

Viewing PDF Documents

PDF documents, such as transcripts, personal statements, etc. that are displayed in the embedded PDF viewer, no longer require or use flash player in the web browser (as of July 2019). To view a document, select the document to view by clicking the **view** link. The document will be displayed in a new tab.

To download the PDF file, click the Actions menu, select PDF. You may receive a download prompt or the file will immediately download.

To see additional options, such as page rotate, click the Tools menu option. Note that the menu options may differ based on the web browser and PDF viewer available.

View Full PDF

To view a full PDF of the application and all associated documents, click the PDF icon at the end of the open application tabs:

Download Full PDF

Select an application from the list of applications

Choose Actions, PDF

Note: If you select more than one application, the PDF download will be a single compressed ZIP file containing the PDF files for the selected applications.
