Dr. Mulcahy called the meeting to order at 10:38 AM. There was a quorum present.

1. Approval of Minutes. Minutes from the April 11, 2016 meeting were approved and will be posted as distributed.

2. Items of Business.

   o CEPH accepted the Interim Report and explanation. Our Annual Report for 2016 is due in December. To maintain accreditation status the next accreditation review must be before July 1, 2019. CEPH will finalize new accreditation criteria in December and we will be subject to the new requirements.

   o Dr. Mulcahy briefly reviewed the Director’s Report that Dr. Nguyen prepared in April to catch everyone up on what had been done.

   o The Fall 2016 edition to MPH Graduate Handbook is almost ready will be posted to the website.

   o Primary faculty update (Attachment 2) and changes to faculty advisory council. Adds to FAC are: Sara Gragg (FSB); Natalia Cernicchiaro (IDZ); Dr. Rosenkranz will follow up with the PHN faculty to find someone as Dr. Haub’s replacement because he is now the department chair. Rotating off FAC (but still primary faculty) are: Steven Chapes (IDZ) and Mark Haub (PHN). Deon van der Merwe is moving his emphasis from IDZ to FSB. We now have at least 4 primary faculty for each emphasis area so that when faculty move or retire we will not have to do an extra report for CEPH. As a reminder: The FAC is made up of faculty teaching core courses and 3 faculty members from each emphasis area. Not all primary faculty need to be members of the FAC.
The application review process for each emphasis area was discussed. The following was decided:
- FSB – All 4 faculty will receive and review the applications.
- IDZ – Continue with rotating applications to members.
- PHN – All 4 members will review the applications.
- PHPA – All 5 members will review the applications.

Course and Curriculum review for PHPA (Attachment 3). Process was reviewed. The MPH Program Office will need to have the report from the committee before January so the Course and Curriculum. PHPA will chair the committee because it is their emphasis area being reviewed. Members for the review are:
- FSB – Justin Kastner
- IDZ – Michael Sanderson
- PHN – Jennifer Hanson
- PHPA – Mary McElroy and Emily Mailey

Other course considerations discussed were:
- Consider adding DMP 710 – Introduction to One Health to all emphasis areas elective list. Update curriculum attached (Attachment 4).
- Addition of Field Experience meeting requirement for students enrolling in MPH 840 (Attachment 5).

Graduating students AY2016 and new students starting Fall 2016 (Attachment 6).

Student progress tracking. The MPH Student Progress Chart was handed out to emphasis area coordinators. Dr. Mulcahy briefly explained the new graduate school requirement of an “annual review of progress toward degree completion for all graduate students.” The MPH Program Office will formulate a policy and circulate it among the FAC for comments. The policy is due to the Graduate School on or before October 10.

MPH faculty applications for Erin Yelland, Assistant Professor and Extension Specialist in Family Studies and Human Services (Attachment 7) and Elaine Johannes, Associate Professor and Extension Specialist in Family Studies and Human Services (Attachment 8) were accepted as new MPH Graduate Faculty.

Next Meeting: October 10, 2016 in Mara Center at 10:30 AM.

Adjourn at 11:45 PM.
Attachment 1 – MPH Interim Program Director’s Report

CEPH Interim Report. Met with Dr. Ken Odde about Food Safety and Biosecurity emphasis area and asked for letter of commitment. Dr. Sara Gragg on the Olathe campus was identified and added as a primary faculty member for FSB. A person has been hired in Dr. Fung’s position but he requested we wait until the new person has their “feet under them.”

How To Graduate Meeting for MPH Students. A meeting was held for all MPH students on March 23 and graduation requirements were discussed. Items covered included:

- Program of Study
- MPH faculty handbook with information about faculty public health interests was distributed to help students in selecting graduate committee members.
- Field Experience requirement and possible sites
- Field Experience report
- Form to schedule final exam

The meeting was attended by 36 students/staff/faculty and lunch was served.

Public Health Week Activities. To celebrate National Public Health Week (April 4-10, 2016) the following activities were held.

