Anthropology, Sociology, and Social Work Curriculum Change

Rationale: The proposed curriculum change:

- a) eliminates the Applied Anthropology option because the application of anthropological concepts is emphasized throughout much of our standard curriculum and there has been no demand for a specialization in Applied Anthropology for at least ten years;
- b) increases the total number of anthropology credit hours through the addition of three additional advanced anthropology hours in order to better prepare anthropology majors for future careers and advanced training in anthropology; and
- c) encourages students to include courses that specifically focus on methods of one or more of the subfields of anthropology that fit their anthropological interest(s).

Impact (i.e. if this impacts another unit): None

- ~~[ANTH 641—Internship in Applied Anthropology](#)~~ Credits: (3)

Option requirements

An area specialization consisting of 18 hours of course work outside anthropology with the following distribution:

- ~~Quantitative or technical skill development (6)~~
- ~~Subject matter courses (12)~~

Note

The area specialization is a set of related courses focused on a particular interest, problem domain, or area of expertise taken from any other discipline or combination of disciplines. The quantitative and technical skill courses must be consistent with and supportive of the subject matter work. Students must demonstrate the coherence of their chosen area specialization and its fit with anthropology. The area specialization must be approved by the anthropology faculty.
