KANSAS STATE
UNIVERSITY

Celebrating *Our* *Future*

Dear Graduates,

On behalf of Kansas State University, we extend our sincerest congratulations and best wishes on your graduation.

We commend the persistence and determination you have shown in earning your degree, especially in the historic circumstances of the COVID-19 pandemic during the past year. The graduating classes of 2020 have demonstrated tremendous resilience. Your diligence and adaptability in completing your degree will serve you well in your future endeavors. Whether it is your family, friends, faculty, staff or fellow students, know that all are proud of your accomplishments.

Use the knowledge and preparation you received at Kansas State University to move forward and make a difference throughout your life — in your career field, in your community and in other worthy pursuits. Please know that K-State will always encourage you along the way. You are now part of our network of more than 200,000 proud alumni worldwide. We urge you to remain connected to the university through the K-State Alumni Association, which, along with your college, is providing you and your fellow graduates with a year's free membership.

Find opportunities to remain connected with the university, whether to continue your education, share your experiences and expertise with future K-Staters, return for an athletic or cultural event, or just to catch up on your alma mater.

Congratulations and best wishes for the future,

Richard B. Myers

Alma Mater

by H.W. Jones, class of 1888

*I know a spot that I love full well,
'Tis not in forest nor yet in dell;
Ever it holds me in magic spell,
I think of thee, Alma Mater.*

*K-S-U, we'll carry thy banner high.
K-S-U, long, long may thy colors fly.
Loyal to thee, thy children will swell the cry.
Hail, Hail, Hail, Alma Mater.*

About Kansas State University

Founded in 1863 as the nation's first operational land-grant university, Kansas State University's mission is to foster excellent teaching, research and service that develop a highly skilled and educated citizenry necessary to advancing the well-being of Kansas, the nation and the international community. K-State embraces diversity and inclusion, encourages engagement and is committed to the discovery of knowledge, the education of undergraduate and graduate students, and improvement in the quality of life and standard of living of those we serve.

K-State has campuses in Manhattan, Olathe and Salina — known as Kansas State Polytechnic Campus — as well as K-State Global Campus, which serves distance education students. When it comes to academics, K-State's majors and degree programs offer pathways to hundreds of career options that can be tailored to individual goals and dream careers. Interest areas offered through K-State's nine colleges and Graduate School include agriculture, food and natural resources; architecture, art and design; aviation; business; communications, media and marketing; computer science and information technology; education and leadership; engineering and construction; government, law and social sciences; health professions; hospitality and tourism; human and social services; humanities, culture and society; science and mathematics; veterinary medicine; and visual and performing arts.

Forbes magazine, U.S. News and World Report and the Princeton Review all recognize K-State as one of the best universities in the nation, which is backed by the strong support K-State receives from its alumni and friends. With more than 200,000 alumni, the

K-State Alumni Association ranks No. 1 in the Big 12 Conference for the percentage of graduates who are association members. The KSU Foundation recently wrapped up the highly successful Innovation and Inspiration Campaign, raising \$1.6 billion for K-State.

Called the "Silicon Valley for biodefense" because of its leadership in food safety and security and agrodefense, K-State is home to four Feed the Future Innovation Labs, an initiative by the U.S. Agency for International Development to increase food production in nations with limited resources. The university also is home to the Biosecurity Research Institute, a biosafety level-3 facility devoted to comprehensive infectious disease research and training. Construction is underway adjacent to the Manhattan campus of the federal government's National Bio and Agro-Defense Facility, which will be the nation's premier animal disease research facility.

Total research efforts at Kansas State University have led to 324 patents to date. The university has more than 90 research centers, including the 8,600-acre Konza Prairie Biological Station and the Johnson Cancer Research Center. Our distinguished faculty members are tackling such issues as feeding a hungry world expected to reach 50 billion in population by 2050, climate change, cybersecurity, sustainable energy, urban revitalization and more — and they often involve undergraduate students in their work. K-State Research and Extension also serves the citizens of Kansas through a variety of ways, with personnel, offices, research centers, programs and more throughout the state.

About our ceremonies

University mace

The Kansas State University mace made its debut in September 2009 at the inauguration of Kirk H. Schulz as the university's 13th president. A mace is a decorative symbol of office and typically carried at the front of academic processions. Designed by Tom Boley, a 1970 K-State alumnus, the mace is made from a purple wood called purpleheart and a light-colored maple.

