Management's Discussion and Analysis

The following discussion and analysis provides an overview of the financial position and activities of Kansas State University (K-State) for the year ended June 30, 2020, with comparative totals for the year ended June 30, 2019. This discussion has been prepared to assist readers in understanding the accompanying financial statements and footnotes.

K-State's financial report includes three financial statements: the Statement of Net Position; the Statement of Revenues, Expenses, and Changes in Net Position; and the Statement of Cash Flows. The financial statements, related footnote disclosures, and discussion and analysis are the responsibility of university management and have been prepared in accordance with Governmental Accounting Standards Board (GASB) principles for public colleges and universities.

STATEMENT OF NET POSITION

The Statement of Net Position presents the assets, deferred outflows, liabilities, deferred inflows, and net position of K-State at the end of the fiscal year using the accrual basis of accounting, which is similar to the accounting used by most private-sector institutions. Under the accrual basis of accounting, all of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. The statement as a whole provides information about the adequacy of resources to meet current and future operating and capital needs.

Within the Statement of Net Position, assets and liabilities are further classified as current or non-current. Current assets are those that are highly liquid and available for immediate and unrestricted use by K-State, and current liabilities are those likely to be settled in the next twelve months.

Net Position is divided into three categories:

1. **Net investment in capital assets** consists of equity in property, plant, and equipment owned by K-State, net of accumulated depreciation and outstanding debt obligations related to those capital assets.
2. **Restricted net position** is further divided into two subcategories, non-expendable and expendable. The corpus of non-expendable restricted resources is available only for investment purposes. Expendable restricted net position resources are available for expenditure, but must be spent for purposes as determined by donors and/or external entities that have placed time or purpose restrictions on the use of the assets.
3. **Unrestricted net position** is available to use for any lawful purpose of the institution. Although unrestricted net position is not subject to externally imposed stipulations, substantially all of K-State's resources in this category have been designated for various academic and research programs and initiatives.

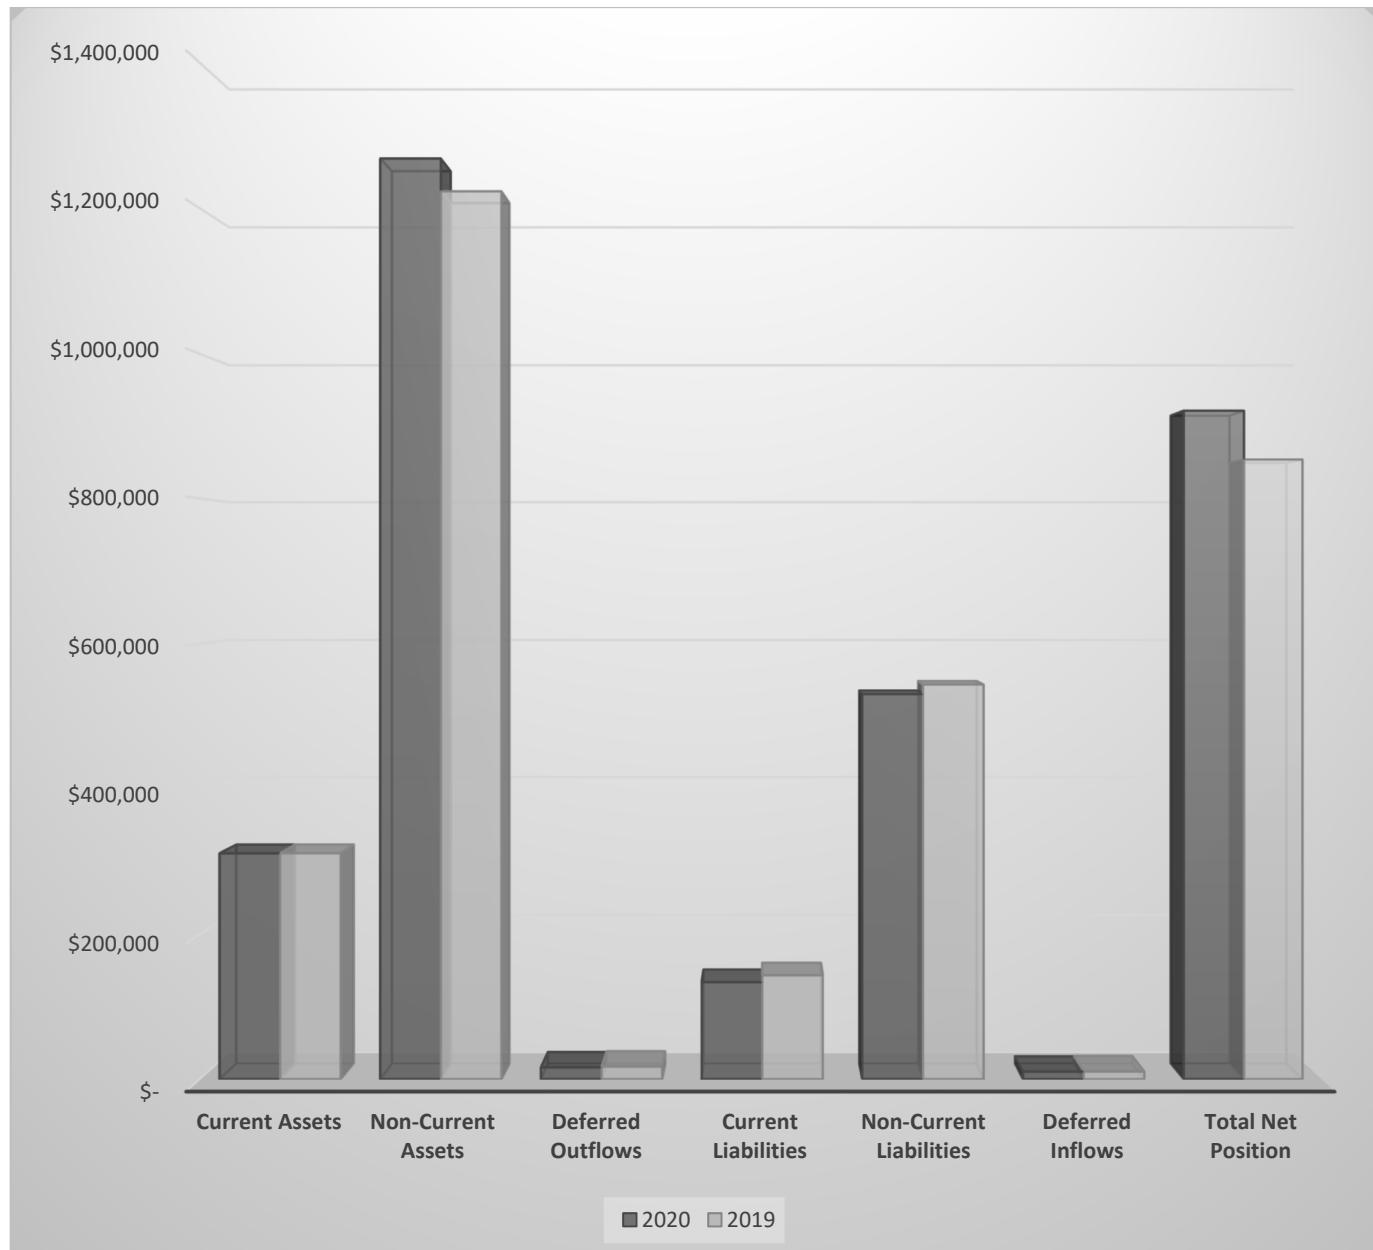

Total assets at June 30, 2020 were \$1.58 billion, compared to June 30, 2019 \$1.53 billion, an increase of 2.9%. Capital assets, net of depreciation, comprised 75.7%, or \$1.19 billion of the total assets.

Total liabilities were \$665.2 million at June 30, 2020, compared to \$688 million at June 30, 2019, a decrease of 3.3%. This decrease was primarily a result of a reduction in revenue bonds payable. Long-term liabilities comprised 79.8%, or \$530.9 million of the total liabilities.

Total net position at June 30, 2020 was \$920.51 million, compared to \$853.48 at June 30, 2019, an increase of 7.9%. The university's net investment in capital assets increased \$52.5 million representing K-State's continued commitment to improving and maintaining the learning and working environment of the campus community. The breakout of net position is shown below:

	June 30, 2020	June 30, 2019
Net investment in capital assets	\$ 739,922,783	\$ 687,461,444
Restricted net position	72,595,840	76,665,089
Unrestricted net position	<u>107,990,053</u>	<u>89,355,476</u>
	<u><u>\$ 920,508,676</u></u>	<u><u>\$ 853,482,009</u></u>

The composition of current and non-current assets and liabilities and net position is displayed below for fiscal year-end 2020 and 2019 (in thousands):

STATEMENT OF REVENUES, EXPENSES, AND CHANGES IN NET POSITION

The Statement of Revenues, Expenses and Changes in Net Position presents the total revenues earned and expenses incurred for operating, non-operating, and other related activities during the fiscal year. The purpose of this statement is to assess K-State's operating results.

Revenues

Operating revenues at K-State as of June 30, 2020 decreased by \$39.28 million, or 6.2%, to \$598.3 million compared to \$637.6 million the previous fiscal year. The following is a summary of the significant changes:

- Student fee revenues, after scholarship allowances, were \$227.75 million in 2020, compared to \$229.91 million in 2019, a decrease of 0.9%.
- Grants and contracts revenue (federal, state and local, and non-governmental) were \$164.2 million in 2020, compared to \$177.3 million in 2019, a decrease of 7.4%. This category includes funds received for sponsored research, teaching, and public service activities.
- Auxiliary enterprises include Housing, Athletics, Parking Services, Student Health, and the Center for Child Development, along with a variety of other smaller services. Auxiliary revenues were \$133.81 million in 2020, compared to \$149.48 million in 2019, a decrease of 10.4%.
- Sales and services were \$44.6 million in 2020, compared to \$57.94 million in 2019, a decrease of 23%.
- Other operating revenues were \$12.94 million in 2020, compared to \$14.02 million in 2019, a decrease of 7.7%.

