A motion was made by Bormann and seconded by Von Bergen to approve the agriculture courses. Discussion: A commented was made about AGED 732. There had been question as to whether this is the appropriate place for that material to be covered, however, Leadership Studies discussed this with the proposing unit and because this is part of a larger program, tied to the Ag IDEA consortium, and there are reasons for why it is in that unit, they're not objecting.

Directly before the meeting FS AAC was notified that AGED 734, 736, and 830 are course numbers already in use. A motion was made by Bormann and seconded by Von Bergen to table these until different course numbers can be identified by the department. Motion carried. **Update**: Other course numbers were identified by the unit (735, 737, and 831) and these will be on the next AAC agenda.

A motion was made by Bormann and seconded by Von Bergen to approve the APD courses. Discussion: The unit was consulted prior to the meeting as it had been noted that INDD 644 and 664, as internship courses, may not cover the K-State 8 tag material each time, therefore, with the permission of the unit, the tag was removed from each of those courses. Motion carried.

A motion was made by Bormann and seconded by Von Bergen to approve the A&S courses. Discussion: It was noted that prior to the meeting conversation occurred with the unit about MUSIC 846 and 847. The last sentence of the course description, referring to a course syllabus, was removed. Additionally, the K-State 8 tag was removed from each of these as they are clearly graduate level courses and do not fit the criteria for a tag.

Conversation on POLSC courses occurred prior to the meeting as well. All of these courses were requesting cross-listing status with EDCI courses, however, POLSC 774, 775, and 780 do not match the course number of their counterpart. Therefore, that needs addressed prior to their approval and the numbers will need altered. Also, there needs to be a record that the faculty in the other department voted in favor of the change. There was a letter attached from the dept chair indicating favor of the cross-listing, but it did not verify the faculty had voted on this. Therefore, a motion was made by Von Bergen and seconded by Bormann to table POLSC 774-789 until these things can be cared for. Motion carried.

A question was raised about the justification for the K-State 8 tag in PSYCH 120. Heather Bailey was present and able to address the concerns. A revised course description was presented and accepted that would provide stronger justification for the tag being included.

Motion carried to approve all A&S course proposals, except POLSC 774-789.

A motion was made by Bormann and seconded by Von Bergen to approve the Business courses. No discussion. Motion carried.

A motion was made by Bormann and seconded by Von Bergen to approve the Engineering and Grad courses. Motion carried.

A motion was made by Bormann and seconded by Von Bergen to approve the HHS courses. There were questions on HDFS 752 related to the cross-listing language and K-State 8 tags. After conversation with Michelle Toews, it was noted this was accidental and the unit thought both things were removed. A note was added in the requisites file stating that students who have taken HDFS 552 may not take 752 for credit, the cross-listing language was removed, and the tags.

Members were also reminded about the conversations surrounding the IDFS 650, 670, and 750 courses. These courses will not be used in future to block any other unit that is wanting to propose sustainability courses; these are pertinent to the IDFS unit. Barbara Anderson, who was present, noted that is correct. They have no intention of stopping other units from proposing sustainability courses in the future. Motion carried to approve all HHS courses.

A motion was made by Bormann and seconded by Presley to approve the Vet Med courses. Motion carried.

	Prevention Science (M.S.)
	Prevention Science in HDFS (Ph.D.)

A motion was made by Bormann and seconded by Presley to approve the curriculum changes. There was a comment that the catalog description for the Interior Design curriculum is quite long. It was recommended the unit review this so that that when future changes come through for that curriculum, they can perhaps shorten it. Motion carried.

A motion was made by Bormann and seconded by Von Bergen to approve the request. Motion carried.

- 9. Old Business (withdrawn from FS Dec. agenda for further edits)
 - A. Undergraduate Academic Credit Certificates (<u>UH F170</u>)

 No report. Currently in the process of having CAPP review this.

10. 21-22 Committee work

- A. Posthumous degree policy/procedures (<u>UH F150</u>)
 Subcommittee crafted language and sent to CAPP for input. Once this is received back from CAPP and any other edits are made, AAC and FAC will vote on this and move it forward.
- B. Post Bacc Minor Policy review (<u>UH 160</u>) No update right now.
- C. Interdisciplinary program Policy review
 Bormann and Kliewer are working on a draft. They have shared the draft with Tanya González to determine if this is a good place to start and then they'll bring this back to AAC for input.
- D. Final exam policy related to inclement weather and/or university closure etc.

 This was brought up at the last meeting and Von Bergen is working on it. There was conversation about where this should be housed once it's created. This will be discussed further, but this likely needs to be in the University Handbook, which is for the high-level policy. CAPP can help build procedures out to work with the policy.
- E. Cross-Listed definition
 - As has been noted lately, there is continued confusion about what cross-listing really means for courses; what the requirements are, etc. Don, Jenny, Kelley, and any others, perhaps CAPP, who are interested will start work on a definition for this. It was noted there will be several courses that will be grandfathered in, and we'll have to deal with those as they come forward. However, just because we've done something wrong in the past, does not mean we should continue doing it. The definition will be included in the Approval, Routing, and Notification manual so it's in one place where people are used to looking. It should be somewhat concise and understandable. It was also asked if members

can think of good reasons why cross-listing is utilized and what the benefits are. A few examples were offered, such as students identifying with a prefix as part of their major, another was that based on the prefix and that the student credit hours are credited to that unit when it's taken there. So, in short, it's the same course, taught by different units. There was another memory of some engineering courses being taken by Vet Med students as an elective for their curriculum. However, perhaps instead the curriculum could be updated to include the Eng courses. We're trying to determine if the value of cross-listing is worth the effort involved. If there are other thoughts, please share these with Don and Jenny.
