

Proposal by CAPP
Submitted to FS Academic Affairs: May 10, 2017
Proposed Change to University Handbook, Section F102
Approved by Academic Affairs and Faculty Affairs
APPROVED BY FACULTY SENATE ON NOVEMBER 14, 2017

Modification Request to F102: <http://www.k-state.edu/provost/universityhb/fhsecf.html>

Description:

The University Handbook currently does not accurately reflect how a student is removed from Academic Warning. Currently the policy does not take into account the term GPA when it discusses the removal from warning, it only references cumulative GPA. The updated wording will clarify to students the required criteria to no longer be considered on academic warning.

Proposed Wording *(Yellow highlighted and underlined text designates addition)*

F102 Academic warning. Undergraduate students (excluding students in the College of Veterinary Medicine) are placed on academic warning or removed from it as follows:

1. Students who earn less than a 2.00 Kansas State University semester or cumulative GPA, excluding transfer credit, will be placed on academic warning.
2. Students will be automatically taken off academic warning when the Kansas State University semester and cumulative GPA reaches the required level (2.00) in Spring or Fall end-of-term grade posting
