# Safety Bulletin

## Think Twice

Though you might not work safely,  
Out of fear for your life,  
You should for the sake,  
Of your children and wife.  
For what do you think,  
That the girl that you married,  
Will do in the months,  
Shortly after your buried.  
When the moneys all gone,  
And there's bills still to pay,  
And maybe just one more,  
Small child on the way.  
And what of your children,  
Just think of how bad,  
Life might be for them,  
Growing up with no Dad!  
With no one to take them,  
On trips to the lake,  
And no one to help,  
When they've made a mistake.  
So before taking chances,  
That just might take your life,  
First remember – Think Twice,  
Of your children and wife.

# KDOL Inspection

Below are infractions noted on the Kansas Department of Labor Safety Inspection report. The inspector provided pictures of items not in compliance. Please review the photos, survey your area and correct any of the same violations. Do not hesitate to call the Safety Office if you need assistance 2-1715.

**Description:** An extension cord is being used in lieu of permanent wiring to power a radio.

## Remove extension cords

**Description:** A 2 1/2 gallon spray unit was not marked as to its contents left in the unit.

## Label all chemicals

**Description:** The free standing drill press was not securely anchored to prevent walking or moving.

## Secure all shop equipment
