Celebrating *Our* *Future*

Dear Graduates,

On behalf of Kansas State University, we extend our sincerest congratulations and best wishes on your graduation.

Your degree represents work and commitment on your part and on the part of those who have helped you along your way. Whether it is your family, friends, faculty, staff or fellow students, know that all are proud of your accomplishments.

Commencement marks a milestone in your life and sets you on a journey toward a productive and fulfilling career. We hope you use the knowledge and preparation you received at K-State to move forward and make a difference throughout your life, whether in the career field, in the community or in other worthy pursuits.

As you embark and progress in your career and life, know that Kansas State University will always encourage you along the way. You are now part of our network of more than 200,000 proud alumni worldwide. We urge you to remain connected to the university through the K-State Alumni Association, which is providing you and fellow graduates with a year's free membership.

Please find opportunities to return to campus, whether to continue your education, share your experiences and expertise with future K-Staters, take in an athletic or cultural event, or just to catch up on your alma mater.

Congratulations and best wishes for the future,

Richard B. Myers

Alma Mater

by H.W. Jones, class of 1888

*I know a spot that I love full well,
'Tis not in forest nor yet in dell;
Ever it holds me in magic spell,
I think of thee, Alma Mater.*

*K-S-U, we'll carry the banner high.
K-S-U, long, long may thy colors fly.
Loyal to thee, thy children will swell the cry.
Hail, Hail, Hail, Alma Mater.*

About Kansas State University

Kansas State University is on its way to becoming one of the nation's Top 50 public research universities by 2025. The visionary K-State 2025 plan, launched in 2010, serves as a guide for our decision-making and priority-setting in all facets of the university, including academics, facility needs, research, engagement and athletics. For more information and to track our progress, go to k-state.edu/2025.

Founded in 1863 as the country's first operational land-grant university, Kansas State University has campuses in Manhattan, Olathe and Salina, which is known as Kansas State Polytechnic Campus, as well as K-State Global Campus, which serves distance education students. K-State Research and Extension also has a presence throughout Kansas.

The mission of Kansas State University is to foster excellent teaching, research and service that develop a highly skilled and educated citizenry necessary to advancing the well-being of Kansas, the nation and the international community.

The university embraces diversity and inclusion, encourages engagement and is committed to the discovery of knowledge, the education of undergraduate and graduate students, and improvement in the quality of life and standard of living of those we serve.

Forbes magazine, the Princeton Review and U.S. News & World Report have recognized Kansas State University as one of the best in America.

More than 22,000 students from across the U.S. and more than 100 countries attend Kansas State University. Students can choose from more than 250 majors and options in nine colleges: Agriculture; Architecture, Planning & Design; Arts and Sciences; Business Administration; Education; Engineering; Human Ecology; Technology and Aviation; and Veterinary Medicine. The Graduate School offers more than 110 academic programs.

K-State also enjoys strong support from its alumni and friends. With more than 200,000 alumni, the K-State Alumni Association is ranked among the top five alumni associations in the nation for the percentage of graduates who are members. The Kansas State University Foundation's Innovation and Inspiration Campaign has already earned more than \$1.1 billion and is on its way to reaching \$1.4 billion by 2020.

Called "the Silicon Valley for biodefense" because of its leadership in food safety and security and agrodefense, Kansas State University is home to four Feed the Future labs, an initiative by the U.S. Agency for International Development to increase food production in nations with limited resources. The university also is home to the Biosecurity Research Institute, which supports comprehensive "farm-to-fork" infectious disease research programs that address threats to plant, animal and human health. Construction is underway adjacent to the Manhattan campus of the U.S. Department of Homeland Security's National Bio and Agro-defense Facility, which will be the nation's premier animal disease research facility.

Total research efforts at Kansas State University have led to more than 250 patents to date. The university has more than 90 research centers, including the 8,600-acre Konza Prairie Biological Station and the Johnson Cancer Research Center. Our distinguished faculty members are tackling such issues as climate change, cybersecurity, sustainable energy, urban revitalization and more — often involving undergraduate students in their work.

About our ceremonies

The university mace

The Kansas State University mace made its debut in September 2009 at the inauguration of Kirk H. Schulz as the university's 13th president. A mace is a decorative symbol of office and typically carried at the front of academic processions. The university's mace is carried in the processional at the Graduate School ceremony and is displayed at each college's ceremony. Designed by Tom Boley, a 1970 university graduate, the mace is made from a purple wood called purpleheart and a light-colored maple.

Academic dress

The history of academic dress dates to medieval European universities of the 12th century. Universities in the United States have standardized academic dress so its features are common and uniform throughout the country.

The gown — At Kansas State University, gowns are black and typically made of synthetic material or worsted wool. The pattern varies with the degree held — open sleeves for the bachelor's degree; long, closed sleeves with slits for the hands for the master's degree; and round, bell sleeves for the doctoral degree.

The hood — Students receiving graduate degrees wear hoods. The master's hood is shorter than the doctoral hood and lacks the panels of the doctoral hood. Hoods are lined with the colors of the university; the university's lining is purple with two inverted chevrons. The binding or edging of the hood is the color pertaining to the subject of the degree.

The caps — All bachelor's and master's degree candidates wear a black mortarboard. Doctoral students may wear a mortarboard or a soft velvet tam with either six or eight sides. The tams can be dark blue or black for Doctor of Philosophy candidates, and light blue for Doctor of Education candidates. Doctor of Veterinary Medicine candidates wear a black mortarboard. Tassel color for all degree candidates depends on the degree and/or degree field.

