIST 598 History of Islam **Credits:** 1-3

Communication Studies, Economics, Philosophy, Modern Languages

ARAB 201 - Arabic III **Credits:** 5
ARAB 301 - Arabic IV **Credits:** 5
ARAB 540 - Special Studies in Arabic **Credits:** 1-18
COMM 450 - Special Studies in Human Discourse **Credits:** 3
ECON 536 - Comparative Economics **Credits:** 3
PHILO 337 - Religious Freedom and Democracy **Credits:** 3

Optional Elective:

Note: Students can replace one course (3 credit) from the "core course requirements" section conditional on the approval of the director of the Middle East Studies Minor:

AMETH 354 - Asian American Perspectives **Credits:** 3
AMETH 450 - Comparative Ethnic Studies **Credits:** 3
ANTH 200 - Introduction to Cultural Anthropology **Credits:** 3
Or
ANTH 204 - A General Education Introduction to Cultural Anthropology **Credits:** 3

ANTH 210 - Introduction to Cultural Anthropology, Honors **Credits:** 3
ANTH 314 - Introduction to the World's Religions **Credits:** 3
ANTH 616 - Anthropology of the Future: Apocalypse, Prophecy, and Hope **Credits:** 3
ART 195 - Survey of Western Art History I **Credits:** 3
ECON 536 - Comparative Economics **Credits:** 3
ECON 682 - Development Economics **Credits:** 3
GEOG 340 - Natural Resources **Credits:** 3

HIST 567 - Europe in the Middle Ages **Credits:** 3
HIST 597 - Topics in European History **Credits:** 1-3
POLSC 341 - Politics of the World Economy **Credits:** 3
POLSC 343 - American Foreign Policy **Credits:** 3
POLSC 526 - Comparative Political Institutions **Credits:** 3
POLSC 540 - Global Security Threats **Credits:** 3
POLSC 545 - The Politics of Developing Nations **Credits:** 3
POLSC 601 - Topics in Political Science **Credits:** 3
POLSC 626 - African Politics **Credits:** 3
POLSC 638 - Ethnic Conflict **Credits:** 3
POLSC 643 - Global Human Rights **Credits:** 3
POLSC 654 - International Politics of Africa **Credits:** 3
POLSC 675 - Religion and Politics **Credits:** 3
SOCIO 363 - Global Problems **Credits:** 3
SOCIO 507 - International Development and Social Change **Credits:** 3
SOCIO 633 - Gender, Power, and Development **Credits:** 3

Political Science Minor

Core Courses (6 credits)

Students must take two of the following four courses:

POLSC 115 - U.S. Politics **Credits:** 3
POLSC 135 - Introduction to Comparative Politics **Credits:** 3
POLSC 145 - World Politics **Credits:** 3
POLSC 155 - Introduction to Political Thought **Credits:** 3

Electives (12 credits of POLSC courses)

Two courses must be at the 500 level or above.

Total credit hours: (18)

Undergraduate Certificate

Primary Texts Undergraduate Certificate

Studying primary texts (original works) provides an opportunity to take part in a conversation with some of the best thinkers humankind has produced. Reading and discussing primary texts or original works in philosophy, politics, literature, and the sciences encourages critical thinking, and there is a growing acknowledgment among employers that this type of training develops lifelong learners and future leaders. The program gives students who want to pursue graduate education early experience in grappling with original works.

The certificate is an 18-hour program of study that students can tailor to their needs. Students must take the Primary Texts core course, preferably in their Junior or Senior year. At least nine credit hours must be at the 400 level or above. Selected courses must cover at least two academic disciplines. Transfer courses that can be documented to have substantial primary text content

may be accepted, but at least half of the courses must be completed at K-State. Students will complete a capstone paper in the core course, and have a minimum 2.75 cumulative GPA in the certificate at the time they graduate.

The Primary Texts core course can be taken by Honor students for Honors credit. Consult with the directors of the Primary Texts and Honors programs on additional courses that may count in both programs.

Students should notify the director of their interest in the program as soon as possible in their college career. The director will assist them with enrollment. Students who believe they have fulfilled part or all of the requirements should contact the director prior to enrolling in the program. A description of the program, a list of Primary Texts courses, and information on the capstone paper requirement can be found on the certificate website.

www.k-state.edu/artsci/primary

Program Requirements

Transfer courses that can be documented to have substantial primary texts content may be accepted, but at least half of the courses (9 credit hours) must be completed at K-State.

Students must complete 9 credit hours at the 400 level or above.

Selected courses must cover at least two academic disciplines.

Students must earn a minimum of 2.75 Cummulate GPA in the Certificate.

Required Course - 3 Credit Hours

Students must complete the Primary Texts Seminar

DAS 420 - Primary Texts Seminar **Credits:** 3
OR
POLSC 420 - Primary Texts Seminar **Credits:** 3

Additional Primary Text Requirements - 15 Credit Hours

Students must complete 6 credit hours at the 400 level or above (excluding DAS 420 and POLSC 420)

Selected courses must cover at least two academic disciplines.

Select 15 credit hours from the Primary Text Approved Course list located on the Primary Text Certificate website

Psychological Sciences

David Schmitt, Head

492 Bluemont Hall
785-532-6850
Fax: 785-532-5401
E-mail: psych@k-state.edu
www.k-state.edu/psych

The Department of Psychological Sciences at Kansas State University provides educational and research opportunities at both the undergraduate and graduate levels. At the undergraduate level, the department provides introductory service courses for a large portion of the total undergraduate student population. Our undergraduate majors typically follow one of three tracks: some students plan ultimately to attend graduate school in psychology; other students desire an undergraduate program that will lead to a job specifically in a particular area (e.g., an entry level counseling or clinical position); while other students simply want to obtain a Bachelor's degree and enter the workforce. In each case, the curriculum in the Psychology major is purposely flexible to accommodate these paths.

The mission of the Department of Psychological Sciences is to engage in the discovery of knowledge about behavior, the biological and psychological processes that affect that behavior, and to share that knowledge and the processes for obtaining it with our students and the scholarly community. The Department integrates graduate and undergraduate education, teaching, research, and service activities to further the overall mission of the university.

Although separate aspects of the Departmental mission are outlined below, one must recognize that these goals are intricately related and overlapping. It has always been the philosophy of the Department to integrate its activities to provide students with the best possible education and training.

Undergraduate Teaching and Advising

Within the context of a broad liberal arts education in the College of Arts and Sciences, the mission of the Undergraduate Program in Psychology is to provide an educational environment in which our students learn the basic concepts and principles of psychology and the methods of scientific inquiry into the behavior of individuals. The knowledge and skills that students obtain in our undergraduate program are useful in postgraduate education and in a wide variety of employment settings and careers.

- We facilitate our students' learning of the basic concepts and principles of psychology through classroom and non-classroom experiences (e.g., teaching practicums, research, internships, and field placements in various settings).
- We facilitate our students' learning of the methods of scientific inquiry into behavior, thought, and emotion through classes and opportunities in empirical research.
- We facilitate our students' abilities to evaluate claims and conclusions about psychological processes in a constructively critical manner. We provide our students opportunities to become critical thinkers and consumers of information pertaining to behavior, thought, motivation, and emotion.
- A significant portion of the Psychological Sciences Department's teaching resources are devoted to undergraduate majors outside Psychology through numerous and popular "service courses" that we offer each semester.

Effective advising allows our undergraduate students to achieve their goals while enrolled at Kansas State University and after graduation. We facilitate our students' success by providing information about course selection to fulfill bachelor degree requirements, about career options available after graduation, and about opportunities available (on and off campus) for enhancing their success in gaining employment or admittance into a graduate or professional program.

Bachelor of Arts

Psychology (BA)

The Department of Psychological Sciences at Kansas State University provides educational and research opportunities at both the undergraduate and graduate levels. At the undergraduate level, the department provides introductory service courses for a large portion of the total undergraduate student population. Our undergraduate majors typically follow one of three tracks: some students plan ultimately to attend graduate school in psychology; other students desire an undergraduate program that will lead to a job specifically in a particular area (e.g., an entry level counseling or clinical position); while other students simply want to obtain a Bachelor's degree and enter the workforce. In each case, the curriculum in the Psychology major is purposely flexible to accommodate these paths.

The mission of the Department of Psychological Sciences is to engage in the discovery of knowledge about behavior, the biological and psychological processes that affect that behavior, and to share that knowledge and the processes for obtaining it with our students and the scholarly community. The Department integrates graduate and undergraduate education, teaching, research, and service activities to further the overall mission of the university.

Although separate aspects of the Departmental mission are outlined below, one must recognize that these goals are intricately related and overlapping. It has always been the philosophy of the Department to integrate its activities to provide students with the best possible education and training.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 Credit Hour

DAS 101 - Discover, Create, and Thrive: Arts and Sciences Orientation **Credits:** 1

Outside Concentration: 9 Credit Hours

Outside credential of at least 9 credit hours (May be from any unit, **except Psychology,** OR from approved interdisciplinary credentials within the unit).

OR

Any 9 credit hours in a single prefix (except for **PSYCH**) (all must be 300 level or above OR at any level with a prereq in the same prefix; up to 5 credit hours may overlap with program).

OR

Any 9 credit hours in a microcredential (up to 5 credit hours may overlap with program).

Overlays: [9] Credit Hours

May be fulfilled in K-State Core, Outside Concentration, electives, or the Program itself.

Ethical Reasoning Overlay **Credits:** [3]
Global Perspectives Overlay **Credits:** [3]
US Multicultural Overlay **Credits:** [3]

Program

Statistics: 3 Credit Hours

Select one course STAT 225- STAT 799

If not met through K-State Core requirements, STAT 225 is required.

KSC-030
STAT 225 - Introduction to Statistics **Credits:** 3

Major courses: 9 Credit Hours

All required courses

PSYCH 110 - General Psychology **Credits:** 3
PSYCH 350 - Experimental Methods in Psychology **Credits:** 3
PSYCH 351 - Experimental Methods Laboratory **Credits:** 2
PSYCH 500 - Junior Seminar in Psychology **Credits:** 1

Cognitive Psychology and Neuroscience: 6 Credit Hours

Choose two courses of the following:

PSYCH 460 - Cognitive Psychology **Credits:** 3
PSYCH 470 - Principles of Neuroscience **Credits:** 3
PSYCH 475 - Principles of Learning **Credits:** 3
PSYCH 480 - Fundamentals of Perception and Sensation **Credits:** 3

Social and Personality Psychology: 3 Credit Hours

Choose one course of the following:

PSYCH 605 - Advanced Social Psychology **Credits:** 3
PSYCH 620 - Psychology of Personality **Credits:** 3

Applied and Health Psychology: 3 Credit Hours

Choose one course from the following:

PSYCH 505 - Introduction to Psychopathology **Credits:** 3
PSYCH 518 - Introduction to Health Psychology **Credits:** 3
PSYCH 560 - Personnel Psychology **Credits:** 3
PSYCH 564 - Psychology of the Workplace **Credits:** 3
PSYCH 565 - Occupational Health Psychology **Credits:** 3

Psychology Electives: 12 Credit Hours

Choose twelve credits from PSYCH 120- PSYCH 799

BA Arts, Humanities, and Social Sciences Restricted Electives: 6 Credit Hours

3 credit hours in each of the following, with at least 3 credit hours at 300 level or above OR at any level with a prerequisite in the same discipline.

One course in Humanities Credits: 3

Any course or combination of courses in Fine Arts Credits: 3

BA Natural and Quantitative Restricted Electives: 6 Credit Hours

One course in each of the following, with at least 3 credit hours total at 300 level or above OR at any level with a prerequisite in the same discipline.

Natural Science or Quantitative course Credits: 3

PSYCH 470 or PSYCH 480 may be used to satisfy the Natural Science requirement

Natural Science, or Quantitative, or Social Science with MATH or STAT Credits: 3

BA Second Language Requirement: 3-16 Credit Hours

Choose one of the following:

Option 1: 3-14 Credit Hours

At least 3 credit hours of coursework culminating with level 4 or above (i.e., French 4, German 4, Spanish 4, etc.) or the equivalent of level 4 in a second language sequence.

Option 2: 16 Credit Hours

At least 16 credit hours of coursework in which student takes the first and second levels of two different languages, selected from any language offered within the department of Modern Languages, ASL, or from any other second language transferred in at an equivalent level.

Option 3: 3 Credit Hours

Students whose first language is not English may satisfy this requirement by meeting the English Proficiency Admission Standards for K-State or by completing the appropriate level of exit courses with the English Language Program.

Free Electives: 12-25 Credit Hours

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

A&S Common degree requirements fulfilled by upper level PSYCH courses plus BA Restricted Electives. Note that PSYCH 470 or PSYCH 480 may be used to satisfy the Natural Science requirement

Bachelor of Science

Psychology (BS)

The Department of Psychological Sciences at Kansas State University provides educational and research opportunities at both the undergraduate and graduate levels. At the undergraduate level, the department provides introductory service courses for a large portion of the total undergraduate student population. Our undergraduate majors typically follow one of three tracks: some students plan ultimately to attend graduate school in psychology; other students desire an undergraduate program that will lead to a job specifically in a particular area (e.g., an entry level counseling or clinical position); while other students simply want to obtain a Bachelor's degree and enter the workforce. In each case, the curriculum in the Psychology major is purposely flexible to accommodate these paths.

The mission of the Department of Psychological Sciences is to engage in the discovery of knowledge about behavior, the biological and psychological processes that affect that behavior, and to share that knowledge and the processes for obtaining it with our students and the scholarly community. The Department integrates graduate and undergraduate education, teaching, research, and service activities to further the overall mission of the university.

Although separate aspects of the Departmental mission are outlined below, one must recognize that these goals are intricately related and overlapping. It has always been the philosophy of the Department to integrate its activities to provide students with the best possible education and training.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 Credit Hour

DAS 101 or other approved A&S orientation

DAS 101 - Discover, Create, and Thrive: Arts and Sciences Orientation **Credits:** 1

Outside Concentration: 9 Credit Hours

Outside credential of at least 9 credit hours (May be from any unit, **except Psychology** OR from approved interdisciplinary credentials within the unit).

OR

Any 9 credit hours in a single prefix (**except for PSYCH**) (all must be 300 level or above OR at any level with a prereq in the same prefix; up to 5 credit hours may overlap with program).

OR

Any 9 credit hour microcredential (up to 5 credit hours may overlap with program).

Overlays: [9] Credit Hours

May be filled in K-State Core, Outside Concentration, electives, or the Program itself.

Ethical Reasoning Overlay, 1 course **Credits**: [3]
Global Perspectives Overlay, 1 course **Credits**: [3]
US Multicultural Overlay, 1 course **Credits**: [3]

Programs

Statistics: 3 Credit Hours

Choose one course from STAT 225-799

If not met through K-State Core requirements, STAT 225 is required.

KSC-030
STAT 225 - Introduction to Statistics **Credits:** 3

Major Courses: 9 Credit Hours

PSYCH 110 - General Psychology **Credits:** 3
PSYCH 350 - Experimental Methods in Psychology **Credits:** 3
PSYCH 351 - Experimental Methods Laboratory **Credits:** 2
PSYCH 500 - Junior Seminar in Psychology **Credits:** 1

Cognitive Psychology and Neuroscience: 6 Credit Hours

Choose two courses from the following:

PSYCH 460 - Cognitive Psychology **Credits:** 3
PSYCH 470 - Principles of Neuroscience **Credits:** 3
PSYCH 475 - Principles of Learning **Credits:** 3
PSYCH 480 - Fundamentals of Perception and Sensation **Credits:** 3

Social and Personality Psychology: 3 Credit Hours

Choose one course from the following:

PSYCH 605 - Advanced Social Psychology **Credits:** 3
PSYCH 620 - Psychology of Personality **Credits:** 3

Applied Health Psychology: 3 Credit Hours

Choose one course from the following:

PSYCH 505 - Introduction to Psychopathology **Credits:** 3
PSYCH 518 - Introduction to Health Psychology **Credits:** 3
PSYCH 560 - Personnel Psychology **Credits:** 3
PSYCH 564 - Psychology of the Workplace **Credits:** 3
PSYCH 565 - Occupational Health Psychology **Credits:** 3

Psychology Electives: 12 Credit Hours

Choose twelve credits from PSYCH 120-799

BS Natural and Quantitative Restricted Electives: 12-15 Credit Hours

One course in each of the following, with at least two courses at the 300 level or above OR at any level with a prerequisite in the same discipline.

Natural Science course Credits: 3-5

PSYCH 470 or PSYCH 480 may be used to satisfy this requirement

Quantitative course Credits: 3-4

Natural Science, or Quantitative, or Social Science w/MATH or STAT prereq Credits: 6

BS Arts, Humanities, and Social Sciences Restricted Electives: 3 Credit Hours

Fine Arts or Humanities: Any course or combination of courses Credits: 3

Free Electives: 25

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

A&S Common degree requirements fulfilled by upper level PSYCH courses plus BS Restricted Electives. Note that PSYCH 470 or PSYCH 480 may be used to satisfy the Natural Science requirement

Minor

Neuroscience Minor

The Neuroscience minor offers an exploration of the human brain and nervous system, covering topics that include cellular and molecular neuroscience to behavioral and cognitive neuroscience. Through a combination of courses providing theoretical knowledge and hands-on laboratory experience, students explore neuroanatomy and the neurological basis of behaviors such as emotion and stress, learning and memory, language and sleep. The minor prepares graduates for careers in research, healthcare, education, or industry.

Required Courses (10 credit hours)

BIOL 101 - Concepts of Biology **Credits:** 4
or
BIOL 198 - Principles of Biology **Credits:** 4
PSYCH 110 - General Psychology **Credits:** 3
PSYCH 370 - Introduction to Behavioral Neuroscience **Credits:** 3
or
PSYCH 470 - Principles of Neuroscience **Credits:** 3

PSYCH Electives (Minimum of 6 credit hours)

PSYCH 202 - Drugs and Behavior **Credits:** 3
PSYCH 270 - Brain Myths: Fact or Fiction? **Credits:** 3
PSYCH 370 - Introduction to Behavioral Neuroscience **Credits:** 3
PSYCH 465 - Cognitive Neuroscience **Credits:** 3
PSYCH 470 - Principles of Neuroscience **Credits:** 3
PSYCH 570 - Psychopharmacology **Credits:** 3
PSYCH 595 - Behavioral Neuroscience Lab Skills **Credits:** 3
PSYCH 596 - Cognitive Neuroscience Lab Skills **Credits:** 3
PSYCH 598 - Research in Neuroscience **Credits:** 0-18
PSYCH 630 - Human Neuropsychology **Credits:** 3
PSYCH 670 - Neural Mechanisms of Learning and Memory **Credits:** 3
PSYCH 715 - Psychology of Aging **Credits:** 3

Non-PSYCH Electives (maximum of 4 credit hours)

ANTH 280 - Introduction to Biological Anthropology **Credits:** 4
BIOL 513 - Physiological Adaptations of Animals **Credits:** 4
BIOL 541 - Cell Biology **Credits:** 3
BIOL 609 - Cellular and Molecular Biology of Human Diseases **Credits:** 3
ECE 690 - Problems in Electrical and Computer Engineering **Credits:** 1-18
ECE 690 only selected topic: Brain Computer Interfaces
KIN 611 - Autonomic Neurophysiology **Credits:** 3

Total hours required: 18-20

Psychology Minor

The Psychology minor provides students with knowledge, training, and skills that make them more prepared and marketable for a host of professional and educational opportunities. Theory, content, and methods of psychology complement many other academic disciplines.

Required Courses (6 Credit Hours)

PSYCH 110 - General Psychology **Credits:** 3
PSYCH 350 - Experimental Methods in Psychology **Credits:** 3

Elective Courses (12 Credit Hours)

12 elective credits in PSYCH courses (only 3 of which may be earned through PSYCH 599)

Total Hours Required: 18

Undergraduate Certificate

Clinical Psychology Undergraduate Certificate

The undergraduate certificate in Clinical Psychology is designed to provide a focused track of courses designed to increase the knowledge and skills of individuals interested in the field of clinical psychology. The curriculum provides foundational theoretical and practical coverage of human behavior, mental health, ethics, and current research in the field. It also provides targeted training in assessment, diagnosis, and treatment of mental health disorders. This certificate is intended for students interested in entering graduate or professional school in mental health and/or wanting to work with psychiatric patients after graduation.

Required courses: 9 credit hours

PSYCH 110 - General Psychology **Credits:** 3
PSYCH 505 - Introduction to Psychopathology **Credits:** 3
PSYCH 585 - Basic Concepts in Clinical Psychology **Credits:** 3

Elective courses from Psychological Sciences: minimum of 3 credit hours

PSYCH 510 - Introduction to Behavior Modification **Credits:** 3
PSYCH 540 - Psychology of Gender **Credits:** 3
PSYCH 556 - Multicultural Psychology **Credits:** 3
PSYCH 559 - Psychological Testing **Credits:** 3
PSYCH 565 - Occupational Health Psychology **Credits:** 3
PSYCH 570 - Psychopharmacology **Credits:** 3
PSYCH 584 - Group Psychotherapy **Credits:** 3
PSYCH 586 - Psychology Internship Readiness **Credits:** 1
PSYCH 587 - Psychology Internship in Mental Health **Credits:** 1-6
PSYCH 620 - Psychology of Personality **Credits:** 3
PSYCH 630 - Human Neuropsychology **Credits:** 3

Elective courses outside of Psychological Sciences: maximum of 3 credit hours

ADC 325 - Professional, Ethical, and Legal Issues in Counseling **Credits:** 3
ADC 570 - Methods of Group Counseling **Credits:** 3
CNRES 529 - Trauma and Traumatic Stress **Credits:** 3
CNRES 530 - Coping with Life Crises **Credits:** 3
CNRES 538 - Advanced Trauma and Traumatic Stress **Credits:** 3
COMM 130 - Interpersonal Communication **Credits:** 3
COMM 323 - Nonverbal Communication **Credits:** 3
HDFS 301 - Interpersonal Skills for Helping Professionals **Credits:** 3
HDFS 307 - Introduction to Marriage and Family Therapy **Credits:** 3
HDFS 724 - Working with Military Families **Credits:** 3
SOCWK 200 - Basic Skills for Working with People **Credits:** 3

Total Hours Required: 15

Social Transformation Studies

Valerie Padilla Carroll, Head

102 Leasure Hall
785-532-5738
E-mail: soctran@k-state.edu
Web address: https://www.k-state.edu/social-transformation/

Drawing on the interdisciplinary scholarly and pedagogical traditions of the fields of ethnic studies and gender, women, and sexuality studies, Social Transformation Studies offers students a base of knowledge and skills that will enable them to launch

and sustain careers devoted to tackling some of the most pressing social issues facing Kansans, and Americans more broadly, including health disparities, food insecurity, gender violence, and racial and economic inequalities.

Social Transformation Studies offers students the opportunity to think critically about the multifaceted realities, identities, and important knowledges created by diverse peoples; develop cultural competencies that can be used in workplace settings; learn about and promote practices of inclusivity; and foster community-based engaged research and praxis responsive to the needs and realities of underserved communities.

A major in Social Transformation Studies equips students to approach issues of equity and civic engagement from a variety of perspectives and prepare them to excel in a wide range of fields, including violence prevention and advocacy, law and policy studies, health professions, the technology sector, business, and public health, as well as graduate-level studies. The Social Transformation Studies program provides students with skills that employers seek: innovation skills to create new solutions to both emerging and enduring social problems, the ability to work with and serve diverse and underserved constituencies, and critical thinking, writing and communication.

In addition to the general university and college requirements for the BA/BS degree, all Social Transformation Studies majors are required to complete 30 credit hours. All STRAN majors will complete one 3 credit introductory course (AMETH 160 or GWSS 105), 9 credits of core courses (STRAN 400 , STRAN 550 , and STRAN 600), and 3 cr. of elective in either AMETH or GWSS. For the remaining 15 credits of the Social Transformation Studies major, students will choose one of two tracks: American Ethnic Studies or Gender, Women, and Sexuality Studies.

The department offers an undergraduate major, minors in American Ethnic Studies, Gender, Women, and Sexuality Studies, and Queer Studies, a certificate in Intercultural Competence, and a graduate certificate in Gender, Women, and Sexuality Studies.

Bachelor of Arts

Social Transformation Studies (BA)

A major in Social Transformation Studies equips students to approach social justice and equity issues from a variety of perspectives and prepares them to excel in a wide variety of fields, including law and politics, violence prevention and advocacy, human services, education, business, health professions, and public health, as well as graduate-level studies. The Social Transformation Studies program provides students with skills that employers seek: the ability to work with and serve diverse and underserved constituencies, think critically, and write and communicate effectively.

The Social Transformation Studies major draws from the interdisciplinary scholarly and pedagogical traditions of the fields of American ethnic studies and gender, women, and sexuality studies to create something more than the sum of its parts. Ours is the only degree program of its kind in the state of Kansas.

Instructors and students in Social Transformation Studies analyze personal experience and social institutions as they shape and are shaped by race, ethnicity, indigeneity, gender, sex, sexuality, class, disability, citizenship, nation, coloniality, and global location. This analysis enables both an understanding of oppression as well as a vision for social equity and justice. A major in Social Transformation Studies offers students the opportunity to think critically about the multifaceted realities and identities of diverse peoples, as well as the important knowledges created by them; promotes social justice ideals and practices of inclusivity; and fosters community-based engaged research and praxis responsive to the needs and realities of underserved communities.

In addition to the general university and college requirements for the BA/BS degree, all Social Transformation Studies majors are required to complete 30 credit hours.

Graduation Requirements

To graduate with a degree in Social Transformation Studies, students must fulfill all program requirements and have a cumulative GPA of 2.0 or higher in courses taken for the Social Transformation Studies major at Kansas State University.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 Credit Hour

DAS 101 - Discover, Create, and Thrive: Arts and Sciences Orientation **Credits:** 1

Outside Concentration: 9 Credit Hours

Outside credential of at least 9 credit hours (May be from any unit, **except Social Transformation Studies,** OR from approved interdisciplinary credentials within the unit).

OR

Any 9 credit hours in a single prefix (except for **AMETH, GWSS, STRAN**) (all must be 300 level or above OR at any level with a prereq in the same prefix; up to 5 credit hours may overlap with program).

OR

Any 9 credit hours in a microcredential (up to 5 credit hours may overlap with program).

Overlays: [9] Credit Hours

May be fulfilled in K-State Core, Outside Concentration, electives, or the Program itself.

Ethical Reasoning Overlay **Credits:** [3]
Global Perspectives Overlay **Credits:** [3]
US Multicultural Overlay **Credits:** [3]

Social Transformation Studies major

The STRAN major requires students to take one 3 credit hour introductory course chosen from five courses, one 3 credit hour core course chosen from two courses, 9 credit hours of major courses with an AMETH, GWSS, or STRAN prefix, and 6 credit hours of approved electives or additional AMETH, GWSS, or STRAN courses.

Math Requirement

If not met through K-State Core requirements, MATH 160 is required.

KSC-030
MATH 160 - Introduction to Contemporary Mathematics **Credits:** 3

Introductory course: 3 Credit Hours

One 3 credit hour introductory course chosen from five courses. Introductory course will offer an introduction to program.

AMETH 160 - Introduction to American Ethnic Studies **Credits:** 3
OR
GWSS 105 - Introduction to Gender, Women, and Sexuality Studies **Credits:** 3
OR
GWSS 220 - Climate Justice Movements **Credits:** 3
OR
GWSS 230 - Intersectionality and Health Justice **Credits:** 3
OR
GWSS 240 - Activism and Social Justice **Credits:** 3

Core Course: 3 Credit Hours

Complete either STRAN 400 **OR** STRAN 550

STRAN 400 - Transforming Society **Credits:** 3
OR
STRAN 550 - Practicing Social Justice **Credits:** 3

Major Courses: 15 Credit Hours

Any courses with the AMETH, GWSS, or STRAN prefixes

Electives: 9 Credit Hours

Three 3-credit courses from approved electives or additional AMETH, GWSS, or STRAN courses. List of approved electives: https://www.k-state.edu/social-transformation/academics/undergraduate-degrees/social-transformation-studies/gwss%20cr%20electives.html

*Note title on approved electives web page will be updated to read "STRAN cross-referenced electives" This list is not restricted only GWSS.

BA Arts, Humanities, and Social Sciences Restricted Electives: 6 Credit Hours

3 credit hours in each of the following, with at least 3 credit hours at 300 level or above OR at any level with a prerequisite in the same discipline.

One course in Humanities Credits: 3

Any course or combination of courses in Fine Arts Credits: 3

BA Natural and Quantitative Restricted Electives: 6 Credit Hours

One course in each of the following, with at least 3 credit hours total at 300 level or above OR at any level with a prerequisite in the same discipline.

Natural Science or Quantitative course Credits: 3

Natural Science, or Quantitative, or Social Science with MATH or STAT Credits: 3

BA Second Language Requirement: 3-16 Credit Hours

Choose one of the following:

Option 1: 3-14 Credit Hours

At least 3 credit hours of coursework culminating with level 4 or above (i.e., Frech 4, German 4, Spanish 4, etc.) or the equivalent of level 4 in a second language sequence.

Option 2: 16 Credit Hours

At least 16 credit hours of coursework in which student takes the first and second levels of two different languages, selected from any language offered within the department of Modern Languages, ASL, or from any other second language transferred in at an equivalent level.

Option 3: 3 Credit Hours

Students whose first language is not English may satisfy this requirement by meeting the English Proficiency Admission Standards for K-State or by completing the appropriate level of exit courses with the English Language Program.

Free Electives: 16-31 Credit Hours

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

Fine Arts or Humanities: Any combination of courses: 3 credits

Free Electives: 26-31

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

Minor

American Ethnic Studies Minor

American Ethnic Studies emerged in universities as a response to a community-based demand from civil rights movements to include the perspectives of communities of color historically erased, socially dismissed, and institutionally underrepresented. A minor in American Ethnic Studies teaches university students to think critically about the multifaceted realities and identities of America's diverse ethnicities; promotes social justice ideals and practices of inclusivity; fosters community-based engaged research and praxis responsive to the needs and realities of underserved constituencies; and foregrounds the needs, concerns, and knowledge of historically underrepresented peoples of color in Kansas.

Program requirements

Students completing 15 credit hours of course work may earn a minor in American ethnic studies. The course requirements are:

Required Core (6 credit hours)

AMETH 160 - Introduction to American Ethnic Studies **Credits:** 3
AMETH 351 - African American Perspectives **Credits:** 3
or
AMETH 352 - American Indian Perspectives **Credits:** 3
or
AMETH 353 - Latina/o Perspectives **Credits:** 3
or
AMETH 354 - Asian American Perspectives **Credits:** 3

Electives (9 credit hours)

Any three additional courses within AMETH

Total credit hours: (15)

Gender, Women, and Sexuality Studies Minor

Required Courses (3 credit hours)

GWSS 105 - Introduction to Gender, Women, and Sexuality Studies **Credits:** 3
or
GWSS 305 - Engaging Gender, Women, and Sexuality Studies **Credits:** 3

Electives (12 credit hours)

Electives can be chosen from GWSS course offerings, or from courses from other departments that have been approved for Gender, Women, and Sexuality Studies credit (see list below).

Overlay Requirements

ONE elective (3 credit hours) must be a GWSS course.
AMETH 351 - African American Perspectives **Credits:** 3 (Top/Sex HIV/AIDS & Black Comm)
AMETH 352 - American Indian Perspectives **Credits:** 3
AMETH 353 - Latina/o Perspectives **Credits:** 3 (Art & Activism)
AMETH 354 - Asian American Perspectives **Credits:** 3 (Identity Politics in Asian American Drama)
AMETH 354 - Asian American Perspectives **Credits:** 3 (Racist Love: Asian Americans and the Model-Minority Myth)
AMETH 354 - Asian American Perspectives (Islamophobia) **Credits:** 3
AMETH 370 - Politics of Women of Color **Credits:** 3
AMETH 450 - Comparative Ethnic Studies **Credits:** 3 (The Political Body)
AMETH 461 - Transformative Thought **Credits:** 3
AMETH 560 - Topics in American Ethnic Studies **Credits:** 3 (Erotic Justice: Audre Lorde)
AMETH 560 - Special Topics: Exploring Federal Indian Law **Credits:** 3
AMETH 560 - Topics in American Ethnic Studies **Credits:** 1-4 (Intersections of Crime)
AMETH 560 - Topics in American Ethnic Studies **Credits:** 1-4 (Race, Sex, and Science Fiction)
AMETH 560 - Topics in American Ethnic Studies **Credits:** 1-4 (Hollywood Latina Images)

AMETH 560 - Special Topics: Exploring Federal Indian Law **Credits:** 3
ANTH 305 - Cultures of South Asia **Credits:** 3
ANTH 328 - Topics in Linguistic Anthropology **Credits:** 3
ANTH 528 - Topics in Linguistic Anthropology **Credits:** 1-4 (Language and Gender)
ANTH 528 - Topics in Linguistic Anthropology **Credits:** 1-4 (Language and Power)
ANTH 710 - Writing Cultures: Ethnographic Methods **Credits:** 3
CLSCS 501 - Topics in Classical Literature in Translation **Credits:** 3 (Comedy, Humor, and Satire in Classical Literature)
CLSCS 502 - Topics in Classical Studies **Credits:** 3 (Real Men Play Naked, or Gender and Sexuality in Greece and Rome)
COMM 420 - Gender Communication **Credits:** 3
COMM 630 - Special Topics in Rhetoric and Communication **Credits:** 3 (Gender and Communication)

LEAD 502 - Independent Study in Leadership Studies **Credits:** 0-3 (Queer Leadership)
SOCIO 500 - Sociological Perspectives on Contemporary Issues **Credits:** 1-3 (Sociology of Sexuality)

Undergraduate Certificate

Intercultural Competence Undergraduate Certificate

The Intercultural Competence Certificate for undergraduates will provide participants with multicultural competencies such as socio-historical knowledge and behavioral foundations, enabling them to connect effectively and interact productively with a diverse workforce. The certificate will not only expand individuals' understandings about difference (racial/ethnic, economic class, gender, ability, sexuality) but also enable participants to design and implement cultural competence training within varied social institutions.

Upon completion of a certificate in Intercultural Competence participants will have acquired:

a. an increased sensitivity to diverse multicultural U.S. histories

b. an ability to interact respectfully and productively with diverse populations

c. a self-understanding through transformative self-reflection

d. the skills necessary to design and institutionalize cultural competent policies and practices within organizations such as businesses, schools, health services, social services, and more

Requirements (12 credits)

AMETH 300 - Intercultural Competence in Institutions **Credits:** 3

AND

One of the following courses:

AMETH 351 - African American Perspectives **Credits:** 3
AMETH 352 - American Indian Perspectives **Credits:** 3
AMETH 353 - Latina/o Perspectives **Credits:** 3
AMETH 354 - Asian American Perspectives **Credits:** 3

AND

Two other AMETH courses at any level

Certificate participants must take AMETH 300 but may substitute one of the following courses for one of the three other AMETH courses. Certificate courses can count towards the fulfillment of other College or University general education requirements, and can also count toward the major or minor in a variety of departments.

Electives

Certificate participants must take AMETH 300 but may substitute one of the following courses for one of the three other AMETH courses listed in requirements #2 or #3 above

ANTH 200 - Introduction to Cultural Anthropology **Credits:** 3
ANTH 204 - A General Education Introduction to Cultural Anthropology **Credits:** 3
ANTH 210 - Introduction to Cultural Anthropology, Honors **Credits:** 3
ANTH 314 - Introduction to the World's Religions **Credits:** 3
ANTH 318 - Topics in Cultural Anthropology **Credits:** 3
ANTH 525 - Language and Culture **Credits:** 3
CNRES 532 - Conflict Resolution across Cultures & Contexts **Credits:** 3
CNRES 752 - Culture and Conflict **Credits:** 3
COMM 480 - Intercultural Communication **Credits:** 3
COMM 535 - Communication and Leadership **Credits:** 3
DAS 475 - Nonviolence Studies: Women and Peace Movements **Credits:** 3
DAS 555 - Themes in Nonviolence Studies **Credits:** 3
EDEL 414 - Teaching Culturally and Linguistically Diverse Learners **Credits:** 3
ENGL 476 - American English **Credits:** 3

ENGL 384 - Multicultural Children's Literature **Credits:** 3
GENAG 210 - Human and Cultural Diversity in the Food and Agricultural Sciences **Credits:** 3
GEOG 100 - World Geography & Globalization **Credits:** 3
GEOG 200 - Human Geography **Credits:** 3
GWSS 105 - Introduction to Gender, Women, and Sexuality Studies **Credits:** 3
GWSS 300 - Selected Studies of Gender, Women, and Sexuality Studies **Credits:** 3
GWSS 305 - Engaging Gender, Women, and Sexuality Studies **Credits:** 3
GWSS 325 - Queer Studies: Concepts, History, and Politics **Credits:** 3
GWSS 335 - Transgender Studies **Credits:** 3

Sociology, Anthropology, and Social Work

Don Kurtz, Interim Head

204 Waters Hall
785-532-6865
E-mail: socansw@k-state.edu
www.k-state.edu/sasw

The Department of Sociology, Anthropology and Social Work offers three separate undergraduate majors: sociology, anthropology, and social work. The sociology major has two options: general sociology and criminology. The student may enroll in a BS or BA program in any of these majors.

The Non-Violence Studies Certificate is offered for 15 credit hours.

Bachelor of Arts

Anthropology (BA)

The anthropology program at K-State offers classes across the four major subfields of anthropology: biological, archaeology, cultural, and linguistic. Biological anthropology explores the origins of human life and the physical bases of human cultures. Archaeology examines the development of human cultures from prehistory and ancient civilizations to historic and modern times. Cultural anthropology studies human behavior by surveying the range and variety of cultural traditions, religions, and beliefs throughout the world. Linguistic anthropology focuses on the languages and dialects of the world and the relationships of language to thought and culture. Some anthropology majors generalize, while others specialize in one or more of the subfields. To ensure breadth, our students will need to engage with the three subfields of anthropology that we specialize in at K-State: cultural, biological, and archaeology.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 Credit Hour

DAS 101 - Discover, Create, and Thrive: Arts and Sciences Orientation **Credits:** 1

Outside Concentration: 9 Credit Hours

Outside credential of at least 9 credit hours (May be from any unit, except Sociology, Anthropology, and Social Work OR from approved interdisciplinary credentials within the unit).

OR

Any 9 credit hours in a single prefix (except for **ANTH**, **ADC**, **CRIM**, **SOCIO**, **SOCWK**) (all must be 300 level or above OR at any level with a prereq in the same prefix; up to 5 credit hours may overlap with the program).

OR

Any 9 credit hours in a microcredential (up to 5 credit hours may overlap with the program).

Overlays: [9] Credit Hours

May be fulfilled in K-State Core, Outside Concentration, electives, or the Program itself.

Ethical Reasoning Overlay **Credits:** [3]
Global Perspectives Overlay **Credits:** [3]
US Multicultural Overlay **Credits:** [3]

Programs

Introduction and Initiation Courses: 13 Credit Hours

ANTH 260 - Introduction to Archeology **Credits:** 3
ANTH 280 - Introduction to Biological Anthropology **Credits:** 4
ANTH 301 - Initiation to Anthropology **Credits:** 3
Choose one course from the list below: ANTH 200 - Introduction to Cultural Anthropology **Credits:** 3
ANTH 204 - A General Education Introduction to Cultural Anthropology **Credits:** 3
ANTH 210 - Introduction to Cultural Anthropology, Honors **Credits:** 3

Statistics Requirement

If not met through K-State Core requirements, STAT 225 is required.

KSC-030
STAT 225 - Introduction to Statistics **Credits:** 3

Anthropology Electives: 21 Credit Hours

Majors must take electives in at least two of the three main subfields: cultural anthropology, biological anthropology, and archaeology.

The remaining 15 credit hours may be chosen from the subfields below.

Of the required 21 elective hours, at least 9 credit hours must be at, or above, the 500 level.

Biological Anthropology Subfield

Course ranges: 380-389; 580-589; 680-689

ANTH 380 - Introduction to Human Evolution **Credits:** 3
ANTH 383 - Plagues: The Co-Evolutionary History of Humans and Pathogens **Credits:** 3
ANTH 384 - Fundamentals of Forensic Anthropology **Credits:** 3
ANTH 388 - Topics in Physical Anthropology **Credits:** 3
ANTH 588 - Topics in Physical Anthropology **Credits:** 1-4
ANTH 680 - Forensic Anthropology **Credits:** 4
ANTH 681 - Primatology **Credits:** 3
ANTH 682 - Human Growth and Development **Credits:** 3
ANTH 683 - Osteology **Credits:** 4
ANTH 686 - Bioarchaeology **Credits:** 3
ANTH 687 - Seminar in Osteology **Credits:** 2
ANTH 688 - Paleoanthropology **Credits:** 3

Cultural Anthropology Subfield

Course Ranges: 305-319; 505-519; 605-619; 705-719

ANTH 305 - Cultures of South Asia **Credits:** 3
ANTH 310 - Environmental Anthropology: Living with Change in the Anthropocene **Credits:** 3
ANTH 312 - Museums, Cultures, and Collaborations **Credits:** 3
ANTH 314 - Introduction to the World's Religions **Credits:** 3
ANTH 315 - Introduction to Medical Anthropology & Global Health **Credits:** 3
ANTH 316 - Engaged Anthropology **Credits:** 3
ANTH 318 - Topics in Cultural Anthropology **Credits:** 3
ANTH 319 - Food and Culture **Credits:** 3
ANTH 505 - South Asian Civilizations **Credits:** 3
ANTH 508 - Asian Religions **Credits:** 3
ANTH 509 - Cultures of Africa **Credits:** 3
ANTH 510 - New Religions **Credits:** 3
ANTH 513 - Immigrant America **Credits:** 3
ANTH 515 - Creativity and Culture: The Anthropology of Art **Credits:** 3
ANTH 516 - Ethnomusicology **Credits:** 3
ANTH 518 - Topics in Cultural Anthropology **Credits:** 1-4
ANTH 605 - North American Indians **Credits:** 3
ANTH 606 - South American Indians **Credits:** 3
ANTH 612 - Ethnohistory **Credits:** 3
ANTH 613 - Gender, Power, and International Development **Credits:** 3
ANTH 615 - Race and Culture **Credits:** 3
ANTH 616 - Anthropology of the Future: Apocalypse, Prophecy, and Hope **Credits:** 3
ANTH 618 - Religion in Culture **Credits:** 3
ANTH 710 - Writing Cultures: Ethnographic Methods **Credits:** 3
ANTH 715 - Research Methods in Digital Ethnography **Credits:** 3

Archaeology Subfield

Course Ranges: 360-369; 560-569; 660-669

ANTH 364 - Archaeological Myths and Mysteries **Credits:** 3
ANTH 365 - Exploring Kansas Archaeology **Credits:** 3
ANTH 368 - Topics in Archaeology **Credits:** 3
ANTH 560 - Archaeological Fact or Fiction: Applied Critical Thinking **Credits:** 3
ANTH 561 - Archaeological Field Methods **Credits:** 1-9
ANTH 562 - Archaeological Laboratory Methods **Credits:** 3
ANTH 563 - Applied Archaeology **Credits:** 3
ANTH 565 - North American Archaeology **Credits:** 3
ANTH 568 - Topics in Archaeology **Credits:** 1-4
ANTH 663 - Andean Archaeology **Credits:** 3
ANTH 665 - European Archaeology **Credits:** 3

Linguistic Electives:

Course Ranges: 220; 320-329; 520-529; 620-629; 720

ANTH 220 - Introduction to Linguistic Anthropology **Credits:** 3
ANTH 328 - Topics in Linguistic Anthropology **Credits:** 3
ANTH 525 - Language and Culture **Credits:** 3
ANTH 720 - Field Methods in Linguistics **Credits:** 3

Intersubdisciplinary+ Electives

Course Ranges: 350-359; 550-559; 650-659

ANTH 350 - Topics for Educators **Credits:** 1-4
ANTH 351 - Special Studies in Anthropology **Credits:** 1-3
ANTH 352 - Topics in Cultural Heritage and Museum Studies **Credits:** 3
ANTH 353 - Museum Collections Management **Credits:** 3
ANTH 552 - Topics in Cultural Heritage and Museum Studies **Credits:** 3
ANTH 651 - Internship in Applied Anthropology **Credits:** 3
ANTH 652 - Internship in Museology **Credits:** 3
ANTH 659 - Independent Reading and Research in Anthropology **Credits:** 1-3

BA Arts, Humanities, and Social Sciences Requirement: 6 Credit Hours

3 credit hours in each of the following, with at least 3 credit hours at 300 level or above **OR** at any level with a prerequisite in the same discipline.

One course in Humanities Credits: 3

Any course or combination of courses in Fine Arts Credits: 3

BA Natural and Quantitative Requirement: 6 Credit Hours

One course in each of the following, with at least 3 credit hours total at 300 level or above OR at any level with a prerequisite in the same discipline.

Natural Science or Quantitative course Credits: 3

Natural Science, or Quantitative, or Social Science: 3 Credit Hours

BA Second Language Requirement: 3-16 Credit Hours

Choose one of the following:

Option 1: 3-14 Credit Hours

At least 3 credit hours of coursework culminating with level 4 or above (i.e., French 4, German 4, Spanish 4, etc.) or the equivalent of level 4 in a second language sequence.

Option 2: 16 Credit Hours

At least 16 credit hours of coursework in which student takes the first and second levels of two different languages, selected from any language offered within the department of Modern Languages, ASL, or from any other second language transferred in at an equivalent level.

Option 3: 3 Credit Hours

Students whose first language is not English may satisfy this requirement by meeting the English Proficiency Admission Standards for K-State or by completing the appropriate level of exit courses with the English Language Program.

Free Electives: 14-27 Credit Hours

In addition to the K-State Core Free Electives requirement, take any course so that the total number of credit hours completed is 120.

Total Hours Required for Graduation: 120

Criminology (BA)

The Criminology program at K-State is designed to give students a broad and comprehensive understanding of academic criminology while also preparing them for careers in fields like policing, criminal investigations, victims services, prison and jail operations, criminal justice research and policy, criminal justice administration, community corrections services, and others.

Students who major in criminology should refer to the general requirements for the B.A. or B.S. degree required for the College of Arts and Sciences.

All criminology students are expected to complete foundational courses (6 credit hours), core criminology courses (13 credit hours), a job skills requirement (1 credit hour), and classes that provide valuable social context (3 credit hours) and cover issues of social inequality (3 credit hours). Students are then required to complete twelve credit hours of criminology electives. Finally, all students are required to complete a "capstone" requirement. Students may choose between two capstone options: (1) an internship track which involves gaining field experience in a criminal justice or related agency, typically completed over a summer (6 credit hours), and (2) a scholarship track designed to prepare students for graduate studies by completing lower-level criminology or sociology graduate courses (6 hours).

Students must earn a 2.5 grade point average in courses taken within the major to graduate.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 Credit Hour

Outside Concentration: 9 Credit Hours

Outside credential of at least 9 credit hours (May be from any unit, **except ****, etc,** OR from approved interdisciplinary credentials within the unit).

OR

Any 9 credit hours in a single prefix (except for ****) (all must be 300 level or above OR at any level with a prereq in the same prefix; up to 5 credit hours may overlap with program).

OR

Any 9 credit hours in a microcredential (up to 5 credit hours may overlap with program).

Overlays: [9] Credit Hours

May be fulfilled in K-State Core, Outside Concentration, electives, or the Program itself.

Ethical Reasoning Overlay **Credits:** [3]
Global Perspectives Overlay **Credits:** [3]
US Multicultural Overlay **Credits:** [3]

Program

Foundation Courses: 6 Credit Hours

If not met through K-State Core requirements, STAT 225 is required.

SOCIO 211 - Introduction to Sociology **Credits:** 3
KSC-030
STAT 225 - Introduction to Statistics **Credits:** 3

Criminology Fundamental Courses: 10 Credit Hours

CRIM 261 - Introduction to Criminology and Criminal Justice **Credits:** 3
CRIM 364 - Criminological Perspectives **Credits:** 3
SOCIO 423 - Methods of Social Research I **Credits:** 4

Skills Requirement: 1 Credit Hour

CRIM 367 - Real World Criminology **Credits:** 1

Social Context Requirement: 3 Credit Hours

Must select one 3 credit hour course for the following list

SOCIO 260 - Social Problems **Credits:** 3
SOCIO 363 - Global Problems **Credits:** 3
SOCIO 431 - Comparative Social Theories **Credits:** 3
SOCIO 531 - Urban Sociology **Credits:** 3
SOCIO 532 - Our Communities, Our Futures **Credits:** 3

Structural Inequalities Requirement: 3 Credit Hours

Must select one 3 credit hour course from the following list

SOCIO 510 - Social Welfare as a Social Institution **Credits:** 3
SOCIO 541 - Wealth, Power, and Privilege **Credits:** 3
SOCIO 545 - The Sociology of Women **Credits:** 3
SOCIO 570 - Race and Ethnic Relations in the USA **Credits:** 3

Criminology Electives: 12 Credit Hours

Choose 12 credit hours from any CRIM courses (excluding CRIM 261, CRIM 364, CRIM 367, and CRIM 568) or from any of the following ANTH 384, ANTH 680, SOCIO 635, or SOCWK 350

Capstone Requirement: 6 Credit Hours

Students may either take an "internship" or "scholarship" approach to fulfilling this requirement. Each requires 6 credit hours from courses within the following two tracks.

Internship

CRIM 568 - Criminology Internship **Credits:** 6-9

Scholarship

Students will take 6 credit hours of 600 or 700 level Criminology or Sociology Courses OR 3 credits hours of 600 or 700 level Criminology or Sociology Courses and 3 credit hours of senior thesis hours (CRIM 599).

CRIM 599 - Senior Thesis in Criminology **Credits:** 3

BA Arts, Humanities, and Social Sciences Requirement: 6 Credit Hours

3 credit hours in each of the following, with at least 3 credit hours at 300 level or above OR at any level with a prerequisite in the same discipline.

One course in Humanities Credits: 3

Any course or combination of courses in Fine Arts Credits: 3

BA Natural and Quantitative Requirement: 3 Credit Hours

One course of the following:

Natural Science or Quantitative course Credits: 3

BA Second Language Requirement: 3 Credit Hours

Choose one of the following:

Option 1: 3-14 Credit Hours

At least 3 credit hours of coursework culminating with level 4 or above (i.e., Frech 4, German 4, Spanish 4, etc.) or the equivalent of level 4 in a second language sequence.

Option 2: 16 Credit Hours

At least 16 credit hours of coursework in which student takes the first and second levels of two different languages, selected from any language offered within the department of Modern Languages, ASL, or from any other second language transferred in at an equivalent level.

Option 3: 3 Credit Hours

Students whose first language is not English may satisfy this requirement by meeting the English Proficiency Admission Standards for K-State or by completing the appropriate level of exit courses with the English Language Program.

Free Electives: 11-21 Credit Hours

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

Social Work (BA)

The bachelor's degree in social work is recognized as a beginning-level professional degree. Students graduating from the social work program are eligible for licensure as bachelor degree social workers in Kansas and numerous other states. No other bachelor's degree is recognized, or necessary, for such eligibility. Students who wish to pursue graduate studies in social work will be eligible for advanced standing in many masters of social work programs throughout the United States.

The intervention tasks performed by social workers are derived from a common base of knowledge, values, and skills. Thus, social workers are uniquely qualified to provide resources, services, and opportunities to individuals, groups, families, organizations, and communities. Students are required to complete a field practice placement during their senior year to integrate classroom material with practice experience in a professional setting.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. 3 credit hours in each of the following, with at least 3 credit hours at 300 or above OR at level with a prerequisite in the same

Fine Arts: 3 credits

Any or combination of courses in Fine Arts

Humanities: 3 credits

BA Second Language Requirement: 3-16 Credit Hours

Option 1: 3-14 Credit Hours

At least 3 credit hours of coursework culminating with level 4 or above (i.e., French 4, German 4, Spanish 4, etc.) or the equivalent of level 4 in a second language

Option 2: 16 Credit Hours

At least 16 credits of coursework in which a student takes the first and second levels of two different languages, selected from any language offered within the department of Modern Languages, ASL, or from any other second language transferred in at an equivalent level.

Option 3: 3 Credit Hours

Students whose first language is not English may satisfy this requirement by meeting the English Proficiency Admission Standards for K-State or by completing the appropriate level of exit courses with the English Language Program.

Free Electives: 0-19 Credit Hours

Free Electives (in addition to K-State Core #7)

Credit Grand Total for Program of Study: 120

A&S Common Degree Requirements met by advanced SOCWK courses, SOCWK 330 (quantitative social science) and BA Natural and Quantitative, Fine Arts, Humanities, and Second Language Electives

Sociology (BA)

Sociology is the systematic study of social relations at different levels. Sociologists analyze small groups, complex organizations such as bureaucracies or factories, race/ethnic relations, gender relations, communities, nations, and even global social formations. The processes and behaviors sociologists examine include social interaction among individuals, institutional change, social policy formation, criminal and deviant behavior (and responses to such behavior), population growth and distribution, and social change and development.

The sociology program offers major and minor sociology. Sociology provides a desirable background, as either a sole or combined major, for further professional training in law, city planning, public administration, hospital administration, and medicine, as well as for advanced graduate work in sociology or other social sciences. It also prepares students for a wide variety of careers that involve problem-solving and gathering, organizing, and analyzing information (i.e., data). Such careers may involve jobs ranging from sales and management to community services and government work.

Students who major in sociology should refer to the general requirements for the BA or BS degree earlier in the College of Arts and Sciences section of this catalog. Sociology students who desire to teach in secondary schools should prepare for teacher licensure with a major in sociology (see the College of Education section of this catalog).

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

Natural Science Course: 3-5 Credit Hours

Quantitative Course: 3-4 Credit Hours

Natural Science, or Quantitative, or Social Science Course: 6 Credit Hours

Must take at least two courses that have a MATH or STAT prereq

BS Arts, Humanities, and Social Sciences Requirements: 3 Credit Hours

Fine Arts or Humanities: Any course or combination of courses: 3 Credit Hours

Free Electives: 6-11 Credit Hours

In addition to the K-State Core Free Electives requirement, take any course so that the total number of credit hours completed is 120.

Total Hours Required for Graduation: 120

Anthropology (BS)

There are three major subfields of anthropology. Physical anthropology explores the origins of human life and the biological bases of culture. Archaeology examines the development of human cultures from prehistory and ancient civilizations to historic and modern times. Cultural anthropology studies human behavior by surveying the range and variety of cultural traditions throughout the world. Linguistic anthropology focuses on the languages and dialects of the world and the relationships of language to thought and culture. Some anthropology majors generalize, while others specialize in one or more of the subfields. To ensure breadth, our students will need to engage with our program's three core subfields of anthropology: cultural, biological, and archaeology.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 Credit Hour

DAS 101 - Discover, Create, and Thrive: Arts and Sciences Orientation **Credits:** 1

Outside Concentration: 9 Credit Hours

Outside credential of at least 9 credit hours (May be from any unit, except Sociology, Anthropology and Social Work, OR from approved interdisciplinary credentials within the unit).

OR

Any 9 credit hours in a single prefix (except for ANTH, ADC, CRIM, SOCIO, SOCWK) (all must be 300 level or above OR at any level with a prereq in the same prefix; up to 5 credit hours may overlap with program).

OR

Any 9 credit hour microcredential (up to 5 credit hours may overlap with program).

Overlays: [9] Credit Hours

May be filled in K-State Core, Outside Concentration, electives, or the Program itself.

Ethical Reasoning Overlay, 1 course **Credits**: [3]
Global Perspectives Overlay, 1 course **Credits**: [3]
US Multicultural Overlay, 1 course **Credits**: [3]

Programs

Introduction and Initiation Course: 13 Credit Hours

ANTH 200 - Introduction to Cultural Anthropology **Credits:** 3
OR
ANTH 204 - A General Education Introduction to Cultural Anthropology **Credits:** 3
OR
ANTH 210 - Introduction to Cultural Anthropology, Honors **Credits:** 3
ANTH 260 - Introduction to Archeology **Credits:** 3
ANTH 280 - Introduction to Biological Anthropology **Credits:** 4
ANTH 301 - Initiation to Anthropology **Credits:** 3

Statistics Requirement

If not met through K-State Core requirements, STAT 225 is required.

KSC-030
STAT 225 - Introduction to Statistics **Credits:** 3

ANTH Electives: 21 Credit Hours

Majors must take electives in at least two of our three main subfields: cultural anthropology, biological anthropology, and archaeology.

Remaining 15 credit hours may be chosen from any of the below subfields

Of the required 21 elective hours, at least 9 credit hours must be at, or above, the 500 level.

Biological Anthropology: ANTH 380-389; 580-589; 680-689;780-789

Cultural Anthropology: ANTH 305-319; 505-519; 605-619; 705-719

Archaeology Electives: ANTH 360-369; 560-569; 660-669; 760-769

Linguistic Electives: ANTH 220; 320-329; 520-529; 620-629; 720-729

Intersubdisciplinary+: ANTH 350-359; 550-559; 650-659

BS Natural and Quantitative Requirements: 12-15 Credit Hours

One course in each of the following, with at least two courses at the 300 level or above OR at any level with a prerequisite in the same discipline.

Natural Science course Credits: 3-5

Quantitative course Credits: 3-4

Natural Science, or Quantitative, or Social Science w/MATH or STAT prereq Credits: 3

Natural Science, or Quantitative, or Social Science w/MATH or STAT prereq Credits: 3

BS Arts, Humanities, and Social Sciences Requirements: 3 Credit Hours

Fine Arts or Humanities: Any course or combination of courses Credits: 3

Free Electives: 30 Credit Hours

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

Criminology (BS)

The Criminology program at K-State is designed to give students a broad and comprehensive understanding of academic criminology while also preparing them for careers in fields like policing, criminal investigations, victims services, prison and jail operations, criminal justice research and policy, criminal justice administration, community corrections services, and others.

Students who major in criminology should refer to the general requirements for the B.A. or B.S. degree required for the College of Arts and Sciences.

All criminology students are expected to complete foundational courses (6 credit hours), core criminology courses (13 credit hours), a job skills requirement (1 credit hour), and classes that provide valuable social context (3 credit hours) and cover issues of social inequality (3 credit hours). Students are then required to complete twelve credit hours of criminology electives. Finally, all students are required to complete a "capstone" requirement. Students may choose between two capstone options: (1) an internship track which involves gaining field experience in a criminal justice or related agency, typically completed over a summer (6 credit hours), and (2) a scholarship track designed to prepare students for graduate studies by completing lower-level criminology or sociology graduate courses (6 hours).

Students must earn a 2.5 grade point average in courses taken within the major to graduate.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for

institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: 1 Credit Hour

Outside Concentration: 9 Credit Hours

Outside credential of at least 9 credit hours (May be from any unit, **except ****, etc**, OR from approved interdisciplinary credentials within the unit).

OR

Any 9 credit hours in a single prefix (**except for ****) (all must be 300 level or above OR at any level with a prereq in the same prefix; up to 5 credit hours may overlap with program).

OR

Any 9 credit hour microcredential (up to 5 credit hours may overlap with program).

Overlays: [9] Credit Hours

May be filled in K-State Core, Outside Concentration, electives, or the Program itself.

SOCIO 570 - Race and Ethnic Relations in the USA **Credits:** 3

Criminology Electives: 12 Credit Hours

Choose 12 credit hours from any CRIM courses (excluding CRIM 261, CRIM 364, CRIM 367, and CRIM 568) or from any of the following ANTH 384, ANTH 680, SOCIO 635, or SOCWK 350

Capstone Requirement: 6 Credit Hours

Students may either take an "internship" or "scholarship" approach to fulfilling this requirement. Each requires 6 credit hours from courses within the following two tracks.

Internship

CRIM 568 - Criminology Internship **Credits:** 6-9

Scholarship

Students will take 6 credit hours of 600 or 700 level Criminology or Sociology Courses. Students may also take 3 credits ours of 600 or 700 level Criminology or Sociology Courses and 3 credit hours of senior thesis hours (CRIM 599).

CRIM 599 - Senior Thesis in Criminology **Credits:** 3

BS Natural and Quantitative Requirements: 9 Credit Hours

One course in each of the following, with at least two courses at the 300 level or above OR at any level with a prerequisite in the same discipline.

Natural Science course Credits: 3

Quantitative course Credits: 3

Natural Science, or Quantitative, or Social Science w/MATH or STAT prereq Credits: 3

BS Arts, Humanities, and Social Sciences Requirements: 3 Credit Hours

3 credit hours of the following:

Fine Arts or Humanities: Any course or combination of courses Credits: 3

Free Electives: 20

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

Social Work (BS)

Social work is concerned with the interaction between people and their social environments. Social workers help people deal with other people, cope with the many social and environmental forces that affect and control daily life, and help solve problems that inhibit growth and development.

The undergraduate social work program is accredited by the Commission on Accreditation of the Council on Social Work Education to educate entry-level, generalist social work practitioners. The social work major is required for students who intend to pursue a career in social work in Kansas and in many other states.

The bachelor's degree in social work is recognized as a beginning-level professional degree. Students graduating from the social work program are eligible for licensure as bachelor degree social workers in Kansas and numerous other states. No other bachelor's degree is recognized, or necessary, for such eligibility. Students who wish to pursue graduate studies in social work will be eligible for advanced standing in many masters of social work programs throughout the United States.

The intervention tasks performed by social workers are derived from a common base of knowledge, values, and skills. Thus, social workers are uniquely qualified to provide resources, services, and opportunities to individuals, groups, families, organizations, and communities. Students are required to complete a field practice placement during their senior year to integrate classroom material with practice experience in a professional setting.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Sociology (BS)

Catalog Description

Sociology is the systematic study of social relations at different levels. Sociologists analyze small groups, complex organizations such as bureaucracies or factories, race/ethnic relations, gender relations, communities, nations, and even global social formations. The processes and behaviors sociologists examine include social interaction among individuals, institutional change, social policy formation, criminal and deviant behavior (and responses to such behavior), population growth and distribution, and social change and development.

The sociology program offers major and minor sociology. Sociology provides a desirable background, as either a sole or combined major, for further professional training in law, city planning, public administration, hospital administration, and medicine, as well as for advanced graduate work in sociology or other social sciences. It also prepares students for a wide variety of careers that involve problem-solving and gathering, organizing, and analyzing information (i.e., data). Such careers may involve jobs ranging from sales and management to community services and government work.

Students who major in sociology should refer to the general requirements for the BA or BS degree earlier in the College of Arts and Sciences section of this catalog. Sociology students who desire to teach in secondary schools should prepare for teacher licensure with a major in sociology (see the College of Education section of this catalog).

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. Minor

Anthropology Minor

Program requirements

Introductory courses (6 credit hours)

Select two of the four introductory courses to the field:

ANTH 200 - Introduction to Cultural Anthropology **Credits:** 3
or
ANTH 204 - A General Education Introduction to Cultural Anthropology **Credits:** 3
or
ANTH 210 - Introduction to Cultural Anthropology, Honors **Credits:** 3
ANTH 220 - Introduction to Linguistic Anthropology **Credits:** 3
ANTH 260 - Introduction to Archeology **Credits:** 3
ANTH 280 - Introduction to Biological Anthropology **Credits:** 4

Advanced anthropology courses (12 credit hours)

Select four advanced electives (300 level or above)

Total credit hours: (18)

Medical Anthropology Minor

Medical anthropology sheds light on human health, medicine, and well-being through our disciplinary subfields (biological anthropology, cultural anthropology, applied anthropology, linguistic anthropology, and archaeology). This framework uses anthropology to explore how health is impacted by cultural factors (including religious beliefs, history, politics, globalization, socioeconomic conditions, inequality, e.g.), as well as the co-evolution of humans and pathogens and other sociobiological phenomena. Medical anthropology utilizes all the tools and methods at our disposal to best understand human health cultures and phenomena for all peoples past and present throughout the world.

*Students may get a Medical Anthropology minor or a general Anthropology minor, but not both.

To graduate with this minor, a minimum GPA of 2.500 must be earned in *all anthropology courses*.

Program requirements

Introductory courses: (7 credit hours)

Introduction to Biological Anthropology required and one additional 3 Credit Hour introductory course

ANTH 280 - Introduction to Biological Anthropology **Credits:** 4
AND
ANTH 200 - Introduction to Cultural Anthropology **Credits:** 3
OR
ANTH 204 - A General Education Introduction to Cultural Anthropology **Credits:** 3
OR
ANTH 210 - Introduction to Cultural Anthropology, Honors **Credits:** 3

Advanced anthropology courses:

Foundational courses: (3 credit hours)

Take at least one foundation course from the option below:

ANTH 315 - Introduction to Medical Anthropology & Global Health **Credits:** 3
ANTH 383 - Plagues: The Co-Evolutionary History of Humans and Pathogens **Credits:** 3

Advanced Course options: (9 credit hours)

Take at least 9 other credits at the 300-level or above from this list of medical anthropology courses (the second foundational course may be used).

ANTH 315 - Introduction to Medical Anthropology & Global Health **Credits:** 3
ANTH 319 - Food and Culture **Credits:** 3
ANTH 383 - Plagues: The Co-Evolutionary History of Humans and Pathogens **Credits:** 3
ANTH 384 - Fundamentals of Forensic Anthropology **Credits:** 3
ANTH 514 - Narrative Medicine **Credits:** 3
ANTH 680 - Forensic Anthropology **Credits:** 4
ANTH 682 - Human Growth and Development **Credits:** 3
ANTH 683 - Osteology **Credits:** 4
ANTH 710 - Writing Cultures: Ethnographic Methods **Credits:** 3
ANTH 318, ANTH 388, ANTH 651, ANTH 659, or ANTH 715 must be approved for this minor on a case-by-case basis; the class must have a preponderance of work in the area of medicine in society. ANTH 318 - Topics in Cultural Anthropology **Credits:** 3
ANTH 388 - Topics in Physical Anthropology **Credits:** 3
ANTH 651 - Internship in Applied Anthropology **Credits:** 3
ANTH 659 - Independent Reading and Research in Anthropology **Credits:** 1-3
ANTH 715 - Research Methods in Digital Ethnography **Credits:** 3

Total credit hours: 19

Sociology Minor

The Sociology minor will complement other majors and minors across the University. The Sociology minor is in high demand among students seeking additional training in global citizenship, pre-health, law, Political Science, Psychology, Business, Agricultural Economics, and Social Transformation Studies. It will also enable students seeking certificates to double or triple minor. Many students pursuing the Conflict Resolution Certificate and Conflict Analysis/Trauma Studies minor will readily be

able to secure a second minor in Sociology. The Sociology minor will build synergy between a variety of programs and provide students with more options for both expanding and tailoring their studies to meet their academic and career goals.

GPA and Course Requirements: 15 credits

Students interested in a minor in Sociology are required to earn a minimum 2.5 grade point average in all courses taken for minor credit.

Courses: 6 credits hours

Required:

SOCIO 211 - Introduction to Sociology **Credits:** 3

Select one:

SOCIO 260 - Social Problems **Credits:** 3

SOCIO 363 - Global Problems **Credits:** 3

Electives: 9 credits hours

Undergraduate Certificate

Forensic Studies Undergraduate Certificate

The certificate in Forensic Studies is designed to expose students to a diverse array of academic fields related to the physiological, technological, and legal processes of evidence identification, gathering, and processing. The curriculum provides students with a foundational level of knowledge in forensics that may inform careers in investigations including law enforcement, risk reduction, internal investigations, human resources, and the like. The certificate includes a diverse assortment of classes from across the university to allow students to tailor their curriculum to their interests.

Category A (Minimum 6 credit hours)

At least 6 credit hours must come from courses in Category A

ANTH 384 - Fundamentals of Forensic Anthropology **Credits:** 3
ANTH 680 - Forensic Anthropology **Credits:** 4
CHM 372 - Forensic Chemistry and Criminalistics **Credits:** 3
CRIM 482 - Criminal Procedure and Investigations **Credits:** 3

Category B (3-9 credit hours)

ANTH 683 - Osteology **Credits:** 4
BIOCH 110 - Biochemistry and Society **Credits:** 3
BIOL 441 - Human Body I **Credits:** 4
BIOL 443 - Applied Anatomy of Cadavers **Credits:** 3
CRIM 261 - Introduction to Criminology and Criminal Justice **Credits:** 3

Total hours required: 15

Students seeking a certificate in Forensic Studies are required to complete 15 credit hours from these courses, at least 6 of which must come from courses in Category A.

Global Health, Medicine, and Society Undergraduate Certificate

The certificate requires a minimum of 15 hours (at least 9 credits must be taken at the 300 level or above) that are passed with a C or better for 2.5 GPA or higher.