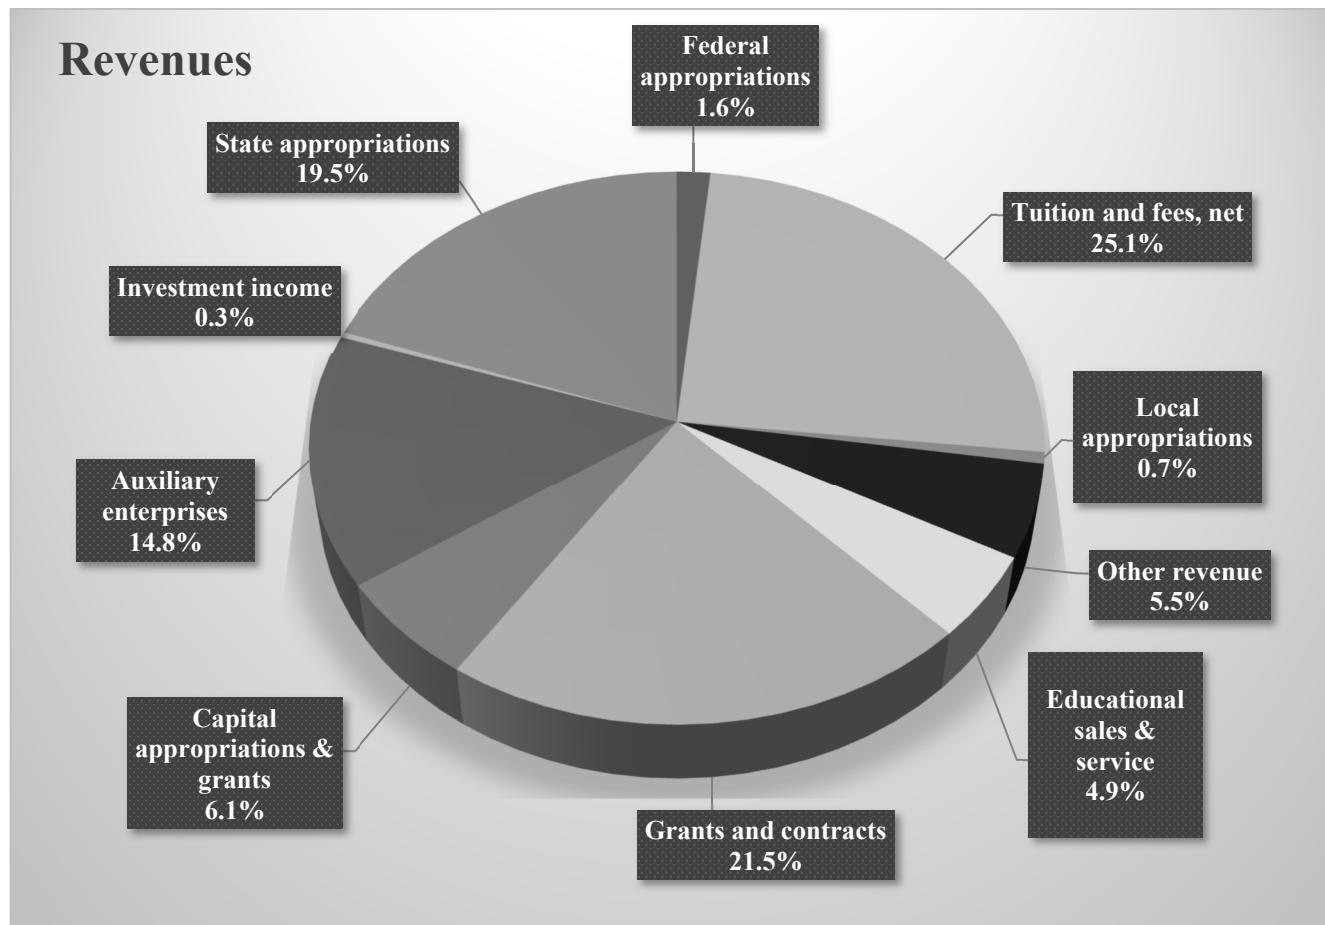

Total nonoperating revenues were up 12.6% from the prior year, going to \$229.53 million in 2020 from \$203.87 million in 2019. The following is a summary of the significant changes:

- State appropriations were \$176.91 million in 2020, compared to \$162.26 million in 2019, an increase of 9.0%.
- Local appropriations were \$6.13 million in 2020, compared to \$5.98 million in 2019, an increase of 2.5%.
- Investment income was \$2.89 million in 2020, compared to \$5.3 million in 2019, a decrease of 45.4%.
- Federal grants and contracts were \$30.8 million in 2020, compared to \$18.82 million in 2019, an increase of 63.7%.
- Other nonoperating revenue was \$7.16 million in 2020, compared to \$5.75 million in 2019, an increase of 24.6%.

Other revenues included the following changes and trends:

- Capital appropriations were \$13.9 million in 2020, compared to \$12.56 million in 2019, an increase of 11.5%.
- Capital grants and gifts were \$35.38 million in 2020, compared to \$31.88 million in 2019, an increase of 11.0%.

In summary, total revenues decreased by \$3.66 million to \$906.3 million in 2020 from \$909.96 million in 2019. The composition of the total for 2020 is displayed in the following graph:

