

PROGRAM OF STUDY COURSE REVALIDATION

If coursework has been completed more than 7 years prior to submission of the program of study and is not part of an earned degree it is recommended to be included on a student’s program of study, a revalidated plan including this form must be submitted with the program of study. The courses must be revalidated the semester the student graduates or prior to the last semester. Documentation of revalidation must be submitted with the final examination ballot.

Student Name _____ WID # _____
 Email _____ Date _____
 Degree Program _____ College _____

Semester	Course Number & Title	Professor	Credits	Grade
----------	-----------------------	-----------	---------	-------

The following methods of revalidation or combinations of methods are acceptable:

- a. retake the class for which the content has significantly changed
- b. require the student to complete a project relevant to the course content
- c. passing an examination specifically covering the current course material
- d. Industrial and professional experiences which demonstrates knowledge of courses content must be accompanied with document explaining how the student had to maintain educational requirements for licensure or professional credential(s).
- e. assessing during the final MS oral examination that student’s knowledge of the course content is current and up to date
