

Explore your opportunities

Graduate School

Research resources allow for both breadth and depth of the graduate experience. K-State averages more than

\$233 million in funding

each year. K-State offers excellent research facilities such as the **Biosecurity Research Institute**, Center for Sustainable Energy and the Konza Prairie Biological Station.

Graduate students at K-State have the opportunity to participate in research symposiums and to present research at state, regional and national meetings. Students are also eligible to earn honors and awards for outstanding research.

History of excellence

Founded in 1863 as America's first operational land-grant university, Kansas State University is a comprehensive research institution with master's and doctoral programs. Students representing 85 countries from around the world come to K-State to study a wide range of graduate programs, which includes several interdisciplinary programs.

Distinguished faculty

The graduate faculty at K-State has been recognized nationally and internationally for its scholarly accomplishments and teaching. Faculty members play an active role in guiding your academic program teaching your courses, serving on your graduate committee and acting as mentors.

Research facilities

K-State respects and admires the enthusiastic scholarship that graduate students bring to the university. Students perform research alongside faculty in leading facilities. A vast library network houses more than 2 million books and provides online access to more than 49,000 journals, databases and books. The Sensory and Consumer Research Center provides students with the opportunity to perform qualitative and guantitative consumer research. Atomic, molecular and optical physics students work with ultrafast intense lasers in the James R. Macdonald Lab. The Wheat Genetics Resource Center features state-of-the-art laboratories, greenhouses and field plot facilities. More than 75 additional specialized research centers unite researchers across disciplines and drive innovative research and discoveries.

Financial support

Graduate assistantships, fellowships, scholarships and loans are available to graduate students. Most programs offer graduate teaching or research assistantships with a monthly stipend. Graduate students on half-time assistantships are eligible for a resident tuition waiver. On average, graduate students awarded financial assistance receive more than \$10,000 per academic year.

Many fellowships and scholarships for graduate study are available through individual colleges and departments. Contact the program you are interested in for more information.

Graduate student funding sources

Based on graduate student funding during 2011-2012 academic year. Percentages do not include funding that was awarded but not accepted.

Top quality

"I looked into several professional development programs and degrees, but the more that I looked it became clear that the K-State program was the most well-structured."

> Tim Ulrich Master of Agribusiness

You have goals...so do we

With the goal of becoming a Top 50 public research university by 2025, K-State celebrates a tradition of success and looks ahead to new opportunities. We are dedicated to advancing a culture of excellence that will attract highly talented, diverse graduate students and producing graduates who are recognized as outstanding in their respective professions.

Get involved

Graduate Student Council (GSC) is a highly active student governing board for graduate students. GSC provides students with professional development, networking and leadership opportunities. GSC awards students travel grants to present their research and scholarly work at professional meetings and to attend conferences. Students participate in a variety of networking events sponsored by GSC and other graduate student organizations.