- Treasure Hunt Passport. Required students to go to 10 locations in the City of Manhattan and on the K-State campus to receive a stamp on their passport. Once all stamps were collected students turned in their Passport and received a bag of goodies from Via Christi Regional Hospital and an MPH t-shirt.
- Picnic for all students, faculty, family and friends of public health.
- Thank-you and recognition of faculty with a MPH Polo shirt.
- K-State Public Health Week Proclamation from City of Manhattan. Students who received the Proclamation:

Introduction to One Health -- Syllabus

Course Number: DMP 710
Course Credits: 2 credit hours

K-State Online (KSOL) Website for Course Materials: http://public.online.ksu.edu/

Instructor Information: Paige Adams, DVM, Ph.D.
K-State Olathe
22201 W. Innovation Dr.
Room 170A
Olathe, KS 66061
Office phone: (913) 307-7367
apadams@ksu.edu
Class hours are by appointment only.

Course Description: "One Health" encompasses the complex interrelationships among humans and animals, humans and the environment, and animals and the environment. This course provides a broad-based introduction to One Health, incorporating recorded lectures, original videos of leading subject matter experts and researchers, case studies, and scientific readings. It addresses zoonotic diseases (those that may be transferred between humans and animals) and environmental issues that impact human, animal, and ecosystem health. Topics include disease surveillance, the human-animal bond, the built environment, disaster response, sanitation, rural/suburban/urban interface, and food safety and security.

Prerequisites: Two courses in the biological sciences

Course Format: This is a hybrid course led by the instructor, involving a combination of in-person class meetings (that can also be accessed remotely via Zoom) and online coursework assignments. Lecture videos, selected reference materials, reading assignments, and classroom assignments (including Discussion Questions) will be available to the students on K-State Online. The class will meet in person every Tuesday from 4:00 pm to 5:30 pm in Room 222B at K-State Olathe, where students will have the option of accessing a live version of the class remotely via web conference. These lectures will also be recorded for later viewing for both in person and distance sections of this course.

Course Learning Objectives
1. Become familiar with the One Health concept and the respective interrelationships among human health, animal health, and environmental health
2. Identify diseases with zoonotic potential and their routes of transmission
3. Define the role of One Health in food safety and defense
4. Demonstrate how a variety of natural and human-made environmental issues influence human health, and how communities impact the environment
5. Demonstrate how a variety of natural and human-made environmental issues affect animal health, and how animal populations affect the environment
Attachment 4: New Syllabus for DMP 710

6. Identify issues of society and nature that exemplify One Health and describe methods by which these may be addressed

Overall Structure

I. Introduction: The concepts and practices of One Health  
II. Relationships among humans and animals  
III. Relationships among humans and the environment  
IV. Relationships among animals and the environment  
V. Applied research case analysis for a term project

The Basic Concept of One Health:

Grades

</table>

A = 90 – 100%; B = 80 – 89.9%; C = 70 – 79.9%; D = 60 – 69.9%; F = 0 – 59.9%

Late Assignments

1. Discussion questions may not be completed late due to their interactive nature.
2. All other late assignments will have a 10% deduction off the total score for each day that the assignment is late.
3. If you need extra time to complete assignments, contact me as early as possible. I understand that you have busy lives outside of this course, and in most cases, I am happy to schedule new due dates. I will generally not grant last minute requests or requests after the due date has passed.

Extra Credit: There is no extra credit offered in this course. There are no exceptions.
Attachment 4: New Syllabus for DMP 710

Course Schedule

I. Introduction (1 week)

Week 1: Introduction to One Health
1. In class: Review the K-State online resources
2. In class: Review the syllabus
3. Post your profile (optional) (See Week 1 outline for more info)
4. Post your self-introduction in the Message Board (See Week 1 outline for more info)
5. In class lecture: Introduction to Microbiology
6. In class lecture: Introduction to Disease Models
7. Reading: Chapter 1, The Convergence of Human and Animal Medicine, pp. 1-6
8. Video: One Health – Dr. Laura Kahn (Time: 20:22)
9. Video: The Role of a Public Health Officer – Dr. Ingrid Garrison (Time: 3:41)
11. Reading: Chapter 2, Legal and Ethical Issues in Human-Animal Medicine, pp. 7-11
12. Reading: Chapter 3, Establishing a New Approach to Clinical Health History, pp. 12-17

II. Relationships among Humans and Animals (5 weeks)

Week 2: Globalization and the Human-Animal Bond
1. Reading: Chapter 5, Psychosocial and Therapeutic Aspects of Human-Animal Interaction, pp. 24-36
2. Video: Human-Animal Bond – Dr. Deb Sellers (Time: 10:34)
3. In class lecture: Role of Globalization in Emerging Diseases
4. Video: Introduction to Global Public Health – Dr. Deborah Briggs (Time: 8:57)
5. Video: Long Term Challenges in Global Public Health – Dr. Deborah Briggs (Time: 10:59)
6. Video: Sustaining Global Surveillance and Response to Emerging Diseases (Committee on Achieving Sustainable Global Capacity for Surveillance and Response to Emerging Diseases of Zoonotic Origin) – The Institute of Medicine and the National Research Council (Time: 7:05)
7. In class lecture: Comparative Medicine

