Dec 8  Melissa Bopp and the Students of KIN 830: “How Bikeable is Manhattan?” 6:00 pm, KSU Natatorium, Room 2.

Events and Things of Note

December 11, 2008 is International Mountain Day. The theme this year is "Food Security in Mountains." (International Mountain Day is an opportunity to create awareness about the importance of mountains to life, to highlight the opportunities and constraints in mountain development and to build partnerships that will bring positive change to the world's mountains and highlands).

African Issues Symposium on Food Security, Environmental Sustainability, and Human Health will be held at Kansas State University on March 30- April 1, 2009. This Symposium will be sponsored by: K-State African Studies Center, Institute for Grassland Studies, and K-State Office of International Programs.

Featured Speakers are:
Dr. Monty P. Jones (Ghana), Executive Director of Forum on Agricultural Research in Africa, and recipient of the 2004 World Food Prize
The Community Forestry and Environmental Research Partnerships Program provide fellowships to graduate students in geography. Fellows in the social sciences – geography, anthropology, sociology and others – typically study the political, cultural, economic and ecological forces that bear on the relationships between communities and the environment.

In addition to nationwide fellowships, the Community Forestry and Environmental Research Partnerships Program offer fellowships with a focus in the Southwest. The goal of these fellowships is to support graduate students doing participatory research with Native American and other southwestern communities to develop socially just and ecologically sustainable natural resource practices. Applications for Fellowships must be received by February 2, 2009. Applications and full program details online: www.cnr.berkeley.edu/community_forestry.
