Student Transcripts (internal documents requested by the university)

- Students are required to hand in the original copies of their diplomas and transcripts, which detail the curriculum that they have completed and the degrees that they have obtained. Your academic record will be matriculated at the Graduate School, at which point you will be able to register for courses. Please make sure that you have all of your certificates and transcripts from your prior course work with you before you leave.

VISA (Apply through U.S. Government)

- Due to the extensive amount of time often required to process visa applications, it is important to apply for your visa as early as possible. Each embassy or consular post has its own application procedures, so you should consult the office where you will be applying for specific details. All students must complete a visa application in order to schedule a visa interview.
- Student visa information from the Department of State is available for those applying for an F-1 visa or a J-1 visa. The Department of Homeland Security requires the submission of a SEVIS I-901 form and fee, which must be paid before the Embassy will issue your visa.

Plan your arrival

- You may be refused entry into the United States if you attempt to arrive more than 30 days before or any time after the