Except in exceptional cases, courses cannot be taken pass/fail.

Students must complete a minimum of 5 different courses from two categories: core and electives. Electives must be taken in at least two different academic programs.

Core in Global Health, Medicine, and Society

Students must take one of the following two courses focused on global health for three credits.

ANTH 315 - Introduction to Medical Anthropology & Global Health **Credits:** 3
ANTH 383 - Plagues: The Co-Evolutionary History of Humans and Pathogens **Credits:** 3

Electives in the Medical Humanities and Social Science of Health

AGRON 325 - World Food Crops **Credits:** 3
*** AMETH 351 - African American Perspectives **Credits:** 3 (when taught as Topic: Sex and HIV/AIDS in the African American Community)
ANTH 315 - Introduction to Medical Anthropology & Global Health **Credits:** 3
ANTH 383 - Plagues: The Co-Evolutionary History of Humans and Pathogens **Credits:** 3
*** ANTH 388 - Topics in Physical Anthropology **Credits:** 3 [ANTH Biological Anthro Topics, if "Nutritional Anthropology"]
ANTH 680 - Forensic Anthropology **Credits:** 4
ANTH 682 - Human Growth and Development **Credits:** 3
ANTH 710 - Writing Cultures: Ethnographic Methods **Credits:** 3
BIOCH 110 - Biochemistry and Society **Credits:** 3
BIOL 330 - Public Health Biology **Credits:** 3
CLSCS 105 - Medical Terminology: Latin and Greek for Scientists **Credits:** 2
DMP 650 - Fundamentals of Public Health and Food Safety **Credits:** 3
DMP 710 - Introduction to One Health **Credits:** 2
ECON 688 - Health Economics **Credits:** 3
ENGL 392 - Literature and the Body **Credits:** 3
FNDH 110 - Introduction to Public Health **Credits:** 3 [KIN 230, DMP 110]
FNDH 115 - Introduction to Health and Nutrition Professions **Credits:** 3
FNDH 311 - Health Promotion and Behavior **Credits:** 3
FNDH 600 - Public Health Nutrition **Credits:** 3
FNDH 700 - Global Health and Nutrition **Credits:** 3
GENAG 225 - Fundamentals of Global Food Systems Leadership **Credits:** 3 [LEAD 225, DAS 325]
GENAG 325 - Uncertainty in Global Food Systems Leadership **Credits:** 3 [LEAD 325, DAS 325]
GWSS 365 - Reproductive Rights and Wrongs **Credits:** 3
GWSS 375 - Disability Justice and Gender **Credits:** 3
GWSS 435 - Race/Sex/Science **Credits:** 3

SOCIO 633 - Gender, Power, and Development **Credits:** 3
SPAN 531 - Professional Spanish: Health and Human Services **Credits:** 3

Notes:

*** Topics classes with a strong social scientific or humanistic take on health from any department can be considered for inclusion in a student's certificate program on a case-by-case basis. The topics classes listed above are grandfathered in.

Total credit hours required: 15

Museum Studies Undergraduate Certificate

The Museum Studies certificate charts a path for students to gain the knowledge and experience needed to embark on a career path in museum work through interdisciplinary study in museology, incorporating museum anthropology, art history, history, collections management and more.

Note: 15 credits must come from at least two different academic programs.

Museum Program Courses: (9 Credit Hours)

Note: Up to 15 credit hours permitted; internship strongly recommended.

ANTH 312 - Museums, Cultures, and Collaborations **Credits:** 3
ANTH 352 - Topics in Cultural Heritage and Museum Studies **Credits:** 3
ANTH 353 - Museum Collections Management **Credits:** 3
ANTH 515 - Creativity and Culture: The Anthropology of Art **Credits:** 3
ANTH 552 - Topics in Cultural Heritage and Museum Studies **Credits:** 3
ANTH 562 - Archaeological Laboratory Methods **Credits:** 3
ANTH 652 - Internship in Museology **Credits:** 3
ANTH 659 - Independent Reading and Research in Anthropology **Credits:** 1-3
ART 112 - Professional Practices in the Arts **Credits:** 3
ART 305 - Introduction to Museum Studies **Credits:** 3
ART 582 - Internships in Visual Art & Design **Credits:** 0-3
ART 606 - Visual Art Administration & Leadership **Credits:** 3
DAS 388 - Honors Internship **Credits:** 1-3
HIST 650 - Internship in History **Credits:** 3

Electives: (6 Credit Hours)

Note: None required, but up to 6 credit hours permitted; only one course allowed per category.

Category 1: Material Objects and Cultural Heritage - Archaeology
ANTH 364 - Archaeological Myths and Mysteries **Credits:** 3
ANTH 365 - Exploring Kansas Archaeology **Credits:** 3
ANTH 368 - Topics in Archaeology **Credits:** 3

ANTH 560 - Archaeological Fact or Fiction: Applied Critical Thinking **Credits:** 3
ANTH 561 - Archaeological Field Methods **Credits:** 1-9
ANTH 563 - Applied Archaeology **Credits:** 3
ANTH 565 - North American Archaeology **Credits:** 3
ANTH 568 - Topics in Archaeology **Credits:** 1-4
ANTH 663 - Andean Archaeology **Credits:** 3

ART 675 - History of Ceramics **Credits:** 3

Category 3 - Nonprofit Management

CDPLN 713 - Nonprofit Management **Credits:** 3
LEAD 420 - Theories of Nonprofit Leadership **Credits:** 3
MANGT 450 - Non-Profit Management **Credits:** 3

Total Hours Required for Graduation: 15

Religious Studies Undergraduate Certificate

Requirements for a Religious Studies certificate will consist of 15 credits; Intro to the World's Religions (ANTH 314); and a minimum of 12 additional elective credit hours in at least two disciplines, of which at least 6 credits must be at the 500 level or higher. To earn the certificate, religious studies courses must result in a final cumulative GPA of 2.5 or better.

Core (3 credit hours)

ANTH 314 - Introduction to the World's Religions **Credits:** 3

Electives (12 credit hours)

ANTH 305 - Cultures of South Asia **Credits:** 3
ANTH 509 - Cultures of Africa **Credits:** 3
ANTH 515 - Creativity and Culture: The Anthropology of Art **Credits:** 3
ANTH 508 - Asian Religions **Credits:** 3
ANTH 616 - Anthropology of the Future: Apocalypse, Prophecy, and Hope **Credits:** 3

ANTH 618 - Religion in Culture **Credits:** 3
* ANTH 710 - Writing Cultures: Ethnographic Methods **Credits:** 3
* ANTH 715 - Research Methods in Digital Ethnography **Credits:** 3
* ANTH 720 - Field Methods in Linguistics **Credits:** 3
ART 195 - Survey of Western Art History I **Credits:** 3
ART 196 - Survey of Western Art History II **Credits:** 3
ART 612 - History of Italian Renaissance Art **Credits:** 3
ART 613 - History of Northern Renaissance Art **Credits:** 3
CLSCS 310 - Introduction to Classical Mythology in Translation **Credits:** 3
ENGL 233 - Reformation to Enlightenment **Credits:** 3
ENGL 470 - The Bible **Credits:** 3
ENGL 575 - Holocaust Literature **Credits:** 3
HIST 520 - Death and Dying in History **Credits:** 3
HIST 521 - History of Christianity **Credits:** 3
HIST 522 - Religion in American History **Credits:** 3
HIST 523 - A History of the Occult and Witchcraft **Credits:** 3
HIST 569 - The Reformation **Credits:** 3
HIST 585 - Medieval Christianity **Credits:** 3
PHILO 115 - Introduction to Philosophy of Religion **Credits:** 3
PHILO 337 - Religious Freedom and Democracy **Credits:** 3
PHILO 615 - Philosophy of Religion **Credits:** 3
POLSC 524 - Political Islam **Credits:** 3
POLSC 661 - Ancient and Medieval Political Thought **Credits:** 3
POLSC 675 - Religion and Politics **Credits:** 3
SOCIO 505 - South Asian Civilizations **Credits:** 3
SOCIO 618 - Religion in Culture **Credits:** 3
SOCIO 643 - Sociology of Religion **Credits:** 3
SOCIO 742 - Society and Change in South Asia **Credits:** 3

*Courses with asterisks are methods courses that permitted to count for the Religious Studies certificate only if the semester–long student research project is focused upon a religious studies topic.

**NOTE: Students can petition to transfer in up to half of their credits with relevant religious studies classes from outside K-State, if each specific transferred course directly substitutes for a specific course on the approved list above. Since this is not a Theology certificate, theology classes (and classes from religious institutions that are teaching religion from an internal, liturgical, non-academic point of view) are not eligible to transfer in as part of the certificate.

Total hours required: 15

Statistics

Perla E. Reyes, Head

101 Dickens Hall
785-532-6883
E-mail: statdept@k-state.edu
www.k-state.edu/stats

Statistics is a science which combines ideas from classical and modern mathematics, probability theory, inductive reasoning, and computer science to develop tools for extracting critical insights from data. It is a dynamic and continuously evolving discipline driven by scientific and technological breakthroughs that both increase the complexity and volume of available data. Statistical analysis plays a central role in all disciplines that make evidence-based decisions, including machine learning and artificial intelligence, and the demand for skilled statisticians and data scientists continues to grow rapidly. Today, statisticians and data scientists are partners in most scientific and technological enterprises.

Nearly every activity performed by plants, animals, and people can generate useful and informative data. As a result, statisticians and data scientists are employed in nearly every scientific field, and the professional activities and opportunities for statisticians are potentially very broad. Frequent employers of statisticians include those in the agricultural, social, natural, medical, business, sports, and engineering sciences.

The Department of Statistics at Kansas State University offers rigorous programs and a wide variety of courses for those pursuing a career in statistics and data science, as well as those seeking data-driven quantitative problem-solving skills, that are designed to meet the ever-changing needs of the discipline.

Dual majors and dual degrees

Students may major in statistics and another discipline within the College of Arts and Sciences. The degree requirements of both departments must be met. For instance, it is possible to complete a dual statistics-mathematics degree in four years.

Students may obtain a dual degree in statistics and a field in another college such as business administration or engineering. The degree requirements of both colleges and majors must be met.

Accelerated programs

Students who begin graduate work after completing the BA or BS degree generally require at least two years to complete work for a master's degree. However, students majoring in statistics and data science can apply to our accelerated program and obtain a BS and a Master of Science in Statistics in an abbreviated time. Students in their junior year (close to completion of 75 undergraduate credit hours) with an outstanding scholastic record (GPA 3.25 or higher in STAT/MATH courses) are invited to apply to the program.

Each student, in consultation with a faculty advisor, will plan an individualized program of study. Features of the program include participation in graduate level activities and courses before completing their BS and count nine credit hours of undergraduate coursework towards their graduate program. Students participating in the program will be considered for financial assistance in the form of scholarships, assistantships, and part-time work.

Accelerated Statistics (BS)/Statistics (MS)

Bachelor of Arts

Statistics and Data Science (BA)

Statistics is the science of learning from data. Today, statisticians are partners in most scientific and technological enterprises. Statisticians are involved at every step in the process of turning data into actionable insights, including designing complex studies; gathering, exploring, and visualizing data from these studies; analyzing these data with appropriate models to discover important relationships; and communicating these findings to a general audience.

One of the fastest-growing professions, statistics is an exciting subject that affects most aspects of modern living, driven by the proliferation of complex and rich data and the evolution of how data are collected and used. Statistical analysis plays a central role in all disciplines that make evidence-based decisions. It has been developed to deal objectively with the uncertainty in phenomena due to the many factors that affect our environment. Statistics plays a critical role in solving practical problems arising in all fields of scientific activity, including the agricultural, social, natural, medical, business, and engineering sciences.

Studying statistics gives you the conceptual foundations and the skills to think critically, extract information from the data, and make insightful conclusions in any field of application. A deep understanding of theoretical, applied, and ethical aspects of statistical analysis will make a difference in your career and give you the necessary background to ensure that you get the most out of your data.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

Orientation: (1 credit hour)

DAS 101 - Discover, Create, and Thrive: Arts and Sciences Orientation **Credits:** 1

Outside Concentration: (9 credit hours)

Outside credential of at least 9 credit hours (May be from any unit, **except Statistics and Data Science,** OR from approved interdisciplinary credentials within the unit).

OR

Any 9 credit hours in a single prefix (except for **STAT**) (all must be 300 level or above OR at any level with a prereq in the same prefix; up to 5 credit hours may overlap with program).

OR

Any 9 credit hours in a microcredential (up to 5 credit hours may overlap with program).

Overlays: ([9] credit hours)

May be fulfilled in K-State Core, Outside Concentration, electives, or the Program itself.

Ethical Reasoning Overlay **Credits:** [3]
Global Perspectives Overlay **Credits:** [3]
US Multicultural Overlay **Credits:** [3]

Program

Students must earn a C or higher in Statistics Foundations, Mathematics Foundations, Programming Foundations and Upper-Division Electives.

Alternative Courses

- STAT courses at the 400 level or higher may replace either or both of the Intro to Statistics courses, but credit may only be received for STAT 701 OR STAT 703

- STAT 510 or STAT 770 may replace STAT 610

- STAT 511 or STAT 771 may replace STAT 611

The curriculum for this major assumes students enter college prepared to take Calculus.

Statistics Foundations: (27 credit hours)

Introductory Seminar

STAT 150 - Statistics and Data Science: Introductory Seminar for Majors **Credits:** 1

Intro to Statistics I (3 credit hours)

Chooose one of the following:

STAT 225 - Introduction to Statistics **Credits:** 3
STAT 240 - Biometrics I **Credits:** 3
STAT 250 - Business and Economic Statistics I **Credits:** 3

Intro to Statistics II (3 credit hours)

Chooose one of the following:

STAT 341 - Biometrics II **Credits:** 3
STAT 351 - Business and Economic Statistics II **Credits:** 3

Intro to Mathematical Statistics (6 credit hours)

STAT 610 - Introduction to Mathematical Statistics I **Credits:** 3
STAT 611 - Introduction to Mathematical Statistics II **Credits:** 3

Design Methods (3 credit hours)

Chooose one of the following:

STAT 710 - Sample Survey Methods **Credits:** 3
STAT 720 - Design of Experiments **Credits:** 3
STAT 722 - Experimental Designs for Product Development and Quality Improvement **Credits:** 3

Linear Models (3 credit hours)

Choose one of the following:

STAT 705 - Regression and Analysis of Variance **Credits:** 3
STAT 713 - Applied Linear Statistical Models **Credits:** 3

Mathematics Foundations: (15-18 credit hours)

Calculus: Choose one of two sequences. Math Scholars is recommended for dual MATH and STATDS majors.

Option 1: MATH 220 , MATH 221 , and MATH 222 (12 credits) *

Option 2 (Math Scholars): MATH 250 , MATH 251 , MATH 351 (13 credits) *

* Combinations of these options are also acceptable

Linear Algebra: Choose one of the following (3-5 credits): MATH 551 , MATH 350 or MATH 515

Programming Foundations: (3 credit hours)

Choose one of the following:

CIS 200 - Programming Fundamentals **Credits:** 4
CIS 209 - Computer Programming for Engineers **Credits:** 3

Upper-Division Electives: (9 credit hours)

Choose two upper-division quantitative electives from list (6 credit hours):

ECON 630 - Introduction to Econometrics **Credits:** 3
IMSE 541 - Statistical Quality Control **Credits:** 3
IMSE 785 - Big Data Analytics **Credits:** 3
MIS 665 - Business Analytics and Data Mining **Credits:** 3
MIS 670 - Social Media Analytics and Web Mining **Credits:** 3
MATH 400+ Courses
STAT 400+ Courses (Except STAT 510 , STAT 511 ,STAT 701 , STAT 703)
CIS 400+ Courses
CC 400+ Courses
Choose one additional STAT course at 700+ except STAT 701 and STAT 703 (3 credits)

Advanced Writing Requirement (3 credit hours)

ENGL 516 - Written Communication for the Sciences **Credits:** 3

Statistics Computing (2 credit hours)

STAT 725 - Introduction to the SAS Computing **Credits:** 1
STAT 726 - Introduction to R Computing **Credits:** 1

BA Arts, Humanities, and Social Sciences Restricted Electives: (6 credit hours)

3 credit hours in each of the following, with at least 3 credit hours at 300 level or above OR at any level with a prerequisite in the same discipline.

Any course or combination of courses in Fine Arts: (3 credit hours)

One Non-Quantitative Social Science; Any Social course that does NOT have a MATH or STAT prereq: (3 credit hours)

BA Second Language Requirement: (3-16 credit hours)

Choose one of the following:

Option 1: (3-14 credit hours)

At least 3 credit hours of coursework culminating with level 4 or above (i.e., French 4, German 4, Spanish 4, etc.) or the equivalent of level 4 in a second language sequence.

Option 2: (16 credit hours)

At least 16 credit hours of coursework in which student takes the first and second levels of two different languages, selected from any language offered within the department of Modern Languages, ASL, or from any other second language transferred in at an equivalent level.

Option 3: (3 credit hours)

Students whose first language is not English may satisfy this requirement by meeting the English Proficiency Admission Standards for K-State or by completing the appropriate level of exit courses with the English Language Program.

Free Electives: (0-16 credit hours)

In addition to K-State Core Free Electives requirement, take any course so that the total credit hours completed equals 120.

Total Hours Required for Graduation: 120

Arts & Sciences common BA degree requirements satisfied by

Upper level Math and Statistics Courses
Advanced Writing Requirement
BA Fine Arts and Non-Quantitative Social Sciences Restricted Electives

Minor

Statistics Minor

Program requirements

Students interested in quantitative methods to complement their major area of study may select a minor in statistics. The requirements are:

Select one of:
STAT 225 - Introduction to Statistics **Credits:** 3
STAT 240 - Biometrics I **Credits:** 3
STAT 250 - Business and Economic Statistics I **Credits:** 3
STAT 510 - Introductory Probability and Statistics I **Credits:** 3
Select one of:

STAT 341 - Biometrics II **Credits:** 3
STAT 351 - Business and Economic Statistics II **Credits:** 3
STAT 511 - Introductory Probability and Statistics II **Credits:** 3

In addition:

STAT 705 - Regression and Analysis of Variance **Credits:** 3

Six additional credit hours that require statistics as a prerequisite. Courses may be statistics courses or quantitative courses from another department containing substantial statistical content. These courses should be pre-approved by the Department of Statistics. **Credits:** 6

Total credit hours: (15)

Fax: 785-532-7216
E-mail: cba@k-state.edu
www.cba.k-state.edu

The College of Business Administration provides a rigorous and comprehensive undergraduate degree program that strikes a balance between general education and professional study in business administration. The College seeks to produce graduates with a broad education in the arts, sciences, and humanities; a solid knowledge and understanding of the functioning of the business world; sufficient knowledge and skill in a field of specialization to obtain positions in business; and the proven ability to think creatively and analytically in order to progress into positions of greater responsibility. The College provides comprehensive and integrated Career Development and Academic Advising services through the Student Success Center.

The degree programs in business offered by the College of Business Administration are accredited by the Association to Advance Collegiate Schools of Business (AACSB).

Recognizing the importance of the global nature of today's business and the diversity in the workforce, the College places emphasis on these areas and strives to prepare its graduates to be successful in this global, diverse business environment. The business firm is examined as a vital social, economic, and political institution. To equip the prospective executive and specialist for future professional responsibilities, the college organizes instructional activities around two themes: (1) the businessperson as manager and decision maker in the firm; and (2) the businessperson as one who must analyze and adapt to the larger economic, social, and political environment of which he or she and the firm are integral parts. Both subject matter and instructional techniques focus on decision making and implementation of decisions through critical and creative analysis.

The College of Business Administration also offers numerous certificates (Business of Sports and Entertainment, Consulting, Data Analytics, International Business, Investment Management, Marketing Technology, Professional Strategic Selling) five minors (Business, Entrepreneurship and Innovation, Management, Management Infomation Systems, and Marketing) and sponsors short courses and conferences for business and management groups.

Programs

Business Administration (BSBA) - Campus Program

Business Administration (B.S.) - Online Program

University Honors Program

Please click on the following link to learn more about the University Honors Program

Additional Learning Opportunities

Experiential Learning

The College of Business Administration, through its own Career Development program offers opportunities for students to obtain experience in business and industry as part of their college education. Students work through the Career Development program and the University's Career Center and are selected through formal interviews with participating companies.

Pre-Business Education

Pre-business education majors are enrolled in and advised by the College of Education. Students interested in teaching business education at the high school level are instructed to refer to the licensure requirements for details.

Pre-Law

Law schools emphasize various objectives in pre-law study for the development of basic skills and insights. These objectives are: The acquisition of skills in comprehension and expression; understanding human institutions; and the ability to think clearly, carefully, and independently. A pre-law student enrolled in the College of Business Administration not only achieves these important goals, but also obtains a broad business background that is desirable preparation for study of the law. Pre-Law students work with both an academic advisor in the College and the K-State Pre-Law advisor.

General Education:

Please click on the following link to learn more about K-State Core.

Business Administration Dual Degree

The dual degree programs allow students to earn the bachelor of science in business administration degree in addition to a nonbusiness degree. Because of course sequence requirements, students should begin the dual degree program in their sophomore year. Students must be enrolled in both the college offering the nonbusiness degree and the College of Business Administration.

Any student who wishes to complete a dual degree must satisfy the requirements, other than university general education requirements, for both degrees. The business administration requirements include course work in the following areas: communications, quantitative, social sciences, economics, and business. For further information about the exact academic requirements, contact Student Services, College of Business Administration, 107 Calvin Hall, 785-532-6180.

Business Administration Pre-Professionals

Business administration pre-professions

Admission Requirements

Students entering college for the first time and eligible for admission to K-State must enroll in the business administration pre-professions program (BAPP).

Students with previous academic work (either at K-State or elsewhere) requesting transfer to the College of Business Administration must have a 2.5 or higher grade point average and enroll in the BAPP curriculum. Transfer students, entering with 45 or more credit hours, must achieve a K-State GPA of 2.5 or higher on the first 15 or more hours of K-State course work to be able to continue in the College of Business Administration. For purposes of admission, grade point averages will be based on all courses attempted at colleges or universities.

The BAPP is expressly designed as a non-degree program; students with 60 or more credit hours will not be allowed to enroll in BAPP unless they are first-semester transfer students. Students remain in BAPP until they meet the requirements for their intended degree plan and complete an Application to Degree Plan.

Admission to a degree plan (major) in accounting, entrepreneurship, finance, general business (distance learning students), management, management information systems, marketing or professional strategic selling is necessary for graduation. Applicants for admission to one of the degree plans will be accepted upon completion of a minimum of 45 credit hours with a K-State grade point average of 2.5 or above.

Transfer students must meet the above requirements and complete at least 12 graded hours at K-State before they can be admitted into a degree plan.

The exact sequence of the courses to be taken is worked out between student and advisor. There is some flexibility in scheduling. To enroll in any course, students must have prerequisites as stated in the catalog.

Applications for a degree plan (major) may be made by the semester during which the student will have completed at least 45 credit hours of the pre-professional requirements. Degree plan applications must be filed by the time students complete 60 credit hours.

Transfer Coursework

All transfer coursework approved by the K-State Admissions Office, with a grade of C or better, will be reviewed by the college's Student Success Center for equivalency within the business curriculum and is subject to final approval. (Transfer coursework carrying a grade of D will not be accepted toward a student's business degree requirements.)

Final approval of transfer courses for use within an individuals business degree plan is determined by the appropriate department head, in conjunction with the Student Success Center and the Associate Dean. In general, upper-level (300+) business* courses will only be considered for approval if the coursework has been completed at an AACSB-accredited institution.

*Business courses are defined as those carrying a prefix of ACCTG, ENTRP, FINAN, GENBA, MANGT, MIS, MKTG or SALES..

Degree Requirements

Candidates for the bachelor of science in business administration must complete at least 9 credit hours of resident instruction in upper-division business courses after acceptance and enrollment in a degree plan program in the college. Additional residency requirements may apply.

A student will become eligible for graduation with a bachelor of science in business administration degree upon fulfilling the above requirements and completing 120 credit hours of coursework. Forty-five of these hours must be in the BAPP program, 30 hours in the business core, and the remaining 45 hours must be earned as specified by the student's major.

Bachelor's degree requirements

Requirements for BAPP (45 credit hours)

Communication Courses (11 credit hours)

Requirement below for Non-Native Speakers
Note: Automatic course substitution for COMM 105 is COMM 106.
COMM 105 - Public Speaking IA **Credits:** 2
or
COMM 106 - Public Speaking I **Credits:** 3
ENGL 100 - Expository Writing I **Credits:** 3
ENGL 200 - Expository Writing II **Credits:** 3
ENGL 417 - Written Communication for the Workplace **Credits:** 3
*Non-Native English Speakers who are required to take one or more English Language Program courses are *required* to also complete DAS 175 - Business Communications for Non-Native Speakers (3 credit hours) prior to beginning their business coursework. DAS 155 should be taken concurrent to achieving part time status in the English Language Program or immediately following completion of all English Language Program requirements. This course is *recommended* for non-native English speakers that do not take ELP courses but who are new to American culture.

Quantitative Courses (18 credit hours)

ECON 110 - Principles of Macroeconomics **Credits:** 3
ECON 120 - Principles of Microeconomics **Credits:** 3
Note: Automatic course substitution for ECON 120 is AGEC 120.

MATH 100 - College Algebra **Credits:** 3
Note: Students who don't meet MATH 100 prerequisites are encouraged to take **MATH 010 - Intermediate Algebra** before taking College Algebra. Credit received for Intermediate Algebra **does not apply** toward the hours required for graduation.

MATH 205 - General Calculus **Credits:** 3

Note: Automatic course substitution for MATH 205 is MATH 220.

Note: Students who test directly into MATH 205 or MATH 220 and complete the course will have the MATH 100 requirement waived, if they have not already taken MATH 100. Three credit hours/units will be added to the unrestricted electives requirement of the student's major/plan degree program in order to meet graduation requirements (120 credit hours/units).

STAT 250 - Business and Economic Statistics I **Credits:** 3

Note: Automatic course substitutions for STAT 250 are STAT 225 or STAT 240 or STAT 510.

STAT 351 - Business and Economic Statistics II **Credits:** 3

K-State 8 Requirement (16 credit hours)

All business students must fulfill the requirements of the university's K-State 8 General Education program and the following:

The Natural and Physical Sciences requirement must have a laboratory component
One additional course tagged under the Global Issues and Perspectives area

The above requirements will be fulfilled in the following manner.

All business students must complete 16 credit hours of K-State 8 coursework outside the College of Business Administration which fulfill the following requirements:

Aesthetic Interpretation **Credits:** 3
Global Issues and Perspectives **Credits:** 3
Human Diversity within the U.S. **Credits:** 3
Natural and Physical Sciences course with accompanying laboratory **Credits:** 4
Historical Perspectives **Credits:** 3

Remaining K-State 8 requirements will be met through other general and business core requirements.

Empirical and Quantitative Reasoning - MATH 100 or MATH 205
Ethical Reasoning and Responsibility - MANGT 596
Global Issues and Perspectives - ECON 110
Social Sciences - ECON 120

Business Core courses (30 credit hours)

Students must earn a minimum 2.5 GPA in the business core courses in order to graduate.

* ACCTG 231 - Introduction to Managerial Accounting **Credits:** 3
* ACCTG 241 - Introduction to Financial Accounting **Credits:** 3

FINAN 450 - Principles of Finance **Credits:** 3
GENBA 105 - Business Orientation **Credits:** 0-1
GENBA 205 - Career Accelerator **Credits:** 0-1
MANGT 366 - Information Systems and Business Analytics **Credits:** 3

or

MIS 366 - Introduction to Business Analytics and Information Systems **Credits:** 3 (MIS Majors Only)

MANGT 220 - Principles of Management **Credits:** 3
MANGT 421 - Introduction to Operations and Supply Chain Management **Credits:** 3
MANGT 595 - Strategic Management **Credits:** 3
MANGT 596 - Business Ethics and Corporate Citizenship **Credits:** 3
MKTG 250 - Introduction to Marketing **Credits:** 3

*Note: Both accounting courses must be taken at K-State or must be taken elsewhere to obtain credit. Consult with your academic advisor or check the K-State transfer equivalencies web page for complete information.

Majors (45 credit hours)

Accounting
Finance
Management (Entrepreneurship, Organizational Management, Human Resource Management, Operations and Supply Chain Management, Management Information Systems)
Marketing (Marketing, Strategic Professional Selling)

Additional Learning Opportunities

Distance Education

The major in general business is a 63 credit hours degree completion program offered through the K-State Global Campus and is available only to off-campus students.

The degree is suitable for individuals who have an associate of science degree, who are employed full time and want to continue their education, or who have family responsibilities that make it impossible to take courses in a traditional on-campus manner.

Admission to the program requires the student to have completed at least 45 hours of the Business Pre-Professions Program (BAPP) with a GPA of 2.5 or higher on the first 12 hours of K-State course work. Application for admission to the general business degree program should be made through the K-State Global Campus, non-traditional studies program, at 1-800-622-2KSU or on the website.

Experiential Learning

The College of Business Administration, through the internship program, study abroad, and service learning, offers opportunities for students to obtain experience in business and industry as part of their college education. Students are strongly encouraged to take advantage of one or more of these opportunities during their academic career at K-State and should work with their academic advisor to determine how for-credit experiential learning can be applied to the student's degree requirements.

Pre-Business Education

Pre-business education majors are enrolled in and advised by the College of Education. Students interested in teaching business education at the high school level are instructed to refer to the licensure requirements for details.

Pre-Law

Law schools emphasize various objectives in pre-law study for the development of basic skills and insights. These objectives are: the acquisition of skills in comprehension and expression; understanding human institutions; and the ability to think clearly, carefully, and independently. A pre-law student enrolled in the College of Business Administration not only achieves these important goals, but also obtains a broad business background that is desirable preparation for study of the law.

Business Minor

Program requirements

Upon graduation, most students will be involved in organizations, profit or nonprofit, that will use business concepts and principles to improve their services or products. To complete the business minor students must graduate from another Kansas State University college and complete the business courses listed below:

ACCTG 231 - Introduction to Managerial Accounting **Credits:** 3
ACCTG 241 - Introduction to Financial Accounting **Credits:** 3
FINAN 450 - Principles of Finance **Credits:** 3
MANGT 220 - Principles of Management **Credits:** 3
MKTG 250 - Introduction to Marketing **Credits:** 3

Notes

The business minor is only available to non-business majors who will graduate from another college at K-State. At least three of the five required courses must be completed at Kansas State University. Students must achieve a cumulative 2.50 GPA (K-State and transfer grades) in the five required courses to complete the minor. Note: Transfer grade of a "D" does not transfer.

Total credit hours: (15)

Data Analytics Undergraduate Certificate

Data analytics (DA) is the extensive use of analytical tools and technologies to develop insights from structured and unstructured data ("big data"). There is an increasing demand for managers and analysts with talents ("data savvy") in managing and analyzing data and applying the findings to fact-based decisions, action, and learning.

The purpose of the Certificate in DA is to provide an opportunity for K-State students to develop strong talent in such areas as data-driven problem understanding and solving, data collection and management, information visualization, and storytelling. The DA certificate will help K-State students to distinguish themselves as "data savvy" in their professional fields.

Other Requirements:

Students must earn at least a 2.5 GPA on all courses taken to fulfill the requirements of the certificate program.
The certificate will be issued by the K-State College of Business Administration and noted on the transcript.
The certificate can be earned post-baccalaureate.
Certificate can be completed by degree seeking students at Kansas State University or obtained as a credential on its own (free-standing). Students who do not intend to become a candidate for a bachelor's degree at Kansas State University must apply for admission as a non-degree, certificate-seeking student. Such students must submit the admission application, application fee, and transcripts. Applicants must provide documentation of high school or GED completion and, if college courses have been attempted, official transcripts demonstrating a cumulative GPA of 2.0 or higher for all post-secondary coursework. Students who later choose to pursue a bachelor's degree must apply for admission as a degree-seeking student.

Core Courses (9 credit hours)

MIS 665 - Business Analytics and Data Mining **Credits:** 3
MIS 670 - Social Media Analytics and Web Mining **Credits:** 3
MKTG 480 - Marketing Analytics Fundamentals **Credits:** 3

Elective Courses

Select 2 from the following courses:

CIS 531 - Introduction to Programming Techniques for Data Science and Analytics **Credits:** 3
ECON 630 - Introduction to Econometrics **Credits:** 3
FINAN 623 - Financial Modeling **Credits:** 3
MANGT 521 - Managerial Decision Analytics **Credits:** 3
MANGT 523 - Human Resources Analytics **Credits:** 3
MANGT 525 - Organizational Management and Data Analytics **Credits:** 3
MANGT 663 - Supply Chain Analytics **Credits:** 3
MKTG 551 - Data Narratives and Visualization **Credits:** 3
MKTG 653 - Applications of Marketing Analytics **Credits:** 3
MKTG 650 - Digital Marketing Analysis and Strategy **Credits:** 3
MKTG 654 - Marketing Research **Credits:** 3
MIS 422 - Business Database and SQL **Credits:** 3
MIS 756 - Business Data Pipelines **Credits:** 3

International Business Undergraduate Certificate

The certificate in international business is open to all students, and it appeals to students seeking adventure, growth, and international exposure that will enhance their personal and professional development. The certificate will be awarded to students who achieve a superior level of expertise in international aspects of business. This certificate will be noted on the student's transcript.

Required Courses (9 hours)

ECON 681 - International Trade **Credits:** 3
MANGT 590 - International Management **Credits:** 3
MKTG 325 - International Marketing **Credits:** 3

Students completing the international business certificate can follow the non-foreign language track or the language track.

Non-Foreign Language Track (6 hours)

Select 2 courses (6 hours) from the following list:

ECON 682 - Development Economics **Credits:** 3
ECON 684 - International Finance and Open Economy Macroeconomics **Credits:** 3
FINAN 643 - International Financial Management **Credits:** 3
GEOG 100 - World Geography & Globalization **Credits:** 3
MANGT 260 - Workplace Dynamics and Organizational Culture **Credits:** 3
MKTG 326 - International Business **Credits:** 3

or

A class approved by the Director of the International Program.

Study abroad experience, international service learning, or international internship (at least 3 hours of relevant approved coursework as part of the experience).

Language Track (6 hours)

Select 2 courses (6 hours)

Two (2) advanced language courses (fourth level proficiency)

Study abroad experience, international service learning, or international internship (at least 3 hours of relevant approved coursework as part of the experience).

Notes:

Students must earn a minimum of a 2.50 grade point average on courses taken to fulfill the requirement of the CIB.

No more than 25% of total credit hours required for the certificate program may be transfer hours. Student must earn at least 75% of credits that apply to the certificate program from Kansas State University OR an approved university affiliate of Kansas State University in a foreign country.

Certificate can be completed by degree seeking students at Kansas State University or obtained as a credential on its own (free standing). Students who do not intend to become a candidate for a bachelor's degree at Kansas State University must apply for admission as a non-degree, certificate-seeking student. Such students must submit the admission

application, application fee, and transcripts. Applicants must provide documentation of high school or GED completion and, if college courses have been attempted, official transcripts demonstrating a cumulative GPA of 2.0 or higher for all post-secondary coursework. Students who later choose to pursue a bachelor's degree must apply for admission as a degree-seeking student.

The number of students admitted into the CIB will be based on resource availability.

Accounting

The mission of the Department of Accounting at Kansas State University is to ensure a quality liberal, general business, and accounting education at the undergraduate and master's levels that prepares students to become both productive citizens and successful professional accountants.

The focus of the faculty of the Department of Accounting in achieving its mission is on maintaining a responsive accounting program that provides students with sufficient technical and conceptual knowledge for a successful career in accounting as well as with the problem-solving and communication skills necessary to apply their knowledge in a professional setting. To maintain such a program and as a matter of principle, the faculty of the Department of Accounting is committed to and considers its highest priority high quality teaching, including innovative curriculum and other instructional development. The faculty is also committed to research and other forms of scholarly activity that add to the body of knowledge or support and foster improvement in teaching. In addition, the faculty is committed to participation in service activities that advance the profession and maintain the faculty's professional currentness. Also to maintain such a program and as a matter of principle, the faculty of the Department of Accounting is committed to attracting and retaining highly motivated students with promise of success both in the Department's academic program and in the accounting profession. To this end, the faculty actively engages in student recruitment and placement, and strives to provide a supportive instructional environment.

Bachelor of Science in Business Administration

Accounting (BSBA)

Accounting is often called the "language of business" because its terms and concepts are used to describe the daily events of business. The accountant measures and reports to various users the relevant financial information necessary for decision making.

The objective of the undergraduate accounting program is to provide basic conceptual accounting and business knowledge as a foundation for the fifth-year (master of accountancy) program. Requirements that accomplish this objective are specified below.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of

100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements: (44 credit hours)

The curriculum for this major assumes students enter college prepared to take Calculus.

The finance curriculum prepares students in a broad range of careers in finance.

The curriculum provides students with the analytical skills for the analysis, evaluation, and reporting of financial information as well as broad knowledge of financial markets, institutions, and services. These skills are ultimately used in managerial decision making by businesses and regulatory agencies as well as providing financial products and services to the consumer.

Graduates in finance are prepared to pursue careers as analysts, financial manager, banking, consumer lending, brokerage services, financial planning, portfolio management, and real estate.

Finance majors are expected to develop a broad understanding of business management, accounting, economic theory, management information systems, and quantitative techniques. In addition, effective written and oral communication skills and the ability to work in groups are essential for a successful career in finance. The curriculum of the Department of Finance is designed to help the student develop these necessary skills through active learning methods.

Undergraduate Certificate

Investment Management Undergraduate Certificate

The Certificate in Investment Management is intended for those students who have interests in personal investing or in the investment management industry. The required courses are designed to provide these students with the fundamentals of investing and a broader business perspective of the investment management industry. After completing this certificate students will be able to:

- Apply the principles of financial analysis to issues specific to the investment management industry, including the valuation of financial assets using fundamental analysis, the use of technical analysis for asset selection, and trading of assets in financial markets.
- Describe the role of each of the four major functional areas (accounting, finance, management, marketing, and information technology) in the investment management firm and illustrate the contributions of these areas to the success of the firm.
- Explore the legal and ethical environments within which investment management firms operate.
- Analyze financial statements and show their relationship to security valuation.
- Identify personal and professional skills necessary for success in the investment management industry.

In addition to three required courses, students seeking the certificate will also choose two elective courses best suited for their personal career choices. These courses are designed to provide further knowledge in specific functional areas.

Students who have earned this Certificate will be able to distinguish themselves by demonstrating competency in personal investing or the investment management industry.

Certificate Requirements

All students enrolled in the Certificate will take 9 credit hours of the core, and choose six credit hours from eligible electives.

Core Courses (9 credit hours)

FINAN 450 - Principles of Finance **Credits:** 3
FINAN 451 - Introduction to Integrated Investment Management **Credits:** 3
FINAN 500 - Investment Management Concepts **Credits:** 3

Elective Courses (6 credit hours)

Select 2 of the following four courses

ACCTG 445 - Financial Statement Analysis **Credits:** 3
AGEC 520 - Market Fundamentals and Futures/Options Trading **Credits:** 3
COMM 526 - Persuasion **Credits:** 3
ECON 530 - Money and Banking **Credits:** 3
IMSE 530 - Engineering Economic Analysis **Credits:** 2
and
IMSE 532 - Industrial Project Evaluation **Credits:** 1
MATH 501 - Mathematical Foundations of Actuarial Science **Credits:** 3
SALES 300 - Fundamentals of Professional Selling **Credits:** 3
PFP 305 - Advanced Personal Financial Planning **Credits:** 3

Course and Certificate Completion Notes

Students must earn a minimum of 2.5 GPA on courses taken to fulfill the requirements of the Certificate in Integrated Investment Management.

No more than 25% of total credit hours required for the certificate may be transfer credits. Students must earn at least 75% of credits that apply to the certificate from Kansas State University or an approved university affiliate of Kansas State University in a foreign country.

Certificate can be completed by degree seeking students at Kansas State University or obtained as a credential on its own (free-standing). Students who do not intend to become a candidate for a bachelor's degree at Kansas State University must apply for admission as a non-degree, certificate-seeking student. Such students must submit the admission application, application fee, and transcripts. Applicants must provide documentation of high school or GED completion and, if college courses have been attempted, official transcripts demonstrating a cumulative GPA of 2.0 or higher for all post-secondary coursework. Students who later choose to pursue a bachelor's degree must apply for admission as a degree-seeking student.

FINAN 510 - Financial Institutions and Markets **Credits:** 3
and
FINAN 520 - Investments **Credits:** 3

Management

William Turnley, Department Head

Business Building Suite 3091
1301 Lovers Lane
785-532-6296

E-mail: turnley@k-state.edu
Web page

The curriculum in management presents three on-campus majors: entrepreneurship, management, and management information systems (MIS). Through the Department of Management, the College of Business Administration also offers a general business degree taught using distance learning technology. This major is available only to off-campus students.

Management majors select an area of emphasis in human resource management, and supply chain operations management, or organizational management and entrepreneurship. Students in many academic disciplines need management and supervisory skills in order to advance in their chosen profession. Students in all management majors will learn how to apply management concepts and principles to improve services, products, and operations within organizations across a wide array of industries.

Bachelor of Science in Business Administration

Entrepreneurship and Innovation (BSBA)

The program will:

- Provide a full range of coursework aimed at assisting students with the creation and development of new venture ideas, and the skills to develop a marketing plan, financial plan and a complete business plan for their ideas.
- Establish stronger connections to local entrepreneurs and small business owners to serve as advisors and mentors for the K-State academic departments and students.
- Provide an avenue for students who are budding entrepreneurs to more fully prepare for the realities of business as they start their new ventures.
- Allow K-State to compete for the growing number of students who desire the opportunity to study the entrepreneurial process within the context of business.
- Provide additional integration with the established structure of entrepreneurship opportunities within the K-State community (i.e., Innovation Partners, Technology Development).
- Provide courses that will be available to all majors across the K-State academic environment, so that those outside the College of Business have access to information on starting up new business ventures.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirement: (44 credit hours)

Management - Strategic Management (BSBA)

The Strategic Management (SM) track is designed for students interested in how businesses develop and implement strategies effectively while leveraging resources efficiently to achieve a sustainable competitive advantage. By taking courses such as Strategic Management, International Management, Managerial Consulting, and Data Analytics, students gain the knowledge and skills necessary to manage various business operations and develop data-driven solutions to complex business problems. Graduates of this track are well-equipped for a wide range of industries and careers, including management consulting, project management, and business analyst.

Management Information Systems (BSBA)

The management information systems major focuses on the technical and conceptual skills needed to help organizations solve problems using technological and digital solutions. The role of the information systems professional requires knowledge of systems applications and data management tools, as well as a broad understanding of how such systems and technology can be applied to business processes.

The K-State MIS program is designed to produce graduates who are business application developers, especially in team project settings. Organizations recognize the need for analysts and developers that understand both business and technology, particularly in functional areas such as marketing, accounting, finance, human resources, supply chain management, and general management.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

Any course offered by the University 100 level or above.

Total Hours Required for Graduation: 120

Operations and Supply Chain Management (BSBA)

The program will:

Provide knowledge and skills adequate to assume supply chain management positions in a broad spectrum of organizations.
Prepare students for careers in procurement management, manufacturing operations, warehousing, logistics, and transportation management in organizations that produce, sell, and distribute goods and services to end customers
Provide knowledge of how global supply chains operate and the skills to make decisions to support strategic, tactical, and operational activities to manage efficient and effective supply chains.
Prepare students for ethical decision-making practices that are associated with managing relationships with supplier and customer organizations.
Provide a full range of coursework on how to apply analytical techniques and utilize data to better orchestrate the actions of various entities involved in the supply chain, such as manufacturers, vendors, transportation companies, distribution centers, and retailers.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements (44 credit hours)

The curriculum for this major assumes students enter college prepared to take Calculus.

Minor

Entrepreneurship and Innovation Minor

The minor will develop student's capacity to understand the financial, marketing, managerial, and operational sides of starting and running a successful business as well as focus on how these skills can be utilized in corporate or nonprofit settings.

Required Course (6 cr hrs for Non-Business Majors or 3 cr hrs for Business Majors)

ENTRP 340 - Business Innovation and the Entrepreneurial Mindset **Credits:** 3 *
ENTRP 575 - Entrepreneurship and Innovation Capstone **Credits:** 3

Electives (9 cr hrs for Non-Business Majors or 12 cr hrs for Business Majors)

ENGL 455 - Exploring Creativity **Credits:** 3
ENTRP 350 - Technology and Innovation Management **Credits:** 3
ENTRP 411 - Intrapreneurship **Credits:** 3
ENTRP 435 - Entrepreneurial Experience **Credits:** 3
ENTRP 440 - Entrepreneurship **Credits:** 3
ENTRP 466 - Digital Business **Credits:** 3
ENTRP 520 - Social Entrepreneurship **Credits:** 3
ENTRP 540 - Entrepreneurial Consulting **Credits:** 3
FINAN 561 - Finance for Entrepreneurs **Credits:** 3

Total required hours: (15)

Note:

*ENTRP 340 is in the business core and is required of all Business Majors. Thus, Business Majors are required to take 12 credit hours of electives (instead of 9 credit hours) to fulfill the requirements for the minor.

Management Minor

The management minor is targeted toward non-business and non-management business majors. Students in many academic disciplines need management and supervisory skills in order to advance in their chosen profession. Students will learn how to apply management concepts and principles to improve services, products, and operations within organizations across a wide array of industries.

The minor is flexible by design. Non-business students will take the introductory management course, plus four courses drawn from a multidisciplinary list of options, allowing students to incorporate an emphasis in the area of management (e.g., human resources, organizational behavior, operations management, sports management, international management, or business law) that best meets their needs. Non-management business students take two entry-level courses in organizational behavior (how to motivate and lead people) and human resources (personnel systems and tools). The other three elective courses come from the above areas that best meets their needs.

The minor consists of 15 credit hours. Management majors are not allowed to complete the management minor.

At least three of the five courses must be completed at Kansas State University. Prior permission is required from the College of Business Administration to take a class at another institution. Prerequisites and requisites associated with the management courses must be followed. The minor will be awarded upon or after being awarded a baccalaureate degree and students must earn a minimum 2.50 KSU cumulative GPA across all five courses to graduate with the minor.

Non-Business Majors (15 hours)

MANGT 220 - Principles of Management **Credits:** 3
MANGT 520 - Organizational Behavior **Credits:** 3
MANGT 531 - Human Resources Management **Credits:** 3

Undergraduate Certificate

Diversity, Equity, Inclusion, and Belonging in Business Undergraduate Certificate

The Diversity, Equity, Inclusion, and Belonging (DEIB) in Business Certificate offers a focused specialty area of study that builds skills related to strategically managing a multicultural and identity diverse workforce. There is an increasing expectation that employees be able to work effectively with colleagues and clients who identify differently from themselves. Furthermore, managers are increasingly expected to understand and be able to apply how DEIB can increase revenue and decrease expenses within their business context. Finally, businesses, consumers, and other stakeholders are increasingly prioritizing corporate social justice.

The purpose of the certificate is four-fold. First, to provide an opportunity for K-State students to deepen their understanding their own perspectives and those of others so they can perform in a culturally intelligent manner. Second, to understand workplace strategies that foster diversity and inclusion and increase employees' sense of belonging. Third, to highlight the business case for diversity and highlight the ways that greater inclusion results in more successful business enterprises. Finally, the certificate helps students distinguish themselves as a leader who is committed to fostering diversity and building belonging in their professional field.

Total Hours Required: 12

Managerial Consulting Undergraduate Certificate

The Managerial Consulting Certificate provides specialized training in the management consulting process as it applies to both internal (business development) and external (consulting industry) contexts. Students will learn how to apply consulting tools and frameworks to engage clients, identify and analyze organizational problems, effectively present their findings, formulate recommendations, and implement change initiatives. Through a variety of applied learning experiences, students will sharpen their analytical, critical thinking, interpersonal, and written and oral communication skills. This certificate is relevant to anyone interested in identifying new business opportunities, tasked with managing organizational change, or responsible for client relationships, as well as those seeking traditional consulting careers.

Program Requirements

Admission Requirements: Certificate can be completed by degree-seeking students at Kansas State University or obtained as a credential on its own (free-standing). Students who do not intend to become a candidate for a bachelor's degree at Kansas State University must apply for admission as a non-degree, certificate-seeking student. Such students must submit the admission application, application fee, and transcripts. Applicants must provide documentation of high school or GED completion and, if college courses have been attempted, official transcripts demonstrating a cumulative GPA of 2.0 or higher for all post-secondary coursework. Students who later choose to pursue a bachelor's degree must apply for admission as a degree-seeking student.

Graduation Requirements:

Students must earn at least a 2.5 GPA in all courses taken to fulfill the requirements of the certificate program. Issued by the K-State College of Business Administration, the student's transcript will note the certification.

Required Courses: (9 credit hours)

Note: For business majors, no more than 2 major field requirement courses may be counted toward the certificate.

MANGT 515 - Managerial Consulting **Credits:** 3
ENTRP 540 - Entrepreneurial Consulting **Credits:** 3
Choose one from the courses below: Credits / Units: 3
MANGT 521 - Managerial Decision Analytics **Credits:** 3

SOCIO 546 - Bureaucracy in Modern Societies **Credits:** 3

Total Hours Required for Graduation: 15

Supply Chain Management Undergraduate Certificate

Logistics and supply chain management are among the fastest-growing business sectors in the Heartland region, a focal point for the movement and distribution of goods throughout the country. The Supply Chain Management (SCM) Certificate is to provide Kansas State University students with an opportunity to explore and pursue career choices in logistics and supply chain management. Considering the growing attention that supply chain management has received in recent times, students in other business disciplines as well as non-business majors (e.g., agriculture, engineering, etc.) would benefit from developing a solid background on processes related to the flow of material and information from supplier to customer and vice versa.

The SCM Certificate curriculum is designed based on the Supply Chain Operations Reference (SCOR) model, one of the most frequently used references to support the description of supply chains, developed and endorsed by the APICS Supply Chain Council as the gold standard for managing supply chains. The model is organized around the six key supply chain processes: Plan, Source, Make, Deliver, Return, and Enable. The core curriculum of the certificate – MANGT 421, MANGT 561, MANGT 660, and MANGT 662 – provide comprehensive coverage of the key SCOR model processes. After completing the certificate, students should be able to understand the different sourcing and procurement strategies, develop logistics networks that minimize cost and deliver superior customer service, understand how to plan and schedule production activities, know the various modes of transportation, and understand how to design and set up a warehouse facility and learn how to deliver products and services to the ultimate customers.

Admission Requirements

Admission to the Certificate in SCM is open to any Kansas State University students pursuing an undergraduate degree in good standing.

Graduation Requirements

Students must earn a minimum of 2.50 grade point average in courses taken to fulfill the requirements of the Certificate in Supply Chain Management. Furthermore, students must earn at least 9 of the credits hours that apply to the certificate from Kansas State University.

Required Courses (12 credit hours)

MANGT 421 - Introduction to Operations and Supply Chain Management **Credits:** 3
MANGT 561 - Transportation and Warehouse Management **Credits:** 3
MANGT 660 - Supply Chain Planning and Control **Credits:** 3
MANGT 662 - Procurement, Logistics and Supply Chain Design **Credits:** 3

Marketing is a dynamic, ever-evolving field that opens doors to incredible opportunities. It's all about creating value—developing innovative products, setting competitive prices, crafting compelling promotions, and ensuring smart distribution to meet customer needs.

Our Marketing curriculum gives you the flexibility to focus on areas that spark your interest, whether it's sales, research, analytics, or strategic marketing. As a marketing major, you will gain the insights needed to spot opportunities, build impactful strategies, and bring them to life in the real world.

Through courses, internships, study abroad experiences, and independent studies, you will be immersed in real-world marketing challenges, preparing you to become a confident and successful marketing professional.

Want to dive even deeper? Our certificate programs allow specialization in areas that match your passions:

- ✅ Business of Sports & Entertainment
- ✅ Professional Strategic Selling
- ✅ Marketing Technology

Bachelor of Science in Business Administration

Marketing (BSBA)

Marketing is a broad, dynamic field with many interesting opportunities for students. The Marketing curriculum gives students the ability to study an area of emphasis within the field, including marketing management, marketing analytics and sales. Study in Marketing covers such areas as consumer behavior, marketing channels, international marketing, retailing, services marketing, business marketing, sports marketing, digital marketing, and marketing strategy. All areas of study provide individuals with excellent opportunities for rapid advancement in professional marketing positions. Dual degree and dual major programs combining marketing with other fields may be arranged by consulting the Department of Marketing.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements: 44 credit hours

The curriculum for this major assumes students enter college prepared to take Calculus.

Professional Strategic Selling (BSBA)

The major in Professional Strategic Selling will build upon the existing sales coursework in Marketing. The establishment of a major in professional strategic selling would:

Provide a full range of coursework aimed at developing students selling skills;
Provide an avenue for students who are seeking a sales career to more fully prepare for the realities of the sales role.
Allow KSU to compete for the growing number of students who desire the opportunity to study the professional strategic selling within the context of business.
Continue to develop strong connections with businesses locally as well as nationally; a sales major will influence the desire of businesses to recruit for entry level sales positions at K-State;
Meet the business community's ever-growing demand for well-prepared sales talent.

The Major in Professional Strategic Selling will focus on the business skills needed to be successful in a sales career. Moreover, this major will open numerous opportunities for our students; recent reports note that demand for well-qualified sales talent is high, and yet the availability of such talent is limited, largely because few universities offer programs in sales education.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

Minor

Marketing Minor

The marketing minor is targed toward non-marketing majors. Students in many other disciplines would be able to acquire necessary marketing skills needed in business.

Program requirements

The Marketing Minor consists of 15 credit hours. Marketing majors are not allowed to complete the marketing minor.

At least three of the five courses must be completed at Kansas State University. Prior permission is required from the College of Business to take a class at another institution. Prerequisites and requisites associated with the marketing courses must be followed. The minor will be awarded upon or after being awarded a baccalaureate degree and students must earn a minimum 2.50 KSU cumulative GPA across all five courses to graduate with the minor.

Will consist of two core courses and three elective courses. Students will take MKTG 400 Introduction to Marketing as the prerequisite course for the other courses. Students should take the core in the order given below, but it is not required. Electives can be taken at any time.

Non-Business Majors: 15 credit hours

MKTG 400 - Introduction to Marketing **Credits:** (3)

A general study of marketing principles which lead to the development of marketing strategy. A review of environmental influences and key analytical tools used in formulating marketing plans. Product or service design, distribution, pricing, and promotional programs.

MKTG 450 - Consumer Behavior**. Credits:** (3)

Consumer behavior is the study of the cognitive, affective, and behavioral factors that interact with social, cultural, and situational influences to guide decision making in the marketplace. The goals are to provide a conceptual understanding of consumer behavior, experience in applying consumer behavior concepts to marketing strategy, and knowledge of consumer research applications

Marketing Electives: 9 credit hours

Non-Business Majors. Choose 3 courses from the list below: 9 credit hours:

MKTG 300 - Introduction to Digital Marketing **Credits:** 3
MKTG 302 - Brand Marketing **Credits:** 3
MKTG 305 - Socially Responsible Marketing **Credits:** 3
MKTG 306 - Business to Business Marketing **Credits:** 3

Other Requirements

Students must earn at least a 2.5 GPA in all courses taken to fulfill the requirements of the Minor program.
Issued by the K-State College of Business Administration, the student's transcript will note the minor.

Total Hours Required for Minor: 15

Undergraduate Certificate

Business of Sports and Entertainment Undergraduate Certificate

The Business of Sports and Entertainment Certificate is designed to develop insights and opportunities in a rapidly growing industry for K-State students. The purpose of the Business of Sports and Entertainment Certificate is three-fold. First, it provides an opportunity for students interested in a career in sports or entertainment to augment the perceived value of their major and distinguish themselves on the job market. Second, it provides a deep understanding of the role of sports and entertainment in business, enhanced by hands-on, real-time experiential learning opportunities. Third, it provides an appealing context that both draws students and motivates learning in the essential areas of marketing, economics, and management, in a way that is transferrable to virtually any type of business.

Admission Requirements

Certificate can be completed by degree seeking students at Kansas State University or obtained as a credential on its own (free-standing). Students who do not intend to become a candidate for a bachelor's degree at Kansas State University must apply for admission as a non-degree, certificate-seeking student. Such students must submit the admission application, application fee, and transcripts. Applicants must provide documentation of high school or GED completion and, if college courses have been attempted, official transcripts demonstrating a cumulative GPA of 2.0 or higher for all post-secondary coursework. Students who later choose to pursue a bachelor's degree must apply for admission as a degree-seeking student.

Graduation Requirements

Students must earn at least a 2.5 GPA in all courses taken to fulfill the requirements of the certificate program.
Issued by the K-State College of Business Administration, the student's transcript will note the certification.

Required Courses (6 credit hours)

MKTG 630 - Sports Marketing **Credits:** 3
ECON 524 - Sports Economics **Credits:** 3

Elective Courses (9 credit hours)

Choose three of the following:

HM 463 - Business Event Coordination **Credits:** 3
MANGT 630 - Sports Management **Credits:** 3
MC 478 - Entertainment and Strategic Communications **Credits:** 3
or
MC 479 - Strategic Communications and Sports **Credits:** 3
MKTG 495 - Marketing Internship **Credits:** 0-3
MKTG 440 - Entertainment Marketing **Credits:** 3
SALES 300 - Fundamentals of Professional Selling **Credits:** 3

Total hours required: 15

Marketing Technology Undergraduate Certificate

This certificate program teaches students strategic digital marketing communication and analytics, with a focus on comprehensive marketing strategies. Students learn how to use these strategies in real business situations, improving their practical skills.

The program also covers ways to present complex data through storytelling and visual aids. This helps students develop skills in combining, explaining, and professionally showcasing data-driven narratives.

Additionally, students gain an understanding of important digital marketing metrics and how they connect to an organization's strategic goals. They learn to evaluate these metrics across different platforms, which is crucial in today's diverse digital landscape.

By the end of the program, students can effectively assess marketing activities in relation to business objectives. This knowledge allows them to create and implement successful marketing strategies in the digital world.

Students upon completion of the certificate are able to

- Prepare strategic communications for digital marketing, including structure and development
- Communicate complex datasets in a storytelling format and utilize industry-recommended visualization techniques
- Analyze digital marketing metrics and relate them to strategic objectives of an organization
- Earn industry certifications

Required Courses: 9 credit hours

MKTG 540 - Digital Content Strategy and Development **Credits:** 3
MKTG 551 - Data Narratives and Visualization **Credits:** 3
MKTG 650 - Digital Marketing Analysis and Strategy **Credits:** 3

Electives: 6 credit hours

ACCTG 413 - Accounting Information Systems **Credits:** 3
ARE 310 - Introduction to AutoCAD **Credits:** 1
CIS 200 - Programming Fundamentals **Credits:** 4
DEN 301 - Creative Problem Solving in Engineering **Credits:** 1

DIGME 406 - Social Media **Credits:** 3
ECE 241 - Introduction to Electrical and Computer Engineering **Credits:** 3
ENTRP 466 - Digital Business **Credits:** 3
IMSE 441 - Introduction to Analytics **Credits:** 3
MC 370 - Social Media Strategy & Management **Credits:** 3
MC 374 - Social Media Content Development **Credits:** 3
MC 445 - Digital Brand Strategy **Credits:** 3
ME 212 - Engineering Graphics **Credits:** 2
ME 400 - Computer Applications in Mechanical Engineering **Credits:** 3
MIS 366 - Introduction to Business Analytics and Information Systems **Credits:** 3
MIS 665 - Business Analytics and Data Mining **Credits:** 3
MKTG 480 - Marketing Analytics Fundamentals **Credits:** 3
MKTG 653 - Applications of Marketing Analytics **Credits:** 3
SALES 450 - Sales Technology **Credits:** 3
SALES 452 - Customer Relationship Management **Credits:** 3

Total hours required: 15

Professional Strategic Selling Undergraduate Certificate

The Professional Strategic Selling Certificate is designed to prepare students for a career in sales. The program exposes students to the fundamentals of sales and through innovative curriculum and sales labs, allows them to develop the skills needed to be successful. The certificate is open to all majors within the university.

The certificate consists of 15 credit hours, one current core course in Business Administration and four courses related to sales. Entry into the PSS Certificate program is competitive. Students must apply and be accepted to the program via a behaviorally-based interview process conducted by faculty and corporate partners.

Students must earn a minimum 2.50 grade point average on courses taken to fulfill the requirements of the certificate.

No more than 25% of total credit hours required for the certificate may be transfer credits. Students must earn at least 75% of credits that apply to the certificate from Kansas State University OR an approved university affiliate of Kansas State University in a foreign country.

The certificate can be completed by degree seeking students at Kansas State University or obtained as a credential on its own (free-standing). Students who do not intend to become a candidate for a bachelor's degree at Kansas State University must apply for admission as a non-degree, certificate-seeking student. Such students must submit the admission application, application fee, and transcripts. Applicants must provide documentation of high school or GED completion and, if college courses have been attempted, official transcripts demonstrating a cumulative GPA of 2.5 or higher for all post-secondary coursework. Students who later choose to pursue a bachelor's degree must apply for admission as a degree-seeking student.

Required Courses: (12 Credit Hours)

MKTG 250 - Introduction to Marketing **Credits:** 3
SALES 300 - Fundamentals of Professional Selling **Credits:** 3
SALES 450 - Sales Technology **Credits:** 3
SALES 451 - Sales Force Leadership **Credits:** 3

Elective Course: (3 Credit Hours)

Choose 1 of the following courses:

CE 585 - Civil Engineering Project **Credits:** 3
CNRES 531 - Interpersonal Conflict Resolution **Credits:** 3
COMM 526 - Persuasion **Credits:** 3
ENGL 415 - Written Communication for Engineers **Credits:** 3
FASH 375 - Digital Fashion Communications **Credits:** 3
FNDH 515 - Counseling Strategies in Dietetic Practice **Credits:** 3

College of Education

Debbie K. Mercer, Dean
Cindy Shuman, Associate Dean for Research and External Funding
F. Todd Goodson, Associate Dean for Teacher Education and Accreditation
Roger W. Schieferecke, Assistant Dean, Director of the Center for Student Success and Professional Services

114 Bluemont Hall
785-532-5525
Fax: 785-532-7304
E-mail: edcoll@k-state.edu
www.coe.k-state.edu

College of Education programs prepare individuals for the broad spectrum of professional education positions.

Primary consideration is given to preparing education students for the various positions in elementary, secondary, career, and technical programs and the personnel who support these programs. In addition, the college provides consultative services and in-service training to improve various aspects of education programs at all levels. The College of Education cooperates with all other colleges and departments in its interdisciplinary approach to preparing teachers and other educational personnel.

The university is accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools (NCA), and the teacher education programs are accredited by the Kansas State Department of Education (KSDE) and the Council for the Accreditation of Educator Preparation (CAEP).

The college offers a bachelor's degree in education with an emphasis in elementary or secondary education and supports education programs outside the College of Education in agriculture, early childhood, family and consumer sciences, and music education. This degree leads to recommendations for teacher licensure in Kansas.

The college offers a bachelor's degree in educational studies, preparing successful candidates to participate in shaping and making educational policy, working with youth in non-school settings, preparing for international teaching, or participating in the entrepreneurial realm.

The professional education unit at Kansas State University is committed to preparing educators to be knowledgeable, ethical, caring decision-makers for a diverse and changing world through:

delivery of exemplary instruction to students at the undergraduate and graduate levels;
production, interpretation, and dissemination of sound and useful research and scholarship;
leadership, collaboration, and service within the profession; and
promotion, understanding, and celebration of diversity.

Advising

All students admitted to the College of Education are assigned an advisor from the Center for Student Success and Professional Services (114 Bluemont Hall).

EDCATS Central

EDCATS Central, a Canvas page for College of Education students, serves as a clearinghouse for all program documentation forms.

Teacher Education

The College of Education is the designated unit responsible for all K-State educator licensure.

The programs are designed to develop competencies essential for teaching and to meet Kansas State Department of Education standards. Some programs are parts of degree requirements in colleges other than the College of Education. All College of Education program requirements are subject to revision as necessary to meet Kansas licensure standards. Students should contact their advisors or the licensing officer if they have questions about licensure program changes.

Licensure through the teacher education program is available for four teaching levels: (a) early childhood unified birth through kindergarten, (b) elementary education prepares for grades P–6, (c) secondary programs satisfy state licensure requirements for grades 6–12, and (d) P-12 in art, music, modern languages, and physical education/health.

Professionalism Hours

These hours are required during the duration of the time in the program.

> By November 1st or April 1st of the semester before student teaching, documentation must be submitted concerning completing 20 hours of professional growth enrichment and 20 hours of educational service to youth and families.

Admission Requirements for Teacher Education

The application for admission to a teacher education program may be submitted when the applicant has satisfied all of the admission requirements. Transfer students who have satisfied all the admission requirements should apply at the time of initial enrollment. Students making changes in degree programs within teacher education must reapply for teacher education.

Hours

Requires 42 hours completed, including all transfer and K-State credit hours.

English Composition

Both Expository Writing I and II must be completed satisfactorily with a grade no lower than C (2.000).

Public Speaking

A grade of C or better is required in COMM 106, COMM 109, or COMM 322 Interpersonal Communications.

Quantitative Sciences

A grade of C or better is required in three credit hours of mathematics MATH 160 or a math as required by the KBOR Math Pathways.

Education Courses

EDCI 110 Foundations of Education and EDCI 200 Teaching as a Career (or ECED 210 Intro/Early Child Ed and ECED 313 Pre-Prof Exps ECE for Early Childhood) with a C or higher.

Overall Degree Program GPA

A 2.75 GPA is required in all attempted courses that meet degree program requirements, including all graded transfer and K-State credits. Probationary admission may be granted if the student has a 2.6 GPA and all other requirements are met. GPA must be 2.75 before the Professional semester.

Teaching Field GPA

A 2.750 GPA is required in all attempted courses that meet degree program requirements, including all graded transfer and K-State credit hours. Probationary admissions may be granted if the student has a 2.600 GPA and all other requirements are met. GPA must be 2.750 before the Professional semester(s).

Early Field Experience

Early field experience is completed in EDCI 230 or documentation of 30-40 hours of observation.

Application Deadlines

To enroll early in summer or fall professional classes, apply by February 15.
To enroll early in spring professional classes, apply by October 1.
When the applications are approved, students are notified of their acceptance into the respective teacher education professional program. Students who do not meet the requirements will be notified of available options.

Criminal Background Check

All students requesting practicum and internship placements complete a background check through an external provider.

The Professional Semester

The professional semester involves the equivalent of a full semester of student teaching. For residential students, this semester occurs in the fall or spring of the senior year. For online elementary education students, the professional semester occurs across both fall and spring semesters. There is no student teaching offered during summer sessions. Because of the school districts' schedules, students may be required to begin their student teaching before the start of K-State's semester schedule and/or end their student teaching after K-State's semester schedule ends.

Students desiring to be recommended for licensure by K-State must earn credit for student teaching. Students may only take the courses prescribed for the professional semester unless permission is obtained through the Office of Field Experience. Teaching participation is graded Credit/No Credit.

Admission to the Professional Semester

Students will be approved for the professional semester when the requirements below are met.

Requirements for all applicants to the professional semester

Full admittance to a teacher education program.
Completion of 90 semester hours.
An overall grade point average of 2.750 in all college or university coursework that meets degree program requirements.
Completion of all Professional and Teacher Education courses and practica with a 3.000 GPA with no grade lower than C.
Student may retake blocked methods courses once only.
Demonstrate the standards and dispositions defined in our Conceptual Framework.
Core Teaching Skills, and Methods courses must be taken at K-State.
Verification of a negative tuberculosis (TB) test.
Criminal Background check through an external provider.
Professional Liability Insurance.
Completion of the Professionalism requirement by November 1 or April 1 of final student teaching semester.
Verification of Red Cross first aid training (or an approved equivalent) and CPR certification (or an approved equivalent).

Additional requirements for secondary majors

A grade point average of 2.750 is required in all teaching fields based on all teaching field courses attempted at K-State and all colleges or universities attended.

Student teaching assignment request

Student teaching requires a special application called the Student Teaching Assignment Request (STAR form).

Professional Licensure

Initial Licensure

The College of Education serve as the recommending agent for all K-State graduates who wish to apply for Kansas licensure. Early childhood, elementary, and secondary teaching licensure may be accomplished through the completion of the approved program and the appropriate degree. Additional testing is required by the Kansas State Department of Education.

