Changes to the BS and BA (also see attachment 3):

Rationale: The proposed curriculum change:

- a) eliminates the Applied Anthropology option because the application of anthropological concepts is emphasized throughout much of our standard curriculum and there has been no demand for a specialization in Applied Anthropology for at least ten years;
- b) increases the total number of anthropology credit hours through the addition of three additional advanced anthropology hours in order to better prepare anthropology majors for future careers and advanced training in anthropology; and
- c) encourages students to include courses that specifically focus on methods of one or more of the subfields of anthropology that fit their anthropological interest(s).