Graduation honors

Bachelor's degree candidates who are earning graduation honors from Kansas State University wear a purple-and-white honor cord on the left shoulder of their commencement gown. Honors are awarded based on their Kansas State University grade point average.

Eligible students also must have completed a minimum of 60 undergraduate hours at K-State, with at least 42 undergraduate hours in graded courses at K-State.

K-State graduation honors:

Summa cum laude — For students with a 3.95 or above GPA.

Magna cum laude — For students with a 3.85-3.949 GPA.

Cum laude — For students with a 3.75-3.849 GPA.

Note: Doctor of Veterinary Medicine degree candidates receive these honors based on courses completed in the professional program. For the purpose of the commencement ceremony, unofficial graduation honors are recognized for bachelor's degree candidates who possess the required K-State cumulative grade point average prior to the start of the semester in which they plan to participate in the commencement ceremony, and who have completed or are currently enrolled in enough credit hours to satisfy the credit hour requirements.

Speaker

Robert Wood

Robert Wood, a 1980 graduate of the data processing technology program of the Kansas Technical Institute, now Kansas State University Polytechnic Campus, was named the 2018 Alumni Fellow of the College of Technology and Aviation, which is housed at the Polytechnic Campus.

Wood, from Oklahoma City, Oklahoma, has more than 35 years of commercial and government sector experience in the technology, aerospace and health care markets. He currently is the chief operating officer at Hearts for Hearing Foundation, a nonprofit foundation dedicated to making a difference in the lives of children and adults with hearing loss.

He previously served in leadership and technical roles for multiple companies, including Booz Allen Hamilton, L-3 Communications and Chickasaw

Nation Industries. He has managed teams of more than 2,000 employees, budgets in excess of \$250 million and programs that spanned as many as 15 time zones.

Wood and his wife, Nita, have one son, Christopher.

Kansas Board of Regents

Mark Hutton

Mark Hutton, Andover, was appointed to the Kansas Board of Regents by Gov. Jeff Colyer in 2018. Hutton is the founder of Hutton Construction

Corporation in Wichita and worked as CEO until 2010. Hutton also served as a state representative in the Kansas Legislature from 2013 to 2017.

A 1977 graduate of Kansas State University, where he obtained his Bachelor of Science in construction

science and management, Hutton has served the university in several positions. He was a member of the College of Engineering Advisory Council and chair of the Construction Science Advisory Committee. He and his wife, Mary, are trustees of the KSU Foundation.

Speaker

James "Jim" Haymaker

James "Jim" Haymaker joined Cargill, a provider of food, agriculture, financial and industrial products and services to the world, in 1973 as a financial analyst and retired in 2011 as its corporate vice president of strategy and business development, a position he held for 11 years.

Haymaker's distinguished career with Cargill also included serving as project manager in its consumer marketing department from 1976-1978 and then working overseas as associate manager and then general manager of Cargill's Dufrit Food GmbH & Co KG in Monheim, Germany, from 1978-1981, as executive supervisor of swine operations and director of Cargill's Pienosos Hens S.A. in Barcelona, Spain, from 1981-1985. He returned to the U.S. to be the global corporation's vice president/

general manager of Sunny Fresh Foods from 1985-1988 and as vice president/manager of Cargill's financial services department from 1988-2000 before being elected to the corporate vice president position.

A graduate of Kansas State University, Haymaker earned bachelor's degrees in economics and French in 1969. While at K-State, he studied abroad at the Paris-Sorbonne University during his junior year. He received an MBA in finance and international business from the University of Chicago in 1971 and a master's degree in applied economics from Belgium's University of Louvain in 1972.

Haymaker and his wife, Kathy, have shown their support for K-State in many ways. The couple has established several university scholarships that support students in economics and students conducting cancer research through the university's Johnson Cancer Research Center. The Haymakers also have given to funds for faculty support and for a new scholarship fund, the Raghunath Chakrabarti Dare to Dream

Scholarship, for first-generation students.

Haymaker has served K-State as a trustee of the KSU Foundation, as a member of the Department of Economics Advisory Council and the Johnson Cancer Research Center and Education Advisory Council since 1997.

Recognized by the College of Business Administration as its 2005 Outstanding Financial Executive of the Year, Haymaker received the 2011 Merit Award for Entrepreneurship from the College of Arts and Sciences; was named the 2013 College of Arts and Sciences Alumni Fellow, which is selected by the Dean's Council, President's Office and K-State Alumni Association; and was the economics department's 2015 Distinguished Economics Alumnus.

Since retiring, Haymaker has devoted his time to his family, philanthropy and angel investing, which is early-stage funding of new company startups.

