INTRODUCTION

The Food Distribution Division of the Food and Nutrition Service at USDA hopes you find this collection of Nonfat Dry Milk (NDM) recipes helpful. Many households receive instant NDM as a USDA commodity, yet many people are not used to cooking and baking with this product. Reconstituted NDM, meaning NDM with added water so it becomes a liquid, can be substituted for any recipe that requires fluid milk. For your convenience, we are including a chart on page 4 titled “Reconstituting Instant Nonfat Dry Milk.”

This collection of recipes includes appetizers, beverages, entrees, side dishes, desserts, and breads, all of which use NDM. We hope it provides you with new and different ways of using this USDA commodity.

These recipes have been collected for your convenience. Please note they have not been tested or standardized by USDA. If you reproduce any of them for your own use, please be sure to include the phrase “This recipe has not been tested or standardized by USDA.”

If you have an unusual or creative recipe not already listed here, a comment regarding a specific recipe, or a question about commodities, please contact us at: fdd-pst@fns.usda.gov.

Additional resources for commodities can be found on the homepage for the Food Distribution Division website at: http://www.fns.usda.gov/fdd. There you can also find links to other USDA nutrition assistance programs.

Cream Sauce
Makes about 1 cup

½ cup plus 3 tablespoons NDM + 1¼ cups water *
2 tablespoons butter
2 tablespoons flour
salt and pepper, to taste

1. Mix reconstituted NDM in saucepan. Cook on low heat until small bubbles begin to form at the edges; remove from heat.
2. Meanwhile, melt butter in a second saucepan. Stir in the flour and cook, stirring constantly, until the paste bubbles, about 2 minutes. Do not let the mixture brown.
3. Add the hot milk, continuing to stir as the sauce thickens. Bring sauce
to a boil. Add salt and pepper to taste; lower heat and cook, stirring, for 2 to 3 minutes more. Remove from heat.

4. To cool this sauce for later use, cover with wax paper or pour a film of milk over the surface to prevent a skin from forming.

**For cheese sauce**: Stir in ½ cup grated cheddar cheese during the last 2 minutes of cooking, along with a pinch of cayenne pepper.
