

Supported Browsers

- Coursedog ensures full compatibility with the latest general availability release of the following browsers: [Microsoft Edge](#), [Mozilla Firefox](#), [Google Chrome](#), and [Apple Safari](#).
- Microsoft Internet Explorer 11 may be used to access Coursedog applications but will result in a subpar experience.
- We recommend Internet Explorer users switch to Microsoft Edge.
- Other browsers (including older versions of Internet Explorer) are not supported.
- Although users are able to access the app, we cannot ensure full compatibility for all in-app functionality for browser versions that are more than two years old.

Accessing Coursedog

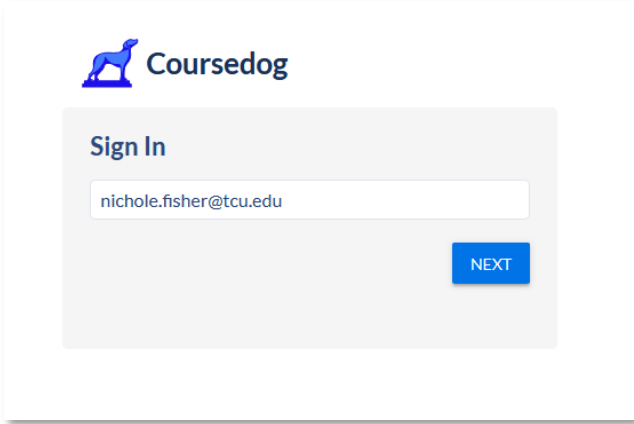

To log into Production, [go here](#).

Logging In

Single Sign On (SSO)

If your school uses Single Sign On (SSO), you will need to know your institutional login information. The good news is that you won't have to maintain another username and password!

Step 1: Enter your email address into the standard login page.

A screenshot of the Coursedog login interface. At the top left is the Coursedog logo, which consists of a blue silhouette of a dog standing on a small blue base, followed by the word "Coursedog" in a blue sans-serif font. Below the logo is a light gray rectangular box with rounded corners. Inside this box, the text "Sign In" is displayed in a blue sans-serif font. Below "Sign In" is a white text input field with a thin gray border, containing the email address "nichole.fisher@tcu.edu". To the right of the input field is a blue rectangular button with the word "NEXT" in white, uppercase, sans-serif font.

Step 2: You will then be redirected to your institution's login page, where you will input your username and password for your institution.