Academic dress

The history of academic dress dates to medieval European universities of the 12th century. Universities in the U.S. have standardized academic dress so its features are common and uniform throughout the country.

The gown — At K-State, gowns are black and typically made of synthetic material or worsted wool. The pattern varies with the degree held: open sleeves for the bachelor's degree; long, closed sleeves with slits for the hands for the master's degree; and round, bell sleeves for the doctoral degree.

The hood — Students receiving graduate degrees wear hoods. The master's hood is shorter than the doctoral hood and lacks the panels of the doctoral hood. Hoods are lined with the colors of the university; K-State's lining is purple with two inverted chevrons. The binding or edging of the hood is the color pertaining to the subject of the degree.

The caps — All bachelor's and master's degree candidates wear a black mortarboard. Doctoral students may wear a mortarboard or a soft velvet tam with either six or eight sides. The tams can be dark blue or black for Doctor of Philosophy candidates, and light blue for Doctor of Education candidates. Doctor of Veterinary Medicine candidates wear a black mortarboard. Tassel color for all degree candidates depends on the degree and/or degree field.

Graduation honors

Bachelor's degree candidates who are earning graduation honors from Kansas State University wear a purple-and-white honor cord on the left shoulder of their commencement gown. Honors are awarded based on their K-State grade point average. Eligible students also must have completed a minimum of 60 undergraduate hours at K-State, with at least 42 undergraduate hours in graded courses at K-State.

K-State graduation honors:

Summa cum laude — For students with a 3.95 or above GPA.

Magna cum laude — For students with a 3.85-3.949 GPA.

Cum laude — For students with a 3.75-3.849 GPA.

Note: Doctor of Veterinary Medicine degree candidates receive these honors based on courses completed in the professional program. For the purpose of the commencement ceremony, unofficial graduation honors are recognized for bachelor's degree candidates who possess the required K-State cumulative GPA prior to the start of the semester in which they plan to participate in the commencement ceremony, and who have completed or are currently enrolled in enough credit hours to satisfy the credit hour requirements.

A member of the Kansas Board of Regents, Schmidt helps govern Kansas' six state universities, 19 community colleges, seven technical colleges and Washburn University.

Schmidt currently serves as the planned giving officer for Developmental Services of Northwest Kansas, a nonprofit charity that

previously served as a state senator for the 36th District, which is made up of 10 rural counties in north central and northwestern Kansas.

A veteran, Schmidt retired as a colonel in the Army Medical Service Corps after serving for 32 years, including 12 years in the Army Reserve. He completed his career on active duty as the deputy commander for readiness of the Army Reserve Medical Command.

Schmidt serves on the Kansas Civil Service Board, the Governor's Council on Education, the Governor's KanCare Advisory Council, the Kansas Silver Haired Legislature, Senior Companions Board

and a number of other school- and church-related boards and committees.

Schmidt earned a Bachelor of Arts from the University of Kansas, a Master of Science in school psychology from Fort Hays State University and a Master of Science in strategic studies from the U.S. Army War College.

A native of Ellis County, Schmidt was raised on a fifth-generation family dairy farm that he and his son have now converted into a local farm winery called Resurrection Vineyard. He and his wife, Ellen, have nine children and 19 grandchildren.

planning, resource allocation and innovation while ensuring excellence and relevance in the design of the curriculum. He is focused on the quality of teaching and learning; providing global perspective and strategic direction to successfully manage operating budgets; and enhancing the quality of the student experience at all levels.

The deans of the nine academic colleges, the K-State Libraries, Graduate School, Global Campus, the CEOs and deans of both K-State Polytechnic and K-State Olathe, and the director of the Staley School of Leadership Studies report to Taber. University offices also reporting to Taber include Academic Affairs, Institutional Effectiveness, Undergraduate Studies, International Programs, Sustainability and the Center for Engagement and Community Development. As the provost and executive vice president of Kansas State University, Charles S. Taber provides strategic leadership on all aspects of university governance and the academic enterprise. Taber is the university's chief academic officer and is responsible for all undergraduate and graduate academic programs, overseeing academic

President Richard Myers, serves as the university's chief executive officer in the president's absence.

