Survey Information:

- The Alumni Survey is designed to give graduates an opportunity to reflect upon their years at K-State one year after graduation. This information is used to improve the college experience for future students by identifying strengths in our programs as well as areas that need further development. The survey includes questions relating to academic program satisfaction, intellectual and personal growth, student services, and preparation for a career or graduate/professional school.
- The 2014-15 survey was administered to alumni who graduated one year ago. It was offered via e-mail over the period 9/17/2014-11/17/2014.

191 of 438 (43.61%) reported participating in a research or creative endeavor

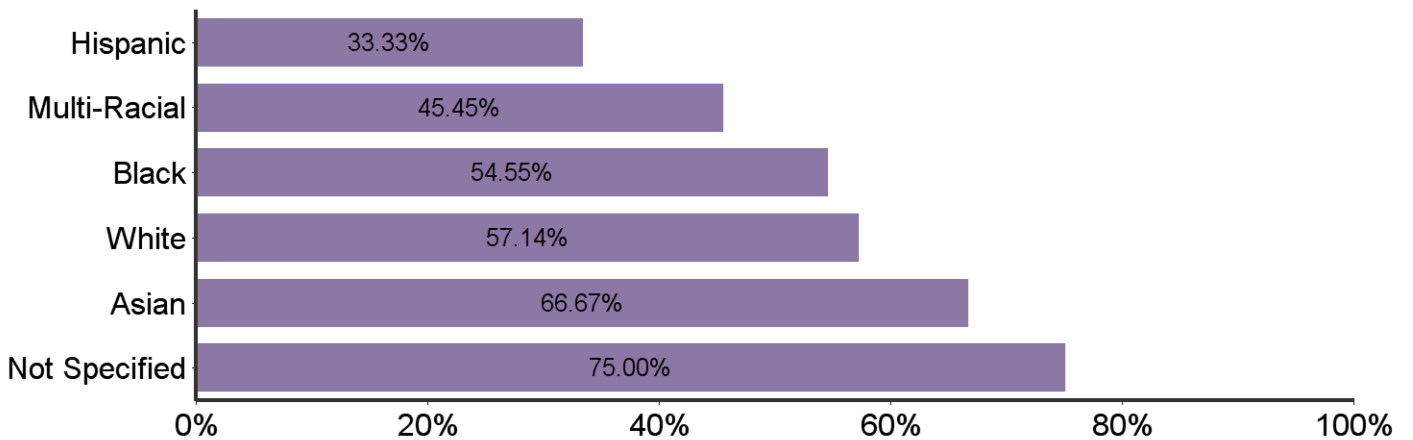

Percentage of respondents reporting participation in research by College

Percentage of respondents reporting participation in research by Gender

Percentage of respondents reporting participation in research by Ethnicity/Race

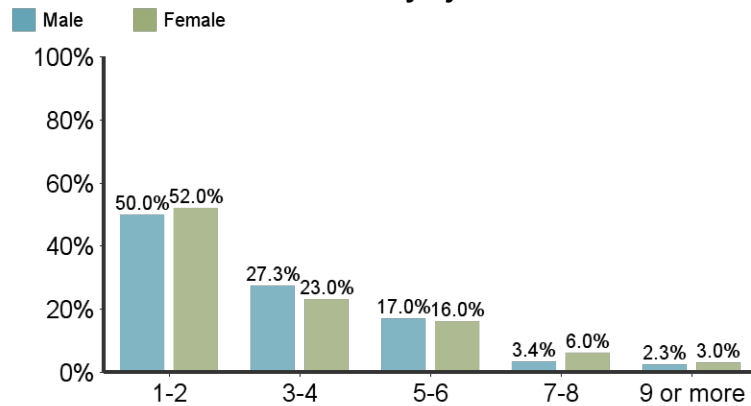

Note: The following results contain only responses of those that answered "Yes" to the question "In your undergraduate education, were you involved in a research or creative endeavor".

Number of semesters repondents reported research activity by College

	University	Arts and Sciences	Agriculture	Engineering	Business	Human Ecology	Education	Technology and Avaiation
