

FINAL EXAMINATION COURSE REVALIDATION

If coursework has been completed more than 6 years prior to the date of final examination and is not part of an earned degree, a revalidated plan including this form must be submitted with the approval to schedule final examination form. The courses must be revalidated the semester the student graduates.

Student Name _____ WID # _____
Email _____ Date _____
Degree Program _____ College _____

Semester	Course Number & Title	Professor	Credits	Grade
----------	-----------------------	-----------	---------	-------

The following methods of revalidation or combinations of methods are acceptable:

- require the student to complete a project relevant to the course content
- passing an examination specifically covering the current course material
- Industrial and professional experiences which demonstrates knowledge of courses content must be accompanied with document explaining how the student had to maintain educational requirements for licensure or professional credential(s).
- assessing during the final MS oral examination that student's knowledge of the course content is current and up to date

Plan for Revalidation

Describe below or in an attachment the plan or procedure to establish current knowledge of this course material, including how knowledge has been applied through different experiences.

Major Professor's Signature _____ Date _____
Student's Signature _____ Date _____

Approval of Revalidation Plan