Taber plays an essential role in the implementation of the Strategic Enrollment Management and Budget Modernization initiatives as the university works to stabilize and build enrollment and adopt a new budget model to better address the many funding challenges facing higher education. As the higher education landscape continues to evolve, he will address and identify opportunities to advance K-State's land-grant mission.

The provost also works closely with the KSU Foundation and President Myers on the university's comprehensive development campaign, is responsible for the university's academic reporting to the Kansas Board of Regents and serves on several boards, including K-State Athletics.

Taber came to K-State after serving as vice provost for graduate and professional education and dean of the Graduate School at Stony Brook University, New York, from 2013 through 2018. He joined Stony Brook in 1989 as an instructor of political science, earning a promotion to full professor in 2008. He served in many administrative positions at the university, including associate dean for postdoctoral affairs, dean of the School of Professional Development and interim provost and senior vice president for academic affairs. He also was

involved with graduate enrollment management and addressing budget challenges in higher education.

A leading scholar in the fields of political psychology and computational modeling, Taber has more than 50 scholarly publications. Taber has been a pioneer in the use of computational modeling and political science and his work has earned millions of dollars in grant funding from the National Science Foundation. His research has contributed to the growing literature on the psychological mechanisms that drive public opinion. In 2000, he received the Paul Lazarsfeld Outstanding Paper Award from the American Political Science Association for a paper on the causes of bias in political reasoning that was published in the *American Journal of Political Science*. Along with Milton Lodge, Taber developed an influential theory of unconscious thinking in political behavior. Their 2013 book, "The Rationalizing Voter," from Cambridge University Press, won the Robert E. Lane Book Award and the Book of the Year Awards from the Experimental Politics and Migration and Citizenship Sections of the American Political Science Association.

Taber earned his doctorate and master's degree in political science from the University of Illinois, Urbana-Champaign and a bachelor's degree in political science from East Tennessee State University.

University Distinguished Professors

Christine Aikens

Christine Aikens is an expert in physical chemistry and her research group aims to develop a theoretical understanding of the relationship between structure and properties of nanomaterials. She studies the structure and spectroscopic properties of gold and silver nanoparticles and nanoparticle arrays and the reactivity of nanostructured metal oxide particles. Her current research aims to understand the fundamental physical principles that underlie plasmon-enhanced photocatalysis, which is a process that uses light to control chemical reactions in a way that requires less energy input than in currently used industrial catalytic processes.

Aikens came to K-State in 2007. Her research has been supported by more than \$3.2 million from organizations such as the National Science Foundation, the U.S. Department of Energy and the Air Force Office of Scientific Research.

She has published more than 110 articles in scientific publications and has given more than 150 professional presentations. She has served as a reviewer for 37 journals and a proposal/award reviewer for six organizations, including the National Science Foundation and the Department of Energy. She has organized eight conferences and has mentored more than 43 postdoctoral researchers and students, including high school, undergraduate and graduate students.

Aikens received the 2020 Women Chemists' Committee Rising Star Award; was honored with the Journal of Physical Chemistry A Lectureship in

2015; was named a Kavli Frontiers of Science fellow in 2012; was awarded an Alfred P. Sloan Research Fellowship and a Camille Dreyfus Teacher-Scholar Award in 2011; and received the NSF CAREER award in 2010. At K-State, she received the 2017-2018 Commerce Bank and W.T. Kemper Foundation Distinguished Graduate Faculty Award and the 2014 Segebrecht Distinguished Faculty Achievement Award.

Before joining K-State, Aikens was a postdoctoral research fellow at Northwestern University. She earned a doctoral degree in physical chemistry from Iowa State University and graduated summa cum laude with a bachelor's degree in chemistry from the University of Oklahoma.

Thomas Barstow

Thomas Barstow directs the Human Exercise Physiology Lab, where he studies the control of muscle metabolism, the integration of pulmonary and cardiovascular systems and the mechanisms of fatigue and exercise intolerance. He has advised more than 76 undergraduate students, graduate students and postdoctoral researchers. His research has been sponsored with nearly \$8.8 million from organizations such as NASA, the American Heart Association and the National Institutes of Health.

Thomas Barstow directs the Human Exercise Physiology Lab, where he studies the control of muscle metabolism, the integration of pulmonary and cardiovascular systems and the mechanisms of fatigue and exercise intolerance.

He has collaborated with scientists from Canada, Japan, the U.K., Belgium, France and Italy on a variety of research projects.

