Call for better call center culture
Symposium to emphasize benefits of humane treatment

Treating cattle humbly is not only right, it's also good for bottom lines. • Dan Thomson leads multi-stakeholder symposium

Cattle Institute, which attracting
worldwide attention in Inte\national Beef Symposium on May 26-30 at K-State. A pre-symposium meeting is set May 28 on cattle welfare through proper handling. “Animal welfare is animal kindness,” Thomson said. “It’s not just a feeling, it’s a science.”

s, and 9:30-11:30 a.m. for classified staff and 8:30-10:30 a.m. for classified employees. Employee orientation takes place at 12:45 p.m. Friday and 8 a.m. Tuesday. The symposium  is an effort by K-State’s Sustainable Campus Initiative to synchronize the efforts of the beef industry, Thomson said. The mission of this symposium is to understand the impacts of welfare and to move forward in the interest of animal welfare.

Wanted: your help to find instructors who are teaching courses that you are not familiar with.

Music therapists work primarily with people whose lives have been touched by disability, illness, or trauma. For those who choose to become music therapists, it is a career that is highly rewarding but also challenging. It requires a dedication to continuous learning and improvement.

Music therapy is a healthcare profession that uses the therapeutic potential of music. Music therapists help people express themselves, gain insight, and improve their overall well-being.

To find instructors who are teaching courses that you are not familiar with:

1. Search for music therapy programs online to find programs that match your interests and requirements.
2. Contact music therapy programs to learn more about the curriculum and faculty.
3. Check with music therapy organizations for upcoming events, workshops, and conferences.
4. Attend music therapy conferences and workshops to network with other music therapists and learn about new trends in the field.
5. Join music therapy organizations to stay informed about the latest research and developments in music therapy.

If you are interested in music therapy, consider taking music therapy courses to gain a better understanding of the profession and its potential for personal and professional growth.

Music therapy is a fulfilling career choice for those who have a passion for music and want to make a difference in the lives of others. It is a field that offers opportunities for personal and professional development and can be a rewarding career choice for those who are interested in helping others.

If you are interested in pursuing a career in music therapy, consider taking music therapy courses to learn more about the profession and its potential for personal and professional growth. It is a field that offers opportunities for continuous learning and improvement and can be a rewarding career choice for those who have a passion for music and want to make a difference in the lives of others.
