Graduation Scholastic Honors

Proposed change to the University Handbook, Section F110.

Scholastic honors. Bachelor's degree candidates who have completed a minimum of 60 hours in residence, with at least 50 hours in graded courses, are considered for graduation with scholastic honors as follows: Students with a 3.950 or above K-State academic average are designated as Summa Cum Laude. ~~The remaining students in the upper three percent of their college graduating class are designated Magna Cum Laude. Those remaining in the upper ten percent are graduated Cum Laude.~~ Students with a 3.850-3.949 K-State academic average are designated as Magna Cum Laude. Students with a 3.750-3.849 K-State academic average are designated as Cum Laude. ATTACHMENT 2
Enrollment Cap Proposal
(Approved by Academic Affairs December 20, 2005)

Proposed change to the University Handbook, Section F12

Rationale:

With the implementation of the new iSIS system, a review has been needed of the current cutoff for maximum enrollment hours. The new system will count the waitlisted classes as well as the classes in which the student is enrolled. Increasing the hours from 18 to 21 will give students greater flexibility and fewer frustrations at the time of enrollment. Therefore, the Committee on Academic Policies and Procedures and the Faculty Senate Academic Affairs recommend that the cap for enrollment be increased from the current 18 hours to 21 hours effective with enrollment for the fall 2006 semester. Wording in the University Handbook should be updated as follows:

F12 An undergraduate student may not enroll for more than 21 Kansas State University credit hours in a semester unless the student is granted permission to do so by the student's academic dean or the dean's representative.

ATTACHMENT 3

Approval Routing and Notification Policy for the Change Process for Courses, Curriculums, Degrees, and Programs (Revised March 4, 1999)

Course and Curriculum policy and procedural changes— (approved by Academic Affairs December 20, 2005)

The Board of Regents Policy and Procedures Manual, Appendix G, revised 03-01 and 01-04, establishes specific requirements of institutions requesting approval of new academic programs. Section 4.f., Program Review, Assessment and Accreditation, states the requirement for the institution to “establish clearly the institution’s plan to monitor, maintain and enhance the quality and effectiveness of the program.” The K-State BOR Performance agreement and the NCA accreditation visit reinforce the need to address assessment as an integral component of the design academic programs.

To be inserted in the procedure at I. D.5., Undergraduate Degrees, Programs, and Majors. Subsequent items currently listed as 5., 6., 7., 8., and 9., shall be renumbered 6., 7., 8., 9., and 10..

For new degree programs, including majors, secondary majors and certificate programs, list student learning outcomes. Attach an Assessment of Student Learning Plan for the first three years of the degree program following the template found as provided by the Office of Assessment.

4. Retirement Plans
To fulfill the Board's fiduciary responsibility for the KBOR Mandatory Retirement Plan, appropriate management and periodic review of the investment options provided under the Plan are required. The Board has delegated responsibility for plan administration and investment oversight to the Retirement Plan Committee (RPC). The RPC, working with Deloitte Consulting who were hired to provide consulting services regarding the oversight of investment options, has developed an Investment Policy Statement which will establish formal benchmarks against which investment performance will be measured. The RPC recommends adoption of the Investment Policy Statement by the Board.
5. President Wefald presented KSU efficiency measures.