Students must meet the requirements for licensure in all areas requested at the time they apply for that licensure or endorsement.

The State of Kansas will issue initial teaching licenses only to individuals who have completed an approved teacher education program, received the recommendation of their college or university, and successfully passed the approved Praxis content assessments. Applicants are also required to pass a KSDE background check. Legal questions should be addressed to TLALicense@ksde.gov.

Anyone applying for initial licensure in a state other than Kansas is recommended to also apply for Kansas licensure. For additional information, these individuals should contact edcatslicensing@ksu.edu, 114 Bluemont Hall.

Approved programs

All students preparing to be licensed to teach in preschool, elementary, or secondary schools must fully complete the approved teacher education program regardless of which college awards the degree. The approved program consists of general education studies, a major or specialization, and professional education studies.

The elementary and secondary education curricula fulfill program requirements for recommendation for teacher licensure in the State of Kansas. Both degrees offered through the College of Education are four-year programs.

Elementary Education (B.S. in Education) [Inactive]
Secondary Education (B.S. in Education) [Inactive]

Non-licensure program:

Educational Studies (B.S. in Educational Studies) [Inactive]

Certificates:

K-12 Online Undergraduate Teaching and Learning
Sports Performance Coaching
Rual Education
Urban Education

Education Programs Outside the College of Education:

The curricula in agricultural education, family and consumer sciences education, early childhood education, and music education fulfill program requirements for recommendation for teacher licensure in the state of Kansas.

This department offers a four-year program leading to recommendation for Kansas licensure in the elementary school. The studies for the bachelor's degree include three areas: general education, professional education, and an area of concentration.

This department offers a four-year degree program leading to recommendation for Kansas licensure as a secondary school teacher in one or more of the following fields: art, biology, business, chemistry, earth and space science, English, journalism, mathematics, modern languages, physical education/health, physics, speech, and social science. In addition, the department provides teaching methods courses, field experiences, and secondary education student teaching experiences to serve students in music education. The department also provides similar courses for students in agricultural education, and family and consumer sciences education.

The bachelor's degree in educational studies prepares candidates to participate in shaping and making educational policy, work with youth in non-school settings, prepare for international teaching, or participate in the entrepreneurial realm.

Bachelor of Science

Art Education (BS)

Leads to a Kansas Teaching License in PK-12 in Art.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements: (37 credit hours)

A grade of C or higher is required in all Teacher Education courses and practica. A 3.0 or higher grade point average in Teacher Education courses and practica is needed before the Professional Semester.

Pre-Professional Component: (5 credit hours)

EDCI 110 - Foundations of Education **Credits:** 3
EDCI 200 - Teaching as a Career **Credits:** 1
EDCI 230 - Early Field Experience **Credits:** 1

Professional Education Component: (32 credit hours)

Admission to teacher education required.

Non-Blocked courses: (1 credit hour)

EDCI 318 - Educational Technology for Teaching and Learning **Credits:** 1
(Must be completed before Block II.)

Block 1: (8 credit hours)

Courses must be taken concurrently and prior to Block II.

CHM 351 - General Organic Chemistry Laboratory **Credits:** 2

Required Supporting Courses: (11 Credit Hours)

If not met through K-State Core requirements, MATH 100 is required.

MATH 100 - College Algebra **Credits:** 3
KSC-030
MATH 150 - Plane Trigonometry **Credits:** 3
PHYS 115 - Descriptive Physics **Credits:** 5
STAT 225 - Introduction to Statistics **Credits:** 3

Additional Teacher Ed Course: (3 Credit Hours)

EDSEC 614 - Laboratory Techniques in Teaching Science **Credits:** 3
EDCI 764 - Engineering Design Practices in Secondary Science Teaching **Credits:** 3

Total Hours Required for Graduation: 120

Business Education (BS)

Leads to a Kansas Teaching license in 6-12 Business.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements: (37 Credit Hours)

A grade of C or higher is required in all Teacher Education courses and practica. A 3.0 or higher grade point average in Teacher Education courses and practica is needed before the Professional Semester.

Pre-Professional Component: (5 Credit Hours)

EDCI 110 - Foundations of Education **Credits:** 3
EDCI 200 - Teaching as a Career **Credits:** 1
EDCI 230 - Early Field Experience **Credits:** 1

Professional Education Component: (32 Credit Hours)

Admission to teacher education required.

Non-Blocked courses (Must be completed before student teaching)

EDCI 405 - Middle-Level Education **Credits:** 2
EDCI 318 - Educational Technology for Teaching and Learning **Credits:** 1
(Must be completed before Block II.)

Block 1: (8 Credit Hours)

Courses must be taken concurrently and prior to Block II.

EDCI 315 - Educational Psychology **Credits:** 3

Elementary Education (BS)

Minimum of 120 credit hours required
Licensure K–6

Bachelor's degree requirements

KBOR Systemwide Elementary Education Requirement {PK-6}

The systemwide transfer degree provides a pathway from any Kansas public community college offering the degree to any Kansas public university for individuals desiring to become licensed as a PK-6 elementary teacher. The pathway identifies courses/credit hours to be taken at the community college level and reflects the Kansas Board of Regents (KBOR) General Education framework "buckets" (https://www.kansasregents.org/academic_affairs/general-education/seven-bucket-framework) and recommended education coursework. These courses/credit hours transfer to any KBOR university as the first sixty hours

toward a 120-hour PK-6 Elementary Education program degree. The remaining sixty hours at KBOR universities are the required courses to complete the PK-6 Elementary Education degree.

General Education: K-State Core Elementary Education PK-6

Teacher Education Preparation Requirements: 26 Credit Hours

Total Hours Required for Graduation: 120

Mathematics Education (BS)

Leads to a Kansas Teaching License in 6-12 Math.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements: (37 Credit Hours)

A grade of C or higher is required in all Teacher Education courses and practica. A 3.0 or higher grade point average in Teacher Education courses and practica is needed before the Professional Semester.

Pre-Professional Component: (5 Credit Hours)

EDCI 110 - Foundations of Education **Credits:** 3
EDCI 200 - Teaching as a Career **Credits:** 1
EDCI 230 - Early Field Experience **Credits:** 1

Professional Education Component: (32 Credit Hours)

Admission to teacher education required.

Non-Blocked courses (Must be completed before student teaching)

EDCI 405 - Middle-Level Education **Credits:** 2
EDCI 318 - Educational Technology for Teaching and Learning **Credits:** 1
(Must be completed before Block II.)

Block 1: (8 Credit Hours)

Courses must be taken concurrently and prior to Block II.

EDCI 315 - Educational Psychology **Credits:** 3
EDCI 320 - Core Teaching Skills and Lab **Credits:** 3
EDSP 323 - Exceptional Students in the Secondary School **Credits:** 2

Block II: (9 Credit Hours)

Courses must be taken concurently and prior to Student Teaching.

EDSEC 455 - Teaching in a Multicultural Society **Credits:** 1
EDSEC 477 - Content Area Literacies and Diverse Learners **Credits:** 2
EDSEC 525 - Interpersonal Relations in the Schools **Credits:** 1

KIN 380 - Principles of Exercise Training **Credits:** 3
PSYCH 110 - General Psychology **Credits:** 3
KIN Activity Electives **Credits / Units:** 2

Total Hours Required for Graduation: 120

Physics Education (BS)

Leads to a Kansas Teaching License in 6-12 Physics.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements: (37 Credit Hours)

A grade of C or higher is required in all Teacher Education courses and practica. A 3.0 or higher grade point average in Teacher Education courses and practica is needed before the Professional Semester.

Pre-Professional Component: (5 Credit Hours)

EDCI 110 - Foundations of Education **Credits:** 3
EDCI 200 - Teaching as a Career **Credits:** 1
EDCI 230 - Early Field Experience **Credits:** 1

Professional Education Component: (32 Credit Hours)

Admission to teacher education required.

Non-Blocked courses (Must be completed before student teaching)

EDCI 405 - Middle-Level Education **Credits:** 2
EDCI 318 - Educational Technology for Teaching and Learning **Credits:** 1
(Must be completed before Block II.)

Block 1: (8 Credit Hours)

Courses must be taken concurrently and prior to Block II.

EDCI 315 - Educational Psychology **Credits:** 3
EDCI 320 - Core Teaching Skills and Lab **Credits:** 3
EDSP 323 - Exceptional Students in the Secondary School **Credits:** 2

Block II: (9 Credit Hours)

Courses must be taken concurently and prior to Student Teaching.

EDSEC 455 - Teaching in a Multicultural Society **Credits:** 1
EDSEC 477 - Content Area Literacies and Diverse Learners **Credits:** 2
EDSEC 525 - Interpersonal Relations in the Schools **Credits:** 1
EDSEC 542 - Science Methods for Secondary and Middle Schools **Credits:** 3
EDSEC 543 - Science Methods Practicum **Credits:** 2

Professional Semester (Internship): (12 Credit Hours)

A 3.0 or higher grade point average in Teacher Education courses and practica is needed before the Professional Semester.

EDSEC 586 - Teaching Internship in Secondary Schools **Credits:** 1-12

Programs

The curriculum for this major assumes students enter college prepared to take Calculus.

Licensure Requirement: (23 Credit Hours)

PHYS 122 - Physics Today I **Credits:** 1
PHYS 123 - Physics Today II **Credits:** 1
PHYS 109 - Astronomy **Credits:** 3
PHYS 223 - Physics I, Mechanics, and Thermodynamics **Credits:** 5
PHYS 224 - Physics II, Electromagnetism, and Sound **Credits:** 5
PHYS 325 - Physics III, Relativity, and Quantum Physics **Credits:** 4
PHYS 506 - Advanced Physics Laboratory **Credits:** 4

Required Supporting Courses: (24 Credit Hours)

BIOL 198 - Principles of Biology **Credits:** 4
KSC 040
CHM 210 - Chemistry I **Credits:** 4
MATH 220 - Analytic Geometry and Calculus I **Credits:** 4
KSC 030

MATH 221 - Analytic Geometry and Calculus II **Credits:** 4
MATH 222 - Analytic Geometry and Calculus III **Credits:** 4
MATH 340 - Elementary Differential Equations **Credits:** 4

Additional Teacher Ed Course: (6 Credit Hours)

EDSEC 614 - Laboratory Techniques in Teaching Science **Credits:** 3
EDCI 764 - Engineering Design Practices in Secondary Science Teaching **Credits:** 3

Total Hours Required for Graduation: 120

Social Studies Education (BS)

Leads to a Kansas Teaching License in 6-12 Social Studies.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

SOCIO 211 - Introduction to Sociology **Credits:** 3
ANTH 204 - A General Education Introduction to Cultural Anthropology **Credits:** 3

Upper Level Social Studies: (6 Credit Hours)

At least 6 credit hours required. Choose one listed course from at least two of the following departments.

A. US History: Any 500-level Non-US History courses-and Non-US as 500+

B. Non-US History: Any 500-level Non-US HIST Course

C. Political Science:

POLSC 321 - Kansas Politics and Government **Credits:** 3
POLSC 525 - U.S. National Government and Politics **Credits:** 3
POLSC 603 - Political Parties and Elections **Credits:** 3
POLSC 605 - The American Presidency **Credits:** 3

D. Geography

GEOG 302 - Cartography and Thematic Mapping **Credits:** 3
GEOG 310 - Geography of Kansas **Credits:** 3
GEOG 340 - Natural Resources **Credits:** 3
GEOG 460 - Human Dimensions of Global Change **Credits:** 3
GEOG 500 - Geography of the United States **Credits:** 3
GEOG 508 - Geographic Information Systems I **Credits:** 4

E. Economics

ECON 510 - Intermediate Macroeconomics **Credits:** 3
ECON 520 - Intermediate Microeconomics **Credits:** 3
ECON 523 - Human Resource Economics **Credits:** 3
ECON 530 - Money and Banking **Credits:** 3
ECON 536 - Comparative Economics **Credits:** 3
ECON 555 - Urban and Regional Economics **Credits:** 3

F. Sociology

SOCIO 440 - Social Organization **Credits:** 3
SOCIO 450 - Introduction to Social Interaction **Credits:** 3
SOCIO 507 - International Development and Social Change **Credits:** 3

SOCIO 533 - Society, Food, and Agriculture **Credits:** 3

G. Anthropology

ANTH 260 - Introduction to Archeology **Credits:** 3
ANTH 505 - South Asian Civilizations **Credits:** 3

Additional Teacher Education Courses: (5 Credit Hours)

EDSEC 328 - Social Studies Colloquium I **Credits:** 1
EDSEC 428 - Social Studies Colloquium II **Credits:** 1
EDSEC 528 - Social Studies Colloquium III **Credits:** 3

Free Elective: (2 Credit Hours)

Any course chosen by the student to complete 120 credit hour requirement for program.

Total Hours Required for Graduation: 120

Speech Education (BS)

Leads to a Kansas Teaching License in 6-12 Speech.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Undergraduate Certificate

Computer Science Education Undergraduate Certificate

The Undergraduate Certificate in Computer Science Education is a collaborative program between the Department of Computer Science and the Department of Curriculum and Instruction. Students will develop advanced programing skills as well as appropriate pedagogical knowledge to teach computer science in a K-12 setting.

Required Courses

CC 110 - Introduction to Computing **Credits:** 2
CC 111 - Elements of Computer Programming **Credits:** 1
CC 210 - Fundamental Computer Programming Concepts **Credits:** 4
EDCI 365 - Problem-Based Learning and Computational Thinking in K-12 Schools **Credits:** 3
Select one of the following:
EDCI 368 - Teaching Computer Science in Elementary Schools **Credits:** 3
EDCI 369 - Teaching Computer Science in Secondary Schools **Credits:** 3

Total Hours Required: 13

Educational Technology Undergraduate Certificate

This 12-credit Undergraduate Educational Technology Certificate prepares participants to create appropriate environments to facilitate effective teaching and meaningful student learning in K-12 settings with technology.

Program Goals

To provide a foundation in the pedagogy of online teaching and learning.
To prepare undergraduates to create online courses, all built on up-to-date best practices in Learning Management Systems.
To provide the knowledge and skills necessary to design, implement and teach effective online courses in the K-12 Virtual Schools.

Student Learning Objectives

Upon completing this 12-credit Certificate program, participants will be able to:

Explain the key principles and practices of effective online teaching. (Addressed in EDCI 505)
Analyze target online learner populations to determine their current knowledge gaps and ascertain their learning/performance needs. (Addressed in EDCI 506 and EDCI 508)
Design effective online instruction employing instructional and generative strategies that are appropriate to student learning objectives. (Addressed in EDCI 506 and EDCI 508)
Develop effective online instructional modules that feature the use of optimally appropriate media technologies. (Addressed in EDCI 507 and 508)
Plan for appropriate formative and summative evaluation of student learning and instructional effectiveness. (Addressed in EDCI 507 and 508)

Required Courses: 12 credit hours

EDCI 505 - Introduction to Education Technology **Credits:** 3
EDCI 506 - Instructional Systems Design **Credits:** 3
EDCI 507 - Evaluating Educational Media Products **Credits:** 3
EDCI 508 - Social/Cultural Issues in Educational Technology **Credits:** 3

Total Hours Required: 12

Rural Education Undergraduate Certificate

Rural teaching contexts present unique dynamics, possibilities, and challenges for K-12 teachers. Students in this program will explore foundational teaching concepts from the perspective of rural education. They will gain practical insights and strategies for supporting student success through coursework that highlights the perspectives and experiences of practicing rural educators. Students will apply their developing knowledge and skills through a culminating capstone project in a rural school community.

Required Courses: (14 Credit Hours)

EDCI 111 - Foundations of Rural Education **Credits:** 4
EDCI 201 - Teaching as a Career in Rural Contexts **Credits:** 2
EDCI 319 - Educational Technology for Rural Teaching and Learning **Credits:** 2
EDCI 321 - Core Teaching Skills and Lab for Rural Education **Credits:** 4
EDCI 581 - Ethnographic Capstone Project in Rural Education **Credits:** 2

Total Hours Required for Graduation: 14

Sports Performance Coaching Undergraduate Certificate

The coaching certificate is open to students who plan to coach at the high school level after graduation. The Kansas State High School Activities Association accepts the K-State College of Education coaching certificate as a substitute for the American Coaching Effectiveness Program, which is currently offered through the KSHSAA educational program.

Program requirements (12 credit hours)

Any student interested in the College of Education certificate program should take the following hours of course work:

EDCI 300 - Principles of Coaching **Credits:** 3
EDCI 301 - Coaching and Officiating Methodology **Credits:** 3
FNDH 220 - Care and Prevention of Athletic Injuries **Credits:** 3

Total Hours Required: 12

Urban Education Undergraduate Certificate

Urban teaching contexts present unique dynamics, possibilities, and challenges for K-12 teachers. Students in this program will explore foundational teaching concepts from the perspective of urban education. They will gain practical insights and strategies for supporting student success through coursework that highlights the perspectives and experiences of practicing urban educators. Students will apply their developing knowledge and skills through a culminating capstone project in an urban school community.

Required Courses (14 credit hours)

EDCI 112 - Foundations of Urban Education **Credits:** 4
EDCI 202 - Teaching as a Career in Urban Contexts **Credits:** 2
EDCI 318 - Educational Technology for Teaching and Learning **Credits:** 1
EDCI 322 - Core Teaching Skills and Lab for Urban Education **Credits:** 4

Total Hours Required for Graduation: 14

The Department of Special Education, Counseling, and Student Affairs contributes to the undergraduate teacher preparation program through its offerings in educational psychology, interpersonal relations in schools, and special education. Studies in special education accommodate students who wish to specialize in teaching children and youth with certain exceptionalities. Students must complete an undergraduate teacher education program leading to licensure for either elementary or secondary school teaching. Program focus is to work with students with adaptive and functional disabilities at the elementary and secondary levels.

Special Education Endorsement Options:

Elementary Special Education QuickStart Program

Secondary Special Education StepAhead Program

College of Engineering

Carl R. Ice College of Engineering

Brad Kramer, Interim Dean
Keith Hohn, Associate Dean for Academic and Administrative Affairs
Stacy Hutchinson, Associate Dean for Research and Graduate Programs
Andy Fund, Assistant Dean for Student Services
Craig Wanklyn, Assistant Dean for Recruitment
Amy Betz, Assistant Dean for Retention, Diversity, and Inclusion

engg.k-state.edu

For information regarding current degrees and degree program accreditation, please see the individual program links available through the Carl R. Ice College of Engineering undergraduate programs website.

A course of study leading to a degree from the College of Engineering provides a well-rounded university education and equips students with a broad theoretical and practical background to meet the new and demanding problems of our technological society.

Admissions

Applicants must first be admitted to Kansas State University either as an incoming freshman or a transfer student. Admission to the College of Engineering is selective. Declaration of the desired curriculum in the College of Engineering does not guarantee admission into the degree program selected. For current admission criteria please refer to the College of Engineering admissions website.

Students not admitted to the College of Engineering can enter the K-State's Open Option program or another available college/degree program. These students can still apply to enter the College of Engineering at a later date as an internal transfer

student after they have completed one full-time semester at K-State. Please see the internal transfer student requirements on the College of Engineering website.

Grade requirements

In addition to the university standards and policies for grades, the College of Engineering has the following standards:

Curricula grades

See the individual engineering department websites for the grade requirements for their curricula. All courses applied to degree requirements require a letter grade except for 0-credit hour assembly courses.

Transferability of courses

Transfer courses with grades of pass/fail and credit/no-credit are not accepted by the College of Engineering. Transfer courses with grades less than C are also not accepted by the College of Engineering except for courses that fulfill K-State Core general education requirements. Even then, if the grade is below a C, the course may not meet departmental standards and will need to be retaken before enrolling in advanced coursework. For information on the transferability of courses to K-State, please consult the K-State website. For questions regarding this policy please contact Engineering Student Services.

Architectural Engineering and Construction Science

GE Johnson Department of Architectural Engineering and Construction Science

241 Seaton Hall

arecns@k-state.edu
are-cns.k-state.edu

Architectural Engineering

The architectural engineering curriculum prepares entry-level engineers for the consulting engineering field who are well-grounded in the engineering specialties, have an understanding of how the building is designed and built, and know how the structural, mechanical and electrical engineering systems fit into the building. The program integrates a traditional engineering program with building systems courses. This course of study provides the theoretical tools required for engineering design and the ability to apply these tools to architectural structures to provide a completely functional building.

Construction Science and Management

The construction science and management program prepares graduates to be a professional constructor, a competent manager of resources that include labor, material, equipment, time and money to meet project expectations of quality, safety, scheduling and cost. The program is an engineering-based management program and is designed to produce technically competent managers of the construction process.

Bachelor of Science

Architectural Engineering (BS)

The Bachelor of Science (B.S.) in architectural engineering at Kansas State University is accredited by the Accreditation Commission of ABET, http://www.abet.org, under the commission's General Criteria and Program Criteria for Architectural and Similarly Named Engineering Programs.

The architectural engineering program is planned for students who are particularly interested in the engineering aspects of building design. The educational objective of the five-year architectural engineering program is to prepare the student with fundamental engineering competence in the analysis and design of building and their systems. Specifically, the student must be able to understand and apply engineering fundamentals and design principles for engineering the infrastructure of architecture--that infrastructure being structural, mechanical, and electrical building systems and all the subdisciplines related to these primary designations.

As important members of building design teams, they must be able to create designs that will fulfill the economic, safety, and aesthetic requirements of a project.

Included in the academic program are exercises in many of the courses beginning in the freshman year and continuing through the fourth year to develop skills in the engineering design process. The last course in this sequence is Capstone, a culmination of all the previous design experiences from the first three and one-half years of the curriculum. Architectural engineers must have a working ability with total building and system design concepts.

Bachelor's degree requirements

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program

The curriculum for this major assumes students enter college prepared to take Calculus.

Math and Science Requirements: (21 credit hours)

CHM 210 - Chemistry I **Credits:** 4
MATH 220 - Analytic Geometry and Calculus I **Credits:** 4
KSC-030
MATH 221 - Analytic Geometry and Calculus II **Credits:** 4

ME 513 - Thermodynamics I **Credits:** 3

Restricted Electives: (15 credit hours)

Design, Engineering, and Complimentary electives are to be selected from the current approved department list located on the ARE/CNS website: https://are-cns.k-state.edu//

Design Electives	9 - 12 credits
Engineering Electives	3 - 6 credits
Complimentary Elective	0 - 3 credits

Notes

A letter grade of C or better is required for all prerequisite courses prior to taking subsequent departmental prefix courses. A letter grade of C or better is required for all graded departmental prefix courses applied to the degree.

*Design Electives are to be selected from the current approved Department list. Minimum 9 hours, maximum 12 hours required.

**Engineering Electives are to be selected from the current approved Department list. Minimum 3 hours, maximum 6 hours required.

***Complementary Electives are to be selected from the approved department list: minimum 0 hours, maximum 3 hours required.

A degree requirement for the Bachelor of Science in Architectural Engineering includes taking the NCEES FE Exam and reporting individual passing or non-passing results. This action is required as a course completion requirement for ARE 671, ARE Capstone. Failure to provide the required information will result in a failing grade for ARE 671 and non-completion of the degree.

Total Hours Required for Graduation: 128

Construction Science and Management (BS)

Accredited by the American Council for Construction Education
300 Decker Drive, Suite 330
Irving, Texas 75062
Phone: 972-600-8800
www.acce-hq.org

The construction science and management program prepares students to be professional constructors and managers of personnel resources, financial resources, materials, and machines. The curriculum is an engineering based management program designed to produce technically competent managers of construction. Entering students should have a background in mathematics and physics.

The program prepares graduates to execute the designs created by engineers and architects. Graduates may enter fields of general, commercial, residential, heavy and highway, utility, mechanical, or electrical construction. Their education provides the fundamental engineering and management skills necessary for success in any of the above areas.

Constructors work in many settings. For example, as a principal in a small construction firm, a constructor may engage in many of the activities in management, whereas a constructor in a large firm may concentrate exclusively on only one or two of the activities. Most students in the program intend to enter building, heavy/highway, or utility construction fields. Other roles, such as construction education, will normally require an advanced degree and/or professional experience.

Through construction education, students attain a level of construction knowledge that would otherwise require decades of practical experience to develop. With this level of knowledge, graduates typically move rapidly into upper management positions in construction organizations.

Bachelor's degree requirements

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional

general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Construction Science and Management

Math and Science: (3 credit hours)

If not met through K-State Core requirements, PHYS 113 is required.

The curriculum for this major assumes students enter college prepared to take Trigonometry.

MATH 150 - Plane Trigonometry **Credits:** 3
KSC-030
PHYS 113 - General Physics I **Credits:** 4 **KSC 040**

Major Requirements: (82 credit hours)

ACCTG 231 - Introduction to Managerial Accounting **Credits:** 3
CE 212 - Elementary Surveying Engineering **Credits:** 3
CNS 010 - CNS New Student 1st Year Workshop 1 **Credits:** 0
CNS 012 - CNS New Student 1st Year Workshop 2 **Credits:** 0
CNS 200 - Computer Applications in Engineering and Construction **Credits:** 2
CNS 231 - Statics A **Credits:** 3
CNS 241 - Strength of Materials and Analysis **Credits:** 3
CNS 242 - Strength of Materials Lab **Credits:** 1
CNS 310 - Introduction to Building Information Modeling **Credits:** 2
CNS 321 - Graphic Communications II **Credits:** 3
CNS 325 - Construction Documents **Credits:** 3
CNS 330 - Site Construction **Credits:** 3
CNS 440 - Construction Methods and Equipment **Credits:** 3
CNS 510 - Technology for Management of the Construction Process **Credits:** 2
CNS 524 - Steel and Timber Construction **Credits:** 3
CNS 528 - Concrete and Masonry Construction **Credits:** 3
CNS 534 - Heating and Air Conditioning **Credits:** 3
CNS 535 - Electrical and Lighting **Credits:** 3
CNS 536 - Water Supply and Plumbing **Credits:** 3
CNS 542 - Ethics and Professional Standards **Credits:** 1
CNS 550 - Construction Safety **Credits:** 2
CNS 641 - Construction Estimating **Credits:** 3
CNS 642 - Construction Management **Credits:** 3
CNS 643 - Preconstruction Services/Design Build **Credits:** 3
CNS 645 - Construction Scheduling and Cost Control **Credits:** 3
CNS 646 - Construction Financial Management **Credits:** 2
CNS 660 - Construction Operations **Credits:** 3
DEN 160 - College of Engineering Orientation **Credits:** 1
ECON 110 - Principles of Macroeconomics **Credits:** 3 **KSC 050**

ENGL 417 - Written Communication for the Workplace **Credits:** 3
MANGT 220 - Principles of Management **Credits:** 3
MANGT 230 - Business Law I **Credits:** 3
MANGT 530 - Labor Relations and Negotiations **Credits:** 3

Restricted Electives: (1-4 credit hours)

Professional Electives are to be selected from the current approved Departmental list.

Notes

A letter grade of C or better is required for all prerequisite courses prior to taking subsequent departmental prefix courses. A letter grade of C or better is required for all graded departmental prefix courses applied to the degree program.

Social and Behavioral Science Electives are to be selected from the K-State Core topic 5 requirements for General Education.

Arts and Humanities Electives are to be selected from the K-State Core topic 6 requirements for General Education.

Free Electives are to be selected from the K-State Core topic 7 requirements for General Education.

Professional Electives are to be selected from current, approved Departmental lists.

+ MATH 220 Analytical Geometry and Calculus I may substitute for MATH 150.

Total Hours Required for Graduation: 120

bae.k-state.edu

Biological Systems Engineering

Biological systems engineers provide an essential link between the biological sciences and engineering, which uses physical, chemical and advanced biological sciences to solve practical problems. Biological systems engineers develop the techniques and processes to work with living systems, including microbes, plants and animals. They provide input to produce and process food, fiber, energy, chemical feedstock and pharmaceuticals. Engineering fundamentals are applied to achieve the goal of a safe and stable food and renewable energy supply while considering human and environmental factors. Three curriculum options are available: biological option, environmental option and machinery systems option.

Environmental Engineering

Environmental engineers design systems and solutions to sustain the quality of people's lives and the planet. As environmental challenges continue to develop, these professionals will increasingly be called upon to sustain food, water and energy supplies, curb climate change and adapt to its impact, reduce pollution and waste of natural resources, advance green manufacturing, develop resilient urban infrastructure systems and improve waste management practices. Environmental engineering integrates engineering fundamentals, mechanics and design principles with biology, earth sciences and chemistry to design solutions that improve the well-being of people and planet where the two intersect.

Agricultural Technology Management

The goal of the agricultural technology management program is to educate technology managers who can combine the critical understanding of agriculture and biological sciences with the problem-solving viewpoint of an engineer. The curriculum is intended for students who want a broader education than is provided by the engineering curriculum and who do not desire the analytical focus necessary in an engineering degree. Graduates fill key positions in food and agricultural industries, serving as technical managers for these increasingly vital sectors of the economy.

Bachelor of Science

Agricultural Technology Management - Agribusiness Management (BS)

Agricultural technology management emphasizes the application and integration of agricultural/biological sciences, agricultural engineered systems, and business to manage human and natural resources in the production and processing of biological products. It prepares students for technical management positions in biotechnology and agricultural industries that require an understanding of both technology and management. Agricultural technology management graduates are typically employed in technical sales, service, and management positions in agricultural production operations, agribusiness and processing industries, government agencies, and companies.

Courses are designed to apply physical science concepts and problem-solving to biological systems. Supporting courses provide a foundation of mathematics, chemistry, business, and computer and communication skills. Technical electives are available to develop a degree program that meets personal career objectives.

The Department of Biological and Agricultural Engineering administers the curriculum and leads to the Bachelor of Science degree in Agricultural Technology Management.

Bachelor's degree requirements

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

Total Minimum Hours Required for Graduation: 120

Agricultural Technology Management - Water Management (BS)

Agricultural technology management emphasizes the application and integration of agricultural/biological sciences, agricultural engineered systems, and business to manage human and natural resources in the production and processing of biological products. It prepares students for technical management positions in biotechnology and agricultural industries that require an understanding of both technology and management. Agricultural technology management graduates are typically employed in technical sales, service, and management positions in agricultural production operations, agribusiness and processing industries, government agencies, and companies.

Courses are designed to apply physical science concepts and problem solving to biological systems. Supporting courses provide a foundation of mathematics, chemistry, business, and computer and communication skills. Technical electives are available to develop a degree program that meets personal career objectives.

The Department of Biological and Agricultural Engineering administers the curriculum and leads to the Bachelor of Science degree in Agricultural Technology Management.

Bachelor's degree requirements

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

The curriculum for this major assumes students enter college prepared to take Calculus.

Math and Science: (11 credit hours)

BIOL 198 - Principles of Biology **Credits:** 4
CHM 210 - Chemistry I **Credits:** 4
MATH 205 - General Calculus **Credits:** 3
KSC-030
PHYS 113 - General Physics I **Credits:** 4
KSC-040
STAT 225 - Introduction to Statistics **Credits:** 3

ATM Program of Study: (26 credit hours)

ACCTG 231 - Introduction to Managerial Accounting **Credits:** 3
ATM 160 - Engineered Systems and Technology in Agriculture **Credits:** 3
ATM 331 - Professional Practice for Agricultural Technology Managers **Credits:** 1
ATM 450 - Sensors and Controls for Agricultural and Biological Systems **Credits:** 3

ATM 536 - Agricultural Technology Management Capstone Project I **Credits:** 3
CC 110 - Introduction to Computing **Credits:** 2
CC 111 - Elements of Computer Programming **Credits:** 1
DEN 160 - College of Engineering Orientation **Credits:** 1

MATH 222 - Analytic Geometry and Calculus III **Credits:** 4
MATH 340 - Elementary Differential Equations **Credits:** 4

Program Overview

Twenty-four (24) credit hours beyond the prerequisites described above are required with at least 10 of the 24 credit hours having biological content. Courses from a minimum of three departments are required.

Biological Science courses

A minimum of 4 credit hours from the courses listed below.

* BIOL 441 - Human Body I **Credits:** 4
* BIOL 442 - Human Body II **Credits:** 4
* BIOL 398 - Principles of Genetics **Credits:** 4
* BIOL 255 - General Microbiology **Credits:** 4
* BIOL 500 - Plant Physiology **Credits:** 3
* BIOL 529 - Ecology **Credits:** 3
* BIOL 541 - Cell Biology **Credits:** 3
* ASI 533 - Physiology of Domestic Animals **Credits:** 3

Chemistry and Biochemistry courses

A minimum of 4 credit hours from the courses listed below.

CHM 350 - General Organic Chemistry **Credits:** 3
CHM 351 - General Organic Chemistry Laboratory **Credits:** 2
CHM 531 - Organic Chemistry I **Credits:** 3
CHM 532 - Organic Chemistry Laboratory **Credits:** 2
CHM 550 - Organic Chemistry II **Credits:** 3
CHM 585 - Physical Chemistry I **Credits:** 3
CHM 595 - Physical Chemistry II **Credits:** 3
CHM 596 - Physical Methods Laboratory **Credits:** 1-2
* BIOCH 521 - General Biochemistry **Credits:** 3
* BIOCH 522 - General Biochemistry Laboratory **Credits:** 3
* BIOCH 755 - Biochemistry I **Credits:** 3
* BIOCH 756 - Biochemistry I Laboratory **Credits:** 2
* BIOCH 765 - Biochemistry II **Credits:** 3

Engineering Science courses

Minimum of 9 credit hours from among the courses listed below.

* BAE 345 - Properties of Biological Materials **Credits:** 2
* BAE 346 - Properties of Biological Materials Laboratory **Credits:** 1
* BAE 445 - Biological Engineering Fundamentals **Credits:** 3

BAE 535 - Structures and Environment Engineering **Credits:** 3

* BAE 545 - Biological Process Engineering **Credits:** 3

BAE 640 - Instrumentation and Control for Biological Systems **Credits:** 3

* BAE 642 - Fundamentals of Conversion of Biorenewable Resources **Credits:** 3
* BAE 643 - Life Cycle Assessment **Credits:** 3
* BAE 645 - Bioenvironmental Reaction Engineering **Credits:** 3
* BAE 650 - Energy and Biofuel Engineering **Credits:** 3
* BAE 651 - Air Pollution Engineering **Credits:** 3
* BAE 663 - Environmental and Ecological Risk Assessment **Credits:** 3
* BAE 665 - Ecological Engineering Design **Credits:** 3
* BAE 740 - Biomaterials Processing **Credits:** 3
* CE 563 - Environmental Engineering Fundamentals **Credits:** 3

CE 565 - Water and Wastewater Engineering **Credits:** 3

* CE 766 - Wastewater Engineering: Biological Processes **Credits:** 3

CHE 320 - Chemical Process Analysis **Credits:** 3

CHE 520 - Chemical Engineering Thermodynamics I **Credits:** 2

CHE 521 - Chemical Engineering Thermodynamics II **Credits:** 3

CHE 530 - Transport Phenomena I **Credits:** 3

CHE 531 - Transport Phenomena II **Credits:** 3

CHE 550 - Chemical Reaction Engineering **Credits:** 3

* CHE 626 - Bioseparations **Credits:** 3

* CHE 715 - Biochemical Engineering **Credits:** 3

* ECE 571 - Introduction to Biomedical Engineering **Credits:** 3

ME 513 - Thermodynamics I **Credits:** 3

ME 523 - Thermodynamics II **Credits:** 3

ME 571 - Fluid Mechanics **Credits:** 3

ME 573 - Heat Transfer **Credits:** 3

Capstone Design Experience

At least three credit hours of coursework comprised of undergraduate biological engineering research or a design project incorporating biological engineering are required. Any research project having demonstrated biological content and fulfilling the research requirements of a student's honors program will satisfy this requirement. Courses in this list that have biological content can be included in the 10 credit hours of courses with biological content.

Undergraduate Research

BAE 497 - Undergraduate Research Experience **Credits:** 0-3

BAE 499 - Honors Research in Biological Systems Engineering **Credits:** 1-18

BAE 620 - Topics in Biological Systems Engineering **Credits:** 1-18

CHE 497 - Undergraduate Research Experience **Credits:** 0-3

CHE 499 - Honors Research in Chemical Engineering **Credits:** 1-6

CHE 580 - Problems in Chemical Engineering or Materials Science **Credits:** 1-18

CE 497 - Undergraduate Research Experience **Credits:** 0-3

CE 499 - Honors Research in Civil Engineering **Credits:** 1-18

CE 790 - Problems in Civil Engineering **Credits:** 1-18

ECE 497 - Undergraduate Research Experience **Credits:** 0-3

ECE 499 - Honors Research in Electrical and Computer Engineering **Credits:** 1-18

ECE 690 - Problems in Electrical and Computer Engineering **Credits:** 1-18

Design project courses

BAE 536 - Biological Systems Engineering Senior Design I **Credits:** 3

BAE 636 - Biological Systems Engineering Senior Design II **Credits:** 1-3

CHE 571 - Chemical Engineering Systems Design II **Credits:** 3

CE 585 - Civil Engineering Project **Credits:** 3

Other courses may be included if it can be demonstrated that the student has completed a significant design experience incorporating biological engineering content.

ECE 591 - Senior Design Experience II **Credits:** 2

Note

*Courses with biological content.

Undergraduate Certificate

Biomanufacturing Undergraduate Certificate

The Biomanufacturing certificate prepares a wide variety of students for careers in biomanufacturing through core knowledge and experiential learning with a focus on bioprocess technologies including upstream process operations (cell culture technologies), downstream process operations (separation technologies), and industry standards for the production of biotherapeutics, vaccines, industrial enzymes, and biochemicals.

Admission Procedures

The certificate program is open to any student admitted to a K-State degree program and to non-degree seeking students who apply to K-State as a non-degree seeking student.

Non-K-State Students must apply to K-State as a non-degree seeking undergraduate by completing the online application form.

Students currently enrolled in a K-State degree program must declare the Undergraduate Certificate Program by email to bae@ksu.edu

Required Courses: 15 credit hours

The Biomanufacturing certificate program requires 15 credit hours from four biomanufacturing competencies including:

Biomanufacturing and Industry Standards: 4 credit hours

ATM 245 - Introduction to Biomanufacturing Technology **Credits:** 3
ATM 446 - Regulatory Affairs for Biomanufacturing **Credits:** 1

Cell Culture Technology/Engineering: 5 credit hours

ATM 345 - Cell Culture Technology in Biomanufacturing **Credits:** 3
OR
BAE 445 - Biological Engineering Fundamentals **Credits:** 3
BAE 447 - Cell Culture Technology Laboratory **Credits:** 2

Separation Technology/Engineering: 5 credit hours

ATM 445 - Separation Technologies for Biomanufacturing **Credits:** 3
OR
BAE 626 - Bioseparations **Credits:** 3
OR
CHE 626 - Bioseparations **Credits:** 3
BAE 448 - Separation Technologies Laboratory **Credits:** 2

Experiential Learning in Biomanufacturing: 1 credit hour

One hour of coursework comprised of undergraduate biomanufacturing research, independent study, internship, design project, or capstone project in biomanufacturing is required. Any research project having demonstrated biomanufacturing and fulfilling the research requirements of a student's honors program will satisfy this requirement.

Select one/apply one credit of internship, research, Capstone project, or design project in biomanufacturing.

ATM 460 - Internship in Agricultural Technology Management **Credits:** 1-3
ATM 536 - Agricultural Technology Management Capstone Project I **Credits:** 3
ATM 610 - Problems in Agricultural Technology Management **Credits:** 1-3
BAE 536 - Biological Systems Engineering Senior Design I **Credits:** 3
BAE 610 - Problems in Biological Systems Engineering **Credits:** 1-3
BAE 636 - Biological Systems Engineering Senior Design II **Credits:** 1-3

Other courses may be included if it can be demonstrated that the student has completed an experiential learning experience incorporating biomanufacturing technology.

Total Hours Required: 15

MATH 205 - General Calculus	3	**KSC 030**
Arts and Humanities Requirement	3	**KSC 060**
MANGT 220 - Principles of Management **OR**	3	
AGEC 318 - Food and Agribusiness Management **OR**	3	
MANGT 421 - Introduction to Operations and Supply Chain Management	3	
Graphics Elective	3	
Total Credits: 15		
Semester 2		
ACCTG 231 - Introduction to Managerial Accounting	3	
PHYS 113 - General Physics I	4	**KSC 040**
STAT 225 - Introduction to Statistics	3	
ATM/BAE Elective	3	
Social and Behavioral Sciences Requirement	3	**KSC 050**
Total Credits: 16		

Third Year		
Semester 1		
ACCTG 241 - Introduction to Financial Accounting	3	
AGRON 205 - Soils	3	
BAE 350 - Off Road Machinery Systems	2	
BAE 351 - Machinery Systems Lab	1	
CC 110 - Introduction to Computing	2	
CC 111 - Elements of Computer Programming	1	
Free Electives {Institutionally Designated Area}	3	**KSC 070**
Total Credits: 15		
Semester 2		
ATM 331 - Professional Practice for Agricultural Technology Managers	1	
ATM 450 - Sensors and Controls for Agricultural and Biological Systems	3	
MKTG 250 - Introduction to Marketing **OR**	3	
AGEC 515 - Food and Agribusiness Marketing	3	
ATM 558 - Hydrology and Soil Erosion Management	3	
Technical Elective	3	
Business Management Elective	3	
Total Credits: 15		
Fourth Year		
Semester 1		
AGEC 513 - Agricultural Finance	3	

ATM 536 - Agricultural Technology Management Capstone Project I	3	
FINAN 450 - Principles of Finance **OR**	3	
AGEC 513 - Agricultural Finance	3	
ATM 511 - Agricultural Building Systems	3	
ATM/BAE Elective	3	
Technical Elective	3	
Total Credits: 15		
Semester 2		
ATM/BAE Elective	3	
ATM/BAE Elective	6	
Technical Elective	2	
Business Management Elective	3	
Total Credits: 14		
Total Program Hours: 120		

Agricultural Technology Management - Biomanufacturing Technology (BS) Academic Degree Map

The curriculum for this major assumes students enter college prepared to take Calculus.		
First Year	**Hours**	**K-State Core**
Semester 1		
ATM 160 - Engineered Systems and Technology in Agriculture	3	
CHM 210 - Chemistry I	4	
COMM 106 - Public Speaking I	3	**KSC 020**

DEN 160 - College of Engineering Orientation	1	
Social & Behavioral Sciences Requirement	3	**KSC 050**
Total Credits: 14		
Semester 2		
BIOL 198 - Principles of Biology	4	
ECON 110 - Principles of Macroeconomics **OR**	3	
AGEC 120 - Agricultural Economics and Agribusiness	3	
ENGL 100 - Expository Writing I	3	**KSC 010**
Free Electives {Institutionally Designated Area}	3	**KSC 070**
Arts & Humanities Requirement	3	**KSC 060**
Total Credits: 16		
Second Year		
Semester 1		
ENGL 200 - Expository Writing II	3	**KSC 010**
MATH 205 - General Calculus	3	**KSC 030**
Arts & Humanities Requirement	3	**KSC 060**
Graphics Elective	3	
MANGT 220 - Principles of Management **OR**	3	
AGEC 318 - Food and Agribusiness Management **OR**	3	
MANGT 421 - Introduction to Operations and Supply Chain Management	3	
Total Credits: 15		
Semester 2		

ACCTG 231 - Introduction to Managerial Accounting	3	
PHYS 113 - General Physics I	4	**KSC 040**
STAT 225 - Introduction to Statistics	3	
Technical Elective	2	
Social & Behavioral Sciences Requirement	3	**KSC 050**
Total Credits: 15		
Third Year		
Semester 1		
ATM 245 - Introduction to Biomanufacturing Technology	3	
BIOCH 265 - Introductory Organic and Biochemistry	5	
CC 110 - Introduction to Computing	2	
CC 111 - Elements of Computer Programming	1	
ATM/BAE Elective	3	
Total Credits: 14		
Semester 2		
ATM 331 - Professional Practice for Agricultural Technology Managers	1	
ATM 345 - Cell Culture Technology in Biomanufacturing	3	
ATM 450 - Sensors and Controls for Agricultural and Biological Systems	3	
BAE 345 - Properties of Biological Materials	2	
BAE 346 - Properties of Biological Materials Laboratory	1	
Business Management Elective	3	
Free Electives {Institutionally Designated Area}	3	**KSC 070**
Total Credits: 16

Chemical Engineering

Tim Taylor Department of Chemical Engineering

1005 Durland Hall
785-532-5584
che@k-state.edu
che.k-state.edu

Chemical engineers contribute to society by providing an essential link between the basic chemical sciences and commercial application and production. Chemical engineering is a core engineering discipline, firmly rooted in the basic sciences. Consequently, chemical engineering graduates have a broad array of career choices available to them. Chemical engineers find employment in the chemical and allied industries including energy, petrochemicals, biotechnology, agriculture, food, pharmaceuticals, the environment, and microelectronics.

Bachelor of Science

Chemical Engineering (BS)

The Bachelor of Science (B.S.) in chemical engineering at Kansas State University is accredited by the Accreditation Commission of ABET, https://www.abet.org, under the commission's General Criteria and Program Criteria for Chemical, Biochemical, Biomolecular and Similarly Named Engineering Programs.

Bachelor's degree requirements

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program

The curriculum for this major assumes students enter college prepared to take Calculus.

Math and Science Requirements: (32 credit hours)

CHM 210 - Chemistry I **Credits:** 4
OR

CHM 220 - Honors Chemistry I **Credits:** 5
CHM 230 - Chemistry II **Credits:** 4
OR
CHM 250 - Honors Chemistry II **Credits:** 5
CHM 371 - Chemical Analysis **Credits:** 4 *
CHM 531 - Organic Chemistry I **Credits:** 3
MATH 220 - Analytic Geometry and Calculus I **Credits:** 4 **KSC 030**
MATH 221 - Analytic Geometry and Calculus II **Credits:** 4
MATH 222 - Analytic Geometry and Calculus III **Credits:** 4
MATH 340 - Elementary Differential Equations **Credits:** 4
PHYS 213 - Engineering Physics I **Credits:** 5 **KSC 040**
PHYS 214 - Engineering Physics II **Credits:** 5

Chemical Engineering Requirements: (43 credit hours)

CHE 015 - Engineering Assembly **Credits:** 0
CHE 320 - Chemical Process Analysis **Credits:** 3
CHE 416 - Computational Techniques in Chemical Engineering **Credits:** 3
CHE 520 - Chemical Engineering Thermodynamics I **Credits:** 2
CHE 521 - Chemical Engineering Thermodynamics II **Credits:** 3
CHE 530 - Transport Phenomena I **Credits:** 3
CHE 531 - Transport Phenomena II **Credits:** 3
CHE 542 - Unit Operations Laboratory **Credits:** 3
CHE 535 - Transport Phenomena Laboratory **Credits:** 3
CHE 550 - Chemical Reaction Engineering **Credits:** 3
CHE 560 - Separational Process Design **Credits:** 3
CHE 561 - Chemical Process Dynamics and Control **Credits:** 3
CHE 565 - Health and Safety in Chemical Engineering **Credits:** 3
CHE 570 - Chemical Engineering Systems Design I **Credits:** 3
CHE 571 - Chemical Engineering Systems Design II **Credits:** 3
DEN 160 - College of Engineering Orientation **Credits:** 1
DEN 161 - Engineering Problem Solving **Credits:** 1

Restricted Electives: (17 credit hours)

Physical Chemistry Elective **Credits: 3**
BIOCH or BIOL or CHM (Advanced Laboratory) **Credits: 2**
BIOCH or BIOL or CHM (Advanced Course) **Credits: 3**
CHE Materials or Biomaterials Elective **Credits: 3**
Engineering Topics Course **Credits: 3**
Chemical Engineering Elective **Credits: 3**

Notes

*Honors Chemistry I (CHM 220) and Honors Chemistry II (CHM 250) may be taken instead of CHM 210, CHM 230, and CHM 371. If this option is elected, two additional credit hours of technical electives are to be selected.

The departmental requirements below must be satisfied.

All electives must be on the lists approved by the department head and must support the program educational objectives and student outcomes of the chemical engineering program. A student's overall program of study must meet university general education (Kansas State University Core) criteria; both the required and elective components can contribute to satisfying the Kansas State University Core.

A list of approved chemistry/biology/biochemistry electives, advanced laboratory experience electives, chemical engineering electives, and engineering topics electives may be found on the department website, https://che.k-state.edu/student-success/advising/ .

A minimum cumulative GPA of 2.00 (a C average) for all chemical engineering courses 400 level and above, including chemical engineering elective courses, is required for graduation.

A maximum of two 'D' grades in chemical engineering courses 400 level and above is allowed.

Of the 47 credit hours of required chemical engineering and chemical engineering elective courses, at least half of these credit hours must be completed at Kansas State University.

Total credit for undergraduate research (CHE 497 and/or CHE 499) applicable to the degree is limited to a maximum of six (6) credit hours.

Students who satisfy all or part of Kansas State Core Free Electives (Requirement #7) with courses that satisfy other degree requirements may use additional unrestricted electives to meet the degree requirement of 128 credit hours.

Total Hours Required for Graduation: 128

Civil Engineering

2118 Fiedler Hall
785-532-5862
ce@engg.k-state.edu
ce.k-state.edu

Civil engineering is the design, construction and maintenance of facilities and systems for the general public or private sector. The civil engineering department offers seven tracks within the bachelor's in civil engineering degree: general, construction, environmental, geotechnical, structures, transportation and materials, and water resources.

Bachelor of Science

Civil Engineering - Construction (BS)

The Bachelor of Science (B.S.) in Civil Engineering at Kansas State University is accredited by the Engineering Accreditation Commission of ABET, https://www.abet.org, under the commission's General Criteria and Program Criteria for Civil Engineering Programs.

Bachelor's degree requirements

The civil engineering curriculum requires the completion of 128 credit hours. There are seven available tracks that impact the selection of courses taken to meet the requirements of the track electives and the design electives listed in the senior year of the civil engineering curriculum. The seven tracks are General, Construction Engineering, Environmental Engineering, Geotechnical Engineering, Structural Engineering, Transportation/Materials Engineering, and Water Resources Engineering.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Construction Track

The curriculum for this major assumes students enter college prepared to take Calculus.

Math and Science: (22-23 credit hours)

CHM 210 - Chemistry I **Credits:** 4
GEOL 100 - Earth in Action **Credits:** 3
MATH 220 - Analytic Geometry and Calculus I **Credits:** 4 **KSC-030**
MATH 221 - Analytic Geometry and Calculus II **Credits:** 4
MATH 340 - Elementary Differential Equations **Credits:** 4
PHYS 213 - Engineering Physics I **Credits:** 5 **KSC-040**
STAT 510 - Introductory Probability and Statistics I **Credits:** 3
Math or Science Course

Construction Requirements: (52-54 credit hours)

CE 015 - Engineering Assembly **Credits:** 0
CE 202 - Civil Engineering Graphics **Credits:** 3

CE 212 - Elementary Surveying Engineering **Credits:** 3
CE 241 - Introduction to Civil Engineering Materials **Credits:** 3
CE 301 - Civil Engineering Problem Solving **Credits:** 1
CE 333 - Statics **Credits:** 3
CE 351 - Incompressible Fluid Mechanics **Credits:** 3
CE 501 - Project Economic Evaluation **Credits:** 1
CE 502 - Project Management **Credits:** 1
CE 503 - Project Delivery **Credits:** 1
CE 522 - Soil Mechanics I **Credits:** 3
CE 533 - Mechanics of Materials **Credits:** 3
CE 534 - Mechanics of Materials Laboratory **Credits:** 1
CE 537 - Introduction to Structural Analysis **Credits:** 3
CE 563 - Environmental Engineering Fundamentals **Credits:** 3
CE 571 - Introduction to Transportation Engineering **Credits:** 3
CE 585 - Civil Engineering Project **Credits:** 3
DEN 160 - College of Engineering Orientation **Credits:** 1
DEN 161 - Engineering Problem Solving **Credits:** 1
ENGL 415 - Written Communication for Engineers **Credits:** 3
ME 310 - Elements of Thermodynamics **Credits:** 2
ME 512 - Dynamics **Credits:** 3
CE 550 - Water Resources Engineering **Credits:** 3
OR
BAE 560 - Hydrology for Biological Systems **Credits:** 3
DEN 325 - Engineering Professionalism and Decision Making **Credits:** 1
OR
PHILO 185 - Engineering Ethics **Credits:** 3

Restricted Electives: (18 credit hours)

Approved Civil Engineering electives and requirements are provided in the undergraduate student handbook available at https://ce.k-state.edu/academics/undergraduate/

CE 441 - Design of Civil Engineering Materials **Credits:** 3
CE 528 - Foundation Engineering **Credits:** 3
CE 542 - Structural Engineering in Steel **Credits:** 3
CE 544 - Structural Engineering in Concrete **Credits:** 3
CE 572 - Highway Engineering **Credits:** 3
CE 552 - Hydraulic Engineering **Credits:** 3
OR
CE 565 - Water and Wastewater Engineering **Credits:** 3

Total Minimum Hours Required for Graduation: 128

Notes:

Students must achieve a minimum GPA of 2.250 in the four Civil Engineering (CE) design elective courses that fulfill their 12-hour CE design elective requirement. These electives must be drawn from at least four of the following design areas:

Environmental, Geotechnical, Structural, Transportation/Materials, and Water Resources. If a student completes more than 12 hours of CE design electives, the best 12 hours will be used to compute CE Design Elective GPA.

A resident cumulative GPA of 2.300 or better is required for a change of major from any engineering program to civil engineering.

Civil Engineering - Environmental (BS)

The Bachelor of Science (B.S.) in Civil Engineering at Kansas State University is accredited by the Engineering Accreditation Commission of ABET, https://www.abet.org, under the commission's General Criteria and Program Criteria for Civil Engineering Programs.

The civil engineering curriculum requires the completion of 128 credit hours. There are seven available tracks that impact the selection of courses taken to meet the requirements of the track electives and the design electives listed in the senior year of the civil engineering curriculum. The seven tracks are General, Construction Engineering, Environmental Engineering, Geotechnical Engineering, Structural Engineering, Transportation/Materials Engineering, and Water Resources Engineering.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. PHYS 213 - Engineering Physics I **Credits:** 5 *KSC-040*

Structural Engineering Requirements: (52-54 credit hours)

CE 015 - Engineering Assembly **Credits:** 0
CE 202 - Civil Engineering Graphics **Credits:** 3
CE 212 - Elementary Surveying Engineering **Credits:** 3
CE 241 - Introduction to Civil Engineering Materials **Credits:** 3
CE 301 - Civil Engineering Problem Solving **Credits:** 1
CE 333 - Statics **Credits:** 3
CE 351 - Incompressible Fluid Mechanics **Credits:** 3
CE 501 - Project Economic Evaluation **Credits:** 1
CE 502 - Project Management **Credits:** 1
CE 503 - Project Delivery **Credits:** 1
CE 522 - Soil Mechanics I **Credits:** 3
CE 533 - Mechanics of Materials **Credits:** 3
CE 534 - Mechanics of Materials Laboratory **Credits:** 1
CE 537 - Introduction to Structural Analysis **Credits:** 3
CE 563 - Environmental Engineering Fundamentals **Credits:** 3
CE 571 - Introduction to Transportation Engineering **Credits:** 3
CE 585 - Civil Engineering Project **Credits:** 3
DEN 160 - College of Engineering Orientation **Credits:** 1
DEN 161 - Engineering Problem Solving **Credits:** 1
ENGL 415 - Written Communication for Engineers **Credits:** 3
ME 310 - Elements of Thermodynamics **Credits:** 2
ME 512 - Dynamics **Credits:** 3
CE 550 - Water Resources Engineering **Credits:** 3
OR
BAE 560 - Hydrology for Biological Systems **Credits:** 3
DEN 325 - Engineering Professionalism and Decision Making **Credits:** 1
OR
PHILO 185 - Engineering Ethics **Credits:** 3

Restricted Electives: (18 credit hours)

Approved Civil Engineering electives and requirements are provided in the undergraduate student handbook available at https://ce.k-state.edu/academics/undergraduate/

CE 528 - Foundation Engineering **Credits:** 3
CE 542 - Structural Engineering in Steel **Credits:** 3
CE 544 - Structural Engineering in Concrete **Credits:** 3
CE 552 - Hydraulic Engineering **Credits:** 3
CE 572 - Highway Engineering **Credits:** 3
CE 732 - Advanced Structural Analysis I **Credits:** 3

Total Minimum Hours Required for Graduation: 128

Notes:

Students must achieve a minimum GPA of 2.250 in the four Civil Engineering (CE) design elective courses that fulfill their 12-hour CE design elective requirement. These electives must be drawn from at least four of the following design areas: Environmental, Geotechnical, Structural, Transportation/Materials, and Water Resources. If a student completes more than 12 hours of CE design electives, the best 12 hours will be used to compute CE Design Elective GPA.

A resident cumulative GPA of 2.300 or better is required for a change of major from any engineering program to civil engineering.

Civil Engineering - Transportation/Material (BS)

The Bachelor of Science (B.S.) in Civil Engineering at Kansas State University is accredited by the Engineering Accreditation Commission of ABET, https://www.abet.org, under the commission's General Criteria and Program Criteria for Civil Engineering Programs.

Bachelor's degree requirements

The civil engineering curriculum requires the completion of 128 credit hours. There are seven available tracks that impact the selection of courses taken to meet the requirements of the track electives and the design electives listed in the senior year of the civil engineering curriculum. The seven tracks are General, Construction Engineering, Environmental Engineering, Geotechnical Engineering, Structural Engineering, Transportation/Materials Engineering, and Water Resources Engineering.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Transportation/Material

The curriculum for this major assumes students enter college prepared to take Calculus.

Math and Science: (22-23 credit hours)

CHM 210 - Chemistry I **Credits:** 4
GEOL 100 - Earth in Action **Credits:** 3
MATH 220 - Analytic Geometry and Calculus I **Credits:** 4 *KSC-030*
MATH 221 - Analytic Geometry and Calculus II **Credits:** 4
MATH 340 - Elementary Differential Equations **Credits:** 4
PHYS 213 - Engineering Physics I **Credits:** 5 *KSC-040*
Math and Science Course
STAT 510 - Introductory Probability and Statistics I **Credits:** 3

785-532-6350
csoffice@k-state.edu
cs.k-state.edu

Computer Science

Computer science is the study of computing and its possibilities, ranging from theoretical foundations to applications in business, society and the sciences.

The Bachelor of Science in Computer Science degree program emphasizes a broad foundation of computer organization, software engineering, distributed computing systems, data structures, programming environments and mathematics, together with electives that focus on advanced aspects and applications. An entrepreneurship option prepares graduates for entrepreneurial activities that are common in the computing industry.

Cybersecurity

Cybersecurity is the study of processes for protecting systems, networks, programs and information from digital attacks. The Bachelor of Science in Cybersecurity degree program emphasizes a broad foundation of computer science with in-depth study of principles and practices for secure computing.

Bachelor of Science

Computer Science (BS)

The Bachelor of Science (B.S.) in computer science at Kansas State University is accredited by the Computing Accreditation Commission of ABET, http://www.abet.org under the General Criteria and the Computer Science and similarly named Computing Programs Criteria.

The curriculum includes pre-professional and professional programs. All new students will be initially admitted to the pre-professional program.

Admission to the Pre-Professional Program
New students, including transfer students, should submit the standard application form directly to the Office of Admissions. The admission criteria are the same as those for the university and the College of Engineering.

Any student who has completed more than 15 credit hours at Kansas State University in any major outside the College of Engineering may change majors into the pre-professional program provided that the student meets the admission requirements for the College of Engineering. A resident cumulative GPA of 2.3 or better is required for a change of major from any Engineering program to the pre-professional program Computer Science.

Course Requirements (24 total credits)
The course requirements and semester-by-semester curriculum for a BS in Computer Science remain in effect. However, certain courses from the first three semesters of the curriculum must be completed with a C or better for advancement beyond the pre-professional program. These courses are:

MATH 220 Analytic Geometry and Calculus I
MATH 221 Analytic Geometry and Calculus II
CIS 115 Introduction to Computing Science
CIS 116 Introduction to Programming
CIS 115 - Introduction to Computing ScienceCIS 200 Programming Fundamentals
CIS 300 Data and Program Structures
CIS 301 Logical Foundations of Programming
ECE 241 Introduction to Electrical and Computer Engineering

Admission to the Professional Program

Students must complete the pre-professional program and be accepted to the professional program prior to taking any of the following courses, which we will refer to as professional program courses:

CIS 400 Object-Oriented Design, Implementation, and Testing
CIS 415 Ethics and Conduct for Computing Professionals
CIS 450 Computer Architecture and Operations
CIS 501 Software Architecture and Design
CIS 505 Introduction to Programming Languages
CIS 520 Operating Systems I
CIS 525 Introduction to Network Programming
CIS 560 Database System Concepts
CIS 575 Introduction to Algorithm Analysis
CIS 596 Entrepreneurial Computer Science Project
CIS 598 Computer Science Project
CIS 599 Cybersecurity Project

CIS 625 Concurrent Software Systems
CIS 642 Software Engineering Project I

The only other students who will be allowed to enroll in any of the above courses are non-CS majors who need these specific courses to satisfy the degree requirements of their majors. Non-CS majors wishing to use any of these courses to satisfy elective requirements for their majors will also be considered on a case-by-case basis.

In order to be considered for admission to the professional program, a student must have:

Passed all pre-professional program courses with a C or better.
Achieved at least a 2.3 GPA on all pre-professional courses (including transfer courses).

Additionally, an application to the professional program must be submitted to the Department of Computer Science by March 31st for subsequesnt Fall semester admission or October 31 for subsequent Spring semester admission. This submission will be immediately prior to the student's pre-enrollment into any of the professional program courses.

All courses in the pre-professional program must be completed and all grade criteria must be met by the end of the semester that the application is submitted. An exception to this rule is the student who expects to complete these criteria during the summer term. Those students should also make application in the Spring semester prior to pre-enrollment. All eligible applicants will be allowed to pre-enroll into professional program courses with the understanding that they will be dropped if they are not accepted for admission to the professional program prior to the beginning of the subsequent semester.

Applications will be reviewed by the Academic Standards Committee of the Department and accepted or rejected as soon as possible after semester grades are issued. The number of students admitted in any given semester will be limited by the number of seats available. If the number of applicants who meet the grade requirements listed above exceeds the number of seats available, then in addition to the minimum grade requirements listed above, the admission will be determined a holistic evaluation of the following factors:

Grades in college-level courses, particularly computing courses;
Communication skills;
Activities and service;
Socioeconomic disadvantage;
Status as first-generation college student; and
History of overcoming personal hardship.

Students who have completed the pre-professional program with the required grades, but are denied admission, may re-apply in a later semester.

Academic Standards

After admission to the professional program, students are expected to attain "C" or better grades in each of the professional program courses taken. Specifically, students will be subject to the following academic standards that are more stringent than those for the University.

Warning of unsatisfactory progress

Regardless of the overall GPA, a student with any "D" or "F" grade in any professional program course will receive a "Warning of Unsatisfactory Progress. This warning will remain in effect for the remainder of their stay in the professional program.

Dismissal from the Program

If a student has received a warning of unsatisfactory progress, then subsequently receives a "D" or "F" grade in any professional program course, that student may be dismissed from the professional program, and will be ineligible to enroll in any professional program courses (though students who transfer to either Computer Engineering or Biomedical Engineering will be allowed to enroll in certain courses, as outlined above).

Readmission

A student who has been dismissed from the professional program may petition to be readmitted to the program, provided at least one year has elapsed from the conclusion of the last semester that the student was in the program to the beginning of the semester for which the student is seeking admission. The petition must include a justification of

the student's preparedness to complete the program. This petition must be submitted to the Computer Science Department by the eighth week of the Fall or Spring semester preceding the semester for which the student seeks readmission. The student will be interviewed by the Acadmic Standards Committee, who will then make a decision in time for the student to pre-enroll. All readmitted students will remain on warning of unsatisfactory progress for the remainder of their stay in the professional program.

**The warning and dismissal actions referenced above are departmental actions that are separate and distinct from Academic Warning and Academic Dismissal as defined by the University Catalog. Grades earned during an intersession will not be considered by the Department in the determination of unsatisfactory academic progress by the department.

Bachelor's degree requirements

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program

The curriculum for this major assumes students enter college prepared to take Calculus.

Math and Science Requirements: 14 credit hours

MATH 220 - Analytic Geometry and Calculus I **Credits:** 4
MATH 221 - Analytic Geometry and Calculus II **Credits:** 4
MATH 510 - Discrete Mathematics **Credits:** 3
STAT 510 - Introductory Probability and Statistics I **Credits:** 3

Computer Science Requirements: 38 credit hours

CIS 115 - Introduction to Computing Science **Credits:** 2
CIS 116 - Introduction to Programming **Credits:** 1
CIS 200 - Programming Fundamentals **Credits:** 4
CIS 300 - Data and Program Structures **Credits:** 3
CIS 301 - Logical Foundations of Programming **Credits:** 3
CIS 308 - C Language Laboratory **Credits:** 1

Restricted Electives: 28 credit hours

Technical Writing - Choose one of the following:
ENGL 415 - Written Communication for Engineers **Credits:** 3
OR
ENGL 516 - Written Communication for the Sciences **Credits:** 3
Choose one of the following:
CIS 520 - Operating Systems I **Credits:** 3
OR
CIS 525 - Introduction to Network Programming **Credits:** 3
OR
KSC-040
CIS 625 - Concurrent Software Systems **Credits:** 3
Natural Science - see https://www.cs.ksu.edu/
Natural Science - see https://www.cs.ksu.edu/
Math Elective - see https://www.cs.ksu.edu/
Entrepreneurship Electives: 9 hours from ENTRP 350, ENTRP 411, ENTRP 435, ENTRP 466, ENTRP 497, ENTRP 520, ENTRP 540, FINAN 561, MANGT 230, MANGT 520, MANGT 531
Additional Electives: At least 9 hours of Entrepreneurship Electives and/or Additional Electives must be at the 300 level or above

Notes

To graduate with a B.S. in Computer Science, students must have at least a 2.3 GPA in all classes at the 400 level or above taken for undergraduate credit from the Carl R. Ice College of Engineering at Kansas State University. Course grades that have been removed by the K-State Retake policy will not apply to this GPA calculation.
Math and Natural Science electives must have departmental approval.
Upper division electives may be any courses at the 300 level or above.
Students who satisfy all or part of K-State Core Electives with courses that satisfy other degree requirements may use additional unrestricted electives to meet the degree requirement of 120 credit hours.

Communications overlay

All students must complete at least two courses, which may be used as unrestricted electives or, where applicable, K-State Core requirements, from the following list:

COMM 323 - Nonverbal Communication **Credits:** 3

Any K-State Core Communication course

KSC-020

COMM 326 - Group Communication **Credits:** 3

MANGT 220 - Principles of Management **Credits:** 3

THTRE 171 - Fundamentals of Acting **Credits:** 3

Restricted electives must be comprised of the following:

Either CIS 520-Operating Systems I, CIS 525-Introduction to Network Programming, or CIS 625-Concurrent Software Systems.

A capstone experience consisting of either CIS 598-Computer Science Project, CIS 599 Cybersecurity Project, or the two-semester course consisting of CIS 642-Software Engineering Project I and CIS 643-Software Engineering Project II.

Additional 500-level or higher CIS courses or other approved computing-related courses to bring the total number of technical elective credits to 12.

Total Hours Required for Graduation: 120

Cybersecurity (BS)

The Bachelor of Science (B.S.) in cybersecurity at Kansas State University is accredited by the Computing Accreditation Commission of ABET, https://www.abet.org under the General Criteria and the Computer Science and similarly named Computing Programs Criteria.

The B.S. degree in cybersecurity provides a foundation in computer science with in-depth study of principles and practices for secure computing. The curriculum includes pre-professional and professional programs. All new students will be initially admitted to the pre-professional program.

Pre-professional program

The pre-professional program consists of the following courses, which can normally be completed during the first three semesters:

MATH 220 Analytic Geometry and Calculus I

MATH 221 Analytic Geometry and Calculus II

CIS 115 Introduction to Computing Science

CIS 116 Introduction to Programming

CIS 200 Programming Fundamentals

CIS 300 Data and Program Structures

CIS 301 Logical Foundations of Programming

ECE 241 Introduction to Electrical and Computer Engineering

Admission to the professional program

Students must complete the pre-professional program and be accepted to the professional program prior to taking any of the following courses, which we will refer to as professional program courses:

CIS 400 Object-Oriented Design, Implementation, and Testing

CIS 415 Ethics and Conduct for Computing Professionals

CIS 450 Computer Architecture and Operations

CIS 501 Software Architecture and Design

CIS 505 Introduction to Programming Languages

CIS 525 Introduction to Network Programming

CIS 551 Fundamentals of Computer and Information Security
CIS 553 Fundamentals of Cryptography
CIS 560 Database System Concepts
CIS 575 Introduction to Algorithm Analysis
CIS 599 Cybersecurity Project
CIS 655 Security and Reliability of Computing Systems
CIS 755 Systems Security

The only other students who will be allowed to enroll in any of the above courses are non-cybersecurity majors who need these specific courses to satisfy the degree requirements of their majors. Non-cybersecurity majors wishing to use any of these courses to satisfy elective requirements for their majors will also be considered on a case-by-case basis.

