HEALTH AND SAFETY PROGRAM RESPONSIBILITIES

Safety is everyone’s responsibility. All employees have the responsibility to ensure a safe and healthy workplace.

Supervisor Responsibility

- For the safety of their assigned employees by ensuring compliance to safety rules and regulations.
- To provide departmental specific safety related training in accordance to regulatory standards.
- Conduct routine on-site safety inspections to maintain safe working conditions.
- Must investigate all reports of accidents or near misses.
- To correct all hazards as identified.

Employee Responsibility

- For preventing accidents and injuries to themselves or others.
- Must obey all safety rules and regulations.
- Must report injuries.
- Attend all required health and safety training based on job position.
- Responsible to know general safety practices specific to their job assignment and exhibit good judgment.
