Molière à 400 ans / Molière 400**

2022 is the 400th anniversary of Molière's birth and theaters around the world are celebrating his birth this year, including Kansas City (KC Molière 400)! In honor of the most famous French playwright of the seventeenth century and one of the best loved comedic minds of the world, this course will examine all things Molière. We will study several of his plays and how they have been adapted over time in various formats and modes. Through an interdisciplinary approach that will draw on digital humanities, performance studies, and literary and cultural studies, we will explore Molière's impact on his time and his enduring legacy on the global scale. We'll also participate in the global festivities! All texts will be open access.
