Online Master of Public Health degree
For Doctoral-level Professionals

The MPH degree coupled with your medical training allows you to work with population health and focus on one of our emphasis areas: Food Safety/Biosecurity; Infectious Diseases/Zoonoses; or Public Health Nutrition. Understanding population health is vitally important to building healthy communities. Recognizing that the health of people is closely connected to the health of animals and the environment, One Health, coupled with public health provides opportunities for health professionals who can address these issues.

### Unique Features
- Pursue an MPH degree while you work.
- Up to 12 medical school credits may be used toward the MPH degree.
- Up to 10 PhD credits may be used toward the MPH degree.
- Start the MPH any semester (Fall, Spring or Summer).
- You can complete the MPH degree with ALL online classes. All classes needed are online and some in-class options are available.

**No application deadline!**
But you do have to be admitted BEFORE you enroll in MPH classes.