Week 3: Zoonotic Diseases – Routes of Transmission
1. Reading: Chapter 9, Zoonoses (reference only), pp. 105-298
2. Reading: Chapter 10, Infectious Diseases Scenarios, pp. 299-330
3. In class lecture: Zoonotic Diseases 1: Routes of Transmission
4. Video: Be Aware of Diseases you and your Pet can Share – Dr. Susan Nelson (Time: 5:01)
5. Video: Leptospirosis – Dr. Kate KuKanich (Time: 6:37)

Week 4: Zoonotic Diseases – Vector-borne Diseases and Sentinel Animals
1. In class lecture: Zoonotic Diseases 2: Vector-borne Diseases
Attachment 4: New Syllabus for DMP 710

2. Video: Ehrlichiosis and Anaplasmosis – Dr. Roman Ganta (Time: 21:57)
3. Video: West Nile Virus – Dr. Bonnie Rush (Time: 15:54)
4. Reading: Chapter 4, Sentinel Disease Signs and Symptoms, pp. 18-23
5. In class lecture: Animals as Sentinels
6. Assignment: Discussion Questions 1

Week 5: Zoonotic Diseases – Foodborne Illness
1. Reading: Chapter 11, Foodborne Illness, pp. 331-342
2. In class lecture: Zoonotic Diseases 3: Foodborne Diseases
3. Video: Shiga-Toxin Producing E. coli – Dr. T.G. Nagaraja (Time: 20:15)
4. Assignment: Case Study Analysis 1

Week 6: Food Safety, Defense, and Security
1. In class lecture: Food Safety, Defense, and Security
2. Video: Food Safety – Dr. Doug Powell (Time: 09:09)
3. Video: Antibiotic Residues – Dr. Mike Apley (Time: 15:34)
4. Video: Milk Safety – Dr. Karen Schmidt (Time: 15:40)
5. Video: Safe Meat Processing – Dr. Elizabeth Boyle (Time: 21:08)
6. Assignment: Quiz 1

III. Relationships among Humans and the Environment (4 weeks)

Week 7: The Built Environment Disease Concerns
1. Reading: Chapter 6, The Built Environment and Indoor Air Quality, pp. 37-42
2. Reading: Chapter 8, Toxic Exposures, pp. 50-78 (First half of chapter)
3. In class lecture: Built Environment Disease Concerns
4. Video: Indoor Air Quality – Mr. Bruce Snead (Time: 24:11)
5. Video: Lead Poisoning – Dr. Ingrid Garrison (Time: 1:56)

Week 8: The Natural Environment Disease Concerns
1. Reading: Chapter 7, Allergic Conditions, pp. 43-49
2. Reading: Chapter 8, Toxic Exposures, pp. 79-104 (second half of chapter)
3. In class lecture: Natural Environment Disease Concerns
4. Video: Blue-Green Algae – Dr. Deon van der Merwe (Time: 15:48)
5. Video: Heavy Metal and Trace Mineral Toxicity – Dr. Saugata Datta (Time approximately 23:00)
6. Video: Heavy Metals and Trace Minerals in the Environment – Dr. Saugata Datta (Time approximately 24:00)

Week 9: The Built Environment: Physical Activity, Health, and Safety
1. In class lecture: Built Environment Effects on Physical Activity, Health, and Safety
3. Video: Design of Homes for the Human Life Span – Associate Prof. Migette Kaup (Time: 15:33)
5. Assignment: Discussion Questions 2

Week 10: Multiple and Reciprocal Levels of Human-Environment Interaction
Attachment 4: New Syllabus for DMP 710

1. Reading: Chapter 12, Occupational Health of Animal Workers, 343-371
2. In class lecture: Multiple and Reciprocal Levels of Human-Environment Interaction
3. Video: Maintaining Human Health in Short-Term Concentrations of People – Dr. Paul Benne (Time: 23:03)
4. Video: Rocky Mountain Spotted Fever – Dr. Kate KuKanich (Time: 9:34)
5. Assignment: Quiz 2

