

Discussion

- *Defining, Tracking, Communication*
 - The Deans are updated on a regular basis on the current state of the interruption. Dean Tolar will continue to update us and provide advice for workarounds
 - The survey and communication to campus, along with the launch of the website will be coming soon.
 - Kait to take a final look and provide a community-based learning lens to service-learning
 - Interim Provost Mercer to look at initial definitions and survey as first step of roll-out
 - Our defining work will continue as planned, but our work in identifying mechanisms can be paused
 - Maggie provided a website update
 - FAQ and Experiences in Development to be added
- *Community-Based Learning*
 - Dean Tolar hopes to accelerate this process
 - Maggie to follow up with Mirna on pilot location ideas
- *Imperative Sustainability*
 - Departmental grants to take a pause due to IT interruptions
 - Interview process to shift from an 'inventory' mindset, to a story-collecting purpose.
 - Dean Tolar will begin the process by communicating with Deans
 - Kerri, Maggie, and a student intern will meet with associate deans or department heads, following the advice of deans
 - Later, a team of student interns will begin collecting stories from instructors of record who are available in Spring
 - We aim to hear stories of Applied Learning efforts, resources available and needed, and to combine thought efforts with college-level strategic planning efforts.
- *What's on your mind?*

Next Steps

- Maggie to continue website planning, all to provide feedback on content and offer pictures, if possible
- Dean Tolar to continue Deans communication
- Emily and Maggie to create timeline and purpose for staged interviews
- Maggie to begin the hiring process for initial interns