In order to be considered for admission to the professional program, a student must have:

Passed all pre-professional program courses with a C or better.

Achieved at least a 2.3 GPA on all pre-professional courses (including transfer courses).

Additionally, an application to the professional program must be submitted to the Department of Computer Science March 31 for subsequent Fall semester admission or October 31 for subsequent Spring semester admission. This submission will be immediately prior to the student's pre-enrollment into any of the professional program courses.

All courses in the pre-professional program must be completed and all grade criteria must be met by the end of the semester that the application is submitted. An exception to this rule is the student who expects to complete these criteria during the summer term. Those students should also make application in the Spring semester prior to pre-enrollment. All eligible applicants will be allowed to pre-enroll into professional program courses with the understanding that they will be dropped if they are not accepted for admission to the professional program prior to the beginning of the subsequent semester.

Applications will be reviewed by the Academic Standards Committee of the Department and accepted or rejected as soon as possible after semester grades are issued. The number of students admitted in any given semester will be limited by the number of seats available. If the number of applicants who meet the grade requirements listed above exceeds the number of seats available, then in addition to the minimum grade requirements listed above, the admission will be determined a holistic evaluation of the following factors:

Grades in college-level courses, particularly computing courses;

Communication skills;

Activities and service;

Socioeconomic disadvantage;

Status as first-generation college student; and

History of overcoming personal hardship.

Students who have completed the pre-professional program with the required grades, but are denied admission, may re-apply in a later semester. Students who have been dismissed from the Computer Science professional program must be readmitted to that program prior to being admitted to the Cybersecurity professional program.

Academic Standards

After admission to the professional program, students are expected to attain "C" or better grades in each of the professional program courses taken. Specifically, students will be subject to the following academic standards that are more stringent than those for the University.

Warning of unsatisfactory progress. Regardless of the overall GPA, a student with any "D" or "F" grade in any professional program course will receive a "**Warning of Unsatisfactory Progress.**" This warning will remain in effect for the remainder of their stay in the professional program.

Dismissal from the program. If a student has received a warning of unsatisfactory progress, then subsequently receives a "D" or "F" grade in any professional program course, that student may be dismissed from the professional program, and will be ineligible to enroll in any professional program courses (though students who transfer to either Computer Engineering or Biomedical Engineering will be allowed to enroll in certain courses, as outlined above).

Readmission. A student who has been dismissed from the professional program may petition to be readmitted to the program, provided at least one year has elapsed from the conclusion of the last semester that the student was in the program to the beginning of the semester for which the student is seeking admission. The petition must include a justification of the student's preparedness to complete the program. This petition must be submitted to the Computer Science Department by the eighth week of the Fall or Spring semester preceding the semester for which the student seeks readmission. The student will be interviewed by the Academic Standards Committee, who will then make a decision in time for the student to pre-enroll. All readmitted students will remain on warning of unsatisfactory progress for the remainder of their stay in the professional program.

The warning and dismissal actions referenced above are departmental actions that are separate and distinct from Academic Warning and Academic Dismissal as defined by the University Catalog. Grades earned during an intersession will not be considered by the Department in the determination of unsatisfactory academic progress by the department.

Bachelor's degree requirements

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Restricted Electives: 17 credit hours

Technical Writing - Choose one of the following:
ENGL 415 - Written Communication for Engineers **Credits:** 3
OR
ENGL 516 - Written Communication for the Sciences **Credits:** 3
Cybersecurity Elective - Choose one of the following:
CIS 655 - Security and Reliability of Computing Systems **Credits:** 3
OR
CIS 755 - Systems Security **Credits:** 3
Math Elective - see https://www.cs.ksu.edu/
Physics - Choose a group:
PHYS 113 - General Physics I **Credits:** 4
AND
PHYS 114 - General Physics II **Credits:** 4
OR
PHYS 213 - Engineering Physics I **Credits:** 5
AND
PHYS 214 - Engineering Physics II **Credits:** 5
OR
AND
PHYS 224 - Physics II, Electromagnetism, and Sound **Credits:** 5

Unrestricted Electives: 4 credit hours

Notes

To graduate with a B.S. in Cybersecurity, students must have at least a 2.3 GPA in all classes at the 400 level or above taken for undergraduate credit from the Carl R. Ice College of Engineering at Kansas State University. Course grades that have been removed by the K-State Retake policy will not apply to this GPA calculation.

The Math elective must have departmental approval.

Students who satisfy all or part of K-State Core Natural and Physical Sciences Electives (Requirement #4) and/or Free Electives (Requirement #7) with courses that satisfy other degree requirements may use additional unrestricted electives to meet the degree requirement of 120 credit hours.

Communications overlay

All students must complete at least two courses, which may be used as unrestricted electives or, where applicable, K-State Core requirements, from the following list:

COMM 323 - Nonverbal Communication **Credits:** 3
Any K-State Core Communication course
KSC-020
COMM 326 - Group Communication **Credits:** 3
MANGT 220 - Principles of Management **Credits:** 3
THTRE 171 - Fundamentals of Acting **Credits:** 3
THTRE 265 - Fundamentals of Improvisation I, II **Credits:** 3

Total Hours Required for Graduation: 120

Minor

Computer Science Minor

A minors program has been created to enable students to take 16 credit hours or more in an area of special interest outside their major field. Minors may be earned in a variety of areas including chemistry, leadership, business, computer science, and engineering management. Contact the College of Engineering Student Services Office for further information.

Upon completion of the requirements established by the faculty responsible for the minor field, an appropriate entry will be made on the student's transcript.

Program requirements (16 credit hours)

Prerequisites (in addition to any prerequisites for the required courses):
MATH 220 - Analytic Geometry and Calculus I **Credits:** 4

Required courses

CIS 115 - Introduction to Computing Science **Credits:** 2
CIS 116 - Introduction to Programming **Credits:** 1
CIS 200 - Programming Fundamentals **Credits:** 4
CIS 300 - Data and Program Structures **Credits:** 3
CIS 301 - Logical Foundations of Programming **Credits:** 3
ECE 241 - Introduction to Electrical and Computer Engineering **Credits:** 3

Total hours required: 16

Undergraduate Certificate

Computer Science Undergraduate Certificate

The main purpose of the Computer Science Certificate program is to provide a scalable mechanism to educate a wide variety of students in the core knowledge of computer science. The courses in this program will prepare students to work with or as software developers in a wide variety of fields and industries. The main focus of the courses is to develop the programming skills and insight required for such jobs.

Admission Procedures

The certificate program is open to any student admitted to a K-State degree program. The program will also be open to non-degree seeking students who apply to K-State as a non-degree seeking students.

Non-K-State Students must apply to K-State as non-degree seeking undergraduate by completing the online application form.

Students currently enrolled in a K-State degree program must complete the online Application for Undergraduate Certificate Program on the Computer Science webpage, similar to a minor declaration (see https://www.cs.ksu.edu/undergraduate/minor-certificate/).

Required Courses (17 credit hours)

CC 110 - Introduction to Computing **Credits:** 2
CC 111 - Elements of Computer Programming **Credits:** 1
CC 120 - Web Page Development **Credits:** 3
CC 210 - Fundamental Computer Programming Concepts **Credits:** 4
CC 310 - Data Structures and Algorithms I **Credits:** 3
CC 410 - Advanced Programming **Credits:** 4

At most two of the above courses may be replaced by equivalent transfer courses.
Students must earn a minimum GPA of 2.3 for courses within the certificate program to qualify for the certificate.
Note: All of these courses are delivered through a state-of-the-art online computer science educational platform.

Electrical and Computer Engineering

Mike Wiegers Department of Electrical and Computer Engineering

3108 Engineering Hall
785-532-5600
ece@k-state.edu
ece.k-state.edu

Electrical Engineering

The electrical engineering curriculum establishes a theoretical basis in circuits, electronics, electromagnetics, energy conversion and controls. It includes a strong laboratory experience stressing system design and implementation. Three areas of emphasis are available: bioengineering, electronics and communications, and power systems.

Computer Engineering

The computer engineering curriculum establishes a theoretical basis for computer components in circuits, electronics, electromagnetics, digital systems, and microprocessors and for software in programming languages, algorithms, data structures

and operating systems. A strong laboratory experience stressing digital and microprocessor system design and implementation is included.

Biomedical Engineering

Biomedical engineering applies engineering principles to design challenges faced by the medical and life science communities. Graduates from the biomedical engineering program can anticipate designing medical devices and computer software for health care applications. Four areas of emphasis are available: Sensors & Devices, Computation, Biomaterials, and Pre-Medicine.

Bachelor of Science

Biomedical Engineering (BS)

The Bachelor of Science (B.S.) in biomedical engineering at Kansas State University is accredited by the Engineering Accreditation Commission of ABET, https://www.abet.org, under the commission's General Criteria and Program Criteria for Bioengineering and Biomedical and Similarly Named Engineering Programs.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program

For the good and benefit of the student and their future employer, the ECE department enforces a C-prerequisite policy for all courses listed by number in the curriculum and for any in-major technical elective course applied toward the degree. A grade of C or better must be earned in all prerequisites to such a course before enrolling in that course.
The curriculum for this major assumes students enter college prepared to take Calculus.

Math and Science Requirements: (40 credit hours)

BIOL 198 - Principles of Biology **Credits:** 4
BIOL 441 - Human Body I **Credits:** 4
BIOL 442 - Human Body II **Credits:** 4
CHM 210 - Chemistry I **Credits:** 4
CHM 230 - Chemistry II **Credits:** 4
CHM 531 - Organic Chemistry I **Credits:** 3
MATH 220 - Analytic Geometry and Calculus I **Credits:** 4 **KSC 030**
MATH 221 - Analytic Geometry and Calculus II **Credits:** 4
MATH 222 - Analytic Geometry and Calculus III **Credits:** 4

MATH 340 - Elementary Differential Equations **Credits:** 4
PHYS 213 - Engineering Physics I **Credits:** 5 **KSC 040**
PHYS 214 - Engineering Physics II **Credits:** 5

ME 212 - Engineering Graphics **Credits:** 2
ECE 772 - Theory and Techniques of Bioinstrumentation **Credits:** 2
ECE 773 - Bioinstrumentation Design Laboratory **Credits:** 1

Restricted Electives: (12 credit hours)

*Technical electives must be selected to complete one of the option areas. See department website for list of areas and options and required electives: https://ece.k-state.edu/academics/undergraduate/biomedical-engineering/

Notes

*Emphasis electives must come from lists of approved courses.

**Typically only offered in one semester

Students who participate in exchange programs or transfer in from outside the United States may request waivers of this policy. Waivers must be obtained in advance of the exchange semester.

Total Hours Required for Graduation: 128

Computer Engineering (BS)

The Bachelor of Science (B.S.) in computer engineering at Kansas State University is accredited by the Engineering Accreditation Commission of ABET, https://www.abet.org, under the commission's General Criteria and Program Criteria for Electrical, Computer, Communications, Telecommunication(s) and Similarly Named Engineering Programs.

Bachelor's degree requirements

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

STAT 510 - Introductory Probability and Statistics I **Credits:** 3

Restricted Elective: (6 credit hours)

*See department website for list technical electives: https://ece.k-state.edu/docs/advising/ece-technical-electives.pdf

Notes

For the good and benefit of the student and their future employer, the ECE department enforces a C-prerequisite policy for all courses listed by number in the curriculum and for any in-major technical elective course applied toward the degree. A grade of C or better must be earned in all prerequisites to such a course before enrolling in that course.

*Technical electives must be selected from the list of accepted courses.

**Typically only offered in one semester

***No more than twelve (12) credit hours of courses with prefixs ECE may be transferred to Kansas State University for credit toward a bachelor degree in either electrical engineering or computer engineering. Further, those courses selected for transfer credit must be equivalent to courses in the list below and must be such that the prerequisites for the listed course are also satisfied. Any courses listed below transferred must be taken from ABET accredited programs: ECE 241, ECE 410, ECE 525.

Total Hours Required for Graduation: 121

Electrical Engineering (BS)

Industrial and Manufacturing Systems Engineering

2061 Rathbone Hall
785-532-5606
imse@k-state.edu
imse.ksu.edu

Industrial engineers improve the way goods and services are produced and delivered. They improve product quality, individual and system productivity, and design safe work environments while working to eliminate the waste of time, money, materials, energy and other commodities. Industrial engineers are business and people-oriented and are employed in both service and manufacturing industries. Industrial engineers are concerned with the effective utilization of all organizational resources to maximize system productivity. They design, analyze and improve integrated systems of people, equipment and material to produce goods and services.

Bachelor of Science

Industrial Engineering (BS)

The Bachelor of Science (B.S.) in industrial engineering at Kansas State University is accredited by the Engineering Accreditation Commission of ABET, https://www.abet.org, under the commission's General Criteria and Program Criteria for Industrial and Similarly Named Engineering Programs.

Bachelor's degree requirements

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program

The curriculum for this major assumes students enter college prepared to take Calculus.

Math and Science Requirements: (20 credit hours)

CHM 210 - Chemistry I **Credits:** 4
MATH 220 - Analytic Geometry and Calculus I **Credits:** 4 **KSC 030**
MATH 221 - Analytic Geometry and Calculus II **Credits:** 4
MATH 222 - Analytic Geometry and Calculus III **Credits:** 4
MATH 551 - Applied Matrix Theory **Credits:** 3
PHYS 213 - Engineering Physics I **Credits:** 5 **KSC 040**
PHYS 214 - Engineering Physics II **Credits:** 5

Industrial Engineering Requirements: (46 credit hours)

ACCTG 231 - Introduction to Managerial Accounting **Credits:** 3
DEN 160 - College of Engineering Orientation **Credits:** 1
IMSE 015 - Engineering Assembly **Credits:** 0
IMSE 050 - Industrial Plant Studies **Credits:** 0
IMSE 201 - Introduction of Industrial Engineering **Credits:** 3
IMSE 250 - Introduction to Manufacturing Processes and Systems **Credits:** 2

IMSE 251 - Manufacturing Processes Laboratory **Credits:** 1
IMSE 530 - Engineering Economic Analysis **Credits:** 2
IMSE 532 - Industrial Project Evaluation **Credits:** 1
IMSE 541 - Statistical Quality Control **Credits:** 3
IMSE 555 - Industrial Facilities Layout and Design **Credits:** 3
IMSE 560 - Introduction to Operations Research I **Credits:** 3
IMSE 580 - Manufacturing Systems Design and Analysis **Credits:** 4
OR
IMSE 591 - Senior Design Project I **Credits:** 2
AND
IMSE 592 - Senior Design Project II **Credits:** 2
IMSE 623 - Industrial Ergonomics **Credits:** 3
IMSE 633 - Production Planning and Inventory Control **Credits:** 3
IMSE 643 - Industrial Simulation **Credits:** 3
IMSE 660 - Operations Research II **Credits:** 3
IMSE 685 - Principles of Manufacturing Information Systems **Credits:** 3
ME 212 - Engineering Graphics **Credits:** 2
STAT 510 - Introductory Probability and Statistics I **Credits:** 3

Retricted Electives: (18 credit hours)

Computer Programming Elective **Credits:** 3

Analytics Elective **Credits:** 3

Engineering Elective **Credits:** 6

IMSE Elective **Credits:** 6

IMSE Curriculum Notes

The Industrial Engineering Approved Elective Lists and Requirements can be located at the following URL: https://imse.k-state.edu/academics/undergraduate/degree-requirements/

Analytics Elective: Choose one course from the approved department elective list.

Computer Programming Elective: Choose one course from the approved department elective list.

Engineering Electives: Choose 6 hours from the approved departmental list.

IMSE Electives: Choose 6 hours of IMSE courses from the IMSE department.

KBOR General Education: See the K-State Core section; Recommendations for IMSE students can be found on the IMSE requirement page (see the URL above).

Substitutions: IMSE 591 and IMSE 592 can substitute for IMSE 580.

IMSE Graduation Criterion: To graduate with a Bachelor's degree in Industrial Engineering, students must have a >= 2.200 GPA in all IMSE classes taken for undergraduate credit at Kansas State University. Course grades that have been removed by the K-State Retake policy will not apply to this GPA calculation.

IMSE Course Retake Criterion: Any IMSE course being taken for a third time in any five-year period may not be used to fulfill a student's B.S.I.E. graduation requirements.

IMSE Assembly Requirement: Each semester a student must enroll in IMSE 015 unless he/she is a concurrent B.S./M.S.I.E. student, in which case he/she must enroll in either IMSE 015 or IMSE 892.

Total Hours Required for Graduation: 120

Minor

Manufacturing Systems Minor

A minors program has been created to enable students to take 15 credit hours or more in an area of special interest outside their major field. Minors may be earned in a variety of areas including chemistry, leadership, business, computer science, and engineering management. Contact the IMSE department for further information.

Upon completion of the requirements established by the faculty responsible for the minor field, an appropriate entry will be made on the student's transcript.

Program requirements (15 credit hours)

A minor in manufacturing systems provides knowledge about efficient manufacturing practices and current manufacturing techniques, methods and technologies. Students take four core courses and select at least one course from the manufacturing systems elective course list.

Required courses (15 credit hours)

Core courses (9 credit hours)

- IMSE 250 - Introduction to Manufacturing Processes and Systems **Credits:** 2
- IMSE 251 - Manufacturing Processes Laboratory **Credits:** 1
- IMSE 563 - Manufacturing Processes Engineering **Credits:** 3
- IMSE 662 - Computer Aided Manufacturing **Credits:** 3

Elective courses (6 credit hours)

- IMSE 252 - Welding Laboratory **Credits:** 1
- IMSE 255 - Computer Numerical Control Laboratory **Credits:** 1
- IMSE 441 - Introduction to Analytics **Credits:** 3
- IMSE 541 - Statistical Quality Control **Credits:** 3
- IMSE 562 - Materials and the Impact of Manufacturing Processes **Credits:** 3
- IMSE 564 - Product and Process Engineering **Credits:** 3
- IMSE 580 - Manufacturing Systems Design and Analysis **Credits:** 4
- IMSE 623 - Industrial Ergonomics **Credits:** 3
- IMSE 633 - Production Planning and Inventory Control **Credits:** 3

IMSE 641 - Quality Engineering **Credits:** 3
IMSE 643 - Industrial Simulation **Credits:** 3
IMSE 664 - Additive Manufacturing **Credits:** 3
IMSE 685 - Principles of Manufacturing Information Systems **Credits:** 3

Mechanical and Nuclear Engineering

Alan Levin Department of Mechanical and Nuclear Engineering

3002 Rathbone Hall
785-532-5610
info@mne.k-state.edu
mne.ksu.edu

Mechanical engineering is a broad profession that traditionally comprises three primary sub-fields: energy, mechanisms and machinery, and controls. The work done by mechanical engineers includes the design, construction and use of systems for the conversion of energy available from natural sources (water, fossil fuels, nuclear fuels and solar radiation) to other forms of useful energy. These systems are used for transportation, heat, light, power; design and production of machines to lighten the burden of servile human work and to do work otherwise beyond human capability; processing of materials into useful products; and manufacturing. Mechanical engineers use creative planning, development and operation of systems using energy, machines and resources. A nuclear engineering option is available as an option within the Bachelor of Science in Mechanical Engineering degree program.

Bachelor of Science

Mechanical Engineering (BS)

The Bachelor of Science (B.S.) in mechanical engineering at Kansas State University is accredited by the Engineering Accreditation Commission of ABET, https://www.abet.org, under the commission's General Criteria and Program Criteria for Mechanical and Similarly Named Engineering Programs.

Minor

Nuclear Engineering Minor

Admission Criteria

The Minor in Nuclear Engineering is available to any K-State undergraduate student, undergraduate students in any ABET accredited engineering program, and to graduates of any ABET accredited engineering program, subject to the following criteria:

- Students must submit a Minor Application Form to the Kansas State University Mechanical and Nuclear Engineering Department; this would preferably occur prior to or within the first year of Minor coursework.
- The application must be approved by one Nuclear Engineering faculty member in order for the student to be eligible to receive the Minor in Nuclear Engineering.
- Undergraduate students must have a cumulative GPA of 2.3 or higher.
- Graduates of an ABET accredited engineering program must have attained a cumulative GPA of 2.3 or higher.

Minor Completion Requirements

In order to obtain a Minor in Nuclear Engineering, students must:

- Complete the required courses with a grade of C or better.
- Take at least nine credit hours from Kansas State University (any transferred credits must be from an ABET accredited engineering program).
- Earn a minimum cumulative 2.3 GPA for the courses applied to the Minor.

One introductory course (3 credit hours)

NE 495 - Elements of Nuclear Engineering **Credits:** 3

Choose 2 of the following 3 core courses (6 credit hours)

NE 612 - Principles of Radiation Detection **Credits:** 3

NE 630 - Nuclear Reactor Theory **Credits:** 3
NE 690 - Radiation Protection and Shielding **Credits:** 3

Choose 6 credit hours of nuclear engineering electives

Courses taken as part of the core listed above cannot be taken as electives.

* NE 350 - Reactor Operations Laboratory **Credits:** 3
NE 612 - Principles of Radiation Detection **Credits:** 3
NE 620 - Problems in Nuclear Engineering **Credits:** 1-18
NE 630 - Nuclear Reactor Theory **Credits:** 3
* NE 648 - Nuclear Reactor Laboratory **Credits:** 3
NE 690 - Radiation Protection and Shielding **Credits:** 3
NE 761 - Radiation Measurement Systems **Credits:** 3
NE 799 - Special Topics in Nuclear Engineering **Credits:** 0-18

Special Topics Course Titles:
Special Topics in Monte Carlo Methods **Credits:** 3
Special Topics in Radiation Applications **Credits:** 3

*Note

Laboratory courses require two weeks spent on-campus to conduct laboratory experiments; reports can be submitted after the on-campus term.

The mission of the College of Health and Human Sciences is to promote the well-being of individuals, families, and communities through research, education and outreach. In a world focused on things, this college focuses first on people.

Programs in the College of Health and Human Sciences focus on human health, human behavior and human well-being, and are centered on improving the quality of life for individuals, families and communities.

Organizations and Activities

Degree Programs

All undergraduate programs of study lead to a bachelor of science degree.

Entering students who have not yet decided on their major in the College of Health and Human Sciences may request initial admission to health and human sciences, undeclared (HEUN).

General Requirements

Bachelor of Science degree

Each degree offered by the College of Health and Human Sciences provides graduates with a foundation for professional practice and lifelong learning. Graduates from all degree programs in the college will be able to:

- Understand the interaction of people with their environments.
- Understand roles and dynamics within family and other human systems.
- Recognize and value diversity throughout the human experience.
- Access, analyze, and interpret data to make informed decisions.
- Articulate informed points of view on issues that affect individuals, families, and professional practice.
- Apply professional knowledge to improve the lives of people.
- Demonstrate standards of ethical conduct.
- Assume the responsibilities of citizenship.

See individual programs for Student Learning Outcomes.

Grade requirement

See specific program for grade requirements. Minimum grade of C or higher is required in all professional studies and supporting courses in College of Health and Human Sciences degree programs, except where minimum grade of "B" is specified. Minimum grades of "B" or "C" are required for general requirements in some programs.

Transfer courses

Careful planning enables students to transfer courses from another college or university that will apply toward specific degree requirements at K-State. Transfer equivalency information for courses offered by post-secondary institutions in Kansas and elsewhere is available from the K-State Admissions Office. For institutions or courses not listed and other transfer questions, contact the College of Health and Human Sciences Dean's Office.

K-State Core Requirements

Please see K-State Core requirements.

University Honors Program

Please click on the following link to learn more about the University Honors Program

Minors, Secondary Majors, and Certificates

With careful planning, students may complete requirements for a minor, secondary major, or certificate within the Bachelor of Science degree requirements or with a few additional courses.

For more information, consult an academic advisor and the director of the specific program.

Experiential Learning

The College of Health and Human Sciences works with the Career Center to help students find internships, part-time work, and professional employment in their chosen fields.

Each department in the college offers internships and field experiences for qualified students. Students may earn university credit while gaining career-related experience under the guidance and supervision of University faculty and professionals in the field.

Professional Mentoring Program

The College of Health and Human Sciences Professional Mentoring Program provides students with the opportunity to learn from highly successful and experienced professionals by forging long-lasting, professional relationships. These individuals are alumni and friends of K-State who volunteer their time to help students prepare professionally and succeed in their chosen career.

Organizations and Activities

Students are encouraged to participate in professional and service activities. Most professional areas within the college have a student organization to enhance the personal and professional development of members. A full list of organizations is available in the Center for Student Involvement. Organizations of specific interest are found at Student Opportunities or available through the departments.

The Health and Human Sciences Ambassadors are a select group of students who serve as hosts for the college and promote college programs.

Qualified students are invited to join the Kappa Omicron Nu and Eta Sigma Delta honor societies.

School of Consumer Sciences

Hospitality Management

Cece X. Y. Leung, Program Chair

103 Justin Hall
785-532-6993
Fax: 785-532-5522

E-mail: hospitality@k-state.edu
www.hhs.k-state.edu/hm/

The programs in the Department of Hospitality Management are designed to meet the needs of the vibrant hospitality industry and prepares students for professional careers in lodging, food and beverage, and event management.

The department offers a bachelor of science degree in hospitality management, an accelerated bachelor's and master's degree, and a minor in hospitality management.

Fashion Studies

Kim Hiller, Program Chair

225 Justin Hall
1324 Lover's Lane
785-532-6993
Fax: 785-532-3796
Email: idfsinfo@k-state.edu
https://www.hhs.k-state.edu/idfs/

The fashion studies program includes two areas of specialization: fashion business and fashion design. The program aspires to be the program of choice for sustainable fashion, advancing environmental, social, and economic sustainability knowledge and behavior through education, scholarship, and engagement. The Fashion Studies program at Kansas State University prepares the next generation of leaders to envision and implement sustainable approaches to the global fashion industry. Undergraduate programs lead to a bachelor of science in fashion studies. Resident graduate programs lead to an accelerated BS/MS in fashion studies, a master of science in fashion studies or a doctoral degree in health and human sciences with specialization in sustainable fashion business.

Students in all programs are encouraged to take advantage of diverse learning experiences including internships, study abroad, field trips, and study tours. The fashion studies undergraduate program is accredited by the Textiles and Apparel Programs Accreditation Commission (TAPAC).

Facilities include well-equipped studios and laboratories for: fashion design and production, and textile analysis. The textile laboratories include a wide range of textile and product testing equipment, and extensive equipment for natural dye research. The department is home to the Kansas State University Historic Costume and Textile Museum with an extensive collection of artifacts available for research and public education through exhibition.

Personal Financial Planning

343 Justin Hall
(785) 532-1480
pfp@ksu.edu
https://hhs.k-state.edu/pfp/

The department of Personal Financial Planning at Kansas State University strives to be world known for its research, education, service, and outreach in financial planning offering emphases in financial counseling and financial therapy. We exist to prepare professionals to transform lives through financial planning.

Bachelor of Science

Event and Hospitality Management (BS)

The event and hospitality management program prepares students for managerial careers in all facets of the industry including restaurants, hotels, resorts, destination management organizations, tourism, meeting planning organizations, and much more. The program is accredited by the Accreditation Commission for Programs in Hospitality Administration (ACPHA) and has held the accreditation since 1994.The mission of the program is to advance the land-grant mission, industry, and discipline by preparing students with educational experiences that positively impact the individual, their careers, and society; and conducting applied, industry centered research to enhance the well being of individuals, organizations, and communities.

The program provides students with a broad liberal general education, an understanding of business administration (business minor), a solid foundation of professional courses in hotel, foodservice, event management, and hands-on experience in the hospitality industry.

Students apply concepts learned in the classroom to actual work situations. The senior internship experience may be national or international in location. Students gain valuable experience in these operations under the supervision of managers and faculty supervisors. An international experience as part of K-State's Study Abroad Program or in industry-related work experience is highly encouraged.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements: 86 credit hours

HHS Courses: 3 credit hours

HHS 100 - Well-being 1: You and Community **Credits:** 1
HHS 200 - Well-being 2: Mind and Body **Credits:** 1
HHS 300 - Well-being 3: Money and Meaning **Credits:** 1

Major Support Courses: 9 credit hours

The courses below are required if not met through University Core requirements.

If not met through K-State Core requirements, MATH 100 is required.

ECON 110 - Principles of Macroeconomics **Credits:** 3
OR
ECON 120 - Principles of Microeconomics **Credits:** 3
KSC-050

HM 440 - Beverage Management **Credits:** 3
HM 464 - Revenue Management **Credits:** 3
HM 475 - Internship in Hospitality Management **Credits:** 3
HM 482 - Human Resource Management in the Hospitality Industry **Credits:** 3
HM 621 - Hospitality Law **Credits:** 3
HM 650 - Senior Seminar in Hospitality Management **Credits:** 3

Business Support Courses: 15 credit hours

Courses are also required for Business minor.

ACCTG 231 - Introduction to Managerial Accounting **Credits:** 3
ACCTG 241 - Introduction to Financial Accounting **Credits:** 3
FINAN 450 - Principles of Finance **Credits:** 3
MANGT 220 - Principles of Management **Credits:** 3
MKTG 250 - Introduction to Marketing **Credits:** 3

Professional Electives: 9 credit hours

In consultation with an Academic Advisor, select 9 hours of approved Professional Electives.

Unrestricted Electives: 0 credit hours

Total Hours Required for Graduation: 120

Fashion Studies - Fashion Business (BS)

The fashion studies program includes two areas of specialization: fashion business and fashion design. The program prepares students for professional careers in fashion design, product development, buying, merchandising, marketing, entrepreneurship, and retail management. The U.S. fashion market is one of the largest in the world and maintains high employment growth. The U.S. has nearly two million retail firms, many of which sell fashion products. The apparel manufacturing industry, which includes the design and manufacture of garments is a global enterprise that takes advantage of highly sophisticated technologies.

Employment Prospects

Graduates of the fashion business specialization work in retail organizations as buyers, planners, market researchers, retail managers, merchandisers, distribution analysts, small business owners, trend forecasters, fashion coordinators, fashion journalists, and stylists. Graduates of the fashion design specialization establish careers in the industry as creative designers, quality assurance technicians, technical designers, pattern makers, CAD (Computer Aided Design) specialists, and product developers.

Students have the opportunity for employment throughout the United States and internationally. While the primary hubs for the fashion industry remain in large coastal cities such as New York and Los Angeles, there are industry positions in other regions throughout the country. For example, corporate retailers have established their headquarters and regional offices in various mid-sized markets throughout the United States including Chicago, Denver, Dallas, Columbus, Kansas City, Miami, Baltimore, Philadelphia, Portland, San Francisco and Seattle. Graduates interested in retail management or small business operations can find a position in the city of their choice.

Special features

- The fashion studies program is accredited by the Textiles and Apparel Programs Accreditation Commission (TAPAC) and the fashion design specialization is accredited by the National Association of Schools of Art and Design (NASAD).
- All students participate in at least one summer internship and may also choose to participate in study abroad and a variety of both domestic and foreign faculty-led study tours.
- Upper-level undergraduates can participate in the visiting student program at the Fashion Institute of Technology in New York.
- Opportunities in coursework and experience-based learning provide exposure to diverse cultural perspectives.

What will I study?

Fashion Studies students develop technical knowledge, problem-solving skills, and leadership abilities while being challenged to excel in the specialization they have selected. Students learn about all aspects of the fashion industry from the manufacture of fibers to fashion design, production, distribution, marketing and retail management. The fashion studies program at K-State emphasizes the importance of environmental, economic, and social sustainability throughout the industry.

The goals of the fashion studies program are to develop individuals with creative and analytical thinking abilities and to develop competent, resourceful, business leaders who have a liberal and general education. Course work for fashion studies students includes written and oral communications, mathematics, social sciences, natural and physical sciences, and computer applications.

All students participate in an integrated core of studies in textiles, aesthetics, digital communication, fashion forecasting, soft goods evaluation, consumer behavior, historic analysis of fashion, and supply chain management. The program provides both practical experiences and a solid knowledge base for graduate studies.

Our program offers students an academic experience that includes strong industry ties, required internships, and faculty-led study tours within the United States and abroad, an annual public exhibition of student work, and events that bring professionals and alumni to campus.

High School Preparation

Students who meet the Kansas qualified admission requirements are prepared to enter the fashion studies program at K-State. For those who specialize in fashion business, two years of high school algebra and work experience in retailing are recommended. Those specializing in fashion design are expected to have course work and other experiences in sewing, design

and art. Cultural activities, travel and exposure to a wide variety of media are also encouraged for all students entering the program.

Computer Access

Fashion Studies students are required to provide a personal laptop computer beginning in the first year of study in the program. Please consult the fashion studies website for minimum computer requirements. As technology changes, so do the computer specifications. Students are encouraged to verify the most current requirements.

Kansas State University Core: 34-36 Credit Hours

Unrestricted Electives: (1 Credit Hour)

Dependent on course selections to fulfill K-State Core requirements.

Total Hours Required for Graduation: 120

Personal Financial Planning (BS)

The personal financial planning program combines course work in personal finance, family relationships and decision making, consumer rights, insurance, investments, sales, retirement and estate planning, economics, and accounting. Emphasis is placed on understanding financial products and how they work, as well as the role of family in financial decisions. The program offers financial planning courses that satisfy CFP® Board's education requirement for the CFP®/CERTIFIED FINANCIAL PLANNER® certification.

The program also offers financial counseling courses that satisfy the education requirements for the Accredited Financial Counselor (AFC®) exam sponsored by the Association for Financial Counseling and Planning Education.

Kansas State University does not certify individuals to use the AFC®, CFP®, CERTIFIED FINANCIAL PLANNER®, and CFP® certification marks. AFC ® is solely granted by the Association for Financial Counseling and Planning Education. CFP® certification is solely granted by the Certified Financial Planner Board of Standards to individuals who, in addition to completing an education requirement such as this CFP Board-Registered program, have met ethics, experience, and examination requirements.

Bachelor's Degree Requirements

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements: (71-83 Credit Hours)

HHS Courses: (3 Credit Hours)

HHS 100 - Well-being 1: You and Community **Credits:** 1
HHS 200 - Well-being 2: Mind and Body **Credits:** 1
HHS 300 - Well-being 3: Money and Meaning **Credits:** 1

Major Support Courses: (3-12 Credit Hours)

* Required if not met through University Core requirements.

ECON 110 - Principles of Macroeconomics **Credits:** 3
OR
ECON 120 - Principles of Microeconomics **Credits:** 3
MATH 100 - College Algebra **Credits:** 3
OR
College Level-Trigonometry or Calculus Class

Sales

SALES 450 - Sales Technology **Credits:** 3
SALES 451 - Sales Force Leadership **Credits:** 3

Agricultural Economics

AGEC 318 - Food and Agribusiness Management **Credits:** 3
AGEC 420 - Commodity Futures **Credits:** 3

Optional Concentration

In consultation with your advisor, select 6 credit hours at the 300-level or above related to your academic and professional goals.

Unrestricted Electives: (3-15 Credit Hours)

Only 100-799 level undergraduate courses may be applied.

Total Hours Required for Graduation: 120

Minor

Fashion Studies Minor

The undergraduate minor in Fashion Studies builds upon the strength of the existing Fashion Studies baccalaureate program. The minor provides students basic understanding of the practice and theoretical underpinnings of the fashion industry.

Program requirement (18 credit hours)

Core Courses (required 9 hours)

FASH 245 - Fashion Industry **Credits:** 3
FASH 265 - Textiles **Credits:** 3
FASH 330 - Dress and Human Behavior **Credits:** 3

*These courses may require additional prerequisite courses in excess of the credit hours needed for the Fashion Studies minor.

Elective courses (9 credit hours)

Choose three courses from the following (a minimum of 3 credit hours MUST be at the 400-level or above):

FASH 325 - Fashion Retailing **Credits:** 3
FASH 340 - Fashion Aesthetics **Credits:** 3
FASH 375 - Digital Fashion Communications **Credits:** 3
FASH 430 - History of Fashion **Credits:** 3
FASH 450 - Showcase of Excellence Event Planning **Credits:** 3
FASH 460 - Soft Goods Evaluation **Credits:** 3
FASH 476 - Merchandise Math and Buying Concepts **Credits:** 3
FASH 575 - Fashion Forecasting **Credits:** 3
FASH 576 - Retail Finance and Merchandise Control **Credits:** 3
FASH 600 - Soft Goods Supply Chain Management **Credits:** 3

Transfer Courses

No more than six (6) credit hours of transfer courses may be used for the FASH minor.

Admission requirements

The FASH Minor is available to current K-State undergraduate students, subject to the following criteria:

Students must submit a Minor Application Form.
The application must be approved by the FASH undergraduate program coordinator in order for the student to be eligible to receive the requested minor.
A 2.0 minimum GPA is required for admittance into the minor.

Completion requirements

The minor in Fashion Studies will be available upon completion of the eighteen (18) required credit hours. To be awarded a minor, the student (a) must not be on probation, (b) must have earned a "C" or higher on coursework applied to the minor, (c) must
meet all requirements of the student's major program, and (d) must be enrolled during the semester in which the minor's requirements are completed.

Financial Counseling Minor

Financial Counseling is a growing field and a necessary personal skill in today's complex financial market. The financial counseling minor provides students with an overview of the content needed to serve as a financial counselor.

At least 9 of the required 15 credit hours must be completed at Kansas State University. Students must achieve a cumulative 2.50 GPA in the five required courses to complete the minor.

Required

PFP 105 - Introduction to Personal Financial Planning **Credits:** 3
PFP 315 - Love and Money **Credits:** 3
PFP 456 - Financial Counseling and Communication **Credits:** 3

Choose 6 hours from the following options:

AMETH 300 - Intercultural Competence in Institutions **Credits:** 3
GERON 215 - Introduction to Gerontology **Credits:** 3
HDFS 250 - Interpersonal and Family Relationships **Credits:** 3
PFP 300 - Problems in Personal Financial Planning **Credits:** 0-3
PFP 305 - Advanced Personal Financial Planning **Credits:** 3
PFP 320 - Applied Behavioral Finance **Credits:** 3
PFP 460 - Retirement Planning Concepts **Credits:** 3
PFP 462 - Personal Investment Concepts I **Credits:** 3
PFP 464 - Estate Planning Concepts **Credits:** 3
PFP 466 - Personal Risk Management and Insurance Planning **Credits:** 3
PFP 472 - Personal Income Tax Concepts **Credits:** 3
PSYCH 505 - Introduction to Psychopathology **Credits:** 3
SOCWK 315 - Human Behavior in the Social Environment I **Credits:** 3

Total Minimum Hours Required for Graduation: 15

Hospitality Management Minor

The undergraduate minor in Hospitality Management provides a theoretical and empirical framework building upon the strength of the existing Hospitality Management baccalaureate program. The minor provides students a basic understanding of the practice and theoretical underpinnings of food and beverage, lodging, or meeting and event management.

The minor in Hospitality Management will be available upon completion of the eighteen (18) required credit hours. To be awarded a minor, the student (a) must not be on probation, and (b) must have a cumulative GPA of 2.0 or higher on coursework applied to the minor. Students who have declared an approved minor and completed all requirements for it will receive official recognition for that emphasis after the degree is posted.

Minor Requirements (18 credit hours)

HM 120 - Introduction to the Hospitality Industry **Credits:** 3
HM 341 - Principles of Food Production Management **Credits:** 3
or
HM 361 - Hotel Operations **Credits:** 3
or
HM 363 - Event Management **Credits:** 3
HM 621 - Hospitality Law **Credits:** 3
or

HM 482 - Human Resource Management in the Hospitality Industry **Credits:** 3
Hospitality Electives **Credits: 9

Elective Options

***Students must choose nine credit hours of elective course options, six credits of these must be at the 400-level or above.*

HM 205 - Food Safety and Protection in Hospitality Operations **Credits:** 1
HM 230 - Issues in Tourism **Credits:** 3
HM 331 - Resort and Club Management **Credits:** 3
HM 440 - Beverage Management **Credits:** 3
HM 341 - Principles of Food Production Management **Credits:** 3
HM 351 - Commercial Food Production Management **Credits:** 3

PFP 466 - Personal Risk Management and Insurance Planning **Credits:** 3
PFP 472 - Personal Income Tax Concepts **Credits:** 3
PFP 482 - Personal Investment Concepts II **Credits:** 3

Total Hours Required for Minor: 15

Undergraduate Certificate

Agritourism Undergraduate Certificate

The Agritourism Certificate consists of 15 credit hours and prepares students with the necessary skills to lead and manage businesses in agriculturally based tourism operations. This certificate is available to all current undergraduate students or as a post-baccalaureate certificate. This certificate complements many majors including those interested in hospitality and tourism, small business, agribusiness, agricultural economics, agricultural sales, global food system leadership, outdoor enterprises management, and many more.

The Agritourism Certificate can be completed by degree-seeking students at Kansas State or obtained as a credential on its own (free-standing). Students who do not intend to become a candidate for a bachelor's degree at Kansas State University must apply for admission as a non-degree, certificate-seeking student.

A cumulative GPA of 2.0 or higher across the 15 credit hours is required for graduation. Additionally, each course must be completed with a grade of C or higher.

Required Courses: 12 Credit Hours

AGEC 202 - Small Business Operations **Credits:** 3
HM 230 - Issues in Tourism **Credits:** 3
HM 321 - Hospitality Service Systems **Credits:** 3
HM 424 - Hospitality Sales and Promotion **Credits:** 3
OR

AGEC 515 - Food and Agribusiness Marketing **Credits:** 3

Electives: 3 Credit Hours

AGEC 315 - Contemporary Issues in Global Food and Agricultural Systems **Credits:** 3

School of Health Sciences

The mission of the School of Health Sciences is to empower future health professionals, discovering new knowledge, and positively impacting lives. The School of Health Sciences offers the following Bachelor of Science (BS) programs: Athletic

Training and Rehabilitation Science, Communication Sciences and Disorders, Dietetics, Kinesiology, Integrative Physiology, Nutrition and Health (pre-health), and Nutritional Sciences (pre-med), Public Health, Sports Nutrition.

The school offers accelerated BS/MS and BS/MPH options that allows high-achieving students to more efficiently obtain their graduate degree along with minors and certificates.

Bachelor of Science

Athletic Training and Rehabilitation Sciences (BS)

Kansas State University's Athletic Training and Rehabilitation Sciences undergraduate degree program prepares students for a career as an allied-health professional and/or entry into graduate professional degree programs such as Athletic Training, Physical Therapy, Physician Assistant and Occupational Therapy. The plan of study meets the admission requirements for many health professional programs, specifically the MS in Athletic Training program at Kansas State University. The pre-professional program teaches foundational concepts related to athletic training and rehabilitation sciences with a focus on allowing students to learn to critically apply the knowledge needed to properly manage the health care needs of physically active individuals at all levels and ages. To complement classroom learning, pre-professional students must undergo a period of guided observation at clinical sites and a variety of healthcare settings that are both on and off campus. These experiences allow students to gather firsthand knowledge on employment settings and make informed decisions about their future health career options. Examples of healthcare settings that professionals may be working in include: secondary schools, colleges and universities, professional sports, performing arts, military, industrial, sports medicine clinics (both assisting physicians and in rehabilitation) and other healthcare settings.

K-State has proactively developed this degree program to respond to the Athletic Training Strategic Alliances' decision to require a Master's degree to become eligible for certification as an Athletic Trainer. For more information regarding the MS in AT Degree at Kansas State University, please see our website for the most current information.

To earn the Athletic Training Certification, students must complete an accredited Masters Degree in Athletic Training program and successfully pass the Board Certification (BOC) - Atheletic Training examination. Additional information for high school, transfer and post-baccalaureate students is outlined on the department's webpage at: https://www.hhs.k-state.edu/fndh/academics/undergraduate/athletic-training/. Contact Graduate Athletic Training Program Director, fndh@k-state.edu.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements: (70 credit hours)

* If any of the following courses are applied towards University Core Requirements, please consult your advisor on additional courses to meet the 120 hours.

HHS Courses: (3 credit hours)

HHS 100 - Well-being 1: You and Community **Credits:** 1
HHS 200 - Well-being 2: Mind and Body **Credits:** 1
HHS 300 - Well-being 3: Money and Meaning **Credits:** 1

Major Support Courses: (26 credit hours)

* Required if not met through K-State Core requirements.

PSYCH 110 - General Psychology **Credits:** 3
BIOL 198 - Principles of Biology **Credits:** 4
BIOL 441 - Human Body I **Credits:** 4
BIOL 442 - Human Body II **Credits:** 4
OR
KIN 360 - Anatomy and Physiology **Credits:** 8
CHM 110 - General Chemistry **Credits:** 3
CHM 111 - General Chemistry Laboratory **Credits:** 1
OR
CHM 210 - Chemistry I **Credits:** 4
PHYS 113 - General Physics I **Credits:** 4
STAT 225 - Introduction to Statistics **Credits:** 3

Professional Courses: (41 credit hours)

***Grades of C or higher required**

Athletic Training and Rehabilitation Sciences Courses: (26 credit hours)

FNDH 115 - Introduction to Health and Nutrition Professions **Credits:** 3
FNDH 132 - Basic Nutrition **Credits:** 3
FNDH 220 - Care and Prevention of Athletic Injuries **Credits:** 3
FNDH 321 - Medical Documentation **Credits:** 2
FNDH 450 - Nutritional Assessment **Credits:** 2
FNDH 551 - Evaluation of Athletic Injuries of the Extremities **Credits:** 3
FNDH 556 - Rehabilitation and Conditioning for Athletic Injuries **Credits:** 3
FNDH 575 - Research in Health Sciences **Credits:** 1
FNDH 635 - Sports Nutrition **Credits:** 3
FNDH 654 - Pathophysiology and Clinical Evaluation **Credits:** 3

Kinesiology Courses: (12 credit hours)

KIN 220 - Biobehavioral Bases of Physical Activity **Credits:** 4
KIN 330 - Biomechanics **Credits:** 3
KIN 335 - Physiology of Exercise **Credits:** 4
KIN 336 - Physiology of Exercise Lab **Credits:** 1

Supportive Course: (3 credit hours)

GERON 215 - Introduction to Gerontology **Credits:** 3

Unrestricted Electives: (16 credit hours)

Dependent on course selections to fulfill K-State Core requirements.

Total Hours Required for Graduation: 120

Communication Sciences and Disorders (BS)

The goal of the communication sciences and disorders major is to educate professionals who are competent to help children and adults with communicative problems of speech, hearing, and language. The undergraduate program provides the foundation for the MS program, which is accredited by the Council on Academic Accreditation, and meets the current requirements in speech language pathology for the Certificate of Clinical Competence of the American Speech–Language-Hearing Association. Determination of the student's program of study and the completion of all requirements for certification are the responsibility of the student and the advisor.

Enrollment in the following specified professional courses requires CSD major, completion of 57 credit hours, and an overall 3.0 GPA, including both K-State and KSIS-credited transfer coursework.

Students participate in observations of a variety of disorders and age groups in the KSU Speech and Hearing Center. Students may on invitation of the faculty, participate in a supervised direct clinical experience at the KSU Speech and Hearing Center.

Bachelor's degree requirements

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements: 84 credit hours

* If any of the following courses are applied towards University Core Requirements, please consult your advisor on additional courses to meet the 120 hours.

HHS Courses: 3 credit hours

HHS 100 - Well-being 1: You and Community **Credits:** 1
HHS 200 - Well-being 2: Mind and Body **Credits:** 1
HHS 300 - Well-being 3: Money and Meaning **Credits:** 1

Major Support Courses: 16 credit hours

* Required if not met through K-State Core requirements.

If not met through K-State Core requirements, STAT 225 is required.

PSYCH 110 - General Psychology **Credits:** 3
OR
SOCIO 211 - Introduction to Sociology **Credits:** 3

CSD 567 - Hearing Assessment and Intervention **Credits:** 3
CSD 570 - Hearing and Communication **Credits:** 2
CSD 580 - Neurological Basis of Communication and Swallowing Disorders **Credits:** 3
ECED 310 - Early Childhood **Credits:** 3
HDFS 110 - Introduction to Human Development **Credits:** 3

HDFS 301 - Interpersonal Skills for Helping Professionals **Credits:** 3

OR

ECED 420 - Interaction Techniques with Young Children **Credits:** 3

Professional Electives: 21 credit hours

In consultation with advisor select 21 hours of professional elective credit hours related to academic and professional goals. Students are encouraged to consider minors, certificates, and career track options identified by Communication Sciences and Disorders academic advisor.

The courses listed below are common courses taken as professional electives and students may assume will automatically count towards the 21-hour requirement.* **This list is not exhaustive; *students should further consult with their CSD academic advisor to determine what other classes may apply and which courses best fit their individual academic goals and interests.*

Electives list available at: https://www.hhs.k-state.edu/students/services/programs/

Unrestricted Electives: 2 credit hours

Dependent on course selections to fulfill K-State Core requirements.

Total Hours Required for Graduation: 120

Dietetics (BS)

The BS in Dietetics prepares students for a career as a Registered Dietitian Nutritionist (RDN).â€¯ Dietitians provide medical nutrition therapy for the treatment of diet-related diseases and conditions.â€¯ In addition, dietitians use their expertise in a variety of settings, such as hospitals, medical clinics, local health departments, long-term care and senior living facilities, sports teams, K-12 schools, universities, corporations, restaurants, food manufacturers, and media organizations.â€¯ Dietetic practice areas range from acute clinical care, to school nutrition programs, to nutrition education, and so much more.â€¯ Individuals holding the RDN credential understand the background science and can interpret nutrition research for the public and guide the development of programs that help individuals and groups reach the healthiest state possible.â€¯

The program is accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) as a Didactic Program in Dietetics (DPD). â€¯Graduates of the DPD are eligible to receive an ACEND Didactic Program Verification Statement. This verification statement allows them to apply to accredited supervised practice programs, which is a required step in the pathway to becoming eligible to sit for the RDN credentialing exam. The verification statement also immediately qualifies graduates to take the Commission on Dietetic Registration (CDR) credentialing exam to become a Nutrition and Dietetics Technician, Registered (NDTR).

Students interested in receiving the ACEND Didactic Program Verification Statement must indicate their interest midway through the curriculum. A formal review process is used to verify student eligibility.

Students must:

- have completed or be enrolled in FNDH 400
- have earned a B or higher in all Professional Courses taken prior to the review
- have earned a C or higher in Major Support Courses taken prior to the review
- have an overall GPA of 3.0 or higher in collegiate course work (Waivers of this criteria are considered on a case-by-case basis.)

share any additional information as requested by the review committee.

To earn the RDN credential, students must also earn a master's degree, complete an accredited supervised practice, and successfully pass the Commission on Dietetic Registration (CDR) exam.

Prospective students please visit: https://www.hhs.k-state.edu/fndh/academics/undergraduate/dietetics/

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. FNDH 645 - Capstone in Dietetics **Credits:** 1

Unrestricted Electives: (9 credit hours)

Dependent on course selections to fulfill K-State Core requirements.

Total Hours Required for Graduation: 120

Human Nutrition (BS) - Nutrition and Health

The nutrition and health curriculum emphasizes health promotion, chronic disease prevention, human nutrition, and preparation for careers in the healthcare field. Graduates from this program may develop community programs to promote nutrition, health, and wellness, educate people about the relationship between diet and health, and/or work with special groups at risk for nutrition-related health problems, such as pregnant women, infants, and the elderly. Opportunities are available with local health departments/extension offices, wellness programs, and the healthcare industry. This program is also designed to develop our graduates to be competitive applicants for most accredited healthcare programs, including (but not limited to):

Nursing
Physician Assistant
Occupational Therapy
Physical Therapy

Kansas State University Core: 34-36 Credit Hours

HHS Courses: (3 credit hours)

HHS 100 - Well-being 1: You and Community **Credits:** 1
HHS 200 - Well-being 2: Mind and Body **Credits:** 1
HHS 300 - Well-being 3: Money and Meaning **Credits:** 1

Major Support Courses: (18 credit hours)

* Required if not met through University Core requirements.

C or better required.

If not met through K-State Core requirements, STAT 225 is required.

PSYCH 110 - General Psychology **Credits:** 3
SOCIO 211 - Introduction to Sociology **Credits:** 3
BIOL 441 - Human Body I **Credits:** 4
AND
BIOL 442 - Human Body II **Credits:** 4
OR
KIN 360 - Anatomy and Physiology **Credits:** 8
KSC 030
STAT 225 - Introduction to Statistics **Credits:** 3

Professional Studies (39 credit hours)

Grades of 'C' or higher required for Professional Courses.

A GPA of 2.2 for all Kinesiology courses excluding KIN 360 is required.

Kinesiology Lower-level Courses: (18 credits hours)

KIN 220 - Biobehavioral Bases of Physical Activity **Credits:** 4
KIN 310 - Measurement and Research Techniques in Kinesiology **Credits:** 4
KIN 335 - Physiology of Exercise **Credits:** 4
KIN 336 - Physiology of Exercise Lab **Credits:** 1
KIN 345 - Exercise Behavioral Science **Credits:** 5

Exercise Physiology: (3 credit hours)

Choose one of the following courses:

KIN 601 - Cardiorespiratory Physiology **Credits:** 3
KIN 603 - Cardiovascular Physiology **Credits:** 3
KIN 607 - Muscle Physiology **Credits:** 3
KIN 611 - Autonomic Neurophysiology **Credits:** 3

Exercise Behavioral Science: (3 credit hours)

Choose one of the following courses:

KIN 600 - Interpersonal Aspects of Physical Activity **Credits:** 3
KIN 602 - Social Structural Determinants of Physical Activity **Credits:** 3
KIN 610 - Program Planning and Evaluation **Credits:** 3
KIN 612 - Policy, Built Environment and Physical Activity **Credits:** 3
KIN 616 - Obesity and Physical Activity: Behavioral, Environment, and Policy Influences **Credits:** 3
KIN 655 - Individual Physical Activity Promotion **Credits:** 3

Kinesiology Elective Courses 300 level or higher: (24 credit hours)

Select 24 hours of Kinesiology courses above 300 level not applied elsewhere. At least 3 hours must be 600 level or above.

Unrestricted electives: (17 credit hours)

Dependent on course selection to fulfill general education requirements

Total Hours Required for Graduation: 120

Public Health (BS)

A total of 120 credit hours are required for graduation. The BS degree is obtained by following the curriculum of the College of Health and Human Sciences.

Public Health majors must complete a Public Health core of 40 credit hours and complete a minimum of 12 credit hours of Public Health Electives from an accepted list of courses

A minimum grade of C and GPA of 2.2 are required for all Public Health courses meeting degree requirements.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements: 70 Credit Hours

*If any of the following courses are applied towards University Core Requirements, please consult your advisor on additional courses to meet the 120 hours.

HHS Courses: 3 Credit Hours

HHS 100 - Well-being 1: You and Community **Credits:** 1
HHS 200 - Well-being 2: Mind and Body **Credits:** 1
HHS 300 - Well-being 3: Money and Meaning **Credits:** 1

Major Support Courses: 15 Credit Hours

*Required if not met through University Core requirements.

If not met through K-State Core requirements, STAT 225 is required.

C or better required.

BIOL 198 - Principles of Biology **Credits:** 4
BIOL 441 - Human Body I **Credits:** 4
AND

GERON 430 - Introduction to Mental Health & Aging **Credits:** 3
PSYCH 518 - Introduction to Health Psychology **Credits:** 3
KIN 381 - Exercise and Chronic Disease **Credits:** 3
KIN 612 - Policy, Built Environment and Physical Activity **Credits:** 3
KIN 616 - Obesity and Physical Activity: Behavioral, Environment, and Policy Influences **Credits:** 3

Unrestricted Electives: 16 Credit Hours

Dependent on course selections to fulfill general education requirements.

Total Hours Required for Graduation: 120

Sports Nutrition (BS)

Sports Nutrition is a 120-credit hour bachelor's degree program focusing on the application of nutrition principles as they relate to sport and human performance. Students will explore how nutrition impacts performance. Graduates of this program may pursue careers in sports nutrition, dietetics, health programs positions offered by hospitals, industries, wellness centers, public and private clinics, fitness camps, and athletic clubs

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements: (73 Credit Hours)

Grades of C or higher required for Program Requirements.

*If any of the following courses are applied towards University Core Requirements, please consult your advisor on additional courses to meet the 120 hours.

HHS Courses: (3 Credit Hours)

HHS 100 - Well-being 1: You and Community **Credits:** 1
HHS 200 - Well-being 2: Mind and Body **Credits:** 1
HHS 300 - Well-being 3: Money and Meaning **Credits:** 1

Major Support Courses: (21 Credit Hours)

BIOL 198 Principles of Biology requires a C or higher to meet other course requirements.

*Required if not met though University Core requirements.
If not met through K-State Core requirements, STAT 225 is required.

BIOL 198 - Principles of Biology **Credits:** 4
BIOL 441 - Human Body I **Credits:** 4
BIOL 442 - Human Body II **Credits:** 4
OR

Minor

Kinesiology Minor

Students interested in earning a minor in kinesiology choose either the public health/physical activity emphasis or the exercise physiology emphasis. Both emphases require 16 credit hours.

C or better required in all courses to count towards minor.

Exercise Behavioral Science Emphasis (13 credit hours)

KIN 220 - Biobehavioral Bases of Physical Activity **Credits:** 4
KIN 310 - Measurement and Research Techniques in Kinesiology **Credits:** 4
KIN 345 - Exercise Behavioral Science **Credits:** 5

And choose one course from the following (3 credit hours):

KIN 600 - Interpersonal Aspects of Physical Activity **Credits:** 3
KIN 602 - Social Structural Determinants of Physical Activity **Credits:** 3
KIN 610 - Program Planning and Evaluation **Credits:** 3
KIN 612 - Policy, Built Environment and Physical Activity **Credits:** 3
KIN 614 - Physical Activity Behavior Settings: Youth Sport to Senior Centers **Credits:** 3
KIN 655 - Individual Physical Activity Promotion **Credits:** 3
KIN 797 - Topics in Public Health Physical Activity Behavior **Credits:** 3

Total Credit Hours: (16)

OR

Exercise Physiology Emphasis (13 credit hours)

KIN 220 - Biobehavioral Bases of Physical Activity **Credits:** 4
KIN 310 - Measurement and Research Techniques in Kinesiology **Credits:** 4
KIN 335 - Physiology of Exercise **Credits:** 4
KIN 336 - Physiology of Exercise Lab **Credits:** 1

And choose one course from the following (3 credit hours):

KIN 601 - Cardiorespiratory Physiology **Credits:** 3
KIN 603 - Cardiovascular Physiology **Credits:** 3
KIN 605 - Topics in the Biological Basis of Kinesiology **Credits:** 1-3
KIN 607 - Muscle Physiology **Credits:** 3
KIN 609 - Environmental Physiology **Credits:** 3
KIN 611 - Autonomic Neurophysiology **Credits:** 3
KIN 615 - Cardiorespiratory/Comparative Physiology in Health and Disease **Credits:** 3
KIN 635 - Nutrition and Exercise **Credits:** 3
KIN 657 - Integrative Human Pathophysiology **Credits:** 3

KIN 796 - Topics in Exercise Physiology **Credits:** 3

Total Credit Hours: (16)

Nutrition Minor

The purpose for our Nutrition Minor is to provide individuals seeking knowledge and training in nutrition to complement their other academic and professional pursuits.

Core courses (10-12 credit hours)

Students must earn a grade of "C" or better in all coursework.

FNDH 132 - Basic Nutrition **Credits:** 3
FNDH 400 - Human Nutrition **Credits:** 3
FNDH 450 - Nutritional Assessment **Credits:** 2
FNDH 540 - Nutrition Education and Program Planning **Credits:** 2
OR
FNDH 313 - Science of Food **Credits:** 4

Electives (5-6 credit hours)

Select two of the following:

FNDH 510 - Life Span Nutrition **Credits:** 2
FNDH 600 - Public Health Nutrition **Credits:** 3
FNDH 620 - Nutrient Metabolism **Credits:** 3
FNDH 635 - Sports Nutrition **Credits:** 3

Total hours required: 15-18

Undergraduate Certificate

Community Health Undergraduate Certificate

The purpose for the Community Health certificate is to provide specific training to individuals seeking knowledge and experiences pertaining to Community Health. Based on information and dialogue with the Kansas Community Health Worker Coalition, this certificate program was designed to meet their expressed needs of training Community Health Workers. A Community Health Worker is someone who works with and educates small groups and communities to improve the health of their constituents. This academic certificate program is not a licensing or credentialing certification.

This certificate program will provide a community and public health-focused vocational direction for our students, and those currently working in public health seeking enhanced training. This certificate can be completed by degree seeking students at Kansas State University or obtained as a credential on its own (free-standing).

The courses are designed to complement several degree programs within Kansas State University.

Course Requirements (16-19 credit hours)

Students must earn a grade of "C" or better in all coursework.

Required Courses (9 credit hours)

Choose 3 of the following courses.

FNDH 115 - Introduction to Health and Nutrition Professions **Credits:** 3
FNDH 252 - Personal Wellness **Credits:** 3
HDFS 301 - Interpersonal Skills for Helping Professionals **Credits:** 3
KIN 230 - Introduction to Public Health **Credits:** 3

Supportive Courses (6-7 credit hours)

Choose 2 of the following courses.

FNDH 132 - Basic Nutrition **Credits:** 3
GERON 215 - Introduction to Gerontology **Credits:** 3
HDFS 552 - Social Justice in a Family Context **Credits:** 3
IHS 310 - Foundations of Integrative Human Sciences **Credits:** 3
KIN 220 - Biobehavioral Bases of Physical Activity **Credits:** 4
KIN 318 - Rural Community Health **Credits:** 3
KIN 418 - Social Determinants and Diversity in Public Health **Credits:** 3
PFP 105 - Introduction to Personal Financial Planning **Credits:** 3

Practical Requirement (1-3 credit hours)

FNDH 650 - Practicum in Food, Nutrition, Dietetics and Health **Credits:** 1-6
Or
HDFS 411 - HDFS Practicum **Credits:** 0-3
OR
KIN 619 - Public Health Practicum **Credits:** 3

Total hours required: 16-19

Dietetics Undergraduate Certificate

The Dietetics Undergraduate Certificate is a pathway for career-changers to earn a Didactic Program in Dietetics (DPD) Verification Statement from an ACEND-accredited program. The Dietetics Certificate consists of 43 credit hours of certificate courses. The certificate is designed as a free-standing credential. To earn the Dietetics Certificate, learners must already have earned a bachelor's degree. Prerequisite coursework must be completed separately if not included in earned bachelor's degree, with a C or better. Certificate courses must be completed with a B or better. After admission to the Dietetics Undergraduate Certificate, certificate seekers may apply for Didactic Program Verification Statement Consideration. Four required courses must be completed at Kansas State University: FNDH 400, FNDH 631, FNDH 632, and FNDH 645.

Admission Requirements:

Learners must hold a completed bachelor's degree. They must have earned a B or higher in Certificate Courses and a C or higher in any Major Support Courses taken prior to application.

Special Requirements:

Certificate seekers are eligible to receive an ACEND Didactic Program Verification Statement. This verification statement allows them to apply to accredited supervised practice programs, which is a required step in the pathway to becoming eligible to sit for the RDN credentialing exam. The verification statement also immediately qualifies graduates to take the Commission on Dietetic Registration (CDR) credentialing exam to become a Nutrition and Dietetics Technician, Registered (NDTR).

A formal review process is used to verify learner eligibility.

To be eligible to apply, you must have:

completed or be enrolled in FNDH 400

earned a B or higher in Certificate courses taken prior to application

earned a C or higher in Major Support Courses taken prior to application

have an overall GPA of 3.0 or higher in collegiate coursework (Waivers of this criteria are considered on a case-by-case basis.)

share any additional information as requested by the review committee.

To earn the RDN credential, students must also earn a master's degree, complete an accredited supervised practice, and successfully pass the Commission on Dietetic Registration (CDR) exam.

Completion Requirements

Earning a C or better in prerequisite courses.
Earning a B or better in certificate courses.
Successful review of ACEND DPD Verification Statement eligibility requirements.
Completion of these four courses at Kansas State University: FNDH 400, FNDH 631, FNDH 632, and FNDH 645.

Required Courses: (43 Credit Hours)

Four courses must be taken at Kansas State University: FNHD 400, FNDH 631, FNDH 632 and FNDH 645.

FNDH 132 - Basic Nutrition **Credits:** 3
FNDH 313 - Science of Food **Credits:** 4
FNDH 321 - Medical Documentation **Credits:** 2
FNDH 400 - Human Nutrition **Credits:** 3
FNDH 442 - Management in Dietetics I **Credits:** 4
FNDH 450 - Nutritional Assessment **Credits:** 2
FNDH 510 - Life Span Nutrition **Credits:** 2
FNDH 515 - Counseling Strategies in Dietetic Practice **Credits:** 3
FNDH 540 - Nutrition Education and Program Planning **Credits:** 2
FNDH 542 - Management in Dietetics II **Credits:** 2
FNDH 543 - Management in Dietetics III **Credits:** 2
FNDH 575 - Research in Health Sciences **Credits:** 1
FNDH 600 - Public Health Nutrition **Credits:** 3
FNDH 620 - Nutrient Metabolism **Credits:** 3
FNDH 631 - Clinical Nutrition I **Credits:** 3
FNDH 632 - Clinical Nutrition II **Credits:** 3
FNDH 645 - Capstone in Dietetics **Credits:** 1

Total Hours Required: 43

Fitness Professional Undergraduate Certificate

The Fitness Professional Certificate, offered through the Department of Kinesiology, provides students with the tools to pursue a career in the Fitness or Strength and Conditioning industry. Students gain foundational knowledge in the science of movement (neuromuscular, biomechanics, physiology). Students will also have the opportunity to prepare to sit for a nationally recognized certification from organizations including, but not limited to, the American College of Sports Medicine, the National Strength and Conditioning Association, the National Academy of Sports Medicine, and the American Council on Exercise. Students will also have the option to learn directly from successful professionals in the field. This certificate is available to both online and on-campus students.

Graduation Requirements

C or better in all Kinesiology courses.

Required Courses (12-15)

KIN 108 - Strength and Conditioning Specialist **Credits:** 2
OR
KIN 382 - Strength and Conditioning for Performance **Credits:** 3

KIN 109 - Professional Development for Coaches **Credits:** 2
OR
KIN 380 - Principles of Exercise Training **Credits:** 3

KIN 320 - Motor Learning and Development **Credits:** 3
KIN 384 - Certifications in Health and Fitness **Credits:** 3

KIN 111 - Adaptive Training **Credits:** 2
OR
KIN 385 - Fundamentals of Health and Fitness **Credits:** 3

Total Credits: 12-15

Health Coach Undergraduate Certificate

The purpose for the Health Coaching certificate is to provide specific training to individuals seeking work as a Health Coach. A Health Coach is someone who educates and mentors individuals, or small groups, to improve their health behaviors. This is not a national certification program, but an academic certificate that can be completed by degree seeking students at Kansas State University or obtained by non-degree seeking as a credential on its own (free-standing).

Course Requirements: 15-16 credit hours

Didactic:

Students must earn a grade of "C" or better in all coursework.
FNDH 252 - Personal Wellness **Credits:** 3

FNDH 450 - Nutritional Assessment **Credits:** 2
FNDH 515 - Counseling Strategies in Dietetic Practice **Credits:** 3
PSYCH 110 - General Psychology **Credits:** 3

Practicum/Internship: 1 credit hour

FNDH 650 - Practicum in Food, Nutrition, Dietetics and Health **Credits:** 1-6

Electives, select one of the following:

FNDH 313 - Science of Food **Credits:** 4
FNDH 220 - Care and Prevention of Athletic Injuries **Credits:** 3
EDCI 300 - Principles of Coaching **Credits:** 3
GERON 215 - Introduction to Gerontology **Credits:** 3
PSYCH 505 - Introduction to Psychopathology **Credits:** 3
PSYCH 518 - Introduction to Health Psychology **Credits:** 3
PSYCH 520 - Life Span Personality Development **Credits:** 3

Total hours required: 15-16

E-mail: mailto:ahsinfo@k-state.edu humansci@k-state.edu
https://www.hhs.k-state.edu/human-sciences/

The School of Human Sciences is focused on the study of individuals and families from a multidisciplinary perspective. Programs emphasize developmental processes throughout the life cycle, interpersonal relationships, and educational programming for children and families.

