<ul style="list-style-type: none"> ● BIOL 529 – Fundamentals of Ecology Credits: 3 ● BIOL 612 – Freshwater Ecology Credits: 4 ● BIOL 625 – Animal Parasitology Credits: 4 ● BIOL 697 – Topics in Biology Credits: 1-6 (Behavioral Ecology) ● GRSC 651 – Food and Feed Product Protection Credits: 4 ● HORT 582 – Foundations of Horticultural Pest Management Credits: 4 ● PLPTH 500 – Principles of Plant Pathology Credits: 3 	
---	--

Rationale: To allow the same flexibility in our undergraduate program as we have in our graduate program. Our goal is to be a "student-centered" program with the flexibility to allow students to build an Entomology minor around their interests and career goals.

Impact (i.e. if this impacts another unit) – Statement should include the date when the head of a unit was contacted, and the response or lack of: no impact

RATIONALE:

This proposed curriculum change responds to the Kansas Board of Regents' mandate to reduce graduation requirements to 120 credit hours. The revision also aims to improve advising efficiency, enhance student accessibility to courses, strengthen the common core of Horticulture courses to advance our assessment program, and respond to staffing limitations.

IMPACT:

These changes could potentially influence enrollment in Modern Languages courses, although not significantly because advisors will continue to recommend

courses there. The Modern Languages department has been notified of the changes (see attached communication).

---	--

RATIONALE:

This proposed curriculum change responds to the Kansas Board of Regents' mandate to reduce graduation requirements to 120 credit hours. The revision

also aims to improve advising efficiency, enhance student accessibility to courses, strengthen the common core of Horticulture courses to advance our assessment program, and respond to staffing limitations.

IMPACT: These changes could potentially influence enrollment in Division of Biology and Modern Languages courses, although not significantly because advisors will continue to recommend courses in both areas. Both programs have been notified of the changes (see attached communication).

EFFECTIVE DATE: ~~Fall 2018.~~ Spring 2019
