

Thursday, December 6, 2018

5:30–7:30 p.m.

Willard Hall 217

DX Media Lab, Department of Art
Kansas State University

More info: dxmedialab.org/laser

The Leonardo Art Science Evening Rendezvous (LASER) series features short lectures and presentations on art, science and technology. Founded in 2008 by LASER Chair Piero Scaruffi on behalf of Leonardo/ISAST, LASER Talks are now presented at venues across the U.S. and internationally. Each evening includes presentations of art/science projects, news from the audience, and time for casual socializing/networking.