Undergraduate programs include conflict resolution, early childhood education, family and consumer sciences education, gerontology, human development and family science, and integrative human sciences.

The department places great importance on laboratory and applied learning experiences, along with classroom experiences. On-campus applied learning experiences for undergraduate students are available in the Family Center and the Center for Child Development.

Bachelor of Science

Early Childhood Education (BS)

The Bachelor of Science in Early Childhood Education is for students who wish to work in birth through kindergarten education programs in administrative or teaching positions, including work with parents and community resources as well as with young children with and without disabilities.

Students desiring to earn the Kansas teaching license in early childhood unified, birth through kindergarten must be admitted to teacher education to enroll in the required licensure track courses.

Bachelor's degree requirements

Practicum courses

Before participating in practicum/lab courses involving contact with children, students must undergo a physical examination, including a tuberculosis test, at their own expense. Students must not have any physical or mental conditions that would interfere with the health, safety, or welfare of children.

Students will be screened by the Kansas Department of Health and Environment for criminal and child abuse histories (through the Kansas Bureau of Investigation and Kansas Department for Children and Family Services). Students with questionable histories, as determined by the Kansas Department of Health and Environment, will be dropped from the early childhood education program.

Student teaching

Enrollment in student teaching is by permission only. Student teaching may not be taken until the student has obtained full admission into teacher education and has completed ECED 543 , ECED 544 , ECED 553 , ECED 554 , ECED 555 .

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements: (80 credit hours)

If any of the following courses are applied towards K-State Core requirements, please consult your advisor on additional courses to meet the 120 hours.

Math Requirement

If not met through K-State Core requirements, MATH 160 is required.

KSC 030
MATH 160 - Introduction to Contemporary Mathematics **Credits:** 3

HHS Courses: (3 credit hours)

HHS 100 - Well-being 1: You and Community **Credits:** 1
HHS 200 - Well-being 2: Mind and Body **Credits:** 1
HHS 300 - Well-being 3: Money and Meaning **Credits:** 1

Professional Courses: (77 credit hours)

Teaching Field Courses require grades of C or higher and overall 2.75 GPA on all courses applied to degree. GPA is calculated from K-State and transfer courses. Teaching field courses include professional and track options.

ECED 210 - Introduction to Early Childhood Education **Credits:** 3
ECED 310 - Early Childhood **Credits:** 3 *
ECED 313 - Pre-Professional Experiences in Early Childhood Unified **Credits:** 1 *
ECED 420 - Interaction Techniques with Young Children **Credits:** 3 *
ECED 428 - Exceptional Development in Early Childhood **Credits:** 3
ECED 530 - Teaching & Learning in Early Childhood Education **Credits:** 3
ECED 531 - Developmental Curriculum in Early Childhood Education **Credits:** 3
ECED 566 - Emergent Literacy **Credits:** 3
ECED 597 - Home, School, and Community Partnerships **Credits:** 3
ECED 720 - Challenging Behaviors in Early Childhood **Credits:** 3
ECED 728 - Assessment of Young Children **Credits:** 3
EDSP 777 - Social Emotional Learning and Behavior Management Strategies **Credits:** 3
HDFS 110 - Introduction to Human Development **Credits:** 3
HDFS 250 - Interpersonal and Family Relationships **Credits:** 3

Track Courses: (22 credit hours)

Select one of the following tracks:
- Licensure
- Non-Licensure

Licensure Track**:

Student teaching: Enrollment in student teaching is by permission only. Student teaching may not be taken until student has obtained full admission into teacher education and has completed ECED 543 , ECED 544 , ECED 553 , ECED 554 , and ECED 555 .

ECED 543 - Reflective Practice: Infants and Toddlers **Credits:** 3 *
ECED 544 - Reflective Practice: Preschoolers and Kindergartners **Credits:** 3 *
ECED 553 - Early Childhood Practicum I: Infants and Toddlers **Credits:** 1 *
ECED 554 - Early Childhood Practicum II: Preschoolers **Credits:** 1 *
ECED 555 - Early Childhood Practicum III: Kindergartners **Credits:** 1 *
ECED 556 - Early Childhood Practicum 4: Home Visiting **Credits:** 1
ECED 598 - Student Teaching in Early Childhood Unified **Credits:** 9 ***
ECED 797 - Home Visiting Programs for Young Children and Families **Credits:** 3

Non-Licensure Track:

ECED 311 - Infant Toddler Development and Programs **Credits:** 3
ECED 312 - Infant Observation Lab **Credits:** 1 *
ECED 450 - Environments in Early Childhood **Credits:** 3
ECED 451 - Administering Early Childhood Programs **Credits:** 3
ECED 546 - Preschool Lab **Credits:** 2 *

ECED 588 - Applied Learning in Early Childhood Programs **Credits:** 7 ***
ECED 740 - Play Facilitation **Credits:** 3

Notes

*Physical exam and KBI/DCF clearance required.

**Admission to teacher's education is required.

***First aid/CPR certification required before enrollment in ECED 588 and ECED 598 . This requirement can be met by successful completion of Red Cross or American Heart Association courses.

Professional Electives: (15 credit hours)

Area of Concentration (Consult with Advisor)

Unrestricted Electives: (6 credit hours)

Dependent on course selection to fulfill K-State Core requirements.

Total Hours Required for Graduation: 120

Family and Consumer Sciences Education - Teacher Certification (BS)

This degree program is for students who plan to teach family and consumer sciences at the middle, junior high, senior high, or postsecondary levels. Family and consumer sciences educators equip students with the life skills they need to be healthy individuals and build strong families. Graduates of the program primarily work in middle and secondary schools, and cooperative extension.

Upon successful completion of all family and consumer sciences licensure requirements and the PRAXIS II content assessment test for family and consumer sciences, graduates are eligible to apply for licensure to teach family and consumer sciences in Kansas schools. See theâ€¯College of Educationâ€¯section of this catalog for more information on eligibility requirements, admission to teacher education, and admission to the professional semester.

Bachelor's degree requirements

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements: (85-86 credit hours)

***Minimum GPA 2.75 for all degree courses.**

*If any of the following courses are applied towards University Core requirements, please consult your advisor on additional courses to meet the 120 hours.

Math Requirement

If not met through K-State Core requirements, MATH 160 is required.

Additional Content: (2 credit hours)

Additional FCSED content course selected with approval from FCSED faculty

Professional Education Courses: (39-40 credit hours)

An average 3.0 GPA is required on all K-State and transfer credits applied, with no grade lower than a 'C' prior to Block III Professional semester.

Non-Blocked Courses

The following courses can be taken prior to admission to Teacher Education:
EDCI 110 - Foundations of Education
EDCI 200 - Teaching as a Career
EDCI 230 - Early Field Experience
EDCI 110 - Foundations of Education **Credits:** 3
EDCI 200 - Teaching as a Career **Credits:** 1
EDCI 230 - Early Field Experience **Credits:** 1
EDCI 318 - Educational Technology for Teaching and Learning **Credits:** 1
EDCI 405 - Middle-Level Education **Credits:** 2
EDSEC 620 - Principles and Philosophy of Career and Technical Education **Credits:** 2-3

Blocked Courses

The following courses are blocked in three sequential semesters. Courses in each block are taken concurerntly and are prerequisite to subsequent block or courses.

Block I

EDCI 315 - Educational Psychology **Credits:** 3
EDCI 320 - Core Teaching Skills and Lab **Credits:** 3
EDSP 323 - Exceptional Students in the Secondary School **Credits:** 2

Block II

EDSEC 455 - Teaching in a Multicultural Society **Credits:** 1
EDSEC 477 - Content Area Literacies and Diverse Learners **Credits:** 2
EDSEC 525 - Interpersonal Relations in the Schools **Credits:** 1
IHS 420 - Family and Consumer Science Methods for Secondary and Middle Schools **Credits:** 3
IHS 425 - Family and Consumer Science Education Practicum **Credits:** 2

Block III

***EDSEC 586 must be taken for 12 credit hours.**
EDSEC 586 - Teaching Internship in Secondary Schools **Credits:** 1-12

Unrestricted Electives: (0-1 credit hour)

Dependent on course selections to fulfill general education requirements.

Total Hours Required for Graduation: 120

Human Development and Family Science (BS)

The Bachelor of Science in Human Development and Family Science provides students with the opportunity to integrate classroom knowledge and real-world experiences to achieve a sophisticated understanding of how individuals, relationships, and families develop and function across the life course. It also provides a strong foundation for students wanting to go to graduate or professional school, as well as those wanting to pursue a career in:

healthcare (e.g., child life, nursing, occupational therapy, elder care)
human services (e.g., youth support services parent education, cooperative extension)
student affairs (e.g., school counseling, academic advising, college student development),
family intervention (e.g., couple and family therapy, divorce mediation, victim services),
government or public policy (e.g., child/family advocacy, juvenile justice, military family services), or
other helping professions (see more career options here: https://bit.ly/HDFS Careers).

Moreover, students majoring in HDFS can tailor their degree to fit their career goals by selecting a minor, certificate, area of concentration, or internship. HDFS graduates are well-prepared to improve the lives of individuals and families by enhancing their socioemotional, psychosocial, and relational health and well-being.

Bachelor's degree requirements

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements: (66 Credit Hours)

* If any of the following courses are applied towards University Core Requirements, please consult your advisor on additional courses to meet the 120 hours.

Math Requirement

If not met through K-State Core requirements, MATH 160 is required.

KSC 030
MATH 160 - Introduction to Contemporary Mathematics **Credits:** 3

HHS Courses: (3 Credit Hours)

HHS 100 - Well-being 1: You and Community **Credits:** 1
HHS 200 - Well-being 2: Mind and Body **Credits:** 1
HHS 300 - Well-being 3: Money and Meaning **Credits:** 1

Professional Courses: (63 Credit Hours)

Grade of C or higher required.

ECED 310 - Early Childhood **Credits:** 3
HDFS 110 - Introduction to Human Development **Credits:** 3
HDFS 250 - Interpersonal and Family Relationships **Credits:** 3
HDFS 301 - Interpersonal Skills for Helping Professionals **Credits:** 3
HDFS 302 - Introduction to Human Sexuality **Credits:** 3
HDFS 375 - Introduction to Research Methods in Human Development and Family Science **Credits:** 3
HDFS 460 - Families and Social Policy **Credits:** 3
HDFS 506 - Adolescent and Emerging Adult Development **Credits:** 3
HDFS 510 - Midlife to Late Adult Development **Credits:** 3
HDFS 550 - Application of Theories in HDFS **Credits:** 3
HDFS 552 - Families in Context **Credits / Units:** 3
HDFS 570 - Program Development and Implementation **Credits:** 3
Choose TWO of the following:
HDFS 305 - Family Violence Across the Life Course **Credits:** 3
HDFS 525 - Community Mental and Relationship Health **Credits:** 3
CNRES 530 - Coping with Life Crises **Credits:** 3
Choose ONE of the following:
PFP 105 - Introduction to Personal Financial Planning **Credits:** 3
PFP 315 - Love and Money **Credits:** 3

Minor, Certificate, Concentration: (18 Credit Hours)

In consultation with advisor, select 18 credit hours related to your academic and professional goals. At least 9 hours must be at the 300-level or above. In addition, students are encouraged to participate in an experiential learning opportunity (e.g., internship, research experience, etc.) related to their minor, certificate, or concentration/career-track they select.

Unrestricted Electives: (20 Credit Hours)

Dependent on course selections to fulfill general education requirements.

Total Hours Required for Graduation: 120

Integrative Human Sciences (BS)

The BS in Integrative Human Sciences offers an integrative approach to studying the well-being of individuals, families and communities in a global environment. Students incorporate areas of concentration of their choice from the human sciences to translate and address contemporary societal issues.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements: (80 Credit Hours)

*If any of the following courses are applied towards University Core requirements, please consult your advisor on additional courses to meet the 120 hours.

Math Requirement

If not met through K-State Core requirements, MATH 160 is required.

KSC-030
MATH 160 - Introduction to Contemporary Mathematics **Credits:** 3

HHS Courses: (3 Credit Hours)

HHS 100 - Well-being 1: You and Community **Credits:** 1
HHS 200 - Well-being 2: Mind and Body **Credits:** 1
HHS 300 - Well-being 3: Money and Meaning **Credits:** 1

Professional Courses: (77 Credit Hours)

Grade of C or higher required for professional courses.

Integrative Human Sciences: (17 Credit Hours)

IHS 110 - Introduction to Integrative Human Sciences **Credits:** 1
IHS 310 - Foundations of Integrative Human Sciences **Credits:** 3
IHS 399 - Integrative Human Sciences Applied Learning Orientation **Credits:** 1
IHS 400 - IHS Applied Learning Experience **Credits:** 1-3
HDFS 110 - Introduction to Human Development **Credits:** 3
HDFS 250 - Interpersonal and Family Relationships **Credits:** 3

Select one course from the following:

CNRES 300 - Introduction to Conflict Resolution **Credits:** 3
CNRES 531 - Interpersonal Conflict Resolution **Credits:** 3
CNRES 532 - Conflict Resolution across Cultures & Contexts **Credits:** 3
CNRES 534 - Conflict in Organizations **Credits:** 3

Areas of Concentration: (60 Credit Hours)

In consultation with their advisor, students select 60 additional credit hours organized into areas of concentration related to the students personal or professional goals. Areas of concentration can be minors and certificates. 15 of these credit hours must be in the College of Health and Human Sciences, and 30 of the 60 hours must be at the undergraduate upper-level # to meet graduation requirements.

Area of Concentration #1: (15 Credit Hours)

Area of Concentration #2: (15 Credit Hours)

Area of Concentration #3: (15 Credit Hours)

Area of Concentration #4: (15 Credit Hours)

Unrestricted Electives: (6 Credit Hours)

Dependent on course selections to fulfill general education requirements.

Total Hours Required for Graduation: 120

Minor

Children in Group Settings Minor

The undergraduate minor in Children in Group Settings (CGS) provides the theoretical and empirical foundation for best practice in the field of early care and education. Human service professionals are provided with the requisite knowledge of the developmental changes that typically occur in the early childhood years, variations in development that may occur, and how best to support children's learning and development.

Minor Requirements: (16 credits)

ECED 310 - Early Childhood **Credits:** 3
ECED 313 - Pre-Professional Experiences in Early Childhood Unified **Credits:** 1 *
ECED 210 - Introduction to Early Childhood Education **Credits:** 3
ECED 420 - Interaction Techniques with Young Children **Credits:** 3
ECED 428 - Exceptional Development in Early Childhood **Credits:** 3
ECED 450 - Environments in Early Childhood **Credits:** 3
No more than six (6) credit hours of transfer courses may be used for the ECE minor.
*Physical exam and KBI/DCF clearance required.

Graduation Requirements:

The minor in Children in Group Settings will be available upon the completion of the sixteen (16) required hours. To be awarded a minor, the student must a) not be on probation, b) have a cumulative GPA of 2.75 or higher on coursework applied to the minor, and c) have a C or better in all coursework applied to the minor.

Total Hours Required: 16

Conflict Analysis and Trauma Studies Minor

The undergraduate minor in Conflict Analysis and Trauma Studies provides a theoretical and empirical framework and model for analysis and study of trauma, violence, conflict, and their consequences. This emerging study provides students, faculty, and human service professionals the knowledge for establishing post-trauma and post-conflict reconstruction practice, research, service and policy to improve interpersonal and social systems. For more information on the minor or to contact CATS faculty, please go to our website.

Program requirements (18 credit hours)

Core courses (required 6 credit hours)

CNRES 529 - Trauma and Traumatic Stress **Credits:** 3
CNRES 531 - Interpersonal Conflict Resolution **Credits:** 3

Elective courses (6 credit hours)

Choose a minimum of two courses from:

CNRES 530 - Coping with Life Crises **Credits:** 3
CNRES 532 - Conflict Resolution across Cultures & Contexts **Credits:** 3
CNRES 533 - Prevention & Intervention of Violence **Credits:** 3
CNRES 534 - Conflict in Organizations **Credits:** 3
CNRES 535 - Divorce and Child Custody Mediation **Credits:** 3
CNRES 536 - Conflict and Trauma in International Settings **Credits:** 3
CNRES 537 - Elder and Family Decision Making **Credits:** 3
CNRES 538 - Advanced Trauma and Traumatic Stress **Credits:** 3
CNRES 539 - Grief and Loss Across the Lifespan **Credits:** 3

Additional course options (6 credit hours)

CNRES 300 - Introduction to Conflict Resolution **Credits:** 3
COMM 480 - Intercultural Communication **Credits:** 3
COMM 542 - Relational Communication **Credits:** 3
HDFS 305 - Family Violence Across the Life Course **Credits:** 3
GWSS 380 - Global Struggles for Feminist, Queer, and Trans Justice **Credits:** 3
GWSS 560 - Intersections of Violence and Resistance **Credits:** 3
HIST 551 - History of Family Violence **Credits:** 3
POLSC 642 - International Conflict **Credits:** 3
PSYCH 540 - Psychology of Gender **Credits:** 3
PSYCH 563 - Gender Issues in the Workplace **Credits:** 3
SOCIO 260 - Social Problems **Credits:** 3
SOCIO 363 - Global Problems **Credits:** 3
SOCIO 507 - International Development and Social Change **Credits:** 3
THTRE 673 - Theatre for Conflict Resolution **Credits:** 3
Other electives or independent study options relevant to the area of conflict resolution and trauma studies (e.g., Faculty-Led International Study)

Transfer Courses

No more than six (6) credit hours of transfer courses may be used for the CATS Minor.

Admission requirements

The CATS Minor is available to current K-State undergraduate students, post-baccalaureate K-State students, and non-K-State graduates of an accredited University subject to the following criteria:

Students must submit a Minor Application Form.
The application must be approved by the CATS Minor co-chairs in order for the student to be eligible to receive the requested minor.
Applicants must have completed all necessary graduate requirements from an accredited 4-year university.

All post-baccalaureate students will be handled through Global Campus. The Core and Elective courses (listed above) for the CATS Minor currently are provided both on campus and through distance delivery; courses listed under "additional course options" are available according to individual department offerings.

Completion requirements

The minor in Conflict Analysis and Trauma Studies will be available upon completion of the eighteen (18) required credit hours. To be awarded a minor, the student (a) must not be on probation, (b) must have a cumulative GPA of 2.5 or higher on coursework applied to the minor, (c) must meet all requirements of the student's major program, and (d) must be enrolled during the semester in which the minor's requirements are completed.

Gerontology Minor

The 15-credit hour undergraduate minor in gerontology prepares students from diverse majors to work with the globally aging population. This program is available to all students currently enrolled at Kansas State University. Graduates of Kansas State University may also enroll in this program as a post-baccalaureate student. Students can enroll by contacting the School of Human Sciences (http://humansci@k-state.edu).

Required Courses (6 credit hours)

GERON 215 - Introduction to Gerontology **Credits:** 3
GERON 577 - Introduction to Policy and Advocacy in Gerontology **Credits:** 3

Elective Courses (9 credit hours)

Additional courses may be approved for gerontology credit on a case-by-case basis by the Center on Aging Academic Affairs Committee.

Students will choose 9 credit hours of electives from this list based upon their professional goals. At least 3 elective credit hours must be taken in gerontology. Courses not listed here may be approved on a case-by-case basis by the gerontology advisor and/or program director.

See department list: **Minor Electives**

Total Minimum Hours Required for Graduation: 15

Human Development and Family Science Minor

The Undergraduate Minor in Human Development and Family Science allows students to integrate the study of families, human development, and relationships with their major.

Admission criteria: The minor in Human Development and Family Science will be available upon the completion of the fifteen (15) required hours. To be awarded a minor, the student must a) not be on probation, and b) have a C or better in all coursework applied to the minor.

Minor Requirements (15 hours)

Required courses (6 hours)

HDFS 110 - Introduction to Human Development **Credits:** 3
HDFS 250 - Interpersonal and Family Relationships **Credits:** 3

Elective options: (9 hours)

ECED 310 - Early Childhood **Credits:** 3
HDFS 301 - Interpersonal Skills for Helping Professionals **Credits:** 3
HDFS 302 - Introduction to Human Sexuality **Credits:** 3
HDFS 305 - Family Violence Across the Life Course **Credits:** 3
HDFS 307 - Introduction to Marriage and Family Therapy **Credits:** 3
HDFS 375 - Introduction to Research Methods in Human Development and Family Science **Credits:** 3
HDFS 460 - Families and Social Policy **Credits:** 3
HDFS 475 - Introduction to Child Life **Credits:** 3
HDFS 506 - Adolescent and Emerging Adult Development **Credits:** 3
HDFS 510 - Midlife to Late Adult Development **Credits:** 3
HDFS 525 - Community Mental and Relationship Health **Credits:** 3
HDFS 550 - Application of Theories in HDFS **Credits:** 3

HDFS 552 - Social Justice in a Family Context **Credits:** 3
HDFS 570 - Program Development and Implementation **Credits:** 3
Any HDFS 300, 400, or 500 level elective **Credits / Units:** 3

Total hours required: 15

Interdisciplinary Conflict Resolution Minor

The Minor in Interdisciplinary Conflict Resolution provides a theoretical and empirical framework building upon the strengths of several programs across campus. The minor provides students an understanding of the theoretical and practical aspects of analyzing and resolving conflict within the context of a variety of academic disciplines and professional careers.

Admission Requirements:

The ICR Minor is available to current K-State undergraduate students, post-baccalaureate K-State students, and non-K-State graduates of an accredited University subject to the following criteria:

Students must submit a Minor Application Form.

The application must be approved by the ICR Minor chair in order for the student to be eligible to receive the requested minor.

Applicants must have completed all necessary graduate requirements from an accredited 4-year university.

All post-baccalaureate students will be handled through Global Campus. The Conflict Resolution courses (listed above) for the ICR Minor currently are provided both on campus and through distance delivery; any non-CNRES course options listed in the three tracks are available according to individual department offerings.

Program: (15 credits)

Required Courses: (6 hours)

CNRES 531 - Interpersonal Conflict Resolution **Credits:** 3
CNRES 532 - Conflict Resolution across Cultures & Contexts **Credits:** 3

Elective Options: (9 hours)

Select one of the following three tracks:

Organizational Track

CNRES 534 - Conflict in Organizations **Credits:** 3
COMM 326 - Group Communication **Credits:** 3
COMM 425 - Organizational Communication **Credits:** 3
COMM 465 - Communication and Conflict **Credits:** 3
COMM 537 - Negotiation and Communication **Credits:** 3
MANGT 260 - Workplace Dynamics and Organizational Culture **Credits:** 3
MANGT 520 - Organizational Behavior **Credits:** 3
MANGT 530 - Labor Relations and Negotiations **Credits:** 3
POLSC 526 - Comparative Political Institutions **Credits:** 3

POLSC 638 - Ethnic Conflict **Credits:** 3
POLSC 642 - International Conflict **Credits:** 3
POLSC 651 - International Organization **Credits:** 3
PSYCH 538 - Cross-Cultural Psychology **Credits:** 3
PSYCH 556 - Multicultural Psychology **Credits:** 3
PSYCH 560 - Personnel Psychology **Credits:** 3
PSYCH 563 - Gender Issues in the Workplace **Credits:** 3
PSYCH 564 - Psychology of the Workplace **Credits:** 3

Family Track

CNRES 530 - Coping with Life Crises **Credits:** 3
CNRES 535 - Divorce and Child Custody Mediation **Credits:** 3
CNRES 537 - Elder and Family Decision Making **Credits:** 3
CNRES 599 - Conflict Resolution Practicum **Credits:** 3
COMM 130 - Interpersonal Communication **Credits:** 3
COMM 465 - Communication and Conflict **Credits:** 3
COMM 542 - Relational Communication **Credits:** 3
CRIM 470 - The Criminal Justice System and Family Violence **Credits:** 3
HDFS 301 - Interpersonal Skills for Helping Professionals **Credits:** 3
HDFS 305 - Family Violence Across the Life Course **Credits:** 3
POLSC 606 - Gender and Politics **Credits:** 3
SOCWK 200 - Basic Skills for Working with People **Credits:** 3
SOCWK 610 - Topics in Social Work **Credits:** 1-3

Legal Track

CNRES 528 - Alternative Dispute Resolution Approaches **Credits:** 3
CNRES 535 - Divorce and Child Custody Mediation **Credits:** 3
CNRES 599 - Conflict Resolution Practicum **Credits:** 3
COMM 260 - Introduction to Trial Advocacy **Credits:** 3
COMM 475 - Legal Communication **Credits:** 3
COMM 537 - Negotiation and Communication **Credits:** 3
CRIM 261 - Introduction to Criminology and Criminal Justice **Credits:** 3
CRIM 364 - Criminological Perspectives **Credits:** 3
CRIM 665 - Women and Crime **Credits:** 3
MANGT 230 - Business Law I **Credits:** 3
POLSC 611 - The Legislative Process **Credits:** 3
POLSC 612 - The Judicial Process **Credits:** 3
POLSC 614 - Constitutional Law **Credits:** 3
POLSC 615 - The Constitution, Civil Rights and Civil Liberties **Credits:** 3
POLSC 647 - International Law **Credits:** 3
POLSC 670 - Law, Politics, and Literature **Credits:** 3
SOCIO 260 - Social Problems **Credits:** 3
SOCIO 500 - Sociological Perspectives on Contemporary Issues **Credits:** 1-3
SOCIO 635 - Sociology of Human Trafficking **Credits:** 3
SOCWK 350 - Social Work with Criminal Offenders and Victims **Credits:** 3
SOCWK 610 - Topics in Social Work **Credits:** 1-3

Completion Requirements:

The Interdisciplinary Conflict Resolution Minor will be available upon the completion of the fifteen (15) required hours. To be awarded a minor, the student must a) not be on probation, and b) have a C or better in all coursework applied to the minor.

Total Hours Required: 15

Pre-Couple and Family Therapy Minor

The pre-couple and family therapy minor is available to all undergraduate students in any college as an interdisciplinary minor. Most programs of study will allow the student to take both a primary major and a minor within the normal four-year academic program of his/her college.

The undergraduate minor in pre-couple and family therapy is a 15-credit-hour program of study which includes 9 credit hours of required courses and 6 credit hours of electives taken from a list of approved courses offered in departments across the university. The minor provides a foundation in couple and family therapy theory and foundational helping skills designed to prepare students for graduate education in couple and family therapy.

Completion Requirements

The minor in pre-Couple and Family Therapy will be available upon the completion of the fifteen (15) required hours. To be awarded a minor, the student must a) not be on probation and b) have a C or better in all coursework applied to the minor.

Minor Requirements: (15 hours)

Required Courses: (9 hours)

HDFS 301 - Interpersonal Skills for Helping Professionals **Credits:** 3
HDFS 307 - Introduction to Marriage and Family Therapy **Credits:** 3
HDFS 525 - Community Mental and Relationship Health **Credits:** 3

Elective Options: (6 hours)

CNRES 529 - Trauma and Traumatic Stress **Credits:** 3
CNRES 530 - Coping with Life Crises **Credits:** 3
HDFS 300 - Problems in Human Development and Family Science **Credits:** 1-18
HDFS 302 - Introduction to Human Sexuality **Credits:** 3
HDFS 303 - Developing Intimate Relationships **Credits:** 3
HDFS 305 - Family Violence Across the Life Course **Credits:** 3
PSYCH 505 - Introduction to Psychopathology **Credits:** 3
PSYCH 535 - Social Psychology **Credits:** 3
SOCWK 315 - Human Behavior in the Social Environment I **Credits:** 3
SOCWK 510 - Social Welfare as a Social Institution **Credits:** 3

Total Hours Required: 15

Pre-Kindergarten Minor

The undergraduate minor in Pre-Kindergarten Education is restricted to K-State students enrolled in the teacher's education program in Family and Consumer Sciences (FACS) or Elementary Education (ELED). Coursework for the minor builds on pre-service teacher education coursework required for the FACS and ELED programs and addresses content knowledge and skills needed for licensed Pre-Kindergarten teachers in Kansas.

The Pre-K Minor is available to current K-State undergraduate students who are admitted to or have completed the teacher's education program in Elementary Education or Family and Consumer Sciences, subject to the following criteria:

Students must submit a Minor Application Form.

The application must be approved by the Pre-K Minor admissions committee for eligibility to receive the minor.

Required Courses: (16 credit hours)

ECED 310 - Early Childhood **Credits:** 3
ECED 313 - Pre-Professional Experiences in Early Childhood Unified **Credits:** 1
ECED 450 - Environments in Early Childhood **Credits:** 3
ECED 531 - Developmental Curriculum in Early Childhood Education **Credits:** 3
ECED 566 - Emergent Literacy **Credits:** 3
ECED 740 - Play Facilitation **Credits:** 3

Total Hours Required: 16

No more than six (6) credit hours of transfer courses may be used for the Pre-K minor.

Well-Being Minor

The 15 credit hour minor examines the scholarship on well-being from an integrated and systemic approach within the human sciences and provides evidence-based strategies for enhancing well-being within career pathways as well as implications for one's own well-being.

Required Courses (3 credit hours)

HHS 100 - Well-being 1: You and Community **Credits:** 1
HHS 200 - Well-being 2: Mind and Body **Credits:** 1
HHS 300 - Well-being 3: Money and Meaning **Credits:** 1

Elective Courses (12 credit hours)

Pick one course from each of the four areas.

Community Well-being

Choose one course from the list below:

HDFS 301 - Interpersonal Skills for Helping Professionals **Credits:** 3

IDSN 210 - Design and Behavior in the Interior Environment **Credits:** 3
IDFS 350 - Our Sustainable World **Credits:** 3
DMP 314 - Environmental and Public Health **Credits:** 3
PSYCH 565 - Occupational Health Psychology **Credits:** 3

Social Well-being

Choose one course from the list below:

HDFS 250 - Interpersonal and Family Relationships **Credits:** 3
CNRES 300 - Introduction to Conflict Resolution **Credits:** 3
CNRES 530 - Coping with Life Crises **Credits:** 3
THTRE 664 - Creative Drama **Credits:** 3

Financial Well-being

Choose one course from the list below:

PFP 105 - Introduction to Personal Financial Planning **Credits:** 3
PFP 320 - Applied Behavioral Finance **Credits:** 3
HM 230 - Issues in Tourism **Credits:** 3
FINAN 250 - Personal Investing and Risk Management **Credits:** 3

Physical Well-being

Choose one course from the list below:

FNDH 132 - Basic Nutrition **Credits:** 3
FNDH 252 - Personal Wellness **Credits:** 3
KIN 220 - Biobehavioral Bases of Physical Activity **Credits:** 4
KIN 380 - Principles of Exercise Training **Credits:** 3
KIN 385 - Fundamentals of Health and Fitness **Credits:** 3
ANTH 315 - Introduction to Medical Anthropology & Global Health **Credits:** 3
EDCEP 103 - Healthful and Safe College Life **Credits:** 3
PSYCH 518 - Introduction to Health Psychology **Credits:** 3

Total Hours Required: 15

Secondary Major

Gerontology Secondary Major

The 24-credit hour secondary major in gerontology prepares students from diverse majors to work with the globally aging population. This program is available to all students currently enrolled at Kansas State University. Most programs of study will allow students to complete both their primary and secondary majors within a typical four-year academic program. Students can enroll by contacting the Center on Aging (humansci@k-state.edu).

Students will choose from one of the following tracks:

Gerontology (9) + Electives (15)
Gerontology (9) + Long-Term Care Administration Track (12) + Elective (3)

Most students who successfully complete the Long-Term Care Administration track will be eligible to sit for their specific state's administrator licensing exam.

Required Courses (9)

GERON 215 - Introduction to Gerontology **Credits:** 3
GERON 575 - Introduction to Diversity in the Aging Experience **Credits:** 3
GERON 577 - Introduction to Policy and Advocacy in Gerontology **Credits:** 3

Electives (15 credit hours)

Students will choose the necessary credit hours of electives from this list based upon their professional goals. Elective courses not listed here may be approved on a case-by-case basis by the gerontology advisor and/or program director.

See department list: **Gerontology Secondary Major Electives**

Long-Term Care Administration track (12 credit hours)

This track covers required content from the Core of Knowledge for Nursing Home Administrators as defined in K.A.R. 28-38-29. Required courses include:

ACCTG 231 - Introduction to Managerial Accounting **Credits:** 3
GERON 610 - Seminar in Long-Term Care Administration **Credits:** 3
GERON 615 - Long-Term Care Administration Internship **Credits:** 1-9
MANGT 220 - Principles of Management **Credits:** 3

*Course substitutions will be considered on a case-by-case basis.
Electives (3 credits) **Credits / Units:** 3
*This covers required content from the Core of Knowledge for Nursing Home Administrators as defined in K.A.R. 28-38-29.

Total Minimum Hours Required for Graduation: 24

Undergraduate Certificate

Child Welfare Undergraduate Certificate

The Child Welfare Certificate consists of 15 credit hours and is designed to prepare students to be an effective child advocate and enhance the lives of children. The Child Welfare Certificate is available to all undergraduate students and as a post-baccalaureate certificate. This certificate complements majors including those interested in education, healthcare, social work, human development and family science, integrative human sciences, psychology, criminology, and many more.

Required Courses (6 credit hours)

HDFS 110 - Introduction to Human Development **Credits:** 3
SOCWK 370 - Child Welfare **Credits:** 3

Electives (9 credit hours)

Choose 9 hours from electives options.

ADC 575 - Addiction and Family **Credits:** 3
CNRES 529 - Trauma and Traumatic Stress **Credits:** 3
CNRES 533 - Prevention & Intervention of Violence **Credits:** 3
CRIM 460 - Youth and Crime **Credits:** 3
CRIM 470 - The Criminal Justice System and Family Violence **Credits:** 3
ECED 310 - Early Childhood **Credits:** 3
HDFS 250 - Interpersonal and Family Relationships **Credits:** 3
HDFS 301 - Interpersonal Skills for Helping Professionals **Credits:** 3
HDFS 305 - Family Violence Across the Life Course **Credits:** 3
HDFS 506 - Adolescent and Emerging Adult Development **Credits:** 3
PSYCH 280 - Psychology of Childhood and Adolescence **Credits:** 3
SOCWK 315 - Human Behavior in the Social Environment I **Credits:** 3
SOCWK 350 - Social Work with Criminal Offenders and Victims **Credits:** 3

Total hours required: 15

Conflict Resolution Undergraduate Certificate

The Undergraduate Certificate in Conflict Resolution offers students the fundamentals of conflict resolution and practice. It is intended to meet the needs of those individuals who seek introductory training in conflict resolution.

To be awarded the certificate, the student (a) must not be on probation, (b) must have a cumulative GPA of 2.0 or higher in coursework applied to the certificate, (c) must meet all the requirements of the student's certificate program, and (d) must be enrolled during the semester in which the certificate requirements are completed.

General requirements (12 credit hours)

Required (3 credit hours)

CNRES 531 - Interpersonal Conflict Resolution **Credits:** 3

Electives (9 credit hours)

Choose 3 of the following 8 courses

CNRES 528 - Alternative Dispute Resolution Approaches **Credits:** 3
CNRES 529 - Trauma and Traumatic Stress **Credits:** 3
CNRES 532 - Conflict Resolution across Cultures & Contexts **Credits:** 3
CNRES 533 - Prevention & Intervention of Violence **Credits:** 3
CNRES 534 - Conflict in Organizations **Credits:** 3

CNRES 536 - Conflict and Trauma in International Settings **Credits:** 3
CNRES 537 - Elder and Family Decision Making **Credits:** 3

Early Childhood Consultation Undergraduate Certificate

The Certificate in Early Childhood Consultation is offered through the School of Human Sciences and provides an introductory understanding of the unique characteristics in early childhood environments and how to support early childhood professionals through applied coaching. This certificate can be completed by degree seeking students at Kansas State University, obtained as a credential on its own (free-standing), as a non-degree, certificate seeking student or earned post-baccalaureate. This program is offered online only.

Admission Requirements:

Applicants for the Certificate in Early Childhood Consultation certificate must contact the Director to receive approval for admission. Prior permission is required from the program to take or transfer a class from another institution.

Graduation Requirement:

Students must complete individual program courses with a minimum of a "C" or greater.

Course Requirements (12 credit hours):

ECED 310 - Early Childhood **Credits:** 3
ECED 450 - Environments in Early Childhood **Credits:** 3
ECED 542 - Foundations of Coaching Adults **Credits:** 3
HDFS 301 - Interpersonal Skills for Helping Professionals **Credits:** 3

Total Hours Required for Graduation: 12

Philanthropy Undergraduate Certificate

The undergraduate certificate in philanthropy will enhance students' knowledge of the principles and practice of philanthropy. It is intended to meet the needs of individuals who will work for nonprofit organizations that depend on philanthropy, the giving of "time, talent, and treasure," to improve the well-being of others.

Admission Requirements

To be awarded the certificate, the student (a) must not be on probation, (b) must have a cumulative GPA of 2.0 or higher in coursework applied to the certificate, (c) must meet all the requirements of the student's certificate program, and (d) must be enrolled during the semester in which the certificate requirements are completed.

Course Requirements (12 credit hours)

HDFS 201 - Introduction to Philanthropy **Credits:** 3
HDFS 301 - Interpersonal Skills for Helping Professionals **Credits:** 3
HDFS 501 - Philanthropy in Context **Credits:** 3
PFP 105 - Introduction to Personal Financial Planning **Credits:** 3
OR
LEAD 420 - Theories of Nonprofit Leadership **Credits:** 3

Total Hours Required: 12

Accreditation and Certification

The bachelor's degree in engineering technology -- electronic and computer engineering technology option and mechanical engineering technology option are accredited by the Engineering Technology Accreditation Commission of ABET.

The aircraft maintenance program is certified as an "Aviation Maintenance Technician School No. BZ9T052R" by the Federal Aviation Administration. The professional pilot program is certified as an approved "Pilot School Number KKCS017" by the Federal Aviation Administration. The baccalaureate degree program in professional pilot is accredited by the Aviation Accreditation Board International, 3410 Skyway Drive, Auburn, AL 36830, 334-844-2431.

Kansas State University is fully accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools; 30 N. LaSalle St., Suite 2400, Chicago, IL 60602, 1-800-621-7440. Credit earned at K-State is transferable to other institutions.

Prerequisite courses

Before attempting a course originating in the College of Technology and Aviation, a grade of C or better must be earned in the prerequisite courses.

Minors and Secondary Majors

Students at K-State are eligible for any of the minors and secondary major offered by Kansas State University. Students completing all requirements for a minor and/or secondary major will receive official recognition on their academic records.

The Salina Campus offers a minor in applied business, aviation safety and uncrewed aircraft systems (UAS), which is available to students seeking or having earned a Kansas State bachelor or graduate degree.

Reserve Officer Training Corps (ROTC)

Students at K-State Salina Campus may participate in Air Force ROTC or Army ROTC to become officers in the U.S. Air Force or U.S. Army.

Air Force ROTC program

Academic and Student Services

Academic Advising

Kansas State University is committed to providing effective advising services to students as an essential component of their educational experience. Academic Advisors assist students with academic planning, course sequencing, review of curriculum requirements, academic policies/procedures, and major exploration.

Each student at K-State Salina is assigned an academic advisor. Students are responsible for initiating advising contact and preparing for advising sessions. Advisors can help connect students with campus resources in support of their academic and career goals.

K-State Salina Library and Academic Success Center

The https://www.salina.k-state.edu/academics/library/, located in the Technology Center, meets standards set for college libraries by the American Library Association and Engineering Technology Accreditation Commission of ABET. The library contains more than 20,000 volumes and provides access to nearly 90 online databases, as well as a collection of up-to-date technical information and reference materials (paper and electronic) covering technological subjects. The library also has computer workstations containing all software found in the college's computer labs.

Professional Education and Outreach

The Professional Education and Outreach department provides student services to support online and distance students in reaching academic success at K-State Salina. The department utilizes online and distance learning technology to deliver affordable and accessible education option to meet student needs. The department's faculty services assist instructors who develop and teach online and distance courses.

Student Life

Student Life promotes the educational experience by enhancing the opportunities, safety, and growth of the campus community. Student Life provides and supports campus services, programs, and activities in an effort to strengthen the quality of life within a supportive atmosphere. Student Life also encourages and motivates lifelong healthy choices through the college experience. Student Life encompasses the following areas: Residence Life, Recreational Services, Counseling Services, Student Governing Association, Programming Board, and student clubs/organizations.

Student Support Services

K-State Salina also has a Student Support Services program. Student Support Services is a part of TRiO, a federally funded program to help fulfill the potential of students regardless of gender, race, income level, marital status, or disabilities. SSS provides personal, academic, and professional assistance to eligible participants. SSS services include: counseling/mentoring, tutoring, advocacy, referral services, financial literacy and study skills workshops, and cultural enrichment activities. Student Support Services also has two computer lab locations on campus and assists in the facilitation of the K-State Salina Writing Center.

Writing Center

The K-State Salina Writing Center provides one-on-one tutoring services for students across disciplines, free of charge. Trained peer tutors are available to consult over writing assignments and projects for any classes. Tutors can discuss all stages of the writing process from topic development to final editing. The Writing Center's primary objective is to help students develop their college-level writing abilities. Appointments are made online in advance on this website

The Aviation Department offers a comprehensive range of aviation study opportunities offering bachelor degrees options, Aviation Management, Aviation Maintenance Management, Professional Aviation, Professional Pilot, and Uncrewed Aircraft Systems; as well as certificates in Airframe and Powerplant, Composite Repair, and Uncrewed Aircraft Systems, Aviation Electronics Technology, in addition to a minor in aviation safety and uncrewed aircraft systems.

Associate of Applied Science

Aviation Maintenance (AAS)

The aviation maintenance management program prepares students to take the Federal Aviation Administration's Airframe and Powerplant certification. Lab space consists of more than 11,000 square feet to gain hands-on experience working on a real aircraft.

Professional Pilot (AAS)

This curriculum prepares students for a dynamic career in the aviation industry. Successful completion of this degree gives a solid academic base and prepares the student for lifelong learning.
This program requires significant time and financial commitment. Flight training costs are additional, above the standard tuition, books, and supplies. Individuals wanting to enroll in this degree must meet the selective admissions requirements for any flight training provided by KSU.

Bachelor of Science

Aeronautical Technology - Aviation Maintenance Management (BS)

You'll be responsible for maintaining and troubleshooting on a G1000 simulator, as well as building, troubleshooting and inspecting the wiring harnesses. You'll also have the opportunity to build, repair and modify aircraft structures and systems. Our program provides you the ability to learn on actual aircraft, with a fleet of more than 10 operable aircraft ranging from a Bell helicopter to a cabin-class, turbine-powered King Air 90 available in the lab. In addition to the bachelor's degree, our avionics electronics technology certificate is National Center for Aircraft Technician Training, or NCATT, certified and prepares you to pass the NCATT Aviation Electronics Technician certification.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

BUS 390 - Foundations of Business Law **Credits:** 3
BUS 400 - Marketing Techniques and Applications **Credits:** 3
BUS 530 - Practices of Industrial and Labor Relations **Credits:** 3

Aviation Elective: (2 credit hours)

Aviation Elective **Credits:** 2

Total Hours Required for Graduation: 120

Aeronautical Technology - Aviation Management (BS)

In the Bachelor's in aviation management degree option, students will learn from instructors who have real-world, professional experience and success in the working for airports across the country. The instructors in this degree will provide unique perspectives that allow students an insight in to the busy world of operating an airport. Classes will integrate real-world airport challenges and present students with the opportunity to not only learn about proven techniques, but also test their theories in helping to solve industry challenges.

Students have the option of learning in-person or online

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements: (16 credit hours)

English Requirement: (3 credit hours)

ENGL 302 - Technical Writing **Credits:** 3

Math Requirement: (3 credit hours)

If not met through K-State Core requirements, MATH 100 is required.

MATH 100 - College Algebra **Credits:** 3

Aeronautical Technology - Professional Aviation (BS)

The Professional Aviation option, Bachelor of Science in Aeronautical Technology provides students with knowledge and skills designed to enhance their employability and upward mobility in the aviation industry. This degree option has been specifically designed as a "degree completion program," allowing undergraduate students who have completed an associate's degree or certificate, or have a substantial number of completed courses in aviation, to continue their education and receive a bachelor of science degree. Courses can be taken online or face-to-face.

Graduates are prepared for a variety of aviation careers including supervisory and management roles in many aviation settings.

The Bachelor of Science in Aeronautical Technology, Professional Aviation option allows students transferring from two-year institutions to apply up to 35 credit-hours of their technical aviation specialty, as well as general education courses, for a total of 60 credit-hours transferrable to Kansas State.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements (31 credit hours)

If not met through K-State Core requirements, MATH 100 is required.

BUS 315 - Supervisory Management **Credits:** 3
BUS 400 - Marketing Techniques and Applications **Credits:** 3
BUS 410 - Managerial and Project Economics **Credits:** 3
BUS 420 - Management Perspectives **Credits:** 3

Professional Studies (55 credit hours)

Basic Aviation **Credits:** 35
This block of courses includes course work normally taken during the first two years of an undergraduate program in aviation. Courses accepted for transfer to K-State must be academic college-level courses from an accredited institution.

AVT 440 - Air Carrier Operations **Credits:** 3
AVT 445 - Aviation Law **Credits:** 3

AVT 450 - Aviation Safety Management **Credits:** 3
AVT 497 - Senior Capstone **Credits:** 3
Aviation Electives **Credits:** 8 (at least 5 credits must be 300+level)

Total Hours Required for Graduation: 120

Aeronautical Technology - Professional Pilot (BS)

K-State Aerospace and Technology Campus's professional pilot program is the perfect place to begin your aviation journey. Boasting a premium fleet of 30+ aircraft and flight training devices and a large and active regional airport just steps away from the classroom, your education and experience will surpass the highest of expectations.

Our professional pilot curriculum does more than train pilots – students receive training above and beyond the Federal Aviation Administration's (FAA) minimum requirements, creating professionals that are confident to fly in all conditions, troubleshoot and solve problems, make ethical decisions, and exceed the expectations of the aviation industry. With the degree option's longstanding history at the university, K-State Aerospace and Technology Campus has turned people passionate about aviation into the best pilots in the skies.

K-State Salina's professional pilot degree option is FAA part 141 approved, allowing students to complete commercial pilot training in as little as 190 hours instead of 250 hours, for a bachelor's degree. The training also allows students to qualify for a Restricted Airline Transport Pilot Certificate (R-ATP) in as few as 1,000 hours with a bachelor's degree or 1250 hours with an associate degree. (Students are required to meet the minimum credits for R-ATP approved courses. Earning a degree does not equate to an automatic R-ATP.) The R-ATP can be beneficial to students by providing them with the ability to fly for the airlines earlier. Training and education are provided by highly qualified faculty and staff, with years of both industry and education experience.

This program requires significant time and financial commitment. Flight training costs are additional, above the standard tuition, books, and supplies.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

Minor

Aviation Safety Minor

The Aviation Safety minor is designed to provide students with a knowledge of practices and procedures used in establishing and maintaining an effective safety program and to promote a safety culture. Students completing all requirements for the Aviation Safety minor will receive official recognition in their academic records.

The Aviation Safety minor is available to students seeking and having earned any K-State bachelor or graduate degree. Students must have a minimum of a 2.5 K-State GPA to qualify for entry into the minor program. Fifteen credit hours of designated course work with a grade of C or better for these courses are needed to complete the minor.

Requirements for minor (15 credit hours)

Required courses (6 credit hours)

AVT 340 - Human Factors in Aviation **Credits:** 3
AVT 450 - Aviation Safety Management **Credits:** 3

Elective courses (9 credit hours)

AVT 250 - Safety and Security of Airport Ground Operations **Credits:** 3

AVT 420 - Aviation Accident Investigation **Credits:** 3
AVT 451 - System Safety **Credits:** 3
PPIL 387 - Crew Resource Management I **Credits:** 3

Uncrewed Aircraft Systems Minor

Minor in Uncrewed Aircraft Systems is offered Salina-Campus Based

Required Courses (12 credit hours)

Students must achieve a minimum GPA of 2.5 and a grade of "C" or better is required in all coursework.

Research Project or Internship (Minimum 2 hours; COT 495 or COT 497)

COT 495 - Advanced Industrial Internship **Credits:** 0-6
or
COT 497 - Undergraduate Research Experience **Credits:** 0-3
UAS 114 - Remote Pilot Certification for UAS **Credits:** 2
UAS 115 - Introduction to Multi-Rotor Flight Lab **Credits:** 1
UAS 270 - Introduction to UAS **Credits:** 3
UAS 272 - UAS Safety Fundamentals **Credits:** 3
UAS 374 - Processing Remotely Sensed Data **Credits:** 3

Elective Courses (6 credit hours)

AGRON 655 - Site Specific Agriculture **Credits:** 3
COT 295 - Introductory Industrial Internship **Credits:** 0-6
GEOG 508 - Geographic Information Systems I **Credits:** 4
GEOG 605 - Remote Sensing of the Environment **Credits:** 3
GEOG 705 - Thematic Remote Sensing **Credits:** 3
MC 469 - Drone Photography and Video **Credits:** 3
UAS 280 - Multi-Rotor Construction Lab **Credits:** 2
UAS 465 - Fixed-Wing Construction Lab and Autopilot Integration **Credits:** 3
UAS 475 - Data Acquisition and Post-processing **Credits:** 3

Total hours required: 18

Undergraduate Certificate

Airframe and Powerplant Review Undergraduate Certificate

The airframe and powerplant certificate program prepares students for evaluation by the Federal Aviation Administration to earn the mechanic certificate with airframe and powerplant ratings. Students who successfully complete the program will be awarded a certificate of completion.

Upon passing the FAA written, oral, and practical exams; graduates will be certified to practice as aviation maintenance technicians. Airframe and powerplant mechanics inspect, repair, modify, and maintain aircraft for manufacturers, commercial airlines, businesses, corporations, and general aviation operators.

Certification Requirements (12 credit hours)

AVMR 220 - Aviation Maintenance Review/General **Credits:** 4
AVMR 230 - Aviation Maintenance Review/Airframe **Credits:** 4
AVMR 250 - Aviation Maintenance Review/Powerplant **Credits:** 4

Aviation Electronics Technology Undergraduate Certificate

This certificate program provides the education and practical experience needed for careers in the rapidly growing avionics segment of the aviation maintenance industry. Topic coverage includes systems found in advanced aircraft, such as glass cockpits and other advanced avionics systems. Those completing the program will find applications for these skills in aircraft design, operation, maintenance, inspection, repair, and alteration.

This certificate program meets the standards set by the National Center for Aircraft Technician Training (NCATT). It gives students the opportunity to obtain the industry's new Aviation Electronics Technician (AET) certificate.

Required Courses (15-16 credit hours)

AVM 111 - Basic Aircraft Electricity **Credits:** 4
OR
ECET 100 - Basic Electronics **Credits:** 3
AVM 305 - Aircraft Avionics and Instrument Systems **Credits:** 3
AVT 327 - Avionics Repair **Credits:** 3
AVT 429 - Avionics Maintenance **Credits:** 3
AVT 430 - Advanced Avionics Installation **Credits:** 3

Notes

*Students with an FAA Airframe (A) Certificate may test out of these courses.

**Students with an FAA Airframe (A) Certificate or an FAA Private Pilot Certification may test out of this course

Total Hours Required for Graduation: 15-16

General Aviation Maintenance Concepts Undergraduate Certificate

This accelerated certificate program prepares students to take the FAA Aviation Mechanic General Knowledge Test after completing just four foundational courses (AMP 101–104). The curriculum introduces critical areas including maintenance regulations, technical drawings, aircraft structures and materials, tools and measuring equipment, and basic electrical theory. This program delivers FAA Part 147-aligned instruction and hands-on experience, providing a fast-track entry into the aviation maintenance industry or further training toward full certification.

Required Courses: (12 Credit Hours)

AMP 101 - Introduction to Aviation Regulations and Aircraft Drawings **Credits:** 3
AMP 102 - Aviation Math and Physics **Credits:** 3
AMP 103 - Concepts of Aircraft Materials and Tooling Standards **Credits:** 3

AMP 104 - Basic Aircraft Electricity and Ground Operations **Credits:** 3

Total Hours Required: 12

Introduction to UAS Technology Undergraduate Certificate

The Introduction to UAS Technology certificate provides a basic introduction to current UAS technologies. Students completing the certificate will be able to safely handle, operate, and repair both multi-rotor and fixed-wing UAS.

Required courses: (14 credit hours)

UAS 114 - Remote Pilot Certification for UAS **Credits:** 2
UAS 115 - Introduction to Multi-Rotor Flight Lab **Credits:** 1
UAS 270 - Introduction to UAS **Credits:** 3
UAS 272 - UAS Safety Fundamentals **Credits:** 3
UAS 275 - Small UAS Maintenance I **Credits:** 3
UAS 280 - Multi-Rotor Construction Lab **Credits:** 2

Total hours required: 14

Professional Pilot Undergraduate Certificate

This curriculum provides a foundation for work in the aviation industry. Individuals wanting to enroll in this certificate must meet the selective admissions requirements for any flight training provided by KSU.

Special Requirements

Admission requirements for this certificate are the same as required for any flight training at KSU Salina. Additional information is available at https://www.salina.k-state.edu/academics/degree-options/professional-pilot.

Required Core Courses (16 credit hours)

PPIL 111 - Private Pilot **Credits:** 4
PPIL 112 - Professional Instrument Pilot **Credits:** 3
PPIL 113 - Private Pilot Flight Lab **Credits:** 1
PPIL 114 - Professional Instrument Pilot Flight Lab **Credits:** 1
PPIL 211 - Professional Commercial Pilot **Credits:** 3
PPIL 212 - Professional Commercial Pilot Flight Lab I **Credits:** 2
PPIL 213 - Professional Commercial Pilot Flight Lab II **Credits:** 2

Total credit hours: 16

UAS Data Analytics Undergraduate Certificate

The UAS Data Analytics certificates provides an in-depth understanding of UAS data collection and processing. Students completing the certificate will learn about varying UAS sensors, obtain data, and post-process the collected data into meaningful and actionable products.

Required Courses: 12 credit hours

UAS 374 - Processing Remotely Sensed Data **Credits:** 3
UAS 475 - Data Acquisition and Post-processing **Credits:** 3
UAS 477 - Fundamentals of Thermography **Credits:** 3
UAS 478 - Fundamentals of LIDAR **Credits:** 3

Total Hours Required for Graduation: 12

Integrated Studies

Troy Harding, Head

Kansas State University Salina
Aerospace and Technology Campus
2310 Centennial Road
Salina, KS 67401

785-289-2650
salinaadmissions@k-state.edu

www.salina.k-state.edu/

Kansas State Aerospace & Technology provides a small campus atmosphere with a professional learning environment built on theory, research and industry application in the classroom. Students can choose from serveral undergraduate programs, certificates, and master's programs, making the university an equally diverse community of traditional and nontraditional students.

Associate of Science

Applied Business (AS)

This two-year associate's degree enables the graduate to succeed in an entry-level business position or to continue working toward a bachelor's degree in one of many business fields; including business, accounting, and management.

Associate's degree requirements (61 credit hours)

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Math Requirement

If not met through K-State Core requirements, MATH 100 is required.

KSC-030
MATH 100 - College Algebra **Credits:** 3

Business Core (18 credit hours)

BUS 110 - Introduction to Business **Credits:** 3
BUS 251 - Financial Accounting **Credits:** 3
BUS 252 - Managerial Accounting **Credits:** 3
BUS 315 - Supervisory Management **Credits:** 3
BUS 366 - Management with Information Technology **Credits:** 3
ENGL 302 - Technical Writing **Credits:** 3

Business Elective (9 credit hours)

Choose from the following:
BUS 400 - Marketing Techniques and Applications **Credits:** 3
BUS 420 - Management Perspectives **Credits:** 3
BUS 410 - Managerial and Project Economics **Credits:** 3
COT 495 - Advanced Industrial Internship **Credits:** 0-6

Total Hours Required: 61

Engineering Technology - Electronic and Computer Engineering Technology (AS)

Electronic and computer engineering technicians work in all areas of the electronics industry, including industrial control electronics, communications, and digital systems. These individuals work closely with electronic engineering technologists, electrical engineers, computer scientists, and other professionals in the design, development, marketing, and maintenance of electronic products and systems.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements: [3] Credit Hours

Math Requirement: [3] Credit Hours

If not met through K-State Core requirements, MATH 100 is required.

MATH 100 - College Algebra **Credits:** 3
KSC-030
MATH 150 - Plane Trigonometry **Credits:** 3

Physics Requirement: [4] Credit Hours

ECET 340 - Electronic Manufacturing **Credits:** 3
CYBR 250 - Hardware and Network Fundamentals **Credits:** 3
MET 382 - Industrial Instrumentation and Controls **Credits:** 3

Total Hours Required for Graduation: 63

Engineering Technology - Mechanical Engineering Technology (AS)

The mechanical engineering technology program prepares graduates for applied mechanical and manufacturing engineering-related careers with a hands-on, practical approach. The program emphasizes understanding how engineering principles are applied in practice, rather than purely the mathematical methods used.

The mechanical engineering technology program is built upon a strong foundation of science, mathematics, and applied technical courses designed to meet the diverse needs of the industrial workforce. Mechanical engineering technology concepts are used in all types of industry and are directly applied to product design and manufacturing. Courses in technical graphics with CAD, manufacturing processes, materials, material strength and testing, computer numerical control, automated manufacturing systems, machine design, quality control, and economics provide the student with a broad range of expertise for a career in mechanical engineering technology.

Graduates of the mechanical engineering technology program work within engineering teams in applied design, project management, product development, testing, manufacturing, plant operations, maintenance, or technical sales. Associate degree graduates accept jobs as engineering technicians, engineering aides, plant operation and maintenance staff, layout staff, production assistants, and technical sales staff.

Associate degree requirements (64 credit hours)

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

MET 264 - Machine Design Technology I **Credits:** 4

Total Hours Required for Graduation: 64

Engineering Technology - Web Development Technology (AS)

The web development technology program builds a foundation in computer science and applies these concepts to the world of e-commerce and website development. All students take introductory classes in operating systems and program design. The program also includes courses in programming and network administration.

Students interested in programming-oriented careers will find the curriculum challenging and rewarding. Students obtain experience with client-side programming, server-side programming, video and audio streaming, as well as database integration and other ways to make the web an effective tool for business.

Students also learn project management and the use of timetables and other organizational techniques. Software tools including Flash, DreamWeaver, and Javascript are utilized, but the main curriculum emphasis is on programming solutions to actual problems.

Required for graduation (61 credit hours)

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. Bachelor of Science

Applied Business and Technology - Applied Business (BS)

The Bachelor of Science in Applied Business and Technology provides students with knowledge and skills designed to enhance their employability and upward mobility in the technical field of their choice. Students take courses in the diverse areas of management, accounting, and marketing; as well as in other essential business areas. The technology concentration courses can be done in any of a number of technical disciplines. Graduates are prepared for supervisory and management positions in a variety of technical areas, ranging from aviation and manufacturing to sales and product development.

The Applied Business Option allows students to build a more integrated business focus, with additional studies in mathematics and applied business electives.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. Applied Business and Technology - Technology Management (BS)

The Bachelor of Science in Applied Business and Technology provides students with knowledge and skills designed to enhance their employability and upward mobility in the technical field of their choice. Students take courses in the diverse areas of management, accounting, and marketing; as well as in other essential business areas. The technology concentration courses can be done in any of a number of technical disciplines. Graduates are prepared for supervisory and management positions in a variety of technical areas, ranging from aviation and manufacturing to sales and product development.

The Technology Management Option allows students transferring from two-year institutions to apply up to 39 credit-hours of their technical specialty, as well as general education courses, for a total of 60 credit-hours transferrable to Kansas State. The Applied Business Option allows students to build a more integrated business focus, with additional studies in mathematics and applied business electives.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. Area of Concentration (39 credit hours*)

This block of courses may include course work in one area of concentration, or related multiple certificates, options, or specialization areas other than business. Courses accepted for transfer to K-State must be academic college-level courses.

***At least 15 credits of electives and/or the Area of Concentration must be upper-level courses (300+).**

****Repeatable with approval of Integrated Studies Department Head.

Total Hours Required for Graduation: 120

Cyber Systems Design & Dynamics - Immersive Systems Design (BS)

Cyber Systems Design & Dynamics (CSDD) is an innovative degree program merging the realms of digital design, human-computer interaction, virtual and augmented reality, data science, and intelligent computing systems architecture. This program equips students with unique and in-demand skills to create engaging virtual environments, immersive applications, predictive data systems, cyber physical systems, and interactive media. Coursework involves software development and engineering, machine learning, data engineering, 3D modeling, UX/UI design, narrative creation, and the psychological aspects of immersive technology. Engaging projects are an essential part of the curriculum and are designed to reinforce theoretical learnings. Additionally, hands-on cooperative industry experience provides real-world exposure for students. Graduates gain skills applicable to industries like aersospace, entertainment, education, healthcare, and manufacturing—preparing them for roles such as an XR designer, immersive content creator, data scientist, machine learning engineer, computer vision engineer, or UX designer. This degree is a strategic investment for those looking to thrive in a technologically advanced world and is ideal for tech-savvy creatives keen on redefining how people interact with digital worlds.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Engineering Technology - Electronic and Computer Engineering Technology (BS)

Students may continue their studies in electronic and computer engineering technology beyond the associate degree level to obtain the bachelor of science degree. The bachelor's degree typically requires two years of study beyond the associate degree.

Course work in the junior and senior years of the bachelor's degree program provides additional depth of understanding of circuit analysis techniques, digital systems, data communications, and industrial electronics. Individual and group project assignments are emphasized. Additional mathematics, science, and elective courses provide a strong background with which graduates are prepared for the technical professions of tomorrow.

Graduates work as electronic and computer engineering technologists in many industrial settings. Career activities include product design and development, industrial automation, technical sales, and project management.

The bachelor's degree program in electronic and computer engineering technology is accredited by the Engineering Technology Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012. Telephone: (410) 347-7700. Website: www.abet.org.

Engineering Technology - Mechanical Engineering Technology (BS)

Focus on technical graphics with computer-aided drafting, material strength and testing, computer numerical control, economics, quality control and machine design.

Plans become reality in our design and build laboratory. Mechanical engineering students learn in 5,000-square feet of creative space where concepts are designed, prototyped and tested. Students have access to modern technology and equipment, such as 3D printers, a CNC vertical machining center, a laser printer and more.

Kansas State University Core: 34-36 Credit Hours

Engineering Technology - Robotics and Automation (BS)

The Robotics and Automation Engineering Technology program responds to the need for skilled engineering technology professionals in the thriving and growing fields of robotics and automation. Both are dynamic fields involving the design, building, programming, functional use, and maintenance of machinery. The distinction being that robotic systems may be designed to perform different tasks under software control. Whereas, automation systems are typically designed for a single task and operate in a more deterministic environment. Despite the minor differences in the application of the machinery, the skill sets required of engineers working in these fields are closely aligned. The nature of the field requires that workers not only have solid technical engineering knowledge, but also know both how to apply the knowledge in hands-on laboratory and factory settings, and how to communicate well. The Robotics and Automation Engineering Technology degree is designed to give students the advantage of a solid background in the three cornerstone disciplines of the field – mechanical engineering technology, electronic and computer engineering technology, and computer systems technology. Students take select courses from the three disciplines that provide an engineering foundation and directly relate to robotics and automation.

Engineering Technology - Uncrewed Aircraft Systems (BS)

Tailored to combine computer science, electronic engineering and mechanical engineering with uncrewed systems, students in this program will explore the intricacies of UAS subsystems and components, such as software design, computer networking, firmware and hardware, sensors and actuators, and camera systems and other payloads.

Students will be expected to execute critical thinking, problem solving and research skills while engaging in classes about electronic circuits, communication systems, control systems, machine design, manufacturing technology, materials technology and fundamentals of UAS operations.

No flight ratings required.

Minor

Applied Business Minor

The Applied Business minor is available to non-Business and non-Applied Business and Technology majors who will graduate from K-State. At least four of the six required courses must be completed at Kansas State University. Students must achieve a

cumulative 2.50 GPA (K-State and transfer grades) in the six required courses to complete the minor. Note: Transfer grade of a "D" does not transfer.

Upon graduation, most students will be involved in organizations, both profit or nonprofit, that will use business concepts and principles to improve their services or products. To complete the Applied Business Minor, students must graduate from Kansas State University and complete the business courses listed below:

Required courses (18 hours)

BUS 251 - Financial Accounting **Credits:** 3
BUS 252 - Managerial Accounting **Credits:** 3
BUS 400 - Marketing Techniques and Applications **Credits:** 3
BUS 420 - Management Perspectives **Credits:** 3
BUS 450 - Integrated Finance **Credits:** 3
BUS 520 - Integrated Technology Management Capstone **Credits:** 3

Total hours required: 18

STEM Foundations Minor

The STEM Foundations Minor is created for students interested in a foundational knowledge in science, mathematics, and computing technology in addition to their major field of study.

To complete the STEM Foundations minor, students must graduate from Kansas State University and complete the STEM courses listed below.

No more than six hours of transfer courses may be used. Students must achieve a cumulative 2.50 GPA in the required courses to complete the minor. Courses may not be taken pass/fail apart from "credit for prior learning".
Note: All courses applied to the minor must have a grade of "C" or better apart from "credit for prior learning".

Required Courses (24 credit hours)

BIOL 198 - Principles of Biology **Credits:** 4
CHM 110 - General Chemistry **Credits:** 3
CHM 111 - General Chemistry Laboratory **Credits:** 1
CMST 190 - Information Engineering for Data Science **Credits:** 1
CMST 290 - Scientific Programming and Machine Learning **Credits:** 1
GEOL 125 - Natural Disasters **Credits:** 3
MATH 220 - Analytic Geometry and Calculus I **Credits:** 4
MLAS 100 - Survey of Machine Learning and Autonomous Systems **Credits:** 3
PHYS 114 - General Physics II **Credits:** 4

Total Hours Required: 24

Undergraduate Certificate

Advanced Intelligent Systems Programming Undergraduate Certificate

The Advanced Intelligent Systems Programming Undergraduate Certificate is an intensive program designed to equip students with advanced programming skills in the realm of intelligent systems and artificial intelligence (AI). This certificate focuses on topics like machine learning, human-computer interactions, natural language processing, and data analysis. Graduates are well-prepared for careers in AI development, data science, and advanced programming, making this certificate a valuable asset in the tech industry's evolving landscape.

Required Courses (12 credit hours)

CYBR 357 - Computer Vision for Immersive Systems **Credits:** 3
CYBR 391 - Data Structures and Algorithms for Cyber Systems **Credits:** 3
CYBR 455 - Human Computer Interactions for Cyber Systems **Credits:** 3
CYBR 460 - Software Engineering for Intelligent Cyber Systems **Credits:** 3

Total hours required: 12

Applied Cyber Systems Design Undergraduate Certificate

The Applied Cyber Systems Design Undergraduate Certificate is a comprehensive program designed to equip students with the essential knowledge and skills to excel in the dynamic field of cyber system design. This certificate program, typically completed in one to two years, offers a focused curriculum that combines theory with hands-on practical experience.

Required Courses (12 credit hours)

CYBR 103 - Computing Principles **Credits:** 3
CYBR 137 - Principles of Interactive Digital Storytelling **Credits:** 3
CYBR 250 - Hardware and Network Fundamentals **Credits:** 3
MLAS 100 - Survey of Machine Learning and Autonomous Systems **Credits:** 3

Total hours required: 12

Applied Electronics Undergraduate Certificate

Dive into the dynamic world of embedded microprocessor systems with our Undergraduate Certificate in Applied Electronics. This program is designed for students and professionals seeking to develop expertise in designing, programming, and implementing embedded systems that drive innovation across various sectors. Students will engage in practical labs and projects that provide real-world applications of embedded electronics, from concept to prototype. Essential topics include microcontroller architecture, digital and analog electronics, programming for embedded systems, and interfacing techniques.

Required Courses: 12 Hours

CMST 302 - Applications in C Programming for Engineering Technology **Credits:** 3
ECET 350 - Microprocessor Fundamentals **Credits:** 3
ECET 352 - Digital Circuits and Systems **Credits:** 3
ECET 354 - Microcontroller Applications **Credits:** 3

Electives: 6 Hours

Choose 6 credit hours from the following list.