Barstow has published more than 170 peer-reviewed papers, 180 abstracts and four chapters. He has given 65 invited lectures and presentations. He is a fellow of the American College of Sports Medicine and the American Physiological Society. At Kansas State University, he is a three-time recipient of the Professorial Award for Sustained Excellence, a two-time recipient of the Making a Difference Award from the Women in Engineering and Science Program, and received the Faculty Research Excellence Award from the College of Health and Human Sciences.

Before joining K-State in 1996, Barstow served in research and faculty positions at the University of California, Davis; Harbor-UCLA Medical Center; and V.A. Wadsworth Medical Center. From 2002 to 2003, he was a visiting professor at The Manchester Metropolitan University in Manchester, United Kingdom.

Since 2007, Barstow has served as the graduate program coordinator for the university's department of kinesiology. He earned a doctoral degree in physiology, a master's degree in physical education and a bachelor's degree with honors in nutrition — all from the University of California, Davis.

Commerce Bank and W.T. Kemper Foundation Distinguished Graduate Faculty Award

Thomas Phillips

A world leader in research and applications of integrated management of stored product pests, Thomas Phillips' expertise in chemical ecology and insect behavior has contributed to his success in designing monitoring and mating disruption systems for insects. Insects account for more than half of human food that is lost postharvest in developing countries. Phillips' development of holistic management systems addresses this critical issue related to food security.

Phillips' research has been supported by more than \$9 million in grants and has led to the publication of 164 journal articles and 15 books or book chapters.

He has given numerous research presentations, including approximately 80 invited talks.

Phillips' significant contributions to graduate education at K-State include advising or co-advising 14 master's and 16 doctoral students who have been successfully employed in academia and industry, with many now national or international leaders in their fields. He also has mentored 15 postdoctoral scientists and visiting researchers during his career. Phillips promotes graduate student professional development, encouraging students to participate in professional conferences and outreach activities as well as to seek funding and engage in networking activities.

Phillips earned his doctorate in biology with a concentration in entomology from SUNY College of Environmental Science and Forestry. He served on the faculty of Oklahoma State University and the

University of Florida, as well as the U.S. Department of Agriculture's Agricultural Research Service in Madison, Wisconsin, and Hilo, Hawaii. He joined K-State's entomology department in 2007 and served as department head until 2011. He has taught classes in general entomology, insect chemical ecology, forest and shade tree insects, dendrology and stored product entomology.

A subject editor for *Stored Product Insects*, a part of the *Journal of Economic Entomology*, for nearly 20 years, Phillips currently serves on the journal's editorial board. His work has been recognized with numerous awards, including the U.S. Department of Agriculture Certificate of Merit, Wendell E. Burkholder Award for Excellence in Stored Product Protection and the New Product Development Award from the Entomological Society of America. He was named the Donald Wilbur Sr. endowed professor for stored product protection at K-State.

Donghai Wang

Donghai Wang has established an internationally known research program on bioconversion of renewable materials into biofuels, chemicals and biomaterials, including protein adhesives, resins, and biodegradable composites; and near-infrared technology for analysis of physical and chemical properties of biomaterials.

He has conducted fundamental and applied research to overcome technical barriers for cost-effective production of biofuels from both starch-based feedstocks such as corn, sorghum and millets, and cellulosic biomass such as grass, crop residues and woody biomass. Wang also collaborates with materials scientists to develop biodegradable protein-based adhesives and oil-based resins. He conducts research on development of near-infrared spectroscopy models as rapid methods for analysis and characterization of physical and chemical

properties of biomaterials. He has established research collaborations with engineers and scientists across the K-State campus and nationwide, and has been involved in several large national research projects. He also serves as co-director of the Bio Material and Technology Laboratory at K-State.

Wang has served as principal investigator on more than 40 projects and co-principal investigator for more than 30 projects. This funded work has exceeded \$23 million, with about \$5.5 million in direct support of his research. The holder of three U.S. patents, he has authored or co-authored 210 peer-reviewed journal articles and 15 book chapters and more than 180 meeting papers and presentations. Wang has served the professional community as associate editor of the *Transactions of the American Society of Agricultural and Biological Engineers* and for *Applied Engineering in Agriculture*. He also served on several panels and technical committees.

