

NAME OF PRACTICUM STUDENT: _____

This Student:	always	usually	sometimes	seldom	can't evaluate
was present for assigned hours each week					
arrived on time and stayed to the end of the period; did required prep and clean-up work					
appeared to be actively involved with answering student questions					
was available to Principles students by being visible, approachable, and active					
seemed to be well prepared in terms of factual content					
had good rapport with students and answered questions in a correct and understandable manner					

Considering that students take Practicum in Biology to 1) solidify their own knowledge of biology, 2) to gain in communication and teaching skills, or 3) as an opportunity to help others learn; and considering their major responsibilities to the course are: 1) to help students learn biology, and 2) help keep the lab running smoothly, how would you rate their overall development and performance during the semester? Circle the appropriate response.

 A
OUTSTANDING

 B
VERY GOOD

 C
AVERAGE

 D
BELOW AVERAGE

 F
POOR

Do you have any comments that will provide feedback to this student to make him/her more effective in working with students and for his/her own development as a student?