ECET 301 - Circuits II **Credits:** 4
ECET 304 - Electric Power and Devices **Credits:** 3
ECET 320 - Electronic Communication Systems **Credits:** 3
ECET 330 - Industrial Controls **Credits:** 4
ECET 335 - Industrial Control Topics **Credits:** 1
ECET 340 - Electronic Manufacturing **Credits:** 3
ECET 414 - Electromagnetic Applications **Credits:** 4
ECET 420 - Communication Circuits Design **Credits:** 3
ECET 421 - Telecommunication Systems **Credits:** 4
ECET 430 - Signals and Systems **Credits:** 3
ECET 450 - Digital Systems and Computer Architecture **Credits:** 4
ECET 480 - Electronic Design I **Credits:** 1
ECET 481 - Electronic Design II **Credits:** 2
ECET 499 - Advanced Topics in Electronic and Computer Engineering Technology **Credits:** 1-18

Total Hours Required: 18

Applied Machine Learning Undergraduate Certificate

The Applied Machine Learning Undergraduate Certificate is a focused program providing students with practical skills to harness the power of machine learning. Covering key concepts, algorithms, and real-world applications, this certificate equips students to work with data, build predictive models, and leverage AI for problem-solving. With a curriculum blending theory and hands-on experience, graduates are well-prepared for careers in data science, AI development, and analytics, making this program a valuable credential for those entering the tech industry or pursuing further studies in machine learning.

Required Courses (15 credit hours)

MLAS 100 - Survey of Machine Learning and Autonomous Systems **Credits:** 3
MLAS 200 - Introduction to Automata and Cybernetic Systems Theory **Credits:** 3
MLAS 390 - Unsupervised Learning in Autonomous Systems **Credits:** 3
MLAS 400 - Supervised learning in Autonomous Systems **Credits:** 3
MLAS 500 - Reinforcement Learning in Autonomous Systems **Credits:** 3

Total hours required: 15

Applied Manufacturing Undergraduate Certificate

The Certificate of Applied Manufacturing provides entry-level or career-changing students the option of immersing themselves in the principles and practice of manufacturing. The certificate can be issued as a stand-alone qualification, or can be used to gain entry to the Associate's, or Bachelor's, degree in engineering technology, mechanical engineering technology option.

Course Requirements

Minimum cumulative grade point average of 2.5 is required on courses applied to a certificate, and a grade of "C" or better is required in all coursework. All courses applied to the certificate must have letter grades. Courses with grades of "Credit" or "Pass" will not applicable. No more than 25% of total credit hours required for the certificate may be transfer credits.

This is a free-standing certificate; it may be earned without participation in or completion of a degree program.

Required Courses (17 credit hours)

MET 111 - Technical Graphics **Credits:** 3
MET 117 - Mechanical Modeling and Detailing **Credits:** 3
MET 121 - Manufacturing Methods **Credits:** 3
MET 125 - Computer-Numerical-Controlled Machine Processes **Credits:** 2
MET 231 - Physical Materials and Metallurgy **Credits:** 3

Choose 1 of the following:

MET 325 - Additive Manufacturing **Credits:** 3
AVT 317 - Composites I **Credits:** 3

Total credit hours: 17

Autonomous Robotics and Machine Learning Undergraduate Certificate

The Autonomous Robotics and Machine Learning Certificate equips students with the skills to design, program, and deploy autonomous robot systems. This program focuses on integrating machine learning and navigation strategies to develop intelligent robot platforms capable of operating in complex environments. With industries increasingly relying on robotics and artificial intelligence to solve complex challenges, this certificate bridges the gap between cutting-edge technology and practical applications, providing students with a unique blend of theoretical knowledge and hands-on experience.

Required Courses: (14 Credit Hours)

MLAS 100 - Survey of Machine Learning and Autonomous Systems **Credits:** 3
RAS 212 - Introduction to Robot Operating System (ROS) **Credits:** 3
RAS 260 - Path Planning and Navigation **Credits:** 3
RAS 268 - Mobile Robotics Navigation Studio **Credits:** 1
RAS 455 - Robot Embedded Systems **Credits:** 3
RAS 458 - Mobile Robotics Embedded Development Studio **Credits:** 1

Total Hours Required: 14

Composite Repair Undergraduate Certificate

This certificate provides the education and practical experience needed for placement in the rapidly growing composite repair field. In addition, the certificate provides current aviation maintenance workers an avenue through which they may expand their knowledge of and experience with modern composite repair materials and techniques.

Required Core Courses (12 credit hours)

AVT 400 - Composites II **Credits:** 3

AVT 417 - Composites III **Credits:** 3

Choose one of the following:

AVM 303 - Introduction to Aircraft Composite Structures **Credits:** 3
AVT 317 - Composites I **Credits:** 3

Choose one of the following:

COT 495 - Advanced Industrial Internship **Credits:** 0-6
PAV 497 - Senior Capstone **Credits:** 3

Total credit hours: 12

Cyber Systems Programming Undergraduate Certificate

The Cyber Systems Programming Undergraduate Certificate is a specialized program designed to empower students with the knowledge and skills required to excel in the rapidly evolving field of cybernetics and programming. This certificate program typically spans one to two years and offers a comprehensive curriculum that blends theoretical foundations with hands-on practical experience.

Required Courses (12 credit hours)

CYBR 180 - Introduction to Database Systems **Credits:** 3
CYBR 210 - Interactive Media Development **Credits:** 3
CYBR 247 - Programming I **Credits:** 3
CYBR 335 - Programming II **Credits:** 3

Digital Media User Experience (UX) Design Undergraduate Certificate

This certificate program offers a design thinking-centric approach to user experience (UX) design. The courses consist of industry-standard, skill-based instruction encompassed around a digital media visual communication perspective rather than one focused on marketing or programming alone. Throughout the duration of the four courses, students will summarize and demonstrate all stages of the UX design process starting from user research to defining a project's strategy, scope and information architecture, to developing sitemaps and wireframes. The skills acquired in these courses are applicable to a wide variety of careers in digital media.

Requirements: (12 credit hours)

DIGME 137 - Fundamentals of Visual Communication **Credits:** 3

CMST 135 - Web Fundamentals **Credits:** 3
or
DIGME 256 - Digital Literacy **Credits:** 3

CYBR 163 - Fundamentals of Design Thinking **Credits:** 3
CYBR 365 - User Experience (UX) Design for Immersive Systems **Credits:** 3

Total Hours Required: 12

Extended Reality Systems Design Undergraduate Certificate

The Extended Reality Systems Design Undergraduate Certificate is a program that explores the design and development of immersive experiences using augmented, virtual, and mixed reality technologies. Students learn to create cutting-edge XR applications and gain a deep understanding of XR hardware and software systems. This certificate equips graduates with the skills needed for careers in XR development, simulation design, and interactive media, making it a valuable credential in the field of extended reality.

Required Courses (12 credit hours)

CYBR 332 - 3D Design and Modeling for XR **Credits:** 3
CYBR 365 - User Experience (UX) Design for Immersive Systems **Credits:** 3
CYBR 443 - Interactive Systems Design for Virtual Reality (VR) **Credits:** 3
CYBR 445 - Interactive Systems Design for Augmented Reality (AR) **Credits:** 3

Immersive Digital Media Design Undergraduate Certificate

The Immersive Digital Media Design Undergraduate Certificate is an intensive and hands-on program designed to immerse students in the exciting world of digital media and design. This certificate program, typically completed in one to two years, offers a comprehensive curriculum that blends theory with practical skills. Learners delve into a wide range of creative and technical topics, including graphic design, 3D modeling, animation, virtual reality (VR), augmented reality (AR), and interactive media.

Required Courses (12 credit hours)

CYBR 137 - Principles of Interactive Digital Storytelling **Credits:** 3
CYBR 163 - Fundamentals of Design Thinking **Credits:** 3
CYBR 210 - Interactive Media Development **Credits:** 3
CYBR 320 - Foundations of Interactive Narratives **Credits:** 3

Total hours required: 12

Industrial Automation Undergraduate Certificate

This program is designed for individuals seeking to enhance their skills in automation technologies that drive efficiency, safety, and productivity across various industries. Students will gain practical experience with cutting-edge automation tools and systems, including robotics, control systems, and data analytics. Our industry-relevant curriculum will explore key topics such as programmable logic controllers (PLCs), industrial networking, sensor technologies, and automated process control. Students will be well-prepared for roles in manufacturing, logistics, and process industries, where they can implement automation solutions to streamline operations, improve safety measures, and boost overall productivity.

Required Courses: 12 Credit Hours

ECET 304 - Electric Power and Devices **Credits:** 3
MET 382 - Industrial Instrumentation and Controls **Credits:** 3
MET 481 - Automated Manufacturing Systems II **Credits:** 3
RAS 385 - Advanced Programmable Logic Controllers **Credits:** 3

Electives: 6 Hours

Choose 6 hours from the following list.

ECET 301 - Circuits II **Credits:** 4
ECET 320 - Electronic Communication Systems **Credits:** 3
ECET 330 - Industrial Controls **Credits:** 4
ECET 335 - Industrial Control Topics **Credits:** 1
ECET 340 - Electronic Manufacturing **Credits:** 3
ECET 350 - Microprocessor Fundamentals **Credits:** 3
ECET 352 - Digital Circuits and Systems **Credits:** 3
ECET 354 - Microcontroller Applications **Credits:** 3
ECET 414 - Electromagnetic Applications **Credits:** 4
ECET 420 - Communication Circuits Design **Credits:** 3
ECET 421 - Telecommunication Systems **Credits:** 4
ECET 430 - Signals and Systems **Credits:** 3
ECET 450 - Digital Systems and Computer Architecture **Credits:** 4
ECET 499 - Advanced Topics in Electronic and Computer Engineering Technology **Credits:** 1-18
MET 382 - Industrial Instrumentation and Controls **Credits:** 3
MET 481 - Automated Manufacturing Systems II **Credits:** 3
RA 305 - Robotics Programming **Credits:** 3
RA 357 - Machine Vision **Credits:** 3
RA 444 - Integrated Robotics Studio **Credits:** 0-2
RAS 385 - Advanced Programmable Logic Controllers **Credits:** 3
MET 314 - Finite Element Analysis and Design Modeling **Credits:** 3
MET 325 - Additive Manufacturing **Credits:** 3
MET 333 - Advanced Material Science **Credits:** 3
MET 336 - Dynamics of Machines **Credits:** 3
MET 346 - Elements of Mechanisms **Credits:** 3
MET 353 - Fluid Mechanics **Credits:** 3
MET 365 - Machine Design Technology II **Credits:** 3
MET 381 - Quality Control **Credits:** 3
MET 410 - Managerial and Project Economics **Credits:** 3
MET 460 - Tool Design for Manufacturing **Credits:** 3
MET 471 - Thermodynamics and Heat Transfer **Credits:** 4
MET 499 - Advanced Topics in Mechanical Engineering Technology **Credits:** 1-18

Total Hours Required: 18

Industrial Robotics and Automation Undergraduate Certificate

The Industrial Robotics and Automation Certificate prepares students for careers in advanced manufacturing and automation by providing hands-on experience and technical knowledge in robot systems and industrial control. This program emphasizes the integration of robotics, programming, and machine vision into automated manufacturing environments.

Required Courses: (13 credit hours)

MET 230 - Automated Manufacturing Systems I **Credits:** 3

MET 240 - Industrial Robotics Laboratory **Credits:** 2
RA 305 - Robotics Programming **Credits:** 3
RAS 358 - Industrial Inspection Systems **Credits:** 2
RAS 385 - Advanced Programmable Logic Controllers **Credits:** 3

Total Hours Required: 13

Interactive 3D Application Design Undergraduate Certificate

The Interactive 3D Application Design Undergraduate Certificate offers a specialized curriculum focusing on the creation of immersive and interactive 3D applications. Students gain hands-on experience in 3D modeling, animation, and game design. They learn to develop interactive experiences for various platforms, including virtual reality and augmented reality. Graduates are equipped with the skills needed for careers in game development, simulation design, or interactive media production, making this certificate a valuable credential for those pursuing a career in the exciting world of 3D application design.

Required Courses (15 credit hours)

CYBR 310 - 3D Animation and Asset Production for XR **Credits:** 3
CYBR 322 - Multi-platform Interactive Media Design **Credits:** 3
CYBR 330 - Interactive Game and Audio Design **Credits:** 3
CYBR 332 - 3D Design and Modeling for XR **Credits:** 3
CYBR 360 - Foundations of Game Engine Design and Development **Credits:** 3

Total hours required: 15

Robotics Design and Fabrication Undergraduate Certificate

The Robotics Design and Fabrication Certificate provides hands-on training and foundational knowledge in the essential areas of robot system development. Students gain expertise in designing and building robot systems by integrating mechanical, electrical, and digital components. This certificate emphasizes practical skills in power systems, advanced manufacturing techniques, and electronics assembly while fostering creativity in robot design and fabrication.

Required Courses: (13 Credit Hours)

ECET 340 - Electronic Manufacturing **Credits:** 3
RAS 225 - Robot Power Systems **Credits:** 3
RAS 335 - Digital Manufacturing **Credits:** 3
RAS 348 - Mobile Robotics Fabrication Studio **Credits:** 1
RAS 415 - Robot Design and Kinematics **Credits:** 3

Total Hours Required: 13

Spatial Computing Design Undergraduate Certificate

The Spatial Computing Design Undergraduate Certificate is a focused program that empowers students with the skills to develop applications and software for spatial computing environments, such as augmented reality and virtual reality. Through hands-on

training, students learn to code for immersive experiences and work with cutting-edge technology. Graduates are well-prepared for careers as spatial computing developers and programmers, making this certificate a valuable credential in the rapidly growing field of spatial computing.

Required Courses (12 credit hours)

CYBR 250 - Hardware and Network Fundamentals **Credits:** 3
CYBR 366 - Cyber Security Operations **Credits:** 3
CYBR 457 - Intelligent Spatial Computing Systems **Credits:** 3
CYBR 459 - Real-time Computing Systems **Credits:** 3

Total hours required: 12

The Aviation Department offers a comprehensive range of aviation study opportunities offering bachelor degrees options, Aviation Management, Aviation Maintenance Management, Professional Aviation, Professional Pilot, and Uncrewed Aircraft Systems; as well as certificates in Airframe and Powerplant, Composite Repair, and Uncrewed Aircraft Systems, Aviation Electronics Technology, in addition to a minor in aviation safety and uncrewed aircraft systems.

Associate of Applied Science

Aviation Maintenance (AAS)

The aviation maintenance management program prepares students to take the Federal Aviation Administration's Airframe and Powerplant certification. Lab space consists of more than 11,000 square feet to gain hands-on experience working on a real aircraft.

Aviation Requirements (50 credit hours)

AVM 101 - Introduction to Aircraft Materials and Tooling Standards **Credits:** 2
AVM 102 - Aviation Regulations, Compliance and Operations **Credits:** 2
AVM 103 - Intro to Aircraft Materials and Tooling Standards Laboratory **Credits:** 1
AVM 111 - Basic Aircraft Electricity **Credits:** 4
AVM 121 - Aircraft Drawings **Credits:** 2
AVM 141 - Aircraft Science **Credits:** 3
AVM 201 - Aircraft Metallic Primary Structures **Credits:** 3
AVM 203 - Aircraft Environmental and Fire Protection Systems **Credits:** 2
AVM 204 - Aircraft Environmental and Fire Protection Systems Laboratory **Credits:** 1
AVM 205 - Aircraft Landing Gear and Fluid Power Systems **Credits:** 3
AVM 207 - Aircraft Electrical Systems **Credits:** 3
AVM 216 - Aircraft Propulsion Drive Systems **Credits:** 3
AVM 301 - Advanced Reciprocating Powerplant Technology **Credits:** 3
AVM 303 - Introduction to Aircraft Composite Structures **Credits:** 3
AVM 304 - Aircraft Fuel Management and Metering Systems **Credits:** 3
AVM 305 - Aircraft Avionics and Instrument Systems **Credits:** 3
AVM 306 - Rotary and Fixed Wing Aircraft Design and Assembly **Credits:** 3
AVM 322 - Powerplant Operation and Troubleshooting **Credits:** 3
AVM 402 - Gas Turbine Powerplant Technology **Credits:** 3

Total Hours Required: 62

Professional Pilot (AAS)

This curriculum prepares students for a dynamic career in the aviation industry. Successful completion of this degree gives a solid academic base and prepares the student for lifelong learning.
This program requires significant time and financial commitment. Flight training costs are additional, above the standard tuition, books, and supplies. Individuals wanting to enroll in this degree must meet the selective admissions requirements for any flight training provided by KSU.

Fall 1st Semester (14 Credit hours)

AVT 100 - Introduction to Aviation **Credits:** 3

MATH 100 - College Algebra **Credits:** 3

PPIL 111 - Private Pilot **Credits:** 4

PPIL 113 - Private Pilot Flight Lab **Credits:** 1

Humanities/Social Science/Business Elective **Credits:** 3

Spring 2nd Semester (16 credit hours)

AVT 242 - Aviation Meteorology **Credits:** 3

ENGL 100 - Expository Writing I **Credits:** 3

MATH 150 - Plane Trigonometry **Credits:** 3

PPIL 112 - Professional Instrument Pilot **Credits:** 3

PPIL 114 - Professional Instrument Pilot Flight Lab **Credits:** 1

PSYCH 110 - General Psychology **Credits:** 3

Fall 3rd Semester (15 credit hours)

AVT 386 - Aerodynamics **Credits:** 3

COMM 106 - Public Speaking I **Credits:** 3

PHYS 113 - General Physics I **Credits:** 4

Spring 4th Semester (15 credit hours)

AVT 340 - Human Factors in Aviation **Credits:** 3

PPIL 210 - Aviation Safety **Credits:** 3

PPIL 213 - Professional Commercial Pilot Flight Lab II **Credits:** 2
PPIL 262 - Multi-Engine Ground School **Credits:** 1
PPIL 263 - Multi-Engine Flight Lab **Credits:** 1
Aviation Elective **Credits:** 2
Economics Elective **Credits:** 3

Total credit hours required: 60

Bachelor of Science

Aeronautical Technology - Aviation Maintenance Management (BS)

You'll be responsible for maintaining and troubleshooting on a G1000 simulator, as well as building, troubleshooting and inspecting the wiring harnesses. You'll also have the opportunity to build, repair and modify aircraft structures and systems. Our program provides you the ability to learn on actual aircraft, with a fleet of more than 10 operable aircraft ranging from a Bell helicopter to a cabin-class, turbine-powered King Air 90 available in the lab. In addition to the bachelor's degree, our avionics electronics technology certificate is National Center for Aircraft Technician Training, or NCATT, certified and prepares you to pass the NCATT Aviation Electronics Technician certification.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Aviation Elective **Credits:** 2

Total Hours Required for Graduation: 120

Aeronautical Technology - Aviation Management (BS)

In the Bachelor's in aviation management degree option, students will learn from instructors who have real-world, professional experience and success in the working for airports across the country. The instructors in this degree will provide unique perspectives that allow students an insight in to the busy world of operating an airport. Classes will integrate real-world airport challenges and present students with the opportunity to not only learn about proven techniques, but also test their theories in helping to solve industry challenges.

Students have the option of learning in-person or online

Aeronautical Technology - Professional Aviation (BS)

The Professional Aviation option, Bachelor of Science in Aeronautical Technology provides students with knowledge and skills designed to enhance their employability and upward mobility in the aviation industry. This degree option has been specifically designed as a "degree completion program," allowing undergraduate students who have completed an associate's degree or

certificate, or have a substantial number of completed courses in aviation, to continue their education and receive a bachelor of science degree. Courses can be taken online or face-to-face.

Graduates are prepared for a variety of aviation careers including supervisory and management roles in many aviation settings.

The Bachelor of Science in Aeronautical Technology, Professional Aviation option allows students transferring from two-year institutions to apply up to 35 credit-hours of their technical aviation specialty, as well as general education courses, for a total of 60 credit-hours transferrable to Kansas State.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements (31 credit hours)

If not met through K-State Core requirements, MATH 100 is required.

Professional Studies (55 credit hours)

Basic Aviation **Credits:** 35
This block of courses includes course work normally taken during the first two years of an undergraduate program in aviation. Courses accepted for transfer to K-State must be academic college-level courses from an accredited institution.

AVT 440 - Air Carrier Operations **Credits:** 3
AVT 445 - Aviation Law **Credits:** 3
AVT 450 - Aviation Safety Management **Credits:** 3
AVT 497 - Senior Capstone **Credits:** 3
Aviation Electives **Credits:** 8 (at least 5 credits must be 300+level)

Total Hours Required for Graduation: 120

Aeronautical Technology - Professional Pilot (BS)

K-State Aerospace and Technology Campus's professional pilot program is the perfect place to begin your aviation journey. Boasting a premium fleet of 30+ aircraft and flight training devices and a large and active regional airport just steps away from the classroom, your education and experience will surpass the highest of expectations.

Our professional pilot curriculum does more than train pilots – students receive training above and beyond the Federal Aviation Administration's (FAA) minimum requirements, creating professionals that are confident to fly in all conditions, troubleshoot and solve problems, make ethical decisions, and exceed the expectations of the aviation industry. With the degree option's longstanding history at the university, K-State Aerospace and Technology Campus has turned people passionate about aviation into the best pilots in the skies.

K-State Salina's professional pilot degree option is FAA part 141 approved, allowing students to complete commercial pilot training in as little as 190 hours instead of 250 hours, for a bachelor's degree. The training also allows students to qualify for a Restricted Airline Transport Pilot Certificate (R-ATP) in as few as 1,000 hours with a bachelor's degree or 1250 hours with an associate degree. (Students are required to meet the minimum credits for R-ATP approved courses. Earning a degree does not equate to an automatic R-ATP.) The R-ATP can be beneficial to students by providing them with the ability to fly for the airlines earlier. Training and education are provided by highly qualified faculty and staff, with years of both industry and education experience.

This program requires significant time and financial commitment. Flight training costs are additional, above the standard tuition, books, and supplies.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

PPIL 215 - Mountain Flying **Credits:** 1
PPIL 216 - Altitude Chamber **Credits:** 1
PPIL 221 - Preventive Maintenance **Credits:** 2
PPIL 290 - Multi-Engine Crew Coordination **Credits:** 1
PPIL 295 - Tailwheel Transition **Credits:** 1

PPIL 296 - Complex/High Performance Transition **Credits:** 1
PPIL 314 - Certified Flight Instructor Flight Lab **Credits:** 2
PPIL 379 - Turbine Transition **Credits:** 3
PPIL 385 - Airline Transport Pilot Rating **Credits:** 2
PPIL 396 - Introduction to Upset Training and Recovery **Credits:** 1
PPIL 416 - Crew Resource Management II **Credits:** 3
PPIL 482 - Certified Instrument Flight Instructor Ground School **Credits:** 1
PPIL 483 - Certified Instrument Flight Instructor Lab **Credits:** 1
PPIL 492 - Certified Multi-Engine Flight Instructor Ground School **Credits:** 1
PPIL 493 - Certified Multi-Engine Flight Instructor Lab **Credits:** 1

Total Hours Required for Graduation: 120

Aeronautical Technology - Uncrewed Aircraft Systems (BS)

Aeronautical Technology - Uncrewed Aircraft Systems

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements (13 Credit Hours)

BUS Requirement: (3 credit hours)

BUS 315 - Supervisory Management **Credits:** 3

ENGL Requirement: (3 Credit Hours)

ENGL 302 - Technical Writing **Credits:** 3

MATH Requirement: (3 credit hours)

If not met through K-State Core requirements, MATH 100 is required.

MATH 100 - College Algebra **Credits:** 3
KSC-030
MATH 150 - Plane Trigonometry **Credits:** 3

PHYS Requirement (4 Credit Hours)

PHYS 113 - General Physics I **Credits:** 4

Program

Professional Studies: (73 credit hours)

AAM 472 - Large Fixed-Wing Operations Flight Lab **Credits:** 2
AVT 100 - Introduction to Aviation **Credits:** 3
AVT 317 - Composites I **Credits:** 3
AVT 340 - Human Factors in Aviation **Credits:** 3
AVT 450 - Aviation Safety Management **Credits:** 3
UAS 114 - Remote Pilot Certification for UAS **Credits:** 2
UAS 115 - Introduction to Multi-Rotor Flight Lab **Credits:** 1
UAS 270 - Introduction to UAS **Credits:** 3
UAS 272 - UAS Safety Fundamentals **Credits:** 3
UAS 374 - Processing Remotely Sensed Data **Credits:** 3
UAS 280 - Multi-Rotor Construction Lab **Credits:** 2
UAS 300 - UAS Powerplant Fundamentals **Credits:** 3
UAS 312 - UAS Flight Instructor Ground School **Credits:** 3
UAS 314 - Multi-rotor Instructor Flight Lab **Credits:** 1
UAS 357 - Introduction to UAS Fixed-Wing Flight Lab **Credits:** 2
UAS 367 - Introduction to UAS Automated Fixed-Wing Flight Lab **Credits:** 3
UAS 387 - UAS Safety Applications **Credits:** 2
UAS 465 - Fixed-Wing Construction Lab and Autopilot Integration **Credits:** 3
UAS 471 - Advanced Fixed-Wing Operations Flight Lab **Credits:** 2
UAS 480 - UAS Senior Design Project I **Credits:** 1
UAS 481 - UAS Senior Design Project II **Credits:** 2
Approved Technical Electives **Credits:** 20
Aviation/Electronics/Computer/Internship **Credits:** 3 (3 credit hours must be 300+level)

Approved Technical Electives and Focus Areas

Composites Repair Focus Area

AVT 400 - Composites II **Credits:** 3
AVT 417 - Composites III **Credits:** 3
COT 495 - Advanced Industrial Internship **Credits:** 0-6
PAV 497 - Senior Capstone **Credits:** 3

UAS Data Analytics Certificate

UAS 475 - Data Acquisition and Post-processing **Credits:** 3
UAS 477 - Fundamentals of Thermography **Credits:** 3

UAS 478 - Fundamentals of LIDAR **Credits:** 3

Professional Pilot Focus Area

PPIL 111 - Private Pilot **Credits:** 4
PPIL 112 - Professional Instrument Pilot **Credits:** 3
PPIL 113 - Private Pilot Flight Lab **Credits:** 1
PPIL 114 - Professional Instrument Pilot Flight Lab **Credits:** 1
PPIL 211 - Professional Commercial Pilot **Credits:** 3
PPIL 212 - Professional Commercial Pilot Flight Lab I **Credits:** 2
PPIL 213 - Professional Commercial Pilot Flight Lab II **Credits:** 2

Aviation/Electronics/Computer/Internship Elective (3 credit hours)

AVM 300 - AVM 799
AVT 300 - AVT 799
CIS 300 - CIS 799
CMST 300- CMST 799
COT 495 Internship
ECET 300 - ECET 799

Total Hours Required for Graduation: 120

Minor

Aviation Safety Minor

The Aviation Safety minor is designed to provide students with a knowledge of practices and procedures used in establishing and maintaining an effective safety program and to promote a safety culture. Students completing all requirements for the Aviation Safety minor will receive official recognition in their academic records.

The Aviation Safety minor is available to students seeking and having earned any K-State bachelor or graduate degree. Students must have a minimum of a 2.5 K-State GPA to qualify for entry into the minor program. Fifteen credit hours of designated course work with a grade of C or better for these courses are needed to complete the minor.

Requirements for minor (15 credit hours)

Required courses (6 credit hours)

AVT 340 - Human Factors in Aviation **Credits:** 3
AVT 450 - Aviation Safety Management **Credits:** 3

Elective courses (9 credit hours)

AVT 250 - Safety and Security of Airport Ground Operations **Credits:** 3
AVT 420 - Aviation Accident Investigation **Credits:** 3
AVT 451 - System Safety **Credits:** 3

PPIL 387 - Crew Resource Management I **Credits:** 3

Uncrewed Aircraft Systems Minor

Minor in Uncrewed Aircraft Systems is offered Salina-Campus Based

Required Courses (12 credit hours)

Students must achieve a minimum GPA of 2.5 and a grade of "C" or better is required in all coursework.

Research Project or Internship (Minimum 2 hours; COT 495 or COT 497)

COT 495 - Advanced Industrial Internship **Credits:** 0-6
or
COT 497 - Undergraduate Research Experience **Credits:** 0-3
UAS 114 - Remote Pilot Certification for UAS **Credits:** 2
UAS 115 - Introduction to Multi-Rotor Flight Lab **Credits:** 1
UAS 270 - Introduction to UAS **Credits:** 3
UAS 272 - UAS Safety Fundamentals **Credits:** 3
UAS 374 - Processing Remotely Sensed Data **Credits:** 3

Elective Courses (6 credit hours)

AGRON 655 - Site Specific Agriculture **Credits:** 3
COT 295 - Introductory Industrial Internship **Credits:** 0-6
GEOG 508 - Geographic Information Systems I **Credits:** 4
GEOG 605 - Remote Sensing of the Environment **Credits:** 3
GEOG 705 - Thematic Remote Sensing **Credits:** 3
MC 469 - Drone Photography and Video **Credits:** 3
UAS 280 - Multi-Rotor Construction Lab **Credits:** 2
UAS 465 - Fixed-Wing Construction Lab and Autopilot Integration **Credits:** 3
UAS 475 - Data Acquisition and Post-processing **Credits:** 3

Total hours required: 18

Undergraduate Certificate

Airframe and Powerplant Review Undergraduate Certificate

The airframe and powerplant certificate program prepares students for evaluation by the Federal Aviation Administration to earn the mechanic certificate with airframe and powerplant ratings. Students who successfully complete the program will be awarded a certificate of completion.

Upon passing the FAA written, oral, and practical exams; graduates will be certified to practice as aviation maintenance technicians. Airframe and powerplant mechanics inspect, repair, modify, and maintain aircraft for manufacturers, commercial airlines, businesses, corporations, and general aviation operators.

Certification Requirements (12 credit hours)

AVMR 220 - Aviation Maintenance Review/General **Credits:** 4
AVMR 230 - Aviation Maintenance Review/Airframe **Credits:** 4
AVMR 250 - Aviation Maintenance Review/Powerplant **Credits:** 4

Aviation Electronics Technology Undergraduate Certificate

This certificate program provides the education and practical experience needed for careers in the rapidly growing avionics segment of the aviation maintenance industry. Topic coverage includes systems found in advanced aircraft, such as glass cockpits and other advanced avionics systems. Those completing the program will find applications for these skills in aircraft design, operation, maintenance, inspection, repair, and alteration.

This certificate program meets the standards set by the National Center for Aircraft Technician Training (NCATT). It gives students the opportunity to obtain the industry's new Aviation Electronics Technician (AET) certificate.

Required Courses (15-16 credit hours)

AVM 111 - Basic Aircraft Electricity **Credits:** 4
OR
ECET 100 - Basic Electronics **Credits:** 3
AVM 305 - Aircraft Avionics and Instrument Systems **Credits:** 3
AVT 327 - Avionics Repair **Credits:** 3
AVT 429 - Avionics Maintenance **Credits:** 3
AVT 430 - Advanced Avionics Installation **Credits:** 3

Notes

*Students with an FAA Airframe (A) Certificate may test out of these courses.

**Students with an FAA Airframe (A) Certificate or an FAA Private Pilot Certification may test out of this course

Total Hours Required for Graduation: 15-16

General Aviation Maintenance Concepts Undergraduate Certificate

This accelerated certificate program prepares students to take the FAA Aviation Mechanic General Knowledge Test after completing just four foundational courses (AMP 101–104). The curriculum introduces critical areas including maintenance regulations, technical drawings, aircraft structures and materials, tools and measuring equipment, and basic electrical theory. This program delivers FAA Part 147-aligned instruction and hands-on experience, providing a fast-track entry into the aviation maintenance industry or further training toward full certification.

Required Courses: (12 Credit Hours)

AMP 101 - Introduction to Aviation Regulations and Aircraft Drawings **Credits:** 3
AMP 102 - Aviation Math and Physics **Credits:** 3
AMP 103 - Concepts of Aircraft Materials and Tooling Standards **Credits:** 3

AMP 104 - Basic Aircraft Electricity and Ground Operations **Credits:** 3

Total Hours Required: 12

Introduction to UAS Technology Undergraduate Certificate

The Introduction to UAS Technology certificate provides a basic introduction to current UAS technologies. Students completing the certificate will be able to safely handle, operate, and repair both multi-rotor and fixed-wing UAS.

Required courses: (14 credit hours)

UAS 114 - Remote Pilot Certification for UAS **Credits:** 2
UAS 115 - Introduction to Multi-Rotor Flight Lab **Credits:** 1
UAS 270 - Introduction to UAS **Credits:** 3
UAS 272 - UAS Safety Fundamentals **Credits:** 3
UAS 275 - Small UAS Maintenance I **Credits:** 3
UAS 280 - Multi-Rotor Construction Lab **Credits:** 2

Total hours required: 14

Professional Pilot Undergraduate Certificate

This curriculum provides a foundation for work in the aviation industry. Individuals wanting to enroll in this certificate must meet the selective admissions requirements for any flight training provided by KSU.

Special Requirements

Admission requirements for this certificate are the same as required for any flight training at KSU Salina. Additional information is available at https://www.salina.k-state.edu/academics/degree-options/professional-pilot.

Required Core Courses (16 credit hours)

PPIL 111 - Private Pilot **Credits:** 4
PPIL 112 - Professional Instrument Pilot **Credits:** 3
PPIL 113 - Private Pilot Flight Lab **Credits:** 1
PPIL 114 - Professional Instrument Pilot Flight Lab **Credits:** 1
PPIL 211 - Professional Commercial Pilot **Credits:** 3
PPIL 212 - Professional Commercial Pilot Flight Lab I **Credits:** 2
PPIL 213 - Professional Commercial Pilot Flight Lab II **Credits:** 2

Total credit hours: 16

UAS Data Analytics Undergraduate Certificate

The UAS Data Analytics certificates provides an in-depth understanding of UAS data collection and processing. Students completing the certificate will learn about varying UAS sensors, obtain data, and post-process the collected data into meaningful and actionable products.

Required Courses: 12 credit hours

UAS 374 - Processing Remotely Sensed Data **Credits:** 3
UAS 475 - Data Acquisition and Post-processing **Credits:** 3
UAS 477 - Fundamentals of Thermography **Credits:** 3
UAS 478 - Fundamentals of LIDAR **Credits:** 3

Total Hours Required for Graduation: 12

Integrated Studies

Troy Harding, Head

Kansas State University Salina
Aerospace and Technology Campus
2310 Centennial Road
Salina, KS 67401

785-289-2650
salinaadmissions@k-state.edu

www.salina.k-state.edu/

Kansas State Aerospace & Technology provides a small campus atmosphere with a professional learning environment built on theory, research and industry application in the classroom. Students can choose from serveral undergraduate programs, certificates, and master's programs, making the university an equally diverse community of traditional and nontraditional students.

Advanced Intelligent Systems Programming Undergraduate Certificate

The Advanced Intelligent Systems Programming Undergraduate Certificate is an intensive program designed to equip students with advanced programming skills in the realm of intelligent systems and artificial intelligence (AI). This certificate focuses on

topics like machine learning, human-computer interactions, natural language processing, and data analysis. Graduates are well-prepared for careers in AI development, data science, and advanced programming, making this certificate a valuable asset in the tech industry's evolving landscape.

Required Courses (12 credit hours)

CYBR 357 - Computer Vision for Immersive Systems **Credits:** 3
CYBR 391 - Data Structures and Algorithms for Cyber Systems **Credits:** 3
CYBR 455 - Human Computer Interactions for Cyber Systems **Credits:** 3
CYBR 460 - Software Engineering for Intelligent Cyber Systems **Credits:** 3

Total hours required: 12

Applied Business (AS)

This two-year associate's degree enables the graduate to succeed in an entry-level business position or to continue working toward a bachelor's degree in one of many business fields; including business, accounting, and management.

Associate's degree requirements (61 credit hours)

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Math Requirement

If not met through K-State Core requirements, MATH 100 is required.

KSC-030
MATH 100 - College Algebra **Credits:** 3

Applied Business and Technology - Applied Business (BS)

The Bachelor of Science in Applied Business and Technology provides students with knowledge and skills designed to enhance their employability and upward mobility in the technical field of their choice. Students take courses in the diverse areas of management, accounting, and marketing; as well as in other essential business areas. The technology concentration courses can be done in any of a number of technical disciplines. Graduates are prepared for supervisory and management positions in a variety of technical areas, ranging from aviation and manufacturing to sales and product development.

The Applied Business Option allows students to build a more integrated business focus, with additional studies in mathematics and applied business electives.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. Applied Business and Technology - Technology Management (BS)

The Bachelor of Science in Applied Business and Technology provides students with knowledge and skills designed to enhance their employability and upward mobility in the technical field of their choice. Students take courses in the diverse areas of management, accounting, and marketing; as well as in other essential business areas. The technology concentration courses can be done in any of a number of technical disciplines. Graduates are prepared for supervisory and management positions in a variety of technical areas, ranging from aviation and manufacturing to sales and product development.

The Technology Management Option allows students transferring from two-year institutions to apply up to 39 credit-hours of their technical specialty, as well as general education courses, for a total of 60 credit-hours transferrable to Kansas State. The Applied Business Option allows students to build a more integrated business focus, with additional studies in mathematics and applied business electives.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

Area of Concentration (39 credit hours*)

This block of courses may include course work in one area of concentration, or related multiple certificates, options, or specialization areas other than business. Courses accepted for transfer to K-State must be academic college-level courses.

***At least 15 credits of electives and/or the Area of Concentration must be upper-level courses (300+).**

**Repeatable with approval of Integrated Studies Department Head.

Total Hours Required for Graduation: 120

Applied Business Minor

The Applied Business minor is available to non-Business and non-Applied Business and Technology majors who will graduate from K-State. At least four of the six required courses must be completed at Kansas State University. Students must achieve a cumulative 2.50 GPA (K-State and transfer grades) in the six required courses to complete the minor. Note: Transfer grade of a "D" does not transfer.

Upon graduation, most students will be involved in organizations, both profit or nonprofit, that will use business concepts and principles to improve their services or products. To complete the Applied Business Minor, students must graduate from Kansas State University and complete the business courses listed below:

Required courses (18 hours)

BUS 251 - Financial Accounting **Credits:** 3
BUS 252 - Managerial Accounting **Credits:** 3
BUS 400 - Marketing Techniques and Applications **Credits:** 3
BUS 420 - Management Perspectives **Credits:** 3
BUS 450 - Integrated Finance **Credits:** 3
BUS 520 - Integrated Technology Management Capstone **Credits:** 3

Total hours required: 18

Applied Cyber Systems Design Undergraduate Certificate

The Applied Cyber Systems Design Undergraduate Certificate is a comprehensive program designed to equip students with the essential knowledge and skills to excel in the dynamic field of cyber system design. This certificate program, typically completed in one to two years, offers a focused curriculum that combines theory with hands-on practical experience.

Required Courses (12 credit hours)

CYBR 103 - Computing Principles **Credits:** 3
CYBR 137 - Principles of Interactive Digital Storytelling **Credits:** 3
CYBR 250 - Hardware and Network Fundamentals **Credits:** 3
MLAS 100 - Survey of Machine Learning and Autonomous Systems **Credits:** 3

Total hours required: 12

Applied Electronics Undergraduate Certificate

Dive into the dynamic world of embedded microprocessor systems with our Undergraduate Certificate in Applied Electronics. This program is designed for students and professionals seeking to develop expertise in designing, programming, and implementing embedded systems that drive innovation across various sectors. Students will engage in practical labs and projects that provide real-world applications of embedded electronics, from concept to prototype. Essential topics include microcontroller architecture, digital and analog electronics, programming for embedded systems, and interfacing techniques.

Required Courses: 12 Hours

CMST 302 - Applications in C Programming for Engineering Technology **Credits:** 3
ECET 350 - Microprocessor Fundamentals **Credits:** 3
ECET 352 - Digital Circuits and Systems **Credits:** 3
ECET 354 - Microcontroller Applications **Credits:** 3

Electives: 6 Hours

Choose 6 credit hours from the following list.

ECET 301 - Circuits II **Credits:** 4
ECET 304 - Electric Power and Devices **Credits:** 3
ECET 320 - Electronic Communication Systems **Credits:** 3
ECET 330 - Industrial Controls **Credits:** 4

ECET 335 - Industrial Control Topics **Credits:** 1
ECET 340 - Electronic Manufacturing **Credits:** 3
ECET 414 - Electromagnetic Applications **Credits:** 4
ECET 420 - Communication Circuits Design **Credits:** 3
ECET 421 - Telecommunication Systems **Credits:** 4
ECET 430 - Signals and Systems **Credits:** 3
ECET 450 - Digital Systems and Computer Architecture **Credits:** 4
ECET 480 - Electronic Design I **Credits:** 1
ECET 481 - Electronic Design II **Credits:** 2
ECET 499 - Advanced Topics in Electronic and Computer Engineering Technology **Credits:** 1-18

Total Hours Required: 18

Applied Machine Learning Undergraduate Certificate

The Applied Machine Learning Undergraduate Certificate is a focused program providing students with practical skills to harness the power of machine learning. Covering key concepts, algorithms, and real-world applications, this certificate equips students to work with data, build predictive models, and leverage AI for problem-solving. With a curriculum blending theory and hands-on experience, graduates are well-prepared for careers in data science, AI development, and analytics, making this program a valuable credential for those entering the tech industry or pursuing further studies in machine learning.

Required Courses (15 credit hours)

MLAS 100 - Survey of Machine Learning and Autonomous Systems **Credits:** 3
MLAS 200 - Introduction to Automata and Cybernetic Systems Theory **Credits:** 3
MLAS 390 - Unsupervised Learning in Autonomous Systems **Credits:** 3
MLAS 400 - Supervised learning in Autonomous Systems **Credits:** 3
MLAS 500 - Reinforcement Learning in Autonomous Systems **Credits:** 3

Total hours required: 15

Applied Manufacturing Undergraduate Certificate

The Certificate of Applied Manufacturing provides entry-level or career-changing students the option of immersing themselves in the principles and practice of manufacturing. The certificate can be issued as a stand-alone qualification, or can be used to gain entry to the Associate's, or Bachelor's, degree in engineering technology, mechanical engineering technology option.

Course Requirements

Minimum cumulative grade point average of 2.5 is required on courses applied to a certificate, and a grade of "C" or better is required in all coursework. All courses applied to the certificate must have letter grades. Courses with grades of "Credit" or "Pass" will not applicable. No more than 25% of total credit hours required for the certificate may be transfer credits.

This is a free-standing certificate; it may be earned without participation in or completion of a degree program.

Required Courses (17 credit hours)

MET 111 - Technical Graphics **Credits:** 3
MET 117 - Mechanical Modeling and Detailing **Credits:** 3
MET 121 - Manufacturing Methods **Credits:** 3
MET 125 - Computer-Numerical-Controlled Machine Processes **Credits:** 2
MET 231 - Physical Materials and Metallurgy **Credits:** 3

Choose 1 of the following:

MET 325 - Additive Manufacturing **Credits:** 3
AVT 317 - Composites I **Credits:** 3

Total credit hours: 17

Autonomous Robotics and Machine Learning Undergraduate Certificate

The Autonomous Robotics and Machine Learning Certificate equips students with the skills to design, program, and deploy autonomous robot systems. This program focuses on integrating machine learning and navigation strategies to develop intelligent robot platforms capable of operating in complex environments. With industries increasingly relying on robotics and artificial intelligence to solve complex challenges, this certificate bridges the gap between cutting-edge technology and practical applications, providing students with a unique blend of theoretical knowledge and hands-on experience.

Required Courses: (14 Credit Hours)

MLAS 100 - Survey of Machine Learning and Autonomous Systems **Credits:** 3
RAS 212 - Introduction to Robot Operating System (ROS) **Credits:** 3
RAS 260 - Path Planning and Navigation **Credits:** 3
RAS 268 - Mobile Robotics Navigation Studio **Credits:** 1
RAS 455 - Robot Embedded Systems **Credits:** 3
RAS 458 - Mobile Robotics Embedded Development Studio **Credits:** 1

Total Hours Required: 14

Composite Repair Undergraduate Certificate

This certificate provides the education and practical experience needed for placement in the rapidly growing composite repair field. In addition, the certificate provides current aviation maintenance workers an avenue through which they may expand their knowledge of and experience with modern composite repair materials and techniques.

Required Core Courses (12 credit hours)

AVT 400 - Composites II **Credits:** 3
AVT 417 - Composites III **Credits:** 3

Choose one of the following:

AVM 303 - Introduction to Aircraft Composite Structures **Credits:** 3
AVT 317 - Composites I **Credits:** 3

Choose one of the following:

COT 495 - Advanced Industrial Internship **Credits:** 0-6

PAV 497 - Senior Capstone **Credits:** 3

Total credit hours: 12

Cyber Systems Design & Dynamics - Immersive Systems Design (BS)

Cyber Systems Design & Dynamics (CSDD) is an innovative degree program merging the realms of digital design, human-computer interaction, virtual and augmented reality, data science, and intelligent computing systems architecture. This program equips students with unique and in-demand skills to create engaging virtual environments, immersive applications, predictive data systems, cyber physical systems, and interactive media. Coursework involves software development and engineering, machine learning, data engineering, 3D modeling, UX/UI design, narrative creation, and the psychological aspects of immersive technology. Engaging projects are an essential part of the curriculum and are designed to reinforce theoretical learnings. Additionally, hands-on cooperative industry experience provides real-world exposure for students. Graduates gain skills applicable to industries like aersospace, entertainment, education, healthcare, and manufacturing—preparing them for roles such as an XR designer, immersive content creator, data scientist, machine learning engineer, computer vision engineer, or UX designer. This degree is a strategic investment for those looking to thrive in a technologically advanced world and is ideal for tech-savvy creatives keen on redefining how people interact with digital worlds.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

Cyber Systems Design & Dynamics - Machine Learning & Autonomous Systems (BS)

Cyber Systems Design & Dynamics (CSDD) is an innovative degree program merging the realms of digital design, human-computer interaction, virtual and augmented reality, data science, and intelligent computing systems architecture. This program equips students with unique and in-demand skills to create engaging virtual environments, immersive applications, predictive data systems, cyber physical systems, and interactive media. Coursework involves software development and engineering, machine learning, data engineering, 3D modeling, UX/UI design, narrative creation, and the psychological aspects of immersive technology. Engaging projects are an essential part of the curriculum and are designed to reinforce theoretical learnings. Additionally, hands-on cooperative industry experience provides real-world exposure for students. Graduates gain skills applicable to industries like aersospace, entertainment, education, healthcare, and manufacturing—preparing them for roles such as an XR designer, immersive content creator, data scientist, machine learning engineer, computer vision engineer, or UX designer. This degree is a strategic investment for those looking to thrive in a technologically advanced world and is ideal for tech-savvy creatives keen on redefining how people interact with digital worlds.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements

The curriculum for this major assumes students enter college prepared to take Calculus.

Foundational CSDD Course Requirements: 27 Credit Hours

CYBR 103 - Computing Principles **Credits:** 3
CYBR 137 - Principles of Interactive Digital Storytelling **Credits:** 3
CYBR 163 - Fundamentals of Design Thinking **Credits:** 3
CYBR 180 - Introduction to Database Systems **Credits:** 3
CYBR 247 - Programming I **Credits:** 3
CYBR 250 - Hardware and Network Fundamentals **Credits:** 3
CYBR 280 - Applied Mathematics for Cyber Systems **Credits:** 3
CYBR 335 - Programming II **Credits:** 3
MLAS 100 - Survey of Machine Learning and Autonomous Systems **Credits:** 3

Additional Course Requirements: 23 Credit Hours

ENGL 302 - Technical Writing **Credits:** 3
COT 480 - Professional Conduct, Ethics, and Analysis **Credits:** 3
STAT 225 - Introduction to Statistics **Credits:** 3
MATH 150 - Plane Trigonometry **Credits:** 3
MATH 220 - Analytic Geometry and Calculus I **Credits:** 4
PHYS 113 - General Physics I **Credits:** 4

Degree Option

Machine Learning & Autonomous Systems Option: 36 Credit Hours

ETB 310 - Applied Data Analysis and Tools **Credits:** 3
STAT 705 - Regression and Analysis of Variance **Credits:** 3
STAT 730 - Multivariate Statistical Methods **Credits:** 3
MLAS 200 - Introduction to Automata and Cybernetic Systems Theory **Credits:** 3
MLAS 350 - Data Structures for Machine Learning **Credits:** 3
MLAS 390 - Unsupervised Learning in Autonomous Systems **Credits:** 3
MLAS 400 - Supervised learning in Autonomous Systems **Credits:** 3
MLAS 410 - Natural Language Processing **Credits:** 3
MLAS 412 - Deep Learning **Credits:** 3
MLAS 500 - Reinforcement Learning in Autonomous Systems **Credits:** 3
MLAS 501 - Artificial Intelligence Studio **Credits:** 3-6
MLAS 502 - Autonomous Systems Senior Capstone **Credits:** 6

Cyber Systems Programming Undergraduate Certificate

The Cyber Systems Programming Undergraduate Certificate is a specialized program designed to empower students with the knowledge and skills required to excel in the rapidly evolving field of cybernetics and programming. This certificate program

typically spans one to two years and offers a comprehensive curriculum that blends theoretical foundations with hands-on practical experience.

Required Courses (12 credit hours)

CYBR 180 - Introduction to Database Systems **Credits:** 3
CYBR 210 - Interactive Media Development **Credits:** 3
CYBR 247 - Programming I **Credits:** 3
CYBR 335 - Programming II **Credits:** 3

Digital Media User Experience (UX) Design Undergraduate Certificate

This certificate program offers a design thinking-centric approach to user experience (UX) design. The courses consist of industry-standard, skill-based instruction encompassed around a digital media visual communication perspective rather than one focused on marketing or programming alone. Throughout the duration of the four courses, students will summarize and demonstrate all stages of the UX design process starting from user research to defining a project's strategy, scope and information architecture, to developing sitemaps and wireframes. The skills acquired in these courses are applicable to a wide variety of careers in digital media.

Requirements: (12 credit hours)

DIGME 137 - Fundamentals of Visual Communication **Credits:** 3

CMST 135 - Web Fundamentals **Credits:** 3
or
DIGME 256 - Digital Literacy **Credits:** 3

CYBR 163 - Fundamentals of Design Thinking **Credits:** 3
CYBR 365 - User Experience (UX) Design for Immersive Systems **Credits:** 3

Total Hours Required: 12

Engineering Technology - Electronic and Computer Engineering Technology (AS)

Electronic and computer engineering technicians work in all areas of the electronics industry, including industrial control electronics, communications, and digital systems. These individuals work closely with electronic engineering technologists, electrical engineers, computer scientists, and other professionals in the design, development, marketing, and maintenance of electronic products and systems.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. Engineering Technology - Electronic and Computer Engineering Technology (BS)

Students may continue their studies in electronic and computer engineering technology beyond the associate degree level to obtain the bachelor of science degree. The bachelor's degree typically requires two years of study beyond the associate degree.

Course work in the junior and senior years of the bachelor's degree program provides additional depth of understanding of circuit analysis techniques, digital systems, data communications, and industrial electronics. Individual and group project assignments are emphasized. Additional mathematics, science, and elective courses provide a strong background with which graduates are prepared for the technical professions of tomorrow.

Graduates work as electronic and computer engineering technologists in many industrial settings. Career activities include product design and development, industrial automation, technical sales, and project management.

The bachelor's degree program in electronic and computer engineering technology is accredited by the Engineering Technology Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012. Telephone: (410) 347-7700. Website: www.abet.org.

Engineering Technology - Mechanical Engineering Technology (AS)

The mechanical engineering technology program prepares graduates for applied mechanical and manufacturing engineering-related careers with a hands-on, practical approach. The program emphasizes understanding how engineering principles are applied in practice, rather than purely the mathematical methods used.

The mechanical engineering technology program is built upon a strong foundation of science, mathematics, and applied technical courses designed to meet the diverse needs of the industrial workforce. Mechanical engineering technology concepts are used in all types of industry and are directly applied to product design and manufacturing. Courses in technical graphics with CAD, manufacturing processes, materials, material strength and testing, computer numerical control, automated manufacturing systems, machine design, quality control, and economics provide the student with a broad range of expertise for a career in mechanical engineering technology.

Graduates of the mechanical engineering technology program work within engineering teams in applied design, project management, product development, testing, manufacturing, plant operations, maintenance, or technical sales. Associate degree

graduates accept jobs as engineering technicians, engineering aides, plant operation and maintenance staff, layout staff, production assistants, and technical sales staff.

Engineering Technology - Mechanical Engineering Technology (BS)

Focus on technical graphics with computer-aided drafting, material strength and testing, computer numerical control, economics, quality control and machine design.

Plans become reality in our design and build laboratory. Mechanical engineering students learn in 5,000-square feet of creative space where concepts are designed, prototyped and tested. Students have access to modern technology and equipment, such as 3D printers, a CNC vertical machining center, a laser printer and more.

Kansas State University Core: 34-36 Credit Hours

Engineering Technology - Robotics and Automation (BS)

The Robotics and Automation Engineering Technology program responds to the need for skilled engineering technology professionals in the thriving and growing fields of robotics and automation. Both are dynamic fields involving the design, building, programming, functional use, and maintenance of machinery. The distinction being that robotic systems may be designed to perform different tasks under software control. Whereas, automation systems are typically designed for a single task and operate in a more deterministic environment. Despite the minor differences in the application of the machinery, the skill sets

required of engineers working in these fields are closely aligned. The nature of the field requires that workers not only have solid technical engineering knowledge, but also know both how to apply the knowledge in hands-on laboratory and factory settings, and how to communicate well. The Robotics and Automation Engineering Technology degree is designed to give students the advantage of a solid background in the three cornerstone disciplines of the field – mechanical engineering technology, electronic and computer engineering technology, and computer systems technology. Students take select courses from the three disciplines that provide an engineering foundation and directly relate to robotics and automation.

Kansas State University Core: 34-36 Credit Hours

K-State Core is the foundation for an impactful life and career after time at K-State.

The K-State Core framework covers six disciplinary areas: **English, Communications, Mathematics & Statistics, Natural & Physical Sciences, Social & Behavioral Sciences, and Arts and Humanities**. In addition, a seventh area is reserved for institutionally designated use, which K-State is keeping as free electives. In total, the framework takes up 34-35 credit hours of 100 and 200-level coursework. Students who complete their general education elsewhere cannot be required to take additional general education coursework in the disciplinary areas of the framework without permission from KBOR to continue requiring courses in the K-State Core.

General Education: K-State Core

Program Requirements (20 credit hours)

The curriculum for this major assumes students enter college prepared to take Calculus.

English Requirements: (3 credit hours)

ENGL 302 - Technical Writing **Credits:** 3

Math Requirements: (7 credit hours)

MATH 150 - Plane Trigonometry **Credits:** 3
MATH 220 - Analytic Geometry and Calculus I **Credits:** 4

Physics Requirements (4 credit hours)

PHYS 113 - General Physics I **Credits:** 4
(included in core)
PHYS 114 - General Physics II **Credits:** 4

COT Requirements: (2 credit hours)

COT 301 - Six Sigma Analysis and Problem Solving I **Credits:** 1
COT 302 - Six Sigma Analysis and Problem Solving II **Credits:** 1

Professional Studies (64 credit hours)

CYBR 180 - Introduction to Database Systems **Credits:** 3

CMST 302 - Applications in C Programming for Engineering Technology **Credits:** 3
RA 305 - Robotics Programming **Credits:** 3
RA 357 - Machine Vision **Credits:** 3
RAS 385 - Advanced Programmable Logic Controllers **Credits:** 3
ECET 100 - Basic Electronics **Credits:** 3
ECET 250 - Digital Logic **Credits:** 3
ECET 304 - Electric Power and Devices **Credits:** 3

Engineering Technology - Uncrewed Aircraft Systems (BS)

Tailored to combine computer science, electronic engineering and mechanical engineering with uncrewed systems, students in this program will explore the intricacies of UAS subsystems and components, such as software design, computer networking, firmware and hardware, sensors and actuators, and camera systems and other payloads.

Students will be expected to execute critical thinking, problem solving and research skills while engaging in classes about electronic circuits, communication systems, control systems, machine design, manufacturing technology, materials technology and fundamentals of UAS operations.

No flight ratings required.

Engineering Technology - Web Development Technology (AS)

The web development technology program builds a foundation in computer science and applies these concepts to the world of e-commerce and website development. All students take introductory classes in operating systems and program design. The program also includes courses in programming and network administration.

Students interested in programming-oriented careers will find the curriculum challenging and rewarding. Students obtain experience with client-side programming, server-side programming, video and audio streaming, as well as database integration and other ways to make the web an effective tool for business.

Students also learn project management and the use of timetables and other organizational techniques. Software tools including Flash, DreamWeaver, and Javascript are utilized, but the main curriculum emphasis is on programming solutions to actual problems.

Required for graduation (61 credit hours)

Extended Reality Systems Design Undergraduate Certificate

The Extended Reality Systems Design Undergraduate Certificate is a program that explores the design and development of immersive experiences using augmented, virtual, and mixed reality technologies. Students learn to create cutting-edge XR applications and gain a deep understanding of XR hardware and software systems. This certificate equips graduates with the skills needed for careers in XR development, simulation design, and interactive media, making it a valuable credential in the field of extended reality.

Required Courses (12 credit hours)

CYBR 332 - 3D Design and Modeling for XR **Credits:** 3
CYBR 365 - User Experience (UX) Design for Immersive Systems **Credits:** 3
CYBR 443 - Interactive Systems Design for Virtual Reality (VR) **Credits:** 3
CYBR 445 - Interactive Systems Design for Augmented Reality (AR) **Credits:** 3

Immersive Digital Media Design Undergraduate Certificate

The Immersive Digital Media Design Undergraduate Certificate is an intensive and hands-on program designed to immerse students in the exciting world of digital media and design. This certificate program, typically completed in one to two years, offers a comprehensive curriculum that blends theory with practical skills. Learners delve into a wide range of creative and technical topics, including graphic design, 3D modeling, animation, virtual reality (VR), augmented reality (AR), and interactive media.

Required Courses (12 credit hours)

CYBR 137 - Principles of Interactive Digital Storytelling **Credits:** 3
CYBR 163 - Fundamentals of Design Thinking **Credits:** 3
CYBR 210 - Interactive Media Development **Credits:** 3
CYBR 320 - Foundations of Interactive Narratives **Credits:** 3

Total hours required: 12

Industrial Automation Undergraduate Certificate

This program is designed for individuals seeking to enhance their skills in automation technologies that drive efficiency, safety, and productivity across various industries. Students will gain practical experience with cutting-edge automation tools and systems, including robotics, control systems, and data analytics. Our industry-relevant curriculum will explore key topics such as programmable logic controllers (PLCs), industrial networking, sensor technologies, and automated process control. Students will be well-prepared for roles in manufacturing, logistics, and process industries, where they can implement automation solutions to streamline operations, improve safety measures, and boost overall productivity.

Required Courses: 12 Credit Hours

ECET 304 - Electric Power and Devices **Credits:** 3
MET 382 - Industrial Instrumentation and Controls **Credits:** 3
MET 481 - Automated Manufacturing Systems II **Credits:** 3
RAS 385 - Advanced Programmable Logic Controllers **Credits:** 3

Electives: 6 Hours

Choose 6 hours from the following list.

ECET 301 - Circuits II **Credits:** 4
ECET 320 - Electronic Communication Systems **Credits:** 3
ECET 330 - Industrial Controls **Credits:** 4

ECET 335 - Industrial Control Topics **Credits:** 1
ECET 340 - Electronic Manufacturing **Credits:** 3
ECET 350 - Microprocessor Fundamentals **Credits:** 3
ECET 352 - Digital Circuits and Systems **Credits:** 3
ECET 354 - Microcontroller Applications **Credits:** 3
ECET 414 - Electromagnetic Applications **Credits:** 4
ECET 420 - Communication Circuits Design **Credits:** 3
ECET 421 - Telecommunication Systems **Credits:** 4
ECET 430 - Signals and Systems **Credits:** 3
ECET 450 - Digital Systems and Computer Architecture **Credits:** 4
ECET 499 - Advanced Topics in Electronic and Computer Engineering Technology **Credits:** 1-18
MET 382 - Industrial Instrumentation and Controls **Credits:** 3
MET 481 - Automated Manufacturing Systems II **Credits:** 3
RA 305 - Robotics Programming **Credits:** 3
RA 357 - Machine Vision **Credits:** 3
RA 444 - Integrated Robotics Studio **Credits:** 0-2
RAS 385 - Advanced Programmable Logic Controllers **Credits:** 3
MET 314 - Finite Element Analysis and Design Modeling **Credits:** 3
MET 325 - Additive Manufacturing **Credits:** 3
MET 333 - Advanced Material Science **Credits:** 3
MET 336 - Dynamics of Machines **Credits:** 3
MET 346 - Elements of Mechanisms **Credits:** 3
MET 353 - Fluid Mechanics **Credits:** 3
MET 365 - Machine Design Technology II **Credits:** 3
MET 381 - Quality Control **Credits:** 3
MET 410 - Managerial and Project Economics **Credits:** 3
MET 460 - Tool Design for Manufacturing **Credits:** 3
MET 471 - Thermodynamics and Heat Transfer **Credits:** 4
MET 499 - Advanced Topics in Mechanical Engineering Technology **Credits:** 1-18

Total Hours Required: 18

Industrial Robotics and Automation Undergraduate Certificate

The Industrial Robotics and Automation Certificate prepares students for careers in advanced manufacturing and automation by providing hands-on experience and technical knowledge in robot systems and industrial control. This program emphasizes the integration of robotics, programming, and machine vision into automated manufacturing environments.

Required Courses: (13 credit hours)

MET 230 - Automated Manufacturing Systems I **Credits:** 3
MET 240 - Industrial Robotics Laboratory **Credits:** 2
RA 305 - Robotics Programming **Credits:** 3
RAS 358 - Industrial Inspection Systems **Credits:** 2
RAS 385 - Advanced Programmable Logic Controllers **Credits:** 3

Total Hours Required: 13

Interactive 3D Application Design Undergraduate Certificate

The Interactive 3D Application Design Undergraduate Certificate offers a specialized curriculum focusing on the creation of immersive and interactive 3D applications. Students gain hands-on experience in 3D modeling, animation, and game design. They learn to develop interactive experiences for various platforms, including virtual reality and augmented reality. Graduates are equipped with the skills needed for careers in game development, simulation design, or interactive media production, making this certificate a valuable credential for those pursuing a career in the exciting world of 3D application design.

Required Courses (15 credit hours)

CYBR 310 - 3D Animation and Asset Production for XR **Credits:** 3
CYBR 322 - Multi-platform Interactive Media Design **Credits:** 3
CYBR 330 - Interactive Game and Audio Design **Credits:** 3
CYBR 332 - 3D Design and Modeling for XR **Credits:** 3
CYBR 360 - Foundations of Game Engine Design and Development **Credits:** 3

Total hours required: 15

Robotics Design and Fabrication Undergraduate Certificate

The Robotics Design and Fabrication Certificate provides hands-on training and foundational knowledge in the essential areas of robot system development. Students gain expertise in designing and building robot systems by integrating mechanical, electrical, and digital components. This certificate emphasizes practical skills in power systems, advanced manufacturing techniques, and electronics assembly while fostering creativity in robot design and fabrication.

Required Courses: (13 Credit Hours)

ECET 340 - Electronic Manufacturing **Credits:** 3
RAS 225 - Robot Power Systems **Credits:** 3
RAS 335 - Digital Manufacturing **Credits:** 3
RAS 348 - Mobile Robotics Fabrication Studio **Credits:** 1
RAS 415 - Robot Design and Kinematics **Credits:** 3

Total Hours Required: 13

Spatial Computing Design Undergraduate Certificate

The Spatial Computing Design Undergraduate Certificate is a focused program that empowers students with the skills to develop applications and software for spatial computing environments, such as augmented reality and virtual reality. Through hands-on training, students learn to code for immersive experiences and work with cutting-edge technology. Graduates are well-prepared for careers as spatial computing developers and programmers, making this certificate a valuable credential in the rapidly growing field of spatial computing.

Required Courses (12 credit hours)

CYBR 250 - Hardware and Network Fundamentals **Credits:** 3
CYBR 366 - Cyber Security Operations **Credits:** 3

CYBR 457 - Intelligent Spatial Computing Systems **Credits:** 3
CYBR 459 - Real-time Computing Systems **Credits:** 3

Total hours required: 12

STEM Foundations Minor

The STEM Foundations Minor is created for students interested in a foundational knowledge in science, mathematics, and computing technology in addition to their major field of study.

To complete the STEM Foundations minor, students must graduate from Kansas State University and complete the STEM courses listed below.

No more than six hours of transfer courses may be used. Students must achieve a cumulative 2.50 GPA in the required courses to complete the minor. Courses may not be taken pass/fail apart from "credit for prior learning".
Note: All courses applied to the minor must have a grade of "C" or better apart from "credit for prior learning".

Required Courses (24 credit hours)

BIOL 198 - Principles of Biology **Credits:** 4
CHM 110 - General Chemistry **Credits:** 3
CHM 111 - General Chemistry Laboratory **Credits:** 1
CMST 190 - Information Engineering for Data Science **Credits:** 1
CMST 290 - Scientific Programming and Machine Learning **Credits:** 1
GEOL 125 - Natural Disasters **Credits:** 3
MATH 220 - Analytic Geometry and Calculus I **Credits:** 4
MLAS 100 - Survey of Machine Learning and Autonomous Systems **Credits:** 3
PHYS 114 - General Physics II **Credits:** 4

Total Hours Required: 24

Mary Lynn and Warren Staley School of Leadership Studies

Mary Tolar, Dean

257 Leadership Studies Building
785-532-6085
Fax: 785-532-6542
E-mail: leadership@k-state.edu
www.k-state.edu/leadership/

Since its inception in 1997, the Staley School of Leadership strives to fulfill each part of its mission statement: developing knowledgeable, ethical, caring, inclusive leaders for a diverse and changing world. We invite all to become a part of the Leadership Studies community and together we will continue to discover ways to learn about and engage fully in the mission of our program.

The School of Leadership continues to develop and grow. Grounded by its progressive spirit, commitment to collaboration, and devotion to a student-centered learning community, the School is building critical infrastructure to advance our programs and contribute to the discipline. By understanding, honoring, and preserving what works well, the School is creating a future for Leadership Studies that values its legacy as a necessary component of successful innovation. As we continue to engage students

in the central questions of purpose and values, highlight the need for ethical leaders at all levels, share a desire for all of us to commit to a lifetime of service and civic engagement, and open students to the need to continually learn and affirm different people and cultures--we are extending our legacy to the future.

A minor in Leadership Studies complements an academic major by combining theory and practice with an emphasis on personal leadership development. In addition to the minor, we have a certificate in nonprofit leadership. The Nonprofit Leadership Certificate will develop an individual's leadership capacity to better work, serve, and lead in nonprofit organizations. Drawing from leadership development theory and best practices, graduates will gain tangible skills in understanding the nonprofit sector and the unique considerations of leading within it.

The secondary major in Global Food Systems Leadership is intended for students who want to study and exercise leadership on the grand challenges of feeding a growing world population through a systems thinking approach. An interdisciplinary team from Kansas State University created the program with the goal of helping students enhance their preparation for a diverse range of careers that require integrated knowledge of the global food system and the leadership capacity to skillfully intervene to change the system for the common good.

The Leadership Communication doctoral program started in fall of 2018. The Leadership Communication program is an interdisciplinary research degree. This Doctor of Philosophy degree is rooted in leadership practices and communication processes that can be used to make progress on the most difficult challenges of our times. Through the study and practice of leading change students will produce original research that is grounded in community-engaged scholarship.

Our Programs-Service and Civic Engagement

The Staley School of Leadership is also focused on students' service and civic engagement and offers various programs for students (and faculty) to enhance social responsibility, citizenship, and awareness of community needs to improve the quality of life–on campus, in the community, and across the world.

Staley School of Leadership

Community-Engaged Leadership Undergraduate Certificate

Requirements

LEAD 510 - Foundations of Community-Engaged Leadership **Credits:** 3
LEAD 520 - Approaches to Community-Engaged Leadership **Credits:** 3
LEAD 560 - Experiences in Community-Engaged Leadership **Credits:** 6

Total credit hours: 12

Global Food Systems Leadership Secondary Major

Core Courses (9 credit hours)

All students must complete the following three courses.