Among Wang's contributions to graduate education at K-State include advising or co-advising 11 master's and 24 doctoral students. Eight of his previous doctoral students are employed as faculty at universities or as research scientists or engineers

at large industries. Since 2002, Wang also has contributed to graduate education through his service on the biological and agricultural engineering graduate committee.

Wang earned his doctorate in biological and agricultural engineering from Texas A&M University. He joined K-State's Carl and Melinda Helwig Department of Biological and Agricultural Engineering in 2001. Wang's research has earned several national and international awards from the American Society of Agricultural and Biological Engineers, including best paper awards in 2011, 2013 and 2015, and the Rain Bird Engineering Concept of the Year Award in 2010 and 2016. He received the U.S. Department of Agriculture Certificate of Appreciation Award in 2008 and the Applied Energy Journal Award for highly cited research and reviewed paper in 2016. From the Carl R. Ice College of Engineering at K-State, Wang has received the Frankenhoff Outstanding Research Award in 2009 and 2015, Engineering Distinguished Researcher Award in 2019 and was named a Robert and Becca Reichenberger — Carl and Mary ICE Cornerstone teaching scholar in 2019.

Major Professor: *Bradley Burenheide*

Dissertation: *Metagaming: Cognition in gaming environments and systems*

Shannon M. Ralph

Major Professor: *Thomas Vontz*

Dissertation: *Retrieval practice as a way to enhance learning and transfer in a high school biology classroom*

Economics

Doctor of Philosophy

Naafey Sardar ^(Su20)

Major Professor: *Lance Bachmeier*

Dissertation: *Essays on the macroeconomic effects of climate and energy price shocks*

Educational Leadership

Doctor of Education

Chad Aaron Krug

Major Professor: *Jia Liang*

Dissertation: *Leadership stability in relation to board-superintendent alignment: A selective analysis of board and superintendent leadership style preferences in Kansas*

Erin Lynn Oliver

Co-Major Professors: *Donna Augustine-Shaw and Jia Liang*

Dissertation: *A quantitative study of high school athletic directors' perceptions of Charlotte Danielson's Framework for Teaching applied to high school athletic coaching*

Renee L. Scott

Co-Major Professors: *Donna Augustine-Shaw and Haijun Kang*

Dissertation: *School safety preparedness: A survey study of K-12 principals' perceptions relative to safe and secure Kansas public schools*

Electrical and Computer Engineering

Doctor of Philosophy

Joseph Benzaquen Sune ^(Su20)

Major Professor: *Bebrooz Mirafzal*

Dissertation: *Smart three-phase power converter for more electric powertrains*

Pegah Faridi ^(Su20)

Major Professor: *Punit Prakash*

Dissertation: *Image-guidance and computational modeling to develop and characterize microwave thermal therapy platforms*

Sahar Lashkarbolooki ^(P)

Major Professor: *Anil Pabwa*

Dissertation: *Mitigating icing on vulnerable transmission lines with increased loading assisted by generation redispatch and series impedance compensation devices*

Austin Alan Pfannenstiel

Co-Major Professors: Don Gruenbacher and Punit Prakash

Dissertation: *Applicators and methods to achieve precise spatial control of the treatment zone during microwave ablation*

Md Mahbulul Huq Riad ^(Su20)

Major Professor: Caterina Scoglio

Dissertation: *Network-based modeling for risk assessment of infectious disease transmission*

Mohsen Shid Pilehvar

Major Professor: Behrooz Mirafzal

Dissertation: *Smart inverters for seamless voltage and frequency dynamics in microgrids*

Hazhar Sufi Karimi

Major Professor: Bala Natarajan

Dissertation: *Analysis of dynamic compressive sensing with measurement loss/delay and hybrid dynamics*

Entomology

Doctor of Philosophy

Anastasia Marie Cooper

Major Professor: Kun Yan Zhu

Dissertation: *Molecular mechanisms influencing RNA interference in the European corn borer, *Ostrinia nubilalis* (Lepidoptera: Crambidae)*

Stephen Mychal Losey

Major Professor: Brian McCormack

Dissertation: *Spatial and temporal distribution of adult soybean podworm, *Helioverpa zea*, (Lepidoptera: Noctuidae) across Kansas with a look at how non-floral sugar sources and mate availability affect fecundity and longevity*

Environmental Design and Planning

Doctor of Philosophy

Alyssa Breighann Decker

Major Professor: Lee Skabelund

Dissertation: *A thriving green roof: An experimental design to assess soil-plant-water-relations on a Kansas green roof*