Electrical and Computer Engineering

Doctor of Philosophy

Reza Barazideh
Co-Major Professors: *Bala Natarajan and Alexei Nikitin*
Dissertation: *Impulsive noise detection and mitigation in communication systems*

Charles Carlson
Major Professor: *Steve Warren*
Dissertation: *Development of a bed-based nighttime monitoring toolset*

Solmaz Niknam
Major Professor: *Bala Natarajan*
Dissertation: *Interference modeling and performance analysis of 5G MmWave networks*

Ahmad Suliman

Major Professor: *David Thompson*

Dissertation: *Quality of heart rate variability features obtained from ballistocardiogram*

Entomology

Doctor of Philosophy

Lina Maria Aguirre Rojas

Major Professor: *C. Michael Smith*

Dissertation: *Towards the development of soybean resistance to *Dectes texanus* LeConte (Coleoptera: Cerambycidae): Evaluation of conventional resistance in the soybean plant introduction 165673, transcriptomic analyses, and gene silencing by RNA interference*

Yinping Li

Major Professor: *Raymond Cloyd*

Dissertation: *Effects of the rove beetle, *Dalotia coriaria*, on western flower thrips, *Frankliniella occidentalis*, under laboratory conditions; and integrating the entomopathogenic fungus, *Beauveria bassiana*, with *D. coriaria* to suppress western flower thrips populations under greenhouse conditions*

Food Science

Doctor of Philosophy

Zaher Qassim Albashabsheh

Major Professor: *J. Scott Smith*

Dissertation: *The inhibitory effect of natural antioxidants on formation of 2-amino-1-methyl-6-phenylimidazo [4,5-B] pyridine (PhIP) in a model system*

Ziyi Linghu

Major Professor: *J. Scott Smith*

Dissertation: *Amino acid effects on the formation of heterocyclic amines in the Maillard reaction model systems and pan-fried beef patties*

Geography

Doctor of Philosophy

Christie Anderson

Co-Major Professors: *Xiangxing Max Lu and Jeffrey Smith*

Dissertation: *Resettlement and adjustment of Bhutanese refugees in the Kansas City metropolitan area*

Grain Science

Doctor of Philosophy

Renan Antunes Donadelli

Major Professor: *Greg Aldrich*

Dissertation: *Effects of *Miscanthus* grass as a fiber source in pet diets on extrusion processing and diet utilization by dogs and cats*

Beibei Li

Major Professor: *Subramanyam Bhadriraju*

Dissertation: *Effects of chlorine dioxide and ozone gases against immature stages of stored-grain insects*

Pavan Harshit Manepalli

Major Professor: *Sajid Alavi*

Dissertation: *Use of thermoplastic starch in poly(lactic acid)/poly(butylene adipate-co-terephthalate) based nanocomposites for bio-based food packaging*

Zhenyu Tong

Major Professor: *Yongcheng Shi*

Dissertation: *Improving starch saccharification process for production of sugar and fermented chemicals*

Jianteng Xu

Major Professor: *Yongcheng Shi*

Dissertation: *Preparation, characterization, and applications of highly substituted starch derivatives*

History

Doctor of Philosophy

Daniel Thomas Timothy Gresham

Major Professor: *James Sherow*

Dissertation: *Reshaping the cattle industry: The origin of collaboration between big producers and big meat packers, 1914-1933*

Mathematics

Doctor of Philosophy

Niles Armstrong

Major Professor: *Ivan Blank*

Dissertation: *Nonconvexity and compact containment of mean value sets for second order uniformly elliptic operators in divergence form*

Mechanical Engineering

Doctor of Philosophy

William Evan Asher

Major Professor: *Steven Eckels*

Dissertation: *Characterization and numerical simulation of liquid refrigerant flow emerging from a flooded evaporator tube bundle*

Puxuan Li

Major Professor: *Steven Eckels*

Dissertation: *Validation of large eddy simulations for modeling micro-structured enhanced heat transfer surfaces*

Microbiology

Doctor of Philosophy

Pragvesh Dhungel

Major Professor: *Zhilong Yang*

Dissertation: *Selective protein synthesis during vaccinia virus-induced host shutoff*

Nuclear Engineering

Doctor of Philosophy

Wenkai Fu

Major Professor: *Jeremy Roberts*

Dissertation: *Modeling and simulation of neutron detectors for the transient reactor test facility*

Pathobiology

Doctor of Philosophy

Abaineh Dagne Endalew

Major Professor: *Jürgen Richt*

Dissertation: *Development of animal model, vaccines, and diagnostics for Schmallenberg virus*

Ti Lu

Co-Major Professors: *Ying Fang and Weiping Zhang*

Dissertation: *A broadly effective vaccine against porcine post-weaning diarrhea related to ETEC*

Vlad Petrovan

Major Professor: *Bob Rowland*

Dissertation: *Antigenic characterization of African swine fever virus (ASFV) p30 and p54 proteins*

Miaomiao Wu

Major Professor: *Philip Hardwidge*

Dissertation: *Enterobacterial type three secretion system effectors and their interference with host innate immunity*

Personal Financial Planning

Doctor of Philosophy

NaRita Gail Anderson

Co-Major Professors: *Dorothy Durband and*

Diane Kiss

Dissertation: *Do financial knowledge, financial risk tolerance, and uncertainty regarding future long-term care need influence long-term care insurance ownership by baby boomers?*

Phillip Zepp

Major Professor: *Sonya Britt Lutter*

Dissertation: *The influence of chronic physiological stress on financial health perceptions*

Physics

Doctor of Philosophy

Dalath Rachitha Asanga Mendis

Major Professor: *Andrew Ivanov*

Dissertation: *Search for vector-like T quarks using events with oppositely-charged lepton pairs and jets in proton-proton collisions at centre-of-mass energy of 13 TeV with CMS detector*

Adam M. Summers

Major Professor: *Daniel Rolles*

Dissertation: *Strong-field interactions in atoms and nanosystems: Advances in fundamental science and technological capabilities of ultrafast sources*