DAS 225 - Fundamentals of Global Food Systems Leadership **Credits:** 3
DAS 325 - Uncertainty in Global Food Systems Leadership **Credits:** 3
GENAG 225 - Fundamentals of Global Food Systems Leadership **Credits:** 3
GENAG 325 - Uncertainty in Global Food Systems Leadership **Credits:** 3
GENAG 425 - Global Food Systems Leadership in Action **Credits:** 3
LEAD 225 - Fundamentals of Global Food Systems Leadership **Credits:** 3
LEAD 325 - Uncertainty in Global Food Systems Leadership **Credits:** 3
LEAD 425 - Global Food Systems Leadership in Action **Credits:** 3

Food and Agriculture Courses (6 credit hours)

Students would select a minimum of 6 credit hours from the list:

AGEC 315 - Contemporary Issues in Global Food and Agricultural Systems **Credits:** 3
AGEC 710 - Comparative Food and Agriculture Systems **Credits:** 3
AGRON 120 - Crop Science **Credits:** 3
ASI 102 - Principles of Animal Science **Credits:** 3
ASI 350 - Meat Science **Credits:** 3
ASI 595 - Current Issues in Animal Science **Credits:** 3
ENTOM 101 - Insects and People **Credits:** 3
FDSCI 202 - Introduction to Food Science **Credits:** 3
FNDH 400 - Human Nutrition **Credits:** 3
GENAG 690 - Seminar in International Agriculture **Credits:** 1
GRSC 101 - Fundamentals of Grain Processing **Credits:** 3
HORT 201 - Principles of Horticultural Science **Credits:** 4
HORT 325 - Introduction to Organic Farming **Credits:** 2

Areas of Concentration (9 credit hours)

All students must complete 9 credit hours from one of the following areas of concentration.

Policy

AGEC 411 - Agricultural Policy **Credits:** 3
AGEC 610 - Current Agriculture and Natural Resource Policy Issues **Credits:** 3
FNDH 600 - Public Health Nutrition **Credits:** 3
HIST 533 - Topics in the History of the Americas **Credits:** 1-3
POLSC 145 - World Politics **Credits:** 3
POLSC 307 - Introduction to Public Administration **Credits:** 3
POLSC 511 - Contemporary Chinese Politics **Credits:** 3
POLSC 647 - International Law **Credits:** 3

POLSC 651 - International Organization **Credits:** 3
SOCIO 363 - Global Problems **Credits:** 3
SOCIO 507 - International Development and Social Change **Credits:** 3
SOCIO 533 - Society, Food, and Agriculture **Credits:** 3
SOCIO 536 - Society and Natural Resources **Credits:** 3

Community Engagement

ANTH 613 - Gender, Power, and International Development **Credits:** 3
CNRES 531 - Interpersonal Conflict Resolution **Credits:** 3
CNRES 532 - Conflict Resolution across Cultures & Contexts **Credits:** 3
CNRES 536 - Conflict and Trauma in International Settings **Credits:** 3
COMM 465 - Communication and Conflict **Credits:** 3
COMM 480 - Intercultural Communication **Credits:** 3
PLAN 215 - World Cities **Credits:** 3
PLAN 660 - Community Development Planning **Credits:** 3
PLAN 740 - Small Community and Rural Area Planning **Credits:** 3
SOCIO 633 - Gender, Power, and Development **Credits:** 3

Sustainability of Natural Resources

AGCOM 712 - Environmental Communication **Credits:** 3
AGRON 205 - Soils **Credits:** 3
AGRON 335 - Environmental Quality **Credits:** 3
AGRON 375 - Nutrient Cycling and Fertilizer Management **Credits:** 3
ATM 558 - Hydrology and Soil Erosion Management **Credits:** 3
ATM 661 - Watershed Assessment and Management **Credits:** 3
BAE 560 - Hydrology for Biological Systems **Credits:** 3
BIOL 263 - Ecology of Environmental Problems **Credits:** 3
BIOL 529 - Ecology **Credits:** 3
CHM 315 - Environmental Science: A Chemistry Perspective **Credits:** 3
GEOG 121 - Introductory Physical Geography: Earth Systems Science **Credits:** 3
GEOG 340 - Natural Resources **Credits:** 3
GEOG 360 - Sustainability Concepts & Issues **Credits:** 3
GEOG 460 - Human Dimensions of Global Change **Credits:** 3
GEOG 761 - Human Impact on the Environment **Credits:** 3
HIST 511 - Environmental History **Credits:** 3
HIST 598 - Topics in Non-Western History **Credits:** 1-3
HORT 790 - Sustainable Agriculture **Credits:** 2
HORT 791 - Urban Agriculture **Credits:** 2
PMC 275 - Introduction to Natural Resource Management **Credits:** 3

Economics and Entrepreneurship

AGEC 515 - Food and Agribusiness Marketing **Credits:** 3
AGEC 525 - Natural Resource and Environmental Economics **Credits:** 3
AGEC 570 - Food Manufacturing, Distribution, and Retailing Economics **Credits:** 3

AGEC 615 - Global Agricultural and Economic Development **Credits:** 3
AGEC 623 - International Agricultural Trade **Credits:** 3
AGEC 632 - Agribusiness Logistics **Credits:** 3
ECON 681 - International Trade **Credits:** 3
ECON 682 - Development Economics **Credits:** 3
ENTRP 520 - Social Entrepreneurship **Credits:** 3
MKTG 325 - International Marketing **Credits:** 3
POLSC 341 - Politics of the World Economy **Credits:** 3
SOCIO 507 - International Development and Social Change **Credits:** 3

Food Production and Processing

ASI 310 - Poultry and Poultry Product Evaluation **Credits:** 2
ASI 361 - Meat Animal Processing **Credits:** 3
ASI 370 - Principles of Meat Evaluation **Credits:** 2
ASI 405 - Fundamentals of Milk Processing **Credits:** 3
ASI 495 - Advanced Meat Evaluation **Credits:** 2
ASI 308 - Dairy Foods Processing and Technology **Credits:** 3
ASI 610 - Processed Meat Operations **Credits:** 2
ASI 640 - Poultry Products Technology **Credits:** 3
ASI 671 - Meat Selection and Utilization **Credits:** 2
ASI 777 - Meat Science and Muscle Biology **Credits:** 3
FDSCI 305 - Fundamentals of Food Processing **Credits:** 3
FDSCI 660 - International Study Experience in Food Science **Credits:** 0-6
FDSCI 690 - Principles of HACCP and Preventive Controls for Human Food **Credits:** 3
FNDH 400 - Human Nutrition **Credits:** 3
FNDH 313 - Science of Food **Credits:** 4
GRSC 150 - Principles of Milling **Credits:** 2
GRSC 151 - Principles of Milling Laboratory **Credits:** 1
GRSC 405 - Grain Analysis Techniques **Credits:** 2
GRSC 602 - Cereal Science **Credits:** 3
GRSC 635 - Baking Science I **Credits:** 2
GRSC 636 - Baking Science I Laboratory **Credits:** 2
GRSC 637 - Baking Science II **Credits:** 3
GRSC 638 - Baking Science II Laboratory **Credits:** 1
HIST 557 - History of American Agriculture **Credits:** 3
HORT 520 - Fruit Production **Credits:** 3
HORT 560 - Vegetable Crop Production **Credits:** 3
HORT 725 - Postharvest Technology and Physiology of Horticultural Crops **Credits:** 3

Total Requirements (24 credit hours)

Leadership Studies Undergraduate Certificate

K-State's certificate in leadership studies focuses on developing knowledgeable, ethical, caring, and inclusive leaders through information sharing and practical experiences. The courses will provide you with an understanding of historic and contemporary theories and models of leadership while exploring the relationship among community service, inclusiveness, ethics, followership, and leadership.

Program requirements

The certificate requires 15 credit hours. Some of these courses may already be part of your major, while others will be courses taken to enhance your program of study. Four core courses are required:

LEAD 200 - Foundations of Leadership of Society **Credits:** 1-3
LEAD 212 - Introduction to Leadership Concepts **Credits:** 2-3 (The 3-hour version of LEAD 212 is required.)
LEAD 213 - Applied Leadership Skills **Credits:** 3
LEAD 350 - Culture and Context in Leadership **Credits:** 3
LEAD 405 - Leadership in Practice **Credits:** 3
LEAD 450 - Capstone in Leadership **Credits:** 3

Additional Requirements

You must earn 3 additional credit hours to complete the certificate from the following list of courses:

AERO 310 - Officer Leadership Studies 3A **Credits:** 3
AERO 311 - Officer Leadership Studies 3B **Credits:** 3
AGEC 318 - Food and Agribusiness Management **Credits:** 3
AGEC 599 - Food and Agribusiness Management Strategies **Credits:** 3
AGEC 610 - Current Agriculture and Natural Resource Policy Issues **Credits:** 3
AMETH 160 - Introduction to American Ethnic Studies **Credits:** 3
AMETH 560 - Topics in American Ethnic Studies **Credits:** 3
ANTH 513 - Immigrant America **Credits:** 3
ARCH 753 - Foundations of Practice **Credits:** 3
ARCH 765 - Advanced Problems in Architecture **Credits:** 1-18
ASI 422 - Livestock Sales Management **Credits:** 0-1
ASI 595 - Current Issues in Animal Science **Credits:** 3
CNRES 531 - Interpersonal Conflict Resolution **Credits:** 3
CNRES 532 - Conflict Resolution across Cultures & Contexts **Credits:** 3
COMM 311 - Business and Professional Speaking **Credits:** 3
COMM 320 - Theories of Human Communication **Credits:** 3
COMM 321 - Advanced Public Speaking **Credits:** 3
COMM 323 - Nonverbal Communication **Credits:** 3
COMM 325 - Argumentation and Debate **Credits:** 3
COMM 326 - Group Communication **Credits:** 3
COMM 425 - Organizational Communication **Credits:** 3
COMM 434 - Rhetoric and Social Movements **Credits:** 3
COMM 480 - Intercultural Communication **Credits:** 3
COMM 525 - Argumentation Theory **Credits:** 3
COMM 535 - Communication and Leadership **Credits:** 3
COMM 545 - Communication in Democracy **Credits:** 3
DEN 325 - Engineering Professionalism and Decision Making **Credits:** 1
DEN 450 - Impact of Technology on Society **Credits:** 3
ECON 640 - Industrial Organization and Public Policy **Credits:** 3
EDCEP 311 - Interaction and Guidance for the Paraprofessional **Credits:** 3
EDCI 315 - Educational Psychology **Credits:** 3
EDSEC 525 - Interpersonal Relations in the Schools **Credits:** 1

GENAG 450 - Citizenship and Ethics in Agriculture **Credits:** 3
GWSS 105 - Introduction to Gender, Women, and Sexuality Studies **Credits:** 3
HDFS 301 - Interpersonal Skills for Helping Professionals **Credits:** 3
IHS 310 - Foundations of Integrative Human Sciences **Credits:** 3
IMSE 501 - Industrial Management **Credits:** 3
LAR 298 - Ethics and Environmental Dilemmas **Credits:** 3
LEAD 213 - Applied Leadership Skills **Credits:** 3
LEAD 251 - Honors Leadership I **Credits:** 3
LEAD 312 - Peer Leader Practicum **Credits:** 0-3
LEAD 320 - Theories of Leadership **Credits:** 3
LEAD 420 - Theories of Nonprofit Leadership **Credits:** 3
LEAD 430 - Women and Leadership **Credits:** 3
LEAD 499 - Nonprofit Organization Internship **Credits:** 3
MANGT 520 - Organizational Behavior **Credits:** 3
MANGT 550 - Organizational Training and Development **Credits:** 3
MANGT 595 - Strategic Management **Credits:** 3
MANGT 596 - Business Ethics and Corporate Citizenship **Credits:** 3
MC 720 - Ethics in Mass Communications **Credits:** 3
MSCI 200 - Self/Team Development **Credits:** 1-18
MSCI 301 - Leading Small Military Organizations I **Credits:** 1-18
MSCI 302 - Leading Small Military Organizations II **Credits:** 1-18
MSCI 401 - Leadership Challenges and Objective-Setting **Credits:** 1-18
PHILO 115 - Introduction to Philosophy of Religion **Credits:** 3
PHILO 130 - Introduction to Moral Philosophy **Credits:** 3
PHILO 135 - Introduction to Social and Political Philosophy **Credits:** 3
PHILO 160 - Introduction to Philosophy of Law **Credits:** 3
PHILO 185 - Engineering Ethics **Credits:** 3
PHILO 330 - Moral Philosophy **Credits:** 3
PHILO 365 - Medical Ethics **Credits:** 3
PHILO 380 - Philosophy and Race **Credits:** 3
PHILO 390 - Business Ethics **Credits:** 3
PHILO 525 - Social-Political Philosophy **Credits:** 3
PHILO 665 - Philosophy of Economics **Credits:** 3
PLAN 115 - Introduction to Regional and Community Planning **Credits:** 3
POLSC 343 - American Foreign Policy **Credits:** 3
POLSC 377 - Introduction to Public Policy **Credits:** 3
POLSC 545 - The Politics of Developing Nations **Credits:** 3
POLSC 606 - Gender and Politics **Credits:** 3
POLSC 661 - Ancient and Medieval Political Thought **Credits:** 3
POLSC 663 - Early Modern Political Thought **Credits:** 3
POLSC 711 - Administrative Ethics **Credits:** 3
POLSC 735 - Public Organization Theory **Credits:** 3
POLSC 754 - The Professional Diplomat and Foreign Policy Formulation **Credits:** 3
PSYCH 520 - Life Span Personality Development **Credits:** 3
PSYCH 560 - Personnel Psychology **Credits:** 3
PSYCH 563 - Gender Issues in the Workplace **Credits:** 3
PSYCH 564 - Psychology of the Workplace **Credits:** 3
PMC 690 - Parks and Recreation Administration **Credits:** 4
SOCIO 510 - Social Welfare as a Social Institution **Credits:** 3

SOCIO 670 - Diversity and Social Interaction in the Workplace **Credits:** 3
SOCWK 510 - Social Welfare as a Social Institution **Credits:** 3
THTRE 265 - Fundamentals of Improvisation I, II **Credits:** 3
THTRE 664 - Creative Drama **Credits:** 3
THTRE 673 - Theatre for Conflict Resolution **Credits:** 3

Total Hours Required: 15

Nonprofit Leadership Studies Undergraduate Certificate

The Certificate in Nonprofit Leadership equips students to serve as nonprofit executives, staff, board members, and more. This certificate will develop capacity for effective leadership in nonprofit organizations regardless of one's career or role in nonprofit work. Students will learn best practices for nonprofit organizations and apply that learning in work with local community organizations. Students pursuing the certificate will engage with nonprofit executive directors, service-learning pedagogy, volunteer and event management experiences, and more. They will also have the option to become Certified Nonprofit Professionals; the nationally-recognized credential from the Nonprofit Leadership Alliance. This 12-credit-hour certificate provides students with the organizational knowledge, interpersonal confidence, and leadership experience needed to make change on the grand challenges facing our world.

Required Courses (9 credit hours)

LEAD 350 - Culture and Context in Leadership **Credits:** 3
LEAD 420 - Theories of Nonprofit Leadership **Credits:** 3
LEAD 499 - Nonprofit Organization Internship **Credits:** 3

Elective Courses (3 credit hours)

Choose from one of the following:

LEAD 212 - Introduction to Leadership Concepts **Credits:** 2-3
ENTRP 340 - Business Innovation and the Entrepreneurial Mindset **Credits:** 3
ENTRP 520 - Social Entrepreneurship **Credits:** 3
HDFS 301 - Interpersonal Skills for Helping Professionals **Credits:** 3
MANGT 220 - Principles of Management **Credits:** 3
MANGT 450 - Non-Profit Management **Credits:** 3
POLSC 307 - Introduction to Public Administration **Credits:** 3

Total Hours Required: 12

University Honors Program

The University Honors Program, or the UHP, encourages students to grow in the intellectual craft of scholarship. Through cultural and performing arts events, skill-development workshops, travel opportunities, and challenging course work, UHP students will increase their intellectual curiosity about the world, its wonders and its complexity. The UHP will challenge students to reach their full potential as scholarly, competent and fulfilled leaders.

Admission requirements

Incoming Freshman:

Admission into the UHP is competitive and based on a holistic evaluation. The UHP will take the following into consideration:

- High School GPA
- SAT/ACT (optional)
- AP/IB / college concurrent courses (optional)
- Activities and work experience
- Completion of the UHP application

All essential components of the application, and optional components when furnished, are used to reach a final decision.

Current K-State and Transfer Student Admission:

Current students and transfer students must meet the following criteria:

- K-State or Transfer GPA of 3.5
- Completion of the UHP application

Students must maintain a 3.5 GPA and make satisfactory progress toward fulfilling program requirements to remain in good standing in the UHP.

Completion requirements

1. Orientation: One (1) introductory course –1 credit

UHP students will complete the following course:

UHP 189 Honors First-Year Seminar. Newly matriculated UHP students select from a variety of sections. Course topics will vary, but each will emphasize intellectual and scholarly engagement as well as introduce students to UHP particulars.

2. Courses: Four (4) for-credit academic courses – 12 credits minimum

At least four UHP-eligible courses must be completed for credit for a minimum of twelve credit hours. UHP students will have the flexibility to choose from a menu of three eligible options:

- UHP-designated courses (e.g., Honors Chemistry, Honors Introduction to the Humanities) that carry course credit.
- Contract courses (i.e., a regular for-credit course where the student and instructor agree upon additional scholarly expectations and outcomes).
- Course credits taken for undergraduate research.

3. Experiences: Three (3) co-curricular experiences and/or additional for-credit academic courses – total credits will vary: no minimum.

This requirement accommodates multiple forms of experimental learning, co-curricular enrichment, and/or additional UHP-eligible coursework. Eligible co-curricular experiences will include items such as study abroad, International Service Teams participation, undergraduate research, internships, participation on a university competition team, and work as a teaching assistant.

The UHP will develop and maintain guidelines for what constitutes a qualifying experience, including a menu of options. Other experiences may also be proposed, pending the approval of the relevant College coordinator and the UHP staff.

In brief, eligible experiences will require students to intentionally reference and integrate knowledge from their curriculum in an applied fashion and involve active accountability (supervision, mentorship, instruction, etc.). Thus, eligible co-curricular experiences are not intended to encompass routine participation or leadership in campus clubs or "student life" activities.

Students may also choose to complete additional UHP-eligible and for-credit academic courses in this category.

4. Project: One (1) independent UHP scholarly project – 0-3 credits.

Students can select one of four tracks to complete their UHP Project. Each track emphasizes integrative, independent learning and skill development.

- Research track – A traditional "honors thesis" where students complete research under the supervision of faculty members.
- International track – Project based upon study or service abroad for a minimum duration of ten weeks.
- Professional track –Project based upon a full-time internship or co-op experience for a minimum durations of ten weeks. Two distinct internships with a single employer may also be used as the basis for a project, provided they total at least ten weeks (with UHP approval granted before the second internship).
- Creative track – Project based upon the creation of original creative work, principally for students in the fine and performing arts for whom artistic production is an essential scholarly activity.

All four tracks will require a significant intellectual product that is supervised and approved by a K-State mentor with appropriate expertise. All proposals and completed projects must also be approved by the mentor, the College coordinator and the UHP.

Project approval must be obtained prior to beginning the proposed project.

Transfer Credit Policy

We encourage high-achieving transfer students to apply for the University Honors Program. To qualify for the program, transfer applicants must have a 3.5 GPA from their transfer institution.

Students may transfer honors courses from another accredited college or university to fulfill some of the Honors Program requirements. At a minimum the following must be completed at K-State:

- At least two courses or co-curricular experiences
- The honors project

The UHP 189 : Honors First-Year Seminar requirement may be satisfied through the transfer of an equivalent course from another institution. Transfer students who have not taken an equivalent course may still take UHP 189 at K-State or, in consultation with the UHP, petition to make an appropriate substitution.

Additional Notes:

- Students may not "double dip" by counting any single course or activity in more than one UHP requirement category.
- In both the "Experiences" and "Project" categories, experiences such as internships, if they are required parts of a student's declared major, may only satisfy a UHP requirement if an additional enrichment and/or intellectual product is agreed upon and verified.
- Transfer students who completed Honors coursework at another institution will have the opportunity to petition the UHP Director to apply those credits towards the completion of UHP course requirements.
- The completion of graduate-level coursework above and beyond the stated requirements of the student's declared major may be counted for UHP credit through the process of course contracting.

College of Veterinary Medicine

Beth Davis, Interim Dean
James Roush, Associate Dean for Academic Programs
Dana Vanlandingham, Associate Dean for Research and Graduate Programs
Priscilla Roddy, Assistant Dean, Administration and Finance
Callie Rost, Assistant Dean for Admissions

101 Trotter Hall
785-532-5660
Fax: 785-532-5884
E-mail: admit@vet.k-state.edu
www.vet.k-state.edu

General Requirements

Admission

Admission into the College of Veterinary Medicine is based upon a competitive process among qualified students who have completed the minimum 64 required hours of pre-professional courses (see pre-professional requirements). Minimum qualifications include a 2.8 GPA or greater average over the pre-professional requirements and over the last 45 hours of undergraduate college work. A grade below a C in a pre-professional requirement is not acceptable.

Personal interviews are required of any student under consideration. Selection is based upon academic achievement and professional potential as determined by grades, interview, application information, references, and GRE scores. Applicants are evaluated on such items as motivation, maturity, communication skills, experience with and knowledge of animals, and experience with and knowledge of veterinary medicine.

From June 1 to October 1, applications for admission to the professional curriculum can be obtained from the College of Veterinary Medicine website.

No applications are accepted after October 1.

Veterinary early admission program

High school seniors with ACT scores of 29 or higher or SAT scores of 1290 (combined critical reading and math scores) or higher are eligible to apply for the veterinary early admission program. An application can be obtained from the College of Veterinary Medicine website. Qualified applicants are interviewed by the admission committee.

Students in this program are guaranteed admission to the DVM degree program following completion of the prerequisites for the DVM degree program at Kansas State University (all classes following graduation from high school must be taken at K-State and a minimum of 3.4 GPA must be maintained).

Pre-professional requirements

The pre-professional work may be pursued at K-State in the College of Arts and Sciences or the College of Agriculture or in other academically accredited institutions.

Listed below are required courses:

Requirements

Course	Course Title	Credit Hours
ASI 500	Genetics	3
BIOCH 521	General Biochemistry	3
BIOL 198	Principles of Biology	4
BIOL 455	General Microbiology (and lab)	4
CHM 210	Chemistry I	4
CHM 230	Chemistry II	4
CHM 350	General Organic Chemistry	3
CHM 351	General Organic Chemistry Laboratory	2
COMM 105	Public Speaking IA	2
ENGL 100	Expository Writing I	3
ENGL 200	Expository Writing II	3
PHYS 113	General Physics I	4
PHYS 114	General Physics II	4
Social sciences and/or humanities		12
Electives		9
Total		64

All science courses (chemistry, physics, biology, and genetics) must have been taken within six years of the date of application. All pre-professional requirements must be graded.

A bachelor of science degree may be granted by the College of Agriculture or the College of Arts and Sciences upon completion of residency and academic requirements. Detailed information should be obtained from the dean's office of the appropriate college.

Fees for veterinary medical students

See the Fees section in this catalog.

Anatomy and Physiology

Johann Coetzee, Head

228 Coles Hall
785-532-5666
E-mail: AP@vet.k-state.edu
www.vet.k-state.edu/depts/ap/

The Department of Anatomy and Physiology presents courses in cell and systemic physiology, gross and microscopic anatomy, pharmacology, and neuroscience for students enrolled in either the veterinary medicine curriculum or graduate school.

Cardiovascular physiology, immunophysiology, neuroscience, and pharmacology—major research themes within the department—are supported with modern research facilities and state-of-the-art research equipment.

Clinical Sciences

E. Davis, Head

A-111-D Mosier Hall
785-532-4890
Fax: 785-532-2252
E-mail: krdrew@vet.k-state.edu
www.vet.k-state.edu/depts/ClinicalSciences

Faculty in the Department of Clinical Sciences provide classroom, clinical and field instruction encompassing the diagnosis, management, and prevention of diseases in individuals and herds of domestic and exotic animals and wildlife. Our educational missions include the instruction of veterinary and graduate students, and of graduate veterinarians including interns and residents, in the disciplines of medicine, surgery, radiology, shelter medicine, theriogenology, anesthesiology, oncology, cardiology, dentistry, dermatology, ophthalmology, exotics, small animal emergency, and epidemiology, to prepare them for careers in private practice, education, industry, and biomedical research. Participation in these fourth-year clinical rotations allows students to interact with clients and faculty specialists in a state-of-the-art teaching hospital setting.

The scholarly activity of this department includes a range of basic and applied research that addresses clinically important problems that may not come to the attention of investigators outside the clinical setting. This kind of research draws upon the interests and experiences—and the daily activities—of the clinical faculty and its trainees, and it makes use of the caseload and other unique resources of the VHC. Research, teaching, and clinical activities in this department occur together and are inseparable.

Diagnostic Medicine/Pathobiology

Derek A. Mosier, Head

K-221 Mosier Hall
785-532-4401
Fax: 785-532-4039
E-mail: chengapa@vet.k-state.edu
www.vet.k-state.edu/depts/dmp/

Courses in pathology, parasitology, bacteriology, virology, immunology, public health, epidemiology, toxicology, and clinical pathology are offered for students enrolled in the veterinary medicine curriculum. Third- and fourth-year veterinary medical students receive practical instruction in clinical laboratory procedures and the interpretation of results of laboratory tests.

Courses in diseases of laboratory animals, wildlife, and fish are offered for non-veterinary undergraduate and graduate students.

The wide variety of research conducted in the department provides new information to enhance animal and human health. Major areas of focus include infectious diseases, immunology, parasitology, environmental toxicology, and diagnostic test development.

The department serves the livestock and companion animal industry by conducting investigational procedures to identify animal disease problems. The department's diagnostic laboratory is nationally recognized as fully accredited with capabilities in all areas of diagnostic medicine by AAVLD.

Accelerated Degree Programs

Accelerated Accounting (BSBA)/Master of Accountancy (MACC)

Accelerated Aeronautical Technology-Professional Pilot (BS)/Aeronautics (MS)

K-State Research and Extension

J. Ernie Minton, Director, K-State Research and Extension and Dean College of Agriculture
Martin Draper, Associate Dean for Research and Graduate Programs
Gregg Hadley, Associate Director for Extension

113 Waters Hall
785-532-6147
www.ksre.k-state.edu

K-State Research and Extension is dedicated to a safe, sustainable, and competitive food and fiber system and to strong, healthy communities, families, and youth through integrated research, analysis, and education.

K-State Research and Extension provides practical, research-based information and educational programs to address critical issues facing individuals, families, agricultural producers, business operators, and communities.

K-State Research and Extension is organized into the following core mission themes; agricultural industry competitiveness; food, nutrition, health, and safety; natural resources and environmental management; youth, family and community development.

One K-State Research and Extension partner, the Kansas Agricultural Experiment Station (KAES), conducts original research both on and off campus. Twenty-four departments in five colleges are involved. K-State Research and Extension is also strongly allied with the Graduate School in training graduate students; interested graduate students are encouraged to seek research assistantships. Many undergraduate students work for K-State Research and Extension, which greatly adds to the classroom experience. Off-campus research is centered at two research-extension centers, two research centers, and 10 experiment fields in various parts of the state.

The other K-State Research and Extension partner, the Cooperative Extension Service, provides an important learning bridge between the university and the people of the state. It applies scientific knowledge, principles, and practices to the grassroots problems of Kansans. At the same time, this unique information delivery system brings back requests for new knowledge to the research staff at the university.

The Cooperative Extension Service staffs four area offices (two operate as part of a Research/Extension Center) and helps maintain local extension offices, staffed by off-campus K-State faculty members, in all 105 Kansas counties.

Extension agents are responsible for conducting educational programs in the core mission themes. The agents serve as a local source of information regarding programs of many states and federal agencies, and then help people apply this information to their specific situation.

Information is published in scientific journals; in station bulletins, extension bulletins, national and international conferences; and in popular journals and news releases to the press and radio and television stations. Requests for station publications should be sent to the Distribution Center, Umberger Hall.

Agricultural Experiment Station

Western Kansas Agricultural Research Centers: Colby-Garden City-Hays
Robert L. Gillen, Head and Professor

Agricultural Research Center-Hays
Professors: Martin, Seifers, and Stahlman
Associate Professors: Harmoney and Kofoid
Assistant Professors: Jaeger and Michaud

Investigations are primarily related to plant and animal systems specific to western Kansas, where rainfall is limited. They include beef grazing, feeding, and breeding studies; crop improvement, with special emphasis on wheat and sorghum; soil management; weed control; plant disease; and insect management.

Northwest Research-Extension Center-Colby
Professor: Lamm; **Associate Professor:** Aiken

Major areas of research are crop improvement; soil management; irrigation; weed control; and horticulture.

Southwest ResearchExtension Center-Garden City and Tribune
Professors: Klocke and Schlegel
Associate Professors: Buschman and Currie

Current investigations involve irrigation research; dryland soil and crop management; crop improvement; weed control; insect and other pest control in crops; soil management; and environmental management for livestock operations.

Southeast Research Extension Center
J.D. McNutt, Head
Professors: Moyer and Sweeney; **Associate Professor:** Kelley; **Assistant Professor:** Long

Research focuses on soil and water conservation; crop improvement; weed control; beef cattle grazing investigations; and forages.

Experiment fields
The Kansas Agricultural Experiment Station includes 11 experiment fields: North Central Kansas (Belleville), Irrigation (Scandia), Sandyland (St. John), South Central Kansas (Hutchinson), Harvey County (Hesston), East Center (Ottawa), and Kansas River Valley Irrigation (Rossville and Silver Lake).

Experimental work is devoted to horticultural and forest crops at three fields: John Pair Horticultural Research Center (Wichita), Pecan Experiment Field (Chetopa), and East Central Horticulture Field (Olathe).

Affiliated agencies

Kansas Water Resources Research Institute
Cooperating with the Water Resources Institute, University of Kansas

The Kansas Water Resources Research Institute conducts basic and applied research on water use and to train scientists in water resources. Representatives of K-State and the University of Kansas participate in institute policy making and research. Research is focused on finding the most effective ways of conserving, using, and distributing available water.

Food Science Institute
Jeanette Thurston, Director

The Food Science Institute facilitates training of undergraduate and graduate students; basic and applied research initiatives; and technical and scientific information transfer to academia consumers, food industry, and governmental agencies. More than 40 faculty are members of the food science graduate faculty. Faculty are located in the Departments of Agronomy; Animal Sciences and Industry; Biochemistry; Chemical Engineering; Communications; Diagnostic Medicine/ Pathobiology; Entomology; Grain Science and Industry; Hotel, Restaurant, Institution Management and Dietetics; Human Nutrition; and Journalism and Mass Communications.

Center for Applied Statistics
George A. Milliken, Director

The Center for Applied Statistics provides consulting services for scientists associated with the Agricultural Experiment Station.

Kansas Center for Agricultural Resources and the Environment
Dan Devlin, Director

The Kansas Center for Agricultural Resources and the Environment (KCARE) is an interdisciplinary research and education unit of K-State Research and Extension whose purpose is to provide focus on environmental issues related to agriculture. The center works with faculty from academic departments to provide coordination and support for research and educational activities in natural resources and environmental management. The center also works to garner financial support for programs and serves as a single point of contact for agencies and organizations outside K-State who have interest in natural resource and environmental issues.

Kansas Center for Sustainable Agriculture and Alternative Crops

KCSAAC is an interdisciplinary center that supports family farms in Kansas through research, education, and outreach programs focusing on production, storage, processing, and marketing technologies that boost small farm profitability, protect natural resources, and enhance rural communities. Examples of activities include evaluating production and marketing of new crops for Kansas, providing educational programs on value-added processing and niche marketing, and providing educational programs on whole farm planning and environmental assessment. KCSAAC was created by the 2000 Kansas Legislature out of concern for the survival of family farms.

Plant Biotechnology Center
John Leslie, Director

The Plant Biotechnology Center links scientists in several colleges and departments who use molecular biology and cell and tissue culture to modify the plant genome. The center's mission is to use biotechnology to add quality and value to Kansas products.

The major emphasis is to develop systems, approaches, linkages, and a knowledge base to apply biotechnology to plant improvement. The goals are to enhance yield and product quality for traditional uses and to explore value-added uses for novel markets.

Projects include activities that are immediately important to Kansas agriculture and that have a high probability of success in a relatively short period of time. They also include a component of basic research that will reach application at a later time. An important consideration is work on Kansas plants and plant products that could be designed to better meet the demands of national and international markets.

Extension Agriculture and Natural Resources

Faculty in the Colleges of Agriculture and Engineering conduct educational programs and provide technical assistance through the county extension network to citizens throughout the state.

Interdisciplinary educational programs are conducted in water quality; natural resource use and conservation; community and economic development; value-added processing and production; food, feed, forage; animal production and utilization; and farm business and financial management.

Agricultural Economics

Allen Featherstone, Head
Glynn Tonsor, State Leader

Farm management
The extension educational program in farm management is divided into two areas: Kansas Farm Management Association programs and area and state farm management programs.

In the Kansas Farm Management Association program, farm management agricultural economists conduct an intensive educational program with approximately 3,000 Kansas farm families in the six farm management associations. The KFMA program website is www.AgManager.info/KFMA.

The extension farm management program is conducted by state specialists and area economists. It is done with in-depth educational programs in cooperation with the county extension agents. The area specialists conduct in-depth workshops in farm business management with farm families, provide a nearby reference resource for agents, and develop educational materials for agent use. Much of the program delivery occurs through our website at www.AgManager.info/KFMA.

Agricultural policy
The public affairs extension educational program provides educational information on policy issues of current interest. Problems are analyzed, alternatives and consequences examined, and the people are challenged to reach decisions.

The economic information program provides current data on factors affecting farming, business and industrial operations, labor supply and demand, and family living costs.

Extension marketing
The main projects of marketing include marketing information, agribusiness, and commodity marketing activities. News releases, monthly teleconferences, publications directed to the general public, and special information directed toward specific agricultural audiences are used to disseminate information.

Extension economic development
Extension economic development assists communities and businesses in development efforts. News releases, publications, and seminars are offered.

Extension local government
The extension local government programs provide direct educational assistance in the areas of structure, management, finance, and policy. The Office of Local Government serves as the primary unit providing outreach programming in this area.

Extension Agronomy

William Schapaugh, Interim Head

Extension agronomy conducts a statewide educational program in agricultural crop production and natural resource conservation. The program is focused on conservation and protection of natural resources through education and technology transfer that results in improved, stable crop production efficiency. The breadth of the program is in understanding the dynamics of crops, weeds, soils, and water on crop and grazing lands, management, and production.

Extension Animal Sciences and Industry

Michael Day, Head
Joel DeRouchey, State Leader

Extension specialists in animal sciences and industry provide leadership for state programs in beef cattle, dairy cattle, horses, poultry, sheep, swine, meats, dairy products, value-added food products, food safety, and wildlife damage control.

Extension Biological and Agricultural Engineering

Joseph P. Harner, Department Head and State Leader
Professors: Harner, Murphy, and Rogers; **Associate Professor:** Taylor; **Assistant Professor:** Wolf; **Emeriti Professor:** Clark, Jepsen, Koelliker, Powell, and Wendling.

Extension agricultural engineering conducts an educational program which relates to engineering principles to agricultural concerns including water management, water quality, waste management, crop and grain management systems, food processing, ag safety, pesticide application equipment, and livestock production facilities.

Community Vitality

Associate Specialist: Menon, Steen, Daniels, Rice; **Emeritus Associate Specialist:** McAdoo.

The Kansas PRIDE Community Improvement Program is a cooperative effort between government, education, and private industry to develop an organizational and leadership structure for community-wide volunteer action. The Kansas PRIDE program is jointly administered by the Kansas State University Cooperative Extension Service and the Kansas Department of Commerce and Housing.

Extension Entomology

Brian McCormack, Interim Head

Extension entomology is concerned with integrated insect and mite management or control for Kansas citizens. Pilot pest management projects are used to introduce and validate integrated approaches to managing pest populations.

Extension Grain Science and Industry

Gordon Smith, Head

Educational efforts target all sectors of the grain industry and include people involved with wheat breeding, production, grain handling, merchandising, processing, baking, feed manufacturing, and regulatory compliance. Two thrusts of this program include grain utilization and processing quality; and flour mill, feed mill, and grain elevator management. Subjects include wheat quality as it relates to milling and baking properties, commercial and on-farm grain storage and quality maintenance techniques, on-farm feed manufacturing, commercial feed processing, grain industry safety and regulatory compliance, plant sanitation, food safety, and grain grading.

Extension Horticulture, Forestry, and Recreation Resources

Steven Keeley, Interim Head
Jason Griffin, State Leader

Programs in extension horticulture and landscaping serve persons interested in fruits, nuts, vegetables, flowers, turf, shrubs, ornamental and shade trees, and forest and riparian management.

Extension Plant Pathology

Meghan Kennelly, Interim Head
Douglas J. Jardine, State Leader

Plant pathology extension specialists provide information about the occurrence and nature of plant diseases and the economic means for their control.

Youth, Family, and Community Development

Community Development

VACANT, Extension PRIDE Program Coordinator
Associate Specialists: Rice; **Emeritus Professor:** Frazier; **Emeritus Associate Specialist:** McAdoo.

An educated and knowledgeable citizenry is the foundation of our state's economic productivity, democratic charter and social system.

K-State programs inform and help people through research and extension build strong, healthy communities.

4-H Youth Development

Professor: Weber; **Associate Professor:** Potter, Jepsen, Seay; **Associate Specialist:** Wiebers; **Instructor:** Van Horn; **Extension Associate:** Hecht; **Emeriti Professors:** Apel, Bates, Busset, and Eyestone; **Emeriti Associate Professors:** Borst and Salmon.

The 4-H youth development program is a community of young people across Kansas who are learning leadership, citizenship and life skills. Utilizing a variety of delivery methods and trained volunteers, young people ages 7-19 are involved in hands-on learning experiences. Program priorities include science and technology, healthy lifestyles, and youth citizenship.

Family and Consumer Sciences

Family Studies and Human Services

Sonya Lutter, Head
Assistant Professor: Johannes; **Emeritus Professor:** Bradshaw.

Extension programs address a wide range of issues that help strengthen families and youth across Kansas. Programs teach families about financial planning, parenting, family communication, health, and aging issues.

Food, Nutrition, Dietetics, and Health

Mark Haub, Head
Tanda Kidd, Extension State Leader
Professor: Medeiros; **Associate Professor:** Higgins; and **Assistant Professor:** Kidd.

Healthy eating and physical activity education across the lifespan is available through local extension offices in Kansas. Food, nutrition, dietetics, and health faculty lead programming for nutrition for pregnancy, infants, children and youth, adults, and seniors. All of these include programming for limited resource families and individuals.

Services and Facilities

Communications

Jason Ellis, Head

In addition to its teaching and research program, the Department of Communications provides comprehensive communications and computer-based technology support and consultation for all offices, departments, and centers in K-State Research and Extension and the College of Agriculture.

Our faculty have professional experience in editing and producing publications, creating graphic design, writing news releases, producing radio and television news and features, managing information systems, training to enhance communication and technology software skills, and duplicating and distributing educational materials.

Extension Field Operations

James L. Lindquist, Associate Director
Professor Emeriti: Cox and Van Meter; **Associate Professor Emeriti:** Albright and McReynolds.

The Extension Field Operations office provides leadership as a resource and support to the area director team. It provides leadership for organizational guidelines, policy and centralized functions in support of out-state local operations, and professional development of effective boards and councils.

Northeast Regional

Chris Onstad, Regional
Professor: Duncan; **Instructors:** Flaming-Jackson, Graber, and Mack; **Instructor Emeriti:** Christian and Domsch.

Northwest Research-Extension Center

Aliesa Woods, Regional Director
Associate Professors: Barker, Johnson, O'Brien, and Olson; **Instructors:** Falk; **Assistant Professor Emeriti:** Mikesell and Overley; **Director Emeritus:** White.

Southeast Research-Extension Center

J. D. McNutt, Director
Professor: Price; **Instructor:** Hinshaw; **Assistant Professor:** Shoup; **Professor Emeriti:** Brazle, Kilgore, Lippert, Robbins, and Westmeyer; **Associate Professor Emeritus:** Appleby; **Instructor Emeriti:** George and Stephens.

Southwest Research-Extension Center

Mary Sullivan, Director
Professor: Sloderbeck; **Assistant Professors:** Martin and Waggoner; **Instructors:** Dumler and Sollock; **Professor Emeriti:** Mann, Hartman, and Young; **Instructor Emeriti:** Frisbie.

Local Extension Offices

There are extension offices in each of the 105 counties.

Academic Advising

Undergraduate Academic Advising Responsibilities

Kansas State University is committed to providing effective academic advising to students as an essential component of their educational experience.

Students are assigned to an academic advisor in their academic college or department and required to meet with their advisor each term prior to enrollment. Academic advising is a collaborative process where both the student and advisor share responsibility for the student's academic planning and progress towards achieving their academic goals. Academic advisors adhere to FERPA in protecting the student's academic information, confidentiality, and privacy.

In accordance with the Kansas Board of Regents academic advising policy, effective advising is central to the mission of the Board of Regents. To ensure that all students have access to high quality advising, each state university shall establish an Academic Advising System which shall provide the following:

Goal setting. Academic advisors will assist students in setting both short-term and long-term educational goals.

Information. Inform students of the graduation requirements of their department, help with strategic course selections so as to minimize the number of semesters required for graduation, and inform students of career opportunities in their field of study.

Transitions. Inform students how to change colleges and/or departments and provide information to explain the process students follow to enroll in their curriculum and to drop or add courses during the semester.

Accessibility. Have reasonable hours and methods of availability for students. Students should be able to set up appointments for an adequate amount of time to make curricular selections and career choices.

Referral to campus resources. Be able to refer students to various campus resources, including but not limited to: Academic Achievement Center, Counseling & Psychological Services, Career Services, and Student Access Center.

Provide information to students to inform them of their responsibilities in the Academic Advising process.

The university will train academic advisors to assist them in meeting the responsibilities of the policy.

Students are ultimately responsible for fulfilling all the requirements of the curriculum in which they are enrolled. Students share responsibility for a successful university experience and are expected to contribute to effective advising sessions by:

Participating in orientation programs, providing standardized test scores, as required by Kansas Board of Regents policy, and providing an accurate academic history that aids in course selection decisions.

Working with an advisor to develop and implement both short- and long-term educational and career goals.

Knowing academic policies and procedures, academic calendar deadlines, and degree or program requirements.

Consulting with an advisor when necessary and following through on recommendations.

Scheduling and keeping appointments with an advisor. Coming prepared for appointments by bringing appropriate materials, identifying course choices from requirements of the preferred program or major, and identifying questions to address.

Informing an academic advisor of any special needs, deficiencies, or barriers that might affect academic success.

Remaining informed of progress in meeting academic requirements, carefully maintaining academic records, and seeking assistance to resolve any errors or questions.

Exploratory Advising

Exploratory Advising is chosen by students who are in the process of deciding on a major or transitioning between majors.. With over 200 programs and majors at K-State, many students initially declare Exploratory Advising while deciding which program best fits their talents and interests. Students work closely with exploratory advisors to explore academic interests, majors and careers to develop a sound program of study. Exploratory advisors help students with the active decision-making process required to choose a major. These advisors are housed in the Pre-Professional and Exploratory Advising Center within the Division of Academic Success and Student Affairs.

Exploratory Advisors are available to assist students with more than 60 hours who are in transition and need assistance exploring alternative major and career pathways.

See the College of Arts and Sciences Open Option section for details.

Pre-Law Advising

K-State Pre-Law is a **non-degree designation** that supplements any field of study. This designation is added to a student's academic plan and will be reflected on their transcript. Pre-Law has **no required coursework**.

After adding Pre-Law to their plan, students are assigned a Pre-Law advisor in addition to their major advisor. The Pre-Law advisor provides assistance and support to help create a competitive application for admission into law school. This includes providing a **robust program of experiences** to expose students to a wide variety of legal career options and help students start building their legal network.

Additional information about Pre-Law Advising can be found on the Pre-Professional and Exploratory Advising Center website.

Pre-Health Advising

Whether students are interested in a career in human or animal health, K-State is a great place to start the journey toward becoming a healthcare professional. Pre-Health Advisors help students become competitive applicants to professional schools that will prepare them for the following health careers:

- Pre-chiropractic medicine
- Pre-dentistry
- Pre-medicine
- Pre-nursing
- Pre-occupational therapy
- Pre-optometry
- Pre-pharmacy
- Pre-physical therapy
- Pre-physician associate (formerly physician assistant)
- Pre-veterinary medicine

Some professional schools require a bachelor's degree before matriculation. Even if a degree is not required, some students may wish to earn a bachelor's degree from K-State before going on to professional school.

Students who require or wish to complete a bachelor's degree before going on to professional school must declare a major. No specific major is preferred over another by professional schools, so students should choose a major based on their academic interests. A major may be chosen from any undergraduate college at Kansas State University. *Pre-health students who declare a major will have a pre-health advisor and an advisor for their undergraduate major.*

International Programs

304 Fairchild Hall
785-532-5498
E-mail: oip@k-state.edu
www.k-state.edu/oip

The mission of the Office of International Programs is to lead the internationalization of Kansas State University by supporting and collaborating with faculty, students, and scholars in international education and research worldwide.

Building upon several decades of international involvement, K-State provides a range of programs that link the campus with other parts of the world. Many of these are coordinated through individual departments or colleges; others serve the whole university.

The Office of International Programs supervises the Education Abroad Program, the English Language Program, the International and Scholars Services unit, and provides a range of services and support to faculty and students.

Education Abroad Program

Katelin Christianer-Donkers, Director
Brent Holliday, Assistant Director
304 Fairchild Hall
785-532-5990
www.k-state.edu/studyabroad

Education Abroad is the first stop for students planning to study, volunteer, intern, or research abroad. We offer a variety of academic programs that prepare students for success in an increasing global society. Programs range from short term faculty-led and group programs to individual summer, semester, and academic year opportunities. Programs are available in Africa, Asia, Australia, Europe, North America, and South America. With over one hundred programs worldwide, students are able to find a program that matches their needs and interests. Exchange programs involve reciprocal partnerships with universities abroad that allow students to attend partner universities while paying K-State, in-state tuition and education abroad fees to K-State. Additional program options are available through direct enrollment and affiliated program providers. Faculty-led programs are education abroad courses taught internationally by K-State faculty and are coordinated by Education Abroad in cooperation with the academic departments.

Federal Financial Aid and most scholarships can be used towards education abroad. Education Abroad encourages students to apply for local and national education abroad scholarships in addition to the scholarships available through the Education Abroad. Select scholarships for education abroad are listed below:

Education Abroad Scholarships

Scholarships available through the *Office of International Programs/Education Abroad* include:

Goss Discovery Scholarship
Megan E. Taylor Czech Republic Student Award
Duane and Shirley Acker International Scholar Award
The Catherine Joyce Memorial Scholarship

Doris Hays Fenton Memorial Scholarship
The Heather Stewart Memorial Scholarship
Mary Lynn Manning Study Abroad Scholarship
Rodolfo J. Montes de Oca/Costa Rica Small Town International Scholarship
The Vernon Larson Study Scholarship
Veronica Bonebrake International Scholarship

Scholarships available through *other offices* include:

College of Agriculture International Study Scholarship
117 Waters Hall

College of Business Administration - Larry and Patricia Kendall Study Abroad Scholarship
107 Calvin Hall

College of Health and Human Sciences International Study/Service Scholarships
119 Justin Hall

Blue Key
103 Leadership Studies

Department of Modern Languages Scholarships (language majors only)
104 Eisenhower Hall

Gilman, Boren, Fulbright, and Critical Languages Scholarship
Beth Powers
215 Fairchild Hall

Office of International Programs (OIP)

Grant Chapman, Associate Provost
304 Fairchild Hall
785-532-5498
E-mail: oip@k-state.edu
www.k-state.edu/oip

The mission of the Office of International Programs is to lead the internationalization of Kansas State University by supporting and collaborating with faculty, students, and scholars in international education and research worldwide.

Building upon several decades of international involvement, K-State provides a range of programs that link the campus with other parts of the world. Many of these are coordinated through individual departments or colleges; others serve the whole university.

The Office of International Programs supervises the Education Abroad Program, the English Language Program, and the International Student and Scholar Services unit, and provides a range of services and support to faculty and students.

International Student and Scholar Services (ISSS)

Stacey Bailey, PhD, Director
Bogi Daviews, Associate Director

2012 Tunstall Cir., Building 7, Manhattan, KS 66502
785-532-6448
Fax: 785-532-6607
E-mail: isss@k-state.edu
www.k-state.edu/isss

The staff at International Student and Scholar Services (ISSS) provide vital services for K-State's around 2,500 international students, scholars, and their families. This includes advice on U.S. immigration regulations, support during their stay in the U.S., third-party sponsored student support, and cultural programs. The staff assists them with visa and passport issues, work authorization, entry and exit documentation, certification of status forms, housing, programming and personal concerns. ISSS also offers assistance to faculty and departments wanting to bring international scholars to the United States. Additionally, the staff serves the entire campus as a resource on international student and scholar issues. The office operates under the Office of International Programs and works with all facets of the University to implement and support both the goals of each student and scholar and the goals of the University in international education. Staff members provide leadership and support for a variety of programs that promote global awareness and understanding.

Admission Information for Undergraduate International Students

Admission Information for Graduate International Students

International Student and Scholar Services

English Language Program

Ketty Reppert, Director
Leena Chakrabarti, Associate Director of Student Services

205 Fairchild
1601 Vattier Street
Manhattan, KS 66506
785-532-7324
E-mail: elp@k-state.edu
www.k-state.edu/elp

The English Language Program (ELP) assesses English language proficiency and offers intensive English courses primarily for international students who plan to enter degree programs at K-State. However, it also accepts students who wish to come for English instruction only.

The program offers five levels of full-time intensive English along with advanced part-time courses specifically for students who need support in English while taking classes in their degree field.

International undergraduate applicants: For other information, write or e-mail the English Language Program at the addresses above.

International Curricula

Students seeking to enrich their college experience and enhance their personal and professional development may take advantage of several interdisciplinary international education opportunities. International travel scholarships are offered by the college and departments.

College of Agriculture

Don Boggs
117 Waters Hall
785-532-6151
Fax: 785-532-6897
E-mail: dboggs@k-state.edu
www.ag.k-state.edu

The College of Agriculture offers opportunities for international travel through faculty-led study tours, summer exchange programs, semester abroad program, and summer internships in other countries. Scholarship or grant support is provided for all College of Agriculture students who travel internationally to study topics related to their major. A minor in international agriculture is available to students with agricultural majors. The minor requires a combination of language, international course work, and experience abroad.

College of Agriculture International Scholarships

Contact: Don Boggs 785-532-6151

- Boggs International Agriculture Scholarship
- Brown International Travel Award
- Galle International Agricultural Scholarship
- Lewis International Study Scholarship
- Morgan Family International Study Scholarship
- Stunkel International Travel Award Honoring Fred Cholick

College of Arts and Sciences

Robert Clark, Director International and Area Studies
014A Eisenhower Hall
785-532-1988
Fax: 785-532-7004
E-mail: ias@k-state.edu
www.k-state.edu/ias

The College of Arts and Sciences offers two international, interdisciplinary secondary majors and two minors to undergraduates in any college: International Studies secondary major and Latin American Studies secondary major, East Asian Studies minor and African Studies minor. For more information, reference to these programs select either or find them listed in Colleges and Departments.

College of Business Administration

Student Services
107 Calvin Hall
785-532-6180
Fax: 785-532-7809
E-mail: cbastusv@k-state.edu
www.cba.k-state.edu

The College of Business Administration offers several opportunities to its students to learn about global business issues and practices as they prepare to meet the future challenges in the global marketplace. In addition to study abroad programs and faculty-led trips abroad, business students can earn a Certificate in International Business offered by the College of Business Administration or earn a secondary major in International Studies offered by the College of Arts and Sciences. Scholarships are often available for business students who travel internationally to study topics related to their major.

International Service Teams

Kaitlin Long, Program Coordinator and Instructor
1300 Mid-Campus Drive N
Manhattan, KS 66502
785-532-6085
Fax: 785-532-6896
E-mail: KaitlinL@k-state.edu
http://www.k-state.edu/leadership/programs/serviceteams/internationalteams/

Since 1989, K-State has supported interdisciplinary teams of undergraduate students in service-learning experiences abroad. These teams work alongside community partners on locally organized and run community initiatives. The International Service Teams, a program of the Staley School of Leadership Studies, currently partners with community organizations in South Africa, the Dominican Republic, Kenya, Paraguay, and The Gambia. Participants apply and are selected in the fall semester prior to the summer experience; they enroll in a spring semester preparatory course before departing for an eight to ten week engaged service-learning experience during the summer. Students work with local community partners and are involved with ongoing reflection during their time abroad. Upon return to Kansas State, they participate in a reflection course to process their learning experience and plan for future action.

Services for Students

Academic Achievement Center

101 Holton Hall
785-532-6492
www.k-state.edu/aac

The Academic Achievement Center serves as the free academic support package for all K-State learners. We ensure that all learners have the opportunity for academic success by providing guidance through the learning process. Academic Coaching, Tutoring, and Success Tools are available both in-person and virtually.

Academic Coaching

Academic coaching is designed to support students in developing the skills and strategies necessary to achieve their academic and personal goals. Our Academic Coaches guide students to create and achieve an academic success plan that focuses on what they want to achieve. Any student can schedule an appointment or drop-in to meet with an Academic Coach.

Tutoring Services

Peer tutors facilitate the learning process through the development of a student's ability to learn by asking engaging questions, providing challenge alongside support, and teaching students the skills they need to succeed.We focus on the success of the learning process as a whole not just the end result. Tutoring Services offers two types of support. **Content Tutoring** is peer assistance in a specific course you're enrolled in while **Study Skills Tutoring** develops key skills and strategies to be successful in college. Both **Content** and **Study Skills** are available via drop-in and appointment.

Success Tools

Success Tools are available for students to independently explore different strategies to improve time management, study skills, note-taking, and more. Success tools are available in-person and downloadable on the AAC website.

Career Center

Kerri Day Keller, Executive Director
148 Berney Family Welcome Center
705 N. Martin Luther King Jr Drive
785-532-6506
E-mail: careercenter@k-state.edu
www.k-state.edu/careercenter/

The Career Center facilitates the career readiness of students throughout the K-State community. The Career Center offers job search training, career advising, employer connections, and a staff dedicated to assisting students in the career development process. Gain an advantage by attending K-State career fairs, interviewing on-campus with employers or enrolling in credit-based courses for internship experiences.

Stop by the Career Center to:

- Schedule an appointment for personalized job search assistance.
- Shop our Career Closet and prepare for interviews.
- Drop in to get a resume critique or ask a quick question.
- Find job listings online (part-time, internship/co-op, and full-time).

See additional in person and online materials such as salary information, graduate school information, and other career advisor recommended resources.

Handshake is a free service for students to search for jobs and internships, make their resume visible to employers, learn about interview opportunities and find employer contact information to enhance their professional network.

Alcohol and Other Drug Education Service

Lafene Counseling and Psychological Services
785-532-6927
Fax: 785-532-3932
E-mail: counsel@k-state.edu
Web page: https://www.k-state.edu/lafene/services/alcohol-education/

The Alcohol and Other Drug Education (AODE) Service offers timely and accurate information on the physical effects and social issues related to alcohol and other drug use and abuse. Campus services provided include alcohol/drug information; basic assessment and intervention assistance; individual counseling for alcohol and other drug issues; professional referral resources, and educational presentations.

Cats' Cupboard

Shelly Williams, Morrison Family Director

1021 Denison
785-532-0367
www.k-state.edu/cats-cupboard

Cats' Cupboard – The Kansas State Food Pantry provides direct access to a variety of perishable and non-perishable foods, hygiene products, and gently used kitchen supplies. Located at 1021 Denison in a newly renovated facility that opened in Fall 2023. Open Monday through Thursday 10am-6pm and Friday 10am-2pm. Active K-Staters (full/part-time students, staff/faculty, and visiting scholars) are welcome to shop. Take what you need, give what you are able, and be mindful of your fellow Wildcat!

Center for Advocacy, Response, and Education (CARE)

206 Holton Hall
785-532-6444
Fax: 785-532-6457
E-mail: ksucare@k-state.edu
www.k-state.edu/care

The Center for Advocacy, Response and Education (CARE) is a safe space for any member of the K-State community who has been affected by dating, domestic, and sexual violence, stalking or harassment to receive confidential services. CARE collaborates across identities and sheds light on the realities of psychological emotional, financial, physical and sexual forms of violence. CARE challenges the campus community to join us in advocating for positive social change while addressing the influences and social patterns that lead to interpersonal violence and other forms of oppression.

Cooperative Houses

Smurthwaite Leadership/Scholarship House

1500 North Manhattan Avenue
Manhattan, KS 66502-4695
785-532-6453
E-mail: housing@k-state.edu
www.housing.k-state.edu

The Smurthwaite Leadership/Scholarship House is a unique cooperative living option for women interested in a focused leadership experience. Smurthwaite is located on the east side of campus and houses approximately 46 women. This vibrant community emphasizes academics, leadership, campus involvement and community service – the four pillars of Smurthwaite.

Smurthwaite residents pay a lower rate for room and board while assisting with the day-to-day operation of the house, such as front desk duty. Residents are required to maintain a 3.0 cumulative GPA, be involved in on-campus clubs, participate in philanthropy and volunteer activities, and attend Smurthwaite-sponsored programs and house meetings.

Those who wish to live in Smurthwaite complete the Residence Hall Contract. On the contract the student can indicate their interest in living in Smurthwaite and also complete the Smurthwaite Interest form available in the contract confirmation email. Students invited to live in Smurthwaite will complete a contract addendum prior to move in.

Lafene Counseling and Psychological Services (CAPS)

1105 Sunset, Rm. 101
Phone: 785-532-6927
Fax: 785-532-3932
E-mail: counsel@k-state.edu
www.k-state.edu/counseling

OFFICE HOURS: Throughout the academic year, CAPS is open Monday through Friday from 8:00 am to 5:00 pm. During all academic breaks, including summer, CAPS is open Monday through Friday from 8:00 am to 12:00 pm and 1:00 pm to 5:00 pm.

WHAT WE DO:

Kansas State University Counseling and Psychological Services (CAPS), in support of the overall mission of the University, provides high-quality professional services to help all students meet their full potential – personally, academically, and socially. Within an accepting, sustaining, and compassionate setting, CAPS provides professional resources to attend to our students' psychological needs by promoting wellbeing, alleviating concerns, facilitating problem resolution, and enhancing their success. We see students with a wide range of concerns from difficulty adjusting to college to more serious mental health issues. When students' needs are beyond the scope of our services, we offer options in the community.

As professional staff, we value our campus community and empower students to improve their mental health. We are committed to ethical and competent treatment consistent with our training, experience, and K-State's mission as a land-grant university. Our services are available to all enrolled students who have paid the student services fee included in their tuition bill.

While appropriately protecting confidentiality, we work collaboratively with other entities, both on and off campus, to foster a safe and healthy environment. During critical events, we are ready to offer timely response to campus through consultation, outreach, and follow-up to reduce trauma and promote resolution.

Confidentiality means that your contact with this office is not part of your academic records, and clinical information will not be disclosed to any other office or individual unless you have given us written permission, or there is a legal mandate, to do so. CAPS staff is exempt from Title IX and therefore, they do not report crimes that include sexual violence (including rape, sexual assault, and sexual harassment) to university officials.

OUR STANDARDS: CAPS staff, including those in the APA-accredited Internship in Health Service Psychology, adhere to the appropriate ethical code for our respective professions, such as the American Psychological Association, American Associate for Marriage and Family Therapy, American Counseling Association, and licensing/legal standards for our professions.

FEES: CAPS is funded in part by the student service fees. Students receive free services for therapy, while a nominal fee is charged for additional services such as ADHD assessments. Contact our office by phone for more details.

Student Belonging

Mirta Chavez, Assistant Vice President
785-532-6276
E-mail: mirta@ksu.edu
https://www.k-state.edu/academic-success-student-affairs/about/belonging/

Fostering mutual understanding among all students, faculty, and staff helps create a campus atmosphere where every student feels they belong. Meet new people and celebrate your unique identity. Attend events and gain access to resources designed to help you thrive.

As part of the Division of Academic Success and Student Affairs (DASSA), we work to provide an impactful and holistic K-State experience by closely aligning student life resources with academic support programs and services. Student Belonging partners across all sectors of the university to foster an atmosphere in which all students are supported, celebrated, and included.

Student Engagement & Belonging

Morris Family Multicultural Student Center

785-532-6284
Morris Family Multicultural Student Center (k-state.edu)

The Morris Family Multicultural Student Center is your hub for intercultural learning and collaborative initiatives. The Center is open to all. Located immediately east of the K-State Student Union, the Center offers an opportunity for people of all cultures, backgrounds, and identities to explore their cultural origins, engage in meaningful cross-cultural interactions and broaden perspectives. The Center enriches our learning environment and fosters a supportive, welcoming atmosphere that promotes student academic success and personal empowerment, and contributes to the overall culture of K-State and Manhattan communities.

Spectrum Center

Mariya Vaughan, Interim Coordinator
207 Holton Hall
785-532-5352
E-mail: spectrum@k-state.edu

K-State's Spectrum Center

The Center provides support, workshops, scholarships, events, and representation of the LGBTQ campus community to engage in multiple platforms to advance learning around intersectional identities through educational presentations, student supports, and committee representation. The Center provides support to students and their organizations, such as the Sexuality and Gender Alliance (SAGA), Gender Collective, and STEM at K-State.

Educational Supportive Services Manhattan and Student Support Services Salina

Eric Thompson, Director
103 Holton Hall
785-532-5642
Fax: 785-532-6457
E-mail: ess@k-state.edu
www.k-state.edu/ess

Income limited students and first-generation college students are assisted in setting and attaining realistic educational goals and are provided information about graduate-level educational opportunities. Students admitted and enrolled at K-State are offered

educational supportive services including study skills and academic enrichment program courses, academic pre-advising, individualized tutorial assistance, and a variety of referral services. Both programs are funded through a federal TRIO grant.

Graduate Student Council

Graduate Student Council (GSC) is the student organization representing graduate students from all academic disciplines at Kansas State University. Any organization with graduate student membership is invited to participate in the council and council activities are open to all graduate students.

GSC is a highly active student governing board for graduate students. GSC provides students with professional development, networking and leadership opportunities. GSC awards students travel grants to present their research and scholarly work at professional meetings and to attend conferences. Students participate in a variety of networking events sponsored by GSC and other graduate student organizations.

- The council meets on the first Monday of every month.
- The Graduate Student Council is funded mainly the Student Governing Association from the Graduate Student Activity Fee.
  - Access the GSC constitution (PDF).
- You must register your organization each year to remain active with the Graduate Student Council.

Leadership Opportunities

There are various ways to get involved with Graduate Student Council. Every council member is encouraged to serve on a committee, including the Allocations Committee, GRA/GTA/GA Affairs Committee, International Affairs Committee, Research Forum Planning Committee, and Ice Cream Social Planning Committee. Members also publicize GSC events and help maintain the website. Council officers are elected during the spring semester. Officers include the president, president-elect, secretary, and treasurer. All graduate students are encouraged to participate in the council activities. Membership in the standing committees are open to all graduate students.

Professional Development

GSC strives to provide informational meetings, workshops and forums that enhance the professional development of graduate students. The council promotes interdisciplinary activities to enrich graduate students' education beyond their own disciplines. The council also sends out information on various seminars held across campus every week to the Council members, to be shared with their graduate student groups.

If you have any questions, contact the GSC officers: egsc@k-state.edu.

Housing and Dining Services

Derek Jackson, Associate Vice President for Community, Dir. of Housing and Dining Services
104 Pittman Building
1531 Mid Campus Dr. North
1-888-568-5027 (toll free)
785-532-6453
Fax: 785-532-6855
E-mail: housing@k-state.edu
www.housing.k-state.edu

The university requires all incoming Manhattan campus first-year K-State students to live on campus during their first two semesters. As part of a residential community, students have a sense of belonging and an avenue for involvement, as well as many opportunities for interaction with other students and university staff. Furthermore, the opportunity to participate in organized social, athletic, and educational events contributes to overall academic success.

More than 5,000 students call our campus home. With ten residence halls, one leadership/scholarship house for women, a house for honors students and a large apartment community to choose from, Housing and Dining Services has something for everyone.

Residence Halls

K-State residence halls have a long-standing tradition of providing a living and learning environment that encourages personal growth and academic success. It is for this reason that residence hall living is required for a student's first year and recommended for a student's second year at K-State, and that many upper-division students decide to remain in the halls.

In this ideal transition from home to school, students benefit from direct access to helpful staff, dining service, tutoring programs, technical support, on-site laundry facilities, leadership opportunities and more. They're close to classes, and living among fellow students provides many opportunities to develop lifelong friendships.

A student can submit a Housing Information Request form in mid-September. This form notifies Housing and Dining Services that this student would like to receive more information about the upcoming contract process. In early December the student will be able to complete the Residence Hall Contract and submit a contract payment which includes a $30 non-refundable processing fee and a $200 initial contract payment. The cost of the contract is determined annually, and following an initial payment, the remaining balance due will be billed to the student's KSIS account.

Jardine Apartments

Jardine apartments provides on-campus apartment living for students who are upper division, graduate, nontraditional, married (with or without children) or single parents.

This unique apartment community offers a wide variety of floor plans to choose from. Different price points include options in modern, highly renovated, renovated and traditional apartments. Also in Jardine is the Hybrid Option, which allows students to rent space at Jardine by the bedroom. Activities help residents get involved and stay connected, and a trained professional staff, including a 24-hour maintenance crew, is available to assist residents. Residents have the benefit of an on-site sports grill, coffee shop, and laundry facilities.

Housing and Dining Services begins accepting applications for Jardine apartments in mid-September. The student will indicate on the application the preferred apartment types and whether roommate(s) or family members will also reside in the apartment and submit the $30 non-refundable processing fee.

Apartment selections for the fall semester typically begin the first week of March. Applicants will be notified by email prior to March when their specific apartment selection time will begin. Applicants can log in to the Resident Portal and view all of the currently available apartments and select the apartment of their choice.

To secure the apartment, the student must complete the Jardine Agreement and submit a $400 deposit payment.

Smurthwaite Leadership/Scholarship House

The Smurthwaite Leadership/Scholarship House is a unique cooperative living option for women interested in a focused leadership experience. Smurthwaite is located on the east side of campus and houses 46 women. This vibrant community emphasizes academics, leadership, service, friendship and equity — the five pillars of Smurthwaite.

Smurthwaite residents pay a lower rate for room and board while assisting with the day-to-day operation of the house, such as front desk phone duty. Residents are required to maintain a 3.0 cumulative GPA, be involved in on-campus clubs, participate in philanthropy and volunteer activities, and attend Smurthwaite-sponsored programs and house meetings.

Those who wish to live in Smurthwaite complete the Residence Hall Contract. On the contract the student can indicate their interest in living in Smurthwaite and complete the Smurthwaite Interest form available in the contract confirmation email. Students invited to live in Smurthwaite will complete a contract addendum prior to move in.

Academic Initiatives

On-campus living environments offer individualized academic support to residents through trained staff, programming and faculty involvement. Computer stations, study spaces, workshops and more help improve academic skills and make the residence halls a great environment for learning and academic success.

Residential CAT Communities

Residential Connecting Across-Topics (CAT) Communities are a set of learning communities specifically created for first-year students. A group of 22 students with similar interests take classes, live, eat and study together in the residence halls. The communities offer mentoring from a professor and an advanced undergraduate Residential Learning Assistant who also lives with the students. This is a great way for students to make connections and quickly become an active part of life on campus.

Leadership and Involvement Opportunities

Hall Governing Boards, the Jardine Residents' Council, and floor governments plan and implement intramural events; community service projects; educational, cultural and social programs and more. Judicial boards provide an opportunity for students to address one another regarding policy violations that impact the community. The Kansas State University Association of Residence Halls plans hall-related events and works closely with hall representatives to develop and implement policies that promote respect and acceptance among all residence hall students. The Little Apple Chapter of the National Residence Hall Honorary recognizes the top 1 percent of residents who have contributed outstanding service and leadership in the residence halls while demonstrating academic excellence.

