

Status of iSIS Task Force Brainstorming Issues – Updated October 2010

No.	Category	Issue	Status
2	Advising	Link to DARS, Term History, etc from Adviser Page	Completed.
27	Search Process	Search function across IDs	Completed, subject to later review. (Includes students since 2005. Does not include non-matriculated students.)
3	Advising	Advisers need to know what students and faculty are seeing	Shopping cart is in ADV Center. Check after upgrade.
11	Advising	Easier access to test credit details (AP, DANTEs, etc.)	Listed in “Transfer” tab. Check after upgrade.
13	DCE	DCE needs ability to track delivery methods on a percentage, class by class basis.	Will include non-DCE classes; class attribute. In upgrade.
40	Usability	Provide way to print student schedule by hitting a print button.	At “top of the list” after upgrade.
43	Usability/ Advising	Ability to leave comments on various pages. Need ability for advisors to leave notes so next advisor knows the history.	Requires scheduling meeting with Univ. attorney. Students also want a comments site.
44	Usability	Unofficial transcript preferred over Academic History.	Planned for February 2011 roll-out. Will be available to advisors.
50	Usability/ Defaults	Add Final Exam Schedule (day/time) to Student Class Schedule.	In process for Spring; may have update in Jan.
33	Student Process	Results for students need to display additional info – reserve capacity needs to be displayed.	Top priority after upgrade.
8	Advising	Cumulative GPA on Academic History	Will look better in February report; repeat testing continues.
9b	Advising	Total hours in academic tab/retakes.	After upgrade.
14	DCE	Batch load DCE classes into iSIS.	Recommend using Course and Curriculum approval process.
29	Search Process	Include student plan in search results.	Completed.
42	Usability	Ability to make batch request (such as term history) – by group,	Need specs for report.
28	Usability	Return to search button on both top and bottom of page.	Shortcut: Ctrl l? Check Ctrl j. Ctrl k for list of shortcuts. Mouse over button for shortcuts. Alt 2 = return to search