Hewa Walpitage Kushan Madushanka

Weerasinghe

Major Professor: *Brian Washburn*

Dissertation: *Power scaling and mode quality of an acetylene mid-infrared hollow-core optical fiber gas laser*

Psychology

Doctor of Philosophy

Aaron Christopher Entringer

Major Professor: *Laura Brannon*

Dissertation: *Promoting safe-sun behaviors in outdoor workers*

Sarah Sleiman Haidar

Major Professor: *Clive Fullagar*

Dissertation: *Proactivity in the workplace: The role of flow in the relationship between proactivity and subjective well-being*

Security Studies

Doctor of Philosophy

Veterinarians Oath

Being admitted to the profession of veterinary medicine, I solemnly swear to use my scientific knowledge and skills for the benefit of society through the protection of animal health and welfare, the prevention and relief of animal suffering, the conservation of animal resources, the promotion of public health, and the advancement of medical knowledge.

I will practice my profession conscientiously, with dignity, and in keeping with the principles of veterinary medical ethics.

I accept as a lifelong obligation the continual improvement of my professional knowledge and competence

Speaker

Robert Larson

Robert Larson received his veterinary medical degree from Kansas State University in 1987. After practicing for a year in southeast Kansas, he returned to K-State to pursue graduate training in the animal sciences and industry department, earning a doctorate in 1992.

After four years in private practice, he joined the faculty at the University of Missouri, working in the area of beef production medicine. In 2006 he returned to K-State as the Coleman chair of food animal production medicine.

Larson provides about 550 hours of classroom instruction to veterinary and graduate students each year. He has served as major professor for six doctoral students, four Master of Science students and 17 Master of Public Health students. He has

served on the graduate committee for an additional eight doctoral students, 14 Master of Science students and 20 Master of Public Health students.

Receiving more than \$2.4 million in research support in the past five years, Larson has more than 100 peer-reviewed publications and 20 textbook chapters. He is board certified by the American College of Theriogenologists, the American College of Animal Nutrition and the American College of Veterinary Preventive Medicine.

Speaker

Michelle Munson

Kansas State University alumna Michelle Munson is the co-founder and CEO of Eluvio, a software startup pioneering new technologies for a content-centric internet focused on scalability, content protection and native commerce. Eluvio's Content Fabric, slated for commercial availability in 2019, is an open, high-performance software network for management and distribution of large-form video content in ways never before possible. Created for content publishers, the content fabric allows publishers, viewers and sponsors to form new media services and marketplaces that benefit all parties with transparency, efficiency and inherent monetization. Munson also founded East

Bay software company Aspera in 2004 and led the company as CEO until May 2017, including through acquisition by IBM in 2014.

Munson holds several patents and is a frequent speaker in the areas of content networking, machine learning, blockchain and cloud infrastructure. She was the 2016 Charles Swartz awardee — the same award that Ray Dolby, the founder of Dolby Technologies, has received. She also is a Society of Motion Pictures and Television Engineers fellow. In 2016 she was named the IABM Woman Entrepreneur of the Year and TV NewsCheck Woman of the Year, and she was named one of the most influential women in business by the San Francisco Business Times in 2017.

Though she has lived her adult life in Berkeley, California, Munson has strong roots in Kansas and Manhattan. Her family holds more than 20 degrees

from Kansas State University. Charles Munson, her father, is a fifth-generation Kansas farmer and was named a College of Agriculture distinguished alumnus. Her mother, Deanna Munson, is a retired faculty member and holds three degrees from K-State. David Munson, her brother, graduated from the College of Agriculture. Ralph Munson, Munson's grandfather, graduated from K-State in agricultural economics, and her aunt, Virginia Moxley, is the former dean of the College of Human Ecology.

Munson began her K-State career in preschool, attending Hoefflin Stone House Early Childhood Education Center. Selected as a Goldwater scholar while an undergraduate at K-State, Munson holds dual bachelor's degrees in electrical engineering and physics from the university. She also was a Fulbright scholar at Cambridge University where she received a postgraduate diploma in computer science.

Speaker

Bill Snyder

The winningest coach in the history of Kansas State University football and the architect of the "greatest turnaround in college football history," Bill Snyder retired as head coach of the Wildcats in December 2018 and now serves in a special ambassador role for the university.

At his retirement, Snyder was the 20th winningest coach in FBS history and currently ranks second among active Football Bowl Subdivision coaches in wins. Under Snyder, K-State has the third most wins in the Big 12 with 104.

In all, Snyder led K-State to 19 of the school's 21 all-time bowl appearances, won conference titles in 2003 and 2012, achieved two No. 1 national rankings, coached players who received a total of 214 All-America honors, 13 Academic All-Americans, was a five-time national coach of the year, seven-time conference coach of the year and became just the fourth active coach to be inducted into the College Football Hall of Fame, which took place in 2015.

When Snyder was named the Wildcats' head football coach in 1988, he inherited a team that had just suffered through its second consecutive winless season and was on a current 0-26-1 stretch. It was a program that had been through

14 different head coaches and won just 24 percent of its games — going 137-455-18 — between Lynn "Pappy" Waldorf's 1934 Big Six championship team and Snyder's hiring. It did not take long for Snyder to change the entire culture of the program. In just his third year, he guided the 1991 Wildcats to a 7-4 record to give K-State just its second winning season since 1970. For his efforts, Snyder was named ESPN's National Coach of the Year.

