CHAPTER 1: ADMISSIONS, ENROLLMENT, AND PROGRESS

C4. Visiting (non-degree seeking) student

Students who have a bachelor's degree but do not plan to work for an advanced degree may be admitted to graduate study as visiting students. ~~Visiting students can enroll in one semester and take up to three (3) graduate courses that semester. Visiting students must have a bachelor's degree. If the visiting student wishes to continue to enroll in graduate coursework after that semester, and earn a graduate degree, they must make a formal application for admission into a graduate degree program and be formally admitted by the Graduate School as a degree or credential seeking student with full standing status.~~ Up to nine (9) graduate credit hours earned as a visiting student may be applied toward the a graduate degree program.\*

2. THE MASTER'S AND EDUCATION SPECIALIST DEGREES

A. ADMISSION AND GENERAL REQUIREMENTS

...

The Graduate School recognizes three different plans for a master's or Education Specialist degree, and the graduate faculty in each academic unit may accept one or more of them. The three possibilities are:

1. Thesis option: As a part of the degree program the student will complete a thesis for 6 to 8 hours credit.
2. Report option: As a part of the degree program the student will complete a written report for 2 hours credit on research or on a problem in the major field.
3. Course work option: The student's degree program will consist of course work only, ~~but it~~ which will include evidence of advanced work, such as term papers, objects of art, music, or designs, as determined by the ~~committee~~ program. This option may include a culminating experience.
  - a. Culminating experience required: The graduate student works with the major professor and the supervisory committee to complete all requirements of the culminating experience.
  - b. No culminating experience required: The graduate student works with the major professor to complete all degree requirements.

## 2. THE MASTER'S AND EDUCATION SPECIALIST DEGREES

...

### J. FINAL EXAMINATION

#### J1. Nature

A culminating experience may be required to earn a master's or Education Specialist degree. If a culminating experience is required, then it should verify the student's competence to synthesize information across the student's program of study. The culminating experience will occur after the student has completed the program of study and other requirements or during the term in which the candidate intends to complete them. If there is a supervisory committee, it is responsible for administering the culminating experience. The A majority of the Supervisory Committee members must vote in favor for the student to pass their defense (a tie vote is a failure). The major professor is responsible for returning the signed ballot to the Graduate School.

For students pursuing a thesis or report option, the culminating experience shall be a defense of the thesis or report.

For students pursuing a coursework only degree, if a culminating experience is required, it may be an interpretation of scholarly work, a test of the student's understanding of the field or other culminating experiences. It is the responsibility of the academic unit to provide culminating experience guidelines for each coursework-only master's degree that the department offers. Examples could include concerts, portfolios, final written or oral examinations, case studies, or whatever the program deems appropriate.

...

#### J3. Failure and Repetition

~~At least 2/3~~ A majority of the supervisory committee members must approve the candidate's performance before the candidate is deemed to have passed the final examination for thesis, report, or culminating experience. A refusal to vote by the major professor or any member of the supervisory committee shall be recorded as a negative vote. A candidate who fails a master's examination may take a second examination no sooner than two months nor later than 15 months after the failure, with permission of at least ~~2/3~~ a majority of the supervisory committee members, unless the Dean of the Graduate School grants an extension. A third defense is not allowed.

~~At least 2/3~~ A majority of the members of the supervisory committee must sign the final ETDR before the ballot can be processed, and the thesis or report submitted to K-REX.

4. GRADUATE CERTIFICATE PROGRAMS

...

B. ADMISSION AND GENERAL REQUIREMENTS

...

10. To be awarded a graduate certificate, the student must

- a. ~~Must have earned all the required credits in the six seven years prior to the semester in which the certificate plan is submitted;~~
- b. ~~must~~ not be on probation,
- c. ~~must~~ have a cumulative GPA of 3.0 or higher on graduate coursework and on coursework applied to the certificate,
- d. ~~must~~ meet all the requirements of the Graduate School and the student's certificate program,
- e. ~~must~~ be enrolled during the semester when the student applies for graduation for the certificate, ~~and~~
- f. must submit the Graduate Certificate Completion Form, and
- g. ~~must~~ provide official transcripts for any approved transfer credits. Transfer credit must be from an accredited institution. Graduate certificate programs may specify higher requirements.

*Chapter 5 D.5 Associate Graduate Faculty Membership – Reading Two*

5. THE GRADUATE FACULTY

...

D5. Associate Graduate Faculty Membership

The purpose of the Associate membership category is to permit limited Graduate Faculty membership to exceptional individuals who possess specialized training, experience, or certification required for specific teaching or supervisory committee service. Nominees for Associate membership must have a formal appointment with the nominating unit at the time of nomination. Associate members are not permitted to serve as the major professor of a supervisory committee but can serve as a co-major professor if the other co-major professor is a regular graduate faculty member. Appointment to Associate membership is for a term of five (5) years. At the end of the term, the faculty member may be re-nominated. There is no limit to the number of terms to which a faculty member may be appointed. Although the criteria are

different, the nominations are submitted and evaluated following the steps outlined in Chapter 5.A3 of the Graduate Handbook, and limitations as delineated in Chapter 5.D8 apply.

Nomination to Associate membership must be initiated by the appropriate department, division, program, or equivalent unit, which must provide documentation for a combination of substantial professional expertise, publications or other scholarly contributions to the discipline, advanced training, degrees, certification, or recognized status in the relevant field. It is incumbent upon the administrative unit to describe the teaching and/or supervisory activities of the candidate and provide a rationale regarding the qualifications of the candidate to make significant and necessary contributions to the program. If the candidate is nominated for the purpose of teaching, the nominating unit is expected to provide a list of courses that the candidate will teach, along with detailed justification as to the qualifications the candidate has for teaching those courses. If the candidate is nominated for committee service, detailed justification as to the qualifications the candidate has for serving on the committee(s) must be included. In the event there is a need to change the approved teaching or advising responsibilities of the individual ~~change within the unit, a new nomination must be submitted~~ the department head should send an email with justification for the change(s) to the Dean of the Graduate School. The Dean will approve or require a new nomination. ~~Although the criteria are different, the nominations are submitted and evaluated following the steps outlined in Chapter 5.A3 of the Graduate Handbook, and limitations as delineated in Chapter 5.D8 apply.~~