International Student and Scholar Services (ISSS)

Dr. Sara Thurston, Director
104 International Student Center
785-532-6448
Fax: 785-532-6607
E-mail: isss@k-state.edu
www.k-state.edu/isss

The staff at International Student and Scholar Services (ISSS) provide vital services for K-State's around 2,500 international students, scholars, and their families. This includes advice on U.S. immigration regulations, support during their stay in the U.S., and cultural programs. The staff assists them with visa and passport issues, work authorization, entry and exit documentation, certification of status forms, housing, programming and personal concerns. ISSS also offers assistance to faculty and departments wanting to bring international scholars to the United States. Additionally, the staff serves the entire campus as a resource on international student and scholar issues. The office operates under the Office of International Programs and works with all facets of the University to implement and support both the goals of each student and scholar and the goals of the University in international education. Staff members provide leadership and support for a variety of programs that promote global awareness and understanding.

ISSS is housed in the International Student Center which is composed of three building that have been completely funded by private gifts to K-State. The Taiwan Wing houses most of the staff. The Korean Room houses the director's office and office meeting space. The Center provides a comfortable relaxed atmosphere where people can meet or attend various programs. It includes a multipurpose meeting room, kitchen, reading lounge, and small classroom. Rental of the facilities is available.

Kirmser Language Center (KLC)

01 Eisenhower Hall
785-532-6760

Making learning enjoyable...if you are a faculty, or a student enrolled in a language course, come on in! You are invited to the Kirmser Language Center. We will provide you audio, video, and computer multimedia services for both undergraduate and graduate level courses within the Department of Modern Languages. The KLC currently serves about 1,250 students each semester, and offers a variety of resources. The Kirmser Language Center is the location for students to have their language skills tested prior to enrolling in most language courses.

K-State Student Union

Erik Kahl, Executive Director
K-State Student Union
Director's Office, Union 214, Second Floor

Fax: 785-532-6565
E-mail: union@k-state.edu
union.k-state.edu

Union Mission Statement: **The K-State Student Union**

To serve all, especially students, with facilities that provide services, programs, leadership experiences and educational opportunities which foster a sense of well-being, belonging and community.

Since opening its doors in 1956, the Union has been the host to the campus and the community. The Union plays an integral role in the educational mission of the university and its diverse programs and services are supported by student fees and generated revenue. The Union is the exciting hub of campus life and provides a gathering place and a common ground for students, faculty, staff, alumni, university departments and the greater Manhattan area. All revenues generated at the Union assist in funding programs, opportunities and services for the campus community.

BOOK A SPACE

No matter what type of event you are planning – from a small executive retreat to a large annual convention to a storybook wedding reception – the Union has a perfect space for you With approved caterers, cutting-edge technology and a variety of event spaces, we can accommodate any and all types of professional and personal events. Rooms are offered at a discount to students, faculty, staff and registered student organizations.

FOOD AND FUN

Foodies and students alike will be able to enjoy a diverse mix of delicious cuisines ranging from burgers and barbecue to salads and wraps. With national chains like Subway, Chick-fil-A and Panda Express as well as local favorites such as Radina's Coffeehouse, you'll find what you crave at the Union's many restaurants and cafes. The Wildcat Value Meal program highlights a $7 specialty meal at a variety of Union restaurants.

The Union proudly participates in the Dining Dollars program, a flexible dining option for students, faculty and staff. Dining Dollars can be purchased as a standalone plan or as an optional add-on to a meal plan, adding additional options to the on-campus dining experience.

Chick-fil-A

Known for its original chicken sandwich and waffle fries, Chick-fil-A's menu of fresh, handcrafted food includes breakfast and lunch/dinner options.

Fast Track

Fast Track is the quick and flavorful option for campus patrons. Offering a variety of classic American foods, including K-State's own Weber Hall beef burgers, brick oven fired pizza along with BBQ smoked in-house daily and freshly made salads.

Hunt Brothers Pizza

Located on the lower level of the Union, Hunt Brothers® Pizza brings America's #1 made-to-order and by-the-slice **pizza** to campus and offers 10 toppings to choose from for no extra charge. That's 1,024 topping combinations at one price!

Panda Express

Panda Express is best-known for its wide variety of original recipes including its Original Orange Chicken™, SweetFire Chicken Breast®, award-winning Honey Walnut Shrimp and Shanghai Angus Steak

Qdoba Mexican Eats

Satisfy your cravings with tasty Mexican food like our burritos, 3-cheese nachos, and more! At QDOBA, our food philosophy lies in crafting thoughtful flavor combinations that will satisfy your biggest cravings and leave you counting down the days until you're back for more.

Radina's Coffeehouse and Roastery

Radina's Coffeehouse & Roastery is dedicated to providing fresh, handcrafted coffee roasted to its peak flavor. With four locations on the K-State campus, Radina's serves high-quality and individually unique coffees from around the world. Known for its in-house, specialty roasted drinks, Radina's has many options to satisfy the choosiest coffee connosisseur.

Subway

Subway is your go-to spot for a menu of fresh, nutritious sandwiches in a casual atmosphere. Subway also offers a variety of options for all of your group gatherings, including party platters, party subs and bag lunches.

Union Station by JP's

Through a partnership with K-State Housing and Dining Services, Union Station by JPs brings the campus and the Manhattan community together around a table filled with excellent food. A K-State original modeled after JP's in the Jardine Complex, Union Station menu items are locally sourced when possible, including Weber Hall meats .

The Cats' Den Convenience Store is the best place to pick up a drink or a tasty snack between classes. ReFresh-ReThink-ReFuel at the Cats' Den alternative snack area featuring gluten-free, vegan, organic, natural and energy/power options. We stock a variety of soft drinks, juices, energy drinks, snacks and sandwiches, as well as our freshly popped popcorn.

Not in the building? The Union provides options around campus with additional Radina's Coffeehouse and Roastery locations in the Engineering Complex and the College of Business Administration building. Whatever your palette craves, the Union has the fix.

Wabash Cannon Bowl, the Union Bowling Center, located on the Union's lower level, is the best place for relaxing on campus. Whether it's something fun to do between classes or an evening with friends, the Wabash Cannon Bowl is the place to be. The center is equipped with 16 bowling lanes, billiard tables, two air hockey tables, a video arcade, and a reservable party room. Student bowling leagues are always very popular, and billiard leagues are also available. The recreation center is also available for group gatherings.

Esports has found a home in the Union. Located in the Union Bowling Center, the arena is outfitted with state of the art equipment including two Nintendo Switches. Esports is open seven days per week. The K-State Esports Club is a student organization dedicated to fostering a community of individuals passionate about playing video games at all levels. The club welcomes those who play competitive game as well as students interested in other events and activities.

SHOPPING AND SERVICES

The official K-State Campus Store is located on the Union's ground floor, is not only the most convenient place to get your textbooks but also has a great selection of K-State merchandise and apparel. Textbook options ranging from new to used, rental to digital are designed for student savings. The official K-State booklist is available online at kstatecampusstore.com. Textbook information (including ISBN, author, title, publisher and copyright data) is available at courses.k-state.edu. When viewing a course, click on the textbook icon for textbook details. For more information, contact 785-532-6583.

Cat Tech, the Union computer store, is a full-line computer store and an Apple authorized educational reseller. Students can receive discounts on Apple computers, Microsoft and Adobe products, as well as other academic software. Cat Tech carries an extensive inventory and variety of computer supplies, including MacBooks, the complete line of Apple iPads, and a large selection of Apple accessories. Online shopping is offered 24/7 at kstatecampusstore.com. Stop by the location on the Union's ground floor or give us a call at 785-532-7319.

All students, faculty and staff can get their official university ID card, the Wildcat Card, at the ID Center, located on the ground floor of the Union. Wildcat Cards can be used as a photo ID, access/entry card, library card, and Cat Cash on-campus debit account. Cat Cash is ideal for anyone who carries a Wildcat ID and spends time on campus. The ID Center can assist with card replacements, Cat Cash deposits and Union gift card purchases. If you have any questions, contact 785-532-6399 or wildcatcard@k-state.edu.

GET INVOLVED

Student Programs and Involvement

Sara Heiman, Director
Student Programs and Involvement
K-State Student Union
785-532-6541
E-mail: studentinvolvement@k-state.edu
https://www.k-state.edu/student-involvement

Student Programs and Involvement provides opportunities for students to get connected, engaged, and involved at K-State. The office oversees student organization recognition for the University, and provides leadership development trainings and resources for group officers and advisors. SPI also manages K-State's student involvement platform, OrgCentral, as well as the co-curricular engagement program, Cat Trax. SPI coordinates Week of Welcome, an event series that takes place every fall and spring semester, and SafeRide operated by Lyft(R). SPI supports the voice of the student body, Student Governing Association, and campus activities through the sponsorship of Union Program Council.

Student Organizations

More than 400 organizations are available to students, faculty members, staff, and community members.

Any organization desiring to become a recognized organization must register with Student Programs and Involvement. Registered groups have the opportunity to request funds from SGA, hold fund-raising activities on campus, and schedule rooms and tables in the K-State Student Union as well as most campus facilities. Recognized student organizations may also post notices in university buildings and on campus bulletin boards.

OrgCentral

https://orgcentral.k-state.edu

OrgCentral is K-State's online student organization management and student engagement platform. Students can explore upcoming events, engage in student organizations, and connect with other students using the platform. All registered student

organizations have a group page in the system to manage their organizational operations. All currently enrolled students and university employees have an account created automatically and can use their eID and password by clicking the "school login" button on the site.

Cat Trax

orgcentral.k-state.edu/cattrax

Cat Trax serves as a guide to help students transition to campus, connect with resources, build social capital, and develop career readiness competencies and skills. Cat Trax identifies experiences every K-State student should have and organizes these experiences into a checklist. Students earn rewards for completing checklist items. Students can explore their Cat Trax checklist in OrgCentral.

SafeRide

Email: saferide@k-state.edu

SafeRide operated by Lyft provides all students on the Manhattan campus free or discounted rides within the city limits during the eligible time windows utilizing the Lyft app. SafeRide is a program funded by students for students through the Student Services Fee as a program that meets immediate student needs and safety concerns.

Week of Welcome

Email: wow@k-state.edu

Week of Welcome is an event series that takes place during the first week of class in the fall and spring semesters. Week of Welcome programs and activities ease the transition into the academic term by helping students establish connections with their peers, familiarize themselves with campus, and explore involvement opportunities and important resources for their success.

Lafene Health Center

Kara Fiske, Executive Director, Student Health and Counseling and Psychological Services
1105 Sunset Avenue
Manhattan, KS 66502-3761
785-532-6544
Fax: 855-673-4137
E-mail: lafene@k-state.edu
www.k-state.edu/lafene

Lafene Health Center is an outpatient health care facility designed to meet the healthcare needs of Kansas State University students and the campus community. The health center is fully accredited by the Accreditation Association for Ambulatory Health Care (AAAHC). Enrolled students who have paid their student services fee are eligible for care. Non-student spouses, university conference participants, and other campus visitors may receive care with prior approval of Lafene Health Center Administration. Non-student patients will be required to pay non-student rates for services received.

Lafene Health Center provides, through a full complement of medical and other professional personnel, a range of services that include special clinics for sports-related injuries, gender care, allergies and immunizations, dermatology, as well as a clinic for general care. Services in health and well-being education, massage therapy, nutrition, physical therapy, pharmacy, laboratory, and x-ray are also available at reduced rates for eligible students.

The Health Center is staffed by health care professionals and support personnel in various areas. When necessary, students may be referred to external specialists for care at their own expense.

Insurance

It is strongly recommended that all students at K-State carry health insurance, either through a parents' plan at home or an employer's health plan or through student health insurance plans available from the Kansas Board of Regents (KBOR). It is required for International Students to carry health insurance specifically designed for International Students. The KBOR student insurance plan covers most services provided at Lafene Health Center and covers a wide variety of healthcare services outside of Kansas State University. The KBOR webpage can provide up to date details about the insurance plans offered to Kansas State University students.

Lafene Health Center's MyLafene Patient Portal

All incoming K-State students must check out the MyLafene patient portal. Have health insurance information ready to upload along with your immunization records. The portal allows students to make appointments, upload information to meet State of Kansas and University requirements, and communicate with Lafene providers. Lafene's webpage contains a wealth of information that can assist students with their health and well-being needs during their time at K-State.

Tuberculosis Screening

International students from countries with a high incidence of tuberculosis and domestic students who have spent more than three months in a country are required by state law to be screened and potentially tested for tuberculosis prior to enrolling at K-State. Screening and testing can be completed through Lafene Health Center or another healthcare provider outside of Kansas State University. Proof of testing and the results are required if not completed at Lafene Health Center.

Incoming Students Residing in University-owned Housing

Kansas Statute and the State of Kansas Board of Regents policy requires all incoming students residing in university-owned housing to be vaccinated against meningitis or sign a document waiving the vaccination. The vaccine can be obtained by appointment at Lafene Health Center or the student's private physician. Meningococcal Vaccine Documentation Forms are available through the Lafene Health Center website and by using the MyLafene patient portal.

McNair Scholars Program

Vacant, Director
101 Holton Hall
785-532-6137
E-mail: mcnair@k-state.edu
www.k-state.edu/mcnair

The McNair Scholars Program, named for the African American astronaut who died in the 1986 space shuttle explosion, encourages and prepares academically promising students to pursue doctoral degrees. McNair Scholars are from income-limited and first-generation college educated backgrounds or are from minority groups who are underrepresented in graduate study.

Staff will assist McNair Scholars in selecting an appropriate graduate school for their career goals, in preparing for the Graduate Record Examination, and in applying for graduate admittance and financial assistance. Each year McNair Scholars will be matched with a faculty mentor and will work on research projects for which they will receive a stipend. The McNair Scholars Program is funded through a federal TRIO grant.

Morrison Family Center for Student Well-being

Chris Bowman, Director
K-State Student Union, Rm 217
918 N MLK Jr. Dr.
785-532-6595
E-mail: wildcatwellbeing@k-state.edu
https://www.k-state.edu/center-for-wellbeing/

The Morrison Family Center for Student Well-being is an office at K-State committed to fostering the physical, social, and emotional well-being of students through education, outreach, and support. The Morrison Family Center for Student Well-being uses evidence-based strategies and best practices to develop campus-wide programs that inspire our communities in health promotion, prevention, and well-being. The well-being center uses their expertise and knowledge to create relevant, holistic, and lasting well-being strategies to create **WellCATS for Life.** Visit our website for more information and a complete list of our well-being programs and offerings.

New Student Services

Executive Director
Berney Family Welcome Center
705 N. 17th Street
785-532-6318
Fax: 785-532-3696
E-mail: nss@k-state.edu
www.k-state.edu/nss

New Student Services works with prospective and new students and their families. Admissions representatives meet with high school students during school visits, college fairs, and special events. Transfer staff visit Kansas community colleges and help transfer students successfully make the transition to K-State.

New Student Services coordinates campus visits, orientation and enrollment, Wildcat Warm-up, StrengthsQuestTM Initiative, Blue Key Honor Society, Welcome Center Ambassadors and the Presidential Lecture Series. The department collaborates with many campus programs and departments to provide services to prospective, new and current undergraduate students.

Millitary-Affiliated Resource Center and Non-Traditional Student Services

Amanda Etter, Director
Military Affiliated Resource Center
2nd Floor Student Union
Room 217
785-395-8387

Non-Traditional Student Services
Student Support and Accountability
785-532-6432

E-Mail: kstatenontrad@k-state.edu
www.k-state.edu/nontrad/veteran/

Non-Traditional & Veteran Student Services assists undergraduate and graduate students who meet one or more of the following criteria:

- 25 years of age or older
- Married
- Parent
- Veteran
- Returning to school after an absence of 3 or more years

Non-Traditional & Veteran Student Services provides assistance and advocacy for students before, during, and after their admission to K-State. Staff members assist students in obtaining information and/or providing referrals in many areas, including: admission, scholarships, childcare, housing, tutoring, refresher and study skills courses, student health insurance, campus activities and community programs, non-traditional student networking opportunities, and many other student questions/concerns.

Off-Campus Housing Support

The Off-Campus Housing Support is located at Student Support and Accountability, 201 Holton Hall, 785-532-6432. The coordinator of off-campus housing support students resolve issues or answers questions regarding landlord problems or rental contracts. Students can also find information about rental units, with information on cost, size, restrictions, etc., and other housing options.

Fraternity and Sorority Life

Dee Hawks, Director, Fraternity & Sorority Life
004 K-State Student Union
785-532-5546
E-mail: greeklife@k-state.edu
https://www.k-state.edu/fraternity-sorority/

K-State is home to more than 3,500 fraternity and sorority members. The Fraternity and Sorority Life office supports the Interfraternity Council and the Panhellenic Council community. The communities consist of 35 chapters, 30 of whom own and control their own residential facility. The average Panhellenic sorority size is 125, and the average IFC fraternity size is 70.

Panhellenic sororities select a majority of their members during Fall Formal Recruitment which happens the week prior to the start of the fall semester. Women who wish to participate in the Formal Recruitment process must register on the Fraternity and Sorority Life website and pay a participation fee by no later than August 1. Throughout the year, individuals may have additional informal opportunities to join chapters through the continuous open bidding process. These opportunities can vary widely. You can learn more about informal joining opportunities on this website. For Panhellenic members, most new members live in a residence hall during their first year membership and may move into the sorority house their second year of membership. Live in requirements can vary by chapter and can be discussed during any recruitment conversation.

Interfraternity Council fraternities select new members through an informal, chapter-driven process. This process mainly occurs beginning in the late fall and continues throughout the spring and into the summer. Most new members live in their fraternity house during the first year of membership if the chapter owns a property. Men may fill out an interest form on the website and find contact information for chapter recruitment chairs.

Complete information regarding fraternities and sororities including costs, how to register, recruitment dates and methods, the recruitment week schedule for sororities, and a list of K-State fraternity and sorority chapters can also be found on the Fraternity and Sorority Life page.

Information about NPHC fraternities and sororities and other national organizations that select new members via the intake process can also be found on the Multicultural Greek Orgs page, housed within Student Belonging.

Office of Nationally Competitive Scholarships

Jim Hohenbary, Director
215 Fairchild Hall
785-532-3422
E-mail: jimlth@k-state.edu
https://www.k-state.edu/leadership/scholardevelopmentandundergraduateresearch/scholardevelopment/national-scholarships/

The Office of Nationally Competitive Scholarships assists K-State students as they compete for nationally competitive awards such as the Rhodes, Marshall, Truman, Goldwater, Udall, and Fulbright.

The office helps students identify awards that might suit their accomplishments and goals, advises students as they prepare their applications, and manages the campus selection process for scholarships and fellowships that require applicants to be nominated by their university.

A strong academic record and active résumé are essential for applications. Students interested in competing for major awards are encouraged to consult with the office as early as possible in their college career.

The office website provides a much larger listing of national and international scholarships and fellowships. Note that the office primarily advises students regarding major award competitions that are external to the university. Students seeking information about K-State scholarships should consult the Office of Student Financial Assistance and their academic departments.

Student Support & Accountability

Andy Thompson, Assistant Vice President and Senior Associate Dean
Allison Coleman, Assistant Dean and Director of Conduct
Laurel Moody, Senior Assistant Dean
Janelle Rieger, Assistant Dean

201 Holton Hall
785-532-6432
Fax: 785-532-5307
E-mail: stulife@k-state.edu
https://www.k-state.edu/student-support/

The mission of the Student Support & Accountability Office is to enhance the K-State student experience and promote student success in the classroom and in life. The Office of Student Support & Accountability helps when problems arise, working with students and with other campus services to find the most appropriate and effective solutions. The Office of Student Support & Accountability also serves as one of the approved offices for students to receive excused absences through the approve policy. The Office of Student Support & Accountability is also a resource for parents who may have concerns or questions. The Office of Student Support & Accountability administers the judicial programs for non-academic misconduct and works closely with the student judicial system.

Powercat Financial

Kate Mielitz, Executive Director
302 K-State Student Union, Third Floor
785-532-2889
E-mail: powercatfinancial@k-state.edu
www.k-state.edu/powercatfinancial

Powercat Financial assists students with financial decisions including budgeting, saving, student loan repayment, and understanding credit. The center is free to K-State students and uses a peer mentor program where students studying in a finance related curriculum provide one-on-one peer financial counseling and education to fellow students. In addition to individual confidential counseling, the center provides free workshops to campus groups and organizations about various financial topics. The goal of Powercat Financial is to improve the financial literacy and success of all K-State students. Visit the Powercat Financial website to schedule an appointment, to request a financial workshop presentation, or to learn more about financial issues.

Recreational Services

Clint Hafliger, Director
Chester E. Peters Recreation Complex
1831 Olympic Drive
785-532-6980
Fax: 785-532-4983
E-mail: recservices@k-state.edu
www.recservices.k-state.edu

Recreational Services oversees the programming and administration of intramurals, fitness/wellness programs, climbing wall, K-State challenge course, and free time use of the Peters Recreation Complex, outdoor recreation area and the K-State natatorium.

Chester E. Peters Recreation Complex

fully accessible and includes:

- 8 racquetball courts
- five performance zones
- two squash courts
- two wallyball courts
- three gyms that include:
    - 13 basketball courts
    - 15 volleyball courts
    - 5 badminton courts
    - 2 pickleball courts
- multi-activity court (MAC) gym provides for indoor soccer, in-line hockey, basketball, volleyball and tennis
- three weight rooms
- two cardio areas
- combatives room
- four group fitness and studios
- one multipurpose room
- private personal training studio
- 40-ft climbing wall and bouldering rock
- Quik Cats Cliffside snack/juice bar
- game lounge offering video game stations, pool tables, foosball and electronic darts
- two indoor tracks
- table tennis area
- locker rooms with saunas
- southside parking lot exclusively for students
- pickleball courts

Outdoor Recreation Area

lighted playfields for football, soccer, softball, ultimate
four sand volleyball courts
six tennis courts
three basketball courts
two 3-wall handball/racquetball courts
running/walking trails

Outdoor Rental Center

offers equipment rentals to the K-State community during spring, summer and fall seasons

camping equipment
canoes, kayaks, and stand-up paddle boards
tents and sleeping bags
hammocks

Intramural Sports

scheduled competitive activities offering

team, individual, and meet sports for students, faculty, and staff
over 50 different intramural activities for men, women, and co-rec competition

Fitness Services

programming designed to promote health and wellness

group fitness sessions offering a wide variety of formats such as cardio, yoga, and cycling
personal trainers providing fitness assessments, and exercise program planning
educational outreach presentations/workshops

Climbing/bouldering Area

providing a variety of ever changing climbing routes ranging from beginner to advanced

40-ft rock wall with 11 top ropes
12-ft freestanding boulder

K-State Challenge Course

team building, experiential activities available by reservation to K-State students and organizations, as well as the Manhattan community offering:

low elements consisting of ropes, wires, poles and other wooden objects
high elements using ropes and belay systems providing activities 30-40 feet in the air

Student Employment

Positions for sports officials, building supervisors, weight room supervisors, climbing wall instructors, group fitness leaders, personal trainers, facilitators, maintenance, and office assistants.

Additional information and a complete schedule of hours and events is available on the Recreational Services home page.

Student Access Center

Jason Maseberg Tomlinson, Director
202 Holton Hall
785-532-6441
Fax: 785-532-6457
VP: 785-370-0431
E-mail: accesscenter@k-state.edu
www.k-state.edu/accesscenter/

Student Access Center appreciates disability as an integral part of the K-State experience. We are dedicated to providing equal educational opportunity and access to students by providing a broad range of services to meet the needs of students with disabilities.

Students may require accommodations in areas such as attention, autism, learning, mobility, medical, psychological, and sensory. Services provided may include adaptive technology, alternative text, note-taking, sign-language interpreters, residential life, and test-taking. Literacy software, called Read and Write Gold, is available to all students and includes features such as text-to-speech, scanning, and a read-aloud dictionary.

Through collaboration and support of the entire campus community, the Access Center promotes disability pride, program accessibility, and universal design principles so that everyone has full access to university life.

Union Program Council

Union Program Council (UPC), K-State's premier student-led event planning organization, provides entertainment to the K-State community and an opportunity for students to gain leadership skills. UPC plans more than 100 programs each year for students by students. UPC's student volunteers determine the big campus entertainment act for the year, plan social events to build community, choose the art exhibited in the William T. Kemper Art Gallery, expose you to different cultures with their multicultural programming and organize a substance-free **After Hours** event Friday nights during the semester.

All students are encouraged to get involved with UPC. Students who want to get involved should contact **UPC** on the web, by phone 785-532-6571, or follow them on Instagram.

The Union is also the home of many student offices: the Student Governing Association (SGA), Student Programs and Involvement (SPI), Fraternity and Sorority Life Office (FSL), Military Affiliated Resource Center (MARC), Union Program Council (UPC), Union Governing Board (UGB), and the campus radio station, Wildcat 91.9.

Student Government

E-mail: sga@k-state.edu

www.k-state.edu/sga

The purpose of the Student Governing Association is to help students voice concerns, suggestions, or grievances. Every student is a member of SGA and is represented by student senators from their college, and by the student body president and vice president. The student senators, student body president, and vice president are elected by the K-State student body.

SGA is divided into three branches: legislative, judicial, and executive. Student Senate makes up the legislative branch. It is composed of standing committees including funding allocations committees; student services fee; and senate operations.

The judicial branch is composed of the judicial council, student review board, student tribunal, and the parking citations appeals board.

The student body president, vice president, and cabinet make up the executive branch. The president has the responsibility to promote the general welfare of the students and acts as the official voice of the student body to the faculty, administration, and public.

Upward Bound Program

Upward Bound at K-State Salina Campus

Upward Bound K-State SalinaCampus
2310 Centennial Road
785-826-2640
www.salina.k-state.edu/upwardbound

Upward Bound is a federally funded campus-based TRIO program designed to assist low income and underrepresented students with college potential who need additional academic preparation, advisement, and encouragement to succeed in high school and later, in college. The Upward Bound program participants are involved in the program from the time they are selected for participation until they graduate from high school. The program offers a six-week summer residential component and academic advising sessions during the academic year.

The mission of the Upward Bound program at K-State Salina is to promote enrollment and persistence in post-secondary education for program participants and their families by providing academic, social and emotional support. The Salina Upward Bound program serves students from Ell-Saline, Clay Center, Lincoln, and Newton high schools.

Support Services

Early Childhood Laboratory

1701 N. Manhattan Avenue
785-532-2226
Fax: 785-532-3537
E-mail: stonehouse@k-state.edu
https://www.hhs.k-state.edu/stonehouse/lab/

The Early Childhood Laboratory, located at the Hoeflin Stone House Early Childhood Education Center, houses a part-day preschool classroom and is sponsored by the School of Family Studies. The Early Childhood Laboratory is licensed by the state and is accredited by the National Academy of Early Childhood Programs. The children enrolled in the program range in age from three to five years. Children who are eligible by age to enter kindergarten are not eligible for enrollment in the program. The group is balanced by age and sex of the children. Within these guidelines, children are accepted by date of application. The total group size is 15 children. The half-day preschool sessions are operated Monday through Thursday, 8:30 - 11:30 a.m.

K-State Family Center

139 Campus Creek Complex
785-532-6984
Fax: 785-532-6523
E-mail: family@k-state.edu
www.hhs.k-state.edu/familycenter

The K-State Family Center is the marriage and family therapy clinic housed in the Campus Creek Complex. The Center provides applied educational training to students while offering counseling, family-related educational programs, consultation and mediation services for Manhattan and the surrounding communities. MFT faculty, doctoral and masters interns staff the Family Center providing individual, couple, family and group therapy for a range of mental health and family related issues. The Center uses a sliding fee scale making services affordable for all economic ranges. Appointments are available Monday through Thursday from 8am-9pm and on Fridays from 8am-5pm. The Family Center is also home to the state sponsored home-based family therapy training project providing training on home-based family therapy for clinicians throughout the state of Kansas. This training is sponsored through a contract with KDAD's.

Hoeflin Stone House Early Childhood Education Center

1701 N. Manhattan Ave
785-532-3537
E-mail: stonehouse@k-state.edu
www.hhs.k-state.edu/stonehouse

The Hoeflin Stone House Early Childhood Education Center is located on the north side of campus at 1701 North Manhattan Avenue. The two-story house and architect-designed playgrounds support the development of young children from six weeks to 5 years of age. Children who are eligible by age to enter kindergarten are not eligible for the program. Eight children are enrolled in the infant room. The toddler group accommodates 10 children. Thirty children are enrolled in the preschool group. The groups are balanced by sex and age of the children. Priority is given to children whose parents work full time. Within these guidelines, children are accepted by date of application. The center is available only for full-day enrollments, five days a week. The hours are 7:30 a.m. to 5:30 p.m., and the center is open for most of the year, with the exception of university holidays, three weeks in August, and two weeks at the end of December. The Hoeflin Stone House Early Childhood Education Center is licensed by the state and is accredited by the National Academy of Early Childhood Programs.

Other Research Facilities and Equipment

A variety of specialized facilities is maintained to support research and scholarly work in the humanities, natural sciences, applied sciences, social sciences, and professional areas. Although an exhaustive listing is prohibitive, the following list represents a selection of supporting resources:

- Aquatic and terrestrial research laboratories
- Arp electronic music synthesizer
- Audiovisual materials center
- Center for Excellence in Computer-Controlled Automation
- Center for Extended Services and Studies
- Computer-Aided Design Laboratories
- Consortium for Political Research data banks

Controlled environment test facility
Editorial offices of major journals
Experimental animal facilities
Financial Therapy Clinic
Fourier transform spectroscopic laboratory
Glassblowing and instrument shops
Greenhouses
Heliodon and wind tunnel
Herbarium and monographic library
Insect reference collection
Interior architectural shops
Marriage and Family Therapy Clinic
Near infrared protein laboratory
Nuclear magnetic resonance spectrometers
Physiology of exercise laboratory
Plant disease diagnostic laboratory
Population and demographic laboratory
Recording Raman spectrometer
Scanning electron microscope
Soil testing laboratory
Speech and Hearing Center
Statistical laboratory
Textile chemistry laboratory
Textile conservation laboratory
Transmission electron microscope
Veterinary diagnostic laboratory
Weather data laboratory
Wind and soil erosion laboratory
X-ray diffractometers

Scholarly and Professional Publications

College of Architecture and Design Newsletter of the Rural/Small Town Planning Division, American Planning Association-information, articles, and essays on the nature of rural/small town planning. Oz, modern architectural trends.Environmental and Architectural Phenomenology Newsletter, information and features on environmental design as place making.

College of Education Educational Considerations, timely papers on educational issues at all levels. Media Adult Learning, research, reviews, papers.

College of Engineering Kansas State Engineer, technical and nontechnical articles on engineering developments. Research Activities, biennial report on research in the College of Engineering.

College of Veterinary Medicine Veterinary and Human Toxicology, toxicology, research, reviews, and field observation.

Continuing Education National Issues in Higher Education, proceedings of annual meetings on educational issues. IDEA Papers, series on college teaching, from the Center for Faculty Evaluation and Development.

Cooperative Agricultural Extension Numerous publications about research, in varied formats for various audiences.

Department of English Literary Magazine Review, reviews of literary magazines and commentary on the international noncommercial literary magazine scene. Touchstone, student literary magazine. The Spenser Newsletter, the official publication of the Spenser Society.

Department of History Journal of the West, history and culture of the U.S. West.

Department of Modern Languages Studies in Twentieth Century Literature, literary theory and practical criticism of 20th-century literature in French, German, Russian, and Spanish (with University of Nebraska, Lincoln).

Libraries Bibliography Series, each bibliography on a different topic.

University Press of Kansas

Charles Myers, Director
2502 Westbrooke Circle
Lawrence, Kansas 66045-4444
785-864-4154
785-864-4586 Fax
E-mail: upress@ku.edu
www.kansaspress.ku.edu

Kansas State University, in association with the other five Regents universities, operates and supports the University Press of Kansas for the purpose of publishing scholarly and regional books on a nonprofit basis. K-State joined the consortium in 1967 when the press was officially reorganized by the Kansas Board of Regents. Until mid-1982, the operation was known as the Regents Press of Kansas.

The University Press of Kansas is the first American university press to operate as a statewide consortium under the specific sponsorship of all the state's universities. A member of the Association of American University Presses since its founding in 1946, the press has published over 1400 titles, with more than 975 currently in print. Its ongoing American Presidency Series, with 35 titles issued to date, has been praised as one of the most interesting and rewarding historical series in this country.

The press is governed by a board of trustees, who are the chief academic officers of the sponsoring institutions and who appoint two members and two alternates from each faculty to serve on the advisory editorial committee.

Undergraduate Admission

Patrick Winter, Associate Vice Provost and Executive Director
Molly McGaughey, Director

Office of Recruitment and Admissions
Kansas State University
119 Anderson Hall
919 Mid-Campus Dr. North, Manhattan, KS 66506-0121
785-532-6250

E-mail: k-state@k-state.edu
www.k-state.edu/admissions

General Admission Information

The Office of Recruitment and Admissions on the Manhattan campus supports all undergraduate students in the application process. Prospective undergraduate students interested in attending Kansas State University in Manhattan, Polytechnic (Salina), Olathe, or online may request information or receive communications from this office.

Prospective undergraduate students may apply for admission by submitting an electronic application.

To complete an application all necessary supporting documents and credentials must be sent directly to the Office of Recruitment and Admissions by mail, fax or electronically to be considered official. Official transcripts must be sent from each institution attended. Official test scores must be sent by the testing agency.

All documents submitted become the property of the university and cannot be returned or copied.

Various categories of admission are listed below which indicate specific academic admission requirements as established by the Kansas Board of Regents Qualified Admission regulations and university policy.

Kansas State University prohibits discrimination on the basis of race, color, ethnicity, national origin, sex (including sexual harassment and sexual violence), sexual orientation, gender identity, religion, age, ancestry, disability, genetic information, military status, or veteran status, in the University's programs and activities as required by applicable laws and regulations.

The university may consider campus safety and the past conduct of prospective students when making admissions decisions. Prospective students who have person crime or felony criminal history, have been suspended or expelled from a previous institution, or are required to register with local law enforcement are required to be cleared by Admissions Conduct Evaluation Team before admission can be considered.

Undergraduate Admission Application Fees

A non-refundable application fee of $40 is required for domestic applicants. Applications are not processed until the application fee is received.

Application fees for new students expire after one academic year if the student does not enroll and attend Kansas State classes.

Exceptions to application fee

High school concurrent students: If a student has paid the fee AND attended class(es) at Kansas State during high school, they will not be required to pay it again.
Readmission: If a student has paid the fee AND attended Kansas State as an undergraduate, they are not required to pay it again.
Waivers: Students with financial need can work with educators to provide a fee waiver.
Sponsorship: Various entities may sponsor application fees for students in special populations.

Glossary of Admission Terms

Apply for admission: The process of submitting the electronic application and supporting credentials so that an official determination of eligibility to attend the university can be made.

Enrollment: The process of selecting courses and arranging a schedule of classes for the semester.

Exception: A category of admission in which the student does not meet qualified or assured admission but is granted admission.

Freshmen: High school graduates with no earned college credits after high school graduation. Students taking college-level work while in high school are considered new freshmen.

Non-degree students: Students not pursuing a degree who have been admitted for specific purposes or at the discretion of a director. Generally, these students are limited to 15 hours of credit from K-State. Other restrictions may apply. Non-degree students are not eligible for financial assistance.

Official test scores: Any results that are received directly from the testing service (ex. ACT, AP, CLEP, SAT, TOEFL). Scores noted on high school transcripts, personal reports, etc., are not official results.

Official transcript: A transcript that is sent directly by mail, fax or electronically from the registrar of a credit-granting institution to the K-State Admissions Office. Personal grade reports or student copies of transcripts are not official records.

Readmitted students: Any student who has previously been admitted and attended K-State courses at any time since high school graduation.

Special students: Students not pursuing a degree but have indicated they intend to take more than 15 credit hours. Special students must meet all standard admission requirements. Special students may not be eligible for financial assistance.

Transfer students: Students who have taken college-level courses after high school graduation.

Freshman Admission Requirements

Students categorized as degree-seeking freshmen may have different educational backgrounds.

Students who attend/attended high school under the age of 21

Admission to the university is test-optional and requires achieving EITHER:

A cumulative high school GPA (weighted or unweighted) of 3.25 or higher on a 4.0 scale OR
ACT composite score/superscore of 21, or an SAT ERW+M score/superscore of 1060 or higher
AND, if applicable, achieve a 2.0 GPA on all college credit taken in high school.

Students who have completed a high school equivalency exam

GED participants must meet the following based on when testing occurred:

Tested January 2014 or later: Have an overall score of 680 and minimum score of 150 on each subtest.
Tested between January 2002 and December 2014: Achieve a 2,550 overall GED score and at least 510 on each test.
Tested before January 2002: Achieve an overall score of at least 250 and a minimum score of 50 on each subset.

HiSET participants who took the exam after January 1, 2014, must:

Achieve an overall score of 75 and a minimum score of 8 on each subtest.

Homeschooled students

Homeschooled students will be considered for admission on the same basis of ACT, SAT, or GED/HiSET scores. Students must submit scores and high school transcripts. Contact the Office of Recruitment and Admissions if you have questions about home schooling qualifications or requirements for admission.

Adult students

Students who will be 21 or older at the start of class and have graduated from an accredited high school or completed a high school equivalency exam (defined in preceding section), may be admitted to Kansas State University without meeting the state's ACT/SAT score or high school GPA criteria. Adult students are required to have a cumulative college GPA of 2.0.

Please note some majors use selective admission or have different requirements. See "Majors with Different Requirements" section.

Freshman application process

High school students are encouraged to initiate the application process early in their senior year by submitting a completed application and the nonrefundable application fee. Currently high school students are allowed to self-report academic information. But each student should also submit any official scores from the American College Test (ACT) or from the Scholastic Aptitude Test (SAT).

K-State accepts ACT results for purposes of making admission decisions. The ACT college code number for K-State is 1428.

K-State accepts SAT results for purposes of making admission decisions. The SAT college code for K- State is 6334.

Following graduation from high school, an official eighth-semester transcript showing the date of high school graduation must be submitted. High school equivalency exam results may substitute for a transcript.

Transfer Admission Requirements

Students categorized as degree-seeking transfers may have different educational backgrounds.

- Students who have earned college or university credit after high school graduation must have a minimum cumulative GPA of 2.0 on a 4.0 scale from an accredited institution to qualify for admission to the university.
- Students transferring fewer than 24 credit hours must meet the transfer and freshmen requirements for admission.

Please note some majors use selective admission or have different requirements. See "Majors with Different Requirements" section.

Transfer application process

Application procedures require a completed application form, the nonrefundable application fee, and complete official transcripts from all previous colleges or universities.

Transfer applicants who have earned less than 24 hours of transfer credit must also submit an official final high school transcript showing their graduation date and ACT or SAT scores. Information about institutions previously attended is required to be submitted upon application, and transcripts must be submitted regardless of the applicant's preferences concerning use of previously earned credit.

Applications that do not include all college work on the application for admission are considered fraudulent. See "Fraudulent Applications" section.

All documentation must be sent directly to the Office of Recruitment and Admissions by mail, fax, or electronically from each institution attended. All documents submitted become the property of the university and cannot be returned or copied.

The College of Arts and Sciences offers an option to enter the university without declaring a specific program of study. This Open Option program is limited to students who have earned less than 60 college-level credit hours. If you have earned 60 or more credit hours you must specify a major.

Transfer Credit and Prior Learning

Most academic credits from regionally accredited community colleges and universities are transferable to K-State. Up to half of the hours required for a K-State baccalaureate degree can be taken at a two-year college.

Official evaluation of transfer credit is part of the admission procedure. Application of transfer credit toward degree requirements is determined by each college and major department. See the complete transfer credit policy. https://www.k-state.edu/admissions/undergrad/manhattan/apply/transfer/transfer-credit-policy.html The university does not consider non-transferable work or transfer work from institutions that have not been regionally accredited in the admission decision.

Kansas community college articulation

K-State has transfer articulation agreements with the 19 Kansas community colleges. Students who have received an associate of arts or an associate of science degree from a Kansas community college are guaranteed junior classification.

All credits of an associate degree are not necessarily applicable toward a bachelor's degree; additional freshman, sophomore, and general education courses may be required to meet degree requirements.

The associate of applied science (AAS) and associate of general studies (AGS) degrees will only transfer into specific bachelor's programs. Generally, these degrees will only apply toward bachelor degrees in areas related to technical occupations.

Additional details

K-State implements decisions made by the Kansas Board of Regents' Transfer and Articulation Advisory Council to ensure consistency of transferability.

Specific information on college credit transfer, military credit transfer, and test credit transfer can be found on the university's prior learning site. https://www.k-state.edu/prior-learning

Students with Unusual Academic Circumstances

Kansas State University realizes there are circumstances that may prevent students from meeting the freshman or transfer admission requirements. Students who have encountered unusual situations that may have kept them from meeting the requirements for admission should bring those circumstances to the attention of an admissions director.

In some situations, a student who has not met the established admission requirements may be admitted.

Admission by exception

Admission as an exception the freshman or transfer admission requirements is limited to 10% of the admitted pool for an academic year. Such offers of admission are based on past academic record (secondary and/or post-secondary GPA, test scores) and any other materials provided by the student for holistic review (personal statements or letters of reference). Exception admission decisions are based on space availability, past academic performance, and individual characteristics and achievements.

Degree-seeking students admitted by exception are required to participate in special advising and retention programs. Students who do not meet these requirements may have admission revoked or be disenrolled.

Readmission

Students considered for readmission are defined as any undergraduate student who has previously been admitted and attended K-State courses at any time since high school graduation, or any undergraduate student who was admitted to and attended classes after high school graduation.

Students need to reapply and be readmitted if they have graduated from K-State and want to return for further undergraduate work, have not been enrolled at K-State for at least one fall or spring semester, or have been dismissed from K-State. There is no readmission application fee.

A dismissed student will be readmitted only when approved for reinstatement by the academic standards committee of the college the student is attempting to enter; the application for reinstatement must be directed to the pertinent academic standards committee. In addition to the student's application for readmission, the Dean's office of the academic unit must submit a reinstatement form to the Office of Recruitment and Admissions.

Graduate students who have attended graduate school at K-State or earned a K-State graduate degree but have never been an undergraduate student at K-State, must file an undergraduate application and pay the application fee.

Special and Non-degree Student Admission

Several categories of special and non-degree students exist at K-State. All students are subject to stated requirements and are responsible for payment of all fees, regular attendance at classes, and maintenance of satisfactory standing. Special and non-degree-seeking students are not eligible for financial assistance. Special and non-degree options are not available for international students on student visas.

Non-degree-seeking student applicants

Some students may be admitted as non-degree-seeking students at the discretion of the Office of Recruitment and Admissions. Non-degree-seeking students must submit the admission application and application fee. These students will be allowed to complete a maximum of 15 semester hours in non- degree status. In order to pursue work beyond the 15-hour limit, students must notify the Office of Recruitment and Admissions of the selected degree program, meet all degree-seeking admission requirements as described above and may be required to sign an agreement specifying the terms of their admission as a degree-seeking student.

Special student applicants

Students who do not intend to become candidates for a degree may apply for admission as special students. Such students must submit the admission application, application fee, test scores, and appropriate transcripts. Special student applicants must meet standard admission requirements.

High school concurrent students

Outstanding high school juniors and seniors may be admitted to take courses while completing their high school requirements. High school students must submit an application, application fee, a recommendation from the high school, an outstanding high school academic record, and specify the courses in which they plan to enroll.

Younger students may be granted admission under special circumstances. In addition to the documents mentioned above, students under age 16 must file a letter of consent from a parent/guardian and receive approval to enroll in the selected class from the K-State department offering the class.

The university monitors the progress of all pre-college students very carefully. Students are approved for enrollment on the basis of space available in the selected class and success in prior university course work, if applicable.

International Admission

For purposes of admission, international applicants are defined as all persons who are not citizens or permanent residents of the United States.

Generally, international applicants seeking admission to Kansas State University must meet the same academic standards for admission as those required of domestic applicants. There are wide variations, however, between educational systems throughout the world that make exact comparisons of educational standards difficult. International applicants are selected on the basis

of their prior academic work, probability of success in the chosen curriculum (as evidenced by prior work in the academic area involved), and certification of adequate financial resources.

International applicants must submit a completed international application form; an $80 non-refundable application fee; translated secondary schooling records, or a credentials evaluation report and when applicable, translated college transcripts.

In order to issue immigration documents (such as an I-20) for students, an affidavit of financial sponsorship and bank statement and also required.

TOEFL/English proficiency

If you meet the academic requirements, Kansas State University may admit you with no proof of English proficiency. Once you arrive, you will be required to take the English Proficiency Test (EPT). The results of the English Proficiency Test (EPT) will determine if you have to study English, either full-time or part-time, or if you are ready to begin full-time university classes.

English proficiency requirements for unconditional admission:

1. Transfer students from a U.S. institution must have completed BOTH
    a. 24 credit hours at an accredited U.S. institution
    b. English Composition I and II with grades of C or better
2. IBT (Internet Based TOEFL) - composite score of 79 or higher
3. IELTS - composite score of 6.5 or higher
4. ACT - English part score of 21 or higher
5. SAT - verbal part score of 530 or higher
6. PTE - Pearson Test of English - overall score of 53 or higher
7. Eiken (Pre-1 Score)
8. DET - Duolingo English Test score of 110
9. Four years attendance in a U.S. high school with grades of C or better in all college preparatory courses

All standardized test scores must be **submitted by the third day of class** in order to waive English Proficiency Testing and English classes for the semester.

*****Score submission dates are NOT negotiable.*****

Invalidation of Test Scores

If a student does not have validated test scores or if the test score has been invalidated by the issuing institution, the student has the following options:

1. Reapply for a different semester and submit other validated test scores prior to arrival.
2. Take the English Proficiency Test upon arrival.

Students will not be allowed to enroll in academic classes until validated proof of English proficiency has been shown.

If the university determines a test score must be invalidated due to apparent fraud by the students, the student may appeal to the office of Honor and Integrity.

Priority deadlines for international application

Feb. 1: Fall semester
Nov. 1: Spring semester

Feb. 1: Summer semester

Advanced credit for international evaluation

The following methods are used by Kansas State University to validate the awarding of advanced standing credit for international students who have completed work in their home countries at the post-secondary level:

1. Credit is granted based upon recommendation by recognized academic publications. For a credential evaluation to be accepted, the credential evaluation service must be a member of NACES (National Association of Credential Evaluation Services).

2. Validation by an academic department at Kansas State University. Students initiate validation of prior academic experiences through their college dean's office. Validation by one of the following two options will be at the discretion of the credit-granting department:

a. Course-by-course evaluation examination by comparable K-State academic department.

b. The advisor and/or academic dean's office makes a preliminary evaluation of the level a student has completed and begins the student at that level. Upon successful completion of that course, all related lower-level courses in that area, as determined by the department granting credit, would be validated and credit awarded.

Enrollment requirements

All new students whose primary language is not English must demonstrate English Language proficiency before completing enrollment for the first time at the university. This requirement applies to international and non-international, permanent residents, immigrants, transfer and non-transfer student alike. An assessment test of written and spoken proficiency is given by the English Language Program prior to each enrollment period. Based on results of the student's proficiency, the director of the English Language Program may recommend one of the following enrollment options.

1. Full-time study in the English Language Program until adequate proficiency is demonstrated.

2. A combination of part-time study in the English Language Program and part-time study in the academic area until adequate proficiency for full-time academic study is demonstrated.

3. Full enrollment in an academic program with no English language requirements.

Residency

Initial residency with regard to tuition categories is determined by the Office of Recruitment and Admission. Resident tuition classification is determined by criteria found in Kansas statutes and regulations of the Kansas Board of Regents. Students are responsible for providing information sufficient to support their applications for resident classification.

Fraudulent Applications

An individual who intentionally withholds or provides fraudulent information on an application for admission or readmission may be subject to denial of admission, disenrollment, or immediate dismissal from the university. Such decisions will be made by the director of admissions or a designated admissions officer after a complete review and consultation with the appropriate academic unit. The individual has the right to appeal the decision within three business days by requesting a conference with the Vice Provost for Enrollment Management. The Vice Provost for Enrollment Management or a designee is authorized to hold the conference and issue a decision.

Majors with Different Requirements

Admission requirements for different student types assure admission to the university but some majors and programs utilize selective admission or have established other criteria.

Academic Program	Type of Student	Requirements
Architecture, Interior Design, Industrial Design, Landscape Architecture, Regional and Community Planning, College of Architecture, Planning and Design, Interior Design	Freshman and Transfer	Admission is selective based on academic performance and space availability. Fall entry term only. Priority dates for completed application consideration and/or accepting an offered seat are established by the program.
College of Business Administration	Transfer	Transfer students must have a cumulative college/university GPA of 2.5 or higher.
Carl R. Ice College of Engineering	Domestic freshmen or transfer	Admission is selective based on academic performance and space availability. Fall entry term only. Priority dates for completed application consideration and/or accepting an offered seat are established by the program.
Music and Music Education, College of Arts and Sciences	Freshmen or transfer	Enrollment in specific studios requires an audition. Admitted students will be sent details regarding audition options.
Professional Pilot, College of Technology and Aviation	Freshmen or Transfer	Admission is selective based on academic performance, space availability, and holistic review. Priority dates for completed application consideration and/or accepting an offered seat are established by the program.
Psychology, College of Arts and Sciences	Transfer	Transfer students must have a cumulative college/university GPA of 2.5 or higher.

Auxiliary Services and Facilities

Office of Institutional Equity
Alumni Association
Child Care: K-State Center for Child Development
Child Care: School of Family Studies and Human Services
Communications and Marketing
Information Technology Services (ITS)
K-State Family Center
K-State Speech and Hearing Center
KSU Foundation
Libraries
Police Department
Postal Service
Collegian Media Group
University Press of Kansas

Note: All addresses are in Manhattan, unless otherwise noted.

Office of Institutional Equity

103 Edwards Hall
785-532-6220
E-mail: equity@k-state.edu
www.k-state.edu/oie

The Office of Institutional Equity is available to students on matters of equal opportunity in admissions, access to University sponsored programs and activities, and employment due to race, color, ethnic or national origin, sex, sexual violence, sexual orientation, gender identity, religion, age, ancestry, disability, military status, veteran status, dating or domestic violence, or stalking. Students with concerns about any of the basis listed above may contact the office. The Office of Institutional Equity also includes the University's Title IX Coordinator and investigation team. These individuals are available to assist in coordinating support and services to students in need of assistance after experiencing any form of discrimination, harassment, sexual violence, stalking, or relationship violence.

Alumni Association

K-State Alumni Association
1720 Alumni Center
785-532-6260 or 1-800-600-2586
E-mail: alumni@k-state.com
www.k-state.com

The K-State Alumni Association is a 41,000-member, nonprofit organization whose mission is to lead and inspire lifelong involvement that will benefit Kansas State University and all members of our Wildcats Community. This is accomplished through student recruitment programs, quality publications and communications, constituent events, affinity programs and maintenance of records on more than 320,000 alumni and friends.

Child Care

K-State Center for Child Development

1 Jardine Drive
785-532-3700
E-mail: childcare@k-state.edu
www.k-state.edu/ksucdc

The K-State Center for Child Development is a Student Support & Accountability department serving the child care and early childhood education needs of K-State students, faculty, staff and the community. It is fully licensed by the Kansas Department of Health and Environment and is a nationally accredited program through NAFYC. It is professionally staffed and uses a nationally acclaimed curriculum. The Center also partners with Child Care Aware of America to offer subsidies to military families. The Center provides a variety of subsidies to make childcare affordable to families. The Center offers full-day high quality and educational programs for infants through prekindergarten children and school age in the summer. The Center is open year-round offering care Monday through Friday from 7 a.m. to 5:30 p.m.

School of Family Studies and Human Services

303 Justin Hall
785-532-5510
Fax: 785-532-5505
E-mail: fshs@k-state.edu
www.hhs.k-state.edu/fshs

The School operates six early childhood classrooms for children aged 6 weeks through five years at The Stone House Ruth Hoeflin Early Childhood Education Center and C.Q. and Georgia Chandler III Institute for Child and Family Studies on N. Manhattan Avenue. The site serves as a teacher training facility for students enrolled in the pre-service early childhood education program. Enrollment in the program is open to members of the K-State and Manhattan communities. The facility is licensed by the state of Kansas and accredited by the National Association for the Education of Young Children. The learning environments and planned experiences are designed to foster children's cognitive, language, social, emotional, and physical growth and development. Enrollment application forms are available online.

Four of the classrooms provide year-round, full-day care and education for the children ranging in age from 6 weeks through five years of age. Priority in enrollment is given to children of parents working full- time. Two classrooms, The Early Childhood Laboratory, host an interagency program with USD 383. The classrooms integrate children identified by USD 383 who have delays and/or disabilities with non-handicapped children. Forty-eight children, ranging in age from 3 to 5 years, are enrolled in this part-year, part-day preschool program.

K-State Family Center

139 Campus Creek Complex
785-532-6984
Fax: 785-532-6523
E-mail: family@k-state.edu
www.hhs.k-state.edu/familycenter

The K-State Family Center provides applied educational training to students while offering counseling, family-related educational programs, consultation, and mediation services to Manhattan and the state. On-site services include individual, couple, family and group therapy, and parent education. Outreach programs include contracts with Junction City Smart Start program providing home-based family play therapy, parent education and staff consultation. State sponsored home-based family therapy training is also provided for clinicians throughout the state through contracts with SRS and KHS.

Communications and Marketing

128 Dole Hall
785-532-2535
Fax: 785-532-7355
E-mail: jbmorris@k-state.edu

The Division of Communications and Marketing has a mission to fully integrate our university image and message delivery; to increase the impact and efficiency of institutional and marketing objectives; and to unify the brand voice in order to continue K-State on the path to an improved state, national, and international reputation. The division is charged with creating and leading a comprehensive communications and integrated marketing program that emphasizes Kansas State University's unique brand and enhances the visibility of the university.

University Services

128 Dole Hall

128 Dole Hall
785-532-2535
Fax: 785-532-7355
Email: aprosser@k-state.edu
www.k-state.edu/marketing

University Marketing provides marketing consulting services for strategic enrollment management, as well as Presidential and Provost initiatives. Our staff members serve as first points of contact/project managers for university partners to access all Division creative services. Additionally, we develop marketing/promotional content for use across all media and channels.

Design Services

128 Dole Hall
785-532-2535
Fax: 785-532-7355
E-mail: abclevel@k-state.edu
k-state.edu/design

Design Services is responsible for designing and coordinating production for print and Web projects used in the advancement of Kansas State University.

Photographic Services

128 Dole Hall
785-532-2535
Fax: 785-532-7355
E-mail: photo@k-state.edu
k-state.edu/photo

Photographic Services offers location and studio photography. We offer walk-in portrait days twice monthly.

News and Communications Services

128 Dole Hall
785-532-2535
Fax: 785-532-7355
E-mail: cholling@k-state.edu
media@k-state.edu

socialmedia@k-state.edu
www.k-state.edu/media

News and Communications Services coordinates public information about K-State and is the official outlet for K-State news. The unit administers the general university social media accounts and offers editing and writing assistance to university colleges, departments and units. It also works in conjunction with emergency management personnel to provide crisis communications. Additionally, News and Communications Services edits and distributes distributes the university's official daily newsletters, *K-State Today*, for faculty and staff, and *K-State Today Student Edition*. The unit also works in conjunction with the Vice President for Research to publish the university's flagship research magazine, *Seek*.

Video and Engineering Services

128 Dole Hall
785-532-2535
Fax: 785-532-7355
E-mail: ves@k-state.edu
www.k-state.edu/video

Video and Engineering Services offer a full-service production facility with skilled broadcast and production professionals ready to assist with studio, remote, or other video production needs. Facilities include a professional broadcast studio, remote production truck and digital satellite uplink vehicle. From pre-production to post-production, Video and Engineering Services is a "one-stop shop" for audio and video production.

Web Services

128 Dole Hall
785-532-2535
Fax: 785-532-7355
Email: webservices@k-state.edu
www.k-state.edu/webservices

Web services promotes a consistent, positive image of K-State by managing the university's Web presence and overseeing K-State's content management system. Services include Web design, information architecture, multimedia content, user experience research and email marketing.

Information Technology Services (ITS)

IT Help Desk
214 Hale Library
785-532-7722
(800-865-6143 toll free)
Fax: 785-532-3199
E-mail: helpdesk@k-state.edu
www.k-state.edu/its

The university provides technology resources and facilities for faculty, staff, and student use. K-State's high-speed data network allows access from residence halls, off-campus, the K-State Student Union, the library, university computing labs, technology classrooms, and locations equipped with wireless access points.

To learn about information technology at K-State, visit the Welcome to IT at K-State website.

For questions or assistance with any information technology resources, contact the IT Help Desk at 785-532-7722 or visit the IT Help Desk website.

Responsible use of the university's technology resources is expected of everyone. All K-Staters must comply with the university's IT policies.

eIDs and passwords

K-State students and employees have an electronic identifier (eID) on the central computer system. It allows access to email, KSIS the student information system, K-State Online, the K-State wireless network, Zoom videoconferencing, HRIS Self-Service and more.

Passwords must be changed every 180 days. To complete this update, visit the eProfile page.

K-State will never ask for your password in an email. Delete any email that asks for your password.

Email

K-State provides email service to all students and university employees. Your official, primary K-State email address has two forms: eid@k-state.edu and eid@ksu.edu. The university sends official correspondence to K-Staters via their primary email addresses with full expectation that communications will be received and read in a timely manner.

For information about the central email services offered at K-State, visit the website.

Microsoft Office software

Office 365 ProPlus is free for all K-Staters. It includes desktop and mobile app versions of Microsoft Office and can be installed on up to five PCs or Macs, five tablets, and five phones: k-state.edu/its/office365/help.

Antivirus and security

K-Staters must protect their computers from security risks and threats.

Those who use the campus network must install K-State's free antivirus software. The latest version can be downloaded from the K-State antivirus website.

The IT security website has news, policies, and preventive measures.

Emergency notices (K-State Alerts)

K-State Alerts is the campus emergency notification system. Sign up at eid.k-state.edu to receive emergency text messaging and phone calls.

Computing labs and InfoCommons

More than 400 computers and printing facilities are available in Hale Library and in university computing labs throughout campus. Computer labs provide free access to electronic information resources and software programs, including email, internet

access, word processing, spreadsheets, databases, statistical analysis, and programming languages. To locate computer labs on campus and learn more, visit the computing labs and InfoCommons website.

Media Development Center

The Media Development Center in 213 Hale Library provides free resources, tutorials, and assistance. Create videos; scan and edit photos and images; make music and audio recordings; and more. Multimedia equipment includes a color printer, a 3-D printer, CD/DVD burners, a variety of scanners, a sound booth, and video-editing resources. Visit the MDC website for additional information.

Equipment checkout

Cameras, laptops, and audio-video equipment are available for free checkout. Call 785-532-4918, email itacrecp@k-state.edu, or visit the website to reserve equipment.

Connecting to K-State (wireless and direct network)

There are two ways to connect to the campus data network and then to the internet:

Direct network connection, using a hard-wired line and an Ethernet card.
K-State buildings are directly connected to the internet.

Wireless network connection.
K-State's wireless computer network allows laptops and other mobile-computing devices to link to the internet without being physically tied to an Ethernet connection line.

A current K-State eID and password is required to configure your device and access the secure wireless network. For more information visit the website.

Three wireless networks are available. KSU Wireless is for all K-Staters, and KSU Housing is for residence halls and Jardine Apartments. KSU Guest provides basic Internet access, but cannot access protected campus resources such as webmail, KSIS and HRIS. For more information visit the website.

Information resources

Web-based information resources include the student information system (KSIS); the library catalog system; the K-State Research Exchange institutional repository; K-State Online Classic and K-State Online powered by Canvas and more. The IT Services Directory has a complete list of links to many resources. For more information visit the website.

Computer repair

Computer repair (a service of iTAC) provides fee-based computer and peripheral repair services to the campus community and for home computers of students, faculty, and staff. Contact the IT Help Desk for details. Support staff also install and configure software; provide warranty support for Apple and Dell computers; remove malware and more.

Chief Information Officer and Vice Provost for Information Technology Services

Gary Pratt, Chief Information Officer
Rob Caffey, Special Assistant to the CIO

Betsy Draper, Associate Vice Provost
116 Unger Complex
2323 Anderson Ave.
785-532-6520
E-mail: its@k-state.edu
www.k-state.edu/its

Network and Telecommunications Services (NTS)

Danny Fronce, Director
1105 Sunset Avenue
785-532-7000
E-mail: nts@k-state.edu
www.k-state.edu/nts

Network and Telecommunication Services (NTS) provides phone services, data and networking services, and local service and cable TV for students living in residence halls. For a full list of services, visit the website.

Information Systems Office (ISO)

215 Unger Complex
2323 Anderson Avenue
785-532-6281
E-mail: iso@k-state.edu
www.k-state.edu/iso

The K-State Information Systems Office provides application development services and database management services in support of enterprise application systems. Application Development Services installs, develops, and maintains enterprise systems facilitating central administrative functions such as accounting, payroll, budget, human resources, admissions, student records, student financial assistance, facilities management, and parking. Database Management Services provides database administration services supporting all enterprise database applications.

Information Security & Compliance (ISC)

12A Hale Library
www.k-state.edu/its/security/

The K-State Office of Information Security and Compliance manages the IT security infrastructure of the University, works to help all K-Staters understand the importance of good security practices in the use of technology at K-State, and helps to ensure compliance with legal or regulatory IT mandates.

Information Technology Assistance Center (iTAC)

214 Hale Library
785-532-4918
E-mail: helpdesk@k-state.edu
www.k-state.edu/its/helpdesk/index.html

iTAC is the first point of contact for IT needs including help with eID and passwords and other help desk-related questions, technology classrooms, university computing labs, innovative classroom environments, video conferencing, face-to-face and online technical training, instructional design, equipment checkout, and multimedia development in the Media Development Center.

Office of Mediated Education (OME)

Suite 146 Unger Complex
2323 Anderson Avenue
785-532-5698
E-mail: omeoffice@k-state.edu
ome.k-state.edu

The Office of Mediated Education provides and maintains services and applications in support of the K-State academic mission. Services include: Instructional Design, Web Presentation Services, Audio & Video Webcasting, Application Integration, and CD/DVD Duplication. Applications include: K-State Online, K-State Enterprise Authentication (KEAS), Connect, Pulse and many others.

KSU Foundation

1800 Kimball Avenue, Suite 200
785-532-6266
E-mail: foundation@found.k-state.edu

https://ksufoundation.org/

The KSU Foundation was established in 1944 as the official fundraising arm of Kansas State University. It is a separate, independent organization chartered by the state of Kansas as a 501(c)(3) nonprofit educational corporation. Gifts to the foundation are tax-deductible to the full extent of the law.

Foundation staff members work in close partnership with university administrators, deans and faculty to secure charitable contributions from individuals, corporations and foundations to support identified priorities for the university. Gifts received through the foundation fund undergraduate and graduate student scholarships, establish faculty chairs and professorships, provide departmental support, and enhance the campus infrastructure.

A volunteer board of trustees governs the foundation. A 15-member board of directors meets quarterly and is authorized to act on the trustees' behalf.

K-State Speech and Hearing Center

139 Campus Creek Complex
785-532-6879
E-mail: rgarcia@k-state.edu
www.hhs.k-state.edu/speech/

The K-State Speech and Hearing Center provides evaluation, intervention, and consultation services to individuals with articulation, fluency, voice, language and swallowing, or hearing impairments. These clinical services are available to university students, children, and adults of the surrounding communities. The center provides educational and clinical experiences for students preparing for careers in speech-language pathology and audiology.

Libraries

K-State Libraries
Hale Library
785-532-3014
E-mail: library@k-state.edu
www.lib.k-state.edu

K-State Libraries manifests the land-grant values and rich history of Kansas State University. We elevate academic success as an integral partner in research, learning, and discovery. We advocate for our campus and our community, connect their imaginations to information, and number their successes among our own.

All of the K-State Libraries venues offer areas for individual and group study and often include technology-enabled meeting rooms. Inside Hale Library, the Great Room anchors the third floor Quiet Zone for focused individual work, while the area around Library Help on the second floor is a hub of activity for group projects and study.

When classes are in session, Hale Library is open 24 hours a day, 5 days a week, plus weekend hours. This ensures that whenever students need a place to study, the Libraries can be a first option. Additionally, the Anita C. Lehner 24 Hour Study Area inside Hale Library is open 365 days a year for study space or computer use.

The Libraries employ approximately 100 staff full-time, including faculty librarians, unclassified professionals, and classified professionals. The part-time student staff numbers approximately 60.

Collectively the Libraries maintain three million volumes to support the diverse academic, instructional, and research activities of Kansas State University. Technology allows students and faculty to be outside the library building, off campus, and even out of the country and still have the ability to access online databases, journals, and books. Personal research assistance is available from anywhere through the Libraries' website and services like Ask a Librarian that include chat, text message, and email options. We've been answering your questions since 1863 and finding new ways to do so every day.

In addition to Hale Library, there are five specialized branch libraries: Fiedler Engineering Library, Math/Physics Library, K-State Polytechnic Campus Library, Veterinary Medical Library, and Paul Weigel Library of Architecture, Planning and Design.

K-State Libraries: Elevating Academic Success!

Police Department

108 Edwards Hall
785-532-6412
911 emergency
E-mail: police@k-state.edu
www.k-state.edu/police

LiveSafe

The Kansas State University Police Department helps preserve a safe campus environment where diverse social, cultural and academic values are allowed to develop and prosper.

The department has 23 police officers serving the campus community. Patrols operate 24 hours a day, seven days a week, 365 days a year through the campus, KSU Foundation property, parking lots, residence halls, Jardine apartments and athletic complex grounds.

University police officers derive their authority from KSA 76-726 and are fully commissioned law enforcement officers vested with full police/law enforcement authority with arrest powers. Officers are state-certified and receive their basic law enforcement training from the Kansas Law Enforcement Training Academy. Officers receive a minimum of 40 hours of in-service training each year to maintain their state certification.

24 hour services include Multi-Media Messaging (similar to Text to 9-1-1) through LiveSafe, K-State Alerts, and Wildcat Walk (escort across campus). Additional services provided upon request include ALICE training, Community Safety Talks, and Emergency Operations Planning. Fingerprinting is offered during limited hours.

Postal Service

Contract Post Office
113 Dykstra Hall
785-532-6306 (messages only, clerk will return call)
www.k-state.edu/facilities/operations/cms/ContactractPostOffice.html

Central Mail Services
109 Dykstra Hall
785-532-7751 (distribution of all interdepartmental mail and metering of departmental outgoing mail)
E-mail: centralmailservices@k-state.edu
www.k-state.edu/facilities/operations/cms/

All mail for students must be addressed to their off-campus Manhattan address or residence hall/Greek address. Postage should be applied to this mail, and it should be sent through the United States Postal Service.

Manhattan Post Office personnel deliver U.S. mail directly to university buildings and residence halls and pick up outgoing U.S. mail from various locations on the campus.

The Contract Post Office sells stamps, and other postal supplies; weighs, insures, and registers mail; and receives outgoing U.S. mail.

Collegian Media Group

103 Kedzie Hall
785-370-6355
E-mail: swolgast@collegianmedia.com
www.kstatecollegian.com

K-State students of all majors produce the *Kansas State Collegian* daily newspaper and *Royal Purple* yearbook the nation's most honored tandem of collegiate publications.

Student journalists produce and select all content in the *Collegian* and *Royal Purple*. Their experience as reporters, photojournalists, designers, graphics journalists, illustrators, copy editors, and editors launches them into internships and careers across the nation. A student staff also sells thousands of dollars in advertising to help underwrite the publications.

Collegian Media Group is an independent local agency that publishes the newspaper, yearbook, and Manhappenin' magazine. Its board of directors hires editors in chief and supervises finances, but content decisions rest with the student staffs of the publications. The newspaper advisor also teaches in the A.Q. Miller School of Journalism and Mass Communications.

Royal Purple staffs are hired annually. *Collegian* staffs are hired by semester. Staff applications are available in 103 Kedzie Hall, with applications due in early November and early March for subsequent semesters.

University Press of Kansas

2502 Westbrooke Circle
Lawrence, Kansas 66045-4444
785-864-4154
E-mail: upress@ku.edu
www.kansaspress.ku.edu

Kansas State University, in association with the other five Regents' universities, operates and supports the University Press of Kansas for the purpose of publishing scholarly and regional books on a nonprofit basis. The press is governed by a board of trustees composed of the chief academic officers of the sponsoring institutions.

K-State Athletics

Gene Taylor, Director of Athletics
E-mail: kstatead@kstatesports.com
www.k-statesports.com

Head Coaches: Burke, Dibbini, Hughes, Klieman, Mansfield, Mittie, Robbins, Rovelto, Jordan Smith, Sweeney, and Tang
Associate Head Coaches: Astor, Wates, Maligi and Carstens