Just two seasons later, Snyder would guide Kansas State to a 9-2-1 record and a berth in the 1993 Copper Bowl, marking just the second bowl appearance ever by the Wildcats. It was the first of 11-straight postseason appearances for Snyder's Wildcats. K-State also became just the second team in the history of college football to win 11 games in six of seven seasons from 1997 and 2003.

Following a three-year retirement from 2006-2008, Snyder returned to the K-State sidelines in 2009 with hopes of revitalizing a program that he once built, piece by piece, into a national force. And, after nine seasons back in charge, he did just that — and then some. Over the past 10 years under Snyder, K-State totaled 79 victories, advanced to eight bowl games, won a conference championship in 2012 and finished third or better in the ultra-competitive Big 12 Conference in four of the last seven seasons.

But Snyder's impact at K-State continues to reach far beyond the football field. In addition to rekindling an overwhelming sense of pride in K-State alumni and supporters from coast

to coast, he has been an active supporter of several key university, community and state programs. Snyder serves as chairman of the Kansas Mentors Council and the Kansas Leadership Council. He also has served on the board of directors for the Kansas Leadership Center and the Prairie Fire Museum of Natural History in Kansas City, as well as the board of trustees for the KSU Foundation, Kansas Sports Hall of Fame and the Manhattan Community Foundation.

Snyder, his wife, Sharon, and family also have invested in the future of many programs that are valuable to a university education such as the Marianna Kistler Beach Museum of Art, Kansas State University Gardens, McCain Auditorium, K-State Libraries and the university's Johnson Cancer Research Center.

In addition, Snyder's well-known 16 goals to success — commitment, unselfishness, unity, improve, be tough, self-discipline, great effort, enthusiasm, eliminate mistakes, never give up, don't accept losing, no self-limitations, expect to win, consistency, leadership and responsibility — have been incorporated into the Snyder Leadership Legacy Fellows program for K-State students, which is offered by the university's Staley School of Leadership Studies through a partnership with K-State Athletics.

Award

Distinguished Service Award

Emmy L. Chamberlin

Emmy L. Chamberlin, the project manager for campus planning and project management with Kansas State University's Division of Facilities, is the recipient of the Distinguished Service Award from the College of Architecture, Planning & Design.

Chamberlin, who grew up in the suburbs of Kansas City, said she had an interest in architecture before she even knew the word. Although she initially wanted to attend an architecture school out of state, she chose in-state K-State because it has one of the best architecture programs in the nation. She also married one of her classmates and both went on to earn their architecture degrees in 2009.

As part of her job with K-State, Chamberlin has watched the Manhattan campus change in big ways. She has been a member of the project teams for the Chester E. Peters Recreation Center expansion,

renovation of West Memorial Stadium and for the College of Architecture, Planning & Design's renovation and expansion project.

"I feel strongly that architects have a responsibility to be good stewards of this earth, and I grapple with how to carry that out in my professional and personal life," Chamberlin said.

Oath of Education

I hereby pledge my dedication to the profession of teaching. I accept the obligations and the challenges of guiding students to knowledge, always showing them care and concern. I will encourage respect for all people, and will cultivate the disciplined, yet free minds necessary for a democratic way of life.

I promise to champion policies which promote quality in teaching and learning. I will provide everyone engaged in education the opportunity to achieve their own level of excellence. I will strive to become a knowledgeable, ethical, caring decision maker and emulate these qualities which I pledge to foster. I recognize that at times my endeavors may prove discouraging. Nonetheless, I remain faithful to the belief that my actions in the pursuit of these goals make me worthy of my profession, and make my profession worthy of a free people.

Speaker

Joe Hubener

Joe Hubener is a social studies teacher at Clearwater High School. He graduated from Kansas State University in 2015 with a bachelor's degree in secondary education and began work on his master's degree in educational leadership. Earlier this year, Hubener was

selected as a 2019 Horizon Award winner, the Kansas State Department of Education's highest recognition program for exemplary first-year teachers.

Success is not new to Hubener, who is inspiring students in his classroom just the way he captivated football fans as a quarterback of K-State's beloved Wildcats. He teaches sophomore world history and several electives, including geography and world history in the media, all while serving as an assistant coach for

the Clearwater High School football team and as a member of the district's technology committee.

Hubener and his wife, Robyn, who is a 2017 bachelor's degree graduate in elementary education from K-State, married in 2017 — the same year he began teaching at Clearwater. Hubener's parents, Jerry and Kendra Hubener, moved frequently then settled in Cheney where Hubener grew up. He graduated from Cheney High School in 2011.

Awards

Dan and Cheryl Yunk Excellence in Educational Administration Award

David Thompson

David Thompson, whose 45-year professional career includes serving as a public school teacher, high school principal, superintendent of schools and professor, has been named this year's recipient of the prestigious Dan and Cheryl Yunk Award.

The Yunks were both exemplary teachers and administrators throughout their careers in the Manhattan-Ogden school system. Established in their honor, this award recognizes the importance of educational administrators in establishing environments that promote student learning.

A specialist in pre-K-12 education finance, Thompson is routinely sought out nationwide as an expert witness

in education finance-related litigation and by media outlets seeking an authoritative voice on the complex subject.