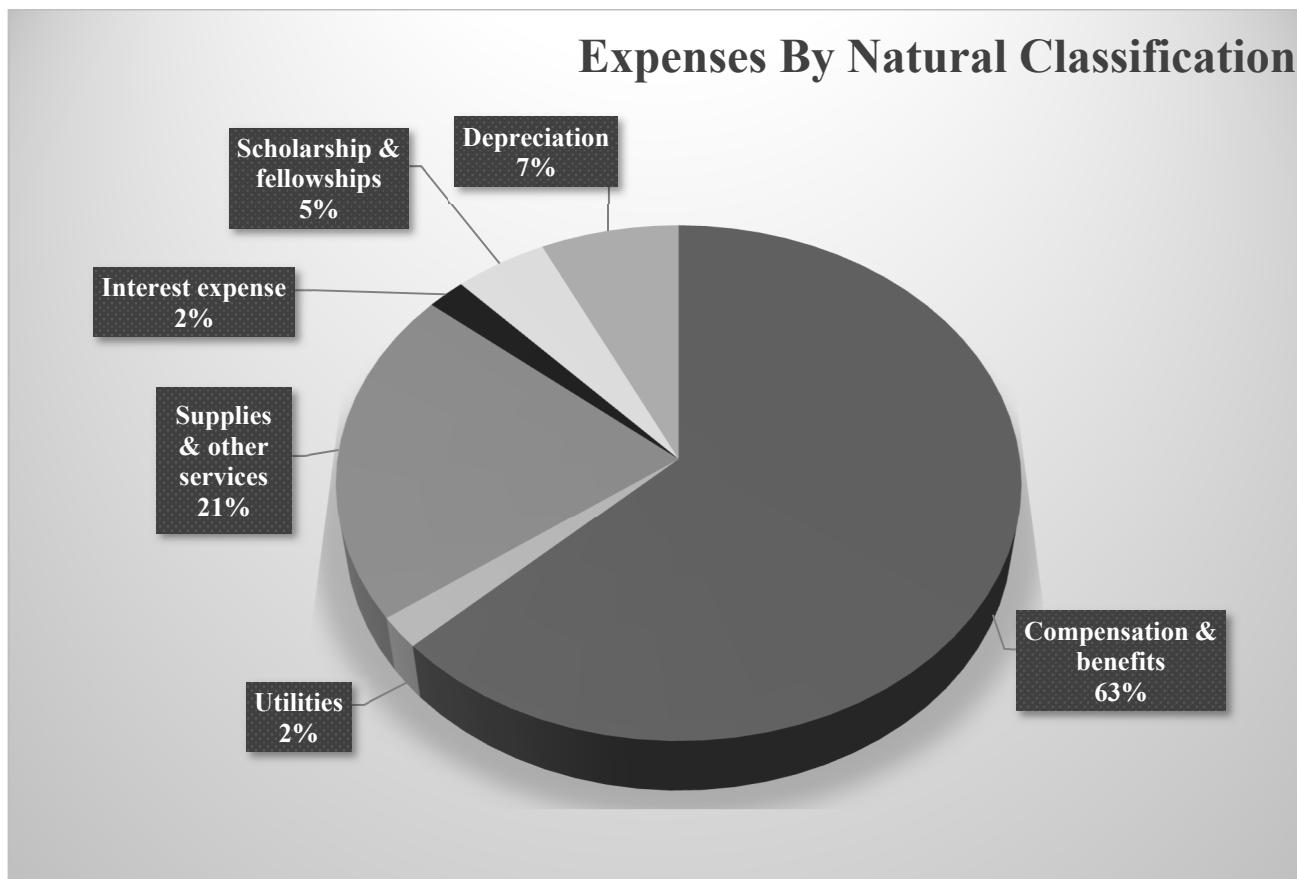

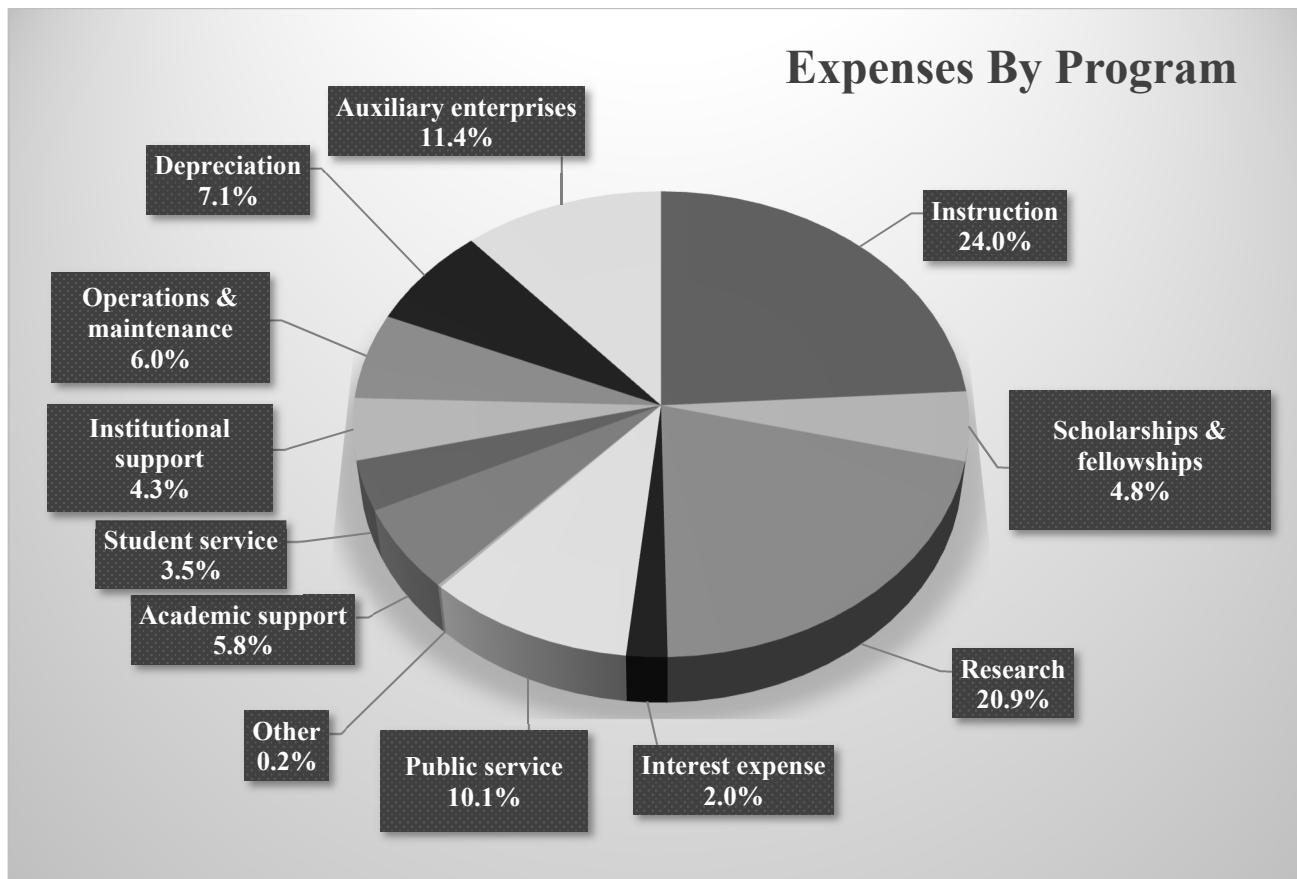

Expenses

Operating expenses were \$821.26 million for the 2020 fiscal year compared to \$840.09 million for the 2019 fiscal year. This was a decrease of 2.2%. The following is a summary of the changes for 2020:

- Expenses related to K-State's mission of instruction, research and public service were \$461.5 million in 2020, compared to \$460.9 million in 2019, an increase of 0.1%.
- Auxiliary services expenses were \$95.5 million in 2020, compared to \$105.1 million in 2019, a decrease of 9.1%.
- Expenses related to academic support, student services, and institutional support were \$113.75 million in 2020, compared to \$126.98 million in 2019, a decrease of 10.4%.
- Operations & maintenance of plant expenditures were \$50.2 million in 2020, compared to \$56.9 million in 2019, a decrease of 11.8%.
- Depreciation expenses were \$59.92 million in 2020, compared to \$56.87 million in 2019, an increase of 5.3%.
- Scholarship & fellowship expenses were \$40.33 million in 2020, compared to \$33.23 million in 2019, an increase of 21.4%.

Non-operating expenses, represented by interest expense and loss on disposal of assets, were \$18 million in 2020, compared to \$23.6 million in 2019, a decrease of 23.6%.

The composition of total expenses for 2020, including operating and non-operating, are displayed below:

STATEMENT OF CASH FLOWS

The Statement of Cash Flows presents cash receipts and payments during the fiscal year. Its purpose is to assess K-State's ability to generate future net cash flows and meet its obligations as they come due.

SUMMARY OF THE STATEMENT OF CASH FLOWS (in thousands of dollars):

	<u>June 30, 2020</u>	<u>June 30, 2019</u>
Net cash provided (used) by:		
Operating activities	\$ (189,993)	\$ (133,489)
Non-capital financing/appropriations	210,113	195,833
Capital and related financing/appropriations	(35,893)	(42,617)
Investing activities	5,867	(1,257)
Net increase in cash	<u>\$ (9,906)</u>	<u>\$ 18,470</u>
Beginning cash and cash equivalent balances	216,148	197,678
Ending cash and cash equivalent balances	<u>\$ 206,242</u>	<u>\$ 216,148</u>

Cash provided by operating activities includes tuition and fee and grant and contract revenues. Cash used for operating activities includes payments to employees and suppliers. Cash provided by non-capital financing/appropriations includes state and local appropriations, federal grants and contracts, and the receipts and disbursements of the federal direct student loan program and the federal Pell student aid grant program. Cash provided for capital and related financing activities represents proceeds from debt, principal and interest payments towards debt, capital appropriations and grants, and the purchase and construction of capital assets. Cash provided by investing activities includes purchases and sales of investments as well as investment income earnings and losses realized.

CAPITAL ASSETS

K-State made significant investments in capital during the 2020 fiscal year. Detailed information regarding capital asset additions, retirements & depreciation is available in Note 6 to the financial statements.

The following is a brief summary of the construction projects that were completed during the current fiscal year:

- Various deferred building maintenance projects totaling \$11.8 million.
- Mary and Carl Ice Hall renovations provided space for the new physician assistant program scheduled to begin January 2021. The \$2.5 million project began November 2019 and was substantially completed in August 2020.
- A \$17.5 million project provided major renovations to baseball's nearly 17-year-old Tointon Family Stadium, including a new clubhouse and office complex, and construction of a 1,400-seat soccer stadium complete with space for coaching offices and team support services. Construction began in January 2019 and was completed in November 2019.

Additionally, several construction projects were in progress or in the planning and design phase at year-end:

- The McCain Auditorium project will expand and renovate the lobby to improve patron interactions and experiences. A new box office, concierge station, and concessions area will be added to provide adequate ticket and event space. In addition, a new suite of administrative offices, a technical director's suite, and donor lounge will be created. The \$6 million project began May 2020 and is expected to be complete in March 2021.
- The Mosier Hall renovation project will be completed in three phases. The first two phases include the creation of a new auditorium with updated technology and seating options and the creation of a new Pet Health Center. The estimated total cost for the first two phases is \$8 million. The project began October 2019 and will be complete by December 2020. The third phase will address the need for additional research space by creating a research suite.

- The Hale Library is undergoing a repair and restoration project as a result of a fire on May 22, 2018. The \$42 million project began January 2019 and will be completed February 2021.
- Renovation of the Derby Dining Center includes a new entry, updates to the first floor, a new open dining experience on the second floor, updates to the heat and air systems as well as the fire safety systems. The \$16 million renovation began November 2019 and is expected to be complete in January 2021.
- The \$5.5 million Morris Family Multicultural Student Center will include gathering, meeting, and performance practice spaces, student and multicultural student organization group spaces, a kitchen, office spaces, prayer/meditation room and additional core support spaces. Construction began December 2019 and will be complete November 2020.
- The Bill Snyder Family Stadium south end zone seating and concourse expansion project will include the creation of new premium seating options above the existing concourse level and additional public restrooms and concessions. New video boards will be installed in the southeast and southwest corners of the stadium and additional improvements will be made to Bramlage Coliseum. The \$49.9 million project began June 2020 and is to be completed in June 2021.

DEBT ADMINISTRATION

At June 30, 2020, K-State had \$469.49 million in debt outstanding, compared to \$478.71 million at June 30, 2019. K-State paid \$24.4 million in principal payments related to all outstanding debt.

Standard & Poor's Ratings Services currently rates K-State "A+". Moody's Investors Service currently rates K-State "Aa3". More detailed information about the long-term liabilities is available in Notes 8, 9, 10 and 11 to the financial statements.

ECONOMIC OUTLOOK

The university continues to make progress towards its goal to become a top 50 public research university by the year 2025. A key indicator of progressing towards this goal is research expenditures reaching \$218.3 million. Our endowment balance was at \$628 million at the end of FY 2020, which benefits key areas for our faculty, staff and students. The university's alumni, friends, corporate partners, students, faculty, and staff provided a total of \$177.4 million of gift activity. This is the ninth consecutive year that fundraising has topped \$100 million. These private funding efforts reflect donor and alumni confidence that K-State is delivering a quality educational and student life experience for our students and conducting vital research and service efforts for the state, nation and world.

Fall student headcount for the 2019-2020 academic year dropped 2.3% from fall 2018. Pre-pandemic, Fall 2020 enrollment projections were on track for similar declines although our Freshman class showed signs of being only slightly down from our Fall 2019 entering class. However, the pandemic has disrupted the traditional cadence of attendance at higher education institutions for a multitude of reasons. As such, projected total enrollment declines for Fall 2020 are currently estimated to be closer to 4% from Fall 2019. The University continues to advance our recently developed strategic enrollment plan and is also exploring alternate pricing strategies. We are also continuing our efforts to further deploy our new customer relations management system to better coordinate our recruitment events, communication campaigns, and ultimately improve upon our enrollment yield. We are continuing efforts to improve upon and align our current activities related to all facets of the student journey with K-State, from recruitment and admissions through the educational experience and post-graduation. The University intends to implement constructive enrollment and retention practice changes designed to boost enrollment, retention, graduation, and net tuition revenue.

COVID IMPACT

The impact of the pandemic on the financial operations of the University and state cannot be understated. The University moved to a limited operations status in March 2020 and subsequently moved all academic operations online and students moved back to their permanent residences. Although the University did not process refunds for tuition and fees, our auxiliary housing and dining units and parking services did provide pro-rated refunds. This caused a significant cash flow constraint for those units which resulted in the furlough of staff over the summer months.

Other revenue generating activities, primarily in the sales and service arena, were also severely curtailed during our limited operations status. For example, the Polytechnic campus did not offer flight instruction which is an activity supported by

flight fees. The Veterinary Medical Clinic did not offer elective procedures for animal care resulting in an overall decline of revenue to support the clinic.