Food, Nutrition, Dietetics and Health

Doctor of Philosophy

Rajesh Kumar

Major Professor: Edgar Chambers IV

Dissertation: *Using sensory to develop new and improved products: A sensory strategy for product category appraisal*

Food Science

Doctor of Philosophy

Joshua Martin Maher ^(Su20)

Major Professor: Sara Gragg

Dissertation: *Reducing *Escherichia coli* O157:H7 in agriculture: Interventions for cattle and romaine lettuce*

Carla Luisa Schwan

Major Professor: Jessie Vipham

Dissertation: *Defining the food safety landscape in Cambodia: The ecology of *Salmonella enterica* in informal markets*

Genetics

Doctor of Philosophy

Elina Adhikari

Major Professor: Eduard Akhunov

Dissertation: *Utilize the genomic signatures of adaptation from wild relatives to improve climate resiliency in wheat*

Megan Calvert

Major Professor: Jesse Poland

Dissertation: *Multivariate genomic selection in the Kansas State winter wheat breeding program*

Geography

Doctor of Philosophy

Avantika Anil Ramekar ^(Su20)

Co-Major Professors: Lisa Harrington and Audrey Joslin

Dissertation: *Living with oil and natural gas: A risk perception study among adults in Kansas and Oklahoma*

Brandon Jeffery Weihs

Major Professor: Douglas Goodin

Dissertation: *Woody encroachment of a riparian corridor in a tallgrass prairie: Dendrochronological evidence from Kansas, USA; Slope failures and cross-valley profiles, Grand Teton National Park, Wyoming; Mass-movement disturbance regime landscapes, hazards, and water implications: Grand Teton National Park, Wyoming*

Grain Science

Doctor of Philosophy

Zhenhua Sun ^(Su20)

Major Professor: Yongcheng Shi

Dissertation: *Preparation of octenylsuccinic anhydride modified starches and their applications in emulsion and encapsulation*

Courtney Nicole Truelock ^(Su20)

Major Professor: Chad Paulk

Dissertation: *Influence of exogenous enzymes and pelleting on feed manufacturing and broiler performance*

Horticulture and Natural Resources

Doctor of Philosophy

Kelly Marie Gude ^(Su20)

Major Professor: Eleni Pliakoni

Dissertation: *Altering light with high tunnel coverings to improve health-promoting phytochemicals of lettuce and tomato*

Tayebeh Kakeshpour ^(Su20)

Major Professor: Songhun Park

Dissertation: *Tomato class II glutaredoxin mutants generated via multiplex CRISPR/Cas9 genome editing technology are susceptible to multiple abiotic stresses*

Myungjin Lee

Major Professor: C.B. Rajasbekar

Dissertation: *Impact of spectral quality of visible and UV light on the nutritional and the health-promoting qualities of leafy-vegetables and tomato*

Human Ecology

Doctor of Philosophy

Kaylin Dix Didier ^(Su20)

Major Professor: Thomas Barstow

Dissertation: *Determining the effect of acute and chronic passive heating on endothelial and muscular function and the response of serum heat shock proteins*

Una Yalanda Henry

Major Professor: Joyce Baptist

Dissertation: *Predictors of risk-taking behavior trends among racial minority adolescents: Examining interactive effects using latent growth analysis*

Emily Elizabeth Koochel ^(Su20)

Co-Major Professors: Sonya Britt and Melinda Markham

Dissertation: *Exploring the effects of financial socialization and trust as it relates to financial well-being and marital satisfaction through stress and communication privacy theories*

Sarif Ullah Patwary ^(Su20)

Major Professor: Melody LeHew

Dissertation: *An investigation of the substitution rate and environmental impact associated with secondhand clothing consumption in the United States*

Hilary D. Pippert ^(Su20)

Co-Major Professors: *Anthony Ferraro and Melinda Markham*

Dissertation: *Relational sacrifice across family relationships and contexts*

Annamarie D. Sisson ^(Su20)

Oath of Education

I hereby pledge my dedication to the profession of teaching. I accept the obligations and the challenges of guiding students to knowledge, always showing them care and concern. I will encourage respect for all people, and will cultivate the disciplined, yet free minds necessary for a democratic way of life.