IV. Relationships among Animals and the Environment (4 weeks)

Week 11: Animals in the Built Environment
1. In class lecture: Animals and the Built Environment
3. Video: Exercising with Pets – Dr. Susan Nelson (Time: 2:18)
4. Video: Lead Toxicity in Livestock – Dr. Deon van der Merwe (Time: 15:11)
5. Assignment: Case Study Analysis 2

Week 12: Wildlife Habitat Encroachment / Introduction of Non-Native Species
1. In class lecture: Wildlife Habitat Encroachment
2. Video: Wildlife Encroachment – Dr. Sam Wisely (Time: 15:45)
3. In class lecture: Introduction of Non-Native Species
4. Video: Invasive Species – Dr. Kim With (Time: 27:15)
5. Assignment: Discussion Questions 3

Week 13: Climate Change and Effects on Animals / Animal Disaster Management
1. In class lecture: Climate Change and Effects on Animals
2. Reading: Chapter 13, Public health and Human-Animal Medicine, pp. 372-383
3. In class lecture: Animal Disaster Management
4. Video: Pets in Disasters – Dr. Christen Skaer (Time: 14:58)
5. Video: Livestock in Disasters – Dr. Tarrie Crnic (Time: 14:13)
6. Video: “Sampling Crab Larvae in the Gulf of Mexico” - Gulf Oil Spill - Dr. Marco Kaltofen, Civil and Environmental Engineer, Boston Chem Data Corp. (Time: 02:36)

Week 14: Bio- and Agro-Terrorism
1. In class lecture: Bio- and Agro-Terrorism
4. In class lecture: Risk Communication
5. Assignment: Quiz 3

V. One Health Case Analysis / Research Paper Term Project (2 weeks)

Week 15: Term Paper
1. Submit references
2. Work independently

Finals Week: Term Paper Submission
- Submit term paper
Attachment 4: New Syllabus for DMP 710

Kansas State University Policies

1. **Statement Regarding Academic Honesty**

   Kansas State University has an Honor System based on personal integrity, which is presumed to be sufficient assurance that, in academic matters, one's work is performed honestly and without unauthorized assistance. Undergraduate and graduate students, by registration, acknowledge the jurisdiction of the Honor System. The policies and procedures of the Honor System apply to all full and part-time students enrolled in undergraduate and graduate courses on-campus, off-campus, and via distance learning. The honor system website can be reached via the following URL: [www.k-state.edu/honor](http://www.k-state.edu/honor). A component vital to the Honor System is the inclusion of the Honor Pledge, which applies to all assignments, examinations, or other course work undertaken by students. The Honor Pledge is implied, whether or not it is stated: "On my honor, as a student, I have neither given nor received unauthorized aid on this academic work." A grade of XF can result from a breach of academic honesty. The F indicates failure in the course; the X indicates the reason is an Honor Pledge violation.

   For more information, visit the Honor & Integrity System home web page at: [http://www.ksu.edu/honor](http://www.ksu.edu/honor)

2. **Statement Regarding Students with Disabilities**

   Students with disabilities who need classroom accommodations, access to technology, or information about emergency building/campus evacuation processes should contact the Student Access Center and/or their instructor. Services are available to students with a wide range of disabilities including, but not limited to, physical disabilities, medical conditions, learning disabilities, attention deficit disorder, depression, and anxiety. If you are a student enrolled in campus/online courses through the Manhattan or Olathe campuses, contact the Student Access Center [access_center@k-state.edu](mailto:access_center@k-state.edu), 785-532-6441; for Salina campus, contact the Academic and Career Advising Center at [acac@k-state.edu](mailto:acac@k-state.edu), 785-826-2649.

3. **Statement Defining Expectations for Classroom Conduct**

   All student activities in the University, including this course, are governed by the Student Judicial Conduct Code as outlined in the Student Governing Association By Laws, Article V, Section 3, number 2. Students who engage in behavior that disrupts the learning environment may be asked to leave the class.

4. **Statement for Copyright Notification**

   Copyright 2012 (Jodi Freifeld, DVM, MBA; Robert L. Larson, DVM, PhD; Beth A. Montelone, PhD; Kansas State University) as to this syllabus and all lectures. During this course students are prohibited from selling notes to or being paid for taking notes by any person or commercial firm without the express written permission of the professor teaching this course.
## Required Field Experience

</tr>
</tbody>
</table>

**Description:** All MPH degree candidates are required to complete a field experience at an off-campus, non-academic, public health practice organization. The purposes of a field experience are to:

- Provide a bridge between professional academic preparation and public health practice;
- Allow the student to apply the knowledge, attitudes, and skills learned in the core public health courses and the area of emphasis courses in an agency setting under the supervision and guidance of a mentor-preceptor who has significant public health training and/or experience.

