Module II – Standards, Benchmarks, and Indicators

Module II - Part I: Similarities among the Standards

Definitions of standards, benchmarks, and indicators differ among content areas.

True or False

The correct answer is (False)

Which of the following Curricular Standards does not have “Instructional Examples” as part of its right side column?

Reading

Mathematics

Writing

History/Government, Geography and Economics

Science

The correct answer is (B. Mathematics)

Assessed indicators are marked within the Curricular Standards with:

An asterisk

A delta

A dollar sign

The letter A

The correct answer is (B. A delta)

\
