- **Graduate Handbook Change. [Chapter 2 “The Master’s and Education Specialist Degrees,” Section D8 “Off Campus Research” - Reading One](#)**

Rationale for change: Remove the paragraph because it is redundant to Chapter 2, Section J2 “Scheduling” where the information seems to be more relevantly placed.

b) Off Campus Research

Special difficulties arise in guiding graduate students when they are engaged in protracted off campus research, whether that research is in the field, in the laboratory, or in the library. Therefore, supervisory committees must take adequate steps to ensure appropriate guidance. As a minimal requirement, the student must submit to the supervisory committee a well formulated research plan, including objectives and methodology, and the committee must review and approve the plan before the student departs for the research site and indicate approval on the program of study. In addition, the supervisory committee may require:

- a. That the major professor and/or a competent local authority who can reliably guide the student provide continuing on-site supervision.
- b. That the student provides the supervisory committee with frequent, periodic estimates of performance and progress. The committee may also require that these be authenticated by a competent local authority.
- c. That the major professor carries out local inspections of the student's activities.

~~Regardless of the location at which the research is conducted, the final oral examination will normally be given on the Manhattan campus unless the academic program is completely online. Exceptions can be made if requested by the student, recommended by the supervisory committee, and approved by the Department Head or Graduate Program Director and the Dean of the Graduate School. In the case of an examination in which the participants are not all in the same location, any technology used to conduct the examination must support simultaneous oral interaction between the student and all members of the examining committee. When unusual circumstances arise in the guidance of off-campus students, supervisory committees should consult with the Dean of the Graduate School.~~