Although the University has resumed in-person classes for Fall 2020, on-campus revenue generating activities remain constrained. Many courses have been offered online, most on-campus student activities have been reduced due to social distancing requirements, and faculty and staff are encouraged to work remotely when possible. In short, the normal business activity of our auxiliaries remains below pre-pandemic levels. The university has received support through federal, state, and local governments to assist with the additional cost burdens associated with the pandemic. We are effectively utilizing these dollars to ensure our campus community remains safe, while continuing to provide students with quality educational and student life experiences.

At the state level, prior to the close of the 2020 Legislative Session, the Legislature approved an additional \$3.3M in State General Fund (SGF) funding for FY 2021. However, the Governor, in response to the projected revenue constraints at the state level due to the pandemic, reduced our SGF appropriation by \$7.4M and replaced it with funding provided through the CARES act. Consequently, State general fund appropriations for FY 2021 are currently set at \$172 million.

The outlook for the state's finances for FY 2022 remain daunting with significant revenue declines and deficits projected. As such, the long term outlook of the University's state appropriations remains uncertain.

In recognition of this unprecedeted financial picture, the University has executed significant budgetary reductions. The university has implemented a hiring freeze, terminated employees, deployed furloughs, and reduced other operating expenditures. Further reductions will be deployed as necessary if the financial outlook changes for the university throughout the fiscal year. Management continues to monitor the situation and will deploy actions designed to preserve the long-term health of the institution.

The University is not aware of any additional known facts, decisions, or conditions that are expected to have a significant effect on the financial position or results of operations during this fiscal year beyond those unknown variables having a global effect on virtually all types of business operations.

Kansas State University

Notes to Financial Statements
For the Year Ended June 30, 2020

Note 1 - Organization and Summary of Significant Accounting Policies

Organization

Kansas State University (K-State) is a comprehensive, research, federal land grant institution, governed by the Kansas Board of Regents, and is an agency of the State of Kansas. Accordingly, K-State is included in the audited comprehensive annual financial report (CAFR) of the State of Kansas.

K-State is currently classified as a Doctoral/Research University – Extensive under the Carnegie Classification system and is accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools. Undergraduate, graduate and post-graduate degrees are available from nine colleges: Agriculture, Architecture, Planning & Design, Arts & Sciences, Business Administration, Education, Engineering, Health and Human Sciences (formerly Human Ecology), Veterinary Medicine, and Kansas State Polytechnic.

Other major operating units of K-State are the Agricultural Experiment Station and the statewide Cooperative Extension Service. K-State provides teaching, research, public service and related activities in the cities of Manhattan, Salina, and Olathe, Kansas. Additional sites include 18,000 acres of the Agricultural Experiment Station located in research centers at Hays, Garden City, Colby, Tribune and Parsons, and 8,600 acres in the Konza Prairie Research Natural Area, which is jointly operated by the Agricultural Experiment Station and the Division of Biology.

Financial Reporting Entity

As required by the accounting principles generally accepted in the United States of America, and as prescribed by the Governmental Accounting Standards Board (GASB), these financial statements present the consolidated financial position and financial activities of K-State and the component units listed below. These financial statements have not been audited.

Blended Component Units

The following blended component units are legally separate entities for which the university is financially accountable:

K-State Olathe Innovation Campus, Inc. is a not-for-profit corporation under the laws for the State of Kansas. Located in Olathe, Kansas, it is a place of academic research and focuses primarily on commercially viable applied research and technology discovery in animal health, plant science, food safety and security, bioenergy, and other relevant areas. It is a Type 1 Supporting Organization of Kansas State University under section 509 (a)(3) of the Internal Revenue Code.

K-State Athletics, Inc. is a not-for-profit entity under the laws of the State of Kansas. It provides an intercollegiate athletic program for the students, faculty, alumni, guests, and visitors of Kansas State University. The primary source of revenue is derived from athletic event ticket sales, conference distributions and game guarantees. K-State Athletics, Inc. has agreed to operate as a department of the university and be subject to the regulations and administrative policies of K-State.

Kansas State University in Italy is a not-for-profit entity established under Italian law in order to carry out education programs for students of K-State in Italy with recognition of a non-taxable entity status by Italian authorities.

The K-State Union Corporation is a not-for-profit entity under the laws of the State of Kansas, formed for the purpose of providing services and maintaining facilities for the operation of a student union at K-State.

Kansas State University Veterinary Clinical Outreach, Inc. is a not-for-profit corporation under the laws of the State of Kansas. Its purpose is to provide hands-on clinical training at satellite facilities for the Veterinary Health Center at K-State.

Kansas State University Research Foundation (dba Kansas State University Innovation Partners) is a not-for-profit corporation under the laws of the State of Kansas. The business and purposes of this corporation are to promote, encourage, and aid scientific investigation, research, and technology transfer at Kansas State University.

Kansas State University

Notes to Financial Statements
For the Year Ended June 30, 2020

Discrete Component Unit

The Kansas State University Foundation (the Foundation) is legally separate from K-State and based on the nature and significance of the relationship to K-State is discretely presented.

The Foundation is a not-for-profit corporation under the laws of the State of Kansas. It was organized to promote the development and welfare of Kansas State University in its educational and scientific purposes. As a private, nonprofit organization, its financial reports are prepared in accordance with Financial Accounting Standards Board (FASB) standards, including FASB Statement Accounting Standards Codification (ASC) Topic 958, *Not-For-Profit Entities*. Due to the differences between K-State and the Foundation's reporting models, the Foundation's financial statements are not included in the consolidated statements, but instead are separately presented with no modifications. A complete copy of their audited financial statements, including notes, is available on their website:

<https://www.found.ksu.edu/financials/audit/index.html>.

Basis of Accounting

For financial reporting purposes, K-State is considered a special-purpose government engaged only in business-type activities. Accordingly, K-State's financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned and expenses are recorded when an obligation has been incurred. All significant intra-agency transactions have been eliminated.

Cash Equivalents

For the purposes of the Statement of Cash Flows, K-State considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

Investments

Investments in equity securities, fixed income securities, and mutual funds are carried at fair value. Fair value is determined using quoted market prices.

Accounts Receivable

Accounts receivable consists of tuition and fee charges to students and auxiliary enterprise services provided to students, faculty, and staff. Accounts receivable also include amounts due from the federal, state, and local governments, or private sources, in connection with reimbursement of allowable expenditures made pursuant to K-State's grants and contracts. Accounts receivable are recorded net of estimated uncollectible amounts.

Inventories

Inventories are stated at cost.

Capital Assets

Capital assets are recorded at cost at the date of acquisition, or fair market value at the date of donation in the case of gifts. For equipment, K-State's capitalization policy includes all items with a unit cost of \$5,000 or more and an estimated useful life of greater than one year. Renovations to buildings, infrastructure, and land improvements that significantly increase the value or extend the useful life of the structure are capitalized if the related project cost is \$100,000 or greater. Routine repairs and maintenance are charged to operating expense in the year in which the expense was incurred. Costs incurred during construction of long-lived assets are recorded as construction-in-progress and are not depreciated until placed in service.

Depreciation is computed using the straight-line method and half-year convention over the estimated useful lives of the assets, generally 40 years for buildings, 25 years for infrastructure and land improvements, 8 years for equipment, 5 years for vehicles, 3 years for information processing and computer systems, and 5 to 40 years for componentized buildings and building improvements.

Kansas State University

Notes to Financial Statements
For the Year Ended June 30, 2020

Works of art have been capitalized at cost at the date of acquisition or fair market value at the date of donation. These are considered inexhaustible and are not subject to depreciation. It is the intent of K-State that all art works and historical objects be held for the purpose of exhibition to the public to further education and research. If any items are sold from any collection, the proceeds from such disposition are intended to be set aside for future acquisitions for the collections.

Unearned Revenues

Unearned revenues consist primarily of summer school tuition not earned during the current year, amounts received from grant and contract sponsors that have not yet been earned, and athletic ticket sales.

Compensated Absences

Employee vacation pay is accrued at year-end for financial statement purposes. The liability and expense incurred are recorded as accrued compensated absences in the Statement of Net Position, and as an expense in the Statement of Revenues, Expenses and Changes in Net Position.

Deposits Held in Custody for Others

Deposits held in custody for others consist primarily of student organizations' moneys and amounts due for various study abroad programs.

Refundable Advances from Governmental Grants

In accordance with GASB Statement 33, K-State has recognized a liability for the federal portion of its Perkins Loan portfolio that is expected to be repaid to the Department of Education. Given that the Perkins Loan Program was not renewed and the wind-down procedures for the program require that the Federal funds be returned on an annual basis for the Department of Education's portion of the cash received each year, a liability has been recognized and an allocation is made between current and noncurrent based on expected repayment requirements in accordance with the current Department of Education guidelines.

Noncurrent Liabilities

Noncurrent liabilities include principal amounts of revenue bonds and loans payable, capital lease obligations with contractual maturities greater than one year, estimated amounts for accrued compensated absences, accrued other postemployment benefits, and other liabilities that will not be paid within the next fiscal year.

Deferred Outflow/Inflows of Resources

Deferred outflows and deferred inflows result from the consumption or acquisition of net position in one period that is applicable to future periods. Deferred outflows related to debt defeasance are amortized over the remaining life of the debt refunded. Deferred outflows and deferred inflows related to the pension plan are described in more detail in Note 13. Deferred outflows and deferred inflows related to the KPERS Death and Disability benefits plan are described in more detail in Note 14.

Net Position

K-State's net position is classified as follows:

Net investment in capital assets: This component represents capital assets, net of accumulated depreciation and outstanding principal debt balances related to the acquisition, construction or improvement of those assets.

Restricted net position – non-expendable: Restricted non-expendable net position consists of endowment and similar type funds in which donors or other outside sources have stipulated, as a condition of the gift instrument, that the principal is to be maintained inviolate and in perpetuity, and invested for the purpose of producing present and future income, which may either be expended or added to principal.

Restricted net position – expendable: Restricted expendable net position includes resources in which K-State is legally or contractually obligated to spend resources in accordance with restrictions imposed by external third parties.

Kansas State University

Notes to Financial Statements
For the Year Ended June 30, 2020

Unrestricted net position: Unrestricted net position represents resources derived from student tuition and fees, state appropriations, and sales and services of educational activities. These resources are used for transactions relating to the educational and general operations of K-State, and may be used at the discretion of the governing board to meet current expenses for any purpose. These resources also include auxiliary enterprises, which are substantially self-supporting activities that provide services for students, faculty and staff.

