Minors, Secondary Majors, and Certificates
Minors

Change to:

Undergraduate minors provide students an opportunity to emphasize study in an area outside their major curriculum. Courses forming a minor may be used to satisfy the general requirements of a major curriculum, including free electives. Students are not required to complete a minor to graduate.

Students who declare and complete all requirements for a minor as part of a baccalaureate degree will receive official recognition on their academic records when the degree is posted. Students who wish to complete a minor after a baccalaureate or during or after an advanced degree has been awarded by Kansas State University must reapply to Admissions as a non degree student to add a minor. Students with baccalaureate or advanced degrees from another accredited college or university should consult the minor program director about the availability of the minor to non-K-State graduates.

A minor requires completion of at least 15 designated hours of course work. Faculty in departments offering minors have specified courses that enable students to acquire moderate expertise in their discipline. No more than six hours of transfer courses may be used for a minor. Prerequisites and requisites associated with minors must be followed, and students must earn the minimum GPA set by the minor program.

Students interested in completing one or more minors should consult their advisor. Additional counsel should be sought from the minor program director. Students are encouraged to seek advice and information about potential areas of emphasis early in their academic planning.

For more information on specific minors, consult individual department course listings.
