

K-9 BLOOD DONORS NEEDED

Just like people, dogs have diseases or injuries that require blood transfusions. We are looking for healthy dogs who can donate blood to ensure every patient in need can be treated.

Canine Blood Donor Requirements:

- Between the age of 1-5 years
- Weight: 55 lbs. or more
- Good temperament: will lay on side for 5-10 minutes
- Never received a blood transfusion
- Females spayed (No previous litters) Males neutered
- Available for collection every two months
- Dog owners must live within a 30-minute driving distance

Benefits:

- Heartworm prevention
- Flea/tick preventives
- Annual vaccinations
- Annual CBC/Chemistry
- Urinalysis and fecal
- One bag of dog food after each donation

Ask how your dog
could help save a
life!