Thompson's publication record contains nine books, including fourth and seventh editions; 27 refereed monographs; 24 refereed book chapters, including chapters in four consecutive yearbooks of the American Education Finance Association; 37 refereed journal articles; and 21 other published works. His latest book, "Funding Public Schools in the United States and Indian Country," is the single authoritative national compilation of how pre-K-12 education is funded across the continent today. His chapters and journal articles appear in the most prestigious venues on the subject.

Thompson has received numerous awards, including the University Council for Educational Administration's Award of Appreciation for Sustained and Meritorious Service for his contributions to the field through the council's Center for Education Finance, which from 1989-2006 was hosted by Kansas State University and the University of Florida. He has also received K-State's Outstanding Education

Research Award and the Distinguished Service Award to Leadership Studies. In 2012, he was named a distinguished fellow of research and practice by the National Education Finance Academy, and in 2013 was awarded the Lifetime Achievement Award by the National Education Finance Academy. Also in 2013, he was inducted into K-State's Academy of Fellows. In 2014, he was named Elvon G. Skeen endowed chair in education at K-State.

Thompson holds an educational doctorate in educational administration from Oklahoma State University and postdoctoral credit in education law from Harvard University. He has been at K-State since 1987, serving from 1989-2006 as founding co-director of the University Council for Educational Administration Center for Education Finance and serving continuously as professor and chair of the educational leadership department since 1993, receiving the university's 2012 Presidential Award for Outstanding Department Head.

Kathryn A. Holen Excellence in Advising Award

Sandra Avalos

Sandra Avalos, academic advisor in the College of Education's Center for Student Success, is this year's recipient of the Kathryn A. Holen Excellence in Advising Award.

A native Texan, Avalos moved to Manhattan in 2013 because of her husband's military career. She currently

advises pre-service teachers majoring in elementary education, secondary business and social studies education.

Avalos earned her undergraduate degree in history and secondary education from Tarleton State University and taught social studies for seven years in Texas while working on her master's degree in history before moving to Germany with her family. While in Germany, she worked for the U.S. Army, counseling soldiers and family members on their educational pursuits.

Upon moving back to the U.S., Avalos received her master's degree in school counseling from Bowie State University. She worked as a career counselor and at-risk

student coordinator, focusing her efforts on students at-risk of not graduating from high school.

"The greatest honor bestowed upon a person is that of teacher-mentor-advisor," Avalos said. "I know that I am in a time-honored position that requires the utmost precision. I have to impart my wisdom, knowledge and advice in such a way that ensures the student is always learning. My goal in advising is to teach my students so well that they won't need me anymore. My hope is that they will eventually become so versed in program requirements, decision-making and study skills, and critical thinking skills that they soar through every obstacle. And as a result, they come to see me primarily because we have established a relationship built on mutual respect and understanding."

Speaker

Charlie Morrison

Kansas State University alumnus Charlie Morrison is chairman and chief executive officer of Dallas-based Wingstop Inc., the 25-year-old restaurant brand that pioneered chicken wings as a center-of-the-plate item. Morrison joined Wingstop in 2012 and has led its expansion from approximately 500 restaurants to more than 1,200 restaurants across the U.S. and nine countries around the world, generating more than \$1.2 billion

in system revenue. He also led Wingstop through one of the restaurant industry's most successful initial public offerings in 2015, and has since added over a billion dollars in shareholder value.

An industry veteran with more than 25 years at companies including Pizza Hut, Steak and Ale, Kinko's and Boston Market, Morrison most recently served as president and CEO of Rave Restaurant Group, parent of the award-winning Pie Five Pizza Company, the nation's first fast-casual pizza chain.

The food service industry has recognized Morrison's accomplishments with several awards, including the

2012 Hot Concepts Award and the 2015 Golden Chain Award, as well as the 2016 Silver Plate award from the International Foodservice Manufacturers Association.

Morrison is actively involved in the community and serves as chairman of the board of Cristo Rey Fort Worth High School, part of a network of 32 schools across the U.S. focused on eliminating poverty through access to a college preparatory education. He also serves as a trustee of the KSU Foundation.

Morrison and his wife of 29 years, Debbie, live in Southlake, Texas.

Awards

Kate Wilkinson

Ralph E. Reitz Outstanding Teaching Award

Kate Wilkinson, instructor of finance, is the recipient of 2019 Ralph E. Reitz Outstanding Teaching Award. Wilkinson joined Kansas State University in August 2016 and is currently teaching Principles of Finance, the introductory class required by all business majors and those undertaking a business minor. She has previously taught a graduate-level financial statement analysis course.

Wilkinson strives to connect with her students in and outside the classroom, creating an active learning environment that makes a large class feel smaller. Through lecture-based tutoring, she seeks to engage students to make a challenging class understandable.

Along with her teaching duties, Wilkinson has publications in *Financial Review*, *Pacific Accounting Review*, *Pacific Basin Finance Journal*, *Advances in Accounting Behavioral Research*, *Today's CPA* and *Tax Adviser*. She currently serves as the faculty co-advisor for the Student Finance Association and on the College of Business Administration's diversity committee.

Her degrees include a bachelor's in economics from Macquarie University in Sydney, Australia; a graduate diploma in applied statistics from Massey University in Palmerston North, New Zealand; and a doctorate in finance from Texas Tech University.

