Rationale and Impact

List of Reasons/Rational for Discontinuation*

- **The degree/major is a low-award program that no longer serves needs of students, faculty, and the mission of the university.
- **The degree/major is part of a restructuring plan that will result in a merger or re-organization of existing programs.
- **The degree/major has student enrollment and student interest, but a range of circumstances – often budgetary or resource allocation issues – compel the program faculty and school/college dean to seek program discontinuation.
- **Other: state reason in box below

As referenced in the University Handbook, Appendix K: Discontinuance of Academic Programs {<https://www.k-state.edu/provost/universityhb/fhvk.html>}

Other Reason/Rational for Discontinuation

Use only if checked the box Other above in the List of Reasons/Rational for Discontinuation

Justification for why the program is being discontinued*

Required Justification for why the Plan/Sub-Plan(s) are being Discontinued: University Handbook, Appendix K: Discontinuance of Academic Programs {<https://www.k-state.edu/provost/universityhb/fhvk.html>}

WARNING: Summarize impact on other units

Indicate how the discontinuation of the plan/sub-plan(s) impacts other units, etc...

If other areas/units or plans are impacted statements should include the date when the head of a unit was contacted, and the response or lack of response

We highly recommend you consider running an Impact Report if the program/plan is a Concurrent or Interdisciplinary program. Additionally, running this report may help you make sure that the program/plan is not listed in another program as a possible option for degree completion.

- Explain the effects this proposal may have on other units
- For courses listed in the program, contact all affected units

- Will this affect enrollments in courses in another college?
- Failure to contact all impacted units and include responses can cause a delay
- Include responses (or lack of response) in the box below or attach copies

Impact Statement***Transition Plan: Sun-Set Plan***

Indicate the number of students currently enrolled and admitted to the program/plan. Will students be moved to a new option (i.e., Freshman/Sophomore standing will be moved to _____ and Juniors/Seniors will be allowed to finish out in the current code. Students that have applied to graduate but are not enrolled – will they be contacted, etc...

What Term Should Admissions Stop:*

The recruitment cycle for undergraduate and graduate programs actually begins 8-15 months prior to the semester starting. Most admission decisions and registration processes have occurred or are in the final decisions weeks before the semester start. If the next available semester is being chosen you will be required to work with UG or GR Admissions on a transition plan for ALL new admits.

When is the Final Term the Program Will Be Offered or a Degree Can be conferred:*

Baccalaureate and master's programs can be phased out over a maximum of five academic years. A five-year phase-out would allow for any new admits (aka – Freshmen) to finish out the degree they were just admitted to. Doctoral programs can be phased out over a maximum of six academic years.
