

# ANIMAL/PLANT HEALTH

## JOINT CRIMINAL-EPIDEMIOLOGICAL INVESTIGATIONS COURSE

**August 8–9, 2017**

8:00 a.m.–5:00 p.m.

Manhattan, Kansas

**Kansas State University Student Union**

918 N. 17<sup>th</sup> St.

**Training Cost: FREE**

### Training Objectives

- **Understand** law enforcement, animal health, and plant health roles, responsibilities, and authorities during an outbreak of an unusual and/or high-consequence animal or plant disease, including:
  - Law enforcement threat assessments, intelligence, and investigations; and
  - Animal/plant health epidemiological, veterinary, and plant investigations.
- **Identify** assets and capabilities for each discipline.
- **Demonstrate** types of information collected by law enforcement and animal/plant health experts and how and when to share it with each discipline.
- **Discuss** best practices for conducting a joint threat assessment, joint investigations, joint interviews, and evidence collection.
- **Develop** inter-professional relationships between law enforcement and animal/plant health experts.