Kevin Moodie

KS StateBank Teaching Excellence Award

Kevin Moodie, academic advisor in the College of Business Administration's Student Success Center, is the 2019 recipient of the KS StateBank Outstanding Advising Award. Joining the college in 2015, Moodie enjoys working with students and helping them realize strategies for academic and personal success. He loves to develop and maintain professional relationships with students by supporting their personal goals and major progress.

In addition to working with students, Moodie is the curriculum liaison for the management information systems program; he manages the Business Orientation course content and workshops; and he is part the college's website redesign committee.

Originally from Detroit, Moodie's path led him to pursue a bachelor's degree in business management while playing collegiate hockey at Davenport University. After receiving his degree, he spent four years working for Envision EMI in Washington, D.C., and in various cities throughout the U.S., helping develop sixth through 12th grade students' leadership and critical thinking. These experiences led him to pursue a master's degree in college student affairs leadership at Grand Valley State University.

Jiho Yoon

College of Business Administration Developing Scholar Research Award

Jiho Yoon, assistant professor of management, is the recipient of the 2019 College of Business Administration Developing Scholar Research Award. The honor recognizes a faculty member who has excelled in research activities.

Joining the college's management department faculty in fall 2016, Yoon's main research interests include large-scale optimization, game theory, machine learning and intersections of these interests with supply chain and logistics network design, sustainability, supply chain risk management and other areas. He has authored and co-authored numerous articles in top-tier journals. He teaches courses primarily in Supply Chain Management and Data Analytics.

Yoon earned his master's degrees in industrial and operations engineering from the University of Michigan, and his doctorate in supply chain management from the Broad College of Business at Michigan State University.

Speaker

Rick Malir

City Barbeque founder and CEO Rick Malir grew up on a farm south of Wilson, Kansas, and later graduated cum laude from Kansas State University with a Bachelor of Science in agricultural economics.

In 1999 Malir left a promising career with John Deere, teamed up with a competition barbeque

team, bought an old doughnut shop in Ohio, and opened the first City Barbeque. Twenty years later, City Barbeque has restaurants in seven states: Ohio, Kentucky, Indiana, Illinois, Michigan, North Carolina and Georgia; more than 1,400 team members; and serves more than 9 million pounds of meat a year — all with Malir still at the helm.

Malir guides the company's values: a dedication to competition-quality food and incredible hospitality; a drive for continuous improvement; and a promise to stay true to City Barbeque's purpose of serving and creating happiness.

Malir's first priority is to take care of his team, which calls for industry-leading pay, ever-improving benefits, scholarship opportunities and more. City Barbeque's teams serve their local communities by giving back pretax profits to local charities and nonprofits; donating food both to community events and to food-insecure families via Food Rescue; and raising funds for organizations such as the American Cancer Society, the Resurrecting Lives Foundation and the FFA, as well as thousands of local charities and nonprofits.

Under Malir's leadership, the company has been awarded by everyone from the Kansas

City Barbeque Society to the National Turkey Federation. With honors dating back two decades, City Barbeque has been recognized for its scratch-made food, expert catering, longstanding community involvement and industry-leading people services. The foundation of City Barbeque's success is derived largely from the culture Malir has created and nourished.

Malir and his wife, Bonnie, live just north of Dublin, Ohio, with their three Labrador retrievers: Fonzie, Reagan and Dixie Belle. In his spare time, Malir enjoys traveling, riding motorcycles and recreational aviation.

Speaker

Venki Chandrashekar

of corporate development, leading the strategy and execution team for mergers and acquisitions.

As general manager of specialty chemicals for ChevronPhillips Chemical Company LP, Venki Chandrashekar oversees all commercial aspects and profit and loss responsibilities of this global business with teams in the Americas, Europe and Asia.

Chandrashekar, who joined ChevronPhillips Chemicals in 2012, previously served as the company's director

Before joining Chevron Phillips Chemicals in 2012, Chandrashekar worked as an independent consultant to several investment banks, the International Finance Corporation — or World Bank — and top consulting companies. From 1992-2009, he worked for Lyondell/LyondellBasell where he led or assisted several merger and acquisition transactions and joint ventures for the polymers and chemicals business as director of corporate development. Earlier positions include technology and commercial functions at Lyondell, Aristech — formerly Braskem — and Tolaram Fibers.

Chandrashekar came to the U.S. from India in 1982 to attend graduate school at Kansas State University after finishing his undergraduate engineering degree in textile technology from the

University of Madras, India. At K-State, he did his master's program in clothing and textiles in Justin Hall, a life-changing moment, as he recalls.

Passionate about mentoring and developing young diversity professionals, Chandrashekar also is interested in cross-border and cross-cultural dealings both personally and professionally. He volunteers for a number of community causes to raise funds for education and community outreach in The Woodlands, Texas, and he supports a number of causes for the underprivileged in India.

Chandrashekar and his wife, Rohini, a board certified physical therapist, have two grown sons.

Awards

Dawley-Scholer Award for Excellence in Student Development

Junehee Kwon

Junehee Kwon, professor of hospitality management, is the recipient of the Dawley-Scholer Award, which recognizes and rewards outstanding achievement in the area of student development resulting in the personal, professional, educational growing of one or more undergraduate and/or graduate students.

The key to Kwon's philosophy of student development is the idea of community. She works with her graduate students to help them develop a community setting where they can help one another accomplish their professional goals. By operating as a community, students develop leadership skills, gain experience as a team leader and follower, have the opportunity to support and develop multiple research projects and advance their teaching techniques.

