In Fall 2010, the Federal government mandated changes in the way Race/Ethnicity was collected and reported. The new two-question format required that individuals first be asked whether they were Hispanic or not, followed by the option to choose one or more racial identities. This change also affected reporting results, since persons selecting the ethnicity "Hispanic" are reported as such, regardless of the racial identities selected. Caution is recommended when considering any race/ethnicity trends that include data both prior to and after this change.

*This category included Hawaiian/Pacific Islander until Fall 2008 for enrollment and FY 2011 for degrees conferred

**Example: Fiscal Year 2003 includes Summer and Fall 2002, and Spring 2003.

***Ethnicity totals do not match male/female totals in Fall 2002; doctoral student gender counts for 2002 do not include AgEcon (see footnote in Economics doctorate table).

In Fall 2010, the Federal government mandated changes in the way Race/Ethnicity was collected and reported. The new two-question format required that individuals first be asked whether they were Hispanic or not, followed by the option to choose one or more racial identities. This change also affected reporting results, since persons selecting the ethnicity "Hispanic" are reported as such, regardless of the racial identities selected. Caution is recommended when considering any race/ethnicity trends that include data both prior to and after this change.

*This category included Hawaiian/Pacific Islander until Fall 2008 for enrollment and FY 2011 for degrees conferred

**Example: Fiscal Year 2003 includes Summer and Fall 2002, and Spring 2003.

In Fall 2010, the Federal government mandated changes in the way Race/Ethnicity was collected and reported. The new two-question format required that individuals first be asked whether they were Hispanic or not, followed by the option to choose one or more racial identities. This change also affected reporting results, since persons selecting the ethnicity "Hispanic" are reported as such, regardless of the racial identities selected. Caution is recommended when considering any race/ethnicity trends that include data both prior to and after this change.

*This category included Hawaiian/Pacific Islander until Fall 2008 for enrollment and FY 2011 for degrees conferred

**Example: Fiscal Year 2003 includes Summer and Fall 2002, and Spring 2003.

In Fall 2010, the Federal government mandated changes in the way Race/Ethnicity was collected and reported. The new two-question format required that individuals first be asked whether they were Hispanic or not, followed by the option to choose one or more racial identities. This change also affected reporting results, since persons selecting the ethnicity "Hispanic" are reported as such, regardless of the racial identities selected. Caution is recommended when considering any race/ethnicity trends that include data both prior to and after this change.

*This category included Hawaiian/Pacific Islander until Fall 2008 for enrollment and FY 2011 for degrees conferred

**Example: Fiscal Year 2003 includes Summer and Fall 2002, and Spring 2003.

Note: Data prior to Summer 2012 is extracted from previous department since this department did not exist until July 1, 2012.

In Fall 2010, the Federal government mandated changes in the way Race/Ethnicity was collected and reported. The new two-question format required that individuals first be asked whether they were Hispanic or not, followed by the option to choose one or more racial identities. This change also affected reporting results, since persons selecting the ethnicity "Hispanic" are reported as such, regardless of the racial identities selected. Caution is recommended when considering any race/ethnicity trends that include data both prior to and after this change.

*This category included Hawaiian/Pacific Islander until Fall 2008 for enrollment and FY 2011 for degrees conferred

**Example: Fiscal Year 2003 includes Summer and Fall 2002, and Spring 2003.

In Fall 2010, the Federal government mandated changes in the way Race/Ethnicity was collected and reported. The new two-question format required that individuals first be asked whether they were Hispanic or not, followed by the option to choose one or more racial identities. This change also affected reporting results, since persons selecting the ethnicity "Hispanic" are reported as such, regardless of the racial identities selected. Caution is recommended when considering any race/ethnicity trends that include data both prior to and after this change.