Tax Status

K-State is classified as exempt from federal income tax under Section 115(a) and under Section 501(a) of the Internal Revenue Code, as an organization described in Section 501(c)(3). Certain revenues generated from activities unrelated to K-State's exempt purpose may be subject to federal income tax under Internal Revenue Code Section 511(a)(2)(B).

Classification of Revenues

Revenues are classified as either operating or non-operating revenues according to the following criteria:

Operating revenues: Operating revenues include activities that have the characteristics of exchange transactions, such as 1) student tuition and fees, net of scholarship discounts and allowances, 2) federal appropriations, 3) sales and services of auxiliary enterprises or educational activities, 4) most federal, state and local grants and contracts, and 5) interest on institutional student loans.

Non-operating revenues: Non-operating revenues include activities that have the characteristics of non-exchange transactions, such as gifts, contributions, certain federal and state grants, and other revenue sources that are defined as non-operating revenues by GASB 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting* and GASB 35, *Basic Financial Statements and Management's Discussion and Analysis for Public Colleges and Universities*, such as state appropriations and investment income.

Scholarship Discounts and Allowances

Student tuition and fee revenues, and certain other revenues from students, are reported net of scholarship discounts and allowances in the Statement of Revenues, Expenses, and Changes in Net Position. Scholarship discounts and allowances are the difference between the stated charge for goods and services provided by K-State and the amount that is paid by students and/or third parties making payments on the students' behalf. Certain governmental grants, such as Pell grants, and other federal, state or nongovernmental programs are recorded as either operating or non-operating revenues in K-State's financial statements. To the extent that revenues from such programs are used to satisfy tuition and fees and other student charges, a scholarship discount and allowance has been recorded.

Pensions

K-State's proportional share of the Kansas Public Employees Retirement System (KPERS) is reported in accordance with the provisions of GASB Statement 68, *Accounting and Financial Reporting for Pensions* and GASB Statement 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*. For purposes of measuring the net pension liability, deferred outflows and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of KPERS and additions to/deductions from KPERS' fiduciary net position have been determined on the same basis as they are reported by KPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Kansas State University

Notes to Financial Statements
For the Year Ended June 30, 2020

Note 2 – Deposits and Investments

A summary of deposits and investments at June 30 is as follows:

	2020	2019
Cash deposits with State Treasury	\$ 152,753,102	\$ 150,721,850
Cash deposits with financial institutions	53,489,108	65,426,361
Investments at K-State Foundation	23,310,338	24,943,880
Other investments	29,081,475	30,408,164
	<u><u>\$ 258,634,023</u></u>	<u><u>\$ 271,500,255</u></u>

A reconciliation of deposits and investments to the Statement of Net Position as of June 30 is as follows:

	2020	2019
Cash and cash equivalents (current)	\$ 182,016,773	\$ 206,994,450
Restricted cash and cash equivalents (current)	24,225,437	9,153,761
Investments (current)	12,359,168	22,242,497
Investments (non-current)	40,032,645	33,109,547
	<u><u>\$ 258,634,023</u></u>	<u><u>\$ 271,500,255</u></u>

Deposits

The total carrying amount of cash and cash equivalents on deposit with the State Treasurer and other financial institutions at June 30, 2020 was \$206,242,210. K-State's deposits with the State Treasurer are pooled with the funds of other state agencies and, with the exception of the bond funds, placed in short-term investments in accordance with statutory limitations with the exception of the bond funds. All bond proceeds are invested in conjunction with specifications stated in the bond resolutions.

State law requires K-State to deposit the majority of its cash balances with the State Treasurer, who holds and invests the funds. These investments are managed by the Pooled Money Investment Board (PMIB), which maintains a published investment policy. The exception to this are any funds maintained in the imprest fund, organizational safekeeping, and any funds held by external entities on behalf of K-State.

Cash balances maintained by the State Treasurer are pooled and held in a general checking account and other special purpose bank accounts. The available cash balances beyond immediate need are pooled for short-term investment purposes by the Pooled Money Investment Board and are reported at fair value, based on quoted market prices.

Deposit balances not maintained by the State Treasurer are covered by FDIC or collateralized. K-State does not have a formal deposit policy regarding custodial credit risk. However, management has evaluated the financial stability of the financial institutions involved and feels the deposit custodial credit risk is minimal.

Kansas State University

Notes to Financial Statements
For the Year Ended June 30, 2020

Investments

Pooled Money Investment Board (PMIB): The investment policy of the PMIB is governed by state statutes. The primary objectives are to attain safety, liquidity, and yield. Allowable investments for state pooled monies are as follows:

- Certificates of deposit in Kansas banks, which are fully collateralized.
- Direct obligations of, or obligations that are insured as to principal and interest by, the United States of America, or any agency thereof.
- Obligations and securities of United States sponsored enterprises that under federal law may be accepted as security for public funds. Monies available for investment shall not be invested in mortgage-backed securities of such enterprises, which include the Government National Mortgage Association.
- Repurchase and reverse purchase agreements with a bank or a primary government securities dealer that reports to the Market Reports Division of the Federal Reserve Bank of New York.
- Loans as mandated by the Kansas Legislature limited to not more than the greater of 10 percent or \$140,000,000 of total investments.
- Certain Kansas agency bonds and SKILL or IMPACT act projects and bonds.
- Corporate bonds that have received one of the two highest credit ratings by a nationally recognized investment rating firm, not to exceed maturities of two years.
- High grade commercial paper that does not exceed 270 days to maturity and have received one of the two highest credit ratings by a nationally recognized investment rating firm.

Kansas Development Finance Authority (KDFA): For investments related to K-State's revenue bonds, state statutes permit cash balances to be invested as permitted by bond documents and bond covenants. KDFA manages K-State's revenue bond investments. Allowable investments include:

- U.S. Government obligations
- Obligations of government-sponsored agencies
- Federal funds, unsecured certificates of deposit, time deposits and banker's acceptances
- Deposits – fully insured by FDIC
- Certain state or municipal debt obligations
- Certain pre-refunded municipal obligations
- Commercial paper
- Investments in money market funds
- Repurchase agreements
- Stripped securities
- Investments in the Municipal Investment Pool Fund
- Investment agreements

Kansas State University

Notes to Financial Statements
For the Year Ended June 30, 2020

Kansas State University Foundation (the Foundation)

The Foundation is authorized by state statute to act as the investing agent for the state agricultural university fund. Allowable investments include:

- Time deposit, open accounts for periods of not less than 30 days, or certificates of deposit for periods of not less than 90 days, in commercial banks located in Kansas.
- United States treasury bills or notes with maturities as the investing agent shall determine.
- The permanent endowment fund of the endowment association or foundation.

The Foundation is also the investing agent for K-State Athletics, Inc. The investment policies of the Foundation are governed by policies and procedures established by their Asset Management Committee, which is a committee of the Board of Directors, in collaboration with staff and consultants. The Foundation staff implements policies through: (1) the selection of investment strategies, (2) the hiring, monitoring, and changing of investment managers, and (3) rebalancing the portfolios. Investment results are monitored by the committee quarterly through manager and portfolio performance and due diligence reporting, and annually through outside auditing of the Foundation's accounts and procedures. The specific return objectives, risk parameters, and spending policies of K-State Athletics, Inc. are adopted to be in compliance with the Foundation's policies and procedures for endowment and investment management.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. K-State does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

PMIB minimizes interest rate risk by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity, and by investing operating funds primarily in shorter-term securities.

For revenue bond investments managed by KDFA, due to the tax-exempt status of the bonds, it is generally the practice of KDFA and K-State to match reserve fund interest rates to the arbitrage yield on the bonds and the term of the investments to the maturity of the bonds. For invested loan funds, KDFA generally invests to maximize the interest rate and set a term of investment based on estimated expenditures, which is generally 3-5 years.

The state agricultural university funds are invested in the Foundation's pooled endowment fund and are subject to their investment policy.

As of June 30, 2020, K-State had investments with the following maturities:

Investment Type	Fair Value	Investment Maturities					Undetermined Maturity Dates
		< 1 yr.	1-5 yrs.	6-10 yrs.	> 10 yrs.		
K-State Foundation Investment Pool	\$ 23,310,338	—	—	—	—	\$ 23,310,338	
Other Long Term Investments	29,081,475	—	—	—	—	29,081,475	
Grand Total	\$ 52,391,813	—	—	—	—	\$ 52,391,813	

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations to K-State. K-State's investments may have credit risk, since the underlying securities may include securities other than those that take the form of U.S. Treasuries or obligations explicitly guaranteed by the U.S. government. Certain investments have an underlying collateral agreement.

Kansas State University

Notes to Financial Statements
For the Year Ended June 30, 2020

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty, K-State will not be able to recover the value of the investments that are in the possession of an outside party. K-State's investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the university's name, and are held by either the counterparty or the counterparty's trust department or agent.

K-State does not have a formal investment policy that addresses custodial credit risk. However, K-State's custodial credit risk is estimated to be minimal based on the expressed investment policies of PMIB, KDFA and the Foundation.

Concentration of credit risk is the risk of loss attributed to the magnitude of K-State's investment in a single issuer that exceeds 5% or more of its total investments. Investments issued or explicitly guaranteed by the U.S. Government and investments in mutual funds, external investment pools, and other pooled investments are excluded from this requirement.

Information about concentrations of investments with a single issuer is not provided by the State Treasurer or PMIB and therefore K-State cannot provide this information. The financial statements of the State of Kansas provide additional information about the risk associated with the State Treasurer's and PMIB's investment portfolios.

Fair Value Measurement

GASB Statement 72, *Fair Value Measurement and Application*, sets forth the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under GASB 72 are described as follows:

Level 1 – Quoted prices in active markets for identical assets or liabilities.

Level 2 – Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities.

Recurring Measurements

The following table presents the fair value measurements of assets and liabilities on a recurring basis recognized in the accompanying Statement of Net Position and the corresponding level within the fair value hierarchy at June 30, 2020. Information to determine the June 30, 2020 levels for investments held by the Foundation for K-State Athletics, Inc. was not available as of the date of their audit report and therefore not included in the table below.