I promise to champion policies which promote quality in teaching and learning. I will provide everyone engaged in education the opportunity to achieve their own level of excellence. I will strive to become a knowledgeable, ethical, caring decision maker and emulate these qualities which I pledge to foster. I recognize that at times my endeavors may prove discouraging. Nonetheless, I remain faithful to the belief that my actions in the pursuit of these goals make me worthy of my profession, and make my profession worthy of a free people.

Speaker

John Lagemann

John Lagemann retired Oct. 31 after 38 years with Deere & Company as senior vice president, sales and marketing for the company's Agriculture and Turf Division, Regions 3 and 4, a position he held since September 2012. In this post, Lagemann was responsible for sales and go-to-market activities in the Americas and Australia. In June 2019, additional responsibilities were added for Region 2,

Europe, to establish and prioritize requirements for key tactical marketing, sales and channel development processes, tools and systems.

Joining Deere & Company in 1982 as a marketing representative in the Kansas City sales branch, Lagemann worked with dealers and customers in various field assignments until being named manager, factory marketing at John Deere Harvester Works in 1994. He became manager of John Deere's operations in Australia, New Zealand and East Asia in 1999.

In 2002, Lagemann was named vice president of sales for the United States and Canada. In 2009, he was appointed vice president, Agriculture and Turf

Division sales and marketing for the United States, Canada, Australia and New Zealand, which is Region 4.

Lagemann earned his bachelor's degree in feed science and management and his Master of Business Administration from Kansas State University. He is a board member and the 2018 board chair of the Association of Equipment Manufacturers and serves as chair of the association's Ag Sector Board. He is a member of the K-State College of Business Administration Dean's Business Advisory Council and is an advisory board member at K-State Olathe. He also is a board member of the American Royal Association.

Speaker

Don Boggs served as the associate dean for academic programs in the College of Agriculture at Kansas State University from 2005 to 2020.

Boggs, who was raised on a diversified grain and livestock farm in central Illinois, received his Bachelor

of Science from the University of Illinois, Master of Science from K-State and a doctorate from Michigan State University. He served on the research and teaching faculty at the University of Georgia for six years. In 1988 he became the extension beef specialist at South Dakota State University in Brookings, South Dakota, and in 1998 he became head of the Department of Animal and Range Sciences at South Dakota State.

During his 15 years as associate dean at K-State, Boggs had oversight of all academic programs and student activities in the College of Agriculture. He also served on numerous university and college committees and task forces. Boggs was a co-founder and served as chair of the executive board of AG*IDEA, a national distance education alliance for agriculture. He also served as chair of the Academic Committee on Policy and the Agricultural Academic Programs Section of the Association of Public and Land-grant Universities.

University Distinguished Professors

The title of University Distinguished Professor is the highest honor Kansas State University can bestow on its faculty. This lifetime title recognizes faculty making outstanding contributions to teaching, research and service to their professions and communities. University Distinguished Professors are appointed following a universitywide competition conducted by the provost and executive vice president. Each recipient receives a commemorative medallion upon appointment.

Coffman Chair for University Distinguished Teaching Scholars

The Coffman Chair for University Distinguished Teaching Scholars was created in 1995 to underscore Kansas State University's commitment to excellence in undergraduate teaching and learning. A faculty member acknowledged as a leading teaching scholar is appointed to the chair by the university's provost and executive vice president for one academic year. All who hold the chair retain the title of University Distinguished Teaching Scholar throughout their careers. During the year in residence, the scholar's time and resources are spent advancing the interests of undergraduate teaching and learning at the university.

Alumni membership

All colleges have provided graduates with a one-year membership to the K-State Alumni Association. Graduates also will receive a gift from the K-State Alumni Association in recognition of their graduation. K-Staters are some of the most loyal alumni in the country, and we are excited to welcome you into a new relationship with your alma mater. The K-State Alumni Association is your link for life to K-State. Learn more and stay connected by visiting K-State.com.

Program notes

The Commerce Bank and W.T. Kemper Foundation Distinguished Graduate Faculty Awards are funded by the W.T. Kemper Foundation and the Commerce Bancshares Foundation.

The organ used in ceremonies at Bramlage Coliseum has been donated by Dina and David Rankin in memory of Dina Rankin's parents, Jack and Karen Beightel.

Terry Ferguson is the bagpiper for all ceremonies at Bramlage Coliseum.