*This category included Hawaiian/Pacific Islander until Fall 2008 for enrollment and FY 2011 for degrees conferred

**Example: Fiscal Year 2003 includes Summer and Fall 2002, and Spring 2003.

In Fall 2010, the Federal government mandated changes in the way Race/Ethnicity was collected and reported. The new two-question format required that individuals first be asked whether they were Hispanic or not, followed by the option to choose one or more racial identities. This change also affected reporting results, since persons selecting the ethnicity "Hispanic" are reported as such, regardless of the racial identities selected. Caution is recommended when considering any race/ethnicity trends that include data both prior to and after this change.

*This category included Hawaiian/Pacific Islander until Fall 2008 for enrollment and FY 2011 for degrees conferred

**Example: Fiscal Year 2003 includes Summer and Fall 2002, and Spring 2003.

In Fall 2010, the Federal government mandated changes in the way Race/Ethnicity was collected and reported. The new two-question format required that individuals first be asked whether they were Hispanic or not, followed by the option to choose one or more racial identities. This change also affected reporting results, since persons selecting the ethnicity "Hispanic" are reported as such, regardless of the racial identities selected. Caution is recommended when considering any race/ethnicity trends that include data both prior to and after this change.

*This category included Hawaiian/Pacific Islander until Fall 2008 for enrollment and FY 2011 for degrees conferred

**Example: Fiscal Year 2003 includes Summer and Fall 2002, and Spring 2003.

In Fall 2010, the Federal government mandated changes in the way Race/Ethnicity was collected and reported. The new two-question format required that individuals first be asked whether they were Hispanic or not, followed by the option to choose one or more racial identities. This change also affected reporting results, since persons selecting the ethnicity "Hispanic" are reported as such, regardless of the racial identities selected. Caution is recommended when considering any race/ethnicity trends that include data both prior to and after this change.

*This category included Hawaiian/Pacific Islander until Fall 2008 for enrollment and FY 2011 for degrees conferred

**Example: Fiscal Year 2003 includes Summer and Fall 2002, and Spring 2003.

In Fall 2010, the Federal government mandated changes in the way Race/Ethnicity was collected and reported. The new two-question format required that individuals first be asked whether they were Hispanic or not, followed by the option to choose one or more racial identities. This change also affected reporting results, since persons selecting the ethnicity "Hispanic" are reported as such, regardless of the racial identities selected. Caution is recommended when considering any race/ethnicity trends that include data both prior to and after this change.

*This category included Hawaiian/Pacific Islander until Fall 2008 for enrollment and FY 2011 for degrees conferred

**Example: Fiscal Year 2003 includes Summer and Fall 2002, and Spring 2003.

In Fall 2010, the Federal government mandated changes in the way Race/Ethnicity was collected and reported. The new two-question format required that individuals first be asked whether they were Hispanic or not, followed by the option to choose one or more racial identities. This change also affected reporting results, since persons selecting the ethnicity "Hispanic" are reported as such, regardless of the racial identities selected. Caution is recommended when considering any race/ethnicity trends that include data both prior to and after this change.

*This category included Hawaiian/Pacific Islander until Fall 2008 for enrollment and FY 2011 for degrees conferred

**Example: Fiscal Year 2003 includes Summer and Fall 2002, and Spring 2003.

In Fall 2010, the Federal government mandated changes in the way Race/Ethnicity was collected and reported. The new two-question format required that individuals first be asked whether they were Hispanic or not, followed by the option to choose one or more racial identities. This change also affected reporting results, since persons selecting the ethnicity "Hispanic" are reported as such, regardless of the racial identities selected. Caution is recommended when considering any race/ethnicity trends that include data both prior to and after this change.

*This category included Hawaiian/Pacific Islander until Fall 2008 for enrollment and FY 2011 for degrees conferred

**Example: Fiscal Year 2003 includes Summer and Fall 2002, and Spring 2003.

Note: In 2012 Department split into Department of Communication Studies; Theatre and Dance joined the School of Music, Theatre and Dance (Tabs at end)