	June 30, 2020			
	<u>Fair Value</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Money market mutual funds	\$ 12,042,040	\$ 12,042,040	\$ -	\$ -

Kansas State University

Notes to Financial Statements
For the Year Ended June 30, 2020

Note 5 – Loans to Students

Student loans made through the Federal Perkins Loan Program and the Health Professions Student Loan Program comprise substantially all of the loans to students at June 30, 2020 and 2019. The programs provide for cancellation of a loan at rates of 10% to 30% per year up to a maximum of 100%, if the participant complies with certain provisions.

As K-State determines that loans are uncollectible and not eligible for reimbursement by the Federal government, the loans are written off and assigned to the U. S. Department of Education.

Effective October 1, 2018, the United States Department of Education (U.S. ED) did not renew the Federal Perkins Loan Program. As a result, after a brief transition period, no new loans could be disbursed to students. The current guidance provided by U.S. ED stipulates that as cash is collected by the university from loans disbursed prior to October 1, 2018, such funds are to be remitted back to U.S. ED on a proportional basis (the Perkins program was originally funded by U.S. ED with a small percentage matched by the university). Given this recent guidance, K-State has determined that it is probable that U.S. ED, as the provider of the original resource, will require the return of the resources originally received under this program. At the time of the receipt, K-State recorded non-exchange revenues, and thereby, the balance of the resources provided by U.S. ED previously resided in the university's restricted net position.

Pursuant to guidance provided by GASB Statement 33 and based on K-State's estimate that the return of these resources is probable, a liability of \$10,209,899 has been recorded on the university's financial statements for the fiscal year ended June 30, 2020.

K-State has elected not to capitalize its library book collections. These collections adhere to K-State's policy to (a) maintain them for public exhibition, education, or research; (b) protect, keep encumbered, care for, and preserve them; and (c) require proceeds from their sale to be used to acquire other collection items. Generally accepted accounting principles permit collections maintained in this manner to be charged to operations at the time of purchase rather than be capitalized.

Other Loans Payable

In fiscal year 2010, \$2,538,649 of special assessment bonds were issued in Johnson County to pay for the infrastructure of the K-State Olathe Innovation Campus, Inc., with an additional amount issued in fiscal year 2011 of \$427,368. The City of Olathe reevaluated property boundaries used to allocate special assessment bonds, resulting in a decrease in the liability by \$338,105. During the year ended June 30, 2020, K-State Olathe Innovation Campus, Inc. donated 11.58 acres of land to the City of Olathe. As a result, future maturities were amended and the outstanding balance at June 30, 2020 is \$997,004.

K-State Athletics, Inc. has an available \$7,000,000 revolving line of credit with a banking institution with an interest rate of 2.52% and maturity on February 1, 2023, of which KSA has an outstanding balance of \$0 at June 30, 2020. Proceeds were used for the construction and renovation of the baseball and soccer stadiums. Pledged as collateral are all uncollected pledges associated with the baseball and soccer capital campaign, and all pledges designated for the Vanier Family Football Complex.

Notes to Financial Statements
For the Year Ended June 30, 2020

Note 12 – Retirement Plans

K-State participates in one cost-sharing multiple-employer defined benefit pension plan, one defined contribution pension plan, and one federal pension plan.

Defined Benefit Plan

University Support Staff employees participate in the Kansas Public Employees Retirement System (KPERS). Benefit provisions are established by state statute and provide retirement, disability, and death benefits to benefits eligible employees. See Note 13 for detailed information.

Defined Contribution Plan

Eligible faculty and professional staff employees are required to participate in the Kansas Board of Regents (Regents) defined contribution retirement plan, which was authorized by K.S.A. 74-4925. The Regents have selected the following companies to provide investment options to participants: 1) Teachers Insurance and Annuity Association/College Retirement Equities Fund (TIAA/CREF) and 2) Voya Financial. Benefits under these plans depend solely on the contributed amounts and the returns earned on the investment of those contributions. All contributions are fully vested with the first contribution.

For the fiscal year ended June 30, 2020, active members were required by statute to contribute 5.5% and the university to contribute 8.5% of the employees' covered payroll. The Kansas Legislature establishes and may amend active plan members' and the university's contribution rates. K-State contributed \$21,421,170 during fiscal year 2020 and \$20,437,102 during fiscal year 2019. Individual employees contributed \$13,724,422 during fiscal year 2020 and \$13,349,712 during fiscal year 2019.

Federal Retirement Plan

Some Cooperative Extension Service employees at K-State participate in federal benefit programs. Prior to December 31, 1986, federal appointees were required to participate in the Federal Civil Service Retirement System (CSRS), a defined benefit plan. CSRS employees are subject to the hospital insurance portion of FICA, the CSRS employee deduction of 7.0%, and the employer contribution of 7.0%.

The Federal Employees Retirement System (FERS), also a defined benefit plan, was created beginning January 1, 1987. Employees hired after December 31, 1983 were automatically converted to FERS. Other federal employees not covered by FERS had a one-time option to transfer to FERS through December 31, 1987. Current FERS employees contribute 8% with an employer contribution rate of 1%. They also participate in a Thrift Savings Plan with an automatic employer contribution of 1%. Employees may also contribute to this plan at variable rates, in which case the employer contributes at a variable rate up to 5%. CSRS employees are also eligible for participation in the Thrift Savings Plan, but without employer contributions. Acceptance of new member participation was terminated effective July 1, 1986.

For the fiscal years ended June 30, 2020 and June 30, 2019, K-State contributed \$349,451 and \$407,540 respectively. Individual employees contributed \$170,583 and \$219,777 to these plans for fiscal years 2020 and 2019, respectively.

Voluntary Tax-Sheltered Annuity Program

Employees may also elect to participate, up to the maximum dollar amount permitted by the Internal Revenue Code, in a voluntary tax-sheltered annuity program. This voluntary plan permits employees to designate a part of their earnings into tax-sheltered investments and thus defer federal and state income taxes on their contributions and the accumulated earnings under the plan. Participation and the level of employee contributions are voluntary. The employer is not required to make contributions to the plan.

Kansas State University

Notes to Financial Statements
For the Year Ended June 30, 2020

Note 13 – Pension Plan – Kansas Public Employees Retirement System

General Information about the Pension Plan

Plan description: University Support Staff participate in the Kansas Public Employees Retirement System (KPERS), a cost-sharing multiple-employer defined benefit pension plan as provided by K.S.A. 74-4901, et. seq. Kansas law establishes and amends benefit provisions. KPERS issues a publicly available financial report that includes financial statements and required supplementary information. KPERS' financial statements are included in its Comprehensive Annual Financial Report which can be found on the KPERS website at www.kpers.org or by writing to KPERS (611 South Kansas, Suite 100, Topeka, KS 66603) or by calling 1-888-275-5737.

Benefits provided: KPERS provides retirement benefits, life insurance, disability income benefits, and death benefits. Benefits are established by statute and may only be changed by the state's General Assembly. Member employees with ten or more years of credited service may retire as early as age 55, with an actuarially reduced monthly benefit. Normal retirement is at age 65, age 62 with ten years of credited service, or whenever an employee's combined age and years of credited service equal 85 "points".

Monthly retirement benefits are based on a statutory formula that includes final average salary and years of service. When ending employment, member employees may withdraw their contributions from their individual accounts, including interest. Member employees who withdraw their accumulated contributions lose all rights and privileges of membership. The accumulated contributions and interest are deposited into and disbursed from the membership accumulated reserve fund as established by K.S.A. 74-4922.

Member employees choose one of seven payment options for their monthly retirement benefits. At retirement a member employee may receive a lump-sum payment of up to 50% of the actuarial present value of the member employee's lifetime benefit. His or her monthly retirement benefit is then permanently reduced based on the amount of the lump-sum. Benefit increases, including ad hoc post-retirement benefit increases, must be passed into law by the Kansas Legislature. Benefit increases are under the authority of the Legislature and the Governor of the State of Kansas.

The 2012 Legislature made changes affecting new hires, current members and employers. A new KPERS 3 cash balance retirement plan for new hires starting January 1, 2015, was created. Normal retirement age for KPERS 3 is 65 with five years of service, or 60 with 30 years of service. Early retirement is available at age 55 with ten years of service, with a reduced benefit. Monthly benefit options are an annuity benefit based on the account balance at retirement.

For all pension coverage groups, the retirement benefits are disbursed from the retirement benefit payment reserve fund as established by K.S.A. 74-4922.

Contributions: Member contribution rates are established by state law and are paid by the employee according to the provisions of section 414(h) of the Internal Revenue Code. State law provides that the employer contribution rates be determined based on the results of each annual actuarial valuation for each of the three statewide pension groups. The contributions and assets of all groups are deposited in the Kansas Public Employees Retirement Fund established by K.S.A. 74-4921. All of the retirement systems are funded on an actuarial reserve basis.

For fiscal years beginning in 1995, Kansas legislation established statutory limits on increases in contribution rates for KPERS employers, which includes the state and the school employers. Annual increases in the employer contribution rates related to subsequent benefit enhancements are not subject to these limitations. The statutory cap increase over the prior year contribution rate is 1.2% of total payroll for the fiscal year ended June 30, 2020.

Kansas State University

Notes to Financial Statements
For the Year Ended June 30, 2020

The actuarially determined employer contribution rates (not including the 1.00% contribution rate for the Death and Disability Program) and the statutory contribution rates are as follows: State employees' actuarial employer rate: 8.28%; statutory employer capped rate: 13.21%; Police and firemen actuarial employer rate: 22.13%; statutory employer capped rate: 22.13%. Contributions to the pension plan from K-State were \$6,644,114 for the year ended June 30, 2020.

Member contribution rates as a percentage of eligible compensation in fiscal year 2019 are 6.00% for public employees and 7.15% for police and firemen.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, K-State reported a liability of \$64,382,220 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2018, which was rolled forward to June 30, 2018. K-State's proportion of the net pension liability was based on the ratio of the university's actual contributions to KPERS, relative to the total employer and non-employer contributions of the State/School subgroup within KPERS for the fiscal year ended June 30, 2019. The contributions used exclude contributions made for prior service, excess benefits and irregular payments. At June 30, 2019 the K-State proportion was 0.965629%, which was a decrease of 0.058767% from its proportion measured as of June 30, 2018. At June 30, 2019, K-State Police and Fire Group proportion was 0.190496%, which was a decrease of 0.007346% from its proportion measured as of June 30, 2018.

