

Animal Care and Use Disaster Preparedness Key Personnel Roster

In the event of a crisis or disaster (tornado, flood, earthquake, fire, etc.) that may affect the health or welfare of research or teaching animals, it is the responsibility of the animal care unit to be prepared to deal with likely emergencies. The individuals listed below are identified as “Key Personnel” for the K-State animal care and use program, and should be notified immediately in case of a crisis that involves animals on campus or in their specific area of responsibility. In the event of a campus emergency, an initial “command center” will be established at the Comparative Medicine Group (CMG) office, Room 417 Trotter Hall (phone 532-5640). Depending on an assessment the situation by key personnel, the command center may be moved to a more appropriate site.

Brad Woods	Associate VP for Research Compliance	(785)532-2318 (Office) (814)321-4591 (Cell)
Comparative Medicine Group (CMG)		(785)532-5640 (Main Office)