Typically the field experience is completed at the end of the coursework for the MPH so that the student may apply the knowledge gained from their graduate courses.

### Before enrollment in MPH 840 the following must be met:

- A completed and signed Program of Study.
- A completed and signed Field Experience Form.
- Attendance at the MPH 840 Presentation and Report meeting(s) before or during the semester in which the field experience report is presented.

### To receive credit for your field experience the following must be met:

- A written report, an oral presentation and demonstration of the body of knowledge and proficiency of the required MPH competencies.
- Satisfactory completion of all edits and corrections requested by your major professor and committee members.
- Delivery of the final corrected copy (with all edits) of your report and presentation slides to the MPH Program Office via email. (Note: The MPH Program Office will post the report and slides to K-REx.)

APPLICATION
MASTER OF PUBLIC HEALTH (MPH) PROGRAM FACULTY
KANSAS STATE UNIVERSITY

Please complete this form and send it along with an accompanying brief (2-3 page) Curriculum Vitae to: Dr. Ellyn Mulcahy, Director, Master of Public Health Program, 311 Trotter Hall.

PERSONAL INFORMATION
Name of Applicant: Erin Yeland
Title and Department: Assistant Professor and Extension Specialist / Family Studies and Human Services
Office Address: 343B Justin Hall
Office Phone: 532-1905 Email: erinyelland@ksu.edu

PROFESSIONAL RESPONSIBILITIES
Graduate Faculty Status: Yes  No
Graduate Courses Taught (limit 285 characters)

Because my appointment is .9 FTE Extension and .1 FTE Service, I do not teach graduate courses. However, I have been an invited guest lecturer in several courses and actively work with graduate students in both the Family Studies and Lifespan Human Development programs.

PERSONAL STATEMENT
Briefly describe in the space below, your interest, experience, current projects, and other contributions to the Master of Public Health program at Kansas State University (limit 855 characters)

As an Extension specialist, much of my work related to aging centers on preventing, managing and improving the health of aging Kansans. Specifically, I have developed programming focusing on Alzheimer’s disease education and the promotion of early diagnoses, steps to improving one’s overall well-being and longevity, legally preparing for health care crises, and the like. I also manage the implementation of programs focusing on caregiving and chronic disease self-management. It is through these programs that Kansas State Research and Extension finds a focus in enriching the health and wellness of aging Kansans.

In addition to program development and implementation, I have also just received a 2-year $350,000 grant from USDA NIFA to implement health and safety education programming in 22 rural counties across Kansas. I am also the co-chair of the North Central Region Aging Network, a group of Extension gerontologists from 12 states, which has a focus on improving and maintaining the health of aging individuals in our region. Additionally, I am a member of a group of individuals working to design, propose, and implement an initiative to transform some county-based Extension agents into community health workers. Through these efforts, and others, I find that my academic and Extension pursuits could be of benefit to the MPH program and its students.

PROFESSIONAL RESPONSIBILITIES

Graduate Faculty Status: ☑ Yes ☐ No

Graduate Courses Taught (limit 285 characters)

- Adolescent Health (FSHS 716)
- Program Administration and Management (FSHS 719)
- Adolescents and Their Families (FSHS 713)
- Grant Development and Management (FSHS 801)
- Transitions to Adulthood (FSHS 822)

PERSONAL STATEMENT

Briefly describe in the space below, your interest, experience, current projects, and other contributions to the Master of Public Health program at Kansas State University (limit 855 characters)

My interest in joining K-State’s Master of Public Health program stems from my commitment to improving the health and well-being of communities through student preparation, health programming, and partnerships. The experience I bring includes:
- teaching graduate courses (e.g., Adolescent Health, Adolescents and Their Families),
- leading Extension health programs (e.g., bullying prevention, child immunization, behavioral health),
- implementing community-based research projects (e.g., KDHE’s Title V Adolescent Health) and
- partnering to address social determinants of health (e.g., KU Medical Center, KCSL - Adverse Childhood Experiences, SAMHSA/USDA, Kansas Health Foundation).

Along with this experience, I have completed KU’s Public Health Leadership Fellows program and KDHE’s Evidence-based Public Health program. These professional trainings, along with memberships in AMCHP (American Maternal and Child Health), KPHA (Kansas Public Health Association) and KDHE’s Maternal and Child Health Council equip me to be a resource to the MPH program.