For the year ended June 30, 2020, K-State recognized pension expense of \$3,135,508. At June 30, 2020, deferred outflows of resources and deferred inflows of resources were reported related to pensions from the following sources:

	<u>Deferred</u> <u>Outflows of</u> <u>Resources</u>	<u>Deferred Inflows</u> <u>of Resources</u>
Difference between expected and actual experience	\$ 651,543	\$ 1,618,903
Net difference between projected and actual earnings on pension plan investments	1,076,839	-
Changes in proportionate share	714,479	8,667,287
Changes in assumptions	1,745,567	25,101
University contributions subsequent to measurement date	<u>6,644,114</u>	<u>-</u>
Total	<u><u>\$ 10,832,542</u></u>	<u><u>\$ 10,311,291</u></u>

\$10,832,542 reported as deferred outflows of resources related to pensions resulting from K-State's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Kansas State University

Notes to Financial Statements
For the Year Ended June 30, 2020

Year ended June 30:

2020	\$ (852,907)
2021	(2,944,553)
2022	(1,741,062)
2023	(522,808)
2024	(61,533)
Thereafter	-
Total	<u>\$ (6,122,863)</u>

Actuarial assumptions: The total pension liability in the December 31, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75 percent
Salary increases, including wage increases	3.50 to 12.00 percent, including inflation
Long-term rate of return, net of investment expense and including price inflation	7.75 percent

Mortality rates were based on the RP-2014 Mortality Tables, with age setbacks and age set forwards as well as other adjustments based on different membership groups. Future mortality improvements are anticipated using Scale MP-2016.

The actuarial assumptions used in the December 31, 2018 valuation were based on the results of an actuarial experience study conducted for the January 1, 2013 through December 31, 2015.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class as of the most recent experience study, dated November 18, 2016, as provided by KPERS' investment consultant, are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Global equity	47%	6.85%
Fixed income	13	1.25
Yield driven	8	6.55
Real return	11	1.71
Real estate	11	5.05
Alternatives	8	9.85
Short-term investments	2	-0.25
Total	<u>100%</u>	

Discount rate: The discount rate used to measure the total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from K-State will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Kansas State University

Notes to Financial Statements
For the Year Ended June 30, 2020

Sensitivity of K-State's proportionate share of the net pension liability to changes in the discount rate: The following presents K-State's proportionate share of the net pension liability calculated using the discount rate of 7.75%, as well as what K-State's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75%) or 1-percentage-point higher (8.75%) than the current rate:

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
Proportionate share of the net pension liability	\$ 88,220,199	\$ 64,382,189	\$ 44,379,523

Pension plan fiduciary net position: Detailed information about the pension plan's fiduciary net position is available in the separately issued KPERS financial report.

Note 14 – Death and Disability OPEB Plan – Kansas Public Employees Retirement System

Description

K-State participates in an agent multiple-employer defined benefit other post-employment benefit (OPEB) plan which is administered by KPERS. The plan provides long-term disability benefits and life insurance benefit for disabled members to KPERS members, as provided by K.S.A. 74-04927. The plan is administered through a trust held by KPERS that is funded to pay annual benefit payments. Because the trust's assets are used to pay employee benefits other than OPEB, no assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement 75. There is no stand-alone financial report for the plan.

Benefits provided

Benefits are established by statute and may be amended by the KPERS Board of Trustees. The plan provides long-term disability benefits equal to 60% (prior to January 1, 2006, 66 2/3%) of annual compensation, offset by other benefits. Members receiving long-term disability benefits also receive credit towards their KPERS retirement benefits and have their group life insurance coverage continued under the waiver premium provision.

Long-term disability benefit

Monthly benefit is 60% of the member's monthly compensation, with a minimum of \$100 and maximum of \$5,000. The monthly benefit is subject to reduction by deductible sources of income, which include Social Security primary disability or retirement benefits, worker's compensation benefits, other disability benefits from any other source by reason of employment, and earnings from any form of employment. If the disability begins before age 60, benefits are payable while disability continues until the member's 65th birthday or retirement date, whichever occurs first. If the disability occurs after age 60, benefits are payable while disability continues, for a period of 5 years or until the member retires, whichever occurs first. Benefit payments for disabilities caused or contributed to by substance abuse or non-biologically based mental illnesses are limited to the term of the disability or 24 months per lifetime, whichever is less. There are no automatic cost-of-living increase provisions. KPERS has the authority to implement an ad hoc cost-of-living increase.

Group life waiver of premium benefit

Upon the death of an employee who is receiving monthly disability benefits, the plan will pay a lump-sum benefit to eligible beneficiaries. The benefit amount will be 150% of the greater of the member's previous 12 months of compensation at the time of the last date on payroll. If the member has been disabled for 5 or more years, the annual compensation or salary rate at the time of death will be indexed using the consumer price before the life insurance benefit is computed. The indexing is based on the consumer price index, less one percentage point, to compute the death benefit. If a member is diagnosed as terminally ill with a life expectancy of 12 months or less, the member may be eligible to receive up to 100% of the death benefit rather than having the benefit paid to the beneficiary. If a member retires or disability benefits end, the member may convert the group life insurance coverage to an individual life insurance plan.

Kansas State University

Notes to Financial Statements
For the Year Ended June 30, 2020

Members covered by benefit terms. At June 30, 2020, the following members were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	1276
Active employees	54
Total	1330

Total OPEB Liability

The total OPEB liability of \$3,485,056 was measured as of June 30, 2018 and was determined by an actuarial valuation as of December 31, 2018, which was rolled forward to June 30, 2019.

Actuarial assumptions and other inputs. The total OPEB liability in the December 31, 2018 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all period included in the measurement, unless otherwise noted:

Price inflation	2.75%
Payroll growth	3.00%
Salary increases, including inflation	3.50 to 10%, including price inflation
Discount rate	3.87%
Healthcare cost trend rates	Not applicable for the coverage in this plan
Retiree share of benefit cost	Not applicable for the coverage in this plan

The discount rate was based on the Bond Buyer General Obligation 20-Bond Municipal Index.

Mortality rates were based on the RP-2014 Mortality tables, as appropriate, with adjustment for mortality improvements based on Scale MP-2019.

The actuarial assumptions used in the June 30, 2018 valuation were based on actuarial experience study for the period January 31, 2013 – December 31, 2015. Other demographic assumptions are set to be consistent with the actuarial assumptions reflected in the December 31, 2018 KPERS pension valuation.

Changes in the Total OPEB Liability

	Total OPEB Liability
Balance at fiscal year-end 6/30/19	\$ 3,791,510
<u>Changes for the year:</u>	
Service Cost	\$ 194,029
Interest	138,780
Effect of economic/demographic gains or losses	123,646
Effect of assumptions changes or inputs	43,692
Benefit payments	(806,601)
Net changes	<u>(306,454)</u>
Balance at fiscal year-end 6/30/20	<u>\$ 3,485,056</u>

Changes of assumptions

Changes of assumptions and other inputs reflect the effects of changes in the discount rate each period. The discount rate increased from 3.87% on June 30, 2018 to 3.50% on June 30, 2019.

Kansas State University

Notes to Financial Statements
For the Year Ended June 30, 2020

Sensitivity of the total OPEB liability to changes in the discount rate

The following presents the total OPEB liability of K-State, as well as what the university's total OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.50%) or 1-percentage-point higher (4.50%) than the current discount rate:

Current		
1% Decrease	Discount Rate	1% Increase
2.50%	3.50%	4.50%
\$ 3,604,740	\$ 3,485,056	\$ 3,367,796

Sensitivity of the total OPEB liability to changes in the healthcare cost trend rates

The healthcare trend rates do not affect the liabilities related to the long-term disability benefits sponsored by KPERS. Therefore, there is no sensitivity to a change in healthcare trend rates.

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2020, K-State recognized OPEB expense of \$323,379. At June 30, 2020, K-State reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 110,938.00	\$ 84,588
Changes in assumptions	39,202	108,396
Benefit payments subsequent to the measurement date	806,601	-
Total	\$ 956,741	\$ 192,984

The deferred outflow of resources related to the benefit payments subsequent to the measurement date totaling \$806,601 consist of payments made to KPERS for benefits and administrative costs and will be recognized as a reduction in the total OPEB liability during the year ended June 30, 2020. Other amounts reported as deferred outflows of sources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Deferred Outflows (Inflows) of Resources

Year ended June 30:

2020	\$ (9,430)
2021	(9,430)
2022	(9,430)
2023	(9,430)
2024	(9,430)
Thereafter	<u>4,306</u>
	<u><u>\$ (42,844)</u></u>

Kansas State University

Notes to Financial Statements
For the Year Ended June 30, 2020

Note 15 – Asset Retirement Obligations

K-State measures its asset retirement obligations (AROs) based on the best estimate of the current value of costs associated with future retirement activities that are legally required when retiring certain assets. The university measures its estimate based on recent historical costs for similar retirement activities, cost estimates provided by vendors, and other inputs based on review of similar transactions internally and at other institutions. The following summary provides a general description of the major AROs reported at 6/30/2020 as well as a reference to the legal requirements that generated the ARO and the remaining useful life of the associated tangible capital asset:

<u>Description</u>	<u>Asset</u>	<u>Regulation</u>	<u>Remaining useful life</u>	<u>ARO measured at</u>
Decommission costs, including disposal of radioactive materials, labor, energy & other costs	TRIGA Mark II nuclear reactor teaching facility	10 CFR 50.75, "Reporting & Recordkeeping for Decommissioning Planning"	49 yrs.	\$ 1,635,154
Total Asset retirement obligations at June 30, 2020				\$ 1,635,154

Deferred outflows of resources relate to the ARO totaled \$1,570,497 as of June 30, 2020. The expected future expense recognition associated with deferred outflows of resources related to the ARO over the next 5 years and thereafter is as follows:

Deferred Outflows (Inflows) of Resources

Year Ended June 30:

2021	\$ 32,714
2022	32,714
2023	32,714
2024	32,714
2025	32,714
Thereafter	<u>1,406,927</u>
	<u>\$ 1,570,497</u>

Legally required funding and assurance provisions have been met with a statement of intent submitted to the U.S. Nuclear Regulatory Commission (NRC), in compliance with 10 CFR 50.75(e)(1)(iv). The statement assures the NRC that funds for decommissioning will be obtained, when necessary, through a request for a legislative appropriation of funds or other means, to provide funds sufficiently in advance of decommissioning to prevent delay of required activities.

