Whereas public trust is founded upon the values of transparency and accountability; and

Whereas our new president, Kirk Schulz, deserves the opportunity to begin his administration in a climate of transparency and accountability to help restore confidence in our university during this time of financial challenge;

Therefore be it resolved that the Faculty Senate of Kansas State University calls for the release of the 2009 exit analysis, or audit, conducted by the Kansas Board of Regents.

This resolution was passed by Faculty Senate on June 9, 2009
