**One IT Efforts**

**One IT Community: Enabling through technology**

The One IT community for their contributions in reaching our goals. Thank you to K-State students, faculty and staff for their continued support of our efforts. Thank you to the One IT community for their contributions in reaching our goals. Thank you to K-State students, faculty and staff for their continued support of our efforts.

Our big accomplishments in 2019 were cloud first, multi-factor authentication, a new constituent relationship management platform and developing the Research Information Security Enclave.

Our big accomplishments in 2019 were cloud first, multi-factor authentication, a new constituent relationship management platform and developing the Research Information Security Enclave.

The committee began meeting on a monthly basis beginning in September 2019.

**Cloud First Strategy Milestones**

Cloud First Strategy Milestones

Upgrade the university network

Collaborated with the office of the vice president of research on the travel loaner laptop program

Assisted K-State Olathe with an upgrade of the door access server and event management software

Reminded K-Staters about what to look for in phishing scams

Enhanced cyber security awareness training

Replaced outdated virtual private network software

Upgraded firewalls

Began populating State of Kansas business continuity software.

**Comparison of Phishing Scams and Compromised eIDs**

Reminded K-Staters about what to look for in phishing scams

Enhanced cyber security awareness training

Replaced outdated virtual private network software

Upgraded firewalls

Began populating State of Kansas business continuity software.

**IT Project Governance Group (PGG)**

The IT Project Governance Group (PGG) is tasked with ensuring that new technology projects taken on by the university that can provide institution-wide vision on technology projects and have a vested interest in the outcomes of the projects not conflict with or overlap existing projects and initiatives.

The IT Project Governance Group (PGG) is tasked with ensuring that new technology projects taken on by the university that can provide institution-wide vision on technology projects and have a vested interest in the outcomes of the projects not conflict with or overlap existing projects and initiatives.

**Objectives**

Objectives

- Improve Enterprise Security
- Enhance cyber security awareness training
- Develop a new constituent relationship management platform
- Develop the Research Information Security Enclave (R.I.S.E.) to safeguard research data
- Enable IT for Research
- Partnering with VP of research, developed a Research Information Security Enclave (R.I.S.E.) to safeguard research data
- Information Technology Training
- The committee began meeting on a monthly basis beginning in September 2019.