Over the last 11 years, Kwon has mentored 12 doctoral students, with eight of them successfully earning their degree. Of the eight graduates, seven are now working in higher education institutions while the eighth is a lieutenant colonel in the U.S. Army, leading a dietetics internship program.

Faculty Research Excellence Award

Richard Rosenkranz

As the recipient of the Faculty Research Excellence Award, Richard Rosenkranz is being recognized for superior accomplishments in research, scholarly and creative activities, and discovery.

Rosenkranz is a professor of food, nutrition, dietetics and health. Over the past five years, he worked with a regional Girl Scouts council to address healthful eating, physical activity and obesity prevention among school-age girls in 22 counties in northeast Kansas. Over the course of multiple project phases, hundreds of troop leaders have participated in wellness training, with subsequent impact on more than 1,000 girls and their parents.

Outcomes of the project have included the designation of the team's work as a Research-Tested Intervention Program with the National Cancer Institute; a wellness-promoting practices website for troop leaders; widely available Girl Scouts Wellness promotion curricular materials and professional-grade training videos; numerous national and international scientific presentations and peer-reviewed publications that have been cited and used to inform policy; stronger connections between the university and the region; and a new generation of public health researchers and practitioners in engaged scholarship.

Myers-Alford Teaching Award

Linda Yarrow

Linda Yarrow, instructor of food, nutrition, dietetics and health, is the recipient of the Myers-Alford Teaching Award, which is presented to a faculty member who has demonstrated outstanding ability not only in teaching undergraduate and/or graduate students, but also in providing valuable information to colleagues, peers and other practitioners in the field.

Yarrow says preparation and passion are the best words to represent her teaching style. Her personal preparation allows her to provide the most up-to-date clinical information in her field as well as improve her teaching skills. Her passion for the subject matter keeps students engaged and interested in the topics covered in class.

Yarrow values preparation and passion not only for herself but also for her students. Her goal is to inspire her students to be passionate about the subject matter and helping others. Using real-life examples and case studies, she challenges students to use the knowledge they have gained and apply it to actual scenarios in order to achieve positive outcomes. Students describe Yarrow as uplifting, inspirational and as truly caring about her students.

Speaker

Wayne Harms

After earning his degree in chemical engineering from Kansas State University, Wayne Harms joined the Exxon Corp. in New Orleans. Initially, he used his chemical engineering training to build Exxon's cryogenic processing plants. Soon after, he passed the Professional Engineering exam in petroleum

engineering and began a new chapter in his career. Now working in the upstream at Exxon, he and

his family moved every three years across the U.S. as he was given assignments with increasing responsibilities. Eventually, Harms and his family went overseas for 10 years, living in Hong Kong and in Qatar in the Middle East. Conducting business all over the globe for the last several years of his 30-year career, he accumulated millions of air miles and hundreds of stories. He retired a few years ago in Houston as a vice president for ExxonMobil after a fulfilling career with the company.

Today, Harms lives in Connecticut and is very active with nonprofit organizations. He is a member of the K-State Engineering Hall of Fame and the Seaton Society, and is a chairman emeritus of the

Engineering Advisory Council. He plays golf and studies the history of his family's home and the area along the Connecticut River waterfront in what was the Saybrook Colony, founded in 1635. He and his wife, Barbara, a K-State alumna, have three successful sons: one in Denver, one in Dallas and one in Rome, Italy.

A native of Newton, Harms is a proud steward of acreage in Harvey County — a portion of which is unturned native prairie grass — that has been in his family since the railroad obtained land grants and sold sections in the 1870s.

University Distinguished Professors

The title of University Distinguished Professor is the highest honor Kansas State University can bestow on its faculty. This lifetime title recognizes faculty making outstanding contributions to teaching, research and service to their professions and communities. University Distinguished Professors are appointed following a universitywide competition conducted by the provost and senior vice president. Each recipient receives a commemorative medallion upon appointment.

Coffman Chair for University Distinguished Teaching Scholars

The Coffman Chair for University Distinguished Teaching Scholars was created in 1995 to underscore Kansas State University's commitment to excellence in undergraduate teaching and learning. A faculty member acknowledged as a leading teaching scholar is appointed to the chair by the university's provost and executive vice president for one academic year. All who hold the chair retain the title of University Distinguished Teaching Scholar throughout their careers. During the year in residence, the scholar's time and resources are spent advancing the interests of undergraduate teaching and learning at the university.

Alumni membership

All colleges have provided graduates with a one-year membership to the K-State Alumni Association. Graduates also will receive a gift from the alumni association in recognition of their graduation today. K-Staters are some of the most loyal alumni in the country, and we are excited to welcome you into a new relationship with your alma mater. The K-State Alumni Association is your link for life to K-State. Learn more and stay connected by visiting K-State.com.

Program notes

The Commerce Bank and W.T. Kemper Foundation Teaching Awards are funded by the W.T. Kemper Foundation and the Commerce Bancshares Foundation.

The organ was supplied by Mid-America Piano, Manhattan.

Terry Ferguson is the bagpiper for all ceremonies at Bramlage Coliseum and at Kansas State University Polytechnic Campus.

If available, the hometowns of undergraduate students from Kansas are included in the listing of degree candidates. For students from out of state or out of country, the hometown and state or country are included.
