A. CAPP (Committee on Academic Policies and Procedures) – Kliewer (written report below)

- Discussion of the idea of in “major minors” as a way to navigate changes to gen ed associated with K-State Core. Policy language from the University Handbook, F160 was also shared (A minor program will require completion of at least fifteen (15) designated credit hours of required course work outside of the major). There then seemed to be growing interest using certificates to navigate K-State Core changes.
