7. Committee on Planning – Perla Reyes, Chair

- Report.
- Action Items:

A through C below are second readings for changes to the Graduate Handbook. They require a vote.

Items D and E are before the Graduate Council as Reading 1.

a. **Chapter 4, Section B10** (*Transfer credits toward grad certificates*) - **Reading Two**

10. To be awarded a graduate certificate, the student (a) must have earned all the required credits in the six years prior to the semester in which the certificate plan is submitted (b) must not be on probation, (c) must have a cumulative GPA of 3.0 or higher on graduate coursework and on coursework applied to the certificate, (d) must meet all the requirements of the Graduate School and the student's certificate program, (e) must be enrolled during the semester in which the certificate requirements are completed, and (f) must provide official transcripts for any approved transfer credits. Transfer credit must be from an accredited institution. Certificate programs may specify higher requirements.

Motion: The Committee on Planning motions to approve Reading Two of **Chapter 4, Section B10** for inclusion in the 2023-2024 Graduate Handbook.
Vote (YES-NO-ABSTAIN):

b. **Chapter 2, Section D5** (*Applying grad credit from in-house certificates to master's degree*) - **Reading Two**

Graduate students may not apply credit from the same course toward the requirements for both an undergraduate and a graduate degree, except as described in the concurrent B.S./master/graduate certificate programs approved by the Graduate Council. Credits that were earned more than seven years prior to the semester in which the program of study is approved cannot be applied.

Overlapping graduate credit

a. Students who take more than one master's degree may not apply more than six hours of overlapping graduate credit in total across the degree programs.

b. Students who wish to earn a master's degree after earning a doctorate may not apply more than 10 credit hours of doctoral work from the first degree toward the master's degree.

c. Students who earn a graduate certificate from Kansas State University may apply all of the graduate credits from the certificate towards a master's degree provided the credits are applicable to the student's program of study for the master's degree. These credits are subject to revalidation guidelines as described in Chapter 2, J4.

Motion: The Committee on Planning motions to approve Reading Two of **Chapter 2, Section D5** for inclusion in the 2023-2024 Graduate Handbook.

Vote (YES-NO-ABSTAIN):

c. **Chapter 3, Section D** (*Revalidation of in-house Ph.D. courses that are more than 7 years old*) - **Reading Two**

Graduate work leading to the doctoral degree demands a high degree of intellectual achievement. It necessarily depends on extensive prior preparation and involves the development of understanding and knowledge at the most advanced levels. Programs of study are therefore expected to reflect in the course selection an intensive specialization extending to the limits of knowledge in one's field. ~~Credits that were earned more than six years prior to the semester in which the program of study is approved cannot be accepted except as noted in Chapter 3, section D.5.~~ Credits that were earned more than 10 years prior to the date of final examination may not be used to satisfy degree requirements. With the support of their faculty advisor, students may petition the Graduate School to have expired credits examined for possible revalidation.

Motion: The Committee on Planning motions to approve Reading Two of **Chapter 3, Section D** for inclusion in the 2023-2024 Graduate Handbook.

Vote (YES-NO-ABSTAIN):

d. **Chapter 2, Section D** (*Expiration date for master's courses*) - **Reading One**

D. COURSES

Graduate study demands a high degree of intellectual aptitude. It presupposes a broad preparation and involves the acquisition of specialized knowledge. These facts should be reflected in the graduate student's program of study. Credits that were earned more than seven

years prior to the semester in which the program of study is approved cannot be accepted in which the student completes all degree requirements may not be used to satisfy the degree requirements except as noted in Chapter 2, section D.6 and Chapter 2, section J.4.

e. **Chapter 2, Section J4** (*Competency revalidation of courses - clarifying language*) - **Reading One**

If a student's program of study includes any course credits more than seven years old at the time the student is ~~about~~ expected to complete all degree requirements, the final master's examination will normally include an examination over the body of course work listed on the program of study.