Kansas State University

Notes to Financial Statements
For the Year Ended June 30, 2020

Note 16 – Pollution Remediation

The following disclosures are made in accordance with GASB Statement 49, *Accounting and Financial Reporting for Pollution Remediation Obligations*:

A chemical waste landfill was created with approval of the U.S. Atomic Energy Commission and utilized from the mid-1960's to 1987 as a burying ground for tritium, carbon-14 and other short-lived radioactive elements. The university also disposed of some chemicals at the site from 1979 to 1983. The Kansas Board of Regents approved the plan to clean up the site, which commenced in fiscal year 2011 and was completed as of July 2012. Monitoring groundwater, sampling and reporting will continue as mandated by the EPA.

Seven monitoring wells have been installed and a quarterly sampling schedule is in effect related to the removal of diesel and gasoline underground storage tanks at the Ashland Bottoms Agronomy farm in Riley County. The remediation costs are paid from the State of Kansas Storage Tank Trust fund, less a \$4,000 deductible which has been paid by the university.

A spill of 1,500 gallons of urea ammonium nitrate occurred at the Ashland Bottoms Agronomy farm on October 20, 2017. The on-going cleanup is being conducted and paid for by K-State. Expenses to date total \$56,005. Future expenses are estimated at \$5,000.

Note 17 – Commitments and Contingencies

At June 30, 2020, K-State had outstanding commitments on various construction projects and contracts totaling approximately \$24.3 million.

K-State is a defendant in several lawsuits. However, university officials are of the opinion, based on advice of in-house legal counsel, that the ultimate outcome of all litigation will not have a material effect on the future operations or financial position of the university.

As of July 1, 2019, university property was insured with a \$1,000,000 deductible and a maximum of \$1,000,000,000 per occurrence. Coverage extends to buildings, machinery, equipment, and other contents (contents of buildings are covered at 10% of the value of the building) as well as business interruption. Property insurance is currently arranged through the Midwest Higher Education Compact. K-State, as an agency of the State of Kansas, is covered by the Kansas Tort Claims Act, which generally limits the university's liability for general liability and personal injury claims to \$500,000 for any number of claims arising out of a single occurrence or event. K-State does not carry separate comprehensive general liability or personal injury insurance for the university as a whole. K-State is also covered by the Regent's umbrella insurance policy for automobile liability. Other insurance the university carries includes professional liability coverage for doctors at the university's student health center; coverage for employee crime and theft for the Division of Financial Services; Aviation Insurance to cover the liability and operations of K-State Polytechnic; coverage for some mobile equipment through an Inland Marine policy, and cybersecurity coverage has been procured in cooperation with the Kansas Board of Regents for K-State and its controlled corporations and affiliates. Additionally, the university purchases international liability insurance and offers International Travel Accident insurance which is purchased individually by employees and students who are traveling internationally.

The outbreak of 2019 coronavirus (COVID-19), which was recognized as a global pandemic by the World Health Organization, has prompted governmental entities, businesses, organizations, and Universities to implement preventative and protective measures, including how business activities are conducted. The pandemic has resulted in a widespread economic downturn and created significant uncertainty, volatility and disruption in financial and business activities. The extent of the pandemic's impact on the University's operations and financial condition will depend on future developments, which are uncertain, including, but not limited to, the duration and severity of the pandemic, the effects of the pandemic on the economy, the remedial actions and stimulus measures adopted by the federal government, and to what extent normal economic and business activities can resume. The university has received funding from multiple state and federal sources to assist with the pandemic response.

Kansas State University

Notes to Financial Statements
For the Year Ended June 30, 2020

The university experienced a large loss on its property policy which occurred on May 22, 2018 to Hale Library. Operations and maintenance expenditures of \$8.5 million and an extraordinary gain of \$28 million from insurance recoveries are included on the Statement of Revenues, Expenses and Changes in Net Position for fiscal year 2020. These amounts are reported in accordance with GASB Statement 42, *Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries*.

In the normal course of operations, K-State receives grants, contracts, and other forms of reimbursement from various federal and state agencies. These activities are subject to audit and disallowance by agents of the funding authority, the purpose of which is to ensure compliance with conditions precedent to providing such funds. K-State officials believe that the liability, if any, for any reimbursement that may arise as the result of audits, would not have a material effect on K-State's financial position.

Note 18 – Component Unit Disclosures

Discretely Presented Component Unit

Kansas State University Foundation (the Foundation) – The purpose of the Foundation is to encourage, receive and hold in trust any real or personal property given for the use of K-State, its faculty and students; and to invest, disburse, manage and control all such gifts in accordance with donor intent and to provide those services to K-State which are not or cannot be provided through state appropriations or student fees. Due to the differences between K-State and the Foundation's reporting models, the Foundation's financial statements are separately presented immediately following K-State's statements, with no modifications.

The Foundation's endowment consists of approximately 4,000 individual funds established for a variety of purposes. The endowment includes both donor-restricted endowment funds and funds designated by the governing body to function as endowments (board-designated endowment funds). In accordance with generally accepted accounting principles, net assets associated with endowment funds, including board-designated endowment funds, are classified and reported based on the existence or absence of donor-imposed restrictions.

The following is the composition of net assets by type of endowment fund, excluding associated liabilities under split-interest agreements as of June 30, 2020:

	Without Donor Restrictions	With Donor Restrictions	Total
Donor restricted endowments	-	\$459,058,236	\$459,058,236
Accumulated investments gains	-	14,879,211	14,879,211
Board designated endowments	32,010,678	-	32,010,678
Board policy designated to address underwater endowments	39,247,592	-	39,247,592
Term endowments	-	75,104,277	75,104,277
Net Assets	<u>\$71,258,270</u>	<u>\$549,041,724</u>	<u>\$620,299,994</u>

Kansas State University

Notes to Financial Statements
For the Year Ended June 30, 2020

The Foundation's investments include debt and equity securities for liquidity, donated assets and real estate, as well as a managed portfolio of long-term investments. The Foundation's investments at June 30, 2020 were as follows:

	2020 Fair Value Measurements			
	June 30, 2020	Level 1	Level 2	Level 3
Investments by fair value level				
Equity securities	\$ 140,532,460	\$ 140,532,460	\$ -	\$ -

Total investments measured at the NAV	<u>\$ 517,589,269</u>			
Total investments	<u>\$ 927,793,087</u>			

For the fiscal year ended June 30, 2020, the total return of the Endowment Pool was 2.6%.

Kansas State University

Notes to Financial Statements
For the Year Ended June 30, 2020

The Foundation holds certain assets for the benefit of K-State which do not provide a market rate of return on funds invested. Some examples of these investments include:

University Real Estate Fund – Certain real estate holdings vital to the mission of K-State were purchased and are held for current and potential university use.

Smith Scholarship House – The Foundation has provided the building rent-free in order to maintain the house in operation for the benefit of the students.

Holiday Inn and Wildcat BP – The hotel and service station located adjacent to the university were built on land acquired by the Foundation to meet the needs of public lodging and service facilities close to the university.

Faculty and Accommodation Loans – The Foundation provides faculty loans at favorable interest rates to K-State faculty and staff to enable them to conduct business travel pending reimbursement from the university. Non-interest-bearing accommodation loans are available to faculty and staff when their salary payment cannot be processed by the university by payday.

Blended Component Units

Transactions between K-State and the following blended units have been eliminated from the financial statements. All other balances and transactions are blended with those of K-State and reported as if they were balances and transactions of the university.

K-State Olathe Innovation Campus, Inc. (Olathe) – On the Statement of Revenues, Expenses and Changes in Net Position, the Change in Net Position is recorded as -\$264,369. Payments were made to K-State totaling \$3,506,280 during the fiscal year ending June 30, 2020. Investments held by Olathe at fiscal year-end total \$4,099,460.

K-State Italy – Revenues received from K-State totaled \$89,667.

K-State Athletics, Inc. (Athletics) – K-State owns all land used by Athletics, and any purchases and/or construction of permanent real property (i.e. buildings, land and improvements) on the land are recorded as leasehold improvements. On the Statement of Revenues, Expenses and Changes in Net Position, the Change in Net Position is recorded as \$24,199,718. Payments made to K-State and its affiliates totaled \$11,659,434 during the fiscal year ending June 30, 2020. Revenue received from K-State was \$2,182,003. Investments held by Athletics at fiscal year-end totaled \$34,336,717 on the Statement of Net Position. Net pledges receivable, which consist of unconditional promises to give cash and other assets, totaled \$32,940,496. Pledges are accrued at estimated fair value at the date each promise is received. An allowance for doubtful collections is estimated by identifying specific pledges that are in doubt and applying a historical percentage to the remaining pledges.

Kansas State University Research Foundation (KSURF) – As of June 30, 2020, KSURF had investments totaling \$10,220,322 on the Statement of Net Position. The Change in Net Position on the Statement of Revenues, Expenses and Changes in Net Position for KSURF totaled -\$41,834 for the fiscal year.

Kansas State University Veterinary Clinical Outreach, Inc. (KSUVCO) – The Change in Net Position is -\$2,514,489 on the June 30, 2020 Statement of Revenues, Expenses and Change in Net Position.

The K-State Union Corporation (the Union) – The Union is operated from facilities owned by K-State without charge. Included in the Change in Net Position amount of \$223,857 on the June 30, 2020 Statement of Revenue, Expenses and Change in Net Position are revenues received from K-State and related entities in the amount of \$3,111,207. The Union has a note payable due to the K-State in the amount of \$180,000, which is to be repaid in equal annual installments of \$80,000 per year for the years 2021 through 2022 and a final payment of \$20,000 in 2023. This loans bears no interest. Investments at fiscal year-end total \$20,292 on the Statement of Net Position.
