

Microbiology (B.S.): Sample Curriculum

The following remaining K-State 8 requirements should be considered when selecting courses for the College-level general education requirements:

- Aesthetic Experience and Interpretive Understanding
- Ethical Reasoning and Responsibility
- Global Issues and Perspectives
- Historical Perspectives
- Human Diversity within the U.S.
- Social Sciences

Notes:

All Bachelors Degrees require 120 credits, of which 45 must be upper division courses. Only 60 credits transferred from a community college may count toward degree requirements.

Many microbiology electives are offered only Fall or Spring; check for availability. **Most biology courses are NOT offered over summers.** Check official degree requirements for complete list of microbiology electives.

The following also needs to be considered in the College-level general education requirements:

- Soc. sci. courses need to be from three different disciplines.
- One soc. sci. course must be at 500 level or above, or carry a prerequisite in the same department.
- One of the general education courses needs to fulfill the International requirement.
- The philosophy course cannot be a logic class.

KEY

Course no. (credits)
Course name

Course offered only in Fall term

Not indicated on chart: Biology courses require BIOL 198 as a prerequisite

Course offered only in Spring Term

at least 5 of 10 micro elective credit hrs must be **laboratory credits**

Course offered Fall and Spring, sometimes summer

Course required as a co- or pre-requisite

Course requires a prerequisite (arrow enters from left)

Total Hours:
120+
